In the past SBA has also established a separate size standard for the activity of

base housing maintenance. This size standard was utilized if a contract involved the use of special trade contractors in different industries (plumbing, painting, plastering, carpentering, etc.). The size standard was $7 million (the same as all industries in special trades at that time) and it was utilized when three or more special trade activities were incorporated in the same contract.

The size standard for any contract composed of three or more special trade activities (formerly defined as a base housing maintenance) will now be the size standard of the special trade accounting for the greatest percentage of the total contract value. This is similar to the rule established for determining the size standard for other multiple-item contracts.

Subcontracting Limitations

The Advanced Notice of Proposed Rulemaking published March 17, 1987, stated that "SBA intends to use the statutory figure of 50 percent as its reference point for all service and supply (including manufacturing) industries, and the figures established in SBA's regulation (13 CFR Part 124) for 8(a) firms as the reference point for construction. This advance notice stipulated that "at least 15 percent of the contract labor value for general contractors and 25 percent of special trades must be performed with the contractor's own work force." There was in the public response to the March 17, 1987, notice, some favorable response to the figures of 25 percent and 15 percent as required levels for a contractors's own work force in special trades and general contracting, and they are retained in this proposed rule. In addition, public comment provided no special data to challenge the 50 percent figure for either supply or service contracts, although several submissions contained general discussion, pro or con, on the subcontracting limitations.

SBA is authorized to deviate from the 50 percent requirement for supply and service contracts for any industry where it is necessary to reflect conventional industry practices among business concerns that are below the industry category. Therefore, SBA is soliciting further comments concerning specific industry practices that would support any deviation from this proposal. In proposing the 15 and 25 percent subcontracting requirements for general contractors and special trades respectively, SBA is attempting to approximate traditional industry practices in construction. Any commentors who are able to provide information on traditional industry practices in the construction industries are encouraged to comment to the SBA.

Geographic Size Standards

In the Advance Notice of Proposed Rulemaking published on March 17, 1987, (52 FR 8261), SBA solicited comments on the subject of establishing separate geographic size standards for segments of the dredging and ship repair industries as authorized by the special segmentation provisions contained in Pub. L. 99–591 and Pub. L. 99–661. These segmented standards were:

SIC—3731 Shipbuilding and Ship Repair.

(At present this industry has a size standard of 1,000 employees).

(1) Nuclear ship repair and shipbuilding
(2) Shipbuilding (nonnuclear)
(3) Nonnuclear ship repair at:
  (a) Puget Sound/Portland
  (b) San Francisco
  (c) Los Angeles/Long Beach
  (d) San Diego
  (e) New England
  (f) New York/Philadelphia/New Jersey
  (g) Norfolk/Baltimore
  (h) Charleston
  (j) Jacksonville, Florida
  (j) Gulf Coast

SIC—1629 Heavy Construction, Not Elsewhere Classified—dredging component

(At present this industry has a size standard of $9.5 million in gross annual receipts).

(1) *Heavy Equipment/Dredging*
  (a) Northeast
  (b) Southeast
  (c) Gulf Coast
  (d) West Coast
  (e) Great Lakes
(2) *Light Equipment/Dredging*
  (a) Northeast
  (b) Southeast
  (c) Gulf Coast
  (d) West Coast
  (e) Great Lakes

SBA requested information which could establish significant differences within an industry based on capital equipment or special labor needs, or geographic requirements. SBA also sought the public's view as to whether the three statutory prerequisites which must be present before geographic segmentation of size standards may be established are present in the two industries. These prerequisites are: (1) The Government typically designates the area where work for such contracts is to be performed, (2) Government purchases comprise the major portion of the entire domestic market for such goods or services, and (3) due to the fixed location of facilities, high mobilization costs, or similar comments on the March 17, 1987, **Federal Register** AMPRM notice were received from private firms, industry associations, and Government agencies (e.g., Corps of Engineers). A majority of those commenting on the notice did not support segmented size standards for dredging. The comments included one dredging firm and one association that favored the concept of a regional standard, while four firms and two associations were opposed. Comments on segmented size standards for shipbuilding and ship repair were received as follows: Two firms and one association favored the concept, four firms and one association were opposed, and one association reserved comment on this issue until a proposed rule was issued.

The respondents raised several concerns regarding the proposed segmentation. Respondents in both industries opposed the idea of segmented size standards based on legal considerations. In dredging, respondents argued that dredges are mobile, and therefore, the statutory condition precluding competition from outside the regions listed above is not met. In ship repair, respondents argued that firms could change their area of operation by either leasing space in another shipyard or by moving operations. Moreover, ships themselves are mobile allowing for contracts on a national or coast-wide basis. As a result, firms often compete with firms outside their regions.

In response to these objections, SBA also sought out the opinions of the Army Corps of Engineers for the dredging industry and the Navy for the ship repair industry. The Corps stated that the third requirement for segmentation was not present and opposed the proposal. The Navy does not support either geographic or equipment based segmentation of the ship repair size standard and prefers to continue following the current policies and procedures for ship repair set-asides. SBA concludes that neither the dredging nor the ship repair industry meet the statutory requirement that it is unlikely to expect competition from business concerns located outside of the general areas where such concerns are located. Accordingly, SBA is not proposing segmented size standards for these two industries.

Compliance With Regulatory Flexibility Act and Executive Order 12291

This proposed rule if made final would have a significant effect on a substantial number of small firms as described in the Regulatory Flexibility Act. It would also constitute a major rule under E.O. 12291. The preceding information described the basis for this proposed rule, why it is being made, its objectives, and how it is to be implemented. The legal bases for this proposed rule are section 3 and 5(b) of the Small Business Act, 15 U.S.C. 632 and 634(b) and section 921 of Pub. L. 99–591. Below is an economic analysis of this proposed rule. It assesses the impact on small business eligibility (demographic impact) for SBA's programs, and the dollar impact on Federal procurements and the affected firms.

This rule would affect businesses within the construction and surveying industries in terms of their eligibility for SBA programs. Focusing on construction, as a proportion of total economic activity, Federal procurement represents only about 3 percent of all construction; nonetheless, it has significant implications for a certain segment of construction firms.

Because the law mandates reductions in the amount of set-aside contracting by changing the size standards, a number of firms will lose small business status, and consequently, lose eligibility for SBA programs. Also, some firms will not be successful in obtaining future Federal contracts as a result of a shift in contracts from the set-aside to the unrestricted method of Federal contracting as they had been in the past.

The proposed size standards have a distributional economic impact on the firms within an industry. The distributional economic impact for those firms losing small business eligibility may be assessed in terms of the demographic and dollar impacts. Those impacts are analyzed below.

The *demographic impact* is the number of firms which would be affected by the proposed rule. The broadest impact, and least consequential, simply quantifies the number of firms no longer defined as small business. SBA estimates that about 50,000 firms would lose small business status, or about 10 percent of a total of 500,000 construction and surveying firms listed in SBA's Small Business Data Base (SBDB). While this change can be disaggregated for each of the 26 industries affected, for convenience these results are presented for each major group in Table 3.

While these firms would lose small business status, the actual number of firms directly impacted would be less than 2 percent of the 500,000 firms because not all of these firms participate in Federal procurement or SBA's financial assistance programs. This smaller impact is estimated from an analysis of Federal procurement discussed below.

TABLE 3.—INDUSTRIES AND FIRMS AFFECTED BY PROPOSED SIZE STANDARDS

[B=billions of dollars]

Sic	Title	Number to firms	No. of firms losing small business status	Industry sales
(1)	(2)	(3)	(4)	(5)
15	Building Const	187,383	12,628	$55.7B
16	Non-Building Const	22,792	5,969	19.0B
17	Special Trades	293,002	31,880	58.5B
C	Const. Subtotal	503,177	48,477	$133.2B
8713	Surveying Services	6,226	1,319	0.6B
	Total—All Industries	509,403	49,796	$133.8B

Source: Small Business Data Base, USEEM, 1984.

To obtain a more accurate picture of the direct impact, SBA's two principal programs were examined for the demographic effect. First, in the procurement assistance program, the PASS [1] lists about 26,000 construction firms and 1,200 surveying firms. This is about 5 and one-half percent of the 500,000 listed in the Small Business Data Base. While not all firms interested in Federal procurement are listed in PASS, those firms listed are more likely to be directly affected by a size standard change than those in the industry in general.

Due to the proposed size standards, it is estimated that based on the PASS data, approximately 8,000 construction and surveying firms would lose small business status. This impact is summarized in the following table.

[1] PASS (Procurement Automated Source System) is a computerized list of small businesses interested in Federal contracting and their capabilities. Any firm can be listed by filling out a simple form. Inclusion in PASS is not mandatory and is intended to help procuring agencies in identifying small businesses interested in doing business with the Federal Government.

TABLE 4.—NUMBER OF FIRMS IN PASS LOSING SIZE STATUS

Sic	Description	Number in PASS	Losing small business status
15	Gen. Construction	1,610	276

Sic	Description	Number in PASS	Losing small business status
8713	Surveying Services	1,219	850
	Total—All Industries	27,061	8,110

Source: PASS, SBA Office of Procurement Assistance, data as of June 26, 1987.

The number of firms potentially impacted by the proposed rule is more likely to be closer to 8,000 firms or 1.6 percent of 500,000 firms shown in Table 3.

The number of guaranteed loans to firms made ineligible by the proposed size standards is small. Based on an analysis of SBA's major loan program, the Business Loans Program, an average of 901 loans per year to construction firms were made during FY 1984–86. No information is available as to the size of firms receiving these loans other than qualifying as small under the appropriate size standard. With a decline in eligibility of construction firms, either fewer loans would be made or the loans that would have been made to the newly ineligible firms would go to the remaining firms. If fewer loans were actually made, the impact could be on the same order of magnitude as firms losing eligibility as is shown in Table 3, that is, about a 10 percent decline based on the number of firms generally losing small business status. This would be a decrease of about 90 loans to construction firms per year.

The *dollar impact* of the proposed size standards can be broken out into three segments: General industry effect, procurement program effect, and financial program effect. First, the general industry effect is total sales (commercial and Federal) associated with the 50,000 firms losing small business status. As shown in Table 3, these firms generated $133.8 billion in industry sales. The proposed size standards will impact the sales generated by this group of firms. However, the impact is not on total industry sales, but those sales resulting from set-asides. This narrower impact has been analyzed as the procurement program effect.

The procurement program effect is estimated to equal $2.3 billion based on average 1984–86 levels. This is the value of Federal contracts which must be shifted away from small business set-asides to unrestricted contracts to meet the requirements of Pub. L. 99–591 that no more than 30 percent of total Federal contracts may be awarded as set-asides or 8(a) contracts in the specified industries. Table 5 shows this effect by major industry group.

TABLE 5.—SHIFT IN PROCUREMENT DOLLARS UNDER PROPOSED SIZE STANDARD

[B=billions of dollars]

Sic	Description	Procurement shift
15	Gen. Construction	$1.3B
16	Gen. Constr.-Non Building.	$0.3B
17	Special Trades	$0.7B
C	Construction Subtotal	$2.3B
8713	Surveying Services	Negligible
	Total—All Industries	$2.3B

Source: Special Tabulation of FPDC and SBDB/USEEM, 1984+1986 average.

In 1986 Federal procurements set aside for small business in construction totaled $4.5 billion. The shift of $2.3 billion away from set-asides would therefore bring about a 51 percent decline in construction dollars set aside for small business. This reduction would be incurred by an estimated 1,818 construction firms and 40 surveying firms according to a special tabulation of Federal Procurement Data Center and SBDB statistics for 1986. In 1986, 6,855 construction firms received set-aside contracts.

The estimated impact produced by implementing the law, $2.3 billion less in set-aside contracts, rests on the critical assumption that lowering the specified size standards will cause contracting agencies to replace that amount of set-asides with unrestricted contracts. Contracting agencies will be under no direct orders to reduce set-asides. It remains to be seen whether the indirect course of lowering size standards will have the required effect of reducing set-asides by more or less than $2.3 billion. If set-asides remain above 30 percent of total Federal procurements, then further adjustments to size standards will be considered.

Third, in SBA's major financial assistance program, the Business Loans Program, the dollar value of guaranteed loans which would have been received by those firms made ineligible by the proposed size standards reductions is estimated at about $14.6 million or about 0.5 percent of $3 billion of loans. This is derived from the estimated loss of 90 loans (see above) multiplied by the $162,000 average SBA loan amount for construction during 1984. Whether there actually will be a decrease in SBA's lending of this amount is uncertain, as this amount may simply be displaced to smaller firms which are still eligible. What could occur in some cases is a transfer rather than a net change in loans.

The economic analysis provided above focused on the distributional impacts of revised size standards. A broader economic analysis would also consider allocative impacts. These impacts are not examined, since they are expected to be minimal in the aggregate. For example, the allocation of resources between private and public purposes will not be affected. The overall level of Government spending for procurement will not change as a result of the size standards. Some arguments can be made that an efficiency gain on Federal procurements would occur as a result of lower size standards. These arguments would rest on the assumption that firms receiving unrestricted Federal procurements can perform at lower costs than small firms awarded set-aside procurements. These efficiency gains, if any, would be expected to be minimal for two reasons. First, competition between two or more small firms must exist before a contract may be set aside for small business. Second, set-asides are expected to be awarded at reasonable prices. Otherwise, the procuring agencies will issue unrestricted procurements if competition and reasonable pricing do not exist on the proposed set-asides. Thus the benefits in the form of cost savings to the Government are expected to be insignificant and were not quantitatively analyzed. Rather, the more relevant and more important distributional impacts are the focus of the economic analysis.

In addition, the proposed size standards are not expected to have an appreciable effect on the prices of goods and services, profit, growth, innovation, mergers, or foreign trade. The aggregated impact including firm failures, employment losses, community impact, and the effect on industry or the economy is not expected to be significant. The likelihood of firm failures and associated unemployment is very small if the proposed rule goes into effect, although there will likely be some individual firms which will lose Government contracts as a result of their loss of eligibility for set-aside contracts. However, as SBA states in its size standards regulations, 13 CFR 121.1(e), firms should not regard SBA's assistance "as permanent nor as the primary source of a firm's sales * * * and should plan for the day when they can compete without assistance."

SBA certifies that this proposed regulation contains no changed or special reporting or recordkeeping requirements which are subject to the Paperwork Reduction Act.

Lists of Subjects in 13 CFR Part 121

Government procurement, Government property, Grant programs-business, Loans programs-business, Small business.

Accordingly, the SBA proposes to amend Part 121 of 13 CFR as follows:

PART 121—[AMENDED]

1. The authority citation for Part 121 of 13 CFR would be revised to read as follows:

Authority: Pub. L. 99–591 and Pub. L. 99–661, Secs 3(a) and 5(b)(6) of the Small Business Act 15 U.S.C. 632(a) and 634(b)(6).

§ 121.2 [Amended]

2. In § 121.2(c)(2), Division C—Construction would be revised as follows:

Note: Upon adoption the "PROPOSED STANDARD" caption contained in Division C and Division I will be changed to read "FINAL RULE" to conform to the CFR format.

DIVISION C.—CONSTRUCTION

	Description—(N.E.C. = Not Elsewhere Classified)	Size standards in millions of dollars—Proposed Standard
Major Group 15—Building Construction—General Contractors and Operative Builders		
1521	General Contractors—Single-Family Houses	$2.0M
1522	General Contractors—Residential Buildings, Other than Single-Family	$9.75M
1531	Operative Builders	$1.25M
1541	General Contractors—Industrial Buildings and Warehouses	$5.25M
1542	General Contractors—Nonresidential Buildings, Other than Industrial Buildings and Warehouses	$3.50M
Major Group 16—Construction Other Than Building Construction—General Contractors		
1611	Highway and Street Construction	$4.00M
1622	Bridge, Tunnel and Elevated Highway Construction	$1.75M
1623	Water, Sewer, and Pipe Lines, Communication and Power Line Construction	$1.25M
1629	Heavy Construction, Except Dredging, N.E.C.	$17.0M
1629	Dredging and Surface Cleanup Activities	$9.5M
Major Group 17—Construction—Special Trade Contractors		
1711	Plumbing, Heating (Except Electric), and Air Conditioning	$1.25M
1721	Painting, Paper Hanging, and Decorating	$.50M
1731	Electrical Work	$1.50M
1741	Masonry, Stone Setting, and Other Stonework	$1.50M
1742	Plastering, Drywall, Acoustical, and Insulation Work	$.25M
1743	Terrazzo, Title, Marble, and Mosaic Work	$1.25M
1751	Carpentering	$.75M
1752	Floor Laying and Other Floor Work, N.E.C.	$.75M
1761	Roofing and Sheet Metal Work	$1.00M
1771	Concrete Work	$.50M
1781	Water Well Drilling	$.75M
1791	Structural Steel Erection	$4.50M
1793	Glass and Glazing Work	$1.00M
1794	Excavating and Foundation Work	$.50M
1795	Wrecking and Demolition Work	$3.75M
1796	Installation or Erection of Building Equipment, N.E.C.	$2.75M
1799	Special Trade Contractors, N.E.C.	$2.50M
—	Base Housing Maintenance	Deleted

3. In § 121.2(c)(2), Division I—Services is proposed to be amended by adding SIC–8713 to read as follows:

DIVISION I.—SERVICES

Major Group 87—Miscellaneous Services		
8713	Surveying Services	$.25M

* * * * *

4. Section 121.5 is proposed to be amended by adding a new paragraph (h):

§ 121.5 Small business for Government procurement.

(h) A concern may not be awarded a contract for a Government procurement as a small business concern unless the concern agrees that:

(1) In the case of a contract for services (except construction), the concern will perform at least 50 percent of the cost of the contract with its own employees;

(2) In the case of a contract for supplies or products (other than procurement from a regular dealer in such supplies or products), the concern will perform at least 50 percent of the cost of manufacturing the supplies or products (not including the cost of materials);

(3) In the case of a contract for general construction, the concern will perform at least 15 percent of the cost of the contract with its own employees (not including the cost of materials); and

(4) In the case of a contract for construction by special trade contractors, the concern will perform at least 25 percent of the cost of the contract with its own employees (not including the cost of materials).

Dated: December 11, 1987.

James Abdnor,

Administrator, U.S. Small Business Administration.

[FR Doc. 87–28891 Filed 12–16–87; 8:45 am]

BILLING CODE 8025–01–M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 87–NM–150–AD]

Airworthiness Directives; Boeing Model 737 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This notice proposes to supersede two existing airworthiness directives (AD), applicable to certain Boeing Model 737 series airplanes, which currently require inspection for cracking of the wing front spar upper chord and repair, if necessary. This proposal would combine the inspections presently required by both AD's, extend the area to be inspected, and require repetitive inspections of front spar area previously modified. This action is prompted by several reports of cracks up to 18 inches long on airplanes on which terminating action had been

BEST COPY AVAILABLE

completed. This condition, if not corrected, could compromise the ultimate load capability of the wing.

DATE: Comments must be received no later than February 26, 1988.

ADDRESS: Send comments on the proposal in duplicate to Federal Aviation Administration, Northwest Mountain Region, Office of the Regional Counsel (Attn: ANM-103), Attention: Airworthiness Rules Docket No. 87-NM-150-AD, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168. The applicable service information may be obtained from the Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124. This information may be examined at the FAA, Northwest Mountain Region, 17900 Pacific Highway South, Seattle, Washington, or Seattle Aircraft Certification Office, FAA, Northwest Mountain Region, 9010 East Marginal Way South, Seattle, Washington.

FOR FURTHER INFORMATION CONTACT: Mr. Owen E. Schrader, Airframe Branch, ANM-120S; telephone (206) 431-1923. Mailing address: FAA, Northwest Mountain Region, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments specified above will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this Notice may be changed in light of the comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA/public contact concerned with the substance of this proposal will be filed in the Rules Docket.

Availability of NPRM

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the FAA, Northwest Mountain Region, Office of the Regional Counsel (Attn: ANM-103), Attention: Airworthiness Rules Docket No. 87-NM-150-AD, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168.

Discussion

On December 29, 1976, the FAA issued AD 74-01-01, Amendment 39-2799 (42 FR 2054; January 10, 1977), which requires inspection for cracks and repair, if necessary, of the wing front spar upper chord between stations 108 and 198. Cracking was later discovered outside of this area, and, on May 13, 1987, the FAA issued AD 87-05-52, Amendment 39-5627 (52 FR 18902; May 20, 1987), which requires inspection for cracks and repair, if necessary, of the wing front spar upper chord from the side of body to station 110 and between stations 195 and 206.

Recent service experience has disclosed cracks of up to 18 inches long on three airplanes that had incorporated the terminating action of AD 74-01-01. This cracking occurred approximately 13,000 landings after incorporation of the preventive modification. The cracking is attributed to stress corrosion resulting from stresses induced during modification. Therefore, the FAA has determined that continuing inspections are necessary for the areas inspected in accordance with AD 74-01-01 and AD 87-05-52, the area modified in accordance with AD 74-01-01, and a 19-inch segment outboard of the area required to be inspected by AD 87-05-52. This action is necessary to ensure the structural integrity of the wing structure.

The FAA has reviewed and approved Boeing Alert Service Bulletin 737-57A1081, Revision 10, dated July 16, 1987, which describes procedures for inspection and repairs for cracks in the wing front spar upper chord from front spar stations 90 to 225.

Since this condition is likely to exist or develop on other airplanes of this same type design, an AD is proposed which would require inspections and repairs, as necessary, of the wing front spar upper chord, in accordance with the service bulletin previously mentioned, and would supersede AD 74-01-01 and AD 87-05-52.

It is estimated that 300 airplanes of U.S. registry would be affected by this AD, that it would take approximately 6 manhours per airplane to accomplish the required actions, and that the average labor cost would be $40 per manhour. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be $96,000.

For these reasons, the FAA has determined that this document (1) involves a proposed regulation which is not major under Executive Order 12291 and (2) is not a significant rule pursuant to the Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and it is further certified under the criteria of the Regulatory Flexibility Act that this proposed rule, if promulgated, will not have a significant economic impact on a substantial number of small entities because few, if any, Model 737 airplanes are operated by small entities. A copy of a draft regulatory evaluation prepared for this action is contained in the regulatory docket.

List of Subjects in 14 CFR Part 39

Aviation safety, Aircraft.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) as follows:

PART 39—[AMENDED]

1. The authority citation for Part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); and 14 CFR 11.89.

2. By superseding AD 74-01-01, Amendment 39-2799 (42 FR 2054; January 10, 1977), and AD 87-05-52, Amendment 39-5627 (52 FR 18902; May 20, 1987), with the following new airworthiness directive:

§ 39.13 [Amended]

Boeing: Applies to Model 737 series airplanes, as listed in Boeing Alert Service Bulletin 737-57A1081, Revision 10, dated July 16, 1987, certificated in any category. Compliance required as indicated, unless previously accomplished.

To ensure structural integrity of the wing front spar upper chord structure, accomplish the following:

A. Within 100 landings after the effective date of this AD, unless previously accomplished within the last 900 landings, visually inspect for cracks in the forward side of the wing front spar upper chord from front spar station (FSS) 90 to FSS 225, both left and right wings, in accordance with Boeing Alert Service Bulletin 737-57A1081, Revision 10, dated July 16, 1987, or later FAA-approved revisions. Repeat these inspections at intervals not to exceed 1,000 landings.

B. Apply organic corrosion inhibitor after each inspection in accordance with Boeing Alert Service Bulletin 737-57A108a, Revision 10, dated July 16, 1987, or later FAA-approved revisions.

C. If cracks are found as a result of the inspections required by paragraph A., above, accomplish the following:

1. If cracks are less than two inches in length, stop drill prior to further flight, in accordance with Boeing Alert Service Bulletin 737-57A1081, Revision 10, dated July 16, 1987, or later FAA-approved revisions.

Thereafter, reinspect daily, using eddy current or dye penetrant inspection methods. If crack growth is observed, or prior to the accumulation of 400 hours time-in-service after stop drilling, whichever occurs first, repair in accordance with Boeing Alert Service Bulletin 737-57A1081, Revision 10, dated July 16, 1987, or later FAA-approved revisions. After repair, continue to inspect in accordance with paragraph A., above.

2. If cracks are equal to or greater than two inches in length, repair prior to further flight, in accordance with Boeing Service Bulletin 737-57A1081, Revision 10, dated July 16, 1987, or later FAA-approved revisions.

D. Installation of new and improved upper chord segment in accordance with Boeing Service Bulletin 737-57-1081, Revision 7, dated March 21, 1980, or later FAA-approved revisions, is considered terminating action for the repetitive inspections required by this AD for the structure replaced. However, the repetitive inspections required by paragraphs A. or C., above, as applicable, must continue for structure *not* replaced.

E. An alternate means of compliance or adjustment of the compliance time, which provide an acceptable level of safety and which has the concurrence of an FAA Principal Maintenance Inspector, may be used when approved by the Manager, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region.

F. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base in order to comply with the requirements of this AD.

All persons affected by this directive who have not already received the appropriate service documents from the manufacturer may obtain copies upon request to the Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124. These documents may be examined at the FAA, Northwest Mountain Region, 17900 Pacific Highway South, Seattle, Washington, or Seattle Aircraft Certification Office, FAA, Northwest Mountain Region, 9010 East Marginal Way South, Seattle, Washington.

Issued in Seattle, Washington, on December 10, 1987.

Frederick M. Isaac,

Acting Director, Northwest Mountain Region.

14 CFR Part 39

[Docket No. 87-NM-155-AD]

Airworthiness Directives; Boeing Model 737 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This notice proposes to supersede an existing airworthiness directive (AD), applicable to certain Boeing Model 737 series airplanes, which currently requires structural inspection and repair, as necessary, of the forward lower cargo doorway frames. This action is prompted by reports that certain frame angles, used as an alternate repair method, are subject to cracking during installation. This action would require continued inspection and repair, as necessary, of the forward lower cargo doorway frames, in addition to the replacement of certain repair parts previously installed in accordance with the existing AD.

DATES: Comments must be received no later than February 26, 1988.

ADDRESSES: Send comments on the proposal in duplicate to Federal Aviation Administration, Northwest Mountain Region, Office of the Regional Counsel (Attn: ANM-103), Attention: Airworthiness Rules Docket No. 87-NM-155-AD, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168. The applicable service information may be obtained from the Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124. This information may be examined at the FAA, Northwest Mountain Region, 17900 Pacific Highway South, Seattle, Washington, or the Seattle Aircraft Certification Office, 9010 East Marginal Way South, Seattle, Washington.

FOR FURTHER INFORMATION CONTACT: Ms. Barbara J. Baillie, Airframe Branch, ANM-120S; telephone 431-1927. Mailing address: FAA, Northwest Mountain Region, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments specified above will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this Notice may be changed in light of the comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA/public contact concerned with the substance of this proposal will be filed in the Rules Docket.

Availability of NPRM

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the FAA, Northwest Mountain Region, Office of the Regional Counsel (Attn: ANM-103), Attention: Airworthiness Rules Docket No. 87-NM-155-AD, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168.

Discussion

On June 16, 1986, the FAA issued AD 86-09-06, Amendment 39-5307 (51 FR 17324; May 12, 1986), to require the structural inspection and repair, as necessary, of the forward lower cargo doorway frames, in accordance with Boeing Service Bulletin 737-53-1051, Revision 3, dated July 12, 1985. That AD was prompted by numerous reports of cracking in both vertical frame members at the lower cargo doorway. Continued operation with undetected cracked frames could result in skin cracks and eventual rapid decompression.

Since issuance of that AD, it has been determined that the alternate repair method described in the subject service bulletin requires use of frame repair angles which are subject to cracking during installation.

The FAA has reviewed and approved Boeing Service Bulletin 737-53-1051, Revision 4, dated July 30, 1987, which describes new repair and modification kits for doorway frame cracks. The new kits contain parts made from a stainless steel alloy which is less susceptible to cracking.

Since this condition is likely to exist or develop on other airplanes of this same type design, an AD proposed which would supersede the existing AD; require inspection and repair, as necessary, of the forward lower cargo doorway frames; require reinspection of previously modified frames; and provide a terminating modification; in accordance with the service bulletin previously mentioned. The period for compliance with the initial inspection requirement, however, would remain the same as that required by the existing AD.

It is estimated that 186 airplanes of U.S. registry would be affected by this AD. (However, it is expected that only a few airplanes would require rework as a result of this action.) It would take approximately 350 hours per airplane to accomplish the required rework, the average labor cost would be $40 per hour, and parts would be $2,200. Based on these figures, the cost impact of the AD on U.S. operators is estimated to be $16,200 per airplane.

For these reasons, the FAA has determined that this document (1) involves a proposed regulation which is not major under Executive Order 12291 and (2) is not a significant rule pursuant to the Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and it is further certified under the criteria of the Regulatory Flexibility Act that this proposed rule, if promulgated, will not have a significant economic impact on a substantial number of small entities because few, if any, Boeing Model 737 airplanes are operated by small entities. A copy of a draft regulatory evaluation prepared for this action is contained in the regulatory docket.

List of Subjects in 14 CFR Part 39

Aviation safety, Aircraft.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) as follows:

PART 39—[AMENDED]

1. The authority citation for Part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised) Pub. L. 97-449, January 12, 1983); and 14 CFR 11.89.

2. By superseding AD 86-09-06, Amendment 39-5307 (51 FR 17324; May 12, 1986), with the following new airworthiness directive:

§ 39.13 [Amended]

Boeing: Applies to Model 737 series airplanes listed in Boeing Service Bulletin 737-53-1051, Revision 4, dated July 30, 1987, certificated in any category. Compliance required as indicated, unless previously accomplished.

To prevent rapid loss of cabin pressure resulting from undetected fram cracking, accomplish the following:

A. Prior to the accumulation of 6,000 landings after June 16, 1988, visually inspect the forward and aft body frames adjacent to the forward lower cargo door for cracks, in accordance with Flight Safety Inspection Program in Boeing Service Bulletin 737-53-1051, Revision 3, dated July 12, 1985, or later FAA-approved revisions. Repeat the inspections at intervals not to exceed 4,000 landings.

B. After the effective date of this AD, if cracks are found, prior to further flight, repair in accordance with Part III.A. or Part III.B., as applicable, of Boeing Service Bulletin 737-53-1051, Revision 4, dated July 30, 1987, or later FAA-approved revisions.

C. For airplanes that have had cracks repaired in accordance with Part III.A. of Boeing Service Bulletin 737-53-1051, initial release, dated June 16, 1978, or later FAA-approved revisions: Prior to the accumulation of 25,000 landings after the repair, and thereafter at intervals not to exceed 17,000 landings, visually inspect the frames for cracks in the area of the repair in accordance with Boeing Service Bulletin 737-53-1051, Revision 3, or later FAA-approved revisions. Parts found cracked must be repaired prior to further flight in accordance with an FAA-approved repair method.

D. For airplanes that have had cracks repaired in accordance with Part III.B. of Boeing Service Bulletin 737-53-1051, Revision 3: Prior to the accumulation of 3,000 landings after effective date of this AD, replace the repair parts with new airworthy repair parts in accordance with Boeing Service Bulletin 737-53-1051, Revision 4, or later FAA-approved revisions.

E. For airplanes that have had cracks repaired in accordance with the Boeing Model 737 Structural Repair Manual, Section 51-40-3, or with Part III.B. of Boeing Service Bulletin 737-53-1051, Revision 4, or later FAA-approved revisions, or in accordance with paragraph D., above: Prior to the accumulation of 6,000 landings after the repair and thereafter at intervals not to exceed 4,000 landings, visually inspect the frames for cracks in the area of the repair in accordance with Boeing Service Bulletin 737-53-1051, Revision 4, or later FAA-approved revisions. Parts found cracked must be repaired prior to further flight, in accordance with an FAA-approved repair method.

F. Modification of uncracked frames in accordance with the Preventative Modification of Boeing Service Bulletin 737-53-1051, Revision 3, dated July 12, 1985, or later FAA-approved revisions, constitutes terminating action for the requirements of this AD.

G. Airplanes with cracked frames may be flown unpressurized in accordance with FAR 21.197 and 21.199 to a maintenance base for repairs or replacement required by this AD.

H. For the purposes of complying with this AD, subject to acceptance by the assigned FAA Principal Maintenance Inspector, the number of landings may be determined by dividing each airplane's number of hours time in servive by the operator's fleet average time from takeoff to landing for the airplane type.

I. An alternate means of compliance or adjustment of the compliance time, which provide an acceptable level of safety and which has the concurrence of an FAA Principal Maintenance Inspector, may be used when approved by the Manager, Seattle Aircraft Certification Office, FAA Northwest Mountain Region.

All persons affected by this directive who have not already received the appropriate service documents from the manufacturer may obtain copies upon request to the Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124. These documents may be examined at the FAA, Northwest Mountain Region, 17900 Pacific Highway South, Seattle, Washington, or the Seattle Aircraft Certification Office, 9010 East Marginal Way South, Seattle, Washington.

Issued in Seattle, Washington, on December 10, 1987.

Frederick M. Isaac,

Acting Director, Northwest Mountain Region.

[Docket No. 87-NM-147-AD]

Airworthiness Directives; Sud Aviation Model Caravelle SE-210 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of Proposed Rulemaking (NPRM).

SUMMARY: This notice proposes an airworthiness directive (AD), applicable to certain Sud Aviation Model Caravelle SE-210 series airplanes, that would require inspections for cracking and repair, if necessary, of the wing lower skin panels adjacent to wing rib No. 31. This proposal is prompted by reports of cracking detected in the area around the ends of stiffeners K 8.5 and C 8.5. This condition, if not corrected, could lead to failure of the wing.

DATES: Comments must be received no later than February 12, 1988.

ADDRESSES: Send comments on the proposal in duplicate to the Federal Aviation Administration, Northwest Mountain Region, Office of the Regional Counsel (Attention: ANM-103), Attention: Airworthiness Rules Docket No. 87-NM-147-AD, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168. The applicable service information may be obtained from Aerospatiale, 316 Rue de Bayonne, 31060 Toulouse Cedex 03, France. This information may be examined at the FAA, Northwest Mountain Region, 17900 Pacific Highway South, Seattle, Washington, or the Seattle Aircraft Certification Office, 9010 East Marginal Way South, Seattle, Washington.

FOR FURTHER INFORMATION CONTACT: Ms. Judy Golder, Standardization Branch, ANM-113; telephone (206) 431-1967. Mailing address: FAA, Northwest Mountain Region, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments specified above will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this Notice may be changed in light of the comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA-public contact concerned with the substance of this proposal will be filed in the Rules Docket.

Availability of NPRM

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the FAA, Northwest Mountain Region, Office of the Regional Counsel (Attention: ANM-103), Attention: Airworthiness Rules Docket No. 87-NM-147-AD, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168.

Discussion

The Direction General de L'Aviation Civile-France (DGAC) has, in accordance with existing provisions of a bilateral airworthiness agreement, notified the FAA of cracking detected in the area around the wing lower skinpanels adjacent to rib No. 31 at the ends of stiffeners K 8.5 and C 8.5 on Sud Aviation Model Caravelle SE-210 series airplanes. The cracking is attributed to fatigue caused by the discontinuity of load path at the end of the stringers.

There have been two reports of cracking on aircraft that has accumulated approximately 5,000 and 21,300 landings, respectively. Cracking in this area, if not detected and corrected, could lead to failure of the wing.

Sud Aviation has issued Sud Service Bulletin No. 57-56, Revision 2, dated February 28, 1985, which describes procedures to detect and repair cracking of the wing lower skin adjacent to rib No. 31. The service bulletin also describes a preventive reinforcement procedure. The DGAC has classified this service bulletin as mandatory.

This airplane model is manufactured in France and type certificated in the United States under the provisions of § 21.29 of the Federal Aviation Regulations and the applicable bilateral airworthiness agreement.

Since this condition is likely to exist or develop on airplanes of this model registered in the United States, an AD is proposed that would require inspection of the wing lower skin adjacent to rib No. 31, and repair, if necessary, in accordance with the service bulletin previously mentioned.

It is estimated that 32 airplanes of U.S. registry would be affected by this AD, that it would take approximately 8 manhours per airplane to accomplish the required actions, and that the average labor cost would be $40 per manhour. Based on these figures, the total cost impact of this AD to U.S. operators is estimated to be $10,240 for the initial inspection.

For the reasons discussed above, the FAA has determined that this document (1) involves a proposed regulation which is not major under Executive Order 12291 and (2) is not a significant rule pursuant to the Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and it is further certified under the criteria of the Regulatory Flexibility Act that this proposed rule, if promulgated, will not have a significant economic impact on a substantial number of small entities because of the minimal cost of compliance per airplane ($320). A copy of a draft regulatory evaluation prepared for this action is contained in the regulatory docket.

List of Subjects in 14 CFR Part 39

Aviation safety, Aircraft.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend § 39.13 of Part 39 of the Federal Aviation Regulations as follows:

PART 39—[AMENDED]

1. The authority citation for Part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a); 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); and 14 CFR 11.89.

§ 39.13 [Amended]

2. By adding the following new airworthiness directive:

Sud Aviation: Applies to Caravelle Model SE-210 series airplanes, listed in Sud Aviation Caravelle Service Bulletin No. 57-56, Revision 2, dated February 28, 1985, certificated in any category. Compliance required as indicated, unless previously accomplished.

To prevent failure of the wing, accomplish the following:

A. Within 100 landings after the effective date of this AD or prior to the accumulation of the number of landings specified in the schedule, below, whichever occurs later, accomplish the requirements of subparagraphs A.1. or A.2. below, as applicable.

Schedule

(1) 30,000 landings on airplanes whose maximum take-off weight [1] is 48 tons or less;

(2) 20,000 landings on airplanes whose maximum take-off weight [1] exceeds 48 tons but is no more than 52 tons;

(3) 10,000 landings on airplanes whose maximum take-off weight [1] exceeds 52 tons.

1. For airplanes without external doubler, perform visual and nondestructive testing inspections (NDI) for cracking adjacent to wing rib No. 31 in accordance with Sud Aviation Caravelle Service Bulletin No. 57-56, Revision 2, dated February 28, 1985.

2. For airplanes with external doublers, perform visual and radiographic inspections for cracking adjacent to wing rib No. 31 in accordancce with Sud Aviation Caravelle Service Bulletin No. 57-56, Revision 2, dated February 28, 1985.

B. If no cracks are detected, repeat the inspections required by paragraph A., above, at the intervals specified in Sud Aviation Caravelle Service Bulletin No. 57-56, Revision 2, dated February 28, 1985, Figure 1, Wing Lower Surface Inspection Frequencies.

C. Any cracks detected during the inspections required by paragraphs A. or B., above, must be repaired, prior to further flight, in accordance with Sud Aviation Caravelle Service Bulletin No. 57-56, Revision 2, dated February 28, 1985.

D. An alternate means of compliance or adjustment of the compliance time, which provides an acceptable level of safety and which has the concurrence of an FAA Principal Maintenance Inspector, may be used when approved by the Manager, Standardization Branch, ANM-133, FAA, Northwest Mountain Region.

E. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base for the accomplishment of inspections and/or modifications required by this AD.

All persons affected by this directive who have not already received the appropriate service documents from the manufacturer may obtain copies upon request to Aerospatiale, 316 Rue de Bayonne, 31060 Toulouse Cedex 03, France. These documents may be examined at the FAA, Northwest Mountain Region, 17900 Pacific Highway South, Seattle, Washington, or at the Seattle Aircraft Certification Office, 9010 East Marginal Way South, Seattle, Washington.

Issued in Seattle, Washington, on December 10, 1987.

Frederick M. Isaac,

Acting Director, Northwest Mountain Region.

VOL 52 ISS 242 DEC 17 1987 UMI

DEPARTMENT OF THE TREASURY

Customs Service

19 CFR Part 101

Changes to the Customs Field Organization; Chicago, IL, Cleveland, OH, Fort Wayne, IN

AGENCY: U.S. Customs Service, Treasury.

ACTION: Proposed rule.

SUMMARY: This document proposes to amend the Customs Regulations by changing the boundaries of the Chicago and Cleveland Customs Districts, and by designating the newly approved Customs facility at Fort Wayne, IN, as a Customs station. This change is necessary to place the Fort Wayne facility entirely within one Customs district. The Fort Wayne station will be within the Cleveland District and be supervised by the Indianapolis, IN, port of entry. These changes are proposed as part of Customs continuing efforts to obtain more efficient use of personnel, facilities, and resources, and to provide better service to carriers, importers, and the public.

DATE: Comments must be received on or before February 16, 1988.

ADDRESS: Comments (preferably in triplicate) should be submitted to and may be inspected at the Regulations Control Branch, U.S. Customs Service, 1301 Constitution Avenue, NW., Room 2324, Washington, DC 20229.

FOR FURTHER INFORMATION CONTACT: Joseph O'Gorman or John Lenihan, Office of Workforce Effectiveness and Development (202–566–9425).

SUPPLEMENTARY INFORMATION:

Background

The Customs Service field organization currently consists of seven geographical regions further divided into districts, with ports within each district. Customs ports of entry are locations (seaports, airports, or land border ports) where Customs officers or employees are assigned to accept entries of merchandise, collect duties, clear passengers, vehicles, vessels, and aircraft, examine baggage, and enforce the Customs, and related laws.

Similar activities take place at Customs stations. However, the significant difference between ports of entry and stations is that at stations, the Federal Government is reimbursed for:

(1) The salaries and expenses of its officers or employees for services rendered in connection with the entry and clearance of vessels; and

(2) Except as otherwise provided by the Customs Regulations, the expenses (including any per diem allowed in lieu of subsistence), but not the salaries of its officers or employees, for services rendered in connection with the entry or delivery of merchandise.

As part of a continuing program to obtain more efficient use of its personnel, facilities, and resources, and to provide better service to carriers, importers, and the public, Customs is proposing to change the boundaries of the Chicago and Cleveland Customs Districts, and designate the newly approved Customs facility at Fort Wayne, IN, as a Customs station. The change in boundaries is necessary to ensure that all of the territory serviced by the Fort Wayne facility is entirely within one Customs district.

The area to be serviced by the Fort Wayne facility currently lies within both the Chicago and Cleveland Districts. The effect of the boundary changes would be to transfer jurisdiction over the northeast corner of Indiana from the Chicago District to the Cleveland District, and thereby put the entire Fort Wayne service area into the Cleveland District. The Cleveland District already has the two closest existing ports, Dayton, OH, and Indianapolis, IN, and the Fort Wayne facility is to be operated as a Customs station under the supervision of the port director at Indianapolis. Also, Baer Field, in Fort Wayne, is scheduled to become a designated user fee airport in November 1987.

User fee airports are those which, while not qualifying for designation as an international or landing rights airport, have been approved by the Commissioner to receive the services of Customs officers for processing aircraft entering the U.S. Inasmuch as the volume of business anticipated at these airports is insufficient to justify their designation as an international or landing rights airport, the availability of Customs services is not paid for out of the Customs appropriations from the General Treasury of the U.S. Instead, the services of the Customs officers are provided on a fully reimbursable basis to be paid for by the user fee airports on behalf of the recipients of the services.

If this proposal is adopted, the list of Customs regions, districts, and ports of entry, and the list of Customs stations, as set forth in §§ 101.3(b) and 101.4(c), Customs Regulations (19 CFR 101.3(b), 101.4(c)), will be amended to reflect the change in the district boundaries and the designation of a Customs station.

Comments

Before adopting this proposal, consideration will be given to any written comments timely submitted to the Commissioner of Customs. Comments submitted will be available for public inspection in accordance with the Freedom of Information Act (5 U.S.C. 552), § 1.4, Treasury Department Regulations (31 CFR 81.4) and § 103.11(b) Customs Regulations (19 CFR 103.11(b)), on regular business days between the hours of 9:00 a.m. to 4:30 p.m. at the Regulations Control Branch, Room 2324, Headquarters, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, DC 20229.

Authority

These changes are proposed uder the authority vested in the President by section 1 of the Act of August 1, 1914, 38 Stat. 623, as amended (19 U.S.C. 2), and delegated to the Secretary of the Treasury by E.O. No. 10289, September 17, 1951 (3 CFR 1949–1953 Comp. Ch. II) and pursuant to authority provided by Treasury Department Order No. 101–5, dated February 17, 1987 (52 FR 6282).

Executive Order 12291 and Regulatory Flexibility Act

Because this document relates to agency organization it is not subject to E.O. 12291. Accordingly, a regulatory impact analysis and the review prescribed by that E.O. are not required. For the same reason, this document is not subject to the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

Customs routinely makes adjustments to its field organization throughout the U.S. to accommodate the volume of Customs-related activity in various parts of the country. Although the proposal may have a limited effect upon some small entities in the area affected, it is not expected to be significant because adjusting the field organization in other areas has not had a significant economic impact upon a substantial number of small entities to the extent contemplated by the Act. Nor is it expected to impose, or otherwise cause, a significant increase in the reporting, recordkeeping, or other compliance burdens on a substantial number of small entities.

Drafting Information

The principal author of this document was John Doyle, Regulations Control Branch, Office of Regulations and Rulings, U.S. Customs Service. However, personnel from other offices participated in its development.

List of Subjects in 19 CFR Part 101

Customs duties and inspection, Exports, Imports, Organization and functions (Government agencies).

Proposed Amendments

It is proposed to amend §§ 101.3 and 101.4, Customs Regulations (19 CFR 101.3, 101.4), as set forth below:

PART 101—[AMENDED]

1. The authority citation for Part 101 would continue to read as follows:

Authority: 5 U.S.C. 301; 19 U.S.C. 1, 66, 1202 (Gen. Hdnote. 11), 1624; Reorganizing Plan 1 of 1965; 3 CFR 1965 Supp.

§ 101.3 [Amended]

2. It is proposed to amend the list of Customs regions, districts, and ports of entry in § 101.3(b) in the following manner:

a. In the North Central Region under the column headed "Area", directly opposite "Chicago, Ill." the description would be revised to read as follows: "The State of Illinois lying north of latitude 39°N.; that part of the State of Indiana north of latitude 41°N. and west of longitude 86°W.; and the States of Iowa and Nebraska."

b. In the North Central Region, under the column headed "area", directly opposite "Cleveland, Ohio" the description would be revised to read as follows: "The States of Ohio, Kentucky; that part of the State of Indiana lying south of latitude 41°N. and east of longitude 86°W.; and the county of Erie in the State of Pennsylvania."

§ 101.4 [Amended]

3. It is proposed to amend the list of Customs stations in § 101.4(c) by inserting, in appropriate alphabetical order, in the listings for "Cleveland, Ohio." under the "District" column, "Fort Wayne, Ind." in the column headed "Customs stations", and on the same line, "Indianapolis" in the column headed "Port of entry having supervision".

William von Raab,

Commissioner of Customs.

Approved:

John P. Simpson,

Acting Assistant Secretary of the Treasury.

November 20, 1987.

BILLING CODE 4820–02–M

SELECTIVE SERVICE SYSTEM

32 CFR Parts 1636 and 1656

Selective Service Regulations

AGENCY: Selective Service System.

ACTION: Proposed rule.

SUMMARY: Procedures for the processing of registrants under the Military Selective Service Act (50 U.S.C. App. 451 *et seq.*) are revised to assure greater fairness and effeciency in administration in the processing of registrants.

DATES: Comment Date: Written comments received on or before February 16, 1988 will be considered.

Effective date: Subject to the comments received, the amendments are proposed to become effective upon publication in the Federal Register of a final rule.

ADDRESS: Written comments to: Selective Service System, ATTN: General Counsel, Washington, DC 20435.

FOR FURTHER INFORMATION CONTACT: Henry N. Williams, General Counsel, Selective Service System, Washington, DC 20435, Phone (202) 724–1167.

SUPPLEMENTARY INFORMATION: These amendments to Selective Service Regulations are published pursuant to section 13(b) of the Military Selective Service Act (50 U.S.C. App. 463(b)) and Executive Order 11623. These Regulations implement the Military Selective Service Act (50 U.S.C. App. 451 et seq.).

Discussion of Proposed Regulations

The removal of 32 CFR 1636.9(c) and (d) would terminate the authority of boards to classify a registrant in Class 1–A–O even though he had requested classification in Class 1–O and the authority to grant a classification in Class 1–O to a registrant even though he requested classification in Class 1–A–O. The present provisions are superficially attractive but in application they would present such problems as to raise the issue of essential fairness to the registrants concerned. The registrant best knows his own beliefs and the proposed removal of the provisions in question would facilitate his clear presentation of those beliefs to the board. The work of the board would be simplified in that it could appraise the character of the registrant's beliefs in terms of the criteria for only one class. The ever present temptation of a board to make a compromise decision between classification in Class 1–O and Class 1–A–O would be eliminated. The removal of the present provisions would simplify and clarify the disposition of any appeal which the registrant might take from a board's decision with respect to his claim for Class 1–O or Class 1–A–O. Removal of the provisions would enable the Selective Service System to implement the provisions of section 6(j) of the Military Selective Service Act in an orderly manner, simplify classification procedures for the board and enable the registrant more clearly to present his claim based on his peculiar knowledge of his beliefs.

Section 1656.5(a)(1)(iii) would prohibit employers of alternative service workers from requiring as a condition of such employment a commitment to any political or religious belief or doctrine or membership or non-membership in a political or religious group. This language reflects the long held Selective Service policy of planning not to approve an employer to employ alternative service workers in violation of the stated prohibition.

There appears to be an erroneous assumption that arrangements for performing alternative service are merely matters for agreement between the alternative service worker and the employer. This erroneous assumption reflects a failure to recognize the role which the Director of Selective Service System has under the Military Selective Service Act, particularly section 6(j) as amended in 1971, in the administration of the alternative service program. Although registrants entitled to perform alternative service in lieu of induction may propose jobs with named employers, such employers are not required to hire registrants and the Selective Service System is not required to approve the proposals. The Director, as provided in section 6(j) of Military Selective Service Act, is required to determine whether the work that would be performed by the alternative service worker would comply with the statutory requirement. This includes an appraisal of the work that the worker would be performing and the employer for whom he would be working. Failure of an alternative service worker to comply with the appropriate regulations and orders issued pursuant thereto would subject him to criminal penalties of imprisonment for a period not to exceed five years, a fine of not more than $250,000 or both. The same criminal penalties would apply to the employers of alternative service workers.

There is no legislation which purports to authorize the employment of alternative service workers under arrangements which would be inconsistent with the proposed

regulation. The Selective Service System cannot properly adopt a policy inconsistent with the stated provisions. To do so would raise very serious constitutional issues particularly under the First Amendment to the Constitution. Furthermore, were the Selective Service System to permit an alternative service employer to require alternative service workers to commit themselves to a statement of faith or require membership or non-membership in religious or political organizations, additional administrative burdens would be placed upon the alternative service office without any compensating benefits to the System. The alternative service office would have to make additional referrals of prospective alternative service workers for employment or would have to screen perspective referees on the basis of their willingness to commit themselves to the statements of faith which alternative service employers might require. Moreover, the permitting of employers of alternative service workers to require such workers to commit themselves to statements of faith would result in substantial but inappropriate pressures upon perspective alternative service workers. Churches could use the arrangements "to keep the lads in the fold" which would violate their rights under the Freedom of Exercise Clause in the First Amendment to the Constitution of the United States. The opportunities for alternative service employment would be inappropriately restricted without any compensating benefits to the prospective alternative service worker.

There could be little serious contention that the Selective Service System should permit employers of alternative service workers to engage in practices which if engaged in by the Selective Service System would be in violation of law. The Constitution and numerous Federal statutes express a policy that prohibits discrimination on the basis of religious belief or doctrine or membership or non-membership in any political or religious group. The Selective Service System does not have the legal authority to permit the implementation of a program for which it has statutory responsibility in a manner inconsistent with well recognized Federal policy.

Assuming—but without ascertaining—that the Congress by law can permit employers of alternative service workers to discriminate on the basis of religious or political belief of prospective alternative service workers, it is beyond reasonable doubt absent such satutory authority that the Selective Service System in carrying out its responsibilities under section 6(j) of the Military Service Act can neither engage in discrimination nor permit employers to discriminate in the implementation of the alternative service program that the Selective Service System is required to administer. Unless and until statutory law authorizes practices inconsistent with the proposed regulation, the Selective Service System would be acting irresponsibly in administering a program of alternative service in a manner inconsistent with the policy reflected in the text of the regulation.

There is nothing in the decision of the United States Supreme Court in *Corporation of the presiding Bishop of the Church of Jesus Christ of Latter-Day Saints* v. *Amos*, 107 S. Ct. 2862 (1987) inconsistent with the foregoing.

Interested persons are invited to submit written comments on the proposed regulations. Reference should be made to the number of the paragraph or section to which comments are directed. All written comments received in response to this notice of proposed rulemaking will be available for public inspection in the Office of the General Counsel from 9:00 a.m. to 4:00 p.m, Monday through Friday, except legal holidays.

As required by Executive Order 12291, I have determined that this proposed rule is not a "Major" rule and therefore does not require a Regulatory Impact Analysis.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96–354, 94 Stat. 1164, 5 U.S.C. 601–612), I have determined that these regulations do not have a significant economic impact on a substantial number of small entities.

List of Subjects in 32 CFR Parts 1636 and 1656

Armed forces—draft.

Dated: November 9, 1987.

Jerry D. Jennings,

Acting Director.

The proposed regulations are:

PART 1636—CLASSIFICATION OF CONSCIENTIOUS OBJECTORS

1. The authority citation for Part 1636 continues to read as follows:

Authority: Military Selective Service Act, 50 U.S.C. App. 451 et seq.; E.O. 11623.

§ 1636.9 [Amended]

2. Section 1636.9 (c) and (d) is removed and reserved.

PART 1656—ALTERNATIVE SERVICE

3. The authority citation for Part 1656 continues to read as follows:

Authority: Military Selective Service Act, 50 U.S.C. App. 451 et seq.; E.O. 11623.

4. Section 1656.5(a)(1)(iii) is revised to read:

§ 1656.5 [Amended]

(a) * * *
(1) * * *

(iii) Those who do not require as a condition of the employment of an ASW his commitment to any political or religious belief or doctrine or his membership or nonmembership in a political or religious group.

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 179

[CGD 77–115]

Defect Notification and First Purchaser Information

AGENCY: Coast Guard, DOT.

ACTION: Notice of extension of comment period.

SUMMARY: A supplementary notice of proposed rulemaking (52 FR 20115) published May 29, 1987, proposed amendments to the Defect Notification regulations in Part 179 of Title 33, Code of Federal Regulations. Public comments were invited by August 27, 1987. The notice was published in the Boating Safety Circular and distributed to approximately 21,000 recreational boat manufacturers, dealers, distributors and other interested parties. After the close of the comment period, a number of inflatable boat manufacturers and importers learned of the notice and requested copies of the notice and an opportunity to comment. Those manufacturers and importers could be adversely affected by the proposed amendments. Due to these requests, the comment period is being extended 60 days from the publication of this notice.

DATES: Comments must be received on or before February 16, 1988.

ADDRESSES: Comments should be submitted to Commandant (G–CMC/21), (CGD 77–115), U.S. Coast Guard, Washington, DC 20593–0001. Comments will be available for examination at the Marine Safety Council (G–CMC/21), Room 2110, U.S. Coast Guard Headquarters, 2100 Second Street SW., Washington, DC 20593–0001, between 8 a.m. and 3 p.m., Monday through Friday, except holidays.

FOR FURTHER INFORMATION CONTACT: Mr. Alston Colihan, Office of Boating, Public, and Consumer Affairs, Boating Safety Division, (202) 267–0981.

SUPPLEMENTARY INFORMATION:

Request for Comments

Interested persons are invited to submit written views, data or arguments. Comments should include the name and address of the person making them and identify this notice [CGD 77–115]. Receipt of comments will be acknowledged if a stamped, self-addressed postcard or envelope is enclosed.

All comments received will be considered before final action is taken on this proposal. Copies of all written comments received will be available for examination by interested persons at the Marine Safety Council address noted above. No public hearing is planned, but one may be held if written requests for a hearing are received and it is determined that the opportunity to make oral presentations will aid the rulemaking process.

The supplemental notice of proposed rulemaking published on May 29, 1987 provided that public comments should be received by August 27, 1987. The intended effect of the amendments proposed in the supplementary notice is to require boat and engine manufacturers to establish and maintain first purchaser lists and require marine dealers to furnish the manufacturers with the information necessary to establish those lists: The serial numbers of new boats and engines sold and the names and addresses of retail first purchasers of those products. The manufacturers would use the information to locate the purchasers of boats and engines which have been recalled for defects which create a substantial risk of personal injury to the public and for failures to comply with applicable regulations. The proposed amendments are needed because many manufacturers do not maintain sufficient first purchaser lists or cannot obtain the information from dealers. As a result, attempts to notify purchasers during recall campaigns are inadequate. Additional editorial changes would clarify confusing language in the Defect Notification regulations and would reflect changes in the applicability of the part. Since the Coast Guard feels that an affected segment of the public has not had sufficient opportunity to comment on the supplementary notice of proposed rulemaking, the time for public comment is extended to February 16, 1988.

Dated: December 14, 1987.

M.E. Gilbert,

Rear Admiral, U.S. Coast Guard, Chief, Office of Boating, Public and Consumer Affairs.

DEPARTMENT OF EDUCATION

34 CFR Part 251

Formula Grants; Local Educational Agencies and Tribal Schools

AGENCY: Department of Education.

ACTION: Proposed rule; extension of comment period.

SUMMARY: On October 5, 1987, the Department of Education published in the **Federal Register** a notice of proposed rulemaking (NPRM) concerning the documentation necessary to establish the eligibility of school children to be counted as "Indian" or "Alaska Native" under the Part A Formula Grants Program of the Indian Education Act. The NPRM provided for a comment period ending November 19, 1987 (52 FR 37260–37263).

In response to numerous requests, the Secretary extends the comment period.

DATE: The comment period for the October 5, 1987, NPRM is extended until March 16, 1988.

ADDRESSES: All comments concerning the proposed regulations should be addressed to John Sam, Acting Director, Indian Education Programs, Office of Elementary and Secondary Education, U.S. Department of Education (Room 2177, FOB–6), 400 Maryland Avenue, SW., Washington, DC 20202. Telephone (202) 732–1887.

FOR FURTHER INFORMATION CONTACT: Hakim Khan, telephone number (202) 732–1887.

Dated: December 11, 1987.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 64

[General Docket No. 87–505; FCC 87–352]

National Security Emergency Preparedness Telecommunications Service Priority System

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission proposes to amend Subpart D and Appendices A and B to Part 64 of its Rules and Regulations governing (a) the system of priorities for restoration of vital private line services during emergency situations and (b) a precedence system to ensure that communications vital to the national interst will be afforded priority handling in all situations ranging from normal peacetime conditions to various stages of crises. Amendment of the rules is proposed in consideration of a petition filed by the Secretary of Defense, through the National Communications System (NCS), who contends that the Commission's Restoration Priority (RP) System no longer addresses today's needs for priority treatment of National Security Emergency Preparedness (NSEP) telecommunications service.

DATES: Interested parties may file comments on or before January 25, 1988, and reply comments on or before February 16, 1988. For general information on how to file comments, parties should direct inquiries to the Commission's Consumer Assistance and Small Business Division, telephone (202) 632–7000.

ADDRESS: Federal Communications Commission, 1919 M Street NW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: James M. Talens, Chief, Domestic Services Branch, Common Carrier Bureau, telephone (202) 634–1800.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Notice of Proposed Rulemaking (*NPRM*) in General Docket No. 87–505, FCC 87–352, adopted November 2, 1987, and released December 2, 1987. The complete document may be inspected and copied during the weekday hours (excluding Federal holidays) of 9 a.m. to 4:30 p.m. in the Commission's Public Reference Room, Room 239, 1919 M Street NW., Washington, DC; or a transcript may be purchased from the Commission's duplicating contractor, International Transcription Services, 2100 M Street,

VOL 52 ISS 242 DEC 17 1987 UMI

NW., Suite 140, Washington, DC 20037, telephone (202) 857–3800.

Summary of Notice of Proposed Rulemaking

1. Initiation of this rulemaking is prompted by a petition filed April 1, 1987 by the Secretary of Defense in his capacity as the Executive Agent for NCS. Public Notice of the petition released by the Commission (*see* Public Notice No. 2826 (April 3, 1987)) elicited twelve comments and two reply comments. For the reasons set forth in the NPRM, the Commission proposes to (a) revise its current Rule § 64.401 and Appendix A to Rule Part 64 which contain the RP System for establishing priorities for restoring vital private line services during emergencies, and (b) delete § 64.402 and Appendix B to Rule Part 64 which dictate the Precedence System for public correspondence service provided by communications common carriers. Interested parties are encouraged to express their views of the proposed revisions and to submit specific editorial modifications to NCS' draft TSP system contained in Appendix A to the NPRM.

2. It has been suggested that the current RP System does not fully address today's needs for priority treatment of NSEP telecommunications services, and therefore should be replaced by an updated Telecommunications Service Priority (TSP) system having broader scope and applicability. The proposed TSP rules, together with regulations adopted by the Executive Office of the President, are intended to establish a uniform system of priorities for provisioning and restoration of NSEP telecommunications services both before and after invocation of the President's war emergency powers. *See* 47 U.S.C. 706.

3. The TSP system would permit communications common carriers to provide certain preferences among services and users when NSEP is involved without violating provisions of the Communications Act. The objective of the proposed system is to ensure that NSEP telecommunications needs are handled adequately without unduly interfering with those of the public, and the process is intended to modernize the means by which the nation is assured that essential communications facilities receive the highest priority in times of national emergency.

Note.—Since this Federal Register publication is only a brief summary of the *NPRM*, including Appendix A, interested parties are urged to examine the complete document which, as stated above, may be copied at the Commission's Public Reference Room or purchased from International Transcription Services).

Legal Basis

Authority for this action is contained in the Communications Act of 1934, as amended, 47 U.S.C. 151, 154(i) and 201–05, amended.

Ex Parte Presentations

This is a nonrestricted notice and comment rulemaking proceeding. For rules governing permissible *ex parte* contacts, *see* § 1.1200, *et seq.*, of equal the Commission's Rules, 47 CFR 1.1200, *et seq.*, as amended by the Commission's *Report and Order* in Gen. Docket No. 86–225 released May 22, 1987 (FCC 87–94), 2 FCC Rcd 3011, 52 FR 21051 (June 4, 1987); *partial reconsideration pending*, 2 FCC Rcd 4264, *Erratum*, 2 FCC Rdc 4265 (1987).

Initial Regulatory Flexibility Analysis

The impact of the proposed rules on large and small telecommunications providers will vary depending on the number of NSEP services provided. Written comments are requested on the initial regulatory flexibility analysis as prescribed by the *NPRM* pursuant to the Regulatory Flexibility Act of 1980, 5 U.S.C. 601 *et seq.*

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

National Commission on Dairy Policy; Advisory Committee Meeting

Pursuant to provisions of section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), a notice is hereby given of the following committee meeting.

Name: National Commission on Dairy Policy.

Time And Place: 8:00 A.M. at the Sheraton National Hotel Columbia Pike and Washington Blvd. Arlington, Virginia.

Status: Open.

Matters to be considered: On January 4 and 5 the Commission will review draft findings on production controls and economic formula. The Commission will also conduct a final review of draft findings on trade, promotion, family farms, technology and milk price supports. The Commission will begin the process of making recommendations for its final report. The Commission will also discuss component pricing and milk and dairy product standards.

Written statements may be filed before or after the meeting with: Contact person named below.

CONTACT PERSON FOR MORE INFORMATION: Mr. T. Jeffrey Lyon, Assistant Director, National Commission on Dairy Policy, 1401 New York Avenue NW., Suite 1100, Washington, DC 20005, (202) 638–6222.

Signed at Washington, DC, this 13th day of December 1987.

David R. Dyer,

Executive Director, National Commission on Dairy Policy.

BILLING CODE 3410-05-M

Soil Conservation Service

Finding of No Significant Impact; Aucilla River Watershed, FL

AGENCY: Soil Conservation Service, USDA.

ACTION: Notice of a finding of no significant impact.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Aucilla River Watershed, Jefferson County, Florida, and Brooks and Thomas Counties, Georgia.

FOR FURTHER INFORMATION CONTACT: James W. Mitchell, State Conservationist, Soil Conservation Service, 401 S.E. First Avenue, Room 248, Gainesville, Florida 32601, telephone (904) 377–0946.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, James W. Mitchell, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The project concerns a plan for watershed protection. The planned works of improvement include accelerated technical assistance and federal cost sharing for the installation of land treatment measures.

The Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting James W. Mitchell.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

(This activity is listed in the Catalog of Federal Domestic Assistance under No. 10.904—Watershed Protection and Flood Prevention—and is subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials)

James W. Mitchell,

State Conservationist.

Date: December 10, 1987.

BILLING CODE 3410-16-M

Finding of No Significant Impact; Hays Creek Watershed, VA

AGENCY: Soil Conservation Service, USDA.

ACTION: Notice of a finding to no significant impact.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Hays Creek Watershed in Rockbridge and Augusta Counties, Virginia.

FOR FURTHER INFORMATION CONTACT: Mr. George C. Norris, State Conservationist, Soil Conservation Service, 400 North Eighth Street, Richmond, Virginia 23240–9999, telephone (804) 771–2455.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. George C. Norris, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The project concerns a plan for the protection of 9,876 acres of cropland, pastureland, and forestland in Rockbridge and Augusta Counties, Virginia. This protection will be accomplished by installation of soil and water conservation practices.

The Notice of Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various

Federal, State, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single-copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting Mr. George C. Norris, State Conservationist.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register.**

(Catalog of Federal Domestic Assistance Program No. 10.901, Resource Conservation and Development Program. Executive Order 12372 regarding inter-government review of federal and federally-assisted programs and projects is applicable)

George C. Norris,

State Conservationist.

Date: December 10, 1987.

BILLING CODE 3410-16-M

CIVIL RIGHTS COMMISSION

Hawaii Advisory Committee; Agenda and Notice of Public Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a meeting of the Hawaii Advisory Committee to the Commission will convene at 9:00 a.m. and adjourn at 12:00 noon, on January 21, 1988, at the Waikiki Trade Center, 2255 Kuhio Avenue, 11th Floor conference room, Honolulu, Hawaii 96815. The purpose of the meeting is to review the work of the education subcommittee and to plan for implementation of the Hawaiian Homelands project.

Persons desiring additional information, or planning a presentation to the Committee, should contact Committee Chairperson, Andre S. Tatibouet, or Philip Montez, Director of the Western Regional Division (213) 894-3437, TDD (213) 894-0508. Hearing impaired persons who will attend the meeting and require the services of a sign language interpreter, should contact the Regional Office at least five (5) working days before the scheduled date of the meeting.

The meeting will be conducted pursuant to the provisions of the rules and regulations of the Commission.

Dated at Washington, DC, December 4, 1987.

Susan J. Prado,

Acting Staff Director.

BILLING CODE 6335-01-M

DEPARTMENT OF COMMERCE

Agency Information Collections Under Review by the Office of Management and Budget (OMB)

DOC has submitted to OMB for clearance the following proposals for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: International Trade Administration
Title: Application for an Export Trade Certificate of Review
Form Number: Agency—ITA-4093P; OMB—0625-0125
Type of Request: Extension of the expiration date of a currently approved collection
Burden: 40 respondents; 1,280 reporting hours
Needs and Uses: The Export Trading Company Act is intended to increase U.S. exports of goods and services primarily by removing two impediments: (1) Restrictions on bank investment and certain export financing, and (2) the uncertainty regarding the application of U.S. antitrust laws to export activity. Title 111 of the Act requires the Department of Commerce to establish a program to evaluate applications for antitrust Export Trade Certificates of Review, and with the concurrence of the Department of Justice, issue such certificates in appropriate cases. The information contained in the application is used by the Departments of Commerce and Justice in determining if a Cetificate should be issued.
Affected Public: State or local governments; businesses or other for-profit institutions; small businesses or organizations
Frequency: On occasion
Respondent's Obligation: Required to obtain or retain a benefit
OMB Desk Officer: John Griffen, 395-7340

Agency: International Trade Administration
Title: Format for Petition Requesting Relief Under U.S. Countervailing Duty Law
Form Number: Agency—ITA-366P; OMB—0625-0145
Type of Request: Revision of a currently approved collection
Burden: 44 respondents; 1,760 reporting hours
Needs and Uses: Under Section 702 of the Tariff Act, the Department of Commerce is required to conduct countervailing duty investigations when acceptable petitions are received from an interested party. The purpose of an investigation is to determine whether a foreign government is providing subsidies to a particular industry under investigation which provide the company(ies) producing and exporting that product to the U.S. an unfair advantage over U.S. producers. The information provided is used to determine whether a countervailing duty investigation is warranted.
Affected Public: Businesses or other for-profit institutions; small businesses or organizations
Frequency: On occasion
Respondent's Obligation: Required to obtain or retain a benefit
OMB Desk Officer: John Griffen 395-7340

Copies of the above information collection proposals can be obtained by calling or writing DOC Clearance Officer, Edward Michals, (202) 377-3271, Department of Commerce, Room 6622, 14th and Constitution Avenue, NW., Washington, DC 20230.

Written comments and recommendations for the proposed information collections should be sent to John Griffen, OMB Desk Officer, Room 3228, New Executive Office Building, Washington, DC 20503.

Dated: December 11, 1987.

Edward Michals,

Departmental Clearance Officer, Office of Management and Organization.

BILLING CODE 3510-CW-M

Agency Form Under Review by the Office of Management and Budget (OMB)

DOC has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: Bureau of the Census
Title: 1988 Dress Rehearsal—Reinterview Form and Reconciliation Record
Form Number: Agency—DX-806; OMB—NA
Type of Request: New
Burden: 17,037 respondents; 1,987 reporting hours
Needs and Uses: This collection is necessary to verify enumerators' work. Census reinterviewers will telephone or visit a sample of households to obtain address and household roster information and compare it to original census data to detect gross curbstoning.
Affected Public: Individuals or households
Frequency: One time
Respondent's Obligation: Mandatory
OMB Desk Officer: Francine Picoult, 395-7340.

Copies of the above information collection proposal can be obtained by calling or writing DOC Clearance Officer, Edward Michals, (202) 377-3271, Department of Commerce, Room H6622, 14th and Constitution Avenue, NW., Washington, DC 20230.

Written comments and recommendations for the proposed information collection should be sent to Francine Picoult, OMB Desk Officer, Room 3228 New Executive Office Building, Washington, DC 20503.

Dated: December 11, 1987.

Edward Michals,

Amendment to Final Determination of Sales at Less Than Fair Value and Amendment to Antidumping Duty Order; Tapered Roller Bearings and Parts Thereof, Finished and Unfinished, From Japan

AGENCY: Notice.

SUMMARY: As a result of correction of clerical errors, the Department of Commerce (the Department) is amending its final determination in this investigation and its antidumping order and is directing the U.S. Customs Service to adjust the cash deposit rates as follows:

Manufacturer/producer/exporter	Weighted-average margin % amended final
Koyo Seiko Co., Ltd.	36.21
NTN Toyo Bearing Co., Ltd.	36.53
All Others	36.52

EFFECTIVE DATE: December 17, 1987.

FOR FURTHER INFORMATION CONTACT: David L. Binder (202-377-1779), Office of Investigations, Import Administration, International Trade Administration, Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

SUPPLEMENTAL INFORMATION:

Background

On August 10, 1987, in accordance with section 735 of the Tariff Act of 1930, as amended (the Act) (19 U.S.C. 1673d), the Department made its final determination that imports of tapered roller bearings from Japan were being sold at less than fair value (52 FR 30700, August 17, 1987).

On September 23, 1987, in accordance with section 735(d) of the Act (19 U.S.C. 1673d(d)), the ITC notified the Department of its determination that an industry in the United States is materialy injured by imports of tapered roller bearings from Japan. On October 6, 1987, pursuant to section 736 of the Act (19 U.S.C. 1673e), the Department published an antidumping duty order on tapered roller bearings from Japan (52 FR 37352, October 6, 1987).

After disclosure meetings were held with each respondent, Koyo Seiko Co., Ltd. ("Koyo"), an NTN Bearing Co., Ltd. ("NTN"), and the petitioner, the Timken Company, these parties submitted comments concerning possible clerical errors found. They requested that the Department correct these errors. The Department conductd a review based on these comments and made the following corrections:

Koyo

1. A correction was made on certain margin calculations to exclude movement charges in the cost of production for parts imported for further manufacture.

2. The program was changed to use the ESP offset as part of the calculation of constructed value (CV) of imported parts.

3. The program was amended to use the total constructed value for imported parts when comparing constructed value to merchandise further manufactured in the U.S.

4. The progam was corrected to properly allocate profit or loss between the imported components and value added.

NTN

1. A correction was made to the program to accurately calculate the foreign market value for certain imported components for further processing.

2. A correction was made to the program to accurately calculate certain constructed values.

3. The program was amended to make a circumstance of sale adjustment for home market credit expenses when the FMV was based on contructed value.

4. The cost test was changed to accurately handle certain packing included in the home market price.

5. The program was corrected to accurately make certain comparisons across the level of trade.

6. The program was corrected to make margin calculations for certain purchase price sales previously excluded.

7. Changes were made to the program to insure the use of accurate difference in merchandise adjustments.

8. Corrections were made to the program to include adjustments for R&D and interest expenses in calculating certain constructed values.

9. A program correction was made to include profit or loss in the calculation of value added.

10. A correction was made to the ESP program to correctly apply the adjustment for certain differences in credit.

11. Changes were made in our comparisons to accurately reflect

VOL 52 ISS 242 DEC 17 1987 UMI

certain matches as described in the Such or Similar Merchandise section of the final determination notice.

Suspension of Liquidation

The final determination and antidumping duty order on tapered roller bearings from Japan are amended to incorporate the changes in the calculations as set forth above. Accordingly, the Department will advise the U.S. Customs Service to adjust the cash deposit rates, on or after the date of the publication of this notice in the **Federal Register**, as follows:

Manufacturer/producer exporter	Weighted-average margin % amended final
Koyo Seiko Co., Ltd.	36.21
NTN Toyo Bearing Co., Ltd.	36.53
All Others	36.52

Gilbert B. Kaplan,

Acting Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-M

Minority Business Development Agency

Minority Business Development Center Program; Newark, NJ

AGENCY: Minority Business Development Agency, Commerce.

ACTION: Notice.

SUMMARY: The Minority Business Development Agency (MBDA) announces that it is soliciting competitive applications under its Minority Business Development Center (MEDC) Program to operate a MBDC for a three (3) year period, subject to available funds. The cost of performance for the first twelve months is estimated at $375,800 for the project performance of June 1, 1988 to May 31, 1989. The MBDC will operate in the Newark, New Jersey Standard Metropolitan Statistical Area (SMSA). The first year cost for the MBDC will consist of $375,800 in Federal funds and a minimum of $66,318 in Non-Federal funds (which can be a combination of cash, in-kind contribution and fees for services).

The funding instrument for the MBDC will be a cooperative agreement and competition is open to individuals, non-profit and for-profit organizations, local and state governments, American Indian tribes and educational institutions.

The MBDC will provided management and technical assistance to eligible clients for the establishment and operation of businesses. The MBDC program is designed to assist those minoity businesses that have the highest potential for success. In order to accomplish this, MBDA supports MBDC programs that can: Coordinate and broker public and private sector resources on behalf of minority individuals and firms; offer than a full range of management and technical assistance; and serve as a conduit of information and assistance regarding minority business.

Applications will be judged on the experience and capability of the firm and its staff in addressing the needs of minoity business individuals and organizations; the resources available to the firm in providing management and technical assistance; the firm's proposed approach to performing the work requirements included in the application; and the firm's estimated cost for providing such assistance. It is advisable that applicants have an existing office in the geographic region for which they are applying.

The MBDC will operate for a three (3) year period with periodic reviews culminating in annual evaluations to determine if funding for the project should continue. Continued funding will be at the discretion of MBDA based on such factors as an MBDC's satisfactory performance, the availability of funds, and Agency priorities.

DATES: *Closing Date:* The closing date for applications is January 22, 1988. Applications must be postmarked on or before January 22, 1988.

ADDRESS: New York Regional Office, Minority Business Development Agency, Jacob K. Javits Federal Building, Room 3720, New York, New York 10278, (212) 264-3262.

FOR FURTHER INFORMATION CONTACT: Gina A. Sanchez, Regional Director New York Regional Office at (212) 264-3262.

SUPPLEMENTARY INFORMATION: Questions concerning the preceding information copies of application kits and applicable regulations can be obtained at the above address.

BILLING CODE 3510-21-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Adjustment of Import Limits for Certain Cotton, Wool, Man-Made Fiber, Silk Blend and Other Vegetable Fiber Textiles and Textile Products Produced or Manufactured in Sri Lanka

December 14, 1987.

The Chairman of the Committee for the Implementation of Textile Agreements (CITA), under the authority contained in E.O. 11651 of March 3, 1972, as amended, has issued the directive published below to the Commissioner of Customs to be effective on December 18, 1987. For further information contact Kimbang Pham, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377-4212. For information on the quota status of these limits, please refer to the Quota Status Reports which are posted on the bulletin boards of each Customs port or call (202) 343-6580. For information on embargoes and quota re-openings, please call (202) 377-3715.

Summary

In the letter published below, the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to increase the current import restraint limits for certain cotton, wool, man-made fiber, silk blend and other vegetable fiber textiles and textile products, produced or manufactured in Sri Lanka and exported during the twelve-month period which began on June 1, 1987 and extends through May 31, 1988.

Under the terms of the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of May 10, 1983, as amended, and at the request of the Government of Sri Lanka, the restraint limits for Categories 331, 333/633, 334, 337, 338, 350, 351, 363, 442, 445/446, 631, 634, 636/836, 640 and 644 are being increased for carryover.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175), May 3, 1983 (48 FR 19924), December 14, 1983, (48 FR 55607), December 30, 1983 (48 FR 57584), April 4, 1984 (49 FR 13397), June 28, 1984 (49 FR 26622), July 16, 1984 (49 FR 28754), November 9, 1984 (49 FR 44782), July 14, 1986 (51 FR 25386), July 29, 1986 (51 FR 27068) and in Statistical Headnote 5, Schedule 3 of the Tariff Schedules of the United States Annotated (1987).

Adoption by the United States of the Harmonized Commodity Code (HCC) may result in some changes in the categorization of textile products covered by this notice. Notice of any necessary adjustments to the limits affected by adoption of the HCC will be poublished in the **Federal Register**.

The letter to the Commissioner of Customs and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

James H. Babb,

Chairman, Committee for the Implementation of Textile Agreements.

December 14, 1987.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229

Dear Mr. Commissioner: This directive amends, but does not cancel, the directive of May 12, 1987 concerning imports into the United States of certain cotton, wool, man-made fiber, silk blend and other vegetable fiber textiles and textile products, produced or manufactured in Sri Lanka and exported during the period which began on June 1, 1987 and extends through May 31, 1988.

Effective on December 18, 1987, the directive of May 12, 1987 is amended further to include the adjustments to the previously established restraint limits for the following categories, as provided under the terms of the bilateral agreement of May 10, 1983, as amended:[1]

Category	Adjusted restraint limit [1]
331	1,095,019 dozen.
333/633	34,121 dozen.
334	234,242 dozen.
337	119,221 dozen.
338	262,341 dozen.
350	52,947 dozen.
351	119,867 dozen.
363	7,226,670 numbers.
442	13,453 dozen.
445/446	104,343 dozen.
631	364,351 dozen pairs.
634	140,135 dozen.
636/836	169,950 dozen.
640	100,486 dozen.
644	25,985 dozen.

[1] The limits have not been adjusted to account for any imports exported after May 31, 1987.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

James H. Babb,

Chairman, Committee for the Implementation of Textile Agreements.

Defense Science Board Task Force on Defense Mapping Agency; Advisory Committee Meetings

SUMMARY: The Defense Science Board Task Force on Defense Mapping Agency will meet in closed session on February 2-3, and March 8-9, 1988 at DMA Hydrographic/Topographic Center, Washington, DC.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition on scientific and technical matters as they affect the perceived needs of the Department of Defense. At these meetings the Task Force will study the Defense Mapping Agency and ascertain whether or not the mechanisms exists within DMA to meet the needs of weapons systems developers and operators with respect to resources, capabilities, and procedures.

In accordance with section 10(d) of the Federal Advisory Committee Act, Pub. L. No. 92-463, as amended (5 U.S.C. App. II, (1982)), it has been determined that these DSB Task Force meetings, concern matters listed in 5 U.S.C. 552b(c)(1)(1982), and that accordingly these meetings will be closed to the public.

Department of the Navy

Intent To Prepare a Draft Environmental Impact Statement (DEIS) for a Proposed Land Acquisition for Expansion of Marine Corps Base, Camp Lejeune, Onslow County, NC

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, Council on Environmental Quality Guidelines (40 CFR Part 1500), the Department of the Navy (DON), U.S. Marine Corps is preparing a DEIS for the proposed expansion of Marine Corps Base, Camp Lejeune.

During development of the current Master Plan, the need for increased training area resulted in development of a separate report entitled "Special Training Analysis, Camp Lejeune, NC." This report identified a need for additional land maneuver area and live fire weapons ranges to meet current training requirements. In the late spring of 1986, the International Paper Company advised the Base Commander of a willingness to sell a large parcel adjacent to the Base.

The geographic extent of the Marine Corps Base, Camp Lejeune has remained virtually unchanged since its establishment in 1941. The Marine Corps' organization, mission, doctrine and equipment, however, have continued to evolve with technological developments. This has resulted in changes in the structure of the Corps and development of new warfare tactics. These factors, coupled with increased firepower and mobility, have created demands for additional training land that currently are being partially met by utilizing other Department of Defense, Federal and State lands for some training evolutions.

The purpose of the proposal is to provide more realistic training in modern warfare tactics.

The proposed area being considered for acquisition generally lies north of Holly Ridge and is bounded by US 17 and NC 50 on the east and west and state roads 1104, 1105, 1107, and 1119 on the north. While International Paper Company (IPC) owns most of the acreage, there are over 100 private land holdings on the periphery or within the IPC parcel that also are under consideration for potential purchase.

Major considerations of the DEIS will include evaluations of noise, wetlands impacts, land use and necessary air space restrictions for artillery weapons firing. However, a full range of environmental, social and economic issues will be evaluated including mitigation of potential adverse impacts, to include avoidance of specific impacts where possible.

Public scoping is being conducted, to identify specific elements of the DEIS evaluation process in general, and to solicit assistance from public and private entities, and individuals. Scoping was initiated on 20 November by a letter to potentially affected entities advising of the proposed action and that public scoping meetings would be held in the Jacksonville, North Carolina vicinity on Sunday, 13 December 1987 at 3:00 p.m. in the gymnasium at the Rifle Range, Building RR8, located off NC 210 between U.S. 17 and NC 172; and in Raleigh, North Carolina on Monday, 14 December 1987 at 2:00 p.m. in the auditorium of the North Carolina Department of Transportation Building. In addition, informal scoping forums may be held in January 1988, in the vicinity of Holly Ridge, Haws Run or other locations should citizen interest dictate.

The Marine Corps wishes to ensure that all interested parties have the opportunity to focus the environmental analysis. Therefore, the scoping record will remain open and comments will be received until 30 January 1988. Individuals, agencies, and public or private organizations and citizens are encouraged to support the scoping process by commenting in writing and/or participating in the scoping meetings. Input data, information, comment, and questions should be directed to: Major Stuart Wagner, USMC, Joint Public Affairs Officer, Marine Corps Base, Camp Lejeune, North Carolina 28542-5201 (919) 451-5100.

When the DEIS is completed, a public notice of its availability will be made which will request review and comment by all interested parties. A Final Environmental Impact Statement will then be prepared to respond to the review comments.

December 11, 1987.

W.R. Babington, Jr.,

Commander, JAGS, U.S. Navy Federal Register Liaison Officer.

Invitation for Applications for Research Fellowships Under the National Institute on Disability and Rehabilitation Research for Fiscal Year 1988

Purpose: Provides support directly to highly qualified individuals to conduct research on the rehabilitation of disabled persons. Individuals may propose research in any area to promote solutions to problems related to disability. NIDRR intends to award approximately eight Merit and eight Distinguished Fellowships, as described in the regulations governing this program.

Deadline for Transmittal of Applications: February 22, 1988.

Applications Available: December 18, 1987.

Available Funds: $465,000.

Estimated Range of Awards: $25,000 for Merit Fellowships; $30,000 for distinguished Fellowships; $1500 for fellowship expenses in each category.

Project Period: 12 months.

Applicable Regulations: National Institute on Disability and Rehabilitation Research Regulations, 34 CFR Part 356.

For applications or Information Contact: Louise Chappell, National Institute on Disability and Rehabilitation Research, U.S. Department of Education, 400 Maryland Avenue, SW., Switzer Building, Room 3070, Washington, DC, 20202. Telephone: (202) 732-1184; deaf and hearing impaired individuals may call (202) 732-1198 for TTY services.

Program Authority: 29 U.S.C. 761a(d).

Dated: December 14, 1987.

Energy Information Administration

Agency Collections Under Review by the Office of Management and Budget

AGENCY: Energy Information Administration, DOE.

ACTION: Notice of requests submitted for clearance to the Office of Management and Budget.

SUMMARY: The Energy Information Administration (EIA) has submitted the energy information collection(s) listed at the end of this notice to the Office of Management and Budget (OMB) for approval under provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

The listing does not contain information collection requirements contained in new or revised regulations which are to be submitted under section 3504(h) of the Paperwork Reduction Act, nor management and procurement assistance requirements collected by the Department of Energy (DOE).

Each entry contains the following information: (1) The sponsor of the collection (the DOE component or Federal Energy Regulatory Commission (FERC); (2) Collection number(s); (3) Current OMB docket number (if applicable); (4) Collection title; (5) Type of request, e.g., new, revision, or extension; (6) Frequency of collection; (7) Response obligation, i.e., mandatory, voluntary, or required to obtain or retain benefit; (8) Affected public; (9) An estimate of the number of respondents per report period; (10) An estimate of the number of responses annually; (11) Annual respondent burden, i.e., an estimate of the total number of hours needed to respond to the collection; and (12) A brief abstract describing the proposed collection and the respondents.

DATES: Comments must be filed on or before January 19, 1988. Last notice issued Wednesday, December 2, 1987.

ADDRESS: Address comments to the Department of Energy Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, 726 Jackson Place, NW., Washington, DC 20503. (Comments should also be addressed to the Office of Statistical Standards, at the address below.)

FOR FURTHER INFORMATION AND COPIES OF RELEVANT MATERIALS CONTACT: Carole Patton, Office of Statistical Standards (EI–70), Energy Information Administration, M.S. 1H/023, Forrestal Building, 1000 Independence Ave., SW., Washington, DC 20585, (202) 586–2222.

SUPPLEMENTARY INFORMATION: If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this Notice, you should advise the OMB DOE Desk Officer of your intention to do so as soon as possible. The Desk Officer may be telephoned at (202) 395–3084.

The energy information collection submitted to OMB for review were:

1. Federal Energy Regulatory Commission
2. FERC–314A
3. 1902–0066
4. Application for Small Producer Exemption
5. Extension
6. One time filing
7. Required to obtain or retain a benefit
8. Businesses or other for profit; small businesses or organizations
9. 90 respondents
10. 90 responses
11. 270 hours
12. The data collected are used by the Commission to evaluate and process independent producer applications for the sale of gas in interstate commerce under small producer certificates of public convenience and necessity as prescribed by section 7 of the Natural Gas Act.

BILLING CODE 6450–01–M

Federal Energy Regulatory Commission

[Project Nos. 516–034 et al.]

Hydroelectric Applications, South Carolina Electric & Gas Co., Applications Filed With the Commission

Take notice that the following hydroelectric applications have been filed with the Federal Regulatory Commission and are available for public inspection:

a. *Type of Application:* Change in Land Rights.

b. *Project No.:* 516–034.

c. *Date Filed:* October 29, 1986.

d. *Applicant:* South Carolina Electric & Gas Company.

e. *Name of Project:* Saluda.

f. *Location:* Saluda River in Lexington County, South Carolina.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Contact Person:* Mr. Randolph R. Mahan, Associate General Counsel, South Carolina Electric & Gas Company, Columbia, SC 29218, (803) 748–3538.

i. *FERC Contact:* Peter Lyse, (202) 376–9479.

j. *Comment Date:* January 14, 1988.

k. *Description of Application:* South Carolina Electric & Gas Company, licensee for the Saluda Project, seeks Commission authorization to dispose of approximately 72 acres of land currently located within the project boundary. The land, which is presently undeveloped, would be transferred to South Carolina Real Estate Corporation, which proposes to develop it for residential and recreational purposes. The proposed development, to be known as Bundrick Pointe, would include the construction of single and multiple family residences and condominiums, marinas, a community center and a public park. (A copy of the application may be obtained by interested parties directly from the licensee).

l. This notice also consists of the following standard paragraphs: B & C.

2 a. *Type of Application:* Amendment of License.

b. *Project No.:* 2370–010.

c. *Date Filed:* October 14, 1986.

d. *Applicant:* Pennsylvania Electric Company.

e. *Name of Project:* Deep Creek Project.

f. *Location:* On Deep Creek near the Village of Oakland, Garrett County, Maryland.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact:* Mr. William J. Madden, Jr., Bishop, Cook, Purcell, & Reynolds, 1200 17th Street, NW., Washington, DC 20036, (202) 853–9800.

i. *FERC Contact:* Michael Dees, (202) 376–9830.

j. *Comment Date:* January 19, 1988.

k. *Description of Application:* The proposed amendment to Pennsylvania Electric Company's existing licensed Project No. 2370 would consist of authorization to issue boat docking permits in excess of the number for which the licensee is authorized by article 35 of its license for the Deep Creek Project. Authority to issue the following boat dock permits at Millhouse Manor has been requested: Expand the number of slips from the existing 14 slips to 18 slips, and provide a boat rack to accommodate 6 beachable watercraft.

l. This notice also consists of the following standard paragraphs: B, C, and D2.

3 a. *Type of Application:* Surrender of License.

b. *Project No.:* 3435–008.

c. *Date Filed:* October 2, 1987.

d. *Applicant:* The City of Hope, Arkansas.

e. *Name of Project:* Millwood Hydroelectric Project.

f. *Location:* On the Little River in Hempstead and Little River Counties, Arkansas.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact:* Mr. Zachary D. Wilson, Attorney at Law, 321 Maple, P.O. Box 5578, N. Little Rock, AR 72119, (501) 378–4090.

i. *FERC Contact:* Nanzo T. Coley, (202) 376–9418.

j. *Comment Date:* January 19, 1988.

k. *Description of Proposed Surrender:* (1) A 15.5-foot-diameter steel penstock, about 300 feet long, tunneled through the concrete section of the dam and a 6.5-foot-diameter steel penstock about 100 feet long, connecting to an existing outlet pipe with a steel liner; (2) a

powerhouse containing two turbine-generator units rated at 3,000 kW and 600 kW for a total rated capacity of 3,600 kW; (3) a tailrace returning flow to the river about 100 feet downstream from the dam; (4) a 115-kV transmission line, approximately 5,000 feet long; and (5) appurtenant facilities.

The applicant estimates that average annual energy output would have been 13,786,000 kWh. Energy produced at the project would have been sold to the Southwest Electric Power Company.

l. This notice also consists of the following standard paragraphs: B, C, & D2.

4 a. *Type of Application:* Minor License.

b. *Project No.:* 8945–001.

c. *Date Filed:* October 10, 1986.

d. *Applicant:* Richard D. Ely.

e. *Name of Project:* Natchaug River Project.

f. *Location:* On the Natchaug River, in the Town of Windham, Windham County and the Town of Tolland, Mansfield County, Connecticut.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact:* Mr. Richard D. Ely, P.O. Box 474, Storrs, CT 06268, (203) 486–5335.

i. *FERC Contact:* Tom Murphy, (202) 376–9829.

j. *Comment Date:* February 8, 1988.

k. *Description of project:* The proposed run-of-river project would utilize the U.S. Corps of Engineers' Mansfield Hollow Dam. The project would consist of installing two generating units along with trash racks in existing outlet conduits. The combined installed capacity will be 240 kW and the estimated average annual generation is 690 MWh. Power transmission will be by existing underground cable. The applicant estimates the cost of the project will be $187,000.

l. *Purpose of Project:* The project power generated would be sold to the Connecticut Power and Light Company.

m. This notice also consists of the following standard paragraphs: A3, A9, B, C, and D1.

5 a. *Type of Application:* Exemption (5MW or less).

b. *Project No.:* 10466–000.

c. *Date Filed:* September 3, 1987.

d. *Applicant:* Mega Renewables.

e. *Name of Project:* Walker/Digger Hydroelectric Project.

f. *Location:* On Digger Creek, near the town of Manton, in Tehama County, California (In Sections 19, 20 and 21 of T30N, R2E, MDB&M; and Sections 23 and 24 of T30N, RIE, MDB&M).

g. *Filed Pursuant to:* Section 408 of the Federal Energy Security Act, 16 U.S.C. 2705 and 2708 *as amended.*

h. *Applicant Contact:* Fred Castagna, Mega Renewables, 2576 Hartnell Avenue, Redding CA 96002, (916) 222–1414.

i. *FERC Contact:* Ahmad Mushtaq, (202) 376–1900.

j. *Comment Date:* January 19, 1988.

k. *Description of Project:* The proposed project would consist of: (1) An intake structure in the west bank of Digger Creek at elevation 3,085 feet m.s.l.; (2) a 48-inch-diameter, 2-mile-long diversion conduit; (3) a 42-inch-diameter, 1.8-mile-long steel penstock; (4) a powerhouse with a total installed capacity of 3,000 kW operating under a head of 725 feet; and (5) a 2,000-foot-long, 60-kV transmission line interconnecting the project to an existing Pacific Gas and Electric Company (PG&E) transmission line. The estimated average annual generation of 9.5 million kWh would be sold to PG&E.

l. This notice also consists of the following standard paragraphs: A3, A9, B, C, and D3a.

6 a. *Type of Application:* Preliminary Permit.

b. *Project No:* 9977–000.

c. *Date Filed:* April 21, 1986.

d. *Applicant:* The City of Augusta, Georgia.

e. *Name of Project:* New Savannah Bluff Hydro Project.

f. *Location:* On the Savannah River in Richmond County, Georgia, and Aiken County, South Carolina.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a) – 825(r).

h. *Contact Person:* Mr. Charles T. Dillard, 701 Municipal Building, Augusta, GA 30911, (404) 821–1706.

i. *FERC Contact:* Ed Lee, (202) 376–9825.

j. *Comment Date:* January 19, 1988.

k. *Competing Application:* Project No. 9812–000 Date Filed: December 30, 1985.

l. *Description of Project:* The proposed project would be located at the U.S. Army Corps of Engineers' New Savannah Bluff Lock and Dam, and would consist of: (1) A proposed 1,000-foot-long headrace canal; (2) a new powerhouse containing one 7–MW generator; (3) a proposed 1,000-foot-long tailrace; (4) a proposed 4-mile-long 13.8-kV transmission line or equivalent; and (5) appurtenant facilities. The applicant estimates that the average annual generation would be 45,000 MWh. Project energy would be sold to a local utility company. The applicant estimates that the cost of the work to be performed under the permit would be $20,000.

m. This notice also consists of the following standard paragraphs: A8, A10, B, C, and D2.

7 a. *Type of Application:* Amendment of License.

b. *Project No:* 1889–007.

c. *Date Filed:* December 26, 1985.

d. *Applicants:* Western Massachusetts Electric Company.

e. *Name of Project:* Turners Falls Project.

f. *Location:* On the Connecticut River in Franklin County, Massachusetts, Windham County, Vermont, and Cheshire County, New Hampshire.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a) – 825(r).

h. *Contact Person:* Mr. J.F. Opeka, Northeast Utilities, P.O. Box 270, Hartford, CT 06141–0270, (203) 665–5000.

i. *FERC Contact:* Thomas O. Murphy on (202) 376–9829.

j. *Comment Date:* January 21, 1988.

k. *Description of Project:* The proposed expansion of the Turners Falls Project would consist of the installation of a new Unit 7 at the Cabot Station. No changes are planned to the dam, reservoir, gatehouse, or existing canal except for extending the canal forebay. The proposed changes consist of: (1) Extending the southerly end of the existing canal forebay approximately 80 feet to accommodate the new Unit 7 intake approach channel; (2) a new reinforced concrete intake located on the southeast side of the forebay; and (3) a new 175 feet by 55 feet reinforced concrete semi-outdoor type powerhouse located just south of Cabot Station and housing one vertical-shaft fixed blade propeller turbine and synchronous generator with an average capacity of 22,600 kW. The applicant estimates with the increased capacity of 22,600 kW the project output will increase by approximately 46,300,000 kWh per year.

l. This notice also consists of the following standard paragraphs: A3, A9, B, & C.

8 a. *Type of Application:* Amendment of License.

b. *Project No:* 2370–017.

c. *Date Filed:* October 14, 1987.

d. *Applicant:* Pennsylvania Electric Company.

e. *Name of Project:* Deep Creek Project.

f. *Location:* On Deep Creek near the Village of Oakland, Garrett County, Maryland.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a) – 825(r).

h. *Applicant Contact:* Mr. William J. Madden, Jr., Bishop, Cook, Purcell, & Reynolds, 1200 17th Street, NW., Washington, DC 20036, (202) 853–9800.

i. *FERC Contact:* Michael Dees, (202) 376–9030.

j. *Comment Date:* January 22, 1988.

k. *Description of Project:* The proposed amendment to Pennsylvania Electric Company's existing licensed Project No. 2370 would consist of authorization to issue boat docking permits in excess of the number for which the licensee is authorized by article 35 of its license for the Deep Creek Project. Authority to issue the following boat dock permits at Alpine Village and Silver Tree Inn has been requested: Alpine Village — expand the number of slips from the existing 15 slips to 25 slips; Silver Tree Inn — expand the number of slips from the existing 10 slips to 38 slips.

l. This notice also consists of the following standard paragraphs: B, C, and D2.

9 a. *Type of Application:* Amendment of License.

b. *Project No.:* 2370–018.

c. *Date Filed:* October 14, 1987.

d. *Applicant:* Pennsylvania Electric Company.

e. *Name of Project:* Deep Creek Project.

f. *Location:* On Deep Creek near the Village of Oakland, Garrett County, Maryland.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact:* Mr. William J. Madden, Jr., Bishop, Cook, Purcell, & Reynolds, 1200 17th Street, NW., Washington, DC 20036, (202) 853–9800.

i. *FERC Contact:* Michael Dees, (202) 376–9030.

j. *Comment Date:* January 22, 1988.

k. *Description of Project:* The proposed amendment to Pennsylvania Electric Company's existing licensed Project No. 2370 would consist of authorization to issue boat docking permits in excess of the number for which the licensee is authorized by article 35 of its license for the Deep Creek Project. Authority to issue the following boat dock permits at Lakeforest Estates has been requested: Four single family three slip docks, one common dock facility to hold up to six boats, and one common dock facility to hold up to five boats.

l. This notice also consists of the following standard paragraphs: B, C, and D2.

10 a. *Type of Application:* Transfer of License.

b. *Project No.:* 5130–005.

c. *Date Filed:* October 2, 1987.

d. *Applicants:* Floyd N. Bidwell and Mega Renewables.

e. *Name of Project:* Lost Creek #2.

f. *Location:* On Lost Creek partly within the Lassen National Forest in Shasta County, California.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact:* Transferor: Floyd N. Bidwell, P.O. Box 547, Cassell, CA 96019, (916) 335–2797.

Transferee: Fred G. Castagna, Mega Renewables, 2576 Hartnell Avenue, Redding, CA 96002, (916) 222–1414.

i. *FERC Contact:* Don Wilt, (202) 376–9807.

j. *Comment Date:* January 22, 1988.

k. *Description of Proposed Transfer of License:* Floyd N. Bidwell proposes to transfer the license for Project No. 5130 to Mega Renewables to facilitate financing for completion of the project. Transferee has proposed to construct, operate, and utilize the full output of the project in accordance with the license.

Mega Renewables is a general partnership organized under the laws of the State of California.

l. This notice also consists of the following standard paragraphs: B and C.

11 a. *Type of Application:* Preliminary Permit.

b. *Project No.:* 10203–000.

c. *Date Filed:* December 8, 1986.

d. *Applicant:* Mahoning Hydro Associates.

e. *Name of Project:* Mahoning Creek.

f. *Location:* On Mahoning Creek near Putneyville, Armstrong County, Pennsylvania.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicant Contract:* Mr. David M. Coombe, Synergics, Inc., Suite 313, Annapolis, MD 21403, (301) 268–8820.

i. *FERC Contact:* Michael Dees, (202) 376–9830.

j. *Comment Date:* January 19, 1988.

k. *Competing Application:* Project No. 10169–000.

Date Filed: November 17, 1986.

Competition Due Date: January 13, 1988.

l. *Description of Project:* The proposed project would utilize the existing Corps of Engineers' Mahoning Creek Dam and reservoir and would consist of: (1) A proposed penstock 12 feet in diameter and 1,070 feet long; (2) a proposed reinforced concrete powerhouse 50 feet by 50 feet housing two 2,500-kW hydropower units; (3) a proposed tailrace 150 feet wide and 40 feet long; (4) a proposed 34.5-kV transmission line six miles long; and (5) appurtenant facilities. The estimated annual energy production is 16 GWh. Project power would be sold to Pennsylvania Electric Company. Applicant estimates that the cost of the work to be performed under the preliminary permit would be $50,000.

m. This notice also consist of the following standard paragraphs: A8, A10, B, C, and D2.

12 a. *Type of Application:* Preliminary Permit.

b. *Project No.:* 10456–000.

c. *Date Filed:* August 12, 1987.

d. *Applicant:* Sugar Pine Hydro Limited.

e. *Name of Project:* Sugar Pine Hydroelectric Project.

f. *Location:* On Deer Creek, near the town of Nevada City, in Nevada County, California. (In Sections 9, 10 and 11 of T16N, R9E, MDB&M.)

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact:* Dr. Roy McDonald, 1121 L Street, Suite 1000, Sacramento, CA 95814, (916) 447–1423.

i. *FERC Contact:* Ahmad Mushtaq, (202) 376–1900.

j. *Comment Date:* February 16, 1988.

k. *Description of Project:* The proposed project would consist of: (1) The Nevada Irrigation District's existing 92-foot-high, 325-foot-long dam; (2) an existing reservoir with a gross storage capacity of 1,400 acre-feet and surface area of 76 acres at elevation 2,896 feet m.s.l.; (3) an 36-inch-diameter diversion slide-gate structure at elevation 2,886 feet; (4) a 7,000-foot-long, 24-inch-diameter penstock; (5) a powerhouse with a total installed capacity of 600 kW operating under a head of 260 feet; and (6) a 0.4-mile-long, 12.5-kV transmission line interconnecting with an existing Pacific Gas and Electric Company (PG&E) transmission line. The applicant estimated average annual energy generation of 2.7 GWh will be sold to PG&E.

l. This notice also consists of the following standard paragraphs: A5, A7, A9, A10, B, C, and D2.

13 a. *Type of Application:* Preliminary Permit.

b. *Project No.:* 10461–000.

c. *Date Filed:* August 31, 1987.

d. *Applicant:* Niagara Mohawk Power Corporation.

e. *Name of Project:* Parishville Water Power Project.

f. *Location:* On the West Branch of the St. Regis River, in St. Lawrence County, New York.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact:* Mr. John H. Terry, Niagara Mohawk Power Corporation, 300 Erie Boulevard West, Syracuse, NY 13202, (315) 428–6366.

i. *FERC Contact:* Thomas O. Murphy, (202) 376–9829.

j. *Comment Date:* February 16, 1988.

k. *Description of Project:* The proposed project would consist of: (1) An existing dam with an overall length of approximately 153 feet and a maximum height of 19 feet; (2) an approximately 2,561-foot-long, 8-foot-diameter riveted steel penstock; (3) an approximately 186-foot-long, 10-foot-diameter riveted steel penstock; (4) an operating 2,300 kW generating unit in an existing powerhouse; (5) an existing 70-acre reservoir at the spillway crest elevation of 884.5 feet msl; (6) an existing 400-foot-long, 45-foot-wide tailrace; and (7) appurtenant facilities.

The applicant owns all project facilities necessary for the operation of the project. The applicant proposes to study the feasibility of increasing the installed generating capacity in order to use the power to serve its customers needs. The applicant estimates that the cost of the work to be performed under the preliminary permit would be $100,000.

l. This notice also consists of the following standard paragraphs: A5, A7, A9, A10, B, C, and D2.

14 a. *Type of Application:* Preliminary Permit.

b. *Project No.:* 10462–000.

c. *Date Filed:* August 31, 1987.

d. *Applicant:* Niagara Mohawk Power Corporation.

e. *Name of Project:* Allens Falls Water Power Project.

f. *Location:* On the West Branch of the St. Regis River, in St. Lawrence County, New York.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact:* Mr. John H. Terry, Niagara Mohawk Power Corporation, 300 Erie Boulevard West, Syracuse, NY 13202, (315) 428–6366.

i. *FERC Contact:* Thomas O. Murphy, (202) 376–9829.

j. *Comment Date:* February 16, 1988.

k. *Description of Project:* The proposed project would consist of: (1) An existing dam with an overall length of approximately 768 feet and a maximum height of 42 feet; (2) two-foot-high flashboards on the crest of the main spillway; (3) an approximately 10,230-foot-long, 7-foot-diameter riveted steel penstock; (4) an operating 4,200 kW generating unit in an existing powerhouse; (5) an existing 108-acre reservoir at the spillway crest elevation of 740.0 feet msl (without flashboards); (6) an existing 450-foot-long tailrace varying in widths between 40 and 60 feet; (7) an existing 2.35-mile-long, 115-kV transmission line; and (8) appurtenant facilities.

The applicant owns all project facilities necessary for the operation of the project. The applicant proposes to study the feasibility of increasing the installed generating capacity in order to use the power to serve its customers needs. The applicant estimates that the cost of the work to be performed under the preliminary permit would be $100,000.

l. This notice also consists of the following standard paragraphs: A5, A7, A9, A10, B, C, and D2.

15 a. *Type of Application:* Preliminary Permit.

b. *Project No.:* 10471–000.

c. *Date Filed:* September 8, 1987.

d. *Applicant:* Westpac Utilities.

e. *Name of Project:* Dog Creek Dam Water Power Project.

f. *Location:* On Deer Creek, near the town of Nevada City, in Sierra County, California. (In Sections 24 and 25 of T20N, R17E, MDB&M and in Sections 30 and 31 of T20N, R18E, MDB&M.).

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact:* Jack L. Byrom, Westpac Utilities, P.O. Box 30028, Reno, NV 89520–3028, (702) 689–3299.

i. *FERC Contact:* Ahmad Mushtaq, (202) 376–1900.

j. *Comment Date:* February 17, 1987.

k. *Description of Project:* The proposed project would consist of: (1) A 130-foot-high, 585-foot-long dam, with a gross storage capacity of 15,600 acre-feet and surface area of 370 acres at elevation 5,790 feet m.s.l.; (2) a 54-inch-diameter, 600-foot-long steel penstock; (3) a powerhouse to contain a generating unit with a rated capacity of 1,500 kW operating under a head of 130 feet; and (4) a 6,200-foot-long, 25-kV transmission line interconnecting with an existing Sierra Pacific Power Company (SPPC) transmission line. The applicant estimated average annual energy generation of 0.75 GWh will be sold to SPPC.

l. *This notice also consists of the following standard paragraphs:* A5, A7, A9, A10, B, C, and D2.

16 a. *Type of Application:* Preliminary Permit.

b. *Project No.:* 10498–000.

c. *Date Filed:* November 2, 1987.

d. *Applicant:* Upper Falls Hydro Associates.

e. *Name of Project:* Upper Falls Hydro Project.

f. *Location:* On Provo River in Utah County, Utah: Section 34, T5S, R2E: SLB&M.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact:* Michael J. Graham, P.O. Box N, Manti, UT 84642.

i. *FERC Contact:* Jesse W. Short,(202) 376–9818.

j. *Comment Date:* February 16, 1987.

k. *Description of Project:* The proposed project would be located on private property and would consist of: (1) An existing 5- x 12-foot cutoff wall at a natural spring at elevation 5,400 feet m.s.l.; (2) an existing intake and cast iron pipe, 8 inches in diameter and 900 feet long; (3) a new powerhouse with an installed capacity of 100 kW under a 300 foot head; (4) a 150-foot-long tailrace to the Provo River; (5) a 12.47-kV transmission line, about 400 feet long; and (6) appurtenant facilities. The applicant estimates the average annual energy output to be 515,165 kWh. The applicant estimates the cost of studies to be $42,500.

l. *Purpose on Project:* Project energy would be sold to the local power company or to local municipalities.

m. *This notice also consists of the following standard paragraphs:* A5, A7, A9, A10, B, C, and D2.

17 a. *Type of Application:* Preliminary Permit.

b. *Project No.:* 10499–000.

c. *Date Filed:* November 2, 1987.

d. *Applicant:* Rocky Ford Hydro Associates.

e. *Name of Project:* Rocky Ford Hydro Project.

f. *Location:* On Sevier River in Sevier County, Utah: Sections 19, 30, 31, T22S, R1W; Sections 24, 25, 36, T22S, R2W; SLB&M.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact:* Michael J. Grahan, P.O. Box N, Manti, UT 84642.

i. *FERC Contact:* Jesse W. Short, (202) 376–9816.

j. *Comment Date:* February 16, 1987.

k. *Description of Project:* The proposed project would be located on private property and Bureau of Land Management land and would consist of: (1) An existing 25-foot-high earthfill dam at elevation 5, 215 feet m.s.l.; (2) an existing reservior; (3) a new penstock, 60 inches in diameter and about 100 feet long; (4) a new powerhouse with an installed capacity of 150 kW under a 14 foot head; (5) a tailrance returning flow to the river a short distance downstream from the dam; (6) a 12.47 kV transmission line, about 2,000 feet long; and (7) appurtenant facilities. The applicant estimates the average annual energy output to be 885,063 kWh. The applicant estimates the cost of studies to be $15,000.

l. *Purpose on Project:* Project energy would be sold to local municipalities or to the local power company.

m. *This notice also consists of the following standard paragraphs:* A5, A7, A9, A10, B, C, and D2.

VOL 52 ISS 242 DEC 17 1987 UMI

Standard Paragraphs

A3. Development Application—Any qualified development applicant desiring to file a competing application must submit to the Commission, on or before the specified comment date for the particular application, a competing development application, or a notice of intent to file such an application. Submission of a timely notice of intent allows an interested person to file the competing development application no later than 120 days after the specified comment date for the particular application. Applications for preliminary permit will not be accepted in response to this notice.

A4. Development Application—Public notice of the filing of the initial development application, which has already been given, established the due date for filing competing applications or notices of intent. In accordance with the Commission's regulations, any competing development applications must be filed in response to and in compliance with public notice of the initial development application. No competing applications or notices of intent may be filed in response to this notice.

A5. Preliminary Permit—Anyone desiring to file a competing application for preliminary permit for a proposed project must submit the competing application itself, or a notice of intent to file such an application, to the Commission on or before the specified comment date for the particular application (see 18 CFR 4.36 (1985)). Submission of a timely notice of intent allows an interested person to file the competing preliminary permit application no later than 30 days after the specified comment date for the particular application.

A competing preliminary permit application must conform with 18 CFR 4.30 (b) (1) and (9) and 4.36.

A7. Preliminary Permit—Any qualified development applicant desiring to file a competing development application must submit to the Commission, on or before the specified comment date for the particular application, either a competing development application or a notice of intent to file such an application. Submission of a timely notice of intent to file a development application allows an interested person to file the competing application no later than 120 days after the specified comment date for the particular application.

A competing license application must conform with 18 CFR 4.30(b) (1) and (9) and 4.36.

A8. Preliminary Permit—Public notice of the filing of the initial preliminary permit application, which has already been given, established the due date for filing competing preliminary permit and development applications or notices of intent. Any competing preliminary permit or development application, or notice of intent to file a competing preliminary permit or development application, must be filed in response to and in compliance with the public notice of the initial preliminary permit application. No competing applications or notices of intent to file competing applications may be filed in response to this notice.

A competing license application must conform with 18 CFR 4.30(b) (10) and (9) and 4.36.

A9. Notice of Intent—A notice of intent must specify the exact name, business address, and telephone number of the prospective applicant, include an unequivocal statement of intent to submit, if such an application may be filed, either (1) a preliminary permit application or (2) a development application (specify which type of application), and be served on the applicant(s) named in this public notice.

A10. Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. The term of the proposed preliminary permit would be 36 months. The work proposed under the preliminary permit would include economic analysis, preparation of preliminary engineering plans, and a study of environmental impacts. Based on the results of these studies the Applicant would decide whether to proceed with the preparation of a development application to construct and operate the project.

B. *Comments, Protests, or Motions to Intervene*—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 385.210, 385.211, 385.214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

C. *Filing and Service of Responsive Documents*—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST" or "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing is in response. Any of the above named documents must be filed by providing the original and the number of copies required by the Commission's regulations to: Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426. An additional copy must be sent to: Mr. William C. Wakefield II, Acting Director, Division of Project Management, Federal Energy Regulatory Commission, Room 203–RB, at the above address. A copy of any notice of intent, competing application or motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

D1. *Agency Comments*—States, agencies established pursuant to federal law that have the authority to prepare a comprehensive plan for improving, developing, and conserving a waterway affected by the project, federal and state agencies exercising administration over fish and wildlife, flood control, navigation, irrigation, recreation, cultural and other relevant resources of the state in which the project is located, and affected Indian tribes are requested to provide comments and recommendations for terms and conditions pursuant to the Federal Power Act as amended by the Electric Consumers Protection Act of 1986, the Fish and Wildlife Coordination Act, the Endangered Species Act, the National Historic Preservation Act, the Historical and Archeological Preservation Act, the National Environmental Policy Act, Pub. L. No. 88–29, and other applicable statutes. Recommended terms and conditions must be based on supporting technical data filed with the Commission along with the recommendations, in order to comply with the requirement in section 313(b) of the Federal Power Act, 16 U.S.C. 825*l*(b), that Commission findings as to facts must be supported by substantial evidence.

All other federal, state, and local agencies that receive this notice through direct mailing from the Commission are requested to provide comments pursuant to the statutes listed above. No other formal requests will be made. Responses should be confined to substantive issues relevant to the issuance of a license. A copy of the application may be obtained directly from the applicant. If an agency does not respond to the Commission within the time set for filing, it will be presumed to have no comments. One copy of an agency's response must also be set to the Applicant's representatives.

D2. *Agency Comments*—Federal, State, and local agencies are invited to file comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

D3a. *Agency Comments*—The U.S. Fish and Wildlife Service, the National Marine Fisheries Service, and the State Fish and Game agency(ies) are requested, for the purposes set forth in section 408 of the Energy Security Act of 1980, to file within 60 days from the date of issuance of this notice appropriate terms and conditions to protect any fish and wildlife resources or to otherwise carry out the provisions of the Fish and Wildlife Coordination Act. General comments concerning the project and its resources are requested; however, specific terms and conditions to be included as a condition of exemption must be clearly identified in the agency letter. If an agency does not file terms and conditions within this time period, that agency will be presumed to have none. Other Federal, State, and local agencies are requested to provide any comments that they may have in accordance with their duties and responsibilities. No other formal requests for comments will be made. Comments should be confined to substantive issues relevant to the granting of an exemption. If an agency does not file comments within 60 days from the date of issuance of this notice, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

D3b. *Agency Comments*—The U.S. Fish and Wildlife Service, the National Marine Fisheries Service, and the State Fish and Game agency(ies) are requested, for the purposes set forth in section 30 of the Federal Power Act, to file within 45 days from the date of issuance of this notice appropriate terms and conditions to protect any fish and wildlife resources or otherwise carry out the provisions of the Fish and Wildlife Coordination Act. General comments concerning the project and its resources are requested; however, specific terms and conditions to be included as a condition of exemption must be clearly identified in the agency letter. If an agency does not file terms and conditions within this time period, that agency will be presumed to have none. Other Federal, State, and local agencies are requested to provide comments they may have in accordance with their duties and responsibilities. No other formal requests for comments will be made. Comments should be confined to substantive issues relevant to the granting of an exemption. If an agency does not file comments within 45 days from the date of issuance of this notice, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

Dated: December 14, 1987.

Lois D. Cashell,

Acting Secretary.

BILLING CODE 6717–01–M

[Docket No. RP87–134–002]

ANR Pipeline Co.; Compliance Filing

December 14, 1987.

Take notice that on December 4, 1987, ANR Pipeline Company ("ANR") tendered for filing to the Federal Energy Regulatory Commission ("Commission") proposed changes in Original Volume Nos. 1, 1–A and 2 of its F.E.R.C. Gas Tariff to become effective October 1, 1987. ANR states that the filing reflects compliance with the Commission's Order No. 472–B and its Order issued November 19, 1987 in Docket No. RP87–134–001. ANR further states that this filing completes the requirements established by the Commission in order to include an Annual Charges Adjustment Clause ("ACA") in its F.E.R.C. Gas Tariff.

The revised tariff sheets submitted with this filing are listed below:

Original Volume No. 1

Second Substitute Twelfth Revised Sheet No. 18
Substitute Second Revised Sheet No. 85
Substitute Original Sheet No. 86

Original Volume No. 1–A

Substitute Second Revised Sheet No. 16
First Revised Sheet No. 17
Substitute Second Revised Sheet No. 38
Substitute First Revised Sheet No. 58

Original Volume No. 2

Substitute Second Revised Sheet No. 16
Substitute Second Revised Sheet No. 17
Substitute Second Revised Sheet No. 18
Substitute Second Revised Sheet No. 19
Substitute Third Revised Sheet No. 20
Substitute Third Revised Sheet No. 21

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before December 21, 1987. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceedings. Any party wishing to become a party to the proceeding must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Acting Secretary.

[Docket No. RP86–106–009]

Arkla Energy Resources, a Division of Arkla, Inc., Change in FERC GAS Tariff

December 14, 1987.

Take notice that Arkla Energy Resources (AER) on December 7, 1987 tendered for filing the following sheets to its FERC Gas Tariff:

Original Volume No. 1–A

Second Revised Sheet Nos. 1 through 4
Third Revised Sheet Nos. 5 and 6
Second Revised Sheet Nos. 7 through 116

AER states that such sheets are filed in compliance with Ordering Paragraph B of the Commission's Order dated June 26, 1987 in this docket. Such order required AER to file revised sheets within 30 days of any order on rehearing to revise AER's tariff to reflect the conditions imposed by the Commission on its approval of AER's offer of settlement in this proceeding. The Commission denied petitions for rehearing of the June 26, 1987 order by an order dated November 5, 1987. AER proposes an effective date of January 1, 1988 for these sheets.

Any person desiring to be heard or to protest AER's filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before December 21, 1987. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party

VOL 52 ISS 242 DEC 17 1987 UMI

must file a motion to intervene. Copies of this filing are on file with the Commission and available for public inspection.

Lois Cashell,

Acting Secretary.

East Tennessee Natural Gas Company et al.; Filing of Pipeline Refund Reports

December 14, 1987.

Take notice that the pipelines listed in the Appendix hereto have submitted to the Commission for filing proposed refund reports. The date of filing and docket number are also shown on the Appendix.

Any person wishing to do so may submit comments in writing concerning the subject refund reports. All such comments should be filed with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, on or before January 4, 1988. Copies of the respective filings are on file with the Commission and available for public inspection.

Lois D. Cashell,

Acting Secretary.

BILLING CODE 6717-01-M

[Docket No. TA88-1-51-002 and TA88-3-51-000]

Great Lakes Gas Transmission Co.; Proposed Changes in FERC Gas Tariff Under Purchased Gas Adjustment Clause Provisions

December 14, 1987.

Take notice that Great Lakes Gas Transmission Company ("Great Lakes") on December 7, 1987, tendered for filing Substitute Ninth Revised Sheet Nos. 57(i) and 57(ii) and Tenth Revised Sheet Nos. 57(i) and 57(ii) to its FERC Gas Tariff, First Revised Volume No. 1 which were proposed to be effective November 1, 1987 and January 1, 1988, respectively.

Great Lakes states that Substitute Ninth Revised Sheet Nos. 57(i) and 57(ii) reflect changes, which are effective November 1, 1987, in the price of gas purchased by Great Lakes from TransCanada Pipelines Limited ("TransCanada") for resale to Michigan Consolidated Gas Company, ANR Pipeline Company, Natural Gas Pipeline Company of America ("Natural") and Northern Minnesota Utilities. These price changes are the result of direct negotiations between these resale customers and TransCanada.

Great Lakes states that in addition, as the result of negotiations between Great Lakes and TransCanada, the price of natural gas purchased by Great Lakes for company use was reduced from $2.19810 per MMBtu to $2.03 per MMBtu.

Further, Grrat Lakes states that there were also included on these tariff sheets minor adjustments to other customers resulting from changes in the heat content of the gas purchased and updated allocation factors for distributing company use gas cost to the various Gas Purchase Contract Groups.

Great Lakes states that the purchased gas cost changes that were reflected on the above-mentioned tariff sheets were not available when Great Lakes filed its semi-annual surcharge adjustments on September 30, 1987. Those surcharge rates were approved by the Commission on October 29, 1987, subject to refund, and, except for Natural, were accordingly reflected on the tariff sheets tendered for filing. The surcharge rate for Natural was revised to reflect the level of volumes Natural indicated that it expects to purchase from Great Lakes as a result of the gas prices that will be in effect for the period commencing November 1, 1987 and ending April 30, 1988.

Great Lakes states that Tenth Revised Sheet Nos. 57(i) and 57(ii) were filed to reflect, in the appropriate sales rate schedules, the revised Gas Research Institute's 1988 Research and Development Program pursuant to the Commission's Opinion No. 283, issued on September 29, 1987. These tariff sheets were proposed to become effective January 1, 1988.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.214, 385.211). All such motions or protests should be filed on or before December 21, 1987. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Acting Secretary.

[FR Doc. 87-29014 Filed 12-16-87; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. RP88-30-000]

Interstate Power Co.; Filing

December 14, 1987.

Take notice that Interstate Power Company (Company) tendered for filing on December 7, 1987, the tariff sheets listed below:

First Revised Volume No. 2

Second Revised Sheet No. 2
Original Sheet No. 9C
First Revised Sheet No. 10
Original Sheet No. 18

First Revised Volume No. 2

Third Revised Sheet No. 2
First Revised Sheet No. 3
First Revised Sheet No. 4
First Revised Sheet No. 5
First Revised Sheet No. 6
First Revised Sheet No. 7
First Revised Sheet No. 8
First Revised Sheet No. 9
First Revised Sheet No. 9A
Original Sheet No. 19

Interstate Power states that the first group of First Revised Volume No. 2 sheets reduce the monthly demand charge in Interstate Power's gas transportation tariffs, to reflect the reduction in federal corporate income tax level under the Tax Reform Act of 1986.

Interstate Power submits the second group of First Revised Volume No. 2 sheets to include a new GT-1 gas transportation contract, and as a proposed tariff to provide a mechanism for Interstate to recover the annual charges assessed by the Commission—pursuant to Part 382 of the Commission's regulations. The proposed (ACA) clause is pursuant to the Commission's regulations promulgated in Order No. 472.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capital Street, NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.214, 385.211). All such motions or protests should be filed on or before December 21, 1987. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Acting Secretary.

[FR Doc. 87-29015 Filed 12-16-87; 8:45 am]

BILLING CODE 6717-01-M

Office of Hearings and Appeals

Implementation of Special Refund Procedures

AGENCY: Office of Hearings and Appeals, DOE.

ACTION: Notice of proposed implementation of special refund procedures and solicitation of comments.

SUMMARY: The Office of Hearings and Appeals of the Department of Energy solicits comments concerning the appropriate procedures to be followed in disbursing $183,667,955.78 (plus accrued interest) obtained by the DOE under the terms of a consent order entered into with Shell Oil Company. The funds are being held in escrow following the settlement of claims and disputes arising from an Economic Regulatory Administration audit of Shell, a major integrated refiner marketing crude oil and refined petroleum products throughout the United States.

DATE AND ADDRESS: Comments must be filed within 30 days of publication of this notice in the **Federal Register** and should be addressed to: Office of Hearings and Appeals, Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585. Comments should be filed in duplicate and display a conspicuous reference to Case Number KEF-0093.

FOR FURTHER INFORMATION CONTACT: Thomas O. Mann, Deputy Director or Jonathan Rees, Staff Analyst Office of Hearings and Appeals, 1000 Independence Avenue, SW., Washington, DC 20585. (202) 586-2094 (Mann), (202) 586-2383 (Rees).

SUPPLEMENTARY INFORMATION: In accordance with § 205.282(b) of the procedural regulations of the Department of Energy (DOE), notice is hereby given of the issuance of the Proposed Decision and Order set out below. The Proposed Decision and Order tentatively establishes procedures to distribute to eligible claimants $183,667,955.78, plus accrued interest, obtained by the DOE under the terms of a consent order entered into with Shell Oil Company on March 26, 1987. The funds were paid by Shell towards the settlement of possible violations of the DOE price and allocation regulations relating to transactions by Shell involving the production, refining, and marketing of crude oil and petroleum products during the period January 1, 1973 through January 27, 1981 (the consent order period).

The Proposed Decision and Order sets forth the procedures and standards that the DOE has tentatively formulated to distribute the contents of the escrow account funded by Shell. The DOE has tentatively decided that the Shell consent order fund will be divided into two pools. The first pool, consisting of $163,260,405.14 (plus accrued interest), will be distributed in accordance with the DOE's Modified Statement of Restitutionary Policy, 51 FR 27899 (August 4, 1986), under which crude oil overcharge revenues will be divided among the States, the United States Treasury, and eligible purchasers of crude oil and refined petroleum products. The remaining funds, $20,407,550.64 (plus accrued interest), will be made available to qualified purchasers of Shell refined petroleum products who file Applications for Refund. However, Applications for Refund should *not* be filed at this time. Appropriate public notice will be provided prior to the acceptance of claims.

Any member of the public may submit written comments regarding the proposed refund procedures. Commenting parties are requested to submit two copies of their submissions. Comments must be submitted within 30 days of publication of this notice in the **Federal Register** and should be sent to the address set forth at the beginning of this notice. All comments received will be available for public inspection between the hours of 1:00 p.m. and 5:00 p.m., Monday through Friday, except federal holidays, in the Public Reference Room of the Office of Hearings and Appeals, located in Room 1E-234, 1000 Independence Avenue, SW., Washington, DC 20585.

Date: December 10, 1987.

George B. Breznay,

Director, Office of Hearings and Appeals.

December 10, 1987.

Poposed Decision and Order of the Department of Energy

Implementation of Special Refund Procedures

Name of Firm: Shell Oil Company.
Date of Filing: April 29, 1987.
Case Number: KEF-0093.

Under the procedural regualtions of the Department of Energy (DOE), the Economic Regulatory Administration (ERA) may request that the Office of Hearings and Appeals (OHA) formulate and implement procedures for the distribution of funds obtained by the DOE as a result of the agency's Regulations. *See* 10 CFR Part 205, Subpart V. Pursuant to the provisions of Subpart V, on April 29, 1987, the ERA filed a Petition for the Implementation of Special Refund Procedures to distribute funds received from Shell Oil Company under the terms of a March 26, 1987 consent order with Shell. In its Petition, the ERA requests that the OHA establish special procedures to make refunds in order to remedy the effects of the alleged regulatory violations that were settled in the Shell consent order.

I. Background

Shell is a major integrated refiner which produced and sold crude oil and a full range of refined petroleum products during the period of federal price controls. The firm was therefore subject to the Mandatory Petroleum Price and Allocation Regulations set forth at 6 CFR Part 150 and 10 CFR Parts 210, 211, and 212. During the course of controls, the ERA conducted an extensive audit of Shell's operations and, as a result of the audit, alleged that Shell had violated certain applicable DOE price and allocation regulations in its sales of crude oil and petroleum products. Settlement discussions were held, and on March 26, 1987, the ERA and Shell finalized a consent order (Consent Order No. RSHA00001Z) that resolved issues pertaining to Shell's crude oil and refined petroleum product operations during the period January 1, 1973 through January 27, 1981 (the consent order period). Pursuant to the terms of the consent order, Shell remitted to total of $183,667,955.78 (the consent order fund) [1] to the DOE for distribution

[1] This amount consists of the principal consent order amount of $180,000,000 plus $3,667,955.78 in interest which accrued prior to Shell's payment to the DOE. For accounting purposes the interest

Continued

through Subpart V. These funds are being held in an interest-bearing escrow account maintained at the Department of the Treasury pending a determination regarding their proper distribution. With interest, the amount in the Shell consent order escrow account had grown to $190,212,837.34 as of November 30, 1987.

II. Jurisdiction and Authority

The Subpart V regulations set forth general guidelines which may be used by the OHA in formulating and implementing a plan of distribution of funds received as a result of enforcement proceedings. The DOE policy is to use the Subpart V process to distribute such funds. For a more detailed discussion of Subpart V and the authority of the OHA to fashion procedures to distribute refunds, *see Office of Enforcement*, 9 DOE ¶ 82,508 (1981) and *Office of Enforcement*, 8 DOE ¶ 82,597 (1981).

We have considered the ERA's Petition that we implement a Subpart V proceeding with respect to the Shell consent order fund and have determined that such a proceeding is appropriate. We will grant the ERA's request. This Proposed Decision and Order sets forth the OHA's tentative plan to distribute these funds. Comments are solicited.

III. Proposed Refund Procedures

Because the consent order resolves alleged violations involving both sales of crude oil and refined petroleum products, we propose to divide the consent order fund into two pools. *See Standard Oil Co. (Indiana)*, 10 DOE ¶85,048 (1982) (*Amoco*). The consent order identifies $160 million as being attributable to alleged crude oil violations and $20 million as being attributable to Shell's sales of refined petroleum products. 52 FR. 9695 (March 26, 1987). We therefore propose that $20,407,550.64 ($20 million plus the interest on that amount remitted by Shell) contained in the Shell escrow account, plus interest accrued on that amount, be made available for distribution to purchasers of Shell refined petroleum products who demonstrate that they were injured as a result of Shell's alleged regulatory violations. We further propose that the remaining $163,280,405.14, plus accrued interest, attributable to alleged crude oil violation amounts, be made available for disbursement under the applicable DOE policy and procedures which are discussed below.

remitted by Shell shall be considered as additional principal and shall be divided proportionately between the curde oil and refined product pools discussed below.

A. Crude Oil Claims

We propose that the funds in the crude oil pool be distributed in accordance with the Modified Statement of Restitutionary Policy (MSRP) which was issued by the DOE on July 26, 1986. 51 F.R. 27899 (August 4, 1986).[2] The MSRP, which was issued as a result of a court-approved Final Settlement Agreement in *In re the Department of Energy Stripper Well Exemption Litigation*, 653 F. Supp. 108 (D. Kan. 1986),[3] provides that crude oil overcharge revenues will be divided among the States, the United States Treasury, and eligible purchasers of crude oil and refined products. Under the MSRP, up to 20 percent of these crude oil overcharge funds will be reserved to satisfy valid claims by eligible purchasers of crude oil and refined petroleum products. Remaining funds are to be disbursed to the state and federal governments for indirect restitution also in accordance with the MSRP. In the present case, we have decided to reserve the full 20 percent, or $32,652,081.02 of the crude oil pool, plus an appropriate share of the accrued interest, for direct refunds to purchasers of crude oil and refined petroleum products who prove that they were injured by these alleged crude oil violations.[4]

The process which the OHA will use to evaluate claims based on alleged crude oil violations will be modeled after the process the OHA has used in Subpart V proceedings to evaluate claims based upon alleged overcharges involving refined products. *See Mountain Fuel Supply Co.*, 14 DOE ¶ 85,475 (1986).

As in non-crude oil cases, applicants will be required to document their purchase volumes and to prove that they were injured as a result of the alleged violations. We propose to utilize standards for the showing of injury which the OHA has developed in analyzing non-crude oil claims. *See, e.g., Dorchester Gas Corp.*, 14 DOE ¶ 85,240 (1986). These standards include a presumption that end-users and ultimate consumers whose businesses are unrelated to the petroleum industry absorbed the increased costs resulting from a consent order firm's alleged overcharges. *See A. Tarricone, Inc.*, 15 DOE ¶ 85,495 (1987). Reseller and retailer claimants must submit detailed evidence of injury, but may not rely upon the presumptions of injury utilized in refund cases involving refined petroleum products. *Id.* They can, however, use econometric evidence of the type employed in the OHA Report in *In Re: The Department of Energy Stripper Well Exemption Litigation*, 6 Fed. Energy Guidelines ¶ 90,507.

Refunds to eligible claimants will be calculated on the basis of a volumetric refund amount derived by dividing the funds available in the crude oil pool ($163,250,405.14 of Shell principal plus funds in all other cruide oil subaccounts) by the total consumption of petroleum products in the United States during the period of price controls (2,020,997,335,000 gallons). The crude oil volumetric refund amount in this proceeding is $.000080782098. In addition, after all valid claims are paid, unclaimed funds from the 20 percent claims reserve will be divided equally between federal and state governments. The federal government's share of the unclaimed funds will ultimately be deposited into the general fund of the Treasury of the United States.

We propose that the remaining 80 percent of the crude oil pool, or $130,608,324.12, be disbursed along with interest accrued on this amount in equal shares to the federal and state governments for indirect restitution. *See Stripper Well Exemption Litigation*, 16 DOE ¶ 85,200 at 88,386 (1987). If this proposal is adopted, we will direct the DOE's Office of the Controller to segregate this amount and distribute $85,304,162.06 in principal, plus appropriate interest, to the states and the same amount to the federal government. Refunds to the States will be in proportion to the consumption of petroleum products in each state during the period of price controls. The share (ratio) of the funds in the account which each state will receive if these procedures are adopted is contained in Exhibit H of the Settlement Agreement. These funds will be subject to the same limitations and reporting requirements as all other crude oil monies received by the states under the Settlement Agreement.

[2] In the Order implementing the MSRP, the OHA solicited comments and objections regarding the proper application of the MSRP to OHA refund proceedings involving alleged crude oil violations. On April 6, 1987, the OHA issued a notice which analyzes the comments that were submitted and explains the procedures which the Office will follow in processing applications filed under the Subpart V regulations for refunds from the crude oil overcharge funds. 52 F.R. 11737 (April 10, 1987).

[3] The Settlement Agreement resolves a number of matters, including the distribution of funds collected by the Court and the distribution of alleged crude oil violation amounts collected by the DOE in other cases.

[4] Under the Settlement Agreement, firms which apply for a portion of the Stripper Well funds generally must sign a waiver releasing their claims to any crude oil funds to be distributed by the OHA under Subpart V. Settlement Agreement, Part III. Accordingly, those firms that have executed a waiver will not be eligible for a refund from the Shell crude oil pool.

B. Refined Product Claims

With regard to the remainder of the Shell settlement fund, $20,407,550.64 in principal plus interest accrued on that amount, we propose to implement a two-stage refund process by which firms and individuals who purchased Shell refined petroleum products during the consent order period may submit Applications for Refund in the initial stage. From our experience with Subpart V proceedings, we expect that potential applicants will fall into the following categories of Shell refined product purchasers: (i) End-users, i.e., ultimate consumers; (ii) regulated entities, such as public utilities or cooperatives; and (iii) retailers, resellers, and refiners that resold Shell products.

In order to receive a refund, each claimant will be required to submit a schedule of its monthly purchases of Shell refined petroleum products during the consent order period. If the product was not purchased directly from Shell, the claimant must provide a statement setting forth its reasons for maintaining that the product originated with Shell.

In addition, a refiner, reseller, or retailer claimant, except those who choose to utilize the injury presumptions set forth below, will be required to make a detailed showing that it was injured by the alleged overcharges. This showing will generally consist of two distinct elements. First, a claimant will be required to show that it maintained "banks" of unrecouped increased product costs (banked costs) in excess of the refund claimed.[5] Second, because a showing of banks alone is not sufficient to establish injury, a claimant must provide evidence that market conditions precluded it from increasing its prices to pass through the additional costs associated with the alleged overcharges. *See National Helium Corp./Atlantic Richfield Co.*, 11 DOE ¶ 85,257 (1984), *aff'd sub nom Atlantic Richfield Co. v. DOE*, 618 F. Supp. 1199 (D. Del. 1985). Such a showing could consist of a demonstration that the firm suffered a competitive disadvantage as a result of its purchases from Shell. *Id.; see also Sid Richardson Carbon and Gasoline Company and Richardson Products Company/Shupbach and Streitmatter Gas Company*, 14 DOE ¶ 85,186 (1986).

[5] Claimants who have previously relied upon their banked costs in order to be eligible to receive refunds in other special refund proceedings should subtract those refunds from the cumulative banked costs submitted in this proceeding. *See* Husky Oil Co./Metro Oil Products, Inc., 16 DOE ¶ 85,090 at 88,179 (1987).

1. Presumptions for Claims Based Upon Refined Product Purchases

Our experience also indicates that the use of certain presumptions permits claimants to participate in the refund process without incurring inordinate expense, and ensure that refund claims are evaluated in the most efficient manner possible. *See, e.g., Marathon Petroleum Company*, 14 DOE ¶ 85,269 (1986) *(Marathon)*. Presumptions in refund cases are specifically authorized by the applicable DOE procedural regulations at 10 CFR 205.282(e). Accordingly, we propose to adopt the presumptions set forth below.

First, we will adopt a presumption that the alleged overcharges were dispersed equally among all of Shell's sales of refined petroleum products during the consent order period. In accordance with this presumption, refunds are to be made on a pro-rata or volumetric basis. In the absence of better information, a volumetric refund approach is appropriate because the DOE price regulations generally required a regulated firm to account for increased costs on a firm-wide basis in determining its prices.

Under the volumetric approach, a claimant's allocable share of the refined product pool is equal to the number of gallons purchased times the per gallon refund amount (plus an appropriate share of the interest which has accrued on the Shell consent order fund).[6] In the present case, the per gallon refund amount is $0.000226. We derived this figure by dividing the consent order funds in the refined product refund pool ($20,407,550.64) by the approximate number of gallons of refined products subject to price and allocation controls sold by Shell during the consent order period (90,334,236,000 gallons). As in previous cases, we will establish a minimum refund amount of $15.00. We have found through our experience that the cost of processing claims in which refunds for amounts less than $15.00 are sought outweighs the benefits of restitution in those instances. *See, e.g., Mobil Oil Corp.*, 13 DOE ¶ 85,339 (1985).

In addition to the volumetric presumption, we also propose to adopt a number of presumptions regarding injury for claimants in each category listed below.

[6] Because we realize that the impact on an individual claimant may have been greater than the volumetric amount, we will allow any purchaser to file a refund application based upon a claim that an allocation on the basis of a specifically alleged overcharge amount should be used in considering its refund application. *See, e.g.*, Standard Oil Co. (Indiana)/Army and Air Force Exchange Service, 12 DOE ¶ 85,015 (1984).

a. *End-users.* In accordance with prior Subpart V proceedings, we propose to adopt the presumption that an end-user or ultimate consumer of Shell petroleum products whose business is unrelated to the petroleum industry was injured by the alleged overcharges settled by the consent order. *See, e.g., Texas Oil and Gas Corp.*, 12 DOE ¶ 85,069 at 88,209 (1984) *(TOGCO)*. Unlike regulated firms in the petroleum industry, members of this group generally were not subject to price controls during the consent order period, and were not required to keep records which justified selling price increases by reference to cost increases. Consequently, analysis of the impact of the alleged overcharges on the final prices of goods and services produced by members of this group would be beyond the scope of a special refund proceeding. *Id.* We therefore propose that end-users of Shell refined petroleum products need only document their purchase volumes from Shell during the consent order period to make a sufficient showing that they were injured by the alleged overcharges.

b. *Regulated Firms and Cooperatives.* We further propose that, in order to receive a full volumetric refund, a claimant whose prices for goods and services are regulated by a governmental agency, e.g., a public utility, or by the terms of a cooperative agreement, needs only to submit documentation of purchase volumes used by itself or, in the case of a cooperative, sold to its members.[7] However, a regulated firm or cooperative will also be required to cerfity that it will pass through any refund received to its customers or member-customers, provide us with a full explanation of how it plans to accomplish the restitution, and certify that it will notify the appropriate regulatory body or membership group of its receipt of the refund. *See Marathon*, 14 DOE at 88,515; *Office of Special Counsel*, 9 DOE ¶ 82,538 at 85,203 (1982). This latter requirement is based upon the presumption that, with respect to a regulated firm, any overcharges would have been routinely passed through to its customers through the operation of automatic adjustment mechanisms. Similarly, any refunds received would be passed through to its customers. With respect to a cooperative, in general, the cooperative agreements which control prices would ensure that the alleged overcharges and, similarly, refunds would be passed through to its member-

[7] A cooperative's sales to non-members will be treated in the same manner as sales by other resellers. *See* Marathon, 14 DOE at 88,515.

VOL 52 ISS 242 DEC 17 1987 UMI

customers. Accordingly, these firms will not be required to make a detailed demonstration of injury.

c. *Refiners, Resellers, and Retailers Seeking Refunds of $5,000 or Less.* We propose to adopt a presumption that a firm who resold Shell products and requests a small refund was injured by the alleged regulatory violations. Under the small claims presumption, a refiner, reseller, or retailer seeking a refund of $5,000 or less, exclusive of interest (i.e. who purchased less than 22,123,894 gallons of Shell refined petroleum products during the consent order period), will not be required to submit evidence of injury beyond documentation of the volume of Shell covered products it purchased during the consent order period. *See TOGCO.* As we have noted in numerous prior proceedings, there may be considerable expense involved in gathering the types of data necessary to support a detailed claim of injury; in some cases, that expense might possibly exceed the expected refund. Consequently, failure to allow simplified application procedures for small claims could deprive injured parties of their opportunity to obtain a refund. Furthermore, use of the small claims presumption is desirable in that it allows the OHA to process the large number of routine refund claims expected in an efficient manner.[9]

d. *Medium-Range Refiner, Reseller and Retailer Claimants.* In Lieu of making a detailed showing of injury, a refiner, reseller, or retalier claimant whose allocable share exceeds $5,000 may elect to receive as its refund the larger of $5,000 or 40 percent of its allocable share up to $50,000.[9] The use of this presumption reflects our conviction that these larger claimants were likely to have experienced some injury as a result of the alleged overcharges. *See Marathon,* 14 DOE at 88,515. In a number of prior special refund proceedings, we performed detailed economic analysis in order to determine product-specific levels of injury. *See, e.g., Mobil Oil Corp.,* 13 DOE ¶ 85,339 (1985). However, in *Gulf Oil Corp.,* 16 DOE ¶ 85,361 (1987) we determined that it was most efficient to adopt a single general presumptive level of injury of 40 percent for all medium-range claimants, regardless of the refined products they purchased, based upon the results of our analyses in prior proceedings. We therefore propose to adopt the 40 percent presumptive level of injury for all medium-range claimants in this proceeding. Consequently, an applicant in this group will only be required to provide documentation of its purchase volumes of Shell refined petroleum products during the consent order period in order to be eligible to receive a refund of 40 percent of its total volumetric share.[10]

e. *Sport Purchasers.* We propose to adopt a rebuttable presumption that a refiner, reseller or retailer that made only spot purchases from Shell did not suffer injury as a result of those purchases. As we have previously stated, spot purchasers tend to have considerable discretion as to the timing and market in which to make purchases and therefore would not have made sport market purchases from a firm at increased prices unless they were able to pass through the full amount of the firm's selling price to their own customers. *See Office of Enforcement,* 8 DOE ¶ 82,597 at 85,396–97 (1981). Accordingly, a spot purchaser claimant must submit specific and detailed evidence to rebut the spot purchaser presumption and to establish the extent to which it was injured as a result of its spot purchases from Shell.[11]

f. *Consignees.* A consignee agent is a firm that distributed covered products pursuant to a contractual agreement with a refiner, under which the refiner retained title to the products, specified the price to be paid by the purchaser and paid the consignee a commission based upon the volume of covered products it distributed. 10 CFR 212.31 (definition of "consignee agent"). As in previous Decisions, we propose to adopt the rebuttable presumption that consignees of Shell refined petroleum products were not injured as a result of their arrangement with their refiner/supplier. *See, e.g., Jay Oil Company,* 16 DOE ¶ 85,147 (1987). However, we also propose that a consignee may rebut this presumption of non-injury by establishing that "[its] sales volumes, and [its] corresponding commission revenues, declined due to the alleged uncompetitiveness of [the consent order firm's] practices." *See Gulf Oil Corp./C.F. Canter Oil Co.,* 13 DOE ¶ 85,388 at 88,962 (1986).

2. Allocation Claims

We also recognize that we may receive claims based upon Shell's alleged failure to furnish petroleum products that it was obliged to supply to the claimant under the DOE allocation regulations. *See* 10 CFR Part 211. We will evaluate refund applications based upon allocation claims by referring to the standards set forth in Decisions such as *Amoco,* 10 DOE at 88,220 and *OKC Corp./Town & Country Markets, Inc.* 12 DOE ¶ 85,094 (1984). Under those standards an allocation claimant first must demonstrate the existence of a supplier/purchaser relationship with the consent order firm and the likelihood that the consent order firm failed to furnish petroleum products that it was obliged to supply to the claimant under 10 CFR Part 211. Secondly, it should provide evidence that it had contemporaneously notified the DOE or otherwise sought redress from the alleged allocation violation. Finally, it must establish that it was injured and document the extent of the injury.

C. Distribution of Product Funds Remaining after First Stage

We propose that any refined product funds that remain after all first stage claims have been decided be distributed in accordance with the provisions of the Petroleum Overcharge Distribution and Restitution Act of 1986 (PODRA), Pub. L. 99–509, Title III. *See* Fed. Energy Guidelines ¶ 11,702 et seq. PODRA requires that the Secretary of Energy determine annually the amount of oil overcharge funds that will not be required to refund monies to injured parties in Subpart V proceedings and make those funds available to state governments for use in four energy conservation programs. PODRA, sections 3003(c) and (d). The Secretary has delegated these responsibilities to the OHA, and any refined product pool funds in the Shell consent order escrow account that the OHA determines will not be needed to effect direct restitution to injured Shell customers will be distributed in accordance with the provisions of PODRA.

[9] Claimants who attempt to make a detailed showing of injury in order to support a large refund claim but, instead, provide evidence that leads us to conclude that they passed through all of the alleged overcharges or are eligible for a refund of less than $5,000, will not be entitled to a $5,000 small claims threshold refund. *See* Union Texas Petroleum Corp./Arrow Enterprises, Inc., 15 DOE ¶ 85,087 (1986); Quaker State Oil Refining Corp./Campbell Oil Co., 15 DOE ¶ 85,089 (1986).

[9] That is, claimants who purchased between 22,123,894 gallons and 553,097,345 gallons of Shell refined petroleum products during the consent order period (medium-range claimants) may elect to utilize this presumption. Claimants who purchased more than 553,097,345 gallons may elect to limit their claim to $50,000.

[10] A medium-range claimant may elect not to receive a refund based upon this presumption and may instead attempt to show that it is eligible for a refund equal to its full allocable share by making a detailed showing of injury using the general criteria set forth above. However, as with the small claims presumption, the 40 percent presumption will not be available to medium-range claimants who submit a detailed injury showing which leads us to conclude that they are eligible for a refund of less than 40 percent of their volumetric share. *See* n.8 infra.

[11] In prior proceedings we have stated that refunds will be approved or sport purchasers who demonstrate that (i) they made the sport purchases for the purpose of ensuring a supply for their base period customers rather than in anticipation of financial advantage as a result of those purchases, and (ii) they were forced by market conditions to resell the product at a loss that was not subsequently recouped. *See* Quaker State Oil Refining Corp./Certified Gasoline Co., 14 DOE ¶ 85,465 (1986).

IV. Application for Refund

Applications for Refund should not be filed at this time. Detailed procedures for filing Applications will be provided in a final Decision and Order. Before disposing of any of the funds received as a result of the Shell consent order, we intend to publicize the distribution process in order to solicit comments on all aspects of the foregoing Proposed Decision and Order from interested parties. All comments must be filed within 30 days of the publication of this Proposed Decision in the **Federal Register.**

It Is Therefore Ordered That:

The refund amount remitted to the Department of Energy by Shell Oil Company pursuant to Consent Order No. RSHA00001Z, finalized on March 26, 1987, will be distributed in accordance with the foregoing Decision.

ENVIRONMENTAL PROTECTION AGENCY

[FRL–3302–9]

Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 3507(a)(2)(B) of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.)* requires the Agency to publish in the **Federal Register** a notice of proposed information collection requests (ICRs) that have been forwarded to the Office of Management and Budget (OMB) for review. The ICR describes the nature of the solicitation and the expected impact, and where appropriate includes the actual data collection instrument. The following ICR is available for review and comment.

FOR FURTHER INFORMATION CONTACT: Carla Levesque at EPA, (202) 382–2740 (FTS 382–2740).

SUPPLEMENTARY INFORMATION:

Office of Water

Title: National Survey of Pesticides in Drinking Water Wells. (EPA ICR #1191).

Abstract: EPA is analyzing water samples for pesticides and interviewing well owners/operators. The data will be used to estimate national level distribution of pesticide residues in wells and to assess the relationship among residues, agricultural pesticide use and hydrogeologic vulnerability. The findings will be used to develop pesticides and drinking water regulations.

Respondents: Community Water Systems, Rural Domestic Well Owners, State and Local Governments.

Estimated Annual Burden: 5,247 Hours

Frequency of Collection: One time only

Comments on the abstract on this notice may be sent to:

Carla Levesque, U.S. Environmental Protection Agency, Office of Standards and Regulations (PM–223), Information and Regulatory System Division, Information Policy Branch, 401 M St., SW., Washington, DC. 20460

and

Water Quality Act of 1987 Implementation; Final Guidance Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: This notice announces the availability of two final guidance documents for implementation of requirements under the Water Quality Act of 1987 (WQA). These documents are: "Nonpoint Source Guidance" and "State Clean Water Strategies: Meeting the Challenges of the Future."

The "Nonpoint Source Guidance" describes in detail the requirements under the new WQA section 319, "Management of Nonpoint Sources of Pollution." The purpose of this document is to guide States in preparing their State Nonpoint Source Assessment Reports and management Programs. It also covers the process for EPA review and approval of State Reports and Programs, the several sources of Federal funding authorized to assist States in implementing approved Nonpoint Source Management Programs, and the process for awarding such funds. EPA will not issue new regulations to implement WQA section 319, and will, therefore, rely on the "Nonpoint Source Guidance" to direct implementation of these new requirements.

The purpose of "State Clean Water Strategies: Meeting the Challenges of the Future" is to provide States with a basic framework for integrating new WQA initiatives and existing program requirements, and targeting water quality programs in order to achieve the most beneficial environmental results and to make the most efficient and effective use of Federal and State resources. The process described in this guidance is not required by the WQA although it builds upon the requirements in WQA section 319 and is designed to improve overall State water quality planning and management.

DATE: Copies of these final guidance documents are available beginning today.

ADDRESSES: EPA will mail to those people who submitted comments on the final draft guidance documents: (1) A copy of these two documents; and (2) a responsiveness summary of the comments submitted to EPA. Others who want to receive copies of these final guidance documents may obtain them by contacting: for "Nonpoint Source Guidance," Mr. Carl Myers, Chief Nonpoint Sources Branch, WH–585, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460, or telephoning him at (202) 382–7100; and for "State Clean Water Strategies: Meeting the Challenges of the Future," Ms. Betsy LaRoe, Office of Water, WH–556, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460 or telephoning her at (202) 382–5705.

FOR FURTHER INFORMATION CONTACT: U.S. Environmental Protection Agency, Office of Water, at the above addresses and telephone numbers, or contact the EPA Regional Office nearest you.

Date: December 11, 1987.

Lawrence J. Jensen,

Assistant Administrator for Water.

Water Quality Act of 1987 Implementation; Final Guidance Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: This notice announces the availability of a final guidance document entitled "Clean Lakes Program Guidance." The purpose of this guidance is to provide States with the information necessary to complete the lake water quality assessments, which are required by section 314 of the Water Quality Act of 1987 (WQA) and to prepare and submit Clean Lakes Grant applications. This guidance is intended as a supplement to the existing Clean Lakes Regulation, 40 CFR Part 35, Subpart H, "Cooperative Agreements for Protecting and Restoring Publicly Owned Fresh Water Lakes." EPA will not be issuing new regulations to implement the requirements of WQA section 314. This guidance is, therefore, EPA's basic direction for implementing these requirements.

DATE: Copies of these final guidance documents are available beginning today.

ADDRESSES: EPA will mail to those people who submitted comments on the final draft guidance documents: (1) A copy of the final guidance document; and (2) a responsiveness summary of the comments submitted to EPA. Others who want to receive a copy of the final "Clean Lakes Program Guidance" may obtain it by contacting Mr. Frank Lapensee, Office of Water, Office of Water Regulations and Standards, WH-585, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460 or telephoning him at (202) 382-7105.

FOR FURTHER INFORMATION CONTACT: U.S. Environmental Protection Agency, Office of Water, at the above address and telephone number, or contact the EPA Regional Office nearest you.

Date: December 11, 1987.

FEDERAL MARITIME COMMISSION

[Docket No. 87-27]

Massachusetts Port Authority v. The 8900 Lines et al.; Filing of Complaint and Assignment

Notice is given that a complaint filed by the Massachusetts Port Authority ("Massport") against a conference of water carriers operating under FMC Agreement No. 8900 (hereinafter "The 8900 Lines") was served December 11, 1987.

Massport alleges that The 8900 Lines and its member carriers, through the publication of an arbitrary surcharge as set forth in The 8900 Lines Freight Tariff No. 14, and more particularly, 2nd revised page 45, have violated various sections of the Shipping Act of 1984. Specific violations alleged include sections 10(b)(6)—unfair and unjustly discriminatory practices in the matter of rates; 10(b)(10)—assessment of a rate or charge that is unjustly discriminatory between shippers or ports; 10(b)(11)—making or giving any undue or unreasonable preference or advantage to ports and shippers that compete with Massport; 10(b)(12)—subjecting Massport to an unreasonable refusal to deal an undue or unreasonable prejudice or disadvantage; 10(c)(1)—imposition of a boycott upon Massport; 10(c)(2)—engaging in conduct that unreasonably restricts the use of intermodal services or technological innovations; and 10(b)(1)—imposition of an unjust and unreasonable regulation or practice; 46 U.S.C. app 1709 10(b)(6), 10(b)(10), 10(b)(11), 10(b)(12), 10(c)(1), 10(c)(2), and 10(d)(1).

This proceeding has been assigned to Administrative Law Judge Norman D. Kline ("Presiding Officer"). Hearing in this matter, if any is held, shall commence within the time limitations prescribed in 46 CFR 502.61. The hearing shall include oral testimony and cross-examination in the discretion of the Presiding Officer only upon proper showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statements, affidavits, depositions, or other documents or that the nature of the matter in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record. Pursuant to the further terms of 46 CFR 502.61, the initial decision of the Presiding Officer in this proceeding shall be issued by December 12, 1988, and the final decision of the Commission shall be issued by April 12, 1989.

Joseph C. Polking,

Secretary.

BILLING CODE 6730-01-M

FEDERAL RESERVE SYSTEM

Change in Bank Control; Acquisition of Shares of Banks or Bank Holding Companies; Duane W. Acklie

The notificant listed below has applied under the Change in Bank Control Act (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire a bank or bank holding company. The factors that are considered in acting on notices are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The notices are available for immediate inspection at the Federal Reserve Bank indicated. Once the notices have been accepted for processing, they will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank indicated for that notice or to the offices of the Board of Governors. Comments must be received not later than January 4, 1988.

A. Federal Reserve Bank of Kansas City (Thomas M. Hoenig, Vice President) 925 Grand Avenue, Kansas City, Missouri 64198:

1. *Duane W. and Phyllis A. Acklie,* Lincoln, Nebraska; to acquire 1.94 percent; and LRC, Inc., Lincoln, Nebraska, owned and controlled by Mr. and Mrs. Acklie, to acquire 6.68 percent of the voting shares of Packers Management Company, Inc., Omaha, Nebraska, and thereby indirectly acquire Packers Bank and Trust Company, Omaha, Nebraska.

Board of Governors of the Federal Reserve System, December 11, 1987.

James McAfee,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

The Citizens and Southern Corp.; Acquisition of Company Engaged in Permissible Nonbanking Activities

The organization listed in this notice has applied under § 225.23(a)(2) or (f) of the Board's Regulation Y (12 CFR 225.23(a)(2) or (f)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to acquire or control voting securities or assets of a company engaged in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to reduce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Comments regarding the application must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than January 7, 1988.

A. Federal Reserve Bank of Atlanta (Robert E. Heck, Vice President) 104 Marietta Street, NW., Atlanta, Georgia 30303:

1. *The Citizens and Southern Corporation,* Atlanta, Georgia; Citizens and Southern Georgia Corporation, Atlanta, Georgia; and C&S Business Credit, Inc., Tucker, Georgia; to acquire certain assets of the factoring business of Citizens and Southern Commercial Corporation, Tucker, Georgia, and the factoring assets of Chemical Business Credit Corp., Long Island, New York, New York, and Chemical Bank, New York, New York (Chemical Factoring Assets), and thereby engage in the factoring business, including the making and acquiring of loans or other extensions of credit to clients pursuant to § 225.25(b)(1) of the Board's Regulation Y.

Board of Governors of the Federal Reserve System, December 11, 1987.

James McAfee,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

Community Bancorp, Inc. et al.; Formations of; Acquisitions by; and Mergers of Bank Holding Companies

The companies listed is this notice have applied for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) and § 225.14 of the Board's Regulation Y (12 CFR 225.14) to become a bank holding company or to acquire a bank or bank holding company. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank or to the Offices of the Board of Governors. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Unless otherwise noted, comments regarding each of these applications must be received not later than January 8, 1988.

A. Federal Reserve Bank of Philadelphia (Thomas K. Desch, Vice President) 100 North 6th Street, Philadelphia, Pennsylvania 19105:

1. *Community Bancorp, Inc.,* Forest City, Pennsylvania; to acquire 42.96 percent of the voting shares of The First National Bank of Nicholson, Pennsylvania.

B. Federal Reserve Bank of St. Louis (Randall C. Sumner, Vice President) 411 Locust Street, St. Louis, Missouri 63166:

1. *Indpendent Community Bancorp, Inc.*, Frankfort, Kentucky; to become a bank holding company by acquiring 100 percent of the voting shares of Kentucky Indpendent Bank, Inc., Frankfort, Kentucky.

C. Federal Reserve Bank of Minneapolis (James M. Lyon, Vice President) 250 Marquette Avenue, Minneapolis, Minnesota 55480:

1. *Norwest Corporation*, Minneapolis, Minnesota; to acquire 100 percent of the voting shares of Ranch National Bank, National Association, Scottsdale, Arizona.

Board of Governors of the Federal Reserve System, December 11, 1987.

James McAfee,

Associate Secretary of the Board.

Keystone Financial, Inc. et al.; Applications To Engage de novo in Permissible Nonbanking Activities

The companies listed in this notice have filed an application under § 225.23(a)(1) of the Board's Regulation Y (12 CFR 225.23(a)(1)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to commence or to engage *de novo*, either directly or through a subsidiary, in nonbanking activitity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Unless otherwise noted, comments regarding the applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than January 6, 1988.

A. Federal Reserve Bank of Philadelphia (Thomas K. Desch, Vice President) 100 North 6th Street, Philadelphia, Pennsylvania 19105:

1. *Keystone Financial Inc.*, Harrisburg, Pennsylvania; to engage *de novo* through its subsidiary, Keystone Community Development Corporation I, Harrisburg, Pennsylvania, a for-profit corporation, in acquiring, rehabilitating, managing and selling real estate to low-moderate income individuals and families; participating as investors in projects for commercial development benefiting low-moderate communities; and providing technical assistance to existing and start-up neighborhoods based on not-for-profit development organizations pursuant to § 225.25(b)(6) of the Board's Regulation Y. These activities will be conducted in central and east-central Pennsylvania.

2. *Keystone Financial Inc.*, Harrisburg, Pennsylvania; to engage *de novo* through its subsidiary, Keystone Community Development Corporation II, Harrisburg, Pennsylvania, a non-profit corporation, in acquiring, rehabilitating, managing and selling real estate to low-moderate income individuals and families; participating as investors in projects for commercial development benefiting low-moderate communities; and providing technical assistance to existing and start-up neighborhoods based on not-for-profit development organizations pursuant to § 225.25(b)(6) of the Board's Regulation Y. These activities will be conducted in central and east-central Pennsylvania.

Board of Governors of the Federal Reserve System, December 11, 1987.

BILLING CODE 6210-01-M

FEDERAL TRADE COMMISSION

Second Plan of Action to Implement the International Energy Program

AGENCY: Federal Trade Commission.

ACTION: Notice.

SUMMARY: The Federal Trade Commission has informed the Attorney General that it has no objection to his approving the proposed Second Plan of Action to Implement the International Energy Program. Section 252 of the Energy Policy and Conservation Act, 42 U.S.C. 6272, grants limited antitrust and breach of contract defenses to oil companies who carry out a plan of action approved by the Attorney General during an oil supply emergency. Before approving a plan of action, the Attorney General must consult with the Federal Trade Commission. 42 U.S.C. 6272(d)(1). The Commission's advice must be published in the **Federal Register**. *Id.*

FOR FURTHER INFORMATION CONTACT: Marc G. Schildkraut, Deputy Assistant Director, Bureau of Competition, Federal Trade Commission, Washington, DC 20580, Telephone: (202) 326-2622.

SUPPLEMENTARY INFORMATION: The text of the Second Plan of Action was published in the **Federal Register** on August 21, 1987 (52 FR 31704). On December 7, 1987, the Commission sent the following letter to the Assistant Attorney General, Antitrust Division, who is the Attorney General's delegate:

Honorable Charles F. Rule, Assistant Attorney General, Antitrust Division, Department of Justice, Washington, DC 20530.

Dear Mr. Rule: We have received your letter requesting the Commission's advice on the adoption of the proposed Second Plan of Action and implementing amendments to the Voluntary Agreement. Section 252(d) of the Energy Policy and Conservation Act provides that plans of action may not be carried out unless approved by the Attorney General, after consultation with the Federal Trade Commission.

As required by Section 252(d), the Commission, through its staff, has participated from the beginning in the preparation of the proposed Second Plan of Action. The plan, in final form, resulted from continuing consultations between the Department of Energy, the Department of Justice, the Department of State, and the Commission, at staff level. It was, moreover, subject to comments from interested parties who cared to comment, and was the subject of a hearing open to the public, following publication in the **Federal Register** on August 21, 1987.

The Commission hereby advices that it has no objection to your approving the Second Plan of Action and implementing Voluntary Agreement amendments referred to in your letter of November 9, 1987. By registering no objection to the Plan, including Annex II, the Commission does not mean to suggest that it regards representations made by foreign governmental authorities as entitled to similar deference or legal treatment outside the Plan in the context of a foreign blocking statute, a foreign sovereign compulsion defense, or other circumstances.

In accordance with Section 252(d), a copy of this letter will be published in the **Federal Register.**

By direction of the Commission.

Emily H. Rock,

Secretary.

By direction of the Commission.

Emily H. Rock,

Secretary.

BILLING CODE 6750-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Cancer Institute, Acrylonitrile Study Liaison Group; Meeting

Notice is hereby given of the meeting of the Acrylonitrile Study Liaison Group on January 20, 1988, Building 31, C Wing, Conference Room 9. This meeting will be sponsored by the National Cancer Institute, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20892. The meeting will be open from 10 a.m. to adjournment for discussion of issues relating to the industrial hygiene protocol and exposure assessment strategy for the study. Attendance is open to the public but will be limited to space available.

Dr. David McB. Howell, Division of Cancer Etiology, National Cancer Institute, Building 31, Room 11A06, National Institutes of Health, Bethesda, Maryland 20892 (301/496-6927) will provide substantive program information, upon request.

Dated: December 14, 1987.

BILLING CODE 4140-01-M

National Cancer Institute, Biometry and Epidemiology Contract Review Committee; Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Biometry and Epidemiology Contract Review Committee, National Cancer Institute, National Institutes of Health, January 28, 1988, Building 31C, Conference Room 9, 9000 Rockville Pike, Bethesda, Maryland 20892.

This meeting will be open to the public on January 28 from 9 a.m. to 10 a.m. to discuss administrative matters and from 12 noon to 1 p.m. for a research presentation. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, U.S.C. and sec. 10(d) of Pub. L. 92-463, the meeting will be closed to the public on January 28 from 10 a.m. to noon and from 1 p.m. to adjournment for the review, discussion and evaluation of individual contract proposals. The proposals and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the proposals, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Mrs. Winifred Lumsden, Committee Management Officer, National Cancer Institute, Building 31, Room 10A06, National Institutes of Health, Bethesda, Maryland 20892 (301/496-5708) will provide a summary of the meeting and a roster of committee members upon request.

Dr. Harvey P. Stein, Executive Secretary, Biometry and Epidemiology Contract Review Committee, National Cancer Institute, Westwood Building, Room 804, National Institutes of Health, Bethesda, Maryland 20892 (301/496-7030) will furnish substantive program information.

Dated: December 7, 1987.

Betty J. Beveridge,

Committee Management Officer, NIH.

BILLING CODE 4140-01-M

National Heart, Lung, and Blood Institute, Clinical Trials Review Committee; Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Clinical Trials Review Committee, National Heart, Lung, and Blood Institute, February 21-25, 1988, at the Holiday Inn Crowne Plaza, 1750 Rockville Pike, Rockville, Maryland 20852.

The meeting will be open to the public on February 21, from 7:30 p.m. to approximately 8 p.m. to discuss administrative details and to hear a report concerning the current status of the National Heart, Lung, and Blood Institute. Attendance by the public is limited to space available.

In accordance with the provisions set forth in secs. 552b(c)(4) and 552b(c)(6), Title 5, U.S.C., and sec. 10(d) of Pub. L. 92-463, the meeting will be closed to the public on February 21 from approximately 8 p.m. to recess, and from 8 a.m. on February 22 to adjournment on February 25, for the review, discussion, and evaluation of individual grant applications. These applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Terry Bellicha, Chief, Communications and Public Information Branch, National Heart, Lung, and Blood Institute, Building 31, Room 4A-21, National

Institutes of Health, Bethesda, Maryland 20892, (301) 496–4236, will provide a summary of the meeting and a roster of the Committee members.

Dr. David M. Monsees, Jr., Contracts, Clinical Trials and Training Review Section, Division of Extramural Affairs, National Heart, Lung, and Blood Institute, Westwood Building, Room 550B, Bethesda, Maryland 20892, (301) 496–7361, will furnish substantive program information.

(Catalog of Federal Domestic Assistance Program Nos. 13.837, Heart and Vascular Diseases Research; 13.838, Lung Diseases Research; 13.839, Blood Diseases and Resources Research, National Institutes of Health.)

Dated: December 7, 1987.

Betty J. Beveridge,

Committee Management Officer, NIH.

[FR Doc. 87–28994 Filed 12–16–87; 8:45 am]

BILLING CODE 4140–01–M

National Institute on Aging; National Advisory Council on Aging; Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of the meeting of the National Advisory Council on Aging, National Institute on Aging (NIA), on February 4–5, 1988, in Building 31, Conference Room 6, National Institutes of Health, Bethesda, Maryland. This meeting will be open to the public on Thursday, February 4, from 10:30 a.m. until 12:30 p.m. for a status report by the Director, National Institute on Aging, a report on the Neurosciences and Neuropsychology of Aging, and a report on the meeting of the Advisory Committee to the Director, NIH. It will again be open to the public Friday, February 5, from 9:00 a.m. until adjournment for a report on the ad hoc Committee on Program, a report on the Epidemiology, Demography and Biometry Program, and a report on the Epidemiologic and Economic Data Resources for Research on Aging. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in sections 552(c)(4) and 552b(c)(6), Title 5, U.S.C. and section 10(d) of Pub. L. 92–463, the meeting of the Council will be closed to the public on February 4 from 1:30 p.m. to recess for the review, discussion, and evaluation of individual grant applications. These applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material and personal information concerning individuals associated with the applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Because this meeting is scheduled so far in advance, it is suggested that you contact Mrs. June McCann, Council Secretary for the National Institute on Aging, National Institutes of Health, Building 31, Room 5C05, Bethesda, Maryland 20892, (301/496–9322), for specific information.

BILLING CODE 4140–01–M

National Institute of Child Health and Human Development; National Advisory Child Health and Human Development Council; Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of the meeting of the National Advisory Child Health and Human Development Council, January 25–26, 1988, in Wilson Hall, Shannon Building (Building 1), National Institutes of Health, Bethesda, Maryland, and the meeting of the Subcommittee on Planning on January 25 from 8:30 a.m. to 9:30 a.m. in Building 31, Room 2A03.

The Council meeting will be open to the public on January 25 from 9:30 a.m. until 5:00 p.m. The agenda includes a report by the Director, NICHD, and a presentation by the Human Learning and Behavior Branch, Center for Research for Mothers and Children. The meeting will be open on January 26 immediately following the review of applications if any policy issues are raised which need further discussion. The Subcommittee meeting will be open on January 25 from 8:30 a.m. to 9:30 a.m. to discuss program plans and the agenda for the next Council meeting. Attendence by the public will be limited to space available.

In accordance with the provision set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, U.S.C. and section 10(d) of Pub. L. 92–463, the meeting will be closed to the public on January 26 from 8:30 a.m. to completion of the review, discussion, and evaluation of individual grant applications. These applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications, disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Mrs. Marjorie Neff, Council Secretary, NICHD, Landow Building, Room 6C08, National Institutes of Health, Bethesda, Maryland 20892, Area Code 301, 496–1485, will provide a summary of the meeting and a roster of Council members as well as substantive program information.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[CA–930–4311–09]

Availability of Draft Environmental Impact Statement; California Vegetation Management Program

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability of draft environmental impact statement for the California Vegetation Management Program.

SUMMARY: Notice is hereby given of the availability of the Draft Environmental Impact Statement for the California Vegetation Management Program on BLM administered lands in California and northwest Nevada. The DEIS was prepared to address the impacts resulting from proposed manual, mechanical, prescribed burning and chemical control of vegetation on public lands. The DEIS also includes a risk assessment and worst-case analysis of impacts on human health from using herbicides as proposed by the program.

Comments on the DEIS are being solicited from interested parties.

A limited number of copies of the California Vegetation Management DEIS are available from: Mark Blakeslee, Bureau of Land Management, California State Office, 2800 Cottage Way, Sacramento, CA 95825 (916) 978–4725.

DATE: The public comment period is open for 60 days through February 15, 1988. Comments received after that data may not be considered in the Final EIS.

ADDRESSES: Written comments may be sent to the California Vegetation Management EIS Team Leader, Bureau of Land Management, 2800 Cottage Way, Sacramento, California 95825.

FOR FURTHER INFORMATION CONTACT: Mark Blakeslee, California State Office (916) 978–4725.

Dated: December 8, 1987.

Ronald D. Hofman,

Associate State Director.

BILLING CODE 4310–46–M

[WY–030–08–4332–09]

Supplemental Environmental Impact Statement; Whiskey Mountain and Dubois Badlands Wilderness Study Area; Lander Resource Area, WY

AGENCY: Bureau of Land Management, Interior.

ACTION: Revision of preparation date and notification of intent to prepare a supplemental environmental impact statement for two wilderness study areas in the Lander Resources Area, Rawlins BLM District.

SUMMARY: The purpose of this notice is to revise the date of a previously announced notice of intent to prepare an environmental impact statement on the Whiskey Mountain and Dubois Badlands Wilderness Study Areas (WSAs) in the Lander Resource Area, in Central Wyoming from Fiscal Year 86 to Fiscal Year 88. The initial notice was published in the **Federal Register**, Vol. 50, No. 216, page 46361, on Thursday, November 7, 1985.

The other purpose of the notice is to solicit additional comments and concerns from the public to aid BLM in developing recommendations as to the suitability or nonsuitability of wilderness designations for the Whiskey Mountain and Dubois Badlands, WSAs.

DATES: Public comments on the proposal will be accepted until January 4, 1988.

FOR FURTHER INFORMATION CONTACT: Richard Bastin, District Manager, or Robert Janssen, Wilderness EIS Team Leader at (307) 324–7171 or send any correspondence to the following address before January 4, 1988: Bureau of Land Management, Rawlins District Office, P.O. Box 670, Rawlins, Wyoming 82310.

SUPPLEMENTARY INFORMATION: Public scoping meetings were conducted as originally scheduled on December 11 and 12, 1985.

However, since the initial supplemental EIS was not completed in time for the recommendations for these two WSAs to be included into the Final Resource Management Plan for the Lander Resource Area, and due to the length of time which has passed from the first notice, the public is again invited to comment on these two areas regarding; issues or concerns that should be considered in the recommendation for wilderness, resource values in the two areas which will augment BLM's current resource information, alternatives which should be considered, and any other factors that may be pertinent to the area's suitability or unsuitability as wilderness.

Geographic Area: The geographic area to be analyzed for impacts is Fremont County, Central Wyoming.

Maryln V. Jones,

Acting State Director, Wyoming.

December 7, 1987.

BILLING CODE 4310–22–M

[UT–020–88–4212–08]

Salt Lake District; Intent To Amend Tooele Management Framework Plan

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent.

SUMMARY: The Bureau of Land Management (BLM), Salt Lake District proposes to amend planning decisions 1–1–1a, 1–1–2, and 1–1–4 of the Tooele Management Framework Plan (MFP). The proposed amendments would affect 8,739 acres of public land by removing this acreage from decision 1–1–4 (undesignated public lands) and including 140 acres in decision 1–1–2 (disposal lands) and 8,599 acres in decision 1–1–1a (retention lands).

The 140 acres proposed to be included in decision 1–1–2 are legally described as follows:.

T. 6 S., R. 18 W., SLM.
Section 4: W½E½SW¼;
Section 8, NE¼NE¼;
Section 9, W½NE¼NW¼, NW¼NW¼.

The 8,599 acres proposed to be included in decision 1–1–1a are legally described as follows:

T. 3 S., R. 8 W., SLM.
Section 3: SW¼SW¼;
Section 4: S½SE¼, SE¼SW¼;
Section 9: E½;
Section 10: NE¼NE¼, W½NE¼, NW¼, N½SW¼, NW¼SE¼;
Section 20: W½;
Section 29: W½;
Section 30: S½;
Section 31: All.
T. 4 S., R. 8 W., SLM.
Section 5: All;
Section 6: All;
Section 7: All;
Section 8: All;
Section 9: S½;
Section 17: All;
Section 18: All;
Section 20: All;
Section 21: NW¼, N½SW¼, SW¼NE¼, NW¼SE¼.
T. 4 S., R. 9 W., SLM.
Section 1: All.
T. 6 S., R. 8 W., SLM.
Section 10: N½NE¼;
Section 11: NW¼, N½SW¼, SE¼Sw¼.

The acreage figure for each amended decision would then be:

Decision 1–1–1a—1,266,569 acres
Decision 1–1–2—9,157 acres
Decision 1–1–4—628,467 acres.

The proposed amendment would allow for the disposal of 140 acres adjacent to the Last Chance Ranch and for the exchange of 360 BLM acres with 319.83 acres of land in the Andrus exchange proposal and 8,239 BLM acres with 6,827.72 acres of land in the Skull Valley Company exchange proposal.

The 140 acres of Public Land adjacent to the Last Chance Ranch subject to the proposed amendment are located 12 mile north of Gold Hill, Utah. The 360 acres of Public Land involved in the proposed Andrus exchange are located in the south end of Skull Valley 5 miles northeast of Dugway, Utah. The 8,239 acres of Public Land involved in the proposed Skull Valley Company exchange are located in the central portion of Skull Valley 24 miles southwest of the junction of the Skull Valley road and Interstate Highway 80.

An environmental assessment (EA) will be completed to evaluate the proposed amendment. Issues to be addressed include impacts to wildlife habitat, wetlands, water rights, public access, and public water reserves. The following resources/programs will be evaluated in the EA: Lands, vegetation, wildlife habitat, recreation, livestock grazing, watershed, realty, minerals, and archaeology.

The Last Chance Ranch proposes to obtain by direct sale those public land adjacent to its operation which have been unintentionally put into agricultural production. The BLM proposes to exchange lands with Andrus and Skull Valley Company for the purposes of wildlife habitat management, watershed protection, recreation management, range management, and to better implement the multiple use principles regulated by the Federal Land Policy and Management Act of 1976.

EA's will be prepared on each of these proposals simultaneously with the EA prepared on the proposed amendment of Tooele MFP decision 1–1–4. Public participation is requested to identify issues on the proposed amendment and/or the proposed disposal and exchanges. Oral and/or written comments should be made by January 15, 1988 to: Mr. Howard Hedrick, Pony Express Resource Area Manager, Bureau of Land Management, Salt Lake City District,

2370 South 2300 West, Salt Lake City, Utah 84119, phone (801) 524–5348.

Deane H. Zeller,

District Manager.

[WY–920–08–4111–15; W–80113]

Proposed Reinstatement of Terminated Oil and Gas Lease; Sublette County, WY

December 10, 1987.

Pursuant to the provisions of Pub. L. 97–451, 96 Stat. 2462–2466, and Regulation 43 CFR 3108.2–3 (a) and (b)(1), a petition for reinstatement of oil and gas lease W–80113 for lands in Sublette County, Wyoming, was timely filed and was accompanied by all the required rentals accruing from the date of termination.

The lessee has agreed to the amended lease terms of rentals and royalties at rates of $5 per acre, or fraction thereof, per year and 16⅔ percent, respectively.

The lessee has paid the required $500 administrative fee and $125 to reimburse the Department for the cost of this Federal Register notice. The lessee has met all the requirements for reinstatement of the lease as set out in section 31 (d) and (e) of the Mineral Lands Leasing Act of 1920 (30 U.S.C. 188), and the Bureau of Land Management is proposing to reinstate lease W–80113 effective September 1, 1987, subject to the original terms and conditions of the lease and the increased rental and royalty rates cited above.

Andrew L. Tarshis,

Chief, Leasing Section.

[AZ–940–08–4212–12; A–20347 (B)]

Reconveyed Land Opened to Entry; Pinal County, AZ

December 11, 1987.

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: This action will open 3,160.00 acres of reconveyed land in Pinal County to the public land laws and the mining laws.

FOR FURTHER INFORMATION CONTACT: Lisa Schealman, Arizona State Office, (602) 241–5534.

SUPPLEMENTARY INFORMATION: On April 17, 1986, as authorized under section 206 of the Federal Land Policy and Management Act of October 21, 1976, the United States acquired the following land:

Gila and Salt River Meridian, Arizona

T. 7 S., R. 18 E.,
Sec. 14, NE¼, S½;
Sec. 16, all;
Sec. 17, E½NE¼, SW¼NE¼, NW¼NW¼, SE¼NW¼;
Sec. 23, NE¼, E½NW¼, N½SE¼;
Sec. 24, all;
Sec. 25, NE¼, E½NW¼, S½;
Sec. 26, N½S½, S½SE¼;
Sec. 27, E½NE¼.

Comprising 3,160.00 acres in Pinal County.

At 9:00 a.m. on January 19, 1988, the lands will be opened to the operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 9:00 a.m. on January 19, 1988, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

At 9:00 a.m. January 19, 1988, the lands will be opened to location and entry under the United States mining laws. Appropriation of any of the lands described in this order under the general mining laws prior to the date and time of restoration is unauthorized. Any such attempted appropriation, including attempted adverse possession under 30 U.S.C. 38, shall vest no rights against the United States. Acts required to establish a location and to initiate a right of possession are governed by the state law where not in conflict with Federal law. The Bureau of Land Management will not intervene in disputes between rival locators over possessory rights since Congress has provided for such determination in local courts.

Carol Burgar,

Acting Chief, Branch of Lands and Minerals Operations.

Minerals Management Service

Development Operations Coordination Document; Amoco Production Co.

AGENCY: Minerals Management Service, Interior.

ACTION: Notice of the receipt of a proposed Development Operations Coordination Document (DOCD).

SUMMARY: Notice is hereby given that Amoco Production Company has submitted a DOCD describing the activities it proposes to conduct on Lease OCS 0578, Block 215, portion, Eugene Island Area, offshore Louisiana. Proposed plans for the above area provide for the development and production of hydrocarbons with support activities to be conducted from an onshore base located at Fourchon, Louisiana.

DATE: The subject DOCD was deemed submitted on December 10, 1987.

ADDRESS: A copy of the subject DOCD is available for public review at the Public Information Office, Gulf of Mexico OCS Region, Minerals Management Service, 1201 Elmwood Park Boulevard, Room 144, New Orleans, Louisiana (Office Hours: 8 a.m. to 4:30 p.m., Monday through Friday).

FOR FURTHER INFORMATION CONTACT: Michael J. Tolbert; Minerals Management Service, Gulf of Mexico OCS Region, Field Operations, Plans, Platform and Pipeline Section, Exploration/Development Plans Unit; Telephone (504) 736–2867.

SUPPLEMENTARY INFORMATION: The purpose of this Notice is to inform the public, pursuant to sec. 25 of the OCS Lands Act Amendments of 1978, that the Minerals Management Service is considering approval of the DOCD and that it is available for public review.

Revised rules governing practices and procedures under which the Minerals Management Service makes information contained in DOCDs available to affected States, executives of affected local governments, and other interested parties became effective December 13, 1979 (44 FR 53685). Those practices and procedures are set out in revised § 250.34 of Title 30 of the CFR.

Date: December 10, 1987.

J. Rogers Pearcy,

Regional Director, Gulf of Mexico OCS Region.

Development Operations Coordination Document; Hall-Houston Oil Co.

AGENCY: Minerals Management Service, Interior.

ACTION: Notice of the receipt of a proposed Development Operations Coordination Document (DOCD).

SUMMARY: Notice is hereby given that Hall-Houston Oil Company has submitted a DOCD describing the activities it proposes to conduct on Lease OCS–G 6825, Block 227, Main Pass Area, offshore Louisiana. Proposed plans for the above, area provide for the development and production of hydrocarbons with support activities to be conducted from an onshore base located at Venice, Louisiana.

DATE: The subject DOCD was deemed submitted on December 10, 1987. Comments must be received within 15 days of the date of this Notice or 15 days after the Coastal Management Section receives a copy of the plan from the Minerals Management Service.

ADDRESSES: A copy of the subject DOCD is available for public review at the Public information Office, Gulf of Mexico OCS Region, Minerals Management Service, 1201 Elmwood Park Boulevard, Room 114, New Orleans, Louisiana (Office Hours: 8 a.m. to 4:30 p.m., Monday through Friday). A copy of the DOCD and the accompanying Consistency Certification are also available for public review at the Coastal Management Section Office located on the 10th Floor of the State Lands and Natural Resources Building, 625 North 4th Street, Baton Rouge, Louisiana (Office Hours: 8 a.m. to 4:30 p.m., Monday through Friday). The public may submit comments to the Coastal Management Section, Attention OCS Plans, Post Office Box 44487, Baton Rouge, Louisiana 70805.

FOR FURTHER INFORMATION CONTACT: Mr. Michael D. Joseph; Minerals Management Service, Gulf of Mexico OCS Region, Field Operations, Plans, Platform and Pipeline Section, Exploration/Development Plans Unit; Telephone (504) 736–2875.

SUPPLEMENTARY INFORMATION: The purpose of this Notice is to inform the public, pursuant to sec. 25 of the OCS Lands Act Amendments of 1978, that the

Minerals Management Service is considering approval of the DOCD and that it is available for public review. Additionally, this Notice is to inform the public, pursuant to § 930.61 of Title 15 of the CFR, that the Coastal Management Section/Louisiana Department of Natural Resources is reviewing the DOCD for consistency with the Louisiana Coastal Resources Program.

Revised rules governing practices and procedures under which the Minerals Management Service makes information contained in DOCDs available to affected States, executives of affected local governments, and other interested parties became effective December 13, 1979 (44 FR 53685).

Those practices and procedures are set out in revised § 250.34 of Title 30 of the CFR.

Date: December 10, 1987.

Canadian Pacific Ltd. & Incan Ships Ltd.; Joint Application

AGENCY: Interstate Commerce Commission.

ACTION: Approval of joint application under 49 U.S.C. 11321.

SUMMARY: The Commission has approved a joint application by Canadian Pacific Ltd. (CPL) and Incan Ships Ltd. (Incan Ships) for CPL to purchase a controlling (100%) interest in Incan, and thus its wholly-owned subsidiary, Incan Superior, Ltd. (Incan Superior). Notice was published at 52 FR 37675 (October 8, 1987). No comments were received.

FOR FURTHER INFORMATION CALL: Joseph H. Dettmar, (202) 275-7246 [TTD for hearing impaired: (202) 275-1721].

SUPPLEMENTARY INFORMATION: Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to Dynamic Concepts, Inc., Room 2229, Interstate Commerce Commission Building, Washington, DC 20423, or call (202) 289-4357/4359 (DC Metropolitan area), (assistance for the hearing impaired is available through TTD services (202) 275-1721 or by pickup from Dynamic Concepts, Inc., in Room 2229 at Commission headquarters).

Decided: December 10, 1987.

By the Commission, Chairman Gradison, Vice Chairman Lamboley, Commissioners Sterrett, Andre, and Simmons.

Noreta R. McGee,

Secretary.

[FR Doc. 87-28974 Filed 12-16-87; 8:45 am]

BILLING CODE 7035-01-M

[Finance Docket No. 31161]

Delaware and Hudson Railway Co.; Operating Agreement and Assignment of Trackage Rights; Springfield Terminal Railway Company; Exemption

Delaware and Hudson Railway Company (D&H) and Springfield Terminal Railway Company (ST) filed a notice of exemption for D&H's assignment to ST of its trackage rights over certain lines of Consolidated Rail Corporation (Conrail) and National Railroad Passenger Corporation (Amtrak). D&H and ST have entered an operating agreement under which ST will assume D&H's operations over the Conrail and Amtrak lines.

The following lines of Conrail are involved: (1) The Southern Tier Main Line between Binghamton, NY, and Buffalo, NY, a distance of approximately 212 miles, including all rights of D&H in the Buffalo Terminal, SK, and Bison Yards, and to Niagara Falls, NY, and Fort Erie, Ontario, Canada; (2) the Landover to RO Main Line between Landover, MD, and Potomac Yard, VA, a distance of approximately 10 miles; (3) the Port Road Main Line between Port and Perry, a distance of approximately. 40 miles; (4) the Enola Branch between Enola and Port, including all tracks in Enola Yard and Harrisburg Yard, a distance of approximately 40 miles; (5) the Royalton Branch between Roy and Shocks, a distance of approximately 12 miles; (6) the Buffalo Main Line between Kase and Rockvile, a distance of approximately 49 miles; (7) the Lehigh Line Lehigh Secondary Track between Oak Island, NJ, and Dupont, PA, a distance of approximately 166 miles; and (8) the Main Line between Allentown and Philadelphia, PA, a distance of approximately 90 miles.

The following lines of Amtrak are involved: (1) The Amtrak Main Line between State and Roy in the vicinity of Harrisburg, PA, a distance of approximately 10 miles; and (2) the Amtrak Northeast Corridor Main Line between Perryville, MD, and Landover, MD, a distance of approximately 69 miles.

D&H and ST are wholly-owned subsidiaries of Guilford Transportation Industries, Inc. (GTI), which also owns the Maine Central Railroad Company (MEC) and the Boston and Maine Corporation (B&M). As a result of the proposed transaction, it is intended that ST will provide service as good as, or better than, service now provided.

Since D&H and ST are members of the same corporate family, the transaction falls within the class of transactions that are exempt from the prior review requirements of 49 U.S.C. 11343. *See* 49 CFR 1180.2(d)(3). The carriers anticipate that the transaction will not result in adverse changes in service levels, significant operational changes, or a change in competitive balance with carriers operating outside the corporate family.

Any employee affected by the transaction would normally be protected by the labor conditions set forth in *Norfolk and Western Ry. Co.—Trackage Rights—BN*, 354 I.C.C. 605 (1978) (*Norfolk and Western*), as modified in *Mendocino Coast Ry., Inc.—Lease and Operate*, 360 I.C.C. (1980) (*Mendocino*). These conditions satisfy the statutory requirements of 49 U.S.C. 10505(g)(2) for the transaction. However, in a decision in Finance Docket No. 30965, *Delaware and Hudson Railway Company—Lease and Trackage Rights Exemption—Springfield Terminal Railway Company* (not printed), served May 18, 1987, the Commission set for modified procedure a series of notices filed by the GTI carriers because labor interests raised issues related to the level of employee protection for the transactions. The Commission asked the parties to that proceeding to address several issues and present additional evidence, including similar existing and future notices and transactions, such as this one, involving the GTI carriers.

Since the May 18, 1987 decision, the Commission has published in the **Federal Register** several related notices of exemption by various GTI carriers and indicated that the underlying transactions will be considered in the Finance Docket No. 30965 proceeding.

In an October 26, 1987 decision in Finance Docket No. 30965, the Commission ordered GTI not to implement any of the pending D&H/ST transactions until it issued a decision on the merits of that proceeding. The labor interests have filed petitions asking the Commission to prevent implementation of the assignment of D&H's trackage rights to St. The Commission will issue a separate decision determining whether this transaction will be considered in the Finance Docket No. 30965 proceeding and whether the trackage rights assignment will be postponed pending resolution of that proceeding.

If, prior to the Commission's determination of the appropriate level of labor protection for these GTI transactions, D&H and ST consummate this transaction and provide employees with *Norfolk and Western* protection, they do so at their own risk. Should the Commission subsequently determine that a higher level of protection is required, the carriers will be required to provide employees with that greater protection.

Petitions to revoke the exemption under 49 U.S.C. 10505(d) may be filed at any time. The filing of petitions to revoke will not stay the transaction.

Decided: December 11, 1987.

By the Commission, Jane F. Mackall, Director, Office of Proceedings.

Noreta R. McGee,

Secretary.

BILLING CODE 7035-01-M

DEPARTMENT OF JUSTICE

Lodging of Consent Decree; Exxon Chemical Americas

In accordance with the policy of the Department of Justice, 28 CFR 50.7, notice is hereby given that on November 23, 1987, a proposed consent decree in *United States* v. *Exxon Chemical Americas*, Civil Action No. 871027, was lodged with the United States District Court for the Middle District of Louisiana. This consent decree settles a lawsuit filed simultaneously with the consent decree. The lawsuit, based on sections 301 and 309 of the Clean Water Act, 33 U.S.C. 301 and 309, seeks injunctive relief and civil penalties of up to $10,000 per day of violation before February 4, 1987, and $25,000 per day of violation on or after February 4, 1987. The complaint alleges, among other things, that the defendant discharged pollutants not authorized by its National Pollutant Discharge Elimination System ("NPDES") permit, thus violating Section 301, 33 U.S.C. 1311.

Under the terms of the proposed consent decree, the defendant has implemented, and will maintain and report on, several measures to prevent further violative discharges. These measures include mechanical changes, such as installing a backup motor for pumping untreated wastewater to a treatment facility, as well as operational changes, such as prohibiting the draining of untreated wastewater from storage tanks.

The consent decree also requires the defendant to pay a civil penalty of $40,000 for past violations of the Act. The consent decree also contains stipulated penalties for failure to comply with the terms of the consent decree.

The Department of Justice will receive comments relating to the proposed consent decree for a period of 30 days from the date of this publication. Comments should be addressed to the Assistant Attorney General of the Land and Natural Resources Division, Department of Justice, 10th and Pennsylvania Avenue, NW., Washington, DC 20530. All comments should refer to *United States* vs. *Exxon Chemical Americas*, D.J. Ref. 90-5-1-1-2892.

The proposed consent decree may be examined at the following offices of the United States Attorney and the Environmental Protection Agency ("EPA"):

EPA Region VI

Contact: Ronald Fisher, Office of Regional Counsel, U.S. Environmental Protection Agency, Region VI, 1445 Ross Avenue, Dallas, Texas 75202-2733, (214) 655-2129.

United States Attorney's Office

Contact: Richard B. Launey, Assistant United States Attorney, Middle District of Louisiana, 352 Florida Street, Baton Rouge, LA 70801, (504) 389-0443.

Copies of the proposed consent decree may also be examined at the Environmental Enforcement Section, Land and Natural Resources Division, United States Department of Justice, Room 1515, 10th and Pennsylvania Avenue, NW., Washington, DC 20530. A copy of the proposed consent decree may be obtained by mail from the Environmental Enforcement Section, Land and Natural Resources Division of the Department of Justice. In requesting a copy of the decree, please enclose a check for copying costs in the amount of $1.20 payable to Treasurer of the United States.

Roger J. Marzulla,

Acting Assistant Attorney General, Land and Natural Resources Division.

[Docket No. 50–409]

Environmental Assessment and Finding of No Significant Impact; Dairyland Power Cooperative

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an exemption from the requirements of 10 CFR Part 50 Appendix E, Section IV.F.2 and 10 CFR 50.47(b)(7) to Dairyland Power Cooperative (the licensee).

Environmental Assessment

Identification of Proposed Action: The exemption will delete the requirement for an annual emergency preparedness exercise in 1987 at the permanently shutdown LaCrosse Boiling Water Reactor (LACBWR). The exemption would also delete the requirement that information on LACBWR emergency plans to made available to the public on a periodic basis.

LACBWR was permanently shutdown on April 30, 1987 and reactor defueling completed on june 11, 1987. The LACBWR operating License No. DPR–45 was modified to possess-but-not-operate status on August 4, 1987.

Need for Proposed Action: The exemption is needed to eliminate unnecessary requirements that were appropriate for an operating plant but not for the permanently shutdown LACBWR facility.

Environmental Impact of the Proposed Action: The proposed action is administrative only and will have no environmental impact.

Alternative Use of Resources: This action does not involve the use of resources.

Agencies and Persons Consulted: The licensee initiated this exemption action. The NRC staff is reviewing their request. No other agencies or persons were consulted.

Finding of No Significant Impact

The Commission has determined not to prepare an environmental impact statement for the proposed exemption.

Based upon the environmental assessment, we conclude that the proposed action will not have a significant effect on the quality of the human environment.

For details with respect to this action, see the licensees application dated September 1, 1987 as revised October 1, 1987. Which is available in the Commission's Public Document Room, 1717 H Street, NW., Washington, DC and at the LaCrosse Public Library, 800 Main Street, LaCrosse, Wisconsin.

Dated at Bethesda, Maryland, this 10th day of December 1987.

For the Nuclear Regulatory Commission.

Lester S. Rubenstein,

Director, Standardization and Non-Power Reactor Project Directorate, Division of Reactor Projects III, IV, V and Special Projects Office of Nuclear Reactor Regulation.

BILLING CODE 7590–01–M

[Docket No. 50–263]

Northern States Power Co.; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulator Commission (the Commission) is issuing an exemption from the requirements of 10 CFR 50.62(c)(4), to Northern States Power Company (the licensee), for the Monticello Nuclear Generating Plant, located in Wright County, Minnesota.

Environmental Assessment

Identification of Proposed Acting: The exemption allows the use of a minimum flow rate of 26 GPM and the available sodium pentaborate concentration ranging from 13 weight percent (w/o) to 18 w/o depending on the volume of solution existing in the standby liquid control system (SLCS) storage tank. The flow rate and concentration of sodium pentaborate are different from existing requirements of 10 CFR 50.62(c)(4) consisting of a flow rate of 86 GPM and a concentration of 13.0 w/o of sodium pentaborate.

The exemption responds to the licensee's application for exemption dated August 18, 1987.

The Need for the Proposed Action: The exemption is needed because the licensee proposes to depart from 10 CFR 50.62(c)(4) requirements in view of the Monticello Nuclear Generating Plant having a reactor vessel diameter which is smaller than that used to establish the minimum flow and boron content requirements set forth in the regulation. For the Monticello reactor size, a lesser flow rate and different ranges in the concentration of sodium pentaborate solution will provide a negative reactivity injection in an anticipated transient without scram (ATWS) event equivalent to that called for by the regulation.

Environmental Impacts of the Proposed Action: The exemption provides a degree of protection for the Monticello reactor equivalent to that required by the regulation for reactors with larger reactor vessels for prompt injection of negative reactivity into a boiling water reactor pressure vessel in the event of an ATWS. Consequently, the probability of accidents has not been increased by the exemption and the post-accident radiological releases would not be greater than previously determined. The exemption does not otherwise affect radiological plant effluents. Therefore, the Commission concludes that there are no significant radiological environmental impacts associated with this exemption.

The exemption does not affect nonradiological plant effluents and has no other environmental impact. Therefore, the Commission concludes that there are no significant nonradiological environmental impacts associated with the exemption.

Alternatives to the Proposed Action: Since the Commission has concluded that there are no significant environmental effects that would result from the action, any alternatives with equal or greater environmental impacts need not be evaluated.

The principal alternative would be to deny the requested exemption. This would not reduce the environmental impacts attributable to this facility and would result in a larger expenditure of licensee resources to comply with the Commission's regulations.

Alternative Use of Resources: This action involves no use of resources not previously considered in the Final Environmental Statement related to operation of the Monticello Plant, dated November 1972.

Agencies and Persons Consulted: The Commission's staff reviewed the licensee's request and did not consult other agencies or persons.

Finding of No Significant Impact

Based upon the foregoing environmental assessment, we conclude that the action will not have a significant effect on the quality of the human environment. The Commission has, therefore, determined not to prepare an environmental impact statement for the exemption.

For further details with respect to this action, see the application for the exemption dated August 18, 1987 which is available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Wasahington, DC, and at the Environmental Conservation Library, Minneapolis Public Library, 300 Nicollet Mall, Minneapolis, Minnesota.

Dated at Bethesda, Maryland, this 11th day of December 1987.

For the Nuclear Regulatory Commission.

David L. Wigginton,

Acting Director, Project Directorate III–3, Division of Reactor Projects, Office of Nuclear Reactor Regulation.

BILLION CODE, 7590–01–M

Tennessee Valley Authority, Yellow Creek Nuclear Plant, Units 1 and 2; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an Order Revoking Construction Permit Nos. CPPR–172 and CPPR–173, which authorized construction of the Yellow Creek Nuclear Plant, Units 1 and 2, located in Tishomingo County, Mississippi. The construction permits are held by the Tennessee Valley Authority (TVA). The lastest construction completion dates in the permits are May 1, 1985 and May 1, 1986, respectively. On August 29, 1984, the Yellow Creek plant was officially cancelled by TVA. By letter dated October 24, 1985, TVA requested that the construction permits for Yellow Creek be withdrawn.

Environmental Assessment

Identification of Proposed Action: The proposed action is to issue an order that would terminate Construction Permit Nos. CPPR–172 and CPPR–173 for the Yellow Creek Nuclear Plant, Units 1 and 2. This action was requested by TVA because it does not plan to complete the plant.

The staff conducted an inspection of the Yellow Creek site on May 21, 1986 to determine, among other things, whether TVA's site stabilization plan, attached to the October 24, 1985 TVA letter, had been satisfactorily completed and to determine whether the site stabilization plan considered all critical site areas. A particular effort was made to inspect areas of the site that could be subject to continued erosion and contribute silt to surface waterbodies. Based on the inspection and its review of the site stabilization plan, the staff has not identified any area at the site that required attention that was not covered in the TVA's stabilization plan. Additionally, the site was found to be adequately stabilized and there were no areas where erosion could lead to detrimental offsite environmental impact.

The staff concludes, based on its review and inspection, that the Yellow Creek site is in an environmentally stable condition.

Need for Proposed Action: TVA has terminated construction of the nuclear power plant. This action by NRC would terminate the construction permits.

Environmental Impacts of the Proposed Action: This is a simple administrative action of terminating the outstanding permits to reflect the fact that there are no longer utilization facilities under construction at the Yellow Creek site and the site has been adequately stabilized.

Alternatives to the Proposed Action and Alternative Use of Resources: This action, for which there are no appropriate alternatives, does not involve the use of and, therefore, will not affect, available resources.

Agencies and Persons Consulted: The NRC staff reviewed TVA's request for termination of the construction permits and conducted the environmental review and inspection of the facility. The NRC did not consult other agencies or persons.

Finding of No Significant Impact

The Commission has determined not to prepare an environmental impact statement for this proposed action. Based upon the foregoing environmental assessment, we conclude that the proposed action will not have a significant effect on the quality of the human environment.

For further details with respect to this action, see the TVA's request for termination of Construction Permit Nos. CPPR–172 and CPPR–173 dated October 24, 1985, and TVA's site stabilization report transmitted by the October 24 letter. These documents regarding the NRC staff's environmental assessment of the proposed action are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, DC 20555. Correspondence concerning this facility will continue to be maintained at this location for at least one year.

Dated at Bethesda, Maryland, this 14th day of December 1987.

For the Nuclear Regulatory Commission.

Gary G. Zech,

Assistant Director for Projects, TVA Projects Division, Office of Special Projects.

[FR Doc. 87–29002 Filed 12–16–87; 8:45 am]

BILLING CODE 7590–01–M

[Docket No. 55–20674]

Christopher D. Gentile, (Senior Reactor Operator License No. 20359); Rescission of Suspension

I

Mr. Christopher D. Gentile (the Licensee) is holder of Senior Reactor Operator License No. 20359 (the License) authorizing Mr. Gentile to operate the controls of nuclear reactor at the Shearon Harris facility (the Facility). The license was issued by the Nuclear Regulatory Commission (NRC or Commission) on December 26, 1985, and is due to expire on December 26, 1987.

II

On November 10, 1987, the NRC issued an "Order Suspending License Effective Immediately" (Order) which suspended Mr. Gentile's License on the basis of the NRC's determination that he had failed a simulator operating examination administered to him by the NRC on February 25, 1987. Mr. Gentile's License was to remain suspended until he successfully completed either an NRC-administered operating test for the Facility or the next annual operating test administered by the Facility licensee (and observed by the NRC) as part of the NRC-approved requalification program. Should the Licensee fail to successfully complete an operating test at the Facility by December 26, 1987, License No. 20359 was to expire. Mr. Gentile requested a hearing with respect to this Order.

III

At the request of Mr. Gentile, the NRC's Executive Director for Operations met with him on November 25, 1987 in Bethesda, Maryland. Mr. Gentile expressed his concern regarding the simulator operating examination administered to him on February 25, 1987 claiming it was neither properly administered nor properly graded. Mr. Gentile argued that the November 10, 1987 Order was not an acceptable mechanism to resolve his concerns as it did not provide for the review of the grading of this examination and possible

BEST COPY AVAILABLE

VOL 52 ISS 242 DEC 17 1987 UMI

expurgation of the failure from his record. Accordingly, Mr. Gentile noted that he had not taken a utility-administered simulator examination in November 1987 as this would have had the effect of making his concern regarding the grading of the February 1987 examination moot. As a consequence, Mr. Gentile has not met the requirements of the Facility licensee's requalification program and, accordingly, cannot file a complete application for license renewal as called for by 10 CFR 55.57. Consequently, Mr. Gentile cannot avail himself of the timely renewal provisions of 10 CFR 55.55(b) and thus his license is due to expire on December 28, 1987.

Although the NRC Staff conducted an indepth review of Mr. Gentile's examination on two separate occasions, one in the Region and one in Headquarters, the Staff acknowledged that Mr. Gentile does not believe that his examination had been fairly and equitably reviewed. Consequently, the following course of conduct was agreed to by all parties at the meeting and during a subsequent phone call on December 8, 1987. The NRC will rescind the November 10, 1987 Order. Mr. Gentile agrees that he will not serve on-shift until he successfully completes a utility-administered simulator operating examination which will be observed by the NRC. He will take such an examination at the earliet possible time. Should he pass such an examination, he may resume licensed duties at the Facility in accordance with the provisions of the Commission's regulations in 10 CFR Part 55. Should he pass this examination, the NRC agrees to issue a letter declaring that the February 25, 1987 simulator operating examination is null and void and noting Mr. Gentile's continuing position that he disputes the results of that examination. Copies of that letter will be sent to the Facility licensee and will be placed in all appropriate agency files pertaining to Mr. Gentile's operator's license.

To assure that Mr. Gentile's License does not expire pending resolution of this matter, I have determined that a specific exemption pursuant to 10 CFR 55.11 is appropriate and has been granted in separate correspondence. Consequently, a renewal application filed by Mr. Gentile which complies with the provisions of 10 CFR 55.57(a)(1), (2), (3), and (6), shall be deemed adequate to satisfy the timely renewal provisions of 10 CFR 55.55(b), if filed on or before December 28, 1987. Mr. Gentile will supplement his renewal application by providing the information called for by 10 CFR 55.57(a)(4) and (5) upon his successful completion of the utility-administered simulator operating examination.

IV

Based upon the above agreed to course of conduct and particularly the Licensee's representation that he will not operate the controls of the facility until he has successfully completed the utility-administered simulator operating examination observed by the NRC, the suspension of the Licensee's senior reactor operator License imposed by the Order on November 10, 1987 is hereby rescinded.

For the Nuclear Regulatory Commission.

Thomas E. Murley,

Director, Office of Nuclear Reactor Regulation.

Dated at Bethesda, Maryland, this 11 day of December, 1987.

[FR Doc. 87-29003 Filed 12-16-87; 8:45 am]

BILLING CODE 7590-01-M

[Docket No. 50-263]

Northern States Power Co., Monticello Nuclear Generating Plant; Exemption

I

The Northern States Power Company (the licensee) is the holder of Facility Operating License No. DPR-22 which authorizes operation of the Monticello Nuclear Generating Plant. The license provides, among other things, that it is subject to all rules, regulations, and Orders of the Nuclear Regulatory Commission (the Commission) now or hereafter in effect.

The facility incorporates a boiling water reactor at the licensee's site located in Wright County, Minnesota.

II

By letter dated August 18, 1987, the licensee requested an exemption from the requirements of 10 CFR 50.62(c)(4), which establishes the minimum injection flow rate and the boron concentration for the standby liquid control system (SLCS).

Specifically, 10 CFR 50.62(c)(4) requires that each boiling water reactor must have a SLCS with minimum flow capacity equivalent in control capacity to 86 gallons per minute (GPM) with a boron concentration of 13 weight percent (w/o) sodium pentaborate. The licensee requests an exemption from this requirement to permit use of a minimum flow rate of 26 GPM and an available sodium pentaborate concentration ranging from 13.7% to 18 w/o depending on the volume in the existing SLCS storage tank. The B10 content of the boron in the dissolved sodium pentaborate solution would be enriched above the natural isotopic composition.

The requirement established by the regulation was intended to provide for prompt injection of negative reactivity into a boiling water reactor pressure vessel in the event of an anticipated transient without scram (ATWS) event. The reactor vessel size used to establish the required flow rate of 86 GPM and the sodium pentaborate concentration of 13 w/o was the large 251-inch diameter vessel used in the BWR/5 and BWR/6 designs. The Monticello reactor has a much smaller 206-inch diameter vessel. For the Monticello reactor a lesser flow rate, following the formula proposed by the licensee, will provide a negative reactivity injection in an ATWS event equivalent to that called for by the regulation for the larger 251-inch diameter boiling water reactor vessel. See Generic Letter 85-03, "Clarification of Equivalent Control Capacity for Standby Liquid Control Systems," January 28, 1985.

III

In this case, the flow rate-boron 10 concentration relationship established by the licensee's formula will provide the equivalent level of control capacity for the smaller Monticello reactor pressure vessel as that called for by the rule based on larger reactor pressure vessels. Requiring Monticello to provide the flow rate-boron 10 concentration capacity specified by the rule is not necessary to provide adequate negative reactivity in the event of an ATWS at Monticello. Thus, the Commission's staff finds that there are special circumstances in this case which satisfy the standards of 10 CFR 50.12(a)(2)(ii). As set forth in the Safety Evaluation of Amendment No. 56, issued concurrently with this Exemption, the staff has determined that operation under the revised Technical Specifications governing flow rate and boron-10 concentration will not endanger public health and safety and will not be inimical to the common defense and security.

IV

Accordingly, the Commission has determined that pursuant to 10 CFR 50.12, an exemption is authorized by law and will not present an undue risk to the public health and safety, and is consistent with the common defense and security, and hereby grants the following exemption with respect to the requirements of paragraph (c)(4) of 10 CFR 50.62.

The licensee may operate the facility with flow rate and boron concentration requirements as set forth in sections 3.4 and 4.4 of the Monticello facility Technical Specifications.

Pursuant to 10 CFR 51.32, the Commission has determined that granting this Exemption will have no significant impact on the environment as documented in the accompanying Environmental Assessment and Finding of No Significant Impact. This Exemption is effective upon issuance.

For the Nuclear Regulatory Commission.

Dennis M. Crutchfield,

Director, Division of Reactor Projects-III, IV, V and Special Projects, Office of Nuclear Reactor Regulation.

Dated at Bethesda, Maryland, this 11th day of December 1987.

BILLING CODE 7590-01-M

OFFICE OF PERSONNEL MANAGMENT

Federal Prevailing Rate Advisory Committee; Open Meeting

According to the provisions of section 10 of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that meetings of the Federal Prevailing Rate Advisory Committee will be held on—

Wednesday, January 13, 1988
Wednesday, January 20, 1988
Wednesday, January 27, 1988

These meetings will start at 10 a.m. and will be held in Room 5A06A, Office of Personnel Management Building, 1900 E Street, NW., Washington, DC.

The Federal Prevailing Rate Advisory Committee is composed of a Chairman, representatives from five labor unions holding exclusive bargaining rights for Federal blue-collar employees, and representatives from five Federal agencies. Entitlement to membership of the Committee is provided for in 5 U.S.C. 5347.

The Committee's primary responsibility is to review the Prevailing Rate System and other matters pertinent to establishing prevailing rates under subchapter IV, chapter 53, 5 U.S.C., as amended, and from time to time advise the Office of Presonnel Management.

These scheduled meetings will start in open session with both labor and management representatives attending. During the meeting either the labor members or the management members may caucus separately with the Chairman to devise strategy and formulate positions. Premature disclosure of the matters discussed in these caucuses would unacceptably impair the abililty of the Committee to reach a consensus on the matters being considered and would disrupt substantially the disposition of its business. Therefore, these caucuses will be closed to the public because of a determination made by the Director of the Office of Personnel Management under the provisions of section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463) and 5 U.S.C. 552b (c)(9)(B). These caucuses may, depending on the issues involved, constitute a substantial portion of the meeting.

Annually, the Committee publishes for the Office of Personnel Management, the President, and Congress a comprehensive report of pay issues discussed, concluded recommendations, and related activities. These reports are available to the public, upon written request to the Committee's Secretary.

The public is invited to submit material in writing to the Chairman of Federal Wage System pay matters felt to be deserving of the Committee's attention. Additional information on these meetings may be obtained by contacting the Committee's Secretary, Office of Personnel Management, Federal Prevailing Rate Advisory Committee, Room 1340, 1900 E Street, NW., Washington, DC 20415 (202) 632-9710.

Thomas E. Anfinson,

Chairman, Federal Prevailing Rate Advisory Committee.

December 10, 1987.

[FR Doc. 87-29010 Filed 12-16-87; 8:45 am]

BILLING CODE 6325-01-M

SECURITIES AND EXCHANGE COMMISSION

[Rel. No. IC-16172; 812-6935]

Cash Reserve Management, Inc. et al.; Application

December 11, 1987.

AGENCY: Securities and Exchange Commission ("SEC").

ACTION: Notice of Application For Exemption Under the Investment Company Act of 1940 (the "1940 Act").

Applicants: Cash Reserve Management, Inc., Municipal Cash Reserve Management, Inc., Hutton Government Fund, Inc., Hutton AMA Cash Fund, Inc., Hutton Investment Series Inc., Hutton VIP Fund, Hutton National Municipal Fund Inc., Hutton California Municipal Fund Inc., Hutton New York Municipal Fund Inc., Hutton Master Series, Hutton Institutional Fund Inc. and Hutton Municipal Series Inc. (the "Investment Companies"), SLBP Acquisition Corp. ("SLBP") and E.F. Hutton & Company Inc. ("E.F. Hutton" or the "Investment Adviser").

Relevant 1940 Act Sections: Exemption requested under section 6(c) from the provisions of section 15(a).

Summary of Applications: Applicants seek an order to permit the implementation without formal shareholder approval of new investment advisory agreements, approved by the Investment Companies' Boards of Directors/Trustees (the "Boards of Directors"), between the Investment Companies and E.F. Hutton, and to permit E.F. Hutton to receive from each Investment Company, subject to shareholder approval, any and all fees earned under the new agreements from the date on which SLBP first acquires more than 25% of the shares of Hutton Group (the "Assignment") until the date the new investment advisory agreements are approved or disapproved by shareholders of each respective Investment Company (the "Interim Period"), which period would be no longer than 120 days.

Filing Date: The application was filed on December 11, 1987.

Hearing or Notification of Hearing: If no hearing is ordered, the application will be granted. Any interested person may request a hearing on the application, or ask to be notified if a hearing is ordered. Any requests must be received by the SEC by 5:30 p.m. on January 4, 1988. Request a hearing in writing, giving the nature of your interest, the reason for the request, and the issues you contest. Serve the Applicants with the request, either personally or by mail, and also send it to the Secretary of the SEC, along with proof of service by affidavit or, for lawyers, by certificate. Request notification of the date of a hearing by writing to the Secretary of the SEC.

ADDRESSES: Secretary, SEC, 450 Fifth Street, NW., Washington, DC 20549. Each of the Investment Companies (except Hutton VIP Fund) and E.F. Hutton & Company Inc.—31 West 52nd Street, New York, New York 10019; Hutton VIP Fund—11011 North Torrey Pines Road, La Jolla, California 92037; SLBP Acquisition Corp.—American Express Tower, World Financial Center, New York, New York 10285.

FOR FURTHER INFORMATION CONTACT: Houghton R. Hallock, Jr., Special Counsel (202) 272-3030 (Division of Investment Management).

SUPPLEMENTARY INFORMATION: Following is a summary of the application; the complete application is

VOL 52 ISS 242 DEC 17 1987 UMI

available for a fee from the SEC's Public Reference Branch in person or the SEC's commercial copier who can be contacted at (800) 231-3282 (in Maryland (301) 258-4300).

Applicants' Representatives

1. Each of the Investment Companies is registered under the 1940 Act as an open-end management investment company and has E.F. Hutton as its investment adviser and distributor. The advisory fees of the Investment Companies range from 0.25% per annum of average daily net assets to 0.90% per annum of average daily net assets. E.F. Hutton is registered as a broker-dealer under the Securities Exchange Act of 1934 and as an investment adviser under the Investment Advisers Act of 1940 (the "Advisers Act"). G.T. Capital Management, Inc. ("G.T. Capital"), an investment adviser registered under the Advisers Act, serves as portfolio manager for three Series of Hutton Invesment Series Inc.: Pacific Series, European Series and Global Series. Hutton Investment Series Inc. and E.F. Hutton have entered into a portfolio management agreement for the Interim Period. SLBP is a wholly-owned subsidiary of Shearson Lehman Brothers Holdings Inc. ("Shearson Holdings"). Shearson Holdings is a majority-owned subsidiary of American Express Company.

2. Shearson Holdings and Hutton Group entered into a definitive Agreement and Plan of Merger (the "Merger Agreement") executed as of December 2, 1987. The Merger Agreement provides that the entire equity interest of Hutton Group would be acquired by SLBP (or by any other direct or indirect wholly-owned subsidiary of Shearson Holdings to which SLBP assigns its rights under the Merger Agreement) pursuant to a tender offer (the "Tender Offer"). The Tender Offer is conditional upon, among other things, approximately 51% of the outstanding shares of common stock of Hutton Group being validly tendered, and not withdrawn, prior to the expiration of the offer. The Tender Offer commenced on December 7, 1987, and is currently scheduled to expire on January 5, 1988.

3. In the event that the Tender Offer is successful, SLBP (or another Shearson Holdings wholly-owned subsidiary) will acquire in excess of 25% of the outstanding voting securities of Hutton Group. It is thus likely that, in the near future, the shares which SLBP will own will represent the largest single holding of shares of Hutton Group. The acquisition of Hutton Group shares may result in an assignment of the existing investment advisory agreements of each of the Investment Companies within the meaning of section 2(a)(4) of the 1940 Act, thus terminating each investment advisory agreement pursuant to its terms.

4. At meetings held by telephone on December 8 and 9, 1987, the Boards of Directors of each of the Investment Companies, including the members who are not "interested persons" of the applicable Investment Comapny as that term is defined inspection 2(a)(19) of the 1940 Act, with the advice and assistance of independent counsel, concluded unanimously that it is in the best interests of each Investment Company and its shareholders to file the application as a necessary step in implementing new advisory agreements during the Interim Period in a manner that would minimize the disruption in advisory services to each Investment Company. The Boards of Directors of the Investment Companies have scheduled in-person meetings during December for the formal consideration of the advisability of entering into new agreements providing for advisory services during the Interim Period. As part of that process, the Boards of Directors, with the advice and assistance of independent counsel, will comply with the requirements of section 15(c) of the 1940 Act.

Conditions

Applicants agree as conditions to the issuance of the exemptive order requested by the application that:

1. The new advisory agreements to be implemented during the Interim Period will have the same terms and conditions as the existing advisory agreements and the new portfolio management agreement to be implemented during the Interim Period will have the same terms and conditions as the existing portfolio management agreement.

2. In considering new advisory agreements to be implemented during the Interim Period, the Boards of Directors, including a majority of members who are not "interested persons" of the Investment Companies, will comply with the requirements of section 15(c) of the 1940 Act. Upon completion of their review, the application will be amended promptly to reflect the Directors' formal conclusions and the bases therefor.

3. Fees earned by E.F. Hutton and by G.T. Capital and paid by an Investment Company during the Interim Period in accordance with the terms of a new advisory agreement or new portfolio management agreement will be maintained in an interest-bearing escrow account, and amounts in the account will be paid to: (a) E.F. Hutton only upon approval by the shareholders of that Investment Company, or (b) in the absence of such approval, to the respective Investment Company.

4. E.F. Hutton will pay the costs of preparing and filing the application and the costs of holding all special meetings of the Investment Companies' shareholders necessitated by the Assignment, including the cost of proxy solicitations. Additionally, E.F. Hutton will pay the incremental costs necessitated by the Assignment in connection with the meetings of Investment Company shareholders which would otherwise be held by the Investment Companies.

5. E.F. Hutton will take all appropriate steps so that the scope and quality of advisory and other services provided to the Investment Companies during the Interim Period will be at least equivalent, in the judgment of the respective Boards of Directors, including a majority of the Directors who are not "interested persons", to the scope and quality of services previously provided. In the event of any material change in personnel providing services pursuant to the advisory agreements, E.F. Hutton will apprise and consult with the Board of Directors of the affected Investment Companies in order to assure that they, include a majority of the Directors who are not "interested persons," are satisfied that the services provided will not be diminished in scope or quality.

Applicants' Legal Conclusions

The requested order is necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the 1940 Act for the following reasons:

1. Based on a number of factors, the Board of Directors of Hutton Group decided to pursue alternatives to maximize shareholder value. The Board's actions led to the Merger Agreement. Due to the broad public ownership of Hutton Group shares, the Tender Offer is the most efficient means as the first step to consummating the transaction. Because completion of the Tender Offer might be deemed to cause an assignment, and hence the termination, of the Investment Companies' existing investment advisory agreements, the Boards of Directors of the Investment Companies were required by the circumstances to consider appropriate actions in the best interests of the Investment Companies and their shareholders. The Boards determined, on a preliminary basis, that continuation of the existing advisory, distribution and operational arrangements is in the best interests of each of the Investment Companies and their shareholders and resolved to file the application.

2. It is not possible for the Investment Companies to obtain shareholder approval of new advisory agreements in accordance with section 15(a) of the 1940 Act prior to the Assignment. The Investment Companies had no advance notice of the proposed transaction. Shareholders' meetings require the preparation and clearance of proxy materials, as well as a sufficient solicitation period to obtain the requisite quorum. Although the Investment Companies are currently preparing these materials as expeditiously as possible, holding a special meeting of shareholders before the Assignment would be impossible as there would not be an adequate solicitation period to reasonably assure a quorum of shareholders present at the meeting.

3. There will be no diminution in the scope and quality of services provided to the Investment Companies. Applicants state that new advisory agreements to be implemented during the Interim Period will have the same terms and conditions as the existing agreements. Accordingly, each Investment Company will receive, during the Interim Period, the same investment advisory services, provided in the same manner and at the same fee levels, by essentially the same personnel as it received prior to the Assignment.

4. Applicants believe that the granting of the requested exemption would be within the spirt of Rule 15a-4 under the 1940 Act. The Commission's release proposing Rule 15a-4 suggests that where an assignment is foreseeable, the policy of the 1940 Act that shareholder approval be obtained prior to entering into an investment advisory relationship should not be thwarted by providing an exemption from section 15(a) of the 1940 Act, because in such a case, it would be reasonably practicable to obtain shareholder approval. Applicants submit that the situation at hand is similar to other types of assignments that are unforeseeable. The extremely rapid culmination of the Shearson Holdings-Hutton Group negotiations did not present, and the form of transaction deemed most appropriate by Shearson Holdings and Hutton Group did not permit, an opportunity to secure prior approval of new advisory agreements by shareholders of the Investment Companies.

5. Applicants submit that to deprive E.F. Hutton of its customary fees for the Interim Period for no reason other than the fact that the Tender Offer may technically result in an assignment of the Investment Companies' existing investment advisory agreements, would be a harsh result and an unreasonable penalty to attach to the transaction.

6. The Commission has previously granted exemptive relief substantially similar to that requested by the Applicants.

For the Commission, by the Division of Investment Management, under delegated authority.

Jonathan G. Katz,

Secretary.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Loan Area No. 2296]

Mississippi; Declaration of Disaster Loan Area

Warren County and the adjacent County of Hinds in the State of Mississippi constitute a disaster area because of damage from tornadoes and flooding which occurred on November 16, 1987. Applications for loans for physical damage may be filed until the close of business on February 9, 1988, and for economic injury until the close of business on September 12, 1988, at the address listed below:

Disaster Area 2 Office,
Small Business Administration,
120 Ralph McGill Blvd., 14th Fl.,
Atlanta, Georgia 30308

or other locally announced locations.

The interest rates are:

Homeowners With Credit Available Elsewhere	8.000%
Homeowners Without Credit Available Elsewhere	4.000%
Businesses With Credit Available Elsewhere	8.000%
Businesses Without Credit Available Elsewhere	4.000%
Businesses (EIDL) Without Credit Available Elsewhere	4.000%
Other (Non-Profit Organizations Including Charitable and Religious Organizations)	9.000%

The number assigned to this disaster is 229812 for physical damage and for economic injury the number is 658000.

(Catalog of Federal Domestic Assistance Programs Nos. 59002 and 59008).

Date: December 11, 1987.

James Abdnor,

Administrator.

DEPARTMENT OF STATE

[Public Notice CM-8/1142]

Advisory Committee on International Investment, Technology, and Development; Meeting

The Department of State will hold a meeting of the Advisory Committee on International Investment, Technology and Development on January 14, 1988 from 9:00 a.m. to 1:00 p.m. The meeting will be held in Conference Room 1107 of the Department of State, 2201 "C" Street, NW, Washington, DC 20520.

The agenda and approximate times topics will be discussed are below:

—9:00 Review of agenda and introduction of first speaker.

Professor Isaiah Frank, Johns Hopkins School for Advanced International Studies.

—9:05 Welcoming remarks.

Alan Larson, Acting Assistant Secretary of State, Economic and Business Affairs.

—9:20 Review of new draft of Code of Conduct on Transnational Corporations.

William Milam, Deputy Assistant Secretary of State, Economic and Business Affairs.

Followed by questions and comments by committee members.

—9:50 Discussion of investment questions at the OECD Committee on Investment and Multinational Enterprises.

Marilyn Meyers, Director, Office of Investment Affairs.

Followed by questions and comments by committee members.

—10:20 Coffee Break.

—10:40 Review of the negotiations on Trade Related Investment Measures at the Uruguay Round talks in Geneva.

Robert Cornell, Deputy Assistant Secretary, Department of the Treasury.

Followed by questions and comments by committee members.

—11:20 Explanation of the Investment Chapter of the U.S.-Canada Free Trade Agreement.

Robert Cornell—The negotiator of that chapter.

—11:40 A businessman's view of the FTA. Jules Katz, Government Research, Inc.

Followed by comments and questions by the members.

—12:00 A presentation on debt-equity swaps.

VOL 52 ISS 242 DEC 17 1987 UMI

L. Thomas Block, Senior Vice President, Chemical Bank.

Followed by questions and comment from the members.

—12:30 Discussion of topics for consideration at future meetings.

Marilyn Meyers.

—1:00 Meeting closes.

Access to the Department of State is controlled. Therefore, members of the public wishing to attend the meeting must contact the Office of Investment Affairs (202) 647–2585 in order to arrange admittance. Please use the "C" Street entrance.

December 9, 1987.

Robert C. Reis, Jr.,

Executive Secretary.

Legal Panel on International Telecommunications Law of the U.S. Organization for the International Telegraph and Telephone Consultative Committee and International Radio Consultative Committee; Meeting

The Department of State announces the fourth meeting of the Panel on International Telecommunications Law, which is under the auspices and authority of the U.S. Organization for the International Telegraph and Telephone Consultative Committee (CCITT) and International Radio Consultative Committee (CCIR). The Panel's meeting will convene on Thursday, January 14, 1988 in Room 1107, Department of State, 2201 C Street, NW., Washington, DC.

The meeting will begin at 3:00 p.m. Items to be discussed will include:

1. ITU Draft Constitution
2. Briefings on major upcoming ITU conferences
3. Announcement of new agenda items
4. Future work of the Panel

Members of the general public may attend the meeting and join in the discussion. Admittance of public members will be limited to the seating available. In that regard, entrance to the Department of State building is controlled and entry will be facilitated if arrangements are made in advance of the meeting. Prior to the meeting, persons who plan to attend should so advise the office of the Deputy U.S. Coordinator for International Communications and Information Policy, Mr. Thomas J. Ramsey, State Department, Washington, DC.; telephone (202) 647–5832. All attendees must use the C Street entrance to the building.

Date: December 10, 1987.

Earl S. Barbely,

Chairman, U.S. CCITT National Committee.

Richard E. Shrum,

Chairman, U.S. CCIR National Committee.

Overseas Schools Advisory Council; Meeting

The Overseas Schools Advisory Council, Department of State, will hold its Executive Committee meeting on Tuesday, January 19, 1988, at 9:30 a.m. in Conference Room 1205, Department of State Building, 2201 C Street, NW., Washington, DC. The meeting is open to the public.

Agenda items scheduled for discussion are as follows:

I. Council programs of education assistance
   (a) Final report of 1986 program and initial program report on 1987 program
   (b) Council's efforts in securing contributions for 1987 program
   (c) Recommendations of council's evaluation committee regarding projects submitted by regional overseas schools associations for 1988 program
   (d) Report of the subcommittee to increase the participation of U.S. corporations and foundations in council program
II. Highlights of forthcoming Carnegie report on urban education
III. Initial results of surveys regarding schools fund raising drives and activities of overseas schools regional associations
IV. Council communication with U.S. corporations and foundations
V. Selection of date of council's annual meeting

Access to the State Department is controlled. Members of the public desiring to attend the meeting may write to the Overseas Schools Advisory Council, Department of State, Room 234, SA–6, Washington, DC 20520 or telephone Ms. Joyce Bruce on area code 703–875–6220, prior to January 19. The public may participate in discussions at the Chairman's instructions.

Date: December 8, 1987.

Ernest N. Mannino,

Executive Secretary, Overseas Schools Advisory Council.

BILLING CODE 4710–24–M

TENNESSEE VALLEY AUTHORITY

Paperwork Reduction Act of 1980, as Amended by Pub. L. 99–591; Information Collection Under Review by the Office of Management and Budget (OMB)

AGENCY: Tennessee Valley Authority.

ACTION: Information Collection Under Review by the Office of Management and Budget (OMB).

SUMMARY: The Tennessee Valley Authority (TVA) has sent to OMB the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 35), as amended by Pub. L. 99–591.

Requests for information, including copies of the information collection proposed and supporting documentation, should be directed to the Agency Clearance Officer whose name, address, and telephone number appear below. Questions or comments should be directed to the Agency Clearance Officer and also to the Desk Officer for the Tennessee Valley Authority, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503; Telephone: (202) 395–3084.

Agency Clearance Officer: Mark R. Winter, Tennessee Valley Authority, 100 Lupton Building, Chattanooga, TN 37401; (615) 751–2523.

Type of Request: Regular submission.

Title of Information Collection: 1988 Interim Residential Survey: Customers of Municipal and Cooperative Distributors of TVA Power.

Frequency of Use: On occasion.

Type of Affected Public: Individuals or households.

Small Businesses or Organizations Affected: No.

Federal Budget Functional Category Code: 271.

Estimated Number of Annual Responses: 5,820.

Estimated Total Annual Burden Hours: 1,928.

Need For and Use of Information: The 1988 Interim Residential survey will provide information about how the residential customers served by the municipal and cooperative distributors of TVA power use electricity. This information is required for load forecasting and program planning by several different organizations within TVA.

John W. Thompson,

Manager of Corporate Services, Senior Agency Official.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD1–87–089]

New York Harbor Traffic Management Advisory Committee; Meeting

AGENCY: Coast Guard, DOT.

ACTION: Notice of meeting.

SUMMARY: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463; 5 U.S.C. App. I), notice is hereby given of a meeting of the New York Harbor Traffic Management Advisory Committee to be held on January 7, 1988, in the Conference Room, second floor, U.S. Coast Guard Marine Inspection Office, Battery Park, New York, New York, beginning at 10:00 a.m.

The agenda for this meeting of the New York Harbor Traffic Management Advisory Committee is as follows:

1. Introductions.
2. Vessel Traffic Service New York update.
3. VTS Long-term System Improvement options.
4. Projected Cross-Hudson ferry route—Presentation.
5. Update Kill Van Kull/Newark Bay Dredging Project.
6. Bridge Administration—Issues and Trends.
7. Topics from the floor.
8. Review of agenda topics and selection of date for next meeting.

The New York Harbor Traffic Management Advisory Committee has been established by Commander, First Coast Guard District to provide information, consultation, and advice with regard to port development, maritime trade, port traffic, and other maritime interests in the harbor. Members of the Committee serve voluntarily without compensation from the Federal Government.

Attendance is open to the interested public. With advance notice to the Chairperson, members of the public may make oral statements at the meeting. Persons wishing to present oral statements should so notify the Executive Director no later than the day before the meeting. Any member of the public may present a written statement to the Committee at any time.

FOR FURTHER INFORMATION CONTACT: Commander W. Young, USCG, Executive Secretary, NY Harbor Traffic Management Advisory Committee, New York Vessel Traffic Service, Governors Island, New York, NY 10004; or by calling (212) 668–7954.

Dated: December 8, 1987.

R.L. Johanson,

Rear Admiral, U.S. Coast Guard Commander, First Coast Guard District.

DEPARTMENT OF THE TREASURY

Reestablishment of the Advisory Committee for the Preservation of the Treasury Building

The Department of the Treasury, pursuant to the Federal Advisory Committee Act of October 6, 1972, Pub. L. 92–463, as amended, and with the approval of the Secretary of the Treasury, announces the reestablishment of the Advisory Committee for the Preservation of the Treasury Building.

The primary purpose of the committee is to consult with and advise the Secretary of the Treasury and his staff upon request regarding various rehabilitation projects in the Main Treasury Building. The committee will also undertake active solicitation to raise funds to help finance some of these important undertakings as well as to encourage donors to contribute works of art and furnishings of historic importance to the Department of the Treasury.

In accordance with the Federal Advisory Committee Act, Pub. L. 92–463, the Department of the Treasury has reestablished the Advisory Committee for the Preservation of the Treasury Building for a one-year period.

John F.W. Rogers,

Assistant Secretary of the Treasury (Management).

49 CFR Part 24

[FHWA Docket No. 87-22]

Uniform Relocation Assistance and Real Property Acquisition Regulation for Federal and Federally Assisted Programs

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Interim final rule; request for comments.

SUMMARY: This regulation incorporates certain statutory amendments to the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (the Uniform Act) occasioned by passage of Title IV of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (1987 Amendments), Pub. L. 100-17, 101 Stat. 246. The interim rule addresses only those amendments upon which the law is explicit and allows little, if any, administrative discretion or interpretation and for which a period of public notice and comment would be impractical. For the easy reference of the reader, the unchanged provisions of the existing regulation are reprinted in their entirety in order to present a complete regulation at a single source. Other changes made in the Uniform Act will require the development or modification of specific criteria which will be the subject of public notice and comment at a later date.

The immediate objective of today's interim final rule action is to provide implementing regulations for those Federal and State agencies that are currently able to allow payment of certain specified benefits as established by the 1987 Amendments for persons displaced on or after April 2, 1987.

DATES: The provisions of this interim final rule are effective December 17, 1987. For further information about implementation dates, see the discussion in the supplementary information section below. Comments must be received on or before February 16, 1988.

ADDRESS: Submit signed, written comments, preferably in triplicate, to FHWA Docket No. 87-22, Federal Highway Administration, Room 4205, HCC-10, 400 Seventh Street, SW., Washington, DC 20590. All comments received will be available for examination at the above address between 8:30 a.m. and 3:30 p.m., Monday through Friday, except legal holidays. Those desiring notification of receipt of comments must include a self-addressed, stamped postcard.

FOR FURTHER INFORMATION CONTACT: Barbara Reichart, Director, Office of Right-of-Way, HRW 1, (202) 366-0116; or Reid Alsop, Office of the Chief Counsel, HCC-40, (202) 366-1371. The address is Federal Highway Administration, 400 Seventh Street, SW., Washington, DC 20590. For specific program information, see individual agency submissions published elsewhere in this issue of the **Federal Register**.

SUPPLEMENTARY INFORMATION:

Background

In 1981, for the Vice President's Presidential Task Force on Regulatory Relief, State and local governments identified the Uniform Act as a good candidate for State and local regulatory relief. Therefore, in May 1982, the Office of Management and Budget (OMB) formed a Uniform Act Interagency Regulatory Review Working Group to develop uniform regulations to be implemented by each covered agency for the Uniform Act. On February 27, 1985, a Presidential Memorandum was signed and published in the **Federal Register** on March 5, 1985 (50 FR 8953), naming the Department of Transportation (DOT) as the agency with lead responsibility for the Uniform Act. The Secretary of the Department of Transportation delegated this responsibility to the Federal Highway Administration. On March 5, 1985 (50 FR 8953), DOT published in the **Federal Register** a model Uniform Act rule, which (in accordance with the President's February 27, 1985 memorandum) served as the basis for a proposed common Uniform Act rule for the 16 other affected agencies (50 FR 8955). The proposed common rule was issued for comment by those 16 agencies on May 28, 1985. After consideration of comments, the disparate regulations of all affected agencies were superseded by the common rule which was published as a final rule on February 27, 1986 (51 FR 7000). This common rulemaking effort, applicable to both direct Federal programs and projects and federally-assisted programs and projects undertaken by State or local agencies, achieved consistency in regulations among the separate Federal agencies. To a significant extent, this common rulemaking effort presaged many of the statutory changes to the Uniform Act made by the 1987 Amendments. In the administrative area, for example, the Amendments specifically designate the DOT as lead agency and require it, in coordination with other Federal agencies, to issue rules, establish procedures and make interpretations to implement provisions of the Uniform Act. In the substantive area, with the major exception of payment levels or criteria that were set by statute, the common rulemaking effort granted greater flexibility and discretion to State and local agencies, a theme reiterated in the 1987 Amendments.

On Tuesday, May 19, 1987 (52 FR 18768) the FHWA issued a Notice describing significant changes in the law and general plans to implement those changes. On Tuesday, December 1, 1987 (52 FR 45667) the FHWA issued a Notice of Regulatory Intent giving further notice of the specific regulatory actions that it and the other affected Federal agencies will take to implement the 1987 Amendments and the reasons for issuing this interim final rule. This interim final rule is intended to assist those Federal and State agencies that are now willing and able to implement the non-controversial provisions of the 1987 Amendments, which are described below. This interim final rule will be followed by a notice of proposed rulemaking (NPRM), that will seek comments on implementing all provisions of the 1987 Amendments. The NPRM will be followed by a final rule that will replace this interim final rule prior to the date the 1987 Amendments become mandatory, which is on or before April 2, 1989.

Implementation Dates

An implementation date prior to December 17, 1987, may be established by a Federal agency for some or all of its programs. However, it must be applied so that displacees in like circumstances are treated in a uniform and consistent manner. Such date shall not be prior to April 2, 1987, the date of enactment of the 1987 Amendments. For Department of Transportation (DOT) direct Federal projects, displacing agencies may elect to apply this regulation to any person displaced after April 2, 1987. For DOT federally-assisted programs or projects, displacing agencies that lack authority under current State law to comply with the interim final rule shall continue to comply with 49 CFR Part 25 until such authority is obtained. Part 25 will be rescinded on April 2, 1989, by the separate DOT regulatory action published elsewhere in this issue of the **Federal Register**.

changes in the statutory payment limits made by the 1987 Amendments. For the reader's easy reference, the location of these nondiscretionary changes are simply identified below, by subpart, without further discussion. To better enable agencies to relate interim final rule changes to the existing common rule, subpart, section and paragraph references in this preamble are cited in generic form, i.e., a simple dash has been substituted for the CFR part number. Where a nondiscretionary change has *not* been made or a change of another nature has been made, these actions are discussed. There are no changes at this time in Subparts B and C.

Subpart A—General

Section 24.1 Purpose.

A new paragraph (c) has been added to refer specifically to the 1987 Amendments which are being promulgated in the interim final rule. This language will simply help to distinguish the interim final rule from the earlier common rule during this transition period.

Section 24.2 Definitions.

In paragraph 24.2(c)(6)(iii) the dollar amounts have been changed to reflect the new statutory limits for payments under the cited sections.

Subpart D—Payment for Moving and Related Expenses

Section 24.302 Fixed payment for moving expenses—residential moves.

For eligible residential displacees who elect to be reimbursed on the basis of a payment schedule as an alternative to reimbursement for actual moving and related expenses, the 1987 Amendments eliminated the ceiling that had been set for the moving expense payment and the fixed amount for a dislocation allowance. Instead, "an expense and dislocation allowance" has been authorized, in accordance with a schedule established by the lead agency. Historically, the moving expense allowance had been established by each state and then approved and published in the **Federal Register** annually by the Federal Highway Administration. This schedule became the basis for all such alternative payments by other Federal agencies. FHWA intends to develop the schedule from data provided by the State highway agencies as in the past and then publish the schedule as a notice in the **Federal Register**. The current fixed payment schedule was published as a Notice in the **Federal Register** on December 30, 1986 (51 FR 47097) and will remain in effect until April 2, 1989 for those State and local Federal-aid grant recipients that lack authority to comply with the 1987 Amendments or are not required to do so under this interim final rule.

The interim final rule contains language to reflect the statutory elimination of set amounts and to establish the basis for a revised schedule for such moves. The methodology States will use to develop data for the revised schedule will be similar to that used in the past, while at the same time allowing States to take into consideration geographic variables that may affect moving expenses. The schedule is expected to reflect a logical relationship between the eligible expenses to be covered by the dislocation allowance and the probability that such expenses will be incurred by the displaced person or household instead of a fixed amount payable equally to all residential displacements.

Section 24.304 Fixed payment for moving expenses nonresidential moves.

In paragraphs 24.304(a) and 24.304(c) the dollar amounts have been changed to reflect the new statutory minimum and maximum payments. An eligible displaced business retains the option of receiving a payment for actual moving and related expenses so that the change in the new minimum payment level does not reduce the displacee's financial protection under the law. In paragraph 24.304(d), the amount of payment an eligible displaced nonprofit organization may receive has not been changed.

The 1987 Amendments provide an opportunity to review and revise, if necessary, the criteria to be met in determining eligibility for, and the amount of, an "in lieu of moving" payment as an alternative business allowance. As any significant change to the current criteria should be subject to public notice and comment, such changes are not being included in the interim final rule. As the amount of payment for a nonprofit organization is really a product of the current criteria, there is no strong basis for arbitrarily setting a different amount, such as the new statutory minimum, until the feasibility of criteria for payment to such businesses is adequately explored. To apply the new minimum, which could be interpreted as a reduction in benefits, without a corresponding analysis of alternative payment criteria could result in inconsistent treatment of displacees in otherwise similar circumstances. While the entire subject of criteria for all affected displacees under this section will be dealt with in the forthcoming notice of proposed rulemaking, early comments will be accepted on all criteria but are especially invited on the question of criteria for nonprofit organizations.

Subpart E—Replacement Housing Payments

Section 24.401 Replacement housing payment for 180-day homeowner—occupants.

In paragraph 24.401(b) the dollar amount has been changed to reflect the new statutory limit for this payment. A new sentence has been added to reflect the changed time limit imposed on payments computed under this section by section 408 of the 1987 Amendments.

Additional language has been included in paragraph 24.401(d) to allow displacing agencies to use an alternative method to determine increased mortgage interest costs. The alternative approach, or "buydown" method, was previously acceptable only for use in computing such costs under the Last Resort Housing provisions in § 24.602 because the method of computing such costs under section 203 of the Uniform Act was set by statute. The 1987 Amendments have now eliminated the statutory "annuity" formula. FHWA has included the "buydown" method in the interim final rule for displacing agencies to elect to use as an alternative for all such computations. Although its application has been widespread in Last Resort Housing situations, some agencies may not be familiar with it nor has it been subject to general notice and comment. As the Congress recognized when it amended section 203 of the Uniform Act, it will be necessary to modify the "annuity" method in order to avoid or reduce "windfall" or unwarranted payments during periods of inflation and high mortgage interest rates. For these reasons, the "buydown" method is included at this time only as a permitted alternative and early comments are invited on it or other possible alternative procedures for computing such costs.

In paragraph 24.401(f) the dollar amount has been changed to reflect the new statutory limit for payment under the cited section.

Section 24.402 Replacement housing payment for 90-day occupants.

In paragraph 24.402(a) the dollar amount has been changed to reflect the new statutory limit for this payment.

In paragraph 24.402(b)(1), the dollar amount and the computation factor have been changed to reflect the new statutory limit for the amount and the time period for financial assistance. The

statement in the law that the computation of a payment under this paragraph to a low-income displaced person shall take into account such person's income is not being specifically addressed in the interim final rule because this statement requires administrative interpretation and any changes in the method of computation is properly subject to public notice and comment. As a practical matter, the current last resort housing provision offers some protection to such displacees.

Paragraph 24.402(c)(1) dealing with the amount of a downpayment has been rewritten to reflect the new statutory limit for such payments and to remove the matching requirement which was eliminated by the 1987 Amendments. This paragraph also sets forth the change under which downpayment assistance may be based on the cost of renting a comparable replacement dwelling.

Also, the language formerly found in paragraph 24.402(c)(2) has been rewritten and placed in Appendix A at 24.402(c). Numbered paragraph 24.402(c)(3), application of payment, has been changed to 24.402(c)(2).

Section 24.403 Additional rules governing replacement housing payments.

In paragraph 24.403(b) the dollar amounts have been changed to reflect the new statutory limits for payments under the cited sections.

Subpart F—Mobile Homes

In §§ 24.503, 24.504 and 24.505(a) the dollar amounts have been changed to reflect the new statutory limits for payment under the cited sections.

Subpart G—Last Resort Housing

Section 24.601(b) Basic rights of persons to be displaced.

For clarity, a sentence has been added at the end of this paragraph to reflect the time limit imposed on payments computed under § 24.401 by section 406 of the 1987 Amendments. This sentence is essentially identical to the sentence added at § 24.401(b) for the same reason.

Appendix A—Additional Information

Section 24.402 Replacement housing payment for 90-day occupants.

The discussion in § 24.402 has been expanded to include the intent of the downpayment assistance provision and guidance on the prudent application of agency discretion.

Section 24.602 Methods of providing replacement housing.

The paragraph permitting the use of the "buydown" method in computing an increased mortgage interest payment has been eliminated as that method has been included as an acceptable alternative method in § 24.401.

Appendix B—Statistical Report Form

In the instructions for completing line 13 of the form, the dollar amounts in the example have been changed to reflect the new statutory limit for the section 204 of the Uniform Act portion of the payment used in the example.

Future Steps

In establishing a Federal lead agency, the 1987 Amendments built upon the earlier governmentwide common rule effort by the Executive Branch which achieved consistency among the almost 20 Federal departments and agencies that are affected by the Uniform Act. However, without specific statutory authority to develop and publish a governmentwide single rule, this earlier effort required each affected Federal agency to take separate, albeit simultaneous, verbatim rulemaking actions. The 1987 Amendments now provide the authority to streamline this process and to have a governmentwide single rule published at a single location in the CFR which is applicable to all Federal programs. The intent of Congress, that "the lead agency rules should provide sufficient direction to preclude the need for the issuance of regulations by other Federal agencies" (H.R. Rep. No. 99–665, 99th Cong., 2d Sess. 92 (1986)), should minimize the burden on State and local agencies. Congress recognized that actual implementation of the 1987 Amendments would probably require a phase-in period to allow for conforming action by State legislatures, if necessary, for federally-assisted programs and therefore set a statutory effective date of no later than April 2, 1989.

It is recognized that many non-Federal agencies whose activities are covered by the Uniform Act will be unable to comply with the 1987 Amendments. This is the reason that the 1987 Amendments in section 418 provided for delay in their effective date. Displacing agencies that are unable to comply with this interim final rule should continue to comply with the provisions of the common Uniform Act rule published on February 27, 1986 (51 FR 7000). The governmentwide common rule will remain in effect, for programs providing Federal financial assistance to displacing agencies, until the date, on or before April 2, 1989, that the 1987 Amendments become mandatory. Displacing agencies that currently are unable to comply with the new provisions added by this interim final rule are encouraged to comply with this interim final rule or with the final rule that will succeed it as soon as they are able to do so. The FHWA has prepared model State enabling legislation that is designed to permit full compliance with the Uniform Act, as amended. Copies are available from the contacts for further information, listed above.

The assurances provision of this interim final rule at § 24.4 has not been changed. The implementation of this provision as to specific programs or projects is entirely the responsibility of the Federal funding agency involved. However, the use of this provision by the Federal funding agency is encouraged to determine which of its grantee agencies are proceeding under the provisions of this interim final rule.

Many States and Federal agencies administering direct Federal activities already have the necessary statutory authority and are eager to implement the 1987 Amendments. This interim final rule permits them to do so. Further, many Federal agencies are able to move toward the single-rule streamlined process now and have done so by rescinding their agency-specific rule and cross referencing today's interim final rule as the governing regulation for their programs as described in the 17-agency common rule published elsewhere in today's **Federal Register**. Other agencies will take this action at a later date but not later than April 2, 1989.

There are several other specific changes in the Uniform Act made by the 1987 Amendments that will be proposed in a notice of proposed rulemaking to be published after the start of the new year. Comments on that rulemaking will be solicited and incorporated into the final Uniform Act regulation.

Regulatory Impact

The FHWA has determined that this action does not constitute a major rule under Executive Order 12291 or a significant rule under the regulatory policies and procedures of the Department of Transportation.

The FHWA believes that circumstances warrant the issuance of this rulemaking action without notice or an opportunity for prior public comment. As previously stated, the statutory amendments that are incorporated in this rulemaking action address specific and fixed relocation costs and benefits. The statutory payment limits authorized by the 1987 Amendments are explicit and require little, if any, administrative interpretation or discretion. For this reason, a period for public comment is unnecessary.

Many States and Federal agencies administering direct Federal activities currently have the necessary statutory authority to implement certain provisions of the 1987 Amendments. To delay the promulgation of the amendments contained in this rulemaking action would deprive many parties from receiving what they are entitled to under the law.

For the foregoing reasons, the FHWA finds good cause to make this regulation effective without prior notice or opportunity for comment and without a 30-day delay in effective date under the Administrative Procedure Act, 5 U.S.C. 553 (b) and (d). Accordingly, the provisions that are contained in this rulemaking action are effective as provided by the section entitled "Dates."

While the FHWA does not anticipate that there will be any substantive public comment on the general issue of the statutory provisions themselves, there may be some procedural comments on the provisions contained in this interim final rule. For this reason, publication of this interim final rule without an opportunity for prior comment, but with a request for comments following publication is consistent with the Department of Transportation's regulatory policies. Any comments that are submitted specifically to this docket will be fully considered in determining the need for future revisions in conjunction with a notice of proposed rulemaking (NPRM) which will be published separately at a later date and which will address several other provisions mandated by the 1987 Amendments.

The economic impacts of this rulemaking that will occur are primarily mandated by the statutory provisions themselves. For this reason, a full regulatory evaluation is not required. Based on information available to FHWA at this time and under the criteria of the Regulatory Flexibility Act, the FHWA hereby certifies that this action will not have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act Requirements

Today's rulemaking does not affect any of the sections that contain paperwork requirements subject to review by OMB under Pub. L. 96–511, the Paperwork Reduction Act of 1980. These sections are §§ 24.102(e), 24.103(b), 24.104(c), 24.203(a), 24.203(c), 24.205(b), 24.207(g), and 24.303(b). It remains the responsibility of each affected Federal agency to obtain program-specific OMB approval for reporting requirements contained in this rule.

In consideration of the foregoing, the FHWA hereby amends title 49, Code of Federal Regulations, Subtitle A, by adding Part 24 as set forth below.

List of Subjects in 49 CFR Part 24

Real property acquisition, Relocation assistance, Reporting and recordkeeping requirements, Transportation.

Issued on: December 11, 1987.

R.A. Barnhart,

Federal Highway Administrator, Federal Highway Administration.

PART 24—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

Subpart A—General

Sec.
24.1 Purpose.
24.2 Definitions.
24.3 No duplication of payments.
24.4 Assurances, monitoring and corrective action.
24.5 Manner of notices.
24.6 Administration of jointly-funded projects.
24.7 Federal agency waiver of regulations.
24.8 Compliance with other laws and regulations.
24.9 Recordkeeping and reports.
24.10 Appeals.

Subpart B—Real Property Acquisition

24.101 Applicability of acquisition requirements.
24.102 Basic acquisition policies.
24.103 Criteria for appraisals.
24.104 Review of appraisals.
24.105 Acquisition of tenant-owned improvements.
24.106 Expenses incidental to transfer of title to the agency.
24.107 Certain litigation expenses.
24.108 Donations.

Subpart C—General Relocation Requirements

24.201 Purpose.
24.202 Applicability.
24.203 Relocation notices.
24.204 Availability of comparable replacement dwelling before displacement.
24.205 Relocation assistance advisory services.
24.206 Eviction for cause.
24.207 General requirements— claims for relocation payments.
24.208 Relocation payments not considered as income.

Subpart D—Payments for Moving and Related Expenses

24.301 Payment for actual reasonable moving and related expenses—residential moves.
24.302 Fixed payment for moving expenses—residential moves.
24.303 Payment for actual reasonable moving and related expenses—nonresidential moves.
24.304 Fixed payment for moving expenses— nonresidential moves.
24.305 Ineligible moving and related expenses.

Subpart E—Replacement Housing Payments

24.401 Replacement housing payment for 180-day homeowner-occupants.
24.402 Replacement housing payment for 90-day occupants.
24.403 Additional rules governing replacement housing payments.

Subpart F—Mobile Homes

24.501 Applicability.
24.502 Moving and related expenses—mobile homes.
24.503 Replacement housing payment for 180-day mobile homeowner-occupants.
24.504 Replacement housing payment for 90-day mobile home occupants.
24.505 Additional rules governing relocation payments to mobile home occupants.

Subpart G—Last Resort Housing

24.601 Applicability.
24.602 Methods of providing replacement housing.

Appendix A to Part 24—Additional Information

Appendix B to Part 24—Statistical Report Form

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100–17, 101 Stat. 246–256 (42 U.S.C. 4601 note); and 49 CFR 1.48(dd).

Subpart A—General

§ 24.1 Purpose.

The purpose of this part is to promulgate rules to implement the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (42 U.S.C. 4601 *et seq.*), in accordance with the following objectives:

(a) To ensure that owners of real property to be acquired for Federal and federally-assisted projects are treated fairly and consistently, to encourage and expedite acquisition by agreements with such owners, to minimize litigation and relieve congestion in the courts, and to promote public confidence in Federal and federally-assisted land acquisition programs; and

(b) To ensure that persons displaced as a result of Federal or federally-assisted projects are treated fairly, consistently, and equitably so that such persons will not suffer disproportionate

injuries as a result of projects designed for the benefit of the public as a whole; and

(c) To implement those provisions of the Uniform Relocation Act Amendments of 1987 (Title IV of the Surface Transportation and Uniform Relocation Assistance Act of 1987, Pub. L. 100-17, 101 Stat. 246) that are explicit and are not subject to administrative discretion or interpretation.

§ 24.2 Definitions.

(a) *Agency.* The term "Agency" means the Federal agency, State or State agency which acquires the real property or displaces a person (see § 24.2(f)).

(b) *Business.* The term "business" means any lawful activity, except a farm operation, that is conducted:

(1) Primarily for the purchase, sale, lease, and/or rental of personal and/or real property, and/or for the manufacture, processing, and/or marketing of products, commodities, and/or any other personal property; or

(2) Primarily for the sale of services to the public; or

(3) Solely for the purpose of § 24.303, conducted primarily for outdoor advertising display purposes, when the display must be moved as a result of the project; or

(4) By a nonprofit organization that has established its nonprofit status under applicable Federal or State law.

(c) *Comparable replacement dwelling.* The term "comparable replacement dwelling" means a dwelling which is:

(1) Decent, safe, and sanitary as described in § 24.2(e).

(2) Functionally similar to the displacement dwelling with particular attention to the number of rooms and living space. (See Appendix A of this part.)

(3) In an area that is not subject to unreasonable adverse environmental conditions, is not generally less desirable than the location of the displaced person's dwelling with respect to public utilities and commercial and public facilities, and is reasonably accessible to the person's place of employment.

(4) On a site that is typical in size for residential development with normal site improvements, including customary landscaping. The site need not include special improvements such as outbuildings, swimming pools, or greenhouses. (See also § 24.403(a)(2).)

(5) Currently available to the displaced person on the private market. However, a comparable replacement dwelling for a person receiving government housing assistance before displacement may reflect similar government housing assistance. (See Appendix A of this part.)

(6) Within the financial means of the displaced person.

(i) A replacement dwelling purchased by a homeowner in occupancy for at least 180 days prior to initiation of negotiations (180-day homeowner) is considered to be within the homeowner's financial means if the homeowner is paid the full price differential as described at § 24.401(c), all increased mortgage interest costs as described at § 24.401(d) and all incidental expenses as described at § 24.401(e).

(ii) A replacement dwelling rented by a displaced person is considered to be within his or her financial means if the monthly rent at the replacement dwelling does not exceed the monthly rent at the displacement dwelling, after taking into account any rental assistance which the person receives under this part. If the cost of any utility service is included in either rent, an appropriate adjustment must be made if necessary to ensure that like circumstances are compared. For a person who paid little or no rent before displacement, the market rent of the displacement dwelling may be used when computing costs (see Appendix A of this part, § 24.402(b)(1)).

(iii) Whenever a $22,500 replacement housing payment under § 24.401 or a $5,250 replacement housing payment under § 24.402 would be insufficient to ensure that a comparable replacement dwelling is available on a timely basis to a person, the Agency shall provide additional or alternative assistance under the last resort housing provisions at Subpart G of this part, which may include increasing the replacement housing payment so that a replacement dwelling is within the displaced person's financial means.

(d) *Contribute materially.* The term "contribute materially" means that during the 2 taxable years prior to the taxable year in which displacement occurs, or during such other period as the Agency determines to be more equitable, a business or farm operation:

(1) Had average annual gross receipts of at least $5,000; or

(2) Had average annual net earnings of at least $1,000; or

(3) Contributed at least 33⅓ percent of the owner's or operator's average annual gross income from all sources.

(4) If the application of the above criteria creates an inequity or hardship in any given case, the Agency may approve the use of other criteria as determined appropriate.

(e) *Decent, safe, and sanitary dwelling.* The term "decent, safe, and sanitary dwelling" means a dwelling which meets applicable housing and occupancy codes. However, any of the following standards which are not met by an applicable code shall apply, unless waived for good cause by the Federal agency funding the project. The dwelling shall:

(1) Be structurally sound, weathertight, and in good repair.

(2) Contain a safe electrical wiring system adequate for lighting and other electrical devices.

(3) Contain a heating system capable of sustaining a healthful temperature (of approximately 70 degrees) for a displaced person, except in those areas where local climatic conditions do not require such a system.

(4) Be adequate in size with respect to the number of rooms and area of living space needed to accommodate the displaced person. There shall be a separate, well-lighted and ventilated bathroom that provides privacy to the user and contains a sink, bathtub or shower stall, and a toilet, all in good working order and properly connected to appropriate sources of water and to a sewage drainage system. In the case of a housekeeping dwelling, there shall be a kitchen area that contains a fully usable sink, properly connected to potable hot and cold water and to a sewage drainage system, and adequate space and utility service connections for a stove and refrigerator.

(5) Contains unobstructed egress to safe, open space at ground level. If the replacement dwelling unit is on the second story or above, with access directly from or through a common corridor, the common corridor must have at least two means of egress.

(6) For a displaced person who is handicapped, be free of any barriers which would preclude reasonable ingress, egress, or use of the dwelling by such displaced person.

(f) *Displaced person*—(1) *General.* The term "displaced person" means any person (defined at § 24.2(m)) who moves from the real property or moves his or her personal property from the real property:

(i) As a direct result of the Agency's acquisition of such real property in whole or in part for a project. This includes any person who moved from the real property as a result of the initiation of negotiations as described at § 24.2(k); or

(ii) As a result of a written order from the acquiring Agency to vacate such real property for the project; or

(iii) As a result of the Agency's acquisition of, or written order to vacate, for a project, other real property on which the person conducts a business or farm operation. Eligibility as a displaced person under this paragraph applies only for purposes of obtaining relocation assistance advisory services under § 24.205 and moving expenses under § 24.301, § 24.302, or § 24.303.

(2) *Persons not displaced.* The following is a nonexclusive listing of persons who do not qualify as a displaced person under this part.

(i) A person who moves before the initiation of negotiations (see also § 24.403(e)); or

(ii) A person who initially enters into occupancy of the property after the date of its acquisition for the project; or

(iii) A person who is not required to relocate permanently as a direct result of a project. Such determination shall be made by the Agency in accordance with any guidelines established by the Federal agency funding the project (see also Appendix A of this part); or

(iv) A person whom the Agency determines is not displaced as a direct result of a partial acquisition; or

(v) A person who, after receiving a notice of relocation eligibility (described at § 24.203), is notified in writing that he or she will not be displaced for a project. Such notice shall not be issued unless the person has not moved and the Agency agrees to reimburse the person for any expenses incurred to satisfy any binding contractual relocation obligations entered into after the effective date of the notice of relocation eligibility; or

(vi) An owner-occupant who voluntarily sells his or her property (as described at § 24.101(a) in Appendix A of this part) after being informed in writing that if a mutually satisfactory agreement of sale cannot be reached, the Agency will not acquire the property. In such cases, however, any resulting displacement of a tenant is subject to this part; or

(vii) A person who retains the right of use and occupancy of the real property for life following its acquisition by the Agency; or

(viii) A person who retains the right of use and occupancy of the real property for a fixed term after its acquisition by the Department of the Interior under Pub. L. 93-477 or Pub. L. 93-303.

(g) *Dwelling.* The term "dwelling" means the place of permanent or customary and usual residence of a person, according to local custom or law, including a single family house; a single family unit in a two-family, multi-family, or multi-purpose property; a unit of a condominium or cooperative housing project; a non-housekeeping unit; a mobile home; or any other residential unit.

(h) *Farm operation.* The term "farm operation" means any activity conducted solely or primarily for the production of one or more agricultural products or commodities, including timber, for sale or home use, and customarily producing such products or commodities in sufficient quantity to be capable of contributing materially to the operator's support.

(i) *Federal agency.* The term "Federal agency" means any department, agency, or instrumentality in the Executive Branch of the Government, any wholly owned Government corporation, and the Architect of the Capitol, the Federal Reserve Banks and branches thereof.

(j) *Federal financial assistance.* The term "Federal financial assistance" means any Federal grant, loan, or contribution, except a Federal guarantee or insurance.

(k) *Initiation of negotiations.* The term "initiation of negotiations" means the delivery of the initial written offer by the Agency to the owner or the owner's representative to purchase real property for a project for the amount determined to be just compensation, unless applicable Federal program regulations specify a different action to serve this purpose. However:

(1) If the Agency issues a notice of its intent to acquire the real property, and a person moves after that notice, but before delivery of the initial written purchase offer, the "initiation of negotiations" means the date the person moves from the property. (See also § 24.505(c).)

(2) In the case of a permanent relocation to protect the public health and welfare, under the Comprehensive Environmental Response Compensation and Liability Act of 1980 (Pub. L. 96-510, or "Superfund") the "initiation of negotiations" means the formal announcement of such relocation or the Federal or federally-coordinated health advisory where the Federal Government later decides to conduct a permanent relocation.

(l) *Owner of displacement dwelling.* A displaced person is considered to have met the requirement to own a displacement dwelling if the person holds any of the following interests in real property acquired for a project:

(1) Fee title, a life estate, a 99-year lease, or a lease, including any options for extension, with at least 50 years to run from the date of acquisition; or

(2) An interest in a cooperative housing project which includes the right to occupy a dwelling; or

(3) A contract to purchase any of the interests or estates described in paragraphs (l) (1) or (2) of this section, or

(4) Any other interest, including a partial interest, which in the judgment of the Agency warrants consideration as ownership.

(m) *Person.* The term "person" means any individual, family, partnership, corporation, or association.

(n) *Salvage value.* The term "salvage value" means the probable sale price of an item, if offered for sale on the condition that it will be removed from the property at the buyer's expense, allowing a reasonable period of time to find a person buying with knowledge of the uses and purposes for which it is adaptable and capable of being used, including separate use of serviceable components and scrap when there is no reasonable prospect of sale except on that basis.

(o) *State.* The term "State" means any of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, the Trust Territories of the Pacific Islands, or a political subdivision of any of these jurisdictions.

(p) *State agency.* The term "State agency" means any department, agency or instrumentality of a State or of a political subdivision of a State, or two or more States, or of two or more political subdivisions of a State or States.

(q) *Tenant.* The term "tenant" means a person who has the temporary use and occupancy of real property owned by another.

(r) *Uniform Act.* The term "Uniform Act" means the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Pub. L. 91-646, 84 Stat. 1894; 42 U.S.C. 4601), and amendments thereto.

§ 24.3 No duplication of payments.

No person shall receive any payment under this part if that person receives a payment under Federal, State, or local law which is determined to have the same purpose and effect as such payment under this part. (See Appendix A of this part, § 24.3.)

§ 24.4 Assurances, monitoring and corrective action.

(a) *Assurances.* Before a Federal agency may approve any grant to, or contract or agreement with, a State agency under which Federal financial assistance will be made available for a project which results in real property acquisition or displacement that is subject to the Uniform Act, the State agency must provide appropriate assurances that it will comply with the Uniform Act and this part. A State agency's assurances under section 305

of the Uniform Act must contain specific reference to the State law which the Agency believes provides an exception to sections 301 or 302 of the Uniform Act. If, in the judgment of the Federal agency, Uniform Act compliance will be served, a State agency may provide these assurances at one time to cover all subsequent federally assisted programs or projects.

(b) *Monitoring and corrective action.* The Federal agency will monitor compliance with this part, and the State agency shall take whatever corrective action is necessary to comply with the Uniform Act and this part. The Federal agency may also apply sanctions in accordance with applicable program regulations.

(c) *Prevention of fraud, waste, and mismanagement.* The Agency shall take appropriate measures to carry out this part in a manner that minimizes fraud, waste, and mismanagement.

§ 24.5 Manner of notices.

Each notice which the Agency is required to provide to a property owner or occupant under this part, except the notice described at § 24.102(b), shall be personally served or sent by certified or registered first-class mail, return receipt requested, and documented in Agency files. Each notice shall be written in plain, understandable language. Persons who are unable to read and understand the notice must be provided with appropriate translation and counseling. Each notice shall indicate the name and telephone number of a person who may be contacted for answers to questions or other needed help.

§ 24.6 Administration of jointly-funded projects.

Whenever two or more Federal agencies provide financial assistance to an Agency or Agencies to carry out functionally or geographically related activities which will result in the acquisition of property or the displacement of a person, the Federal agencies may by agreement designate one such agency as the cognizant Federal agency. At a minimum, the agreement shall set forth the federally assisted activities which are subject to its terms and cite any policies and procedures, in addition to this part, that are applicable to the activities under the agreement. Under the agreement, the cognizant Federal agency shall assure that the project is in compliance with the provisions of the Uniform Act and this part. All federally assisted activities under the agreement shall be deemed a project for the purposes of this part.

§ 24.7 Federal agency waiver of regulations.

The Federal agency funding the project may waive any requirement in this part not required by law if it determines that the waiver does not reduce any assistance or protection provided to an owner or displaced person under this part. Any request for a waiver shall be justified on a case-by-case basis.

§ 24.8 Compliance with other laws and regulations.

The implementation of this part shall be in compliance with all applicable laws and implementing regulations, including the following:

(a) Section I of the Civil Rights Act of 1866 (42 U.S.C. 1982 *et seq.*).

(b) Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d *et seq.*).

(c) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. 3601 *et seq.*), as amended.

(d) The National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*).

(e) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 790 *et seq.*).

(f) Executive Order 12250—Leadership and Coordination of Non-Discrimination Laws.

(g) Executive Order 11063—Equal Opportunity and Housing, as amended by Executive Order 12259.

(h) Executive Order 11246—Equal Employment Opportunity.

(i) Executive Order 11625—Minority Business Enterprise.

(j) Executive Order 12259—Leadership and Coordination of Fair Housing in Federal Programs.

(k) The Flood Disaster Protection Act of 1973 (Pub. L. 93–234).

(l) Executive Orders 11988, Floodplain Management, and 11990, Protection of Wetlands.

(m) The Age Discrimination Act of 1975 (42 U.S.C. 6101 *et seq.*).

§ 24.9 Recordkeeping and reports.

(a) *Records.* The Agency shall maintain adequate records of its acquisition and displacement activities in sufficient detail to demonstrate compliance with this part. These records shall be retained for at least 3 years after each owner of a property and each person displaced from the property receives the final payment to which he or she is entitled under this part.

(b) *Confidentiality of records.* Records maintained by an Agency in accordance with this part are confidential regarding their use as public information, unless applicable law provides otherwise.

(c) *Reports.* The Agency shall submit a report of its real property acquisition and displacement activities under this part if required by the Federal agency funding the project. A report will not be required more frequently than every 3 years, or as the Uniform Act provides, unless the Federal funding agency shows good cause.

§ 24.10 Appeals.

(a) *General.* The Agency shall promptly review appeals in accordance with the requirements of applicable law and this part.

(b) *Actions which may be appealed.* A person may file a written appeal with the Agency in any case in which the person believes that the Agency has failed to properly determine the person's eligibility for, or the amount of, a payment required under § 24.106 or § 24.107, or a relocation payment required under this part. The Agency shall consider a written appeal regardless of form.

(c) *Time limit for initiating appeal.* The Agency may set a reasonable time limit for a person to file an appeal. The time limit shall not be less than 60 days after the person receives written notification of the Agency's determination on the person's claim.

(d) *Right to representation.* A person has a right to be represented by legal counsel or other representative in connection with his or her appeal, but solely at the person's own expense.

(e) *Review of files by person making appeal.* The Agency shall permit a person to inspect and copy all materials pertinent to his or her appeal, except materials which are classified as confidential by the Agency. The Agency may, however, impose reasonable conditions on the person's right to inspect, consistent with applicable laws.

(f) *Scope of review of appeal.* In deciding an appeal, the Agency shall consider all pertinent justification and other material submitted by the person, and all other available information that is needed to ensure a fair and full review of the appeal.

(g) *Determination and notification after appeal.* Promptly after receipt of all information submitted by a person in support of an appeal, the Agency shall make a written determination on the appeal, including an explanation of the basis on which the decision was made, and furnish the person a copy. If the full relief requested is not granted, the Agency shall advise the person of his or her right to seek judicial review.

(h) *Agency official to review appeal.* The Agency official conducting the review of the appeal shall be either the head of the Agency or his or her authorized designee. However, the official shall not have been directly involved in the action appealed.

Subpart B—Real Property Acquisition

§ 24.101 Applicability of acquisition requirements.

(a) *General.* The requirements of this subpart apply to any Agency acquisition of real property for a Federal or federally assisted project, except:

(1) Voluntary transactions that meet the criteria specified in Appendix A of this part, § 24.101(a).

(2) The acquisition of real property from a Federal agency, State, or State agency, if the acquiring Agency does not have the authority to acquire the property through condemnation.

(b) *Less-than-full-fee interest in real property.* The requirements of this Subpart apply to the acquisition of a life estate or a life use, to acquisition by leasing where the lease term, including option(s) for extension, is 50 years or more, and to the acquisition of permanent easements. (See also Appendix A of this part, § 24.101(b).)

(c) *Federally-assisted projects.* For federally-assisted projects the provisions of §§ 24.102, 24.103, 24.104, and 24.105 apply to the extent practicable under State law. (See § 24.4(a).)

§ 24.102 Basic acquisition policies.

(a) *Expeditious acquisition.* The Agency shall make every reasonable effort to acquire the real property expeditiously by negotiation.

(b) *Notice to owner.* As soon as feasible, the owner shall be notified of the Agency's interest in acquiring the real property and the basic protections provided to the owner by law and this part. (See also § 24.203.)

(c) *Appraisal and invitation to owner.* Before the initiation of negotiations, the real property shall be appraised and the owner or the owner's designated representative shall be given an opportunity to accompany the appraiser during the appraiser's inspection of the property.

(d) *Establishment and offer of just compensation.* Before the initiation of negotiations, the Agency shall establish an amount which it believes is just compensation for the real property. The amount shall not be less than the approved appraisal of the fair market value of the property, taking into account the value of allowable damages or benefits to any remaining property. (See also § 24.104.) Promptly thereafter, the Agency shall make a written offer to the owner to acquire the property for the full amount believed to be just compensation.

(e) *Summary statement.* Along with the initial written purchase offer, the owner shall be given a written statement of the basis for the offer of just compensation, which shall include:

(1) A statement of the amount offered as just compensation. In the case of a partial acquisition, the compensation for the real property to be acquired and the compensation for damages, if any, to the remaining real property shall be separately stated.

(2) A description and location identification of the real property and the interest in the real property to be acquired.

(3) An identification of the buildings, structures, and other improvements (including removable building equipment and trade fixtures) which are considered to be part of the real property for which the offer of just compensation is made. Where appropriate, the statement shall identify any separately held ownership interest in the property, e.g., a tenant-owned improvement, and indicate that such interest is not covered by the offer.

(f) *Basic negotiation procedures.* The Agency shall make reasonable efforts to contact the owner or the owner's representative and (1) discuss its offer to purchase the property including the basis for the offer of just compensation, and (2) explain its acquisition policies and procedures, including its payment of incidental expenses in accordance with § 24.106. The owner shall be given reasonable opportunity to consider the offer and present material which the owner believes is relevant to determining the value of the property and to suggest modification in the proposed terms and conditions of the purchase. The Agency shall consider the owner's presentation.

(g) *Updating offer of just compensation.* If the information presented by the owner, or a material change in the character or condition of the property, indicates the need for new appraisal information, or if a significant delay has occurred since the time of the appraisal(s) of the property, the Agency shall have the appraisal(s) updated or obtain a new appraisal(s). If the latest appraisal information indicates that a change in the purchase offer is warranted, the Agency shall promptly reestablish just compensation and offer that amount to the owner in writing.

(h) *Coercive action.* The Agency shall not advance the time of condemnation, or defer negotiations or condemnation or the deposit of funds with the court, or take any other coercive action in order to induce an agreement on the price to be paid for the property.

(i) *Administrative settlement.* The purchase price for the property may exceed the amount offered as just compensation when reasonable efforts to negotiate an agreement at that amount have failed and an authorized Agency official approves such administrative settlement as being reasonable, prudent, and in the public interest. When Federal funds pay for or participate in acquisition costs, a written justification shall be prepared which indicates that available information (e.g., appraisals, recent court awards, estimated trial costs, or valuation problems) supports such a settlement.

(j) *Payment before taking possession.* Before requiring the owner to surrender possession of the real property, the Agency shall (1) pay the agreed purchase price to the owner, or (2) in the case of a condemnation, deposit with the court, for the benefit of the owner, an amount not less than the Agency's approved appraisal of the fair market value of such property, or the court award of compensation in the condemnation proceeding for the property. In exceptional circumstances, with the prior approval of the owner, the Agency may obtain a right-of-entry for construction purposes before making payment available to an owner.

(k) *Uneconomic remnant.* If the acquisition of only a portion of a property would leave the owner with an uneconomic remnant, the Agency shall offer to acquire the uneconomic remnant along with the portion of the property needed for the project. An uneconomic remnant is a remaining part of the property in which the owner is left with an interest that the Agency determines has little or no utility or value to the owner.

(l) *Inverse condemnation.* If the Agency intends to acquire any interest in real property by exercise of the power of eminent domain, it shall institute formal condemnation proceedings and not intentionally make it necessary for the owner to institute legal proceedings to prove the fact of the taking of the real property.

(m) *Fair rental.* If the Agency permits a former owner or tenant to occupy the real property after acquisition for a short term or a period subject to termination by the Agency on short notice, the rent shall not exceed the fair market rent for such occupancy.

§ 24.103 Criteria for appraisals.

(a) *Definition of appraisal.* An appraisal is a written statement independently and impartially prepared by a qualified appraiser setting forth an

opinion of defined value of an adequately described property as of a specific date, supported by the presentation and analysis of relevant market information.

(b) *Standards of appraisal.* The format and level of documentation for an appraisal depend on the complexity of the appraisal problem. The Agency shall develop minimum standards for appraisals consistent with established and commonly accepted appraisal practice for those acquisitions which, by virtue of their low value or simplicity, do not require the in-depth analysis and presentation necessary in a detailed appraisal. A detailed appraisal shall be prepared for all other acquisitions. A detailed appraisal shall reflect nationally recognized appraisal standards, including, to the extent appropriate, the Uniform Appraisal Standards for Federal Land Acquisition. An appraisal must contain sufficient documentation, including valuation data and the appraiser's analysis of that data, to support his or her opinion of value. At a minimum, the appraisal shall contain the following items:

(1) The purpose and/or the function of the appraisal, a definition of the estate being appraised, and a statement of the assumptions and limiting conditions affecting the appraisal.

(2) An adequate description of the physical characteristics of the property being appraised (and, in the case of a partial acquisition, an adequate description of the remaining property), a statement of the known and observed encumbrances, if any, title information, location, zoning, present use, an analysis of highest and best use, and at least a 5-year sales history of the property.

(3) All relevant and reliable approaches to value consistent with commonly accepted professional appraisal practices. When sufficient market sales data are available to reliably support the fair market value for the specific appraisal problem encountered, the Agency, at its discretion, may require only the market approach. If more than one approach is utilized, there shall be an analysis and reconciliation of approaches to value that are sufficient to support the appraiser's opinion of value.

(4) A description of comparable sales, including a description of all relevant physical, legal, and economic factors such as parties to the transaction, source and method of financing, and verification by a party involved in the transaction.

(5) A statement of the value of the real property to be acquired and, for a partial acquisition, a statement of the value of the damages and benefits, if any, to the remaining real property.

(6) The effective date of valuation, date of appraisal, signature, and certification of the appraiser.

(c) *Influence of the project on just compensation.* To the extent permitted by applicable law, the appraiser shall disregard any decrease or increase in the fair market value of the real property caused by the project for which the property is to be acquired, or by the likelihood that the property would be acquired for the project, other than that due to physical deterioration within the reasonable control of the owner.

(d) *Owner retention of improvements.* If the owner of a real property improvement is permitted to retain it for removal from the project site, the amount to be offered for the interest in the real property to be acquired shall be not less than the difference between the amount determined to be just compensation for the owner's entire interest in the real property and the salvage value (defined at § 24.2(n)) of the retained improvement.

(e) *Qualifications of appraisers.* The Agency shall establish criteria for determining the minimum qualifications of appraisers. Appraiser qualifications shall be consistent with the level of difficulty of the appraisal assignment. The Agency shall review the experience, education, training, and other qualifications of appraisers, including review appraisers, and utilize only those determined to be qualified.

(f) *Conflict of interest.* No appraiser or review appraiser shall have any interest, direct or indirect, in the real property being appraised for the Agency that would in any way conflict with the preparation or review of the appraisal. Compensation for making an appraisal shall not be based on the amount of the valuation. No appraiser shall act as a negotiator for real property which that person has appraised, except that the Agency may permit the same person to both appraise and negotiate an acquisition where the value of the acquisition is $2,500, or less.

§ 24.104 Review of appraisals.

The Agency shall have an appraisal review process and, at a minimum:

(a) A qualified reviewing appraiser shall examine all appraisals to assure that they meet applicable appraisal requirements and shall, prior to acceptance, seek necessary corrections or revisions.

(b) If the reviewing appraiser is unable to approve or recommend approval of an appraisal as an adequate basis for the establishment of just compensation, and it is determined that it is not practical to obtain an additional appraisal, the reviewing appraiser may develop appraisal documentation in accordance with § 24.103 to support an approved or recommended value.

(c) The review appraiser's certification of the recommended or approved value of the property shall be set forth in a signed statement which identifies the appraisal reports reviewed and explains the basis for such recommendation or approval. Any damages or benefits to any remaining property shall also be identified in the statement.

§ 24.105 Acquisition of tenant-owned improvements.

(a) *Acquisition of improvements.* When acquiring any interest in real property, the Agency shall offer to acquire at least an equal interest in all buildings, structures, or other improvements located upon the real property to be acquired, which it requires to be removed or which it determines will be adversely affected by the use to which such real property will be put. This shall include any improvement of a tenant-owner who has the right or obligation to remove the improvement at the expiration of the lease term.

(b) *Improvements considered to be real property.* Any building, structure, or other improvement, which would be considered to be real property if owned by the owner of the real property on which it is located, shall be considered to be real property for purposes of this Subpart.

(c) *Appraisal and establishment of just compensation for tenant-owned improvements.* Just compensation for a tenant-owned improvement is the amount which the improvement contributes to the fair market value of the whole property or its salvage value, whichever is greater. (Salvage value is defined at § 24.2(n).)

(d) *Special conditions.* No payment shall be made to a tenant-owner for any real property improvement unless:

(1) The tenant-owner, in consideration for the payment, assigns, transfers, and releases to the Agency all of the tenant-owner's right, title, and interest in the improvement; and

(2) The owner of the real property on which the improvement is located disclaims all interest in the improvement; and

(3) The payment does not result in the duplication of any compensation otherwise authorized by law.

(e) *Alternative compensation.* Nothing in this Subpart shall be construed to deprive the tenant-owner of any right to reject payment under this Subpart and to obtain payment for such property interests in accordance with other applicable law.

§ 24.106 Expenses incidental to transfer of title to the Agency.

The owner of the real property shall be reimbursed for all reasonable expenses the owner necessarily incurred for:

(a) Recording fees, transfer taxes, documentary stamps, evidence of title, boundary surveys, legal descriptions of the real property, and similar expenses incidental to conveying the real property to the Agency. However, the Agency is not required to pay costs solely required to perfect the owner's title to the real property; and

(b) Penalty costs and other charges for prepayment of any preexisting recorded mortgage entered into in good faith encumbering the real property; and

(c) The pro rata portion of any prepaid real property taxes which are allocable to the period after the Agency obtains title to the property or effective possession of it, whichever is earlier.

Whenever feasible, the Agency shall pay these costs directly so that the owner will not have to pay such costs and then seek reimbursement from the Agency.

§ 24.107 Certain litigation expenses.

The owner of the real property shall be reimbursed for any reasonable expenses, including reasonable attorney, appraisal, and engineering fees, which the owner actually incurred because of a condemnation proceeding, if:

(a) The final judgment of the court is that the Agency cannot acquire the real property by condemnation; or

(b) The condemnation proceeding is abandoned by the Agency other than under an agreed-upon settlement; or

(c) The court having jurisdiction renders a judgment in favor of the owner in an inverse condemnation proceeding or the Agency effects a settlement of such proceeding.

§ 24.108 Donations.

Nothing in this part shall prevent a person, after being informed of the right to receive just compensation, based on an appraisal of the real property, from making a gift or donation of real property or any part thereof, or any interest therein, or of any compensation paid therefor, to the Agency. The Agency is responsible for assuring that an appraisal of the real property is obtained unless the owner releases the Agency from such obligation.

Subpart C—General Relocation Requirements

§ 24.201 Purpose.

This Subpart prescribes general requirements governing the provision of relocation payments and other relocation assistance in this part.

§ 24.202 Applicability.

These requirements apply to the relocation of any displaced person as defined at § 24.2(f).

§ 24.203 Relocation notices.

(a) *General information notice.* As soon as feasible, a person scheduled to be displaced shall be furnished with a general written description of the Agency's relocation program which does at least the following:

(1) Informs the person that he or she may be displaced for the project and generally describes the relocation payment(s) for which the person may be eligible, the basic conditions of eligibility, and the procedures for obtaining the payment(s).

(2) Informs the person that he or she will be given reasonable relocation advisory services, including referrals to replacement properties, help in filing payment claims, and other necessary assistance to help the person successfully relocate.

(3) Informs the person that he or she will not be required to move without at least 90 days' advance written notice (see paragraph (c) of this section), and informs any person to be displaced from a dwelling that he or she cannot be required to move permanently unless at least one comparable replacement dwelling has been made available.

(4) Describes the person's right to appeal the Agency's determination as to eligibility for, or the amount of, any relocation payment for which the person may be eligible.

(b) *Notice of relocation eligibility.* Eligibility for relocation assistance shall begin on the date of initiation of negotiations (defined in § 24.2(k)) for the occupied property. When this occurs, the Agency shall promptly notify all occupants in writing of their eligibility for applicable relocation assistance.

(c) *Ninety-day notice—(1) General.* No lawful occupant shall be required to move unless he or she has received at least 90 days advance written notice of the earliest date by which he or she may be required to move.

(2) *Timing of notice.* The displacing agency may issue the notice 90 days before it expects the person to be displaced or earlier.

(3) *Content of notice.* The 90-day notice shall either state a specific date as the earliest date by which the occupant may be required to move, or state that the occupant will receive a further notice indicating, at least 30 days in advance, the specific date by which he or she must move. If the 90-day notice is issued before a comparable replacement dwelling is made available, the notice must state clearly that the occupant will not have to move earlier than 90 days after such a dwelling is made available. (See § 24.204(a).)

(4) *Urgent need.* In unusual circumstances, an occupant may be required to vacate the property on less than 90 days advance written notice if the Agency determines that a 90-day notice is impracticable, such as when the person's continued occupancy of the property would constitute a substantial danger to health or safety. A copy of the Agency's determination shall be included in the applicable case file.

§ 24.204 Availability of comparable replacement dwelling before displacement.

(a) *General.* No person to be displaced shall be required to move from his or her dwelling unless at least one comparable replacement dwelling (defined at § 24.2(c)) has been made available to the person. Where possible, three or more comparable replacement dwellings shall be made available. A comparable replacement dwelling will be considered to have been made available to a person, if:

(1) The person is informed of its location; and

(2) The person has sufficient time to negotiate and enter into a purchase agreement or lease for the property; and

(3) Subject to reasonable safeguards, the person is assured of receiving the relocation assistance and acquisition payment to which the person is entitled in sufficient time to complete the purchase or lease of the property.

(b) *Circumstances permitting waiver.* The Federal agency funding the project may grant a waiver of the policy in paragraph (a) of this section in any case where it is demonstrated that a person must move because of:

(1) A major disaster as defined in § 102(c) of the Disaster Relief Act of 1974 (42 U.S.C. § 5121); or

(2) A presidentially declared national emergency; or

(3) Another emergency which requires immediate vacation of the real property, such as when continued occupancy of the displacement dwelling constitutes a substantial danger to the health or safety of the occupants or the public.

(c) *Basic conditions of emergency move.* Whenever a person is required to relocate for a temporary period because

BEST COPY AVAILABLE

VOL 52 ISS 242 DEC 17 1987 UMI

VOL 52 ISS 242 DEC 17 1987 UMI

of an emergency as described in paragraph (b) of this section, the Agency shall:

(1) Take whatever steps are necessary to assure that the person is temporarily relocated to a decent, safe, and sanitary dwelling; and

(2) Pay the actual reasonable out-of-pocket moving expenses and any reasonable increase in monthly housing costs incurred in connection with the temporary relocation; and

(3) Make available to the displaced person as soon as feasible, at least one comparable replacement dwelling. (For purposes of filing a claim and meeting the eligibility requirements for a relocation payment, the date of displacement is the date the person moves from the temporarily-occupied dwelling.)

§ 24.205 Relocation assistance advisory services.

(a) *General.* The Agency shall carry out a relocation assistance advisory program which satisfies the requirements of Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d *et seq.*), Title VIII of the Civil Rights Act of 1968 (42 U.S.C. 3601 *et seq.*), and Executive Order 11063 (27 FR 11527), and offers the services described in paragraph (b) of this section. If the Agency determines that a person occupying property adjacent to the real property acquired for the project is caused substantial economic injury because of such acquisition, it may offer the services to such person.

(b) *Services to be provided.* The advisory program shall include such measures, facilities, and services as may be necessary or appropriate in order to:

(1) Determine the relocation needs and preferences of each person to be displaced and explain the relocation payments and other assistance for which the person may be eligible, the related eligibility requirements, and the procedures for obtaining such assistance. This shall include a personal interview with each person.

(2) Provide current and continuing information on the availability, purchase prices, and rental costs of comparable replacement dwellings, and explain that the person cannot be required to move unless at least one comparable replacement dwelling is made available as set forth in § 24.204(a).

(i) As soon as feasible, the Agency shall inform the person in writing of the specific comparable replacement dwelling and the price or rent used for establishing the upper limit of the replacement housing payment (see § 24.403 (a) and (b)) and the basis for the determination, so that the person is aware of the maximum replacement housing payment for which he or she may qualify.

(ii) Where feasible, housing shall be inspected prior to being made available to assure that it meets applicable standards. (See § 24.2 (c) and (e).) If such an inspection is not made, the person to be displaced shall be notified that a replacement housing payment may not be made unless the replacement dwelling is subsequently inspected and determined to be decent, safe, and sanitary.

(iii) Whenever possible, minority persons shall be given reasonable opportunities to relocate to decent, safe, and sanitary replacement dwellings, not located in an area of minority concentration, that are within their financial means. This policy, however, does not require an Agency to provide a person a larger payment than is necessary to enable a person to relocate to a comparable replacement dwelling.

(iv) All persons, especially the elderly and handicapped, shall be offered transportation to inspect housing to which they are referred.

(3) Provide current and continuing information on the availability, purchase prices, and rental costs of comparable and suitable commercial and farm properties and locations. Assist any person displaced from a business or farm operation to obtain and become established in a suitable replacement location.

(4) Minimize hardships to persons in adjusting to relocation by providing counseling, advice as to other sources of assistance that may be available, and such other help as may be appropriate.

(5) Supply persons to be displaced with appropriate information concerning Federal and State housing programs, disaster loan and other programs administered by the Small Business Administration, and other Federal and State programs offering assistance to persons to be displaced.

(c) *Coordination of relocation activities.* Relocation activities shall be coordinated with project work and other displacement-causing activities to ensure that, to the extent feasible, persons displaced receive consistent treatment and the duplication of functions is minimized.

§ 24.206 Eviction for cause.

Eviction for cause must conform to applicable State and local law. Any person who has lawfully occupied the real property, but who is later evicted for cause on or after the date of the initiation of negotiations, retains the right to the relocation payments and other assistance set forth in this part. For purposes of determining eligibility for relocation payments, the date of displacement is the date the person moves or the date a comparable replacement dwelling is made available, whichever is later.

§ 24.207 General requirements—claims for relocation payments.

(a) *Documentation.* Any claim for a relocation payment shall be supported by such documentation as may be reasonably required to support expenses incurred, such as bills, certified prices, appraisals, or other evidence of such expenses. A displaced person must be provided reasonable assistance necessary to complete and file any required claim for payment.

(b) *Expeditious payments.* The Agency shall review claims in an expeditious manner. The claimant shall be promptly notified as to any additional documentation that is required to support the claim. Payment for a claim shall be made as soon as feasible following receipt of sufficient documentation to support the claim.

(c) *Advance payments.* If a person demonstrates the need for an advance relocation payment in order to avoid or reduce a hardship, the Agency shall issue the payment, subject to such safeguards as are appropriate to ensure that the objective of the payment is accomplished.

(d) *Time for filing.* (1) All claims for a relocation payment shall be filed with the Agency within 18 months after:

(i) For tenants, the date of displacement;

(ii) For owners, the date of displacement or the date of the final payment for the acquisition of the real property, whichever is later.

(2) This time period shall be waived by the Agency for good cause.

(e) *Multiple occupants of one displacement dwelling.* If two or more occupants of the displacement dwelling move to separate replacement dwellings, each occupant is entitled to a reasonable prorated share, as determined by the Agency, of any relocation payments that would have been made if the occupants moved together to a comparable replacement dwelling. However, if the Agency determines that two or more occupants maintained separate households within the same dwelling, such occupants have separate entitlements to relocation payments.

(f) *Deductions from relocation payments.* An Agency shall deduct the amount of any advance relocation payment from the relocation payment(s) to which a displaced person is otherwise entitled. Similarly, a Federal agency shall, and a State agency may, deduct from relocation payments any rent that the displaced person owes the Agency; provided that no deduction shall be made if it would prevent the displaced person from obtaining a comparable replacement dwelling as required by § 24.204. The Agency shall not withhold any part of a relocation payment to a displaced person to satisfy an obligation to any other creditor.

(g) *Notice of denial of claim.* If the Agency disapproves all or part of a payment claimed or refuses to consider the claim on its merits because of untimely filing or other grounds, it shall promptly notify the claimant in writing of its determination, the basis for its determination, and the procedures for appealing that determination.

§ 24.208 Relocation payments not considered as income.

No relocation payment received by a displaced person under this part shall be considered as income for the purpose of the Internal Revenue Code of 1954, or for the purpose of determining the eligibility or the extent of eligibility of any person for assistance under the Social Security Act or any other Federal law.

Subpart D—Payment for Moving and Related Expenses

§ 24.301 Payment for actual reasonable moving and related expenses—residential moves.

Any displaced owner-occupant or tenant of a dwelling who qualifies as a displaced person (defined at § 24.2(f)) is entitled to payment of his or her actual moving and related expenses, as the Agency determines to be reasonable and necessary, including expenses for:

(a) Transportation of the displaced person and personal property. Transportation costs for a distance beyond 50 miles are not eligible, unless the Agency determines that relocation beyond 50 miles is justified.

(b) Packing, crating, unpacking, and uncrating of the personal property.

(c) Disconnecting, dismantling, removing, reassembling, and reinstalling relocated household appliances, and other personal property.

(d) Storage of the personal property for a period not to exceed 12 months, unless the Agency determines that a longer period is necessary.

(e) Insurance for the replacement value of the property in connection with the move and necessary storage.

(f) The replacement value of property lost, stolen, or damaged in the process of moving (not through the fault or negligence of the displaced person, his or her agent, or employee) where insurance covering such loss, theft, or damage is not reasonably available.

(g) Other moving-related expenses that are not listed as ineligible under § 24.305, as the Agency determines to be reasonable and necessary.

§ 24.302 Fixed payment for moving expenses residential moves.

Any person displaced from a dwelling or a seasonal residence is entitled to receive an expense and dislocation allowance as an alternative to a payment for actual moving and related expenses under § 24.301. This allowance shall be determined according to the applicable schedule approved by the Federal Highway Administration.

§ 24.303 Payment for actual reasonable moving and related expenses—nonresidential moves.

(a) *Eligible costs.* Any business or farm operation which qualifies as a displaced person (defined at § 24.2(f)) is entitled to payment for such actual moving and related expenses, as the Agency determines to be reasonable and necessary, including expenses for:

(1) Transportation of personal property. Transportation costs for a distance beyond 50 miles are not eligible, unless the Agency determines that relocation beyond 50 miles is justified.

(2) Packing, crating, unpacking, and uncrating of the personal property.

(3) Disconnecting, dismantling, removing, reassembling, and reinstalling relocated machinery, equipment, and other personal property, including substitute personal property described at § 24.303(a)(12). This includes connection to utilities available nearby. It also includes modifications to the personal property necessary to adapt it to the replacement structure, the replacement site, or the utilities at the replacement site, and modifications necessary to adapt the utilities at the replacement site to the personal property. (Expenses for providing utilities from the right-of-way to the building or improvement are excluded.)

(4) Storage of the personal property for a period not to exceed 12 months, unless the Agency determines that a longer period is necessary.

(5) Insurance for the replacement value of the personal property in connection with the move and necessary storage.

(6) Any license, permit, or certification required of the displaced person at the replacement location. However, the payment may be based on the remaining useful life of the existing license, permit, or certification.

(7) The replacement value of property lost, stolen, or damaged in the process of moving (not through the fault or negligence of the displaced person, his or her agent, or employee) where insurance covering such loss, theft, or damage is not reasonably available.

(8) Professional services necessary for (i) planning the move of the personal property, (ii) moving the personal property, and (iii) installing the relocated personal property at the replacement location.

(9) Relettering signs and replacing stationery on hand at the time of displacement that are made obsolete as a result of the move.

(10) Actual direct loss of tangible personal property incurred as a result of moving or discontinuing the business or farm operation. The payment shall consist of the lesser of:

(i) The fair market value of the item for continued use at the displacement site, less the proceeds from its sale. (To be eligible for payment, the claimant must make a good faith effort to sell the personal property, unless the Agency determines that such effort is not necessary. When payment for property loss is claimed for goods held for sale, the fair market value shall be based on the cost of the goods to the business, not the potential selling price.); or

(ii) The estimated cost of moving the item, but with no allowance for storage. (If the business or farm operation is discontinued, the estimated cost shall be based on a moving distance of 50 miles.)

(11) The reasonable cost incurred in attempting to sell an item that is not to be relocated.

(12) Purchase of substitute personal property. If an item of personal property which is used as part of a business or farm operation is not moved but is promptly replaced with a substitute item that performs a comparable function at the replacement site, the displaced person is entitled to payment of the lesser of:

(i) The cost of the substitute item, including installation costs at the replacement site, minus any proceeds from the sale or trade-in of the replaced item; or

(ii) The estimated cost of moving and reinstalling the replaced item but with no allowance for storage. At the Agency's discretion, the estimated cost for a low cost or uncomplicated move may be based on a single bid or estimate.

(13) Searching for a replacement location. A displaced business or farm operation is entitled to reimbursement for actual expenses, not to exceed $1,000, as the Agency determines to be

reasonable, which are incurred in searching for a replacement location, including:

(i) Transportation.

(ii) Meals and lodging away from home.

(iii) Time spent searching, based on reasonable salary or earnings.

(iv) Fees paid to a real estate agent or broker to locate a replacement site, exclusive of any fees or commissions related to the purchase of such site.

(14) Other moving-related expenses that are not listed as ineligible under § 24.305, as the Agency determines to be reasonable and necessary.

(b) *Notification and inspection.* The following requirements apply to payments under this section:

(1) The Agency shall inform the displaced person, in writing, of the requirements of paragraphs (b) (2) and (3) of this section as soon as possible after the initiation of negotiations. This information may be included in the relocation information provided to the displaced person as set forth in § 24.203.

(2) The displaced person must provide the Agency reasonable advance written notice of the approximate date of the start of the move or disposition of the personal property and a list of the items to be moved. However, the Agency may waive this notice requirement after documenting its file accordingly.

(3) The displaced person must permit the Agency to make reasonable and timely inspections of the personal property at both the displacement and replacement sites and to monitor the move.

(c) *Self-moves.* If the displaced person elects to take full responsibility for the move of the business or farm operation, the Agency may make a payment for the person's moving expenses in an amount not to exceed the lower of two acceptable bids or estimates obtained by the Agency or prepared by qualified staff. At the Agency's discretion, a payment for a low cost or uncomplicated move may be based on a single bid or estimate.

(d) *Transfer of ownership.* Upon request and in accordance with applicable law, the claimant shall transfer to the Agency ownership of any personal property that has not been moved, sold, or traded in.

(e) *Advertising signs.* The amount of a payment for direct loss of an advertising sign which is personal property shall be the lesser of:

(1) The depreciated reproduction cost of the sign, as determined by the Agency, less the proceeds from its sale; or

(2) The estimated cost of moving the sign, but with no allowance for storage.

§ 24.304 Fixed payment for moving expenses—nonresidential moves.

(a) *Business.* A displaced business (except an outdoor advertising display business or a nonprofit organization) may be eligible to choose a fixed payment in lieu of a payment for actual moving and related expenses. The payment shall equal the average annual net earnings of the business, as computed in accordance with paragraph (e) of this section, but not less than $1,000 nor more than $20,000. The displaced business is eligible for the payment if the Agency determines that:

(1) The business cannot be relocated without a substantial loss of its existing patronage (clientele or net earnings). A business is assumed to meet this test unless the Agency demonstrates that it will not suffer a substantial loss of its existing patronage; and

(2) The business is not part of a commercial enterprise having another establishment, which is not being acquired by the Agency, and which is under the same ownership and engaged in the same or similar business activities. (For purposes of this part a remaining business facility that did not contribute materially to the income of the displaced person during the 2 taxable years prior to displacement shall not be considered "another establishment."); and

(3) The business contributed materially to the income of the displaced person during the 2 taxable years prior to displacement (see § 24.2(d)).

(b) *Determining the number of businesses.* In determining whether two or more displaced legal entities constitute a single business which is entitled to only one fixed payment, all pertinent factors shall be considered, including the extent to which:

(1) The same premises and equipment are shared;

(2) Substantially identical or interrelated business functions are carried out and business and financial affairs are commingled;

(3) The entities are held out to the public, and to those customarily dealing with them, as one business; and

(4) The same person or closely related persons own, control, or manage the affairs of the entities.

(c) *Farm operation.* A displaced farm operation (defined at § 24.2(h) may choose a fixed payment in lieu of a payment for actual moving and related expenses in an amount equal to its average annual net earnings as computed in accordance with paragraph (e) of this section, but not less than $1,000 nor more than $20,000. In the case of a partial acquisition of land which was a farm operation before the acquisition, the fixed payment shall be made only if the Agency determines that:

(1) The acquisition of part of the land caused the operator to be displaced from the farm operation on the remaining land; or

(2) The partial acquisition caused a substantial change in the nature of the farm operation.

(d) *Nonprofit organization.* A displaced nonprofit organization may choose a fixed payment in lieu of a payment for actual moving and related expenses of $2,500, if the Agency determines that it:

(1) Cannot be relocated without a substantial loss of existing patronage (membership or clientele). A nonprofit organization is assumed to meet this test, unless the Agency demonstrates otherwise; and

(2) Is not part of an enterprise having at least one other establishment engaged in the same or similar activity which is not being acquired by the Agency.

(e) *Average annual net earnings of a business or farm operation.* The average annual net earnings of a business or farm operation are one-half of its net earnings before Federal, State, and local income taxes during the 2 taxable years immediately prior to the taxable year in which it was displaced. If the business or farm was not in operation for the full 2 taxable years prior to displacement, net earnings shall be based on the actual period of operation at the displacement site during the 2 taxable years prior to displacement, projected to an annual rate. Average annual net earnings may be based upon a different period of time when the Agency determines it to be more equitable. Net earnings include any compensation obtained from the business or farm operation by its owner, the owner's spouse, and dependents. The displaced person shall furnish the Agency proof of net earnings through income tax returns, certified financial statements, or other reasonable evidence which the Agency determines is satisfactory.

§ 24.305 Ineligible moving and related expenses.

A displaced person is not entitled to payment for:

(a) The cost of moving any structure or other real property improvement in which the displaced person reserved ownership. However, this part does not preclude the computation under § 24.401(c)(4)(iii); or

(b) Interest on a loan to cover moving expenses; or

(c) Loss of goodwill; or

(d) Loss of profits; or

(e) Loss of trained employees; or

(f) Any additional operating expenses of a business or farm operation incurred because of operating in a new location; or

(g) Personal injury; or

(h) Any legal fee or other cost for preparing a claim for a relocation payment or for representing the claimant before the Agency; or

(i) Expenses for searching for a replacement dwelling; or

(j) Physical changes to the real property at the replacement location of a business or farm operation except as provided in § 24.303(a)(3); or

(k) Costs for storage of personal property on real property already owned or leased by the displaced person.

Subpart E—Replacement Housing Payments

§ 24.401 Replacement housing payment for 180-day homeowner-occupants.

(a) *Eligibility.* A displaced person is eligible for the replacement housing payment for a 180-day homeowner-occupant if the person:

(1) Has actually owned and occupied the displacement dwelling for not less than 180 days immediately prior to the initiation of negotiations; and

(2) Purchases and occupies a decent, safe, and sanitary replacement dwelling within 1 year after the later of the following dates:

(i) The date the person receives final payment for the displacement dwelling or, in the case of condemnation, the date the required amount is deposited in the court, or

(ii) The date the person moves from the displacement dwelling.

(b) *Amount of payment.* The replacement housing payment for an eligible 180-day homeowner-occupant may not exceed $22,500. (See also § 24.403(b).) The payment under this section is limited to the amount necessary to relocate to a comparable replacement dwelling within one year from the date the displaced homeowner-occupant is paid for the displacement dwelling, or the date such person is initially offered a comparable replacement dwelling, whichever is later. The payment shall be the sum of:

(1) The amount by which the cost of a replacement dwelling exceeds the acquisition cost of the displacement dwelling, as determined in accordance with paragraph (c) of this section; and

(2) The increased interest costs and other debt service costs to be incurred in connection with the mortgage(s) on the replacement dwelling, as determined in accordance with paragraph (d) of this section; and

(3) The reasonable expenses incidental to the purchase of the replacement dwelling, as determined in accordance with paragraph (e) of this section.

(c) *Price differential.*—(1) *Determination of price differential.* The price differential to be paid under paragraph (b)(1) of this section is the amount which must be added to the acquisition cost of the displacement dwelling to provide a total amount equal to the lesser of:

(i) The reasonable cost of a comparable replacement dwelling as determined in accordance with § 24.403(a); or

(ii) The purchase price of the decent, safe, and sanitary replacement dwelling actually purchased and occupied by the displaced person.

(2) *Mixed-use and multifamily properties.* If the displacement dwelling was part of a property that contained another dwelling unit and/or space used for nonresidential purposes, and/or is located on a lot larger than typical for residential purposes, only that portion of the acquisition payment which is actually attributable to the displacement dwelling shall be considered its acquisition cost when computing the price differential.

(3) *Insurance proceeds.* To the extent necessary to avoid duplicate compensation, the amount of any insurance proceeds received by a person in connection with a loss to the displacement dwelling due to a catastrophic occurrence (fire, flood, etc.) shall be included in the acquisition cost of the displacement dwelling when computing the price differential. (Also see § 24.3.)

(4) *Owner retention of displacement dwelling.* If the owner retains ownership of his or her dwelling, moves it from the displacement site, and reoccupies it on a replacement site, the purchase price of the replacement dwelling, shall be the sum of:

(i) The cost of moving and restoring the dwelling to a condition comparable to that prior to the move; and

(ii) The cost of making the unit a decent, safe, and sanitary replacement dwelling (defined at § 24.2(e)); and

(iii) The current fair market value for residential use of the replacement site (see Appendix A of this part, § 24.401(c)(4)(iii)), unless the claimant rented the displacement site and there is a reasonable opportunity for the claimant to rent a suitable replacement site; and

(iv) The retention value of the dwelling, if such retention value is reflected in the "acquisition cost" used when computing the replacement housing payment.

(d) *Increased mortgage interest costs.* The displacing agency may use either the "annuity" method or the "buydown" method to determine the amount to be paid to a displacee under § 24.401(b)(2). The "annuity" method provides for a payment based upon the present value of the increase in interest costs that results when the mortgage interest rate on the replacement dwelling exceeds the mortgage interest rate on the displacement dwelling. The "buydown" method provides a lump sum payment which could be used to reduce the amount of a mortgage on the replacement dwelling to an amount which could be amortized with the same repayment schedule as that remaining for the mortgage(s) on the displacement dwelling. Payments under either method include other debt service costs, if not paid as incidental costs, and shall be based only on bona fide mortgages that were a valid lien on the displacement dwelling for at least 180 days prior to the initiation of negotiations. Once the Agency determines which method is to be used, that method must be applied in like manner throughout the Agency's program or projects except that, in the case of a Federal agency, the method selected may differ from State to State as long as the same method is used throughout its programs or projects in any given State. Paragraphs (d)(1)–(5) of this section shall apply to use of the annuity method:

(1) The payment shall be based on the unpaid mortgage balance on the displacement dwelling or the new mortgage amount, whichever is less.

(2) The payment shall be based on the remaining term of the mortgage on the displacement dwelling or the actual term of the new mortgage, whichever is shorter.

(3) The interest charge on the new mortgage shall not exceed the prevailing interest rate currently charged by mortgage lending institutions in the area in which the replacement dwelling is located.

(4) The present value of the increased interest costs shall be computed at the prevailing interest rate paid on savings deposits by commercial banks in the area in which the replacement dwelling is located.

(5) Purchaser's points and loan origination or assumption fees, but not seller's points, shall be paid to the extent:

(i) They are not paid as incidental expenses;

(ii) They do not exceed rates normal to similar real estate transactions in the area; and

(iii) The Agency determines them to be necessary. The computation of such points and fees shall be based on the unpaid mortgage balance on the displacement dwelling or the new mortgage amount, whichever is less.

(e) *Incidental expenses.* The incidental expenses to be paid under paragraph (b)(3) of this section or § 24.402(c)(1) are those necessary and reasonable costs actually incurred by the displaced person incident to the purchase of a replacement dwelling, and customarily paid by the buyer, including:

(1) Legal, closing, and related costs, including those for title search, preparing conveyance instruments, notary fees, preparing surveys and plats, and recording fees.

(2) Lender, FHA, or VA application and appraisal fees.

(3) Loan origination or assumption fees that do not represent prepaid interest.

(4) Certification of structural soundness and termite inspection when required.

(5) Credit report.

(6) Owner's and mortgagee's evidence of title, e.g., title insurance, not to exceed the costs for a comparable replacement dwelling.

(7) Escrow agent's fee.

(8) State revenue or documentary stamps, sales or transfer taxes (not to exceed the costs for a comparable replacement dwelling).

(9) Such other costs as the Agency determines to be incidental to the purchase.

(f) *Rental assistance payment for 180-day homeowner.* A 180-day homeowner-occupant, who is eligible for a replacement housing payment under § 24.401(a) but elects to rent a replacement dwelling, is eligible for a rental assistance payment not to exceed $5,250, computed and disbursed in accordance with § 24.402(b).

§ 24.402 Replacement housing payment for 90-day occupants.

(a) *Eligibility.* A tenant or owner-occupant displaced from a dwelling is entitled to a payment not to exceed $5,250 for rental assistance, as computed in accordance with paragraph (b) of this section, or downpayment assistance, as computed in accordance with paragraph (c) of this section, if such displaced person:

(1) Has actually and lawfully occupied the displacement dwelling for at least 90 days immediately prior to the initiation of negotations; and

(2) Has rented, or purchased, and occupied a decent, safe, and sanitary replacement dwelling within 1 year (unless the Agency extends this period for good cause) after:

(i) For a tenant, the date he or she moves from the displacement dwelling, or

(ii) For an owner-occupant, the later of:

(A) The date he or she receives final payment for the displacement dwelling, or in the case of condemnation, the date the required amount is deposited with the court; or

(B) The date he or she moves from the displacement dwelling.

(b) *Rental assistance payment.*—(1) *Amount of payment.* An eligible displaced person who rents a replacement dwelling is entitled to a payment not to exceed $5,250 for rental assistance. (See also § 24.403(b).) Such payment shall be 42 times the amount obtained by subtracting the average monthly rent of the displacement dwelling for a reasonable period prior to displacement, as determined by the Agency (for an owner-occupant or tenant who pays little or no rent, the average cost for rent shall be the fair market rent; see Appendix A of this part, Subpart E), from the lesser of:

(i) The monthly rent for a comparable replacement dwelling; or

(ii) The monthly rent for the decent, safe, and sanitary replacement dwelling actually occupied by the displaced person.

(2) *Utility services.* Any utility service which is included in the monthly rent for either the displacement dwelling or the comparable replacement dwelling must be included when computing the rental assistance payment. Appropriate adjustments to reflect the cost of utility services shall be made, if necessary to ensure that like circumstances are compared.

(3) *Manner of disbursement.* The payment under this section shall be disbursed in a lump sum, unless the Agency determines on a case-by-case basis, for good cause, that the payment should be made in installments.

(c) *Downpayment assistance payment.*—(1) *Amount of payment.* A displaced person eligible for a rental assistance payment may, in lieu of accepting such rental assistance payment, elect to apply that computed payment to a downpayment, including related incidental expenses, for a replacement dwelling. At the Agency's discretion, an eligible displaced tenant or owner who does not meet the 180-day ownership/occupancy requirement may receive a downpayment assistance payment not to exceed $5,250, except that an eligible displaced owner may not receive a downpayment assistance payment which exceeds the payment that such person would otherwise have received under § 24.401(b) had the 180-day eligibility criterion been met. An Agency's discretion to provide the maximum payment shall be exercised in a uniform and consistent manner, so that eligible displaced persons in like circumstances are treated equally. In the case of a Federal agency, the method selected may differ from State to State as long as the same method is used throughout its programs or projects in any given State. A displaced person eligible to receive a payment as a 180-day owner-occupant under § 24.401(b) is not eligible for this payment. (See also Appendix A of this part, § 24.402(c)).

(2) *Application of payment.* The full amount of the replacement housing payment for downpayment assistance must be applied to the purchase price of the replacement dwelling and related incidental expenses.

§ 24.403 Additional rules governing replacement housing payments.

(a) *Determining cost of comparable replacement dwelling.* The upper limit of a replacement housing payment shall be based on the cost of a comparable replacement dwelling (defined at § 24.2(c)).

(1) If available, at least three comparable replacement dwellings shall be examined and the payment computed on the basis of the dwelling most nearly representative of, and equal to, or better than, the displacement dwelling. An adjustment shall be made to the asking price of any dwelling, to the extent justified by local market data (see also § 24.205(b)(2)(i)). An obviously overpriced dwelling may be ignored.

(2) If the site of the comparable replacement dwelling lacks a major exterior attribute of the displacement dwelling site, (e.g., the site is significantly smaller or does not contain a swimming pool), the value of such attribute shall be subtracted from the acquisition cost of the displacement dwelling for purposes of computing the payment. If the acquisition of a portion of a typical residential property causes the displacement of the owner from the dwelling and the remainder is a buildable residential lot, the Agency may offer to purchase the entire property. If the owner refuses to sell the remainder to the Agency, the fair market value of the remainder may be added to the acquisition cost of the displacement dwelling for purposes of computing the replacement housing payment.

(3) To the extent feasible, comparable replacement dwellings shall be selected from the neighborhood in which the displacement dwelling was located or, if that is not possible, in nearby or similar neighborhoods where housing costs are generally the same or higher.

(b) *Applicability of last resort housing.* Whenever a $22,500 replacement housing payment under § 24.401 or a $5,250 replacement housing payment under § 24.402 would be insufficient to ensure that a comparable replacement dwelling is available on a timely basis to a person, the Agency shall provide additional or alternative assistance under the last resort housing provisions at Subpart G, which may include increasing the replacement housing payment so that a replacement dwelling is within the displaced person's financial means as described in § 24.2(c)(6)).

(c) *Inspection of replacement dwelling.* Before making a replacement housing payment or releasing a payment from escrow, the Agency or its designated representative shall inspect the replacement dwelling and determine whether it is a decent, safe, and sanitary dwelling as defined at § 24.2(e).

(d) *Purchase of replacement dwelling.* A displaced person is considered to have met the requirement to purchase a replacement dwelling, if the person:

(1) Purchases a dwelling; or

(2) Purchases and rehabilitates a substandard dwelling; or

(3) Relocates a dwelling which he or she owns or purchases; or

(4) Constructs a dwelling on a site he or she owns or purchases; or

(5) Contracts for the purchase or construction of a dwelling on a site provided by a builder or on a site the person owns or purchases.

(e) *Occupancy requirements for displacement or replacement dwelling.* No person shall be denied eligibility for a replacement housing payment solely because the person is unable to meet the occupancy requirements set forth in this part for a reason beyond his or her control, including:

(1) A disaster, an emergency, or an imminent threat to the public health or welfare, as determined by the President, the Federal agency funding the project, or the Agency; or

(2) Another reason, such as a delay in the construction of the replacement dwelling, military reserve duty, or hospital stay, as determined by the Agency.

(f) *Conversion of payment.* A displaced person who initially rents a replacement dwelling and receives a rental assistance payment under § 24.402(b) is eligible to receive a payment under § 24.401 or § 24.402(c) if he or she meets the eligibility criteria for such payments, including purchase and occupancy within the prescribed 1-year period. Any portion of the rental assistance payment that has been disbursed shall be deducted from the payment computed under § 24.401 or § 24.402(c).

(g) *Payment after death.* A replacement housing payment is personal to the displaced person and upon his or her death the undisbursed portion of any such payment shall not be paid to the heirs or assigns, except that:

(1) The amount attributable to the displaced persons period of actual occupancy of the replacement housing shall be paid.

(2) The full payment shall be disbursed in any case in which a member of a displaced family dies and the other family member(s) continue to occupy a decent, safe, and sanitary replacement dwelling.

(3) Any portion of a replacement housing payment necessary to satisfy the legal obligation of an estate in connection with the selection of a replacement dwelling by or on behalf of a deceased person shall be disbursed to the estate.

Subpart F—Mobile Homes

§ 24.501 Applicability.

This subpart describes the requirements governing the provision of relocation payments to a person displaced from a mobile home and/or mobile homesite who meets the basic eligibility requirements of this part. Except as modified by this subpart, such a displaced person is entitled to a moving expense payment in accordance with Subpart D of this part and a replacement housing payment in accordance with Subpart E of this part to the same extent and subject to the same requirements as persons displaced from conventional dwellings.

§ 24.502 Moving and related expenses—mobile homes.

A tenant or owner-occupant displaced from a mobile home or mobile homesite is entitled to a payment for the cost of moving his or her personal property on an actual cost basis in accordance with § 24.301 or, as an alternative, on the basis of a fixed payment under § 24.302. (However, if the mobile home is not acquired but the owner obtains a replacement housing payment under one of the circumstances described at § 24.503(c), the owner is not eligible for payment for moving the mobile home.) Paragraphs (a), (b) and (c) of this section apply to payments for actual moving expenses under § 24.301:

(a) A displaced mobile homeowner, who moves the mobile home to a replacement site, is eligible for the reasonable cost of disassembling, moving, and reassembling any attached appurtenances (such as porches, decks, skirting, and awnings) which were not acquired, anchoring of the unit, and utility "hook-up" charges.

(b) If a mobile home requires repairs and/or modifications so that it can be moved and/or made decent, safe and sanitary, and the Agency determines that it would be practical to relocate it, the reasonable cost of such repairs and/or modifications is reimbursable.

(c) A nonreturnable mobile home park entrance fee is reimbursable to the extent it does not exceed the fee at a comparable mobile home park, if the person is displaced from a mobile home park or the Agency determines that payment of the fee is necessary to effect relocation.

§ 24.503 Replacement housing payment for 180-day mobile homeowner-occupants.

(a) A displaced owner-occupant of a mobile home is entitled to a replacement housing payment, not to exceed $22,500, under § 24.401 if:

(1) The person both owned the displacement mobile home and occupied it on the displacement site for at least 180 days immediately prior to the initiation of negotiations;

(2) The person meets the other basic eligibility requirements at § 24.401(a); and

(3) The Agency acquires the mobile home and/or mobile home site, or the mobile home is not acquired by the Agency but the owner is displaced from the mobile home because the Agency determines that the mobile home:

(i) Is not and cannot economically be made decent, safe, and sanitary; or

(ii) Cannot be relocated without substantial damage or unreasonable cost; or

(iii) Cannot be relocated because there is no available comparable replacement site; or

(iv) Cannot be relocated because it does not meet mobile home park entrance requirements.

(b) If the mobile home is not actually acquired, but the Agency determines that it is not practical to relocate it, the acquisition cost of the displacement dwelling used when computing the price differential amount, described at § 24.401(c), shall include the salvage value or trade-in value of the mobile home, whichever is higher.

VOL 52 ISS 242 DEC 17 1987 UMI

VOL 52 ISS 242 DEC 17 1987 UMI

§ 24.504 Replacement housing payments for 90-day mobile home occupants.

A displaced tenant or owner-occupant of a mobile home is eligible for a replacement housing payment, not to exceed $5,250, under § 24.402 if:

(a) The person actually occupied the displacement mobile home on the displacement site for at least 90 days immediately prior to the initiation of negotiations;

(b) The person meets the other basic eligibility requirements at § 24.402(a); and

(c) The Agency acquires the mobile home and/or mobile home site, or the mobile home is not acquired by the Agency but the owner or tenant is displaced from the mobile home because of one of the circumstances described at § 24.503(c).

§ 24.505 Additional rules governing relocation payments to mobile home occupants.

(a) *Replacement housing payment based on dwelling and site.* Both the mobile home and mobile home site must be considered when computing a replacement housing payment. For example, a displaced mobile home occupant may have owned the displacement mobile home and rented the site or may have rented the displacement mobile home and owned the site. Also, a person may elect to purchase a replacement mobile home and rent a replacement site, or rent a replacement mobile home and purchase a replacement site. In such cases, the total replacement housing payment shall consist of a payment for a dwelling and a payment for a site, each computed under the applicable section in Subpart E. However, the total replacement housing payment under Subpart E shall not exceed the maximum payment (either $22,500 or $5,250) permitted under the section that governs the computation for the dwelling. (See also § 24.403(b).)

(b) *Cost of comparable replacement dwelling.* (1) If a comparable replacement mobile home is not available, the replacement housing payment shall be computed on the basis of the reasonable cost of a conventional comparable replacement dwelling.

(2) If the Agency determines that it would be practical to relocate the mobile home, but the owner-occupant elects not to do so, the Agency may determine that, for purposes of computing the price differential under § 24.401(c), the cost of a comparable replacement dwelling is the sum of (i) the value of the mobile home, (ii) the cost of any necessary repairs or modifications, and (iii) the estimated cost of moving the mobile home to a replacement site.

(c) *Initiation of negotiations.* If the mobile home is not actually acquired, but the occupant is considered displaced under this part, the "initiation of negotiations" is the initiation of negotiations to acquire the land, or, if the land is not acquired, the written notification that he or she is a displaced person under this part.

(d) *Person moves mobile home.* If the owner is reimbursed for the cost of moving the mobile home under this part, he or she is not eligible to receive a replacement housing payment to assist in purchasing or renting a replacement mobile home. The person may, however, be eligible for assistance in purchasing or renting a replacement site.

(e) *Partial acquisition of mobile home park.* The acquisition of a portion of a mobile home park property may leave a remaining part of the property that is not adequate to continue the operation of the park. If the Agency determines that a mobile home located in the remaining part of the property must be moved as a direct result of the project, the owner and any tenant shall be considered a displaced person who is entitled to relocation payments and other assistance under this part.

Subpart G—Last Resort Housing

§ 24.601 Applicability.

(a) *Basic determination to provide last resort housing.* A person cannot be required to move from his or her dwelling unless at least one comparable replacement dwelling is made available to the person. Whenever an Agency determines that a replacement housing payment under Subpart E would not be sufficient to provide a comparable replacement dwelling on a timely basis to the person, the Agency is authorized to take appropriate measures under this Subpart to provide such a dwelling. The Agency's obligation to ensure that a comparable replacement dwelling is available shall be met when such a dwelling, or assistance necessary to provide such a dwelling, is offered under the provisions of this Subpart.

(b) *Basic rights of persons to be displaced.* The provisions of this Subpart do not deprive any displaced person of any rights the person may have under the Uniform Act or any implementing regulations. The Agency shall not require any displaced person to accept a dwelling provided by the Agency under the procedures in this Subpart (unless the Agency and the displaced person have entered into a contract to do so) in lieu of any acquisition payment or any relocation payment for which the person may otherwise be eligible. A 180-day homeowner-occupant who is eligible for a payment under § 24.401 is entitled to a reasonable opportunity to purchase a comparable replacement dwelling. However, the actual amount of assistance shall be limited to the amount necessary to relocate to a comparable replacement dwelling within one year from the date the displaced homeowner-occupant is paid for the displacement dwelling or the date the person is initially offered a comparable replacement dwelling, whichever is later. (See Appendix A of this part, § 24.601(b).)

§ 24.602 Methods of providing replacement housing.

Agencies shall have broad latitude in implementing this Subpart, but implementation shall be on a reasonable cost basis. The methods of providing last resort housing include, but are not limited to:

(a) Rehabilitation of and/or additions to an existing replacement dwelling.

(b) The construction of a new replacement dwelling.

(c) The provision of a direct loan, which requires regular amortization or deferred repayment. The loan may be unsecured or secured by the real property. The loan may bear interest or be interest-free.

(d) A replacement housing payment in excess of the limits set forth in § 24.401 or § 24.402. A rental assistance subsidy under this Subpart may be provided in installments or in a lump sum.

(e) The relocation and, if necessary, rehabilitation of a dwelling.

(f) The purchase of land and/or a replacement dwelling by the displacing agency and subsequent sale or lease to, or exchange with, a displaced person.

(g) The removal of barriers to the handicapped.

Appendix A to Part 24—Additional Information

This appendix provides additional information to explain the intent of certain provisions of this part.

Subpart A—General

Section 24.2(c) Definition of comparable replacement dwelling.

The requirement in § 24.2(c)(2) that a comparable replacement dwelling be "functionally similar" to the displacement dwelling means that it must perform the same function, provide the same utility, and be capable of contributing to a comparable style of living as the displacement dwelling. While it need not possess every feature of the displacement dwelling, the principal features must be present.

Generally, functional similarity is an objective standard, reflecting the range of purposes for which the various features of a dwelling may physically be used. However, in determining whether a replacement dwelling is functionally similar to the displacement dwelling, the Agency may consider reasonable trade-offs in specific features when the replacement unit is "equal or better than" the displacement dwelling.

For example, if the displacement dwelling contains a pantry and a similar dwelling is not available, a replacement dwelling with ample kitchen cupboards may be acceptable. Insulated and heated space in a garage might prove an adequate substitute for basement workshop space. A dining area may substitute for a separate dining room. Under some circumstances, attic space could substitute for basement space for storage purposes, and vice versa. Only in unusual circumstances may a comparable replacement dwelling contain fewer rooms or consequentially less living space than the displacement dwelling. Such may be the case when a decent, safe, and sanitary replacement dwelling (which by definition is "adequate to accommodate" the displaced person) may be found to be "functionally similar" to a larger but very run-down substandard displacement dwelling.

Section 24.2(c)(5) requires that a comparable replacement dwelling for a person who is not receiving assistance under any government housing program before displacement must be currently available on the private market without any subsidy under a government housing program.

A public housing unit may qualify as a comparable replacement dwelling only for a person displaced from a public housing unit; a privately-owned dwelling with a housing program subsidy tied to the unit may qualify as a comparable replacement dwelling only for a person displaced from a similarly subsidized unit or public housing; a housing program subsidy to a person (not tied to the building), such as a HUD Section 8 Existing Housing Program Certificate or a Housing Voucher, may be reflected in an offer of a comparable replacement dwelling to a person receiving a similar subsidy or occupying a privately-owned subsidized unit or public housing unit before displacement.

However, nothing in this part prohibits an Agency from offering, or precludes a person from accepting, assistance under a government housing program, even if the person did not receive similar assistance before displacement. However, the Agency is obligated to inform the person of his or her options under this part. (If a person accepts assistance under a government housing program, the rental assistance payment under § 24.402 would be computed on the basis of the person's actual out-of-pocket cost for the replacement housing.)

Section 24.2(f)(2) Persons not displaced.

Section 24.2(f)(2)(iii) recognizes that there are circumstances where the acquisition of real property takes place without the intent or necessity that an occupant of the property be displaced. Because such occupants are not considered "displaced persons" under this part, great care must be exercised to ensure that they are treated fairly and equitably. For example, if the tenant-occupant of a dwelling will not be displaced, but is required to relocate temporarily in connection with the project, the temporarily-occupied housing must be decent, safe and sanitary and the tenant must be reimbursed for all reasonable out-of-pocket expenses incurred in connection with the temporary relocation, including moving expenses and increased housing costs during the temporary relocation.

It is also noted that any person who disagrees with the Agency's determination that he or she is not a displaced person under this part may file an appeal in accordance with § 24.10.

Section 24.2(k) Initiation of negotiations.

This section of the part provides a special definition for acquisitions and displacements under Pub. L. 96–510 or Superfund. These activities differ under Superfund in that relocation may precede acquisition, the reverse of the normal sequence. Superfund is a program designed to clean up hazardous waste sites. When such a site is discovered, it may be necessary, in certain limited circumstances, to alert the public to the danger and to the advisability of moving immediately. If a decision is made later to permanently relocate such persons, those who had moved earlier would no longer be on site when a formal, written offer to acquire the property was made and thus would lose their eligibility for a replacement housing payment. In order to prevent this unfair outcome, we have provided a definition which is based on the public health advisory or announcement of permanent relocation.

Section 24.3 No duplication of payments.

This section prohibits an Agency from making a payment to a person under this part that would duplicate another payment the person receives under Federal, State, or local law. The Agency is not required to conduct an exhaustive search for such other payments; it is only required to avoid creating a duplication based on the Agency's knowledge at the time a payment under this part is computed.

Section 24.9(c) Reports.

This paragraph allows Federal agencies to require the submission of a report on activities under the Uniform Act no more frequently than once every three years. The report, if required, will cover activities during the Federal fiscal year immediately prior to the submission date. In order to minimize the administrative burden on Agencies implementing this part, a basic report form (see Appendix B of this part) has been developed which, with only minor modifications, would be used in all Federal and federally-assisted programs or projects.

Subpart B—Real Property Acquisition

Section 24.101(a) General.

The provisions of this subpart apply to real property acquisition for the following types of Federal or federally-assisted programs or projects:

(1) Those carried out under the threat of eminent domain, including amicable agreements under the threat of such power.

(2) Where there is an intended, planned, or designated project area, and all or substantially all of the property within that area is eventually intended to be acquired. Such acquisitions are subject to the requirements of this subpart whether or not the Agency has or intends to use the power of eminent domain.

Provided it does not conflict with the foregoing, an Agency may determine that the requirements of this subpart do not apply to an acquisition if all of the following conditions are present:

(1) No specific site or property needs to be acquired, although the Agency may limit its search for alternative sites to a general geographic area.

(2) The property to be acquired is not part of an intended, planned, or designated project area where all or substantially all of the property within the area is eventually to be acquired.

(3) The Agency will not acquire the property in the event negotiations fail to result in an amicable agreement, and the owner is so informed.

Acquisitions meeting the foregoing criteria are classified as voluntary transactions. The essence of a voluntary transaction is the conditions surrounding the transaction, not the type of transaction itself. A voluntary transaction may involve a donation, an exchange, or a market sale, if the transaction is without compulsion on the part of the Agency.

In those situations where an Agency wishes to purchase more than one site within a geographic area on a "voluntary transaction" basis, it is intended that all owners be treated similarly.

Although the displacement of the owner-occupant of the real property as a result of a voluntary transaction is not subject to this part (see § 24.2(f)(2)(vi)), the displacement of a tenant-occupant of the real property is subject to this part.

Section 24.101(b) Less-than-full-fee interest in real property.

This provision provides a benchmark beyond which the requirements of the subpart clearly apply to leases. However, the Agency may apply the regulations to any less-than-full-fee acquisition which is short of 50 years but which in its judgment should be covered.

Section 24.102(d) Establishment of offer of just compensation.

The initial offer to the property owner may not be less than the amount of the Agency's approved appraisal, but may exceed that amount if the Agency determines that a greater amount reflects just compensation for the property.

Section 24.102(f) Basic negotiation procedures.

It is intended that an offer to an owner be adequately presented, and that the owner be properly informed. Personal, face-to-face contact should take place, if feasible, but this

section is not intended to require such contact in all cases.

Section 24.102(i) Administrative settlement.

This section provides guidance on administrative settlement as an alternative to judicial resolution of a difference of opinion on the value of a property, in order to avoid unnecessary litigation and congestion in the courts.

All relevant facts and circumstances should be considered by an Agency official delegated this authority. Appraisers, including reviewing appraisers, must not be pressured to adjust their estimate of value for the purpose of justifying such settlements. Such action would invalidate the appraisal process.

Section 24.102(j) Payment before taking possession.

It is intended that a right-of-entry for construction purposes be obtained only in the exceptional case, such as an emergency project, when there is no time to make an appraisal and purchase offer and the property owner is agreeable to the process.

Section 24.102(m) Fair Rental.

Section 301(6) of the Uniform Act limits what an Agency may charge when a former owner or previous occupant of a property is permitted to rent the property for a short term or when occupancy is subject to termination by the Agency on short notice. Such rent may not exceed "the fair rental value * * * to a short-term occupier." The Agency's right to terminate occupancy on short notice (whether or not the renter also has that right) supports the establishment of a lesser rental than might be found in a longer, fixed-term situation.

Section 24.103(b) Standards of appraisal.

In paragraph (b)(3) of this section, it is intended that all relevant and reliable approaches to value be utilized. However, where an Agency determines that the market approach will be adequate by itself because of the type of property being appraised and the availability of sales data, it may limit the appraisal assignment to the market approach.

Section 24.103(c) Influence of the project on just compensation.

As used in this section, the term "project" is intended to mean an undertaking which is planned, designed, and intended to operate as a unit.

Because of the public knowledge of the proposed project, property values may be affected. A property owner should not be penalized because of a decrease in value caused by the proposed project nor reap a windfall at public expense because of increased value created by the proposed project.

Section 24.103(f) Conflict of interest.

The overall objective is to minimize the risk of fraud and mismanagement and to promote public confidence in Federal and federally-assisted land acquisition practices. Recognizing that the costs may outweigh the benefits in some circumstances, the part provides that the same person may both appraise and negotiate an acquisition, if the value is $2,500 or less. However, it should be noted that all appraisals must be reviewed in accordance with § 24.104. This includes appraisals of real property valued at $2,500, or less.

Section 24.104 Review of appraisals.

This section recognizes that Agencies differ in the authority delegated to the review appraiser. In some cases the reviewer establishes the amount of the offer to the owner and in other cases the reviewer makes a recommendation which is acted on at a higher level. It is also within Agency discretion to decide whether a second review is needed if the first review appraiser establishes a value different from that in the appraisal report or reports on a property.

Before acceptance of an appraisal, the review appraiser must determine that the appraiser's documentation, including valuation data and the analyses of that data, demonstrates the soundness of the appraiser's opinion of value. The qualifications of the review appraiser and the level of explanation of the basis for the reviewer's recommended or approved value depend on the complexity of the appraisal problem. For a low value property requiring an uncomplicated valuation process, the reviewer's approval, endorsing the appraiser's report, may satisfy the requirement for the reviewer's statement.

Section 24.106 Expenses incidental to transfer of title to the agency.

Generally, the Agency is able to pay such incidental costs directly and, where feasible, is required to do so. In order to prevent the property owner from making unnecessary out-of-pocket expenditures and to avoid duplication of expenses, the property owner should be informed early in the acquisition process of the Agency's intent to make such arrangements. In addition, it is emphasized that such expenses must be reasonable and necessary.

Section 24.108 Donations.

This section provides that the Agency must obtain an appraisal and offer the full amount of just compensation due unless the owner, after being fully informed of such policies, releases the Agency from these obligations.

Subpart C—General Relocation Requirements

Section 24.204(a) Availability of comparable replacement dwelling before displacement.

This provision requires that no one may be required to move from a dwelling without one comparable replacement dwelling having been made available. In addition, this part requires that, "Where possible, three or more comparable replacement dwellings shall be made available." Thus the basic standard for the number of referrals required under this part is three. Only in situations where three comparable replacement dwellings are not available (e.g., when the local housing market does not contain three comparable dwellings) may the Agency make fewer than three referrals.

Section 24.205 Relocation assistance advisory services.

Section 24.205(b)(2)(iii) is intended to emphasize that if the comparable replacement dwellings are located in areas of minority concentration, minority persons should, if possible, also be given opportunities to relocate to replacement dwellings not located in such areas.

Section 24.206 Eviction for cause.

Basic eligibility for assistance is established on the basis of facts existing as of the date of the initiation of negotiations. Once the Agency has determined that a person has satisfied such requirements, there is no basis for changing that determination.

Section 24.207 General requirements claims for relocation payments.

Section 24.207(a) allows an Agency to make a payment for low cost or uncomplicated moves without additional documentation, as long as the payment is limited to the amount of the lowest acceptable bid or estimate.

Subpart E—Replacement Housing Payments

Section 24.401 Replacement housing payment for 180-day homeowner-occupants.

The provision in § 24.401(c)(4)(iii) to use the current fair market value for residential use does not mean the Agency must have an appraisal made. Any reasonable method at arriving at the fair market value may be used.

Section 24.402 Replacement housing payment for 90-day occupants.

The provision in § 24.402(b)(1) to use the fair market rent for the displacment dwelling is intended to address the computation of payments for homeowner-occupants (who, of course, paid no rent before displacement) and those unusual situations in which a tenant is paying an unreasonably low rent and a payment based on such rent would provide a windfall. The provision is not intended to apply in those situations where the use of the fair market rent would result in a hardship because of the displaced person's income or other special circumstances.

The downpayment assistance provisions in § 24.402(c) are intended to limit such assistance to the amount of the computed rental assistance payment for a tenant or an eligible homeowner. It does, however, provide the latitude for agency discretion in offering downpayment assistance which exceeds the computed rental assistance payment, up to the $5,250 statutory maximum. This does not mean, however, that such agency discretion may be exercised in a selective or indiscriminate fashion. The displacing agency should develop a policy which affords equal treatment for persons in like circumstances and this policy should be applied uniformly throughout the agency's programs or projects.

For purposes of this section, the term downpayment means the downpayment ordinarily required to obtain conventional loan financing for the decent, safe, and sanitary dwelling actually purchased and occupied. However, if the downpayment actually required of a displaced person for the purchase of the replacement dwelling exceeds the amount ordinarily required, the amount of the downpayment may be the amount which the agency determines is necessary.

Subpart F—Mobile Homes

Section 24.503(c) Replacement housing payment for 180-day mobile homeowner-occupants.

A 180-day owner-occupant who is displaced from a mobile home on a rented site may be eligible for a replacement housing payment for a dwelling computed under § 24.401 and a replacement housing payment for a site computed under § 24.402. A 180-day owner-occupant of both the mobile home and the site, who relocates the mobile home, may be eligible for a replacement housing payment under § 24.401 to assist in the purchase of a replacement site or, under § 24.402, to assist in renting a replacement site.

Subpart G—Last Resort Housing

Section 24.601(a) Basic determination to provide last resort housing.

No additional guidelines for implementation are included in the part because additional requirements would tend to limit the flexibility considered necessary or appropriate to provide comparable replacement housing on a timely basis.

Section 24.601(b) Basic rights of persons to be displaced.

This paragraph affirms the right of a 180-day homeowner-occupant, who is eligible for a replacement housing payment under § 24.401, to a reasonable opportunity to purchase a comparable replacement dwelling. However, it should be read in conjunction with the definition of "owner of displacement dwelling" at § 24.2(1). The Agency is not required to provide persons owning only a fractional interest in the displacement dwelling a greater level of assistance to purchase a replacement dwelling than the Agency would be required to provide such persons if they owned fee simple title to the displacement dwelling. If such assistance is not sufficient to buy a replacement dwelling, the Agency may provide additional purchase assistance or rental assistance.

Section 24.602 Methods of providing replacement housing.

The use of cost effective means of providing replacement housing is implied throughout the part. The term "reasonable cost" is used here to underline the fact that while innovative means to provide housing are allowed, they should be cost-effective.

Appendix B to Part 24—Statistical Report Form

This appendix sets forth the statistical information which may be collected from Agencies in accordance with § 24.9(c).

General

1. *Report coverage.* This report covers all relocation and real property acquisition activities under a Federal or a federally assisted project or program subject to the provisions of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, as amended (herein called the "Uniform Act").

2. *Report period.* Activities shall be reported on a Federal Fiscal Year basis, i.e., October 1–September 30, for the year in which the report is required.

3. *Where and when to submit report.* Submit an original and two copies of this report to (*Name and Address of Federal Agency*) as soon as possible after September 30, but *NOT LATER THAN NOVEMBER 15,* of the year in which the report is due.

4. *How to report relocation payments.* The full amount of a relocation payment shall be reported as if disbursed in the year during which the payment was approved, regardless of whether the payment is to be paid in installments.

5. *How to report dollar amounts.* Round off all money entries in Parts B and C to the nearest dollar.

6. *Statutory references.* The references in parentheses in Part B indicate the section of the Uniform Act that authorizes the cost.

PART A. Persons displaced

Report in Part A the number of persons ("households," "businesses, including nonprofit organizations," and "farms") who were permanently displaced during the report year by project or program activities and moved to their replacement dwelling or location. This includes businesses, nonprofit organizations and farms which, upon displacement, discontinued operations. The category "households" includes all families and individuals. A family shall be reported as "one" household, *not* by the number of people in the family unit. Persons shall be reported according to their status as "owners" or "tenants" of the property from which displaced.

PART B. Relocation payments and expenses

Columns (a) and (b). Report in Column (a) the number of claims approved during the report year. Report in Column (b) the total amount represented by the claims reported in Column (a).

Line 10b, Column (b). Report in Column (b) the amount of increased mortgage interest costs that was included in the total amount approved for Replacement Housing Payments for Homeowners on Line 10a, Column (b). Leave Line 10b, Column (a) blank.

Line 13. Report in Column (a) the number of households displaced by project or program activities which were provided assistance in accordance with section 206(a) of the Uniform Act. Report in Column (b) the total financial assistance under section 206(a) allocable to the households reported in Column (a). (If a household received financial assistance under section 203 or section 204 as well as under section 206(a) of the Uniform Act, report the household as a claim in Column (a), but in Column (b) report only the amount of financial assistance allocable to section 206(a). For example, if a tenant-household receives a payment of $7,000 to rent a replacement dwelling, the sum of $5,250 shall be included on Line 11, Column (b), and $1,750 shall be included on Line 13, Column (b).)

Line 14. Report on Line 14 all administrative costs incurred during the report year in connection with providing relocation advisory assistance and services under section 205 of the Uniform Act.

PART C—Real property acquisition subject to Uniform Act

Line 16, Columns (a) and (b). Report in Column (a) all parcels acquired during the report year where title or possession was vested in the acquiring agency during the reporting period. (Include parcels acquired without Federal financial assistance, if there was or will be Federal financial assistance in other phases of the project or program.) Report in Column (b) the total of the amounts paid, deposited in court, or otherwise made available to a property owner pursuant to applicable law in order to vest title or possession in the acquiring agency.

Line 17. Report on Line 17 the number of parcels reported on Line 16 that were acquired by condemnation where price disagreement was involved. Leave Line 17, Column (b), blank.

PART D—Relocation appeals filed during report year

Line 18. Report on Line 18 the total number of relocation appeals filed during the report year by a person alleging the Agency failed to properly determine the person's eligibility for, or the amount of, a relocation payment required under these regulations.

Uniform Relocation Assistance and Real Property Acquisition for Federal and Federally Assisted Programs

AGENCIES: Department of Agriculture; Department of Commerce; Department of Defense; Department of Education; Department of Energy; Department of Health and Human Services; Department of the Interior; Department of Justice; Department of Labor, Department of Transportation; Environmental Protection Agency; Federal Emergency Management Agency; General Services Administration; National Aeronautics and Space Administration; Pennsylvania Avenue Development Corporation; Tennessee Valley Authority; Veterans' Administration.

ACTION: Interim final rule; request for comments.

SUMMARY: This interim final rule provides for the partial implementation of the Uniform Relocation Act Amendments of 1987 (1987 Amendments) (Title IV of the Surface Transportation and Uniform Relocation Assistance Act of 1987, Pub. L. 100-17, 101 Stat. 132). The 1987 Amendments make several changes to the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Uniform Act), 42 U.S.C. 4601-4655 (1982). One of the primary purposes of the 1987 Amendments was to establish a governmentwide single rule, published at a single location in the Code of Federal Regulations (CFR) to implement the provisions of the Uniform Act. The 1987 Amendments become fully applicable on April 2, 1989. This interim final rule is intended to do two things. First, it provides a transition from the existing governmentwide common rule on the Uniform Act, published at 17 separate places in the Code of Federal Regulations to a governmentwide single rule appearing at 49 CFR Part 24. Secondly, it provides a means whereby Federal programs, that are able to implement the explicit, nondiscretionary provisions of the 1987 Amendments, may do so. A more detailed discussion of the implementation of the 1987 Amendments is contained in the U.S. Department of Transportation (DOT) interim final rule which appears elsewhere in this **Federal Register**, and in DOT's recent notice of regulatory intent on this subject at 52 FR 45667.

DATES: The effective date of the interim final rule and the date by which comments must be received are as stated in the agency specific preambles.

ADDRESSES: See individual agencies below.

FOR FURTHER INFORMATION CONTACT: See individual agencies below.

SUPPLEMENTARY INFORMATION:

Currently 17 Federal agencies have codified in 17 different places in the Code of Federal Regulations (CFR) a governmentwide verbatim common rule to implement the Uniform Act. This common rule was published in the February 27, 1986 **Federal Register** (51 FR 6999-7040). This document removes the text of this common rule from all but one of the 17 places by no later than April 2, 1989. The actual implementation date will vary from agency to agency depending upon program authority and administrative need.

The instrument for this removal (rescission) is an interim final rule with a request for public comments. An interim final action is used instead of a proposed action because the Department of Transportation (DOT), the lead agency for the Uniform Act, interprets the 1987 Amendments to call for a single governmentwide rule codified in one instead of 17 places in the Code of Federal Regulations. This interpretation is based upon the language of the Uniform Act and its legislative history. Section 213(a) of the Uniform Act, as amended, directs the lead agency to "develop, publish, and issue * * * such regulations as may be necessary to carry out this Act" with the "active participation" of the Department of Housing and Urban Development and other concerned Federal agencies. Congress intended that "the lead agency rules should provide sufficient direction to preclude the need for the issuance of regulations by other Federal agencies", in order to "insure uniformity and minimize burdens on State and local agencies", H.R. Rep. 99-665, 99th Cong. 2d Sess. 92 (1986); and that "there be a single uniform set of Federal regulations, so that State and local governments do not have to bear the administrative expense of following multiple sets of Federal regulations". 133 Cong. Rec. S1560 (daily ed. February 3, 1987).

Therefore, in the future all changes to the single governmentwide rule could be proposed and then made by DOT, with participation of, but no action by, the other affected Federal agencies. This is consistent with the statute and the expressed intent of Congress in the House Report, would simplify implementation of the Uniform Act, and would reduce administrative burdens upon Federal agencies when revisions to the Uniform Act regulations are proposed. However, this approach would mean that other Federal agencies will no longer be publishing their own full text rules implementing the Uniform

Act in their Chapter of the Code of Federal Regulations, and State or local agencies receiving Federal financial assistance from such agencies would have to refer to the single governmentwide rule at 49 CFR Part 24 to find the full text of the regulations implementing the Uniform Act. Public comments are requested on this approach. Subject to consideration of any comments received, this interim final rule will become the final rescission and a Notice of such final action will appear in the Federal Register.

Also, this document inserts for all agencies other than DOT in their respective parts of the CFR merely a cross reference to the full text rule appearing in the Department of Transportation's part of the CFR at 49 CFR Part 24. The instrument for this replacement is an interim final rule with a request for public comments. An interim final action is used versus a proposed action to take immediate advantage of those benefits of the new statute which do not require discretion by the Federal Government. This document provides for a transition period to allow those Federal programs that are able to take immediate advantage of the explicit, non-discretionary benefits provided by the new law to do so, while enabling other Federal programs to continue operating under the common rule.

Subject to consideration of any comments received, this interim final rule will become final and a Notice of such final action will appear in the Federal Register. In this document, each of the 16 affected agencies (besides DOT) is indicating appropriate effective dates (no later than April 2, 1989) for this replacement for each of their programs.

For a more detailed discussion of the entire rulemaking approach (including a DOT notice of proposed rulemaking—to reflect provisions of the new statute which require discretion by the Federal Government—to appear later), see DOT's interim final rule with a request for public comments which appears elsewhere in this Federal Register. In addition, see DOT's recent notice of regulatory intent on this subject at 52 FR 45557.

Executive Order 12291

Executive Order 12291 requires that a regulatory impact analysis be prepared for "major" rules which are defined in the Order as any rule that has an annual effect on the national economy of $100 million or more, or certain other specified effects. Some of the changes in the 1987 Amendments are administrative or procedural, which should result in savings to Federal, State, and local agencies in administering the Uniform Act. Other changes alter benefit levels, which should result in a modest increase in amounts paid under the Uniform Act.

However, we do not believe that the regulations will have an annual economic effect of $100 million or more or the other effects listed in the Order. For this reason, we have determined that these regulations are not a major rule within the meaning of the Order.

Regulatory Flexibility Act of 1980

The Regulatory Flexibility Act (5 U.S.C. 605(b)) requires that for each rule with a "significant economic impact on a substantial number of small entities", an analysis be prepared describing the rule's impact on small entities and identifying any significant alternatives to the rule that would minimize the economic impacts on small entities.

The provisions of the Uniform Act which provide the benefits covered by the proposed rule have not changed substantially. The primary impact of the 1987 Amendments is expected to be an increase in benefits provided to small businesses, the elimination of unnecessary administrative requirements imposed on State and local agencies, and the consequent reduction of burden on those affected entities.

Paperwork Reduction Act

This interim final rule does not contain or impose any new or revised collection of information requirements subject to the Paperwork Reduction Act, other than those already approved. If any such requirements are subsequently proposed in implementing the 1987 Amendments, they will be submitted to the Office of Management and Budget for review under section 3504(h) of the Paperwork Reduction Act, Pub. L. 96-511.

DEPARTMENT OF AGRICULTURE

7 CFR Part 21

DATES: The amendment to § 21.1 is effective January 19, 1988. The revision of Part 21 is effective April 2, 1989. Comments must be received on or before February 16, 1988.

ADDRESSES: Comments should be sent to Mr. Frank Gearde, Jr., Director, Office of Operations, United States Department of Agriculture, Room 113-W, Administration Building, 14th and Independence Avenue, SW, Washington, DC, 20250. Comments will be available for review at the above address from 9:00 a.m. to 3:30 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Frank W. Bright, Realty Specialist, Office of Operations, United States Department of Agriculture, Room 1566-South Building, 14th and Independence Avenue, SW, Washington, DC, 20250, Area Code 202, Telephone No. 447-5225. Office hours Monday through Friday from 8:00 a.m. to 4:30 p.m.

List of Subjects in 7 CFR Part 21.

Real property acquisition, Relocation assistance.

Title 7 of the Code of Federal Regulations is amended as set forth below.

Issued in Washington, D.C., November 24, 1987.

John J. Franke, Jr.,
Assistant Secretary for Administration.

PART 21—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

1. The authority citation for Part 21 is revised to read as follows:

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91-646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100-17, 101 Stat. 246-256 (42 U.S.C. 4601 note).

2. Section 21.1 is amended as follows:

a. The title of the section is revised to read as set forth below.

b. The introductory text of the section is designated paragraph "(a) *Purpose.*" and the paragraphs currently designated (a) and (b) are redesignated (a)(1) and (a)(2) respectively.

c. A new paragraph (b) is added to read as set forth below.

§ 21.1 Purpose and applicability.

(a) *Purpose.* * * *

* * * * *

(b) *Applicability.* (1) Regulations applicable to those programs which are able to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100-17, 101 Stat. 246-256, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24. The implementation date for each program affected by this section is listed below:

Direct federal activities.....January 19, 1988.
Federally-assisted activities...as soon as state law permits, but no later than April 2, 1989.

(2) Until April 2, 1989, the provisions of this part are applicable only to those activities which are unable to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100-17, 101 Stat. 246-256, 42 U.S.C. 4601 note).

3. Part 21 is revised to read as set forth below:

PART 21—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

Authority: Section 231, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91-646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100-17, 101 Stat. 246-256 (42 U.S.C. 4601 note).

§ 21.1 Uniform relocation assistance and real property acquisition.

Regulations and procedures for complying with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Pub. L. 91-646, 84 Stat. 1894, 42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100-17, 101 Stat. 246-256, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24.

DEPARTMENT OF ENERGY

10 CFR Part 1039

DATES: The amendment to § 1039.1 is effective January 19, 1988. The revision of Part 1039 is effective April 2, 1989. Comments must be received on or before February 16, 1988.

ADDRESSES: Comments should be sent to: Office of Project and Facilities Management, United States Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Donald G. Trost, MA-222, Chief, Real Property Branch, Real Property and Facilities Management Division, United States Department of Energy, 1000 Independence Ave. SW., Washington, DC 20585, (202) 586-1191, John Herrick, Esq. GC-34, United States Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585 (202) 586-0905.

List of Subjects in 10 CFR Part 1039

Real property acquisition, Relocation assistance.

Title 10 of the Code of Federal Regulations is amended as set forth below.

Lawrence F. Davenport,
Assistant Secretary, Management and Administration.

PART 1039—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

1. The authority citation for Part 1039 is revised to read as follows:

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91-646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100-17, 101 Stat. 246-256 (42 U.S.C. 4601 note).

2. Section 1039.1 is amended as follows:

a. The title of the section is revised to read as set forth below.

b. The introductory text of the section is designated paragraph "(a) *Purpose.*" and the paragraphs currently designated (a) and (b) are redesignated (a)(1) and (a)(2) respectively.

c. A new paragraph (b) is added to read as set forth below.

§ 1039.1 Purpose and Applicability.

(a) *Purpose.*

* * * * *

(b) *Applicability.* (1) After January 19, 1988, the Department of Energy will be able to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100-17, 101 Stat. 246-256, 42 U.S.C. 4601 note) and will be governed by implementing regulations set forth in 49 CFR Part 24.

(2) Until April 2, 1989, the provisions of this part are applicable only to those program activities which were undertaken prior to (effective date of this section) and which, therefore, were unable to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100-17, 101 Stat. 246-256, (42 U.S.C. 4601 note).

3. Part 1039 is revised to read as set forth below:

PART 1039—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91-646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100-17, 101 Stat. 246-256 (42 U.S.C. 4601 note).

§ 1039.1 Uniform relocation assistance and real property acquisition.

Regulations and procedures for complying with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Pub. L. 91-646, 84 Stat. 1894, 42 U.S.C. 4601), as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100-17, 101 Stat. 246-255, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

14 CFR Part 1208

DATES: This revision of Part 1208 is effective January 19, 1988. Comments must be received on or before February 16, 1988.

ADDRESSES: Comments should be sent to Facilities Management Office, Code NXG, NASA Headquarters, Washington, DC 20546.

FOR FURTHER INFORMATION CONTACT: Ms. Gitta Haber, 202-453-1958.

List of Subjects in 14 CFR Part 1208

Uniform relocation assistance, Real property, Relocation, Federally assisted programs, Housing, Real property acquisition, Relocation requirements, Replacement housing, Mobile homes, Moving and related expenses, Relocation assistance.

Title 14 of the Code of Federal Regulations is amended by revising Part 1208 as set forth below.

November 23, 1987.

James C. Fletcher,
Administrator.

PART 1208—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91-646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100-17, 101 Stat. 246-256 (42 U.S.C. 4601 note).

§ 1208.1 Uniform Relocation Assistance and Real Property Acquisition.

Regulations and procedures for complying with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Pub. L. 91-646, 84 Stat. 1894, 42 U.S.C. 4601), as amended by the Surface Transportation and Uniform Relocation Assistance Act

VOL 52 ISS 242 DEC 17 1987 UMI

of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–255, 42 U.S.C. 4601 note) are set forth in 24 CFR Part 24.

DEPARTMENT OF COMMERCE

[Docket No. 71159–7259]

15 CFR Part 11

DATES: The amendment to § 11.1 is effective January 19, 1988. The revision of Part 11 is effective April 2, 1989. Comments must be received on or before February 16, 1988.

ADDRESSES: Comments should be sent to: Office of Administrative Services Management, United States Department of Commerce, Room 6319, HCHB, Washington, DC 20230.

FOR FURTHER INFORMATION CONTACT: Mary DiGiulian, Director, Office of Administrative Services Management, United States Department of Commerce, Washington, DC 20230 (202–377–0884).

ADDITIONAL SUPPLEMENTARY INFORMATION: For federally assisted activities funded by the Department of Commerce, compliance with the 1987 Amendments and government-wide implementing regulation at 49 CFR Part 24 depends upon the legal authority possessed by the recipient of the Federal assistance. Therefore, the date that the Department's program activities become subject to the government-wide regulation is the date the recipient of Federal assistance is legally able to comply, but not later than April 2, 1989.

The collection of information requirements contained in this rule have been approved under OMB No. 0605–0020.

List of Subjects in 15 CFR Part 11

Real property acquisition, relocation assistance, reporting and recordkeeping requirements.

Title 15 of the Code of Federal Regulations is amended as set forth below.

Hugh L. Brennan,

Director, Office of Procurement and Administrative Services.

PART 11—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

1. The authority citation for Part 11 is revised to read as follows:

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100–17, 101 Stat. 246–256 (42 U.S.C. 4601 note).

2. Section 11.1 is amended as follows:

a. The title of the section is revised to read as set forth below.

b. The introductory text of the section is designated paragraph "(a) *Purpose.*" and the paragraphs currently designated (a) and (b) are redesignated (a)(1) and (a)(2) respectively.

c. A new paragraph (b) is added to read as set forth below.

§ 11.1 Purpose and applicability.

(a) *Purpose.* * * *

* * * * *

(b) *Applicability.* (1) Regulations applicable to those recipients of Federal assistance who are able to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24. Such recipients will be governed by 49 CFR Part 24 as soon as they are legally able to comply but not later than April 2, 1989.

(2) Until April 2, 1989, the provisions of this part are applicable only to those recipients of Federal assistance who are unable to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note).

3. Part 11 is revised to read as set forth below:

PART 11—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100–17, 101 Stat. 246–256 (42 U.S.C. 4601 note).

§ 11.1 Uniform relocation and real property acquisition.

Regulations and procedures for complying with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Pub. L. 91–646, 84 Stat. 1894, 42 U.S.C. 4601), as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–255, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24.

TENNESSEE VALLEY AUTHORITY

18 CFR Part 1306

DATES: The amendment to § 1306.1 in amendatory instruction 2 is effective January 19, 1988. The amendments in amendatory instructions 3 and 4 are effective April 2, 1989. Comments must be received on or before February 16, 1988.

ADDRESS: Comments should be sent to: Edward S. Christenbury, General Counsel, Tennessee Valley Authority, E11 B33, 400 West Summit Hill Drive, Knoxville, Tennessee 37902.

Comments received will be available for public inspection at Technical Library, Tennessee Valley Authority, E2 B7, 400 West Summit Hill Drive, Knoxville, Tennessee 37902, from 8:00 a.m. to 4:45 p.m. Monday through Friday except legal holidays.

FOR FURTHER INFORMATION CONTACT: James E. Fox, Deputy General Counsel, Tennessee Valley Authority, E11 B36, 400 West Summit Hill Drive, Knoxville, Tennessee 37902, 615–632–4151.

ADDITIONAL SUPPLEMENTARY INFORMATION: Titles I and II of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Pub. L. 91–646, 84 Stat. 1894, 42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note) (Uniform Act, as amended) will govern relocation assistance by TVA; and relocation assistance under those titles will be governed by implenting regulations set forth in Subpart A and Subparts C through G of 49 CFR Part 24.

The Tennessee Valley Authority (TVA) has determined that it is able to comply expeditiously with the relocation provisions of the 1987 Amendments, and with Subpart A and Subparts C through G of the government-wide interim final rule on this subject, published by the Department of Transportation (DOT) as 49 CFR Part 24, elsewhere in todays' **Federal Register**. Therefore, as of the effective date of this regulation, TVA programs will be governed by those portions of the DOT regulation. TVA is not adopting Subpart B of the DOT regulation concerning real property acquisition because section 213(c) of the Uniform Act, as amended, is applicable to TVA as to the DOT relocation assistance regulations implementing Titles I and II but not to the DOT real property acquisition regulations implementing Title III of the Uniform Act, as amended.

The DOT rule published elsewhere in today's **Federal Register** is basically the same as the common relocation rule that was adopted by 17 Federal departments and agencies on February 27, 1986 (51 FR 7000) (except for certain nondiscretionary changes contained in the 1987 Amendments). The primary purpose of this rulemaking action is to enable all agencies to cross reference to a single government-wide rule and to permit compliance with nondiscretionary provisions of the 1987 Amendments. TVA did not adopt that government-wide prior common rule, but has been operating under similar relocation rules at 18 CFR Part 1306. However, as a result of the 1987 Amendments, section 213 of the Uniform Act, as amended, now requires that all Federal agencies use a single government-wide regulation in implementing the Uniform Act, as amended, except as noted above with respect to TVA. Further, section 213(c) of the Uniform Act, as amended, now specifically provides that the government-wide relocation regulation implementing Titles I and II of the Uniform Act, as amended, shall apply to TVA.

Because of the specific language of section 213(c) and because this rulemaking action does not result in any material change in TVA's regulations applicable to, and its interpretation of, Titles I and II of the Uniform Act, as amended, TVA finds good cause that prior notice or an opportunity for prior comments is unnecessary and therefore makes this rule effective as an interim final rule without such prior notice or opportunity for prior comment. However, comments are invited on this change.

List of Subjects in 18 CFR Part 1306

Real property acquisition, Relocation assistance.

Title 18 of the Code of Federal Regulations is amended as set forth below.

Part 1306—RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES

1. The authority citation for Part 1306 is revised to read as follows:

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100–17, 101 Stat. 246–256 (42 U.S.C. 4601 note); 40 Stat. 56, as amended (16 U.S.C. 831–831dd).

2. Section 1306.1 is revised to read as follows. This amendment is effective January 19, 1988.

§ 1306.1 Purpose and applicability.

(a) *Purpose.* The purpose of the regulations and procedures in this Subpart A is to implement Uniform Relocation Assistance and Real Property acquisition Policies Act of 1970 (Pub. L. 91–646, 84 Stat. 42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, Stat. 246–256, 42 U.S.C. 4601 note) (Uniform Act, as amended).

(b) *Applicability.* (1) Titles I and II of the Uniform Act, as amended, govern relocation assistance by TVA. For TVA program activities undertaken after January 19, 1988, relocation assistance under those titles will be governed by implementing regulations set forth in Subpart A and Subparts C through G of 49 CFR Part 24, in lieu of sections 1306.2 through 1306.17 and 1306.23 of this part.

(2) For program activities undertaken prior to January 19, 1988, relocation assistance will (until April 2, 1989) be governed by §§ 1306.2 through 1306.17 and § 1306.23.

(3) Regulations and procedures for complying with the real property acquisition provisions to Title III of the Uniform Act, as amended, are set forth in this part.

3. Section 1306.1(b) is revised to read as follows. This amendment is effective April 2, 1989.

§ 1306.1 Purpose and applicability.

* * * * *

(b) *Applicability.* (1) Titles and I and II of the Uniform Act, as amended, govern relocation assistance by TVA. For TVA program activities undertaken after April 1, 1989, relocation assistance under those titles will be governed by implementing regulations set forth in Subpart A and Subparts C through G of 49 CFR Part 24.

(2) Regulations and procedures for complying with the real property acquisition provisions of Title III of the Uniform Act, as amended, are set forth in this part.

§§ 1306.2 through 1306.17 [Removed]; §§ 1306.18 through 1306.22 [Redesignated as §§ 1306.2 through 1306.6]

4. Sections 1306.2 through 1306.17 and 1306.23 are removed and §§ 1306.18 through 1306.22 are redesignated as §§ 1306.2 through 1306.6. This amendment is effective April 2, 1989.

W.F. Willis,

General Manager.

DEPARTMENT OF LABOR

29 CFR Part 12

DATES: The amendment to § 12.1 is effective January 19, 1988. The revision of Part 12 is effective April 2, 1989. Comments must be received on or before February 16, 1988.

ADDRESSES: Comments should be sent to Office of the Assistant Secretary for Administration and Management, Department of Labor, 200 Constitution Avenue NW., Washington, DC 20210. The public may inspect all comments received at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT: Joseph McGovern, Division of Space and Telecommunications Management, Room S–1513. Telephone (202) 523–8401. (This is not a toll free number).

ADDITIONAL SUPPLEMENTARY INFORMATION: The Department of Labor is adopting interim final regulations required by the 1987 Amendments. These regulations provide for a phased rescission of the substantive portions of Part 12, and substitute a cross-reference to the Department of Transportation regulations at 49 CFR Part 24, which, after April 2, 1989, will be the only regulations implementing the Uniform Act. For federally assisted activities funded by the Department, compliance with the 1987 Amendements depends upon the legal authority possessed by the recipient of Federal assistance. Therefore, the implementation date for the Federal assistance programs funded by the Department is as soon as the recipient of the assistance is able to comply, but not later than April 2, 1989.

List of Subjects in 29 CFR Part 12

Acquisition of real property, relocation assistance.

Title 29 of the Code of Federal Regulations is amended as set forth below.

Dennis E. Whitfield,

Deputy Secretary of Labor.

PART 12—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERALLY AND FEDERALLY ASSISTED PROGRAMS

1. The authority citation for Part 12 is revised to read as follows:

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100–17, 101 Stat. 246–256 (42 U.S.C. 4601 note).

2. Section 12.1 is amended as follows:

a. The title of the section is revised to read as set forth below.

b. The introductory text of the section is designated paragraph "(a) *Purpose.*" and the paragraphs currently designated

VOL 52 ISS 242 DEC 17 1987 UMI

(a) and (b) are redesignated (a)(1) and (a)(2) respectively.

c. A new paragraph (b) is added to read as set forth below.

§ 12.1 Purpose and applicability.

(a) *Purpose.* * * *

* * * * *

(b) *Applicability.* (1) Regulations applicable to those programs which are able to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24. The implementation date for each program affected by this section is as soon as possible but not later than April 2, 1989.

(2) Until April 2, 1989, the provisions of this part are applicable only to those programs which are unable to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note).

3. Part 12 is revised to read as set forth below:

PART 12—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100–17, 101 Stat. 246–256 (42 U.S.C. 4601 note).

§ 12.1 Uniform relocation assistance and real property acquisition.

Regulations and procedures for complying with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Pub. L. 91–646, 84 Stat. 1894, 42 U.S.C. 4601), as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–255, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24.

DEPARTMENT OF DEFENSE

32 CFR Part 259

DATES: The amendment to § 259.1 is effective January 19, 1988. The revision of Part 259 is effective April 2, 1989. Comments must be received on or before February 16, 1988.

ADDRESSES: Comments should be sent to Mr. Jerome Liess, Department of the Army, Office of the Chief of Engineers, Room 5132, Pulaski Building, 20 Massachusetts Avenue NW., Washington, DC 20314–1000.

FOR FURTHER INFORMATION CONTACT: Mr. Jerome Liess, telephone number (202) 272–0517.

ADDITIONAL SUPPLEMENTARY INFORMATION: Part 259 is amended and revised in the following manner. The provisions of the interim final rule found at 49 CFR Part 24 are effective 30 days after publication in the **Federal Register** for Department of Defense directly funded programs and as soon as possible but not later than April 2, 1989 for Department of Defense federally assisted programs. After April 2, 1989 all direct federal and federally assisted programs will be covered by the final rules. The procedures for processing of applications for assistance and appeals under the Act remain the same as under existing regulations.

List of Subjects in 32 CFR Part 259

Real property acquisition, Relocation assistance, Relocation requirements, Payments for moving and related expenses, Replacement housing payment, Mobile homes, Last resort housing.

Title 32 of the Code of Federal Regulations is amended as set forth below.

December 1, 1987.

Linda Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

PART 259—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

1. The authority citation for Part 259 is revised to read as follows:

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100–17, 101 Stat. 246–256 (42 U.S.C. 4601 note).

2. Section 259.1 is amended as follows:

a. The title of the section is revised to read as set forth below.

b. The introductory text of the section is designated paragraph "(a) *Purpose.*" and the paragraphs currently designated (a) and (b) are redesignated (a)(1) and (a)(2) respectively.

c. A new paragraph (b) is added to read as set forth below.

§ 259.1 Purpose and applicability.

(a) *Purpose.* * * *

* * * * *

(b) *Applicability.* (1) Regulations applicable to those programs which are able to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24. The implementation date for each program affected by this section is listed below:

Direct Federal Activities—January 19, 1988.

Federally assisted Activities—as soon as state law permits, but no later than April 2, 1989.

(2) Until April 2, 1989, the provisions of this part are applicable only to those programs which are unable to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note.

3. Part 259 is revised to read as set forth below:

PART 259—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894, (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100–17, 101 Stat. 246–256 (42 U.S.C. 4601 note).

§ 259.1 Uniform relocation assistance and real property acquisition.

Regulations and procedures for complying with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894 42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24.

DEPARTMENT OF EDUCATION

34 CFR Part 15

DATES: The amendment to § 15.1 takes effect either 45 days after publication in the **Federal Register** or later if the Congress takes certain adjournments. If you want to know the effective date of the amendment to § 15.1, call or write the Department of Education contact person. The total revision of 34 CFR Part 15 is effective April 2, 1989. Comments must be received on or before February 16, 1988.

ADDRESS: Comments should be sent to Sarah L. Kemble, Office of the General Counsel, U.S. Department of Education, Room 4121, 400 Maryland Avenue, SW., Washington, DC, 20202; (202) 732–2730.

FOR FURTHER INFORMATION CONTACT: Sarah L. Kemble (202) 732–2730.

ADDITIONAL SUPPLEMENTARY INFORMATION: The regulations apply to programs administered by the U.S Department of Education where a Federal agency, a State or a State agency, may compel surrender of privately owned real property or displacement of residents of that property, because the property is needed for a federally assisted project.

The 1987 Amendments provide that States and State agencies shall implement the changes made by those amendments and their implementing regulations no later than April 2, 1989. This provision gives States and State agencies time to conform their own legal authority to the changes in the Federal law. Accordingly, these interim final regulations provide for a two-step revision of Part 15. On April 2, 1989 Part 15 is revised to substitute a cross-reference to the Department of Transportation regulations which will then be the only regulations substantively implementing the Federal law governing relocation assistance and real property acquisition.

For projects funded by the Department of Education, compliance with the 1987 Amendments depends upon the legal authority possessed by the recipient of Federal assistance. Therefore, the implementation date for the Federal assistance programs funded by the Department is as soon as the recipient of the assistance is legally able to comply, but not later than April 2, 1989.

Assessment of Educational Impact

Based on its own review, the Department has determined that the regulations in this document do not require transmission of information that is being gathered by or is available from any other agency or authority of the United States.

List of Subjects in 34 CFR Part 15

Real property acquisition, Relocation assistance.

Dated: December 14, 1987.

William J. Bennett,

Secretary of Education.

The Secretary amends Part 15 of Title 34 of the Code of Federal Regulations as follows:

PART 15—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

1. The authority citation for this Part 15 is revised to read as follows:

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100–17, 101 Stat. 246–256 (42 U.S.C. 4601 note).

2. Section 15.1 is amended by revising the section heading, adding "(a) *Purpose.*" Before the undesignated introductory text, redesignating paragraphs (a) and (b) as paragraphs (a)(1) and (a)(2) respectively, and adding a new paragraph (b) to read as follows:

§ 15.1 Purpose and applicability.

(a) *Purpose* * * *

* * * * *

(b) *Applicability.* (1) Regulations applicable to those programs which are able to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24. The implementation date for each program affected by this rule is as soon as the recipient of Federal assistance has authority to comply but not later than April 2, 1989.

(2) Until April 2, 1989 the provisions of this part are applicable only to those programs which are unable to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note).

3. Part 15 is revised to read as set forth below:

PART 15—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note).

§ 15.1 Uniform relocation assistance and real property acquisition.

Regulations and procedures for complying with the Uniform Relocation Assistance Act of 1970 (Pub. L. 91–646, 84 Stat. 1894, 42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–255, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24.

PENNSYLVANIA AVENUE DEVELOPMENT CORPORATION

36 CFR Part 904

DATES: The amendment to § 904.1 is effective January 19, 1988. The revision of Part 904 is effective April 2, 1989. Comments must be received on or before February 16, 1988.

ADDRESSES: Comments should be sent to Mr. Reginald Robinson, Director, Business Relations, Pennsylvania Avenue Development Corporation, Suite 1220N, 1331 Pennsylvania Avenue, NW., Washington, DC 20004. Phone: (202) 724–9068.

FOR FURTHER INFORMATION CONTACT: Mr. Reginald Robinson, Director, Business Relations, Pennsylvania Avenue Development Corporation, Suite 1220N, 1331 Pennsylvania Avenue, NW., Washington, DC 20004. Phone: (202) 724–9068.

ADDITIONAL SUPPLEMENTARY INFORMATION: The Pennsylvania Avenue Development Corporation (PADC) has determined that it is able to comply with the provisions of the 1987 Amendments and the provisions of the interim final rule on this subject published by DOT elsewhere in today's issue of the **Federal Register**. Therefore, after January 19, 1988, PADC programs will be governed by the DOT regulations.

List of Subjects in 36 CFR Part 904

Real property acquisition, Relocation assistance.

Title 36 of the Code of Federal Regulations is amended as set forth below:

M.J. Brodie,

Executive Director.

PART 904—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

1. The authority citation for Part 904 is revised to read as follows:

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100–17, 101 Stat. 246–256 (42 U.S.C. 4601 note).

2. Section 904.1 is amended as follows:

a. The title of the section is revised to read as set forth below.

b. The introductory text of the section is designated paragraph "(a) *Purpose.*" and the paragraphs currently designated (a) and (b) are redesignated (a)(1) and (a)(2) respectively.

VOL 52 ISS 242 DEC 17 1987 UMI

c. A new paragraph (b) is added to read as set forth below.

§ 904.1 Purpose and applicability.

(a) *Purpose.* * * *

* * * * *

(b) *Applicability.* (1) After January 19, 1988, the Pennsylvania Avenue Development Corporation will be able to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note) and will be governed by implementing regulations set forth in 49 CFR Part 24.

(2) Until April 2, 1989, the provisions of this part are applicable only to those program activities which were undertaken prior to January 19, 1988, and which therefore were unable to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note).

3. Part 904 is revised to read as set forth below:

PART 904—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100–17, 101 Stat. 246–256 (42 U.S.C. 4601 note).

§ 904.1 Uniform relocation assistance and real property acquisition.

Regulations and procedures for complying with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Pub. L. 91–646, 84 Stat. 1894, 42 U.S.C. 4601), as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–255, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24.

VETERANS ADMINISTRATION

38 CFR Part 25

DATES: The amendment to 38 CFR 25.1 is to be effective January 19, 1988. The revision of Part 25 is effective April 2, 1989. Comments must be received on or before February 16, 1988.

ADDRESS: Comments should be sent to: The Administrator of Veterans Affairs (271A), 810 Vermont Avenue NW., Washington, DC 20420. All written comments received will be available for public inspection only in the Veterans Services Unit, Room 132, of the above address between the hours of 8 a.m. and 4:30 p.m., Monday through Friday (except for holidays) until February 26, 1987.

FOR FURTHER INFORMATION CONTACT: Alan Maurer, Director, Special Programs, Office of Facilities, (202) 233–3398.

ADDITIONAL SUPPLEMENTARY INFORMATION: The Veterans Administration (VA) is proposing to amend its regulations implementing amendments to the URA contained in 38 CFR Part 25, as a result of legislation enacted on April 2, 1987, and known as the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note). The VA will adopt these government-wide amendments to the regulations as set forth by the Department of Transportation. Certain sections of Title 38 CFR will be amended by inserting the revised regulations in those parts.

The VA has determined that it is able to comply with the provisions of the 1987 amendments to the Act and the government-wide implementing regulation at 49 CFR Part 24, immediately with respect to direct Federal activities. Therefore the VA's direct Federal activities become subject to the government-wide regulation on January 19, 1988. For federally-assisted activities compliance depends upon the legal authority possessed by the recipient of the Federal assistance. Therefore, the implementation date for all of the VA's federally assisted activities is the date the recipient of Federal assistance is legally able to comply, but not later than April 2, 1989.

List of Subjects in 38 CFR Part 25

Real property acquisition, Relocation assistance.

Title 38 of the Code of Federal Regulations is amended as set forth below.

Approved: November 20, 1987.

Thomas K. Turnage,

Administrator.

PART 25—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

1. The authority citation for Part 25 is revised to read as follows:

Authority: Section 213, Uniform Relocation and Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100–17, 101 Stat. 246–256 (42 U.S.C. 4601 note).

2. Section 25.1 is amended as follows:

a. The title of the section is revised to read as set forth below.

b. The introductory text of the section is designated paragraph "(a) *Purpose.*" and the paragraphs currently designated (a) and (b) are redesignated (a)(1) and (a)(2) respectively.

c. A new paragraph (b) is added to read as set forth below.

§ 25.1 Purpose and applicability.

(a) *Purpose.* * * *

* * * * *

(b) *Applicability.* (1) Regulations applicable to those programs which are now able to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17 101 Stat. 246–256, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24. The implementation date for each program affected by this rule is listed below:

Veterans Administration, January 19, 1988.

Federally assisted, as soon as State law permits, but no later than April 2, 1989.

(2) Until April 2, 1989, the provisions of this part are applicable only to those programs which are unable to comply with the Surface Transportation and Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note).

3. Part 25 is revised to read as set forth below:

PART 25—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100–17, 101 Stat. 246–256 (42 U.S.C. 4601 note).

§ 25.1 Uniform relocation

Regulations and procedures for complying with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Pub. L. 91–646, 84 Stat. 1894, 42 U.S.C. 4601), as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–255, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 4

[FRL–3302–5]

DATES: The revision of Part 4 is effective April 2, 1989. Comments must be submitted on or before February 16, 1988.

ADDRESSES: Comments should be sent to Marshall Schy, Grants Administration Division (PM–216), 401 M Street SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Marshall Schy (see address above), 202–382–5298.

ADDITIONAL SUPPLEMENTARY INFORMATION: The Environmental Protection Agency (EPA) is not adopting at this time the interim final rule published by The Department of Transportation elsewhere in today's **Federal Register**. For administrative reasons and to effect a smoother transition to the changes contained in the 1987 amendments to the Uniform Relocation Act (URA), EPA believes that implementation of these changes for its assistance recipients should be deferred to the final rulemaking process which the statute mandates for completion by April 2, 1989. EPA activities involving the URA will continue to be covered by the existing government-wide common rule found at 40 CFR Part 4 until the final rulemaking process is complete. When that occurs, EPA's URA activities will be covered by the government-wide final rule that DOT will issue at 49 CFR Part 24.

The EPA programs that involve the URA are the Wastewater Treatment Construction Grant program and the Superfund program. However, in keeping with Executive Order 12316 and the interagency agreement between EPA and the Federal Emergency Management Agency (FEMA), URA activities for the Superfund program will be implemented by FEMA according to their regulations. Persons concerned with the implementation of URA activities under Superfund should consult FEMA's action on this subject elsewhere in today's **Federal Register**.

List of Subjects in 40 CFR Part 4

Real property acquisition, Relocation assistance.

December 4, 1987

Anthony Musick,

Acting Assistant Administrator for Administration and Resources Management.

PART 4—UNIFORM RELOCATION ASSISTANT AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Public Law 100–17, 101 Stat. 246–256 (42 U.S.C. 4601 note).

§ 4.1 Uniform relocation assistance and real property acquisition.

Effective April 2, 1989, regulations and procedures for complying with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Public Law 91–646, 84 Stat. 1894, 42 U.S.C. 4601), as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Public Law 100–17, 101 Stat. 246–255, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24.

GENERAL SERVICES ADMINISTRATION

41 CFR Part 105–51

DATES: The amendment to § 105–51.001 is effective January 19, 1988. The revision of Part 105–51 is effective April 2, 1989. Comments must be received on or before February 16, 1988.

ADDRESSES: Comments should be sent to Mrs. Hilary Peoples, Director, Acquisition Policy Division, General Services Administration, Public Buildings Service, 18th and F Streets, NW., Washington, DC 20405.

FOR FURTHER INFORMATION CONTACT: Mrs. Hilary Peoples, Director, Acquisition Policy Division (202–566–1508), or Mr. James W. McMahon, Acquisition Policy Division (202–566–1269), General Services Administration, 18th and F Streets, NW., Washington, DC 20405. Office hours Monday–Friday from 8:00–4:30 p.m., e.t.

ADDITIONAL SUPPLEMENTARY INFORMATION: The General Services Administration (GSA) has determined that it is able to comply with the provisions of the 1987 Amendments and the provisions of the interim final rule published by Department of Transportation elsewhere in today's issue of the **Federal Register**. Therefore, after January 19, 1988, GSA programs will be governed by DOT regulations.

List of Subjects in 41 CFR Part 105–51

Real property acquisition, Relocation assistance.

Title 41 of the Code of Federal Regulations is amended as set forth below.

Dated: December 4, 1987.

T.C. Golden,

Administrator of General Services.

PART 105–51—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

1. The authority citation for Part 105–51 is revised to read as follows:

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100–17, 101 Stat. 246–256 (42 U.S.C. 4601 note).

2. Section 105–51.001 is amended as follows:

a. The title of the section is revised to read as set forth below.

b. The introductory text of the section is designated paragraph "(a) *Purpose.*" and the paragraphs currently designated (a) and (b) are redesignated (a)(1) and (a)(2) respectively.

c. A new paragraph (b) is added to read as set forth below.

§ 105–51.001 Purpose and applicability.

(a) *Purpose.* * * *

* * * * *

(b) *Applicability.* (1) After January 19, 1988, the General Services Administration will be able to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note) and will be governed by implementing regulations set forth in 49 CFR Part 24.

(2) Until April 2, 1989, the provisions of this part are applicable only to those program activities which were undertaken prior to January 19, 1988 and which therefore were unable to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note).

3. Part 105–51 is revised to read as set forth below:

BEST COPY AVAILABLE

PART 105–51—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100–17, 101 Stat. 246–256 (42 U.S.C. 4601 note).

§ 105–51.001 Uniform relocation assistance and real property acquisition.

Regulations and procedures for complying with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Pub. L. 91–646, 84 Stat. 1894, 42 U.S.C. 4601), as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–255, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24.

DEPARTMENT OF THE INTERIOR

41 CFR Part 114–50

DATES: The amendment to § 114–50.301 is effective January 19, 1988. The revision of Part 114-50 is effective April 2, 1989. Comments must be received on or before February 16, 1988.

ADDRESSES: Comments should be sent to Billy Lee Hart, Chief, Property Management Division, Office of Acquisition and Property Management, Room 5508, Department of the Interior, Washington, DC 20240, Phone: (202) 343–3336.

FOR FURTHER INFORMATION CONTACT: Billy Lee Hart, (202) 343–3336.

ADDITIONAL SUPPLEMENTARY INFORMATION: Federal agencies are promulgating jointly an interim final rule to implement cost-effective policies and procedures governing the implementation of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Public Law 100–17. This rule provides a transition from the existing government wide common rule on the Uniform Act, published at 17 separate places in the Code of Federal Regulations to a government-wide single rule appearing at 49 CFR Part 25.

The Department of the Interior has determined that it could comply with the 1987 Amendments upon their date of enactment for direct Federal programs. Therefore, the implementation date for direct Federal activities is April 2, 1987. Accordingly, any person displaced by such activities after April 2, 1987, would be covered by the governmentwide regulation in 49 CFR Part 24. For federally assisted activities compliance depends upon the legal authority possessed by the recipient of the Federal financial assistance. Therefore, the implementation date for all of the Department's federal assistance programs is as soon as the recipient is legally able to comply, but not later than April 2, 1989.

The Department of the Interior has determined that it is unnecessary to request prior notice and comment on this document under the Administrative Procedure Act, 5 U.S.C. (b) (B), because the Department of Transportation rule that is being cross-referenced implements nondiscretionary benefit provisions of the Surface Transportation and Uniform Relocation Assistance Act of 1987. The discretionary provisions of the Act will be the subject of a later notice of proposed rulemaking to be issued by the Department of Transportation.

The Department of the Interior has determined that this document is not a major rule under Executive Order 12291 and certifies that this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.* The rule implements benefit changes made by the Surface Transportation and Uniform Relocation Assistance Act of 1987 and is not expected to have an annual economic effect of $100 million or more or to significantly affect small entities. The primary impact of the changes made by the Act is expected to be an increase in benefits provided to small businesses and the elimination of unnecessary administrative requirements.

This document does not contain information collection requirements which require approval by the Office of Management and Budget under 44 U.S.C. 3501 *et seq.* The requirements contained in the current 41 CFR Part 114–50 were approved by the Office of Management and Budget under 44 U.S.C. 3501 *et seq.* and assigned clearance number 1084–0010.

The Department hereby determines that this document is not a major Federal action significantly affecting the quality of the human environment under the National Environmental Policy Act of 1969 and does not require the preperation of an environmental impact statement or assessment.

The author of this document is Billy Lee Hart, Chief, Property Management Division, Office of Acquisition and Property Management.

List of Subjects in 41 CFR Part 114–50

Relocation assistance, Real property acquisition.

Title 41 of the Code of Federal Regulations is amended as set forth below.

Joseph W. Gorrell,

Principal Deputy Assistant Secretary Policy, Budget and Administration.

December 1, 1987.

PART 114–50—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

1. The authority citation for Part 114–50 is revised to read as follows:

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100–17, 101 Stat. 246–256 (42 U.S.C. 4601 note).

2. Section 114–50.301 is amended as follows:

a. The title of the section is revised to read as set forth below.

b. The introductory text of the section is designated paragraph "(a) *Purpose.*" and the paragraphs currently designated (a) and (b) are redesignated (a)(1) and (a)(2) respectively.

c. A new paragraph (b) is added to read as set forth below.

§ 114–50.301–1 Purpose and applicability.

(a) *Purpose.* * * *

* * * * *

(b) *Applicability.* (1) Regulations applicable to those programs which are able to comply with the Surface Transportation and Uniform Relocation Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24. The implementation date for each program affected by this section is listed below:

Direct Federal activities—Persons displaced after April 2, 1987.

Federally-assisted activities—As soon as state law permits, but not later than April 2, 1989.

(2) Until April 2, 1989, the provisions of this part are applicable only to those programs which are unable to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note).

3. Part 114–50 is revised to read as set forth below:

PART 114–50—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100–17, 101 Stat. 246–256 (42 U.S.C. 4601 note).

§ 114–50.301–1 Uniform relocation and real property acquisition

Regulations and procedures for complying with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Pub. L. 91–646, 84 Stat, 1894, 42 U.S.C. 4601), as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–255, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24.

DEPARTMENT OF JUSTICE

41 CFR Part 128–18

DATES: The amendment to § 128–18.5001–1 is effective January 19, 1988. The revision of Subpart 128–18.50 is effective April 2, 1989. Comments must be received on or before February 16, 1988.

ADDRESSES: Comments should be sent to Mr. Benjamin F. Burrell, Department of Justice, Director, Facilities and Property Management Staff, Suite 700, 1425 K Street, NW., Washington, DC 20530.

FOR FURTHER INFORMATION CONTACT: Mr. Benjamin F. Burrell, Department of Justice, Director, Facilities and Property Management Staff, Suite 700, 1425 K Street, NW., Washington, DC 20530. Telephone: (202) 633–2995.

ADDITIONAL SUPPLEMENTARY INFORMATION: The Department of Justice is participating with other federal agencies to implement the provisions of the Uniform Relocation Act Amendments of 1987 (1987 Amendments) (Title IV of the Surface Transportation and Uniform Relocation Assistance Act of 1987, Pub. L. 100–17, 101 Stat.132). The primary purpose of the 1987 Amendments is to establish a single rule as opposed to the existing common rule.

The Department of Transportation has been designated as the lead agency in the implementation of the Uniform Act. Therefore, the single rule is located in the Department of Transportation's portion of the Code of Federal Regulations at 49 CFR Part 24.

List of Subjects in 41 CFR Subpart 128–18.50

Real property acquisition, Relocation assistance.

Title 41 of the Code of Federal Regulations is amended as set forth below.

Harry H. Flickinger,

Assistant Attorney General for Administration.

PART 128–18—ACQUISITION OF REAL PROPERTY

Subpart 128–18.50—Uniform Relocation Assistance and Real Property Acquisition for Federal and Federally Assisted Programs

1. The authority citation for Subpart 128–18.50 is revised to read as follows:

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100–17, 101 Stat. 246–256 (42 U.S.C. 4601 note).

2. Section 128–18.5001–1 is amended as follows:

a. The title of the section is revised to read as set forth below.

b. The introductory text of the section is designated paragraph "(a) *Purpose*" and the paragraphs currently designated (a) and (b) are redesignated (a)(1) and (a)(2) respectively.

c. A new paragraph (b) is added to read as set forth below.

§ 128–18.5001–1 Purpose and applicability.

(a) *Purpose.* * * *

* * * * *

(b) *Applicability.* (1) After January 19, 1988, the Department of Justice will be able to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note). That act designates the Department of Transportation (DOT) as the lead agency for implementing the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 ,Pub. L. 91–646, 84 Stat. 1984 (42 U.S.C. 4601) as amended. Therefore, after January 19, 1988, the Department of Justice will be governed by DOT's implementing regulations set forth in 49 CFR Part 24.

(2) Until April 1, 1989, the provisions of this part are applicable only to those program activities which were undertaken prior to January 19, 1988, and which therefore were unable to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note).

PART 128–18—ACQUISITION OF REAL PROPERTY

3. Subpart 128–18.50 is revised to read as set forth below:

Subpart 128–18.50—Uniform Relocation Assistance and Real Property Acquisition for Federal and Federally Assisted Programs

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100–17, 101 Stat. 246–256 (42 U.S.C. 4601 note).

§ 128–18.5001–1 Uniform relocation assistance and real property acquisition.

Regulations and procedures for complying with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Pub. L. 91–646, 84 Stat. 1894, 42 U.S.C. 4601), as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–255, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 25.

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 25

DATES: The amendments to § 25.1 is effective January 19, 1988. The revision of Part 25 is effective April 2, 1989. Comments must be received on or before February 16, 1988.

ADDRESS: Comments should be sent to Charles D. Robinson, Federal Emergency Management Agency, 500 C. Street, SW., Washington, DC 20472, (202) 646–3805.

FOR FURTHER INFORMATION CONTACT: Charles D. Robinson at (202) 646–3805.

ADDITIONAL SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency provides permanent relocation assistance to residents, businesses, and community facilities by authority of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, *as amended*, and section 2(c)(1) Executive Order 12580. The revision to Part 25 will apply to permanent relocation programs beginning on or after January 19, 1988.

List of Subjects in 44 CFR Part 25

Real property acquisition, Relocation assistance.

Title 45 of the Code of Federal Regulations is amended as set forth below.

Dave McLaughlin,
Deputy Associate Director.

PART 25—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

1. The authority citation for Part 25 is revised to read as follows:

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91-646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100-17, 101 Stat. 246-256 (42 U.S.C. 4601 note).

2. Section 25.1 is amended as follows:

a. The title of the section is revised to read as set forth below.

b. The introductory text of the section is designated paragraph "(a) *Purpose.*" and the paragraphs currently designated (a) and (b) are redesignated (a)(1) and (a)(2) respectively.

c. A new paragraph (b) is added to read as set forth below.

§ 25.1 Purpose and applicability.

(a) *Purpose.* * * *

* * * * *

(b) *Applicability.* (1) Regulations applicable to those program activities which are abled to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100-17, 101 Stat. 246-256, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24. Title 49 Part will apply to Superfund Relocation Assistance Programs beginning on or after January 19, 1988.

(2) Until April 2, 1989, the provisions of this part are applicable only to those program activities which are unable to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100-17, 101 Stat. 246-256, 42 U.S.C. 4601 note).

3. Part 25 is revised to read as set forth below:

PART 25—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91-646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Titled IV of Pub. L. 100-17, 101 Stat. 246-256 (42 U.S.C. 4601 note).

§ 25.1 Uniform relocation assistance and real property acquisition

Regulations and procedures for complying with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Pub. L. 91-646, 84 Stat. 1894, 42 U.S.C. 4601), as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100-17, 101 Stat. 246-256, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

45 CFR Part 15

DATES: The amendment to § 15.1 is effective January 19, 1988. The revision of Part 15 is effective April 2, 1989. Comments must be received on or before February 16, 1988.

ADDRESSES: Comments should be mailed or hand delivered to: Office of Procurement, Assistance and Logistics, Department of Health and Human Services, Room 513-D, Hubert H. Humphrey Building, 200 Independence Ave., SW., Washington DC, 20201. Comments will be available for public inspection in Room 517-D at the same address, during regular business hours.

FOR FURTHER INFORMATION CONTACT: Gary Houseknecht, Division of Assistance and Cost Policy at the above address, or by calling (202) 245-7568.

ADDITIONAL SUPPLEMENTARY INFORMATION: The Department of Health and Human Services has determined that it can comply with the provisions of the Surface Transportation and Uniform Relocation Assistance Act of 1987 immediately with respect to direct federal development. Therefore, the implementation date for direct federal activities is January 19, 1988. For federally-assisted activities, compliance depends upon the legal authorities possessed by the recipient of the federal assistance award. Therefore, the implementation date for all of the Department's federal assistance programs is as soon as the recipient of the award is legally able to comply, but not later than April 2, 1989.

List of Subjects in 45 CFR Part 15

Real property acquisition, Relocation assistance.

Title 44 of the Code of Federal Regulations is amended as set forth below.

Dated: November 20, 1987.

Otis R. Bowen,
Secretary of Health and Human Services.

PART 15—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

1. The authority citation for Part 15 is revised to read as follows:

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91-646, 84 Stat. 1894 (42 U.S.C. 4633) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100-17, 101 Stat. 246-256 (42 U.S.C. 4601 note).

2. Section 15.1 is amended as follows:

a. The title of the section is revised to read as set forth below.

b. The introductory text of the section is designated paragraph "(a) *Purpose.*" and the paragraphs currently designated (a) and (b) are redesignated (a)(1) and (a)(2) respectively.

c. A new paragraph (b) is added to read as set forth below.

§ 15.1 Purpose and applicability.

(a) *Purpose.* * * *

* * * * *

(b) *Applicability.* (1) Regulations applicable to those programs which are able to comply with the Surface Transportation and Uniform Relocation Act of 1987 (Title IV of Pub. L. 100-17, 101 Stat. 246-256, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24. The implementation date for each program affected by this rule is listed below:

Direct federal activities—January 19, 1988.

Federally-assisted activities—as soon as state law permits, but no later than April 2, 1989.

(2) Until April 2, 1989, the provisions of this part are applicable only to those programs which are unable to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100-17, 101 Stat 246-256, 42 U.S.C. 4601 note).

3. Part 15 is revised to read as set forth below:

PART 15—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91-646, 84 Stat. 1894 (42 U.S.C. 4633) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100-17, 101 Stat. 246-256 (42 U.S.C. 4601 note).

§ 15.1 Uniform relocation assistance and real property acquisition.

Regulations and procedures for complying with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Pub. L. 91-646, 84 Stat. 1894, 42 U.S.C. 4601 et seq.), as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100-17, 101 Stat. 246-256, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24.

DEPARTMENT OF TRANSPORTATION

[FHWA Docket No. 87-22]

49 CFR Part 25

DATES: The amendment to § 25.1 is effective December 17, 1987. The removal of Part 25 is effective April 2, 1989. Comments must be received on or before February 16, 1988.

ADDRESS: Submit written and signed comments, preferably in triplicate, to FHWA Docket No. 87-22, Federal Highway Administration, Room 4205, HCC-10, 400 Seventh Street, SW., Washington, DC 20590. All comments received will be available for examination at the above address between 8:30 a.m. and 3:30 p.m., e.t., Monday through Friday, except legal holidays. Those desiring notification of receipt of comments must include a self-addressed, stamped postcard.

FOR FURTHER INFORMATION CONTACT: Barbara Reichart, Director, Office of Right of Way, HRW-1, FHWA, (202) 366-0116, or Reid Alsop, Office of Chief Counsel, HCC-40, FHWA, (202) 366-1371, 400 7th Street, SW., Washington, DC 20590. Office hours are from 7:45 a.m. to 4:15 p.m., e.t., Monday through Friday.

ADDITIONAL SUPPLEMENTARY INFORMATION: The reasons for making the changes set forth below, are described in detail in the above common preamble and in the preamble to the Department of Transportation (DOT) interim final rule which appears elsewhere in this **Federal Register**. One of the primary reasons is to allow those Federal programs that are able to do so, to take immediate advantage of explicit nondiscretionary benefits provided by the 1987 Amendments. This would be accomplished by allowing direct Federal programs to operate under the DOT interim final rule (49 CFR Part 24). Within DOT direct Federal programs are those that are undertaken solely by one of DOT's component agencies. The DOT interim final rule (49 CFR Part 24) is made fully applicable to DOT direct Federal programs on the date specified in the amendments to § 25.1 below.

With regard to DOT Federal-aid programs that provide financial assistance to State and local agencies, the date that such programs could implement the DOT interim final rule would depend on the authority of the State and local grant recipient to comply with the 1987 Amendments. Some such recipients already have such authority while others are awaiting the enactment of necessary State enabling legislation. Generally, the specific date that a Federal-aid recipient could implement the interim final rule in 49 CFR Part 24 would be the date provided in the assurances the recipient must submit, in accordance with the Uniform Act, to the Federal funding agency.

The FHWA has determined that this document does not contain a major rule under Executive Order 12291 or a significant regulation under the regulatory policies and procedures of the Department of Transportation.

The FHWA believes that circumstances warrant the issuance of this rulemaking action without notice or an opportunity for prior comment. The DOT interim final rule, which appears elsewhere in this **Federal Register**, implements the nondiscretionary provisions of the 1987 Amendments, and is effective upon date of publication, in order to enable those agencies that are able to utilize those provisions to do so expeditiously. This cross referencing action amends § 25.1 to make that DOT interim final rule fully applicable to those DOT funded programs that are able to utilize it. Accordingly, for the same reasons set forth in the DOT interim final rule, a period for public comment on this cross reference is unnecessary.

The FHWA finds good cause to make this regulation effective without prior notice or opportunity for comment and without a 30-day delay in effective date under the Administrative Procedure Act, 5 U.S.C. 553(b). Accordingly, the provisions that are contained in this rulemaking action are effective as provided by the section entitled "Dates."

While the FHWA does not anticipate that there will be any useful public comment on the general issue of the statutory provisions themselves, there may be some comments on the effect of the cross referencing provisions contained in this interim final rule. For this reason, publication of this interim final rule without an opportunity for prior comment, but with a request for comments following publication is consistent with the Department of Transportation's regulatory policies. Any comments that are submitted specifically to this docket will be fully considered.

The interim final rule in 49 CFR Part 24 will be made applicable to persons that have not been displaced, and to property that has not been acquired, as of the implementation date established in § 25.1 below. This accords with the policy followed with previous changes in Uniform Act requirements.

Because DOT, as the government's lead agency for the Uniform Act, is issuing a single government-wide rule for implementing the Uniform Act at 49 CFR Part 24, the action taken below by DOT differs slightly from that being taken by other affected Federal agencies. Since the new single Uniform Act rule will be set out in its entirety in 49 CFR Part 24 of the DOT regulations, it is not necessary to replace the existing DOT common rule, appearing at 49 CFR Part 25 with a cross reference to the government-wide rule in Part 24. Rather, Part 25 would be rescinded on April 2, 1989, the date the 1987 Amendments become fully applicable.

List of Subjects in 49 CFR Part 25

Real property acquisition, Relocation assistance, Reporting and recordkeeping requirements, Transportation.

Title 49 of the Code of Federal Regulations is amended as set forth below.

Issued on: December 11, 1987.

R.A. Barnhart,
Federal Highway Administrator, Federal Highway Administration.

PART 25—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

1. The authority citation for Part 25 is revised to read as follows:

Authority: Section 213, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91-646, 84 Stat. 1894 (42 U.S.C. 4601) as amended by the Surface Transportation and Uniform Relocation Assistance Act of 1987, Title IV of Pub. L. 100-17, 101 Stat. 246-256 (42 U.S.C. 4601 note); and 49 CFR 1.48(dd).

2. Section 25.1 is amended as follows:

a. The title of the section is revised to read as set forth below.

b. The introductory text of the section is designated paragraph "(a) *Purpose.*" and the paragraphs currently designated (a) and (b) are redesignated (a)(1) and (a)(2), respectively.

c. A new paragraph (b) is added to read as set forth below.

VOL 52 ISS 242 DEC 17 1987 UMI

§ 25.1 Purpose and applicability.

(a) *Purpose.* * * *

* * * * *

(b) *Applicability.* (1) Regulations applicable to those programs which are able to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note) are set forth in 49 CFR Part 24. The implementation date for each program affected by this section is listed below:

Direct Federal Highway Activities, April 2, 1987.

Federally Assisted Activities, as soon as possible after April 2, 1987 but no later than April 2, 1989.

(2) Until April 2, 1989, the provisions of this part are applicable only to those programs which are unable to comply with the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Title IV of Pub. L. 100–17, 101 Stat. 246–256, 42 U.S.C. 4601 note).

PART 25—[REMOVED AND RESERVED]

3. Part 25 is removed and reserved effective April 2, 1989.

POSTAL SERVICE

39 CFR Part 777

Implementation of the Uniform Relocation Act Amendments of 1987

AGENCY: Postal Service.

ACTION: Final rule.

SUMMARY: This final rule amends the Postal Service's relocation regulations to make them consistent with Title IV of Pub. L. 100–17, the Uniform Relocation Act Amendments of 1987. Specifically, these amendments (1) increase the potential fixed payment in lieu of actual moving and related expenses for business and farm moves, (2) change the method of determining the maximum downpayment assistance for displaced 90 day owners and tenants, and increase that assistance, (3) increase the maximum benefits for displaced 180 and 90 day owner occupants, (4) change the formula for computing the amount of rental assistance to increase that assistance, and (5) increase the maximum replacing housing payment.

EFFECTIVE DATE: January 13, 1988.

FOR FURTHER INFORMATION CONTACT: Mr. Philip E. Wilson, (202) 268–3111.

List of Subjects in 39 CFR Part 777

Real property acquisition, Relocation assistance.

For the reasons explained in the SUMMARY above, 39 CFR Part 777 is amended as follows:

PART 777—RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES

1. The authority citation for Part 777 continues to read as follows:

Authority: 39 U.S.C. 401.

§ 777.23 [Amended]

2. In § 777.23, the introductory text of paragraphs (e) and (g) are amended by removing the words "not less than $2,500 nor more than $10,000" and substituting the words "not less than $1,000 nor more than $20,000".

§ 777.24 [Amended]

3. In § 777.24, paragraph (b)(2) is amended by removing "15,000" and adding "$22,500"; paragraphs (e)(2), the introductory text of (f), and (f)(4) are amended by removing "$4,000" and adding "$5,250"; paragraph (f)(2) is amended to remove "48" wherever it appears and to add "42".

4. Paragraph (g) of § 777.24 is revised to read as follows:

§ 777.24 Replacement housing payments.

* * * * *

(g) *Downpayment assistance.* Downpayment assistance, not to exceed $5,250, is available to 90 day owner occupants and 90 day tenants. This $5,250 amount may be considered to include the full amount of the required downpayment and incidental expenses.

* * * * *

§ 777.26 [Amended]

5. In § 777.26, paragraph (b)(3) is amended by removing "$15,000" and adding "$22,500", and paragraph (b)(4) is amended by removing "$4,000" and adding "$5,250".

§ 777.27 [Amended]

6. In § 777.27, paragraph (c)(4) is amended by removing the words "$4,000 and $15,000" and by adding the words "$5,250 and $22,500".

Fred Eggleston,

Assistant General Counsel, Legislative Division.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

24 CFR Parts 42 and 43

[Docket No. R-87-1396; FR-2257]

Uniform Relocation Act Amendments of 1987

AGENCY: Office of the Secretary, HUD.

ACTION: Notice of intent.

SUMMARY: This Notice explains why the Department of Housing and Urban Development is not participating in today's multi-agency publication of the interim rule by the Department of Transportation (DOT) partially implementing the Uniform Relocation Act Amendments of 1987. The Department intends to publish its part of this interagency undertaking as soon as HUD's legislative review obligations have been fulfilled.

FOR FURTHER INFORMATION CONTACT: Grady J. Norris, Assistant General Counsel for Regulations, Department of Housing and Urban Development, 451 7th Street, SW., Room 10276, Washington, DC 20410-0500. Telephone (202) 755-7055. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: The provisions of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Uniform Act), including its amendments by Title IV of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (1987 Amendments), apply to programs administered by HUD.

The Department had intended to publish a separate preamble to go along with the interim rule, published elsewhere in today's edition of the **Federal Register** by DOT, that would have discussed the application of the interim rule to, and the rule's impact on, HUD's programs and existing regulations. That separate preamble is not being published today, however, because under applicable law (see sec. 7(o) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(o)), HUD must submit to the responsible congressional committees an agenda of all its rules that are under development. Any rule that is on that agenda "may not be published for comment prior to or during the first period of 15 calendar days of continuous session of Congress [and,] [i]f within such period, either Committee notifies the Secretary * * * that it intends to review any rule * * * on the agenda, the Secretary shall submit * * * such rule * * * at least 15 calendar days of continuous session prior to its being published for comment in the **Federal Register**."

HUD identified this rule as one in its proposed stage, in the Department's *Semiannual Regulatory Agenda* published on October 26, 1987 (see 52 FR 40358, 40386), and the Committees requested the rule for review. As a consequence, the preamble that HUD would have published today as part of DOT's rule cannot be published until the statutory 15-day period has expired. On the expiration of that period, HUD will publish a separate agency-specific preamble, referencing DOT's rule.

Dated: December 9, 1987.

Grady J. Norris,

Assistant General Counsel for Regulations.

Part III

Federal Home Loan Bank Board

Prices for Federal Home Loan Bank Services; Notice

VOL 52 ISS 242 DEC 17 1987 UMI

FEDERAL HOME LOAN BANK BOARD

[No. 87-1226]

Prices for Federal Home Loan Bank Services

Date: December 10, 1987.

AGENCY: Federal Home Loan Bank Board.

ACTION: Notice of prices for Federal Home Loan Bank Services.

SUMMARY: The Office of District Banks and the Office of Policy And Economic Research of the Federal Home Loan Bank Board ("Board") are publishing, pursuant to delegated authority, the prices charged by the Federal Home Loan Banks ("FHLBanks") for (1) processing and settlement of items ("negotiable order of withdrawal or NOW") and; (2) demand deposit accounting ("DDA") and other services offered to member institutions.

EFFECTIVE DATE: December 17, 1987.

FOR FURTHER INFORMATION CONTACT: Richard J. Hotaling, (202) 377-6715, or William J. Carey, (202) 377-6656, Office of District Banks, Federal Home Loan Bank Board, 1700 G Streeet, NW., Washington DC 20552.

SUPPLEMENTARY INFORMATION: Section 11(e) of the Federal Home Loan Bank Act ("Bank Act") (12 U.S.C. 1431(e)) authorizes the Federal Home Loan Banks (1) to accept demand deposits from member institutions, (2) to be drawees of payment instruments, (3) to engage in collection and settlement of payment instruments drawn on or issued by members and eligible institutions, and (4) to engage in such incidental activities as are necessary to the exercise of such authority. Section 11(e)(2)(B) of the Bank Act (12 U.S.C. 1431(e)(2)(B)) requires the Federal Home Loan Banks to charge fees for services authorized in that section, which fees are "to be determined and regulated by the Board consistent with the principles set forth in section 11A(c) of the Federal Reserve Act." Board regulations at 12 CFR 534.6 require that the Director of the Office of District Banks and the Director of the Office of Policy and Economic Research (or their designees) review, approve, and publish these fees at least annually. The fees for 1987 will be published at this time, but compliance for 1987 will be determined in 1988 when data for the entire year is available. The regulations require the FHLBanks to follow four basic pricing principles as follows:

(1) Services must be priced explicitly.

(2) Services must be available to member and nonmember depository institutions on an equal basis.

(3) Over the long run, fees must cover direct and indirect costs and must also cover an imputed cost that includes taxes paid and the return on capital that would have been provided if the services had been furnished by a private firm.

(4) Interest on float must be charged at the Federal Funds rate.

In 1980, the Board developed a methodology to determine compliance with these four principles, which is based on discounted cash flows from the NOW and DDA services. Since the FHLBanks had very few assets employed in the provision of these services and only projections of future income from NOW services, the methodology adopted at that time was appropriate. Compliance with the pricing principles focused on a five-year time span to recover all direct and indirect costs of these services.

At the end of 1985, the FHLBanks completed five years of NOW processing services. Both NOW services and DDA type services are mature activities with an asset base and normal income flows. In recognition of this evolution, the Board developed an up-to-date methodology substantially similar to that adopted by the Federal Reserve Board to monitor pricing of these services.

The following section summarizes the adopted methodology, which will continue to ensure that FHLBank NOW and DDA services are not priced in a manner that would provide unfair competition to private firms.

Methodology

Two major issues arise in determining appropriate pricing methodology. First, competitor firms must be identified. Second, adjustments must be made for the taxes and return on capital that prices of competitor firms must cover. This adjustment is sometimes referred to as a Private Sector Adjustment Factor ("PSAF").

The methodology was developed based on bank holding companies as competitor firms. Although firms in other industries could be chosen as competitors, commercial banks are generally the most frequent competitors in item processing and related services. Similarly, the Federal Reserve Bank also has chosen bank holding companies as competitors for development of adjustment for taxes and the imputed cost of capital.

Adjustment for Taxes and Return on Capital

In order to compare competitor data to the FHLBanks, several broad assumptions were established as follows:

(A) NOW and DDA services may be combined under the Board's pricing approval methodology.

(B) Compliance with NOW/DDA pricing guidelines is on an individual FHLBank basis.

(C) One set of bank holding company data will be applied to FHLBanks, rather than applying regional competitor data to regional FHLBanks.

(D) Federal Home Loan Bank data, which is required for the NOW/DDA pricing methodology, may be determined on an individual FHLBank basis as follows: (1) NOW/DDA prices; (2) earnings on balances generated from item processing; (3) direct and indirect costs; and (4) assets employed in NOW/DDA services. Based on the previous assumptions, appropriate bank holding company data and FHLBank data can be incorporated into the pricing methodology. The pricing methodology is as follows:

(A) Federal Home Loan Bank NOW/DDA costs are adjusted (increased) for the cost of financing the assets (primarily plant and equipment) employed in the provision of NOW/DDA services.

(B) NOW/DDA costs are increased for sales taxes that would have been paid if subject to such tax.

(C) NOW/DDA costs are adjusted for the cost of float at the Fed Funds rate.

(D) Imputed income taxes are applied to pre-tax NOW/DDA income using a three-year average from bank holding company data (35.24% rate).

(E) The after tax rate of return on capital from NOW/DDA services is compared to the after tax return on capital of bank holding companies (12.65% rate).

These adjustment factors ensure that the NOW/DDA services are priced in a competitive manner. Also, the factors are similar to the adjustments made by the Federal Reserve Board and represent a conservative approach consistent with the intent of Congress, that pricing encourage competition and efficiency in the provision of these services.

In accordance with these principles, the Director of the Office of District Banks and the Director of the Office of Policy and Economic Research have reviewed the current 1987 prices for Federal Home Loan Bank services which are published herewith. In early 1987 compliance with the pricing principles was tested based upon projected levels of service for each FHLBank. Final compliance and approval for 1987 will be determined in early 1988 when data for the entire year is available. At that time 1988 prices will be published and preliminary compliance tests for 1988 will be performed so that the Board's monitoring of the pricing is continuous. The services and their prices which are published herewith are divided into two categories: (1) NOW Services involved in the processing and settlement of items drawn on or issued by member institutions ("Schedule A"); and (2) services relating to demand deposit accounts and other services maintained by member institutions with the FHLBanks ("Schedule B").

The services described in the attached schedules are not identical for any two FHLBanks, as each FHLBank's program is tailored to meet the needs of the member institutions in the FHLBank's district. Furthermore, the volume of services rendered varies significantly among the districts, with the result that the costs of providing the services also vary from district to district. In light of these considerations, the Board continues its practice of approving separate district fee structures rather than adopting a uniform pricing scheme. This policy is consistent with the congressional intent that pricing encourage competition.

It is not required that each processing step or transaction performed by a FHLBank be specifically priced. This policy permits the FHLBanks to establish fee schedules that are in line with the marketing practices of providers of correspondent services in each district.

The directors of the Office of District Banks and the Office of Policy and Economic Research of the Federal Home Loan Bank Board hereby give notice of the following fee schedules for Federal Home Loan Bank services:

Schedule A: Item Processing and Settlement Services (1987 NOW Services)

DISTRICT 1.—FEDERAL HOME LOAN BANK OF BOSTON

(Service not provided)

DISTRICT 2.—FEDERAL HOME LOAN BANK OF NEW YORK (1987 NOW SERVICES)

Service	Fee
Settlement (per month)	$250.00
Minimum Monthly Fee	250.00
Standard Intercept (per item)	.050
Standard Intercept-Delayed Check (per item)	.035
Check Safekeeping:	
First 50,000 items/month (per item)	.025
50,001 to 100,000 items/month (per item)	.020
100,001 plus items/month (per item)	.010
Check Bulkfiling:	
First 50,000 items/month (per item)	.030
50,001 to 100,000 items/month (per item)	.025

[1] A mixed presentment is defined as a cash letter for which 33 percent of the total number of items represents end points other than the five direct send banks. If desired, the nondirect send portion of the group can be presented on a separate cash letter for processing against a more favorably priced deadline (i.e., 8:30). This definition of "mixed" presentment will cause the deposits of two institutions to be reclassified to the higher priced "group" presentment for the 5:30 deadline.
[2] All Canadian items over $500 and all non-Canadian foreign items must be submitted as a foreign collection.
[3] No charge.

Part IV

Department of the Interior

Bureau of Indian Affairs

Indian Child Welfare Act Grant Program; Availability of Title II Funds; Notice

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

FY 88 Indian Child Welfare Act Grant Programs; Availability of Title II Funds December 11, 1987

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice.

SUMMARY: This announcement is being published in anticipation of an appropriation for the Indian Child Welfare Act. This act makes available grant funds from the Bureau of Indian Affairs, Department of the Interior, for the purpose of improving child welfare services to Indian children and families.

DATES: The closing date for receipt of applications for this program is February 19, 1988.

ADDRESSES: Bureau of Indian Affairs' area offices are listed in Part IV of this announcement. BIA/Division of Social Services, Code 450, Rm. 310–S, 1951 Constitution Ave., NW., Washington, DC 20245.

FOR FURTHER INFORMATION CONTACT: The Bureau of Indian Affairs' area office nearest to the applicant, or David Hickman, Acting Chief, Division of Social Services, address given above; telephone (202) 343–6434.

SUPPLEMENTARY INFORMATION: The Assistant Secretary—Indian Affairs is announcing procedures necessary to apply for grant funds under Title II of the Indian Child Welfare Act. Applications for single-year programs as well as renewal applications for existing multi-year projects will be accepted. The available funding for all applications is $7.6 million. This includes approximately $2.6 million for new single-year applications. It is important that applicants carefully review requirements detailed in the announcement related to deadlines, indirect costs, and page limitations. If an application is not received by the close of business on February 19, 1988, or if the applicant does not itemize indirect costs in their proposed budget, their application will not be reviewed. If an application is longer than the established page limitation, only the first forty pages of the application will be reviewed.

Authority: The Indian Child Welfare Act, Pub. L. 95–608 authorizes the utilization of funds for grants to Indian tribes, organizations, and multi-service Indian centers.

Part I. General Information

(a) Background

This announcement provides information on opportunities to apply for Indian Child Welfare Act grant funds for FY 88. The policies established by the Indian Child Welfare Act of 1978 (ICWA Pub. L. 95–608, 25 U.S.C. 1902, 25 U.S.C. 1931 and 1982), for which these grant funds may be used are:

(1) To prevent separation of Indian children from their families when possible;

(2) When separation is necessary, to reunite Indian children with their families as soon as possible;

(3) When reunification is not possible, to find permanent families through permanent placement with extended families or through adoption; and

(4) To carry out work with Indian children and their families in accordance with the preferences of the ICWA, following procedures and practices which reflect the unique values of Indian culture.

An applicant for an Indian Child Welfare Act Grant may submit only *one* grant application of this program during this application period (refer to 25 CFR 23.21(b)).

(b) BIA Indian Child Welfare Grant Program Purpose

The purposes of Bureau of Indian Affairs' Indian Child Welfare grants as specifically stated in the law are:

(1) The establishment and operation of Indian child and family service programs which promote the stability of Indian families, and

(2) The provision of non-Federal matching shares for other Federal financial assistance programs for "on or near" reservation programs which contribute to that same purpose.

These purposes are further defined in Pub. L. 95–608 sections 201 and 202 or 25 U.S.C. 1931 and 1932, or 25 CFR 23.22. The objective of every Indian child and family service program shall be to prevent the breakup of Indian families, and insure that the permanent removal of an Indian child from the custody of his/her parent or Indian custodian shall be a last resort.

(c) Eligible Applicants

The governing body of any tribe or tribes, or any nonprofit off-reservation Indian organization or multi-service Indian center, may apply individually or as a consortium for a grant. No tribe may submit more than one application.

A consortium is an agreement or association of two or more eligible applicants.

New applications for projects of one year duration, as well as renewal applications for multi-year applications originally funded in FY 86 may be submitted in response to this announcement.

Part II. Available Funds

The appropriation for this program this year is $7.6 million. This includes funding for existing multi-year programs.

Approximately 2.5 million dollars will be available for single year grant applications nationwide this funding period. Grants will be awarded to individual tribes, organizations, or to consortia of tribes and organizations within the following categories:

(a) A maximum of up to $50,000 for eligible applicants with a total service area population of 2,500 or less;

(b) A maximum of up to $75,000 for eligible applicants with a total service area population greater than 2,500 but less than 5,000;

(c) A maximum of up to $100,000 for eligible applicants with a total service area population greater than 5,000 but less than 7,500;

(d) A maximum of up to $150,000 for eligible applicants with a total service area population of 7,500 but less than 15,000;

(e) A maximum of $300,000 for eligible applicants with a total service area of greater than 15,000.

Applicants in the State of Alaska will be allowed a 25 percent cost of living adjustment to the total maximum amount for which they may apply.

Notwithstanding the above grant guidelines, consortia having a total service area population of 5,000 or less, may apply for a maximum grant of up to $100,000 because of the greater administrative costs associated with operating a small consortium. Consortia with service area populations greater than 5,000 must comply with the grant guidelines set above.

Service area population means the total number of Indians eligible for service under 25 CFR 23.2(d)(2) and/or (3) in the geographical area to which the tribe, or organization, or multi-service center can realistically provide the services proposed in the application. The service area population is used only to determine maximum grant allocations that a tribe, multi-service center, or organization may be eligible to receive. These population figures must be based on identifiable statistical resources.

In lieu of an indirect cost rate, all costs associated with the administration of proposed projects shall be line itemed. Due to the limited amount of program funds, administrative costs will be carefully scrutinized in relation to proposed funds used for direct services. Applications not complying with this requirement will not be accepted for review.

In accordance with 25 CFR 23.25(a)(8), the reasonableness and relevance of the estimated costs for the project are considered in the rating of all project applications. Administrative costs are only allowable within the funding specified by the grant formula, and limitations specified in this announcement. Applicants will not be funded for more than their demonstrated need, as specifically addressed in 25 CFR 23.24 and 23.25. The statistical requirements established in these regulations, as well as the tribe's multi-service center's, or organization's prior service record will be used in determining need. Examples of necessary data include the number of actual or estimated Indian family breakups, and the number of persons who will receive direct services from any portion of the proposed program, by program area.

In accordance with 25 CFR 23.27(c)(3), if an applicant has been a grantee during the preceding fiscal year and proposes to continue essentially the same service program, the applicant, at the time of application, must provide a satisfactory evaluation from the area office along with the other materials required in this subsection.

A satisfactory evaluation means at a minimum, the timely submission of all fiscal and programmatic reports, including utilization of the corrective analysis form when programmatic changes are necessary. At no time may any Indian tribe, organization, or multi-service center which is either an eligible individual applicant in accordance with 25 CFR 23.21 or a member of a consortium, receive Indian Child Welfare Act grant funds greater than a maximum grant of $300,000 through a direct grant or through subgranting procedures with approved applicants.

Part III. Application and Selection Criteria

(a) Statutory Authority

The Indian Child Welfare Program from the Bureau of Indian Affairs is authorized by Title II of Pub. L. 95–608, The Indian Child Welfare Act (25 U.S.C. 1901 et seq., 25 CFR Part 23). The appropriation for the grant program is $7,600,000. The central office will retain 10 percent of the total available funding, to assure funding for any applicant who may appeal a denial at the area office level. If these funds are not utilized for appeals they will be redistributed to the area offices.

(b) The Closing Date for Receipt of Applications

The closing date for receipt of all applications under this Program Announcement is February 19, 1988. Applications for Indian Child Welfare Act Grants must be received in the appropriate Bureau of Indian Affairs' Social Services Area/Agency Office, as specified in 25 CFR 23.28, on or before 4:15 p.m., or the applicable close of business for that office on the closing date of the application period. Post marks will not be considered as meeting the deadline for applications received after the application deadline. The names and addresses of Bureau Social Service Area Offices and staff are listed at the end of this announcement. Hand delivered applications are accepted during the normal working hours Monday through Friday.

Applications which do not meet this criteria are considered late applications and will not be considered in the current competition.

(c) Program Priorities

Indian Child Welfare Act grants are for the purpose of:

(1) Establishment and operation of Indian children and family service programs. In accordance with the policy in 25 CFR 23.2 to emphasize the design and funding of programs to promote the stability of Indian families, program priorities have been established to be utilized by area offices in the competitive review process when more than one application obtains the same competitive score. These priorities re-emphasize the programmatic interest in maintaining the family and preventing out-of-home placements. Program priorities are listed below in descending order:

(a) Operation and maintenance of facilities for the counseling and treatment of Indian families and for the temporary custody of Indian children.

(b) Family assistance (including homemaker and home counselors), day care, after school care, recreational activities, respite care, and employment.

(c) A system for tribes or Indian organizations to license or otherwise regulate Indian foster and adoptive homes or the preparation and implementation of child welfare codes within their legal jurisdictional authority, or pursuant to a state-tribal and/or Indian organization agreement.

(d) Guidance, legal representation, and advice to Indian families involved in tribal, state or federal child custody proceedings.

(e) Employment of professional and other trained personnel to assist the tribal court in the disposition of domestic relations and child welfare matters.

(f) Education and training of Indians (including tribal court judges and staff) in skills relating to child and family assistance and service programs.

(g) Subsidy programs under which Indian adoptive children may be provided support comparable to that for which they would be eligible as foster children, taking into account the appropriate state standards of support for maintenance and medical needs.

(h) Home improvement programs.

(i) Other programs designed to meet the purpose of the Act. Planning or feasibility grants may be undertaken for any one of the above listed program purposes. These applications will be ranked according to the priority of the program under consideration.

(2) Providing non-Federal matching shares for other Federal financial assistance programs as prescribed in 25 CFR 23.43. The order of priority of matching share grants will correlate with the purpose of the program receiving the match.

(d) Content of the Application

The application shall be no longer than 40 pages, double spaced excluding the appendix. The table of contents and indices will not be counted toward the maximum length. It is recommended that the appendix be no longer than 20 pages. Any application whose narrative exceeds 40 pages will not be reviewed past page 40.

The application shall include standard form 424 and the following information:

(1) Name and address of Indian tribal governing body(s) or Indian organization applying for a grant,

(2) Descriptive name of project,

(3) Grant funds requested,

(4) The unduplicated client service population directly benefiting from the project,

(5) Length of project,

(6) Beginning date,

(7) Project budget categories or items,

(8) Program narrative statement (including third year plans if appropriate),

(9) Certification or evidence of request by Indian tribe or board of Indian organization (preferably covering the duration of the proposed project),

(10) Evidence of substantial community support for the proposed program. This request may be in the form of a tribal resolution, an endorsement included in the grant application or such other forms as the

BEST COPY AVAILABLE

tribal constitution or current practice requires.

(11) Name and address of the Bureau office to which an application is submitted.

(12) Date application is submitted to the Bureau, and

(13) Additional information pertaining to grant applications for funds to be used as matching shares.

Information included in the appendix should relate specifically to the application. The appendix may include, but is not limited to, the following: Resolutions, support letters, position descriptions, fiscal management/accounting certification, operational monitoring system, non-profit status documentation.

(e) Evaluation Criteria

The content of the application and the following factors are considered in the competitive review of these grant applications:

(1) The degree to which an applicant demonstrates in the program narrative an understanding of the social service problems or issues impacting the client population which the applicant proposes to serve.

(If an applicant identifies alcohol or drug abuse as a major problem or issue impacting Indian children and families, they must also clearly address current efforts to coordinate existing resources to attack this problem. This may include information on the development or contents of the Tribal Action Plan specified under section 4208 of the Omnibus Drug and Alcohol Abuse Act of 1988).

(2) The degree to which and the methods by which the applicant intends to fulfill the purpose of the grant, specifically relating to goals and the objectives of the program to the issues and problems impacting the client population. (The proposed methods outlined in the application should have an established basis for operation, e.g., a tribal placement program requires tribally established licensing or placement standards on which to operate, or a program to assist the tribal court requires a tribal code and a tribal court with which to work, etc.)

(3) Whether the applicant presents narrative, quantitative data, and demographics of the client population to be served. Examples of such data include:

(a) The number of actual or estimated Indian child placements outside the home;

(b) The number of actual or estimated Indian family breakups; and

(c) The need for a directly related preventive program. (Refer to Part II for further explanation).

(4) The relative accessibility which the Indian population to be served under a specific proposal already has to existing child and family service programs emphasizing prevention of Indian family breakup.

Factors to be considered in determining accessibility include:

(a) Cultural barriers;

(b) Discrimination against Indians;

(c) Inability of potential Indian clientele to pay for services;

(d) Lack of programs which provide free service to indigent families;

(e) Technical barriers created by existing public or private programs;

(f) Availability of transportation to existing programs;

(g) Distance between the Indian community to be served under the proposal and the nearest existing programs;

(h) Quality of service provided to Indian clientele; and

(i) Relevance of service provided to specific needs of Indian clientele.

(5) The proper justification of the extent to which the proposed program would duplicate any existing child and family service program emphasizing prevention of Indian family breakup, taking into consideration all the factors listed in paragraphs (1), (2), (3), and (4) of this section. Proper justification must be given for any duplication of services.

(6) Evidence of substantial community support for the proposed program from the Indian community or communities to be served. Such support may be evidenced by:

(a) Letters of support from individuals and families to be served;

(b) Local Indian community representation in and control over the Indian entity requesting the grant;

(c) Letters from local social service or social service related agencies familiar with the applicant's past work experience.

(7) The explanation of proposed facilities and of the structure of the tribal or Indian organization including the structure of the particular unit within the organization requesting grant funds, and the position description of any position to be funded with grant funds, identifying qualifications, responsibilities, and lines of supervision.

(8) The reasonableness and relevance of the estimated costs of the proposed program or service.

An application shall not receive a preliminary approval unless a review of the application determines that it:

(a) Contains all the information required in "D. Content of an Application."

(b) Receives at least the minimum score of 85 in a competitive review under the scoring process using the selection criteria established in regulation,

(c) If an applicant has been a grantee during the year immediately preceding the year for which an application is being made, and has made an application to continue essentially the same service program, satisfactory evaluation(s) from the Area office review of the program must be provided in addition to the other materials required in this subsection.

(f) Single Year Grant Review Process

The BIA's Assistant Secretary or his/her designated representative shall select for grants under the Indian Child Welfare Act those proposals which will in his/her judgment best promote the purposes of the Act. Such selection will be made through a review process in which each application will be scored competitively using the BIA review criteria listed above at the appropriate Bureau Social Service Office referred to in 25 CFR 23.30, 23.31, or 23.33. Grant applications will be reviewed by a panel of reviewers qualified by training and/or experience in human services to Indian populations. These recommendations will be used by the Assistant Secretary's designated representative to preliminarily approve or disapprove all single year grant applications, and make funding recommendations to the Central Office. The Assistant Secretary has final funding authority.

(g) Procedures for Submissions of Multi-Year Renewal Applications

The Assistant Secretary may award grants for the third year of approved multi-year project proposals as authorized in 25 CFR 23.37. *No new multi-year projects shall be considered in the FY 88 application period.* Funding of projects is subject to the availability of funding in accordance with 25 CFR 23.27(e). Only current grantees who have FY 87 approved multi-year projects may submit renewal applications.

Three copies of the following information must be submitted to the appropriate agency or area office by current multi-year project grantees in the renewal application:

(1) New SF–424

(2) Updated information required in 25 CFR 23.24, 23.25, 23.26 and 23.27(c)(3).

(3) Updated Operational Monitoring System (OMS)

(4) Proposed budget

Grantees must have a satisfactory evaluation of the current year of their multi-year project from the Area Office in order to be considered for funding for subsequent project years (25 CFR 23.27(c)(3)).

As stated in 25 CFR 23.27(3), requests (e.g. resolutions) from tribal governing bodies or Indian organizations which cover the duration of the multi-year project will fulfill the requirements specified 25 CFR 23.26 and do not need to be resubmitted on an annual basis. Resolutions that were only for one year of the project must be updated for the year which the grantee is submitting a renewal application.

Grantees must comply with 25 CFR Part 276 in terms of both financial and performance reporting requirements. Failure to meet and comply with regulatory requirements can result in suspension, cancellation and/or termination of program funds. The OMS for a multi-year renewal application must demonstrate a developmental approach to the delivery of the proposed child and family service project (25 CFR 23.37(d)(2)). In revising or updating the OMS, renewal applicants should submit an OMS–2. If your OMS–2 does not require updating please note in your renewal application that you are *not* submitting a revised OMS–2.

(h) Renewal Application Review

Upon submission of the initial application and the renewal application, the revised area/agency certification form will be completed by the appropriate area/agency office specified in 25 CFR 23.30 or 23.31. The applicant must include a satsifactory evaluation of their existing ICWA program (25 CFR 23.27(c)(3)) to include with their renewal application.

Materials submitted for renewal shall not be subject to competitive review. The Area social worker or designated social services staff shall review renewal applications for compliance with 25 CFR Part 23 and 25 CFR Part 276. The Area social worker or designated social services staff shall make recommendations based on this review.

(i) Renewal Application Funding

Funding shall be in accordance with the formula published in the **Federal Register** (25 CFR 23.27(e)(1)). Funding after the first year of a multi-year project will depend upon the grantee's progress in achieving the objectives in the project according to the approved work plan submitted in the previous year(s) of the project (25 CFR 23.37(f)), demonstrated need and the availability of funds.

Part IV. List of BIA Area Offices—BIA Area Offices; Area Social Workers

Aberdeen—Dean Krahulec, 115 4th Avenue, SE, Aberdeen, SD 57401, 605–225–0250, extension 351.

DEPARTMENT OF JUSTICE

Bureau of Prisons

28 CFR Part 549

Control, Custody, Care, Treatment, and Instruction of Inmates; Authority to Conduct Autopsies

AGENCY: Bureau of Prisons, Justice.

ACTION: Final rule.

SUMMARY: In this document, the Bureau of Prisons is publishing its final rule on Authority to Conduct Autopsies. The rule describes the conditions under which a Warden, pursuant to rules prescribed by the Director, Bureau of Prisons, may order an autopsy under his own authority, and those conditions requiring the written consent of another party. The final rule is primarily intended to meet the statutory requirement of 18 U.S.C. 4045.

EFFECTIVE DATE: December 17, 1987.

ADDRESS: Office of General Counsel, Bureau of Prisons, Room 770, 320 1st Street, NW., Washington, DC 20534.

FOR FURTHER INFORMATION CONTACT: Hank Jacob, Office of General Counsel, Bureau of Prisons, phone 202/272–6874.

SUPPLEMENTARY INFORMATION: The Bureau of Prisons is publishing its final rule on Authority to Conduct Autopsies. A proposed rule on this subject was published in the **Federal Register** on April 1, 1987 (at 52 FR 10530 et seq.). Interested persons were invited to submit comments on the proposed rule. Members of the public may submit comments concerning the final rule by writing the previously cited address. These comments will be considered but will receive no response in the **Federal Register**.

Title 18 U.S.C. 4045, authorizes the Warden, pursuant to rules prescribed by the Director, Bureau of Prisons, to order an autopsy and related scientific or medical tests to be performed on the body of a deceased inmate of the facility in the event of homicide, suicide, fatal illness or accident, or unexplained death. The autopsy or tests may be ordered in one of these situations only when the Warden determines that the autopsy or test is necessary to detect a crime, maintain discipline, protect the health or safety of other inmates, remedy official misconduct, or defend the United States or its employees from civil liability arising from the administration of the facility. An autopsy or post-mortem operation not meeting the conditions specified above requires the written consent of a person authorized to permit such an autopsy or post-mortem operation. Based on the fact that the rule is primarily intended to meet the statutory requirement of 18 U.S.C. 4045, and because the Bureau received no public comment on its proposed rule, the Bureau of Prisons finds good cause under 5 U.S.C. 533(d) to publish its final rule without a delay in the effective date. The final rule, in § 549.80(c)(2), is clarified to state that Bureau staff may not release the body to a funeral home until the funeral home agrees in writing that no preparation for burial, including embalming, should be performed until a final decision is made on the need for an autopsy.

The Bureau of Prisons has determined that this rule is not a major rule for the purpose of EO 12291. The Bureau of Prisons has determined that EO 12291 does not apply to this rule since the rule involves agency management. After review of the law and regulations, the Director, Bureau of Prisons, has certified that this rule, for the purpose of the Regulatory Flexibility Act (Pub. L. 96–354), does not have a significant impact on a substantial number of small entities.

List of Subjects in 28 CFR Part 549

Prisoners.

Conclusion

Accordingly, pursuant to the rulemaking authority vested in the Attorney General in 5 U.S.C. 552(a) and delegated to the Director, Bureau of Prisons in 28 CFR 0.96(q), Chapter V of 28 CFR is amended as set forth below.

Dated: December 9, 1987.

J. Michael Quinlan,

Director, Bureau of Prisons.

In consideration of the foregoing, amend Subchapter C of 28 CFR, Chapter V, by adding a new Subpart G consisting of § 549.80 to Part 549.

SUBCHAPTER C—INSTITUTIONAL MANAGEMENT

PART 549—MEDICAL SERVICES

I. The authority citation for Part 549 is revised to read as follows:

Authority: 5. U.S.C. 301; 18 U.S.C. 3621, 4001, 4005, 4042, 4045, 4081, 4082, 5006–5024, 5039; 28 U.S.C. 509, 510; 28 CFR 0.95–0.99

II. In Part 549, add a new Subpart G to read as follows:

Subpart G—Authority to Conduct Autopsies

Sec.

549.80 Authority to conduct autopsies.

Subpart G—Authority to Conduct Autopsies

§ 549.80 Authority to conduct autopsies.

(a) The Warden may order an autopsy and related scientific or medical tests to be performed on the body of a deceased inmate of the facility in the event of homicide, suicide, fatal illness or accident, or unexplained death. The autopsy or tests may be ordered in one of these situations only when the Warden determines that the autopsy or test is necessary to detect a crime, maintain discipline, protect the health or safety of other inmates, remedy official misconduct, or defend the United States or its employees from civil liability arising from the administration of the facility.

(1) The authority of the Warden under this section may not be delegated below the level of Acting Warden.

(2) Where the Warden has the authority to order an autopsy under this provision, no non-Bureau of Prisons authorization (e.g., from either the coroner or from the inmate's next-of-kin) is required. A decision on whether to order an autopsy is ordinarily made after consultation with the attending physician, and a determination by the Warden that the autopsy is in accordance with the statutory provision. Once it is determined that an autopsy is appropriate, the Warden shall prepare a written statement authorizing this procedure. The written statement is to include the basis for approval.

(b) In any situation other than as described in paragraph (a) of this section, the Warden may order an autopsy or post-mortem operation, including removal of tissue for transplanting, to be performed on the body of a deceased inmate of the facility with the written consent of a person (e.g., coroner, or next-of-kin, or the decedent's consent in the case of tissue removed for transplanting) authorized to permit the autopsy or post-mortem operation under the law of the State in which the facility is located.

(1) The authority of the Warden under this section may not be delegated below the level of Acting Warden.

(2) When the conducting of an autopsy requires permission of the family or next-of-kin, the following message is to be included in the telegram notifying the family or next-of-kin of the death: "Permission is requested to perform a complete autopsy". Also inform the family or next-of-kin that they may telegraph the institution *collect* with their response.

Where permission is not received from the person (e.g., coroner or next-of-kin) authorized to permit the autopsy or post-mortem operation, an autopsy or post-mortem operation may not be performed under the conditions of this paragraph (b).

(c) In addition to the provisions of paragraphs (a) and (b) of this section, each institution also is expected to abide by the following procedures.

(1) Staff shall ensure that the state laws regarding the reporting of deaths are followed.

(2) Time is a critical factor in arranging for an autopsy, as this ordinarily must be performed within 48 hours. While a decision on an autopsy is pending, no action should be taken that will affect the validity of the autopsy results. Therefore, while the body may be released to a funeral home, this should be done only with the written understanding from the funeral home that no preparation for burial, including embalming, should be performed until a final decision is made on the need for an autopsy.

(3) Medical staff shall arrange for the approved autopsy to be performed.

(4) To the extent consistent with the needs of the autopsy or of specific scientific or medical tests, provisions of state and local laws protecting religious beliefs with respect to such autopsies are to be observed.

Environmental Protection Agency

40 CFR Part 355
Extremely Hazardous Substances List; Final Rules

VOL 52 ISS 242 DEC 17 1987 UMI

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 355

[FRL—3303-3]

Extremely Hazardous Substances List

AGENCY: U.S. Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: On November 17, 1986, the U.S. Environmental Protection Agency (EPA) proposed the deletion of 40 substances from the list of "extremely hazardous substances" promulgated by the Agency under section 302 of the Emergency Planning and Community Right-to-Know Act of 1986, Title III of the Superfund Amendments and Reauthorization Act of 1986. Today's final rule removes one of those substances, bacitracin, from the list of extremely hazardous substances.

EFFECTIVE DATE: This rule becomes effective on December 17, 1987.

ADDRESS: The record supporting this rulemaking is contained in the Superfund Docket located in Room Lower Garage at the U.S. EPA, 401 M Street, SW., Washington, DC. 20460. The docket is available for inspection by appointment only between the hours of 9:00 a.m. and 4:00 p.m. Monday through Friday, excluding federal holidays. The docket phone number is 202–382–3046. As provided in 40 CFR Part 2, a reasonable fee may be charged for copying services.

FOR FURTHER INFORMATION CONTACT: Carrie Wehling, Office of General Counsel, LE–132S, U.S. EPA, 401 M Street, SW., Washington, DC 20460, (202) 382–7706. The Chemical Emergency Preparedness Hotline can also be contacted for further information at 1–800–535–0202, in Washington, DC at 1–202–479–2449.

SUPPLEMENTARY INFORMATION: The contents of today's preamble are listed in the following outline:

I. Statutory Authority
II. Delisting of Bacitracin
III. Effective Date
IV. Regulatory Analyses

I. Statutory Authority

This regulation is issued under sections 302 and 328 of the Emergency Planning and Community Right-to-Know Act of 1986 ("the Act").

II. Delisting of Bacitracin

On October 17, 1986, the President signed into law the Superfund Amendments and Reauthorization Act of 1986 ("SARA"), Pub. L. No. 99–499 (1986). Title III of SARA established a program designed to encourage state and local planning and preparedness for spills or releases of hazardous substances and to provide the public and local governments with information concerning potential chemical hazards in their communities. This program is codified as the Emergency Planning and Community Right-to-Know Act of 1986, 42 U.S.C. 11001–11050.

Subtitle A of the Act establishes the framework for local emergency planning. Under section 302, a facility which has present an "extremely hazardous substance" in excess of its "threshold planning quantity" ("TPQ") must notify the State emergency planning commission and participate, as necessary, in local emergency planning activities.

On November 17, 1986, EPA published the statutorily-designated list of "extremely hazardous substances" and their associated TPQs in an interim final rule, as required by section 302. 51 FR 41570. On the same day, EPA proposed the deletion of a number of substances, including bacitracin, from the list of extremely hazardous substances based on the fact that they did not meet the Agency's criteria for acute toxicity. 51 FR 41593.

On November 23, 1987, EPA published a notice of availability of its further study on the long-term toxicity of bacitracin. 52 FR 44921. In that notice, EPA stated that, based on its analysis of the toxicity of bacitracin, the Agency has no reason to believe that the substance should remain on the list of extremely hazardous substances.

Also on November 23, 1987, the District Court for the District of Columbia issued an order in *A.L. Laboratories, Inc.* V. *Environmental Protection Agency*, Civ. Action No. 87–1991–OG (and consolidated cases) requiring EPA to remove bacitracin from the list of extremely hazardous substances under section 302 of the Act.

As a result of the Court's order and in light of the absence of information suggesting that bacitracin may result in toxic or other effects upon exposure to a release of the substance into the environment, EPA today is delisting bacitracin from the list of "extremely hazardous substances" subject to emergency planning and notification requirements under this Act.

As a result of today's action, EPA is no longer considering comments on one aspect of the November 23, 1987 notice of availability, *i.e.* whether bacitracin should be delisted. However, because the bacitracin study sets forth several general criteria for evaluation of long-term toxic effects, EPA is still requesting comment on the study and those criteria for purposes of future listings and delistings from the extremely hazardous substances list under section 302.

III. Effective Date

As indicated in the opening section of this preamble, this rule is effective immediately. Section 553(d) of the Administrative Procedure Act ("APA") generally requires the publication of a rule no less than 30 days prior to its effective date. However, under section 553(d)(1), the Agency may suspend the 30 day effective date requirement for a rule which relieves a restriction. Because this rule provides relief from regulatory requirements previously applicable to persons handling large amounts of bacitracin, EPA is suspending the 30 day effective date requirement for this delisting.

IV. Regulatory Analyses

Because this delisting is not a "major" rule as defined under Executive Order 12291, no regulatory impact analysis has been prepared in connection with this final rule.

In addition, because this delisting will not have a significant impact on a substantial number of small entities, no analysis of the impacts of this rule on small entities is required under the Regulatory Flexibility Act of 1980.

List of Subjects in 40 CFR Part 355

Chemicals, Hazardous substances, Extremely hazardous substances, Community right-to-know, Chemical accident prevention, Chemical emergency preparedness, Threshold planning quantity, Reportable quantity, Community emergency response plan, Contingency planning, Reporting and recordkeeping requirements.

Dated: December 10, 1987.

Lee M. Thomas,

Administrator.

For the reasons set out in the Preamble, Part 355 of Title 40 of the Code of Federal Regulations is amended as follows:

PART 355—EMERGENCY PLANNING AND NOTIFICATION

1. The authority citation for Part 355 is revised to read as follows:

Authority: 42 U.S.C. 11002, 11003, 11004, 11025, 11028, and 11029 (1986).

Appendix A—[Amended]

2. Appendix A to Part 355 is amended to remove the following entry:

CAS No.	Chemical name	. . .
1405–87–4	Bacitracin	. . .

Appendix B—[Amended]

3. Appendix B to Part 355 is amended to remove the following entry:

CAS No.	Chemical name	. . .
1405–87–4	Bacitracin	. . .

[FR Doc. 87–29007 Filed 12–16–87; 9:27 am]

BILLING CODE 6560–50–M

40 CFR Part 355

Extremely Hazardous Substances List

AGENCY: U.S. Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: On November 17, 1986, the U.S. Environmental Protection Agency (EPA) proposed the deletion of 40 substances from the list of "extremely hazardous substances" promulgated by the Agency under section 302 of the Emergency Planning and Community Right-to-Know Act of 1986, Title III of the Superfund Amendments and Reauthorization Act of 1986. Today EPA is taking final action to remove three of those substances from the list of extremely hazardous substances.

EFFECTIVE DATE: This rule becomes effective on December 17, 1987.

ADDRESS: The record supporting this rulemaking is contained in the Superfund Docket located in Room Lower Garage at the U.S. EPA, 401 M Street, SW., Washington, DC 20460. The docket is available for inspection by appointment only between the hours of 9:00 a.m. and 4:00 p.m. Monday through Friday, excluding federal holidays. The docket phone number is 202–382–3046. SUPPLEMENTARY INFORMATION: The contents of today's preamble are listed in the following outline:

I. Statutory Authority
II. Today's Rulemaking
III. Effective Date
IV Regulatory Analyses

I. Statutory Authority

This regulation is issued under section 302 and 328 of the Emergency Planning and Community Right-to-Know Act of 1986 ("the Act").

II. Today's Rulemaking

On October 17, 1986, the President signed into law the Superfund Amendments and Reauthorization Act of 1986 ("SARA"), Pub. L. No. 99–499 (1986). Title III of SARA established a program designed to encourage state and local planning and preparedness for spills or releases of hazardous substances and to provide the public and local governments with information concerning potential chemical hazards in their communities. This program is codified as the Emergency Planning and Community Right-to-Know Act of 1986, 42 U.S.C. 11001–11050. Subtitle A of the Act establishes the framework for local emergency planning. Under section 302, a facility which has present an "extremely hazardous substance" in excess of its "threshold planning quantity" ("TPQ") must notify the State emergency planning commission andparticipate, as necessary, in local emergency planning activities.

On November 17, 1986, EPA published the statutorily-designated list of 402 "extremely hazardous substances" and their associated TPQs in an interim final rule, as required by section 302.51 FR 41570. On the same day, EPA proposed the deletion of 40 substances from the list of extremely hazardous substances based on the fact that they did not meet the Agency's criteria for acute toxicity. 51 FR 41593.

Based on public comment on this proposal, EPA announced on April 22, 1987, that it had deferred the proposed delisting of these substances, pending an evaluation of the long-term effects from short-term exposure to each of the substances proposed for delisting. 52 FR 13388.

On November 23, 1987, the District Court for the District of Columbia issued an order in *A.L. Laboratories, Inc.* v. *Environmental Protection Agency*, Civ. Action No. 87–1991–OG (and consolidated cases) requiring EPA to remove four of the substances proposed for delisting from the list of extremely hazardous substances under section 302 of the Act. The basis for the Court's order was its reasoning that Congress did not intend to include in the statutorily-designated list substances listed due to clerical error.

In response to the Court's order, EPA has published a final rule removing one of those substances, bacitracin, from the section 302 list. Today EPA is taking final action to delist the remaining three substances subject to the Court's order: Dibutyl phthalate, dimethyl phthalate, and dioctyl phthalate. In addition, EPA believes that the remaining 36 substances originally proposed for delisting on November 17, 1986 are indistinguishable from the four substances subject to the Court's order with respect to their status on the list of "extremely hazardous substances". As a result, EPA intends to issue a final rule within the next 30 days deleting the other 36 substances proposed for delisting on November 17, 1986. Upon the effective date of that rule, those substances will no longer be subject to the emergency planning and notification requirements under the Act.

III. Effective Date

As indicated in the opening section of this preamble, this rule is effective immediately. Section 553(d) of the Administrative Procedure Act ("APA") generally requires the publication of a rule no less than 30 days prior to its effective date. However, under section 553(d)(1), the Agency may suspend the 30 day effective date requirement for a rule which relieves a restriction. Because this rule provides relief from regulatory requirements previously applicable to persons handling large amounts of these substances, EPA is suspending the 30 day effective date requirement for this delisting.

IV. Regulatory Analyses

Because this delisting is not a "major" rule as defined under Executive Order 12291, no regulatory impact analysis has been prepared in connection with this final rule.

In addition, because this delisting will not have a significant impact on a substantial number of small entities, no analysis of the impacts of this rule on small entities is required under the Regulatory Flexibility Act of 1980.

List of Subjects in 40 CFR Part 355

Chemicals, Hazardous substances, Extremely hazardous substances, Community right-to-know, Chemical accident prevention, Chemical emergency preparedness, Threshold planning quantity, Reportable quantity, Community emergency response plan, Contingency planning, Reporting and recordkeeping requirements.

Dated: December 10, 1987.

Lee M. Thomas,

Administrator.

For the reasons set out in the Preamble, Part 355 of Title 40 of the Code of Federal Regulations is amended as follows:

PART 355—EMERGENCY PLANNING AND NOTIFICATION

1. The authority citation for Part 355 continues to read as follows:

Authority: 42 U.S.C. 11002, 11003, 11004, 11023, 11035, 11028, and 11029 (1986).

Appendix A—[Amended]

2. Appendix A to Part 355 is amended to remove the following entries:

CAS No.	Chemical name	...
• • • • •		
84-74-2	Dibutyl Phthalate.	...
• • • • •		
131-11-3	Dimethyl Phthalate.	...
• • • • •		
117-84-0	Dioctyl Phthalate.	...

Appendix B—[Amended]

3. Appendix B to Part 355 is amended to remove the following entries:

CAS No.	Chemical name	...
• • • • •		
84-74-2	Dibutyl Phthalate.	...
• • • • •		
117-84-0	Dioctyl Phthalate.	...
131-11-3	Dimethyl Phthalate.	...

DEPARTMENT OF TRANSPORTATION

Maritime Administration

46 CFR Part 249

[Docket R-101]

Approval of Underwriters for Marine Hull Insurance

AGENCY: Maritime Administration, Department of Transportation.

ACTION: Proposed Rulemaking: Extension of comment period.

SUMMARY: This notice extends the comment period for a Notice of Proposed Rulemaking (NPRM) that MARAD has issued concerning its policies with respect to the placement of hull insurance on subsidized and Title XI program vessels (52 F.R. 38481, October 16, 1987). American Maritime Transport, Inc. (AMT) has requested a one-month extension of the comment period due to end on December 15, 1987. AMT stated in its request that in an effort to provide detailed information regarding the impact of the current rules, it is undertaking an extensive review of its past operations. It also hopes to provide detailed estimates of the impact of the proposed rule. The analyses are time consuming and cannot, according to AMT, be completed by the deadline. While MARAD would normally believe one month to be an excessive extension after a 60-day comment period, in view of the impending holidays, MARAD hereby grants the requested extension of the comment period, in order to allow AMT and other affected parties more time to prepare comments.

DATE: NPRM comment period expiration date is extended until January 15, 1988.

ADDRESS: Send the original and two copies of comments to the Secretary, Maritime Administration, Room 7300, Department of Transportation, 400 Seventh Street, S.W., Washington, D.C. 20590. To expedite review of the comments, the agency requests, but does not require, submission of an additional ten (10) copies of the comments. All comments will be made available for inspection during normal business hours at this address. Commenters wishing MARAD to acknowledge receipt should enclose a self-addressed and stamped envelope or postcard.

FOR FURTHER INFORMATION CONTACT: William B. Ebersold, Office of the Associate Administrator for Maritime Aids, Maritime Administration, Washington, D.C. 20590, Tel. (202) 366-0364.

Dated: December 15, 1987

By Order of the Maritime Administrator:

James E. Saari,

Secretary, Maritime Administration.

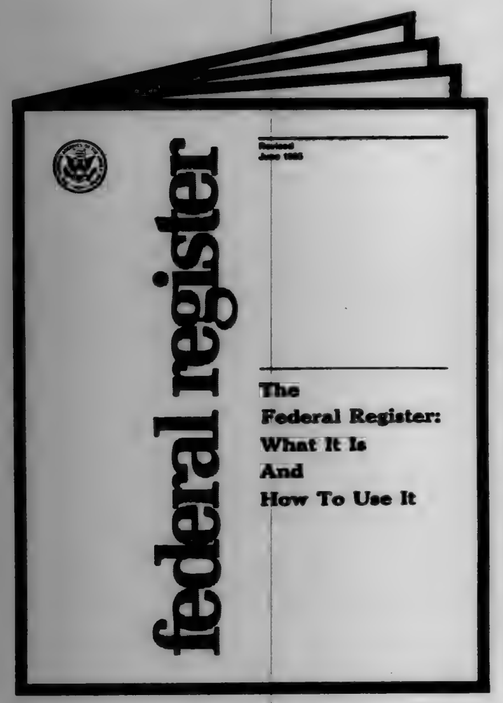
LIST OF PUBLIC LAWS



Last List December 16, 1987

This is a continuing list of public bills from the current session of Congress which have become Federal laws. It may be used in conjunction with "P L U S" (Public Laws Update Service) on 523–6641. The text of laws is not published in the **Federal Register** but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone 202–275–3030).

S.J. Res. 35/Pub. L. 100–190
Relating to the commemoration of January 28, 1988, as a "National Day of Excellence." (Dec. 14, 1987; 101 Stat. 1292; 1 page) Price: $1.00

H.R. 2939/Pub. L. 100–191
Independent Counsel Reauthorization Act of 1987. (Dec. 15, 1987; 101 Stat. 1293; 16 pages) Price: $1.00

The Federal Register: What It Is and How to Use It

A Guide for the User of the Federal Register—Code of Federal Regulations System

This handbook is used for the educational workshops conducted by the Office of the Federal Register. For those persons unable to attend a workshop, this handbook will provide guidelines for using the *Federal Register* and related publications, as well as an explanation of how to solve a sample research problem.

Price $4.50

BEST COPY AVAILABLE

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers for $340.00 per year, or $170.00 for 6 months in paper form, or $188.00 per year, or $94.00 for six months in microfiche form, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, or charge to your GPO Deposit Account or VISA or Mastercard.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 52 FR 12345.

Rules and Regulations

Federal Register
Vol. 52, No. 243
Friday, December 18, 1987

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

7 CFR Part 6

Allocations of Sugar Import Quotas; Other Specified Countries or Areas

AGENCY: Office of the Secretary, USDA.

ACTION: Final rule.

SUMMARY: This rule modifies the allocation provisions governing sugar import quotas for those countries or areas which are designated as "Other Specified Countries or Areas" (more commonly known as the "basket category"). This rule modifies the maximum quota allocated to each basket country. Each country in the basket category will receive an annual quota equal to its pro rata share of the percentage quota for the basket, or 5,770 short tons, whichever is greater.

EFFECTIVE DATE: January 1, 1988.

FOR FURTHER INFORMATION CONTACT: John Nuttall, Foreign Agricultural Service, Department of Agriculture, Room 6095-South, 14th and Independence Avenue SW., Washington, DC 20250. Telephone: (202) 447–2916.

SUPPLEMENTARY INFORMATION: This rule involves a foreign affairs function of the United States. Accordingly, the provisions of 5 U.S.C. 553 do not apply and no regulatory flexibility analysis is required under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This rule has been reviewed under Department of Agriculture procedures required by Executive Order 12291 and Departmental Regulation 1512–1 and has been classified as "not major" since the rule does not have any of the effects specified in those documents.

Presidential Proclamation No. 4941 of May 5, 1982 (47 FR 19661) established a country-by-country quota system for the importation of sugar into the United States. Under the import quota allocation provisions established under the Proclamation, each country was allocated a specific percentage allocation of the quota if that allocation was .7 percent or greater. A specified percentage of the total quota amount was allocated to a group of countries specified in the Proclamation and designated as "Other Specified Countries or Areas" (more commonly known as the "basket category"). The percentage allocation of the quota to the basked category was pooled and each country competed on a first-come-first-serve basis for the entire allocation.

Proclamation No. 4941 further provided that notwithstanding the allocation provisions set forth in the Proclamation, the Secretary may, after consultation with the U.S. Trade Representative, the Department of State, and the Department of the Treasury, issue regulations modifying the allocation provisions governing "Other Specified Countries or Areas" if the Secretary determines that such modifications are appropriate to provide such countries and areas reasonable access to the United States sugar market.

These allocation provisions were modified in an interim rule published in the **Federal Register** on August 11, 1982 (47 FR 34769) to provide that each country in the basket category would have a specific annual quota. Under that interim rule, each country received a quota allocation equal to its pro rata share of the quota allocation for the basket category, or 16,500 short tons, whichever was greater.

The interim rule (47 FR 34769) was adopted as a final rule with a modification and was published in the **Federal Register** on December 6, 1985 (50 FR 49919). The final rule modified the maximum level allocated to individual countries in the basket category. Each country received a quota allocation equal to its pro rata share of the quota allocation for the basket category, or 12,500 short tons, whichever is greater.

The final rule (50 FR 49919) was further modified by an interim rule published in the **Federal Register** on December 18, 1986 (51 FR 45295) which reduced the maximum quota allocated to each basket country to a level equal to its pro rata share of the percentage allocation for the basket category, or 7,500 short tons, whichever is greater. No comments were received with respect to the interim rule.

This rule finalizes the interim rule (51 FR 45295) with a modification by revising the quota amount each basket country will receive to a level equal to its pro rata share of the percentage allocation for the basket category, or 5,770 short tons, whichever is greater.

After consultation with the United States Trade Representative, the Department of State, and the Department of the Treasury, the Secretary of Agriculture has determined that the modification of the allocation provisions covering the basket category is appropriate to provide countries or areas in the basket category with reasonable access to the U.S. sugar market. It has also been determined that these provisions are appropriate to carry out U.S. obligations under the General Agreement on Tariffs and Trade.

List of Subjects in 7 CFR Part 6

Agricultural commodities, Foreign Trade, Imports, Quotas, Sugar.

Accordingly, 7 CFR Part 6 Subpart-Sugar Import Quotas is amended as follows:

PART 6—[AMENDED]

1. The authority citation for Subpart-Sugar Import Quotas (§§ 6.90–6.93) continues to read as follows:

Authority: Section 201, Trade Expansion Act of 1962 (19 U.S.C. 1821); Presidential Proclamation 4941, May 5, 1982 (47 FR 19661); Headnotes 2 and 3, Subpart A, Part 10, Schedule 1 of the Tariff Schedules of the United States (19 U.S.C. 1202).

2. Section 6.91(a)(2) is revised to read as follows:

§ 6.91 Allocation of individual import quotas.

(a) * * *

(2) 5,770 short tons, raw value.

* * * * *

Signed at Washington, DC on December 15, 1987.

Richard E. Lyng,

Secretary of Agriculture.

[FR Doc. 87–29077 Filed 12–15–87; 4:02 pm]

BILLING CODE 3410-10-M

Agricultural Marketing Service

7 CFR Part 907

[Navel Orange Reg. 664]

Navel Oranges Grown in Arizona and Designated Part of California; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: Regulation 664 establishes the quantity of California-Arizona navel oranges that may be shipped to market during the period December 18, 1987, through December 24, 1987. Such action is needed to balance the supply of fresh navel oranges with the demand for such oranges during the period specified due to the marketing situation confronting the orange industry.

EFFECTIVE DATE: Regulation 664 (§ 907.964) is effective for the period December 18, 1987, through December 24, 1987.

FOR FURTHER INFORMATION CONTACT: Raymond C. Martin, Section Head, Volume Control Programs, Marketing Order Administration Branch, F&V, AMS, USDA, Room 2528–S, P.O. Box 96456, Washington, DC 20090–6456. telephone: (202) 447–5120.

SUPPLEMENTARY INFORMATION: This final rule is issued under Marketing Order 907 (7 CFR Part 907), as amended, regulating the handling of navel oranges grown in Arizona and designated part of California. This order is effective under the Agricultural Marketing Agreement Act of 1937, as amended, hereinafter referred to as the Act.

This final rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512–1 and has been determined to be a "non-major" rule under criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of the use of volume regulations on small entities as well as larger ones.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 123 handlers of California-Arizona navel oranges subject to regulation under the navel orange marketing order, and approximately 4,065 producers in California and Arizona. Small agricultural producers have been defined by the Small Business Administration (13 CFR 121.2) as those having annual gross revenues for the last three years of less than $100,000, and small agricultural service firms are defined as those whose gross annual receipts are less than $3,500,000. The majority of handlers and producers of California-Arizona navel oranges may be classified as small entities.

This action is consistent with the marketing policy for 1987–88 adopted by the Navel Orange Administrative Committee (Committee). The Committee met publicly on December 15, 1987, in Los Angeles, California, to consider the current and prospective conditions of supply and demand and recommended, by a 10 to 1 vote, a quantity of navel oranges deemed advisable to be handled during the specified week. The Committee reports that the market for navel oranges is improving.

Based on consideration of supply and market conditions, and the evaluation of alternatives to the implementation of prorate regulations, the Administrator of the AMS has determined that this final rule will not have a significant economic impact on a substantial number of small entities.

Pursuant to 5 U.S.C. 553, it is further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in further public procedure with respect to this action and that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register** because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared policy of the Act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. To effectuate the declared purposes of the Act, it is necessary to make this regulatory provision effective as specified, and handlers have been apprised of such provision and the effective time.

List of Subjects in 7 CFR Part 907

Marketing agreements and orders, California, Arizona, Oranges (navel).

For the reasons set forth in the preamble, 7 CFR Part 907 is amended as follows:

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

1. The authority citation for 7 CFR Part 907 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

2. Section 907.964 is added to read as follows:

§ 907.964 Navel Orange Regulation 664.

The quantity of navel oranges grown in California and Arizona which may be handled during the period December 18, 1987, through December 24, 1987, are established as follows:

(a) District 1: 744,000 cartons;
(b) District 2: 64,303 cartons;
(c) District 3: 40,000 cartons;
(d) District 4: 16,000 cartons.

Dated: December 16, 1987.

Robert C. Keeney,

Deputy Director, Fruit and Vegetable Division Agricultural Marketing Service.

[FR Doc. 87–29221 Filed 12–17–87; 8:45 am]

BILLING CODE 3410–02–M

7 CFR Part 910

[Lemon Reg. 592]

Lemons Grown in California and Arizona; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: Regulation 592 establishes the quantity of fresh California-Arizona lemons that may be shipped to market at 250,000 cartons during the period December 20 through December 26, 1987. Such action is needed to balance the supply of fresh lemons with market demand for the period specified, due to the marketing situation confronting the lemon industry.

EFFECTIVE DATE: Regulation 592 (§ 910.892) is effective for the period December 20 through December 26, 1987.

FOR FURTHER INFORMATION CONTACT: Raymond C. Martin, Section Head, Volume Control Programs, Marketing Order Administration Branch, F&V, AMS, USDA, Room 2523, South Building, P.O. Box 96456, Washington, DC 20090–6456; telephone: (202) 447–5697.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512–1 and has been determined to be a "non-major" rule under criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service has determined that this action will not have a significant economic impact on a substantial number of small entities.

The purpose of the RFA is to fit regulatory action to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Agricultural Marketing Agreement Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

This regulation is issued under Marketing Order No. 910, as amended (7 CFR Part 910) regulating the handling of lemons grown in California and Arizona. The order is effective under the Agricultural Marketing Agreement Act (the "Act", 7 U.S.C. 601–674), as amended. This action is based upon the recommendation and information submitted by the Lemon Administrative Committee and upon other available information. It is found that this action will tend to effectuate the declared policy of the Act.

This regulation is consistent with the marketing policy for 1987–88. The committee met publicly on December 15, 1987, in Los Angeles, California, to consider the current and prospective conditions of supply and demand and recommended, by an 11 to 0 vote, a quantity of lemons deemed advisable to be handled during the specified week. The committee reports that the demand for lemons is easier, with lessened demand due to inclement weather in the eastern states.

Pursuant to 5 U.S.C. 553, it is further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, and engage in further public procedure with respect to this action and that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register** because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared purposes of the Act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary, in order to effectuate the declared purposes of the Act, to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

List of subjects in 7 CFR Part 910

Marketing agreements and orders, California, Arizona, Lemons.

For the reasons set forth in the preamble, 7 CFR Part 910 is amended as follows:

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

1. The authority citation for 7 CFR Part 910 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

2. Section 910.892 is added to read as follows:

§ 910.892 Lemon Regulation 592.

The quantity of lemons grown in California and Arizona which may be handled during the period December 20 through December 26, 1987, is established at 250,000 cartons.

Dated: December 16, 1987.

Robert C. Keeney,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 87–29220 Filed 12–17–87; 8:45 am]

BILLING CODE 3410–02–M

Commodity Credit Corporation

7 CFR Part 1434

Honey Price Support Regulations Governing 1986–1990 Crops

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Final rule.

SUMMARY: This final rule adopts, without change, the interim rules published in the **Federal Register** on March 5, 1987 (52 FR 6775) and on April 10, 1987 (52 FR 11617). The interim rules amended the regulations to (1) extend the final date in which price support loans and purchase agreements are available to producers from January 31 to March 31 of the year following the year in which the honey is produced and extracted, (2) provide that the Secretary of Agriculture shall make price support available to producers through loans, purchases or other operations as determined and announced annually by the Secretary, (3) provide that the honey container requirements may be waived by the Community Credit Corporation (CCC) when producers agree to redeem, under the lower loan repayment option provision and within a period of time determined by CCC, honey pledged as collateral for price support loans, and (4) provide certain miscellaneous amendments.

EFFECTIVE DATE: December 18, 1987.

FOR FURTHER INFORMATION CONTACT: Harold Connor, Cotton Grain, and Rice Price Support Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, P.O. Box 2415, Washington, DC 20013. Phone: (202) 447–8223.

SUPPLEMENTARY INFORMATION: Information collection requirements contained in this regulation (7 CFR Part 1434) have been approved by the Office of Management and Budget (OMB) in accordance with the provisions of 44 U.S.C. Chapter 35, and have been assigned OMB clearance numbers 0560–0040 and 0560–0087.

This final rule has been reviewed under U.S. Department of Agriculture (USDA) procedures established in accordance with provisions of Executive Order 12291 and Departmental Regulation No. 1512–1 and has been classified "not major." It has been determined that provisions of this final rule will not result in: (1) An annual effect on the economy of $100 million or more; (2) major increases in costs or prices for consumers, individual industries, Federal, State, or local government agencies or geographic regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

It has been determined that the Regulatory Flexibility Act is not applicable to this final rule since the CCC is not required by 5 U.S.C. 553 or any other provision of law to publish a notice of proposed rulemaking with respect to the subject matter of this final rule.

This program/activity is not subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials. See the Notice related to 7 CFR Part 3015, Subpart V, published at 48 FR 29115 (June 24, 1983).

It has been determined that this action is not expected to have any significant impact on the quality of the human environment. In addition, it has been determined this action will not adversely affect environmental factors such as wildlife habitat, water quality, air quality, and land use and appearance. Accordingly, neither an Environmental Assessment nor an Environmental Impact Statement is needed.

The title and number of the Federal Assistance Program to which this final

rule applies are: Title—Commodity Loans and Purchases; Number 10.051, as found in the Catalog of Federal Domestic Assistance.

Interim Rules

On March 5, 1987, an interim rule was published in the **Federal Register** at 52 FR 6775 which amended the Honey Price Support Regulations governing 1986–1990 crops. The interim rule amended the regulations at 7 CFR 1434.4(a) and 1434.6(b) to extend the final date in which price support loans and purchase agreements are available to producers from January 31 to March 31 of the year following the year in which the honey is produced and extracted. The extension of the price support availability period will (1) permit producers and cooperatives to take full advantage of the recent amendment to the regulations which permits honey producers to repay their price support loans at the price support level or at a lower level as determined by the Secretary and (2) minimize the quantity of honey which CCC would acquire.

On April 10, 1987, an interim rule was published in the **Federal Register** at 52 FR 11617 which amended the Honey Price Support Regulations governing 1986–1990 crops. The interim rule amended the regulations at 7 CFR 1434.1, 1434.2, 1434.7, and 1434.34 to provide: (1) That the Secretary of Agriculture shall make price support available to producers through loans, purchases or other operations as determined and announced annually by the Secretary, (2) that the honey container requirements may be waived by Commodity Credit Corporation (CCC) when producers agree to redeem, under the lower loan repayment option provision and within a period of time determined by CCC, honey pledged as collateral for price support loans, and (3) for certain other miscellaneous amendments.

The annual determination of the method by which price support would be made available will permit the Secretary to maintain the competitive relationship of honey in domestic and export markets after taking into consideration the cost of producing honey, supply and demand conditions, and world prices of honey. The waiver of honey container requirements will permit producers who agree to redeem honey pledged as collateral, to use the type of containers suitable for their own purposes rather than use the type of containers required by the regulations. The miscellaneous amendments delete certain provisions and definitions which are confusing.

Comment periods were provided with respect to both interim rules but no comments were received. Accordingly it has been determined that both interim rules should be adopted as final rules without any changes.

Final Rule

Accordingly, the interim rules published at 52 FR 6775 and 52 FR 11617, which amended 7 CFR Part 1434, are hereby adopted as final rules without any change.

Authority: Sec. 4, 62 Stat. 1070, as amended (15 U.S.C. 714(b); sec. 5, 62 Stat. 1072 (15 U.S.C. 714c); secs. 201, 401, 63 Stat. 1052, 1054, as amended (7 U.S.C. 1446, 1421).

Signed at Washington, DC on December 14, 1987.

Milton Hertz,

Executive Vice President, Commodity Credit Corporation.

[INS Number: 1054-87]

Guam Visa Waiver

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Final rule.

SUMMARY: This rule implements the visa waiver provisions provided in section 14 of the Omnibus Territories Act, Pub. L. 99-396, whereby the nonimmigrant visa requirement is waived for certain aliens applying as nonimmigrant visitors for business or pleasure solely for admission into and stay on Guam for a period not to exceed fifteen days. It facilitates travel to Guam, while insuring through limitations on periods of authorized stay, hearing rights, adjustment of status eligibility, through a carrier contract requirement and sanctions for carrier violations, that Guam is protected from an influx of immigration law violators.

EFFECTIVE DATE: December 18, 1987.

FOR FURTHER INFORMATION CONTACT: Dwight S. Faulkner, Assistant Chief Inspector, Immigration and Naturalization Service, 425 I Street, NW—Room 7123, Washington, DC 20536, Telephone: (202) 633-3995.

SUPPLEMENTARY INFORMATION: In pursuant of tourism and commercial expansion, the government of Guam has long sought relief from the requirement that all aliens entering Guam for business or pleasure be in possession of valid nonimmigrant visas. The visa requirement is applicable to Guam in that in a geographical sense, and pursuant to the terms of the Immigration and Nationality Act, Guam is a part of the United States.

The Guam visa waiver legislation stipulates that the waiver must not represent a threat to the welfare, safety, or security of the United States, its territories and commonwealths. Yet, as stated in the Senate and House Records, the Congressional intent supports an initially liberal application; in particular, countries with visa denial rates through 16% for the preceding year. Therefore, a country whose refusal rate exceeds the 16.9% limitation would only be given consideration if that country established a United States preinspection station within its territorial boundaries, as preinspection minimizes potential threats by stopping them at their source. The waiver then applies to visitors from countries within geographical proximity to Guam and who thus maintain a traditional cultural interchange. It also applies to visitors from countries which, although not geographically proximate to Guam, have a substantial volume of traffic into Guam and extend reciprocal privileges to citizens of the United States. In addition, as Congress did not intend for Guam to become an avenue for circumvention of normal refugee processing, countries deemed by the Department of State to be of special humanitarian concern are excluded from participation.

Entry under this section bars the alien from adjustment of status to temporary or permanent resident; change of nonimmigrant status; extension of stay; or the right to an exclusion or deportation hearing, other than on the basis of a request for asylum, thus paralleling the visa waiver pilot program.

The issue of carrier liability is addressed in the House Report of August 27, 1986, which states in pertinent part, "In addition to the obligations that this provision would impose on the Immigration and Naturalization Service, the program that it would establish necessarily imposes responsibilities on the airliner who must cooperate with its controls, especially with regard to preclearance." Accordingly, the carrier must be prepared to establish that each alien it transports without a visitor's visa was prima facie eligible for the visa waiver, because the carrier is subject to fine pursuant to section 273 of the Immigration and Nationality Act for transporting any alien not in possession of an unexpired visitor's visa, as required, unless the requirement is waived pursuant to this part. The carrier contract and ticket restrictions parallel the visa waiver pilot program, thereby substantiating the intent of Congress regarding carrier responsibility.

Implementation of the terms of the visa waiver is contingent upon the establishment on Guam of an adequate arrival/departure control system and a determination that such waiver does not represent a threat to the welfare, safety or security of the United States, any threat to be dealt with on a country by country basis, resulting in the Commissioner's immediate removal of that country from the list. The Attorney General, the Secretary of State, and the Secretary of the Interior, after consultation with the Governor of Guam, shall jointly detemine that these conditions have been met.

Compliance with 5 U.S.C. as to notice of proposed rulemaking and delayed effective date is impracticable and contrary to public interest as the revision has been mandated by an amendment to the Immigration and Nationality Act by Pub. L. 99-396.

In accordance with 5 U.S.C. 605(b) the Commissioner of Immigration certifies that this rule does not have a significant economic impact on a substantial number of small entities. This is not a major rule within the meaning of section 1(b) of E.O. 12291.

The information collection requirements contained in this document have been submitted to the Office of Management and Budget for review in accordance with the provisions of the Paperwork Reduction Act.

Accordingly, Chapter I of Title 8 of the Code of Federal Regulations is amended as follows:

PART 212—DOCUMENTARY REQUIREMENTS: NONIMMIGRANTS; WAIVERS; ADMISSION OF CERTAIN INADMISSIBLE ALIENS; PAROLE

1. The authority citation for Part 212 is revised to read as follows:

Authority: 8 U.S.C. 1101, 1103, 1182, 1184, 1225, 1226, 1228, 1252, 8 CFR Part 2.

2. In § 212.1, existing paragraphs (e) through (j) are redesignated (f) through (k), and a new paragraph (e) is added to read as follows:

§ 212.1 Documentary requirement for nonimmigrants.

* * * * *

(e) *Aliens entering Guam pursuant to section 14 of Pub. L. 99-396, "Omnibus Territories Act."* (1) A visa is not required of an alien who is a citizen of a country enumerated in paragraph (e)(3) of this section who:

(i) Is classifiable as a vistor for business or pleasure;

(ii) Is solely entering and staying on Guam for a period not to exceed fifteen days;

(iii) Is in possession of a round-trip nonrefundable and nontransferable transportation ticket bearing a confirmed departure date not exceeding fifteen days from the date of admission to Guam;

(iv) Is in possession of a completed and signed Visa Waiver Information Form (Form I-736);

(v) Waives any right to review or appeal the immigration officer's determination of admissibility at the port of entry at Guam; and

(vi) Waives any right to contest any action for deportation, other than on the basis of a request for asylum.

(2) An alien is eligible for the waiver provision if all of the eligibility criteria in paragraph (e)(1) of this section have been met prior to embarkation and the alien is a citizen of a country that:

(i) Has a visa refusal rate of 16.9% or less, or a country whose visa refusal rate exceeds 16.9% and has an established preinspection or preclearance program, pursuant to a bilateral agreement with the United States under which its citizens traveling to Guam without a valid United States visa are inspected by the Immigration and Naturalization Service prior to departure from that country;

(ii) Is within geographical proximity to Guam, unless the country has a substantial volume of nonimmigrant admissions to Guam as determined by the Commissioner and extends reciprocal privileges to citizens of the United States;

(iii) Is not designated by the Department of State as being of special humanitarian concern; and

(iv) Poses no threat to the welfare, safety or security of the United States, its territories, or commonwealths.

Any potential threats to the welfare, safety, or security of the United States, its territories, or commonwealths will be dealt with on a country by country basis, and a determination by the Commissioner of the Immigration and Naturalization Service that a threat exists will result in the immediate deletion of that country from the listing in paragraph (e)(3) of this section.

(3) The following countries now meet the eligibility criteria as stated in paragraph (e)(2) of this section:

Australia, Brunei, Burma, Indonesia, Japan, Malaysia, Nauru, New Zealand, Papua New Guinea, Singapore, Solomon Islands, the United Kingdom (including citizens of the colony of Hong Kong), Vanuatu, and Western Samoa.

(4) Admission under this section renders an alien ineligible for:

(i) Adjustment of status to temporary or permanent resident;

(ii) Change of nonimmigrant status; or

(iii) Extension of stay.

(5) A transportation line bringing any alien to Guam pursuant to this section shall:

(i) Enter into a contract on Form I-760, made by the Commissioner of the Immigration and Naturalization Service in behalf of the government;

(ii) Transport only an alien who is a citizen and in possession of a valid passport of a country enumerated in paragraph (e)(3) of this section;

(iii) Transport only an alien in possession of a round-trip, nontransferable transportation ticket:

(A) Bearing a confirmed departure date not exceeding fifteen days from the date of admission to Guam,

(B) Valid for a period of not less than one year,

(C) Nonrefundable except in the country in which issued or in the country of the alien's nationality or residence,

(D) Issued by a carrier which has entered into an agreement described in part (5)(i) of this section, and

(E) Which the carrier will unconditionally honor when presented for return passage; and

(iv) Transport only an alien in possession of a completed and signed Visa Waiver Information Form I–736.

PART 214—NONIMMIGRANT CLASSES

3. The authority citation for Part 214 is revised to read as follows:

Authority: 8 U.S.C. 1101, 1103, 1184, 8 CFR Part 2.

4. In § 214.2(b)(1) the following sentence is added at the end of the existing paragraph:

§ 214.2 Special requirements for admission, extension, and maintenance of status.

* * * * *

(b) * * *

(1) * * * Those B–1 and B–2 visitors admitted pursuant to the waiver provided at § 212.1(e) of this Chapter may be admitted to and stay on Guam for a period not to exceed fifteen days and are not eligible for extension of stay.

* * * * *

PART 238—CONTRACTS WITH TRANSPORTATION LINES

5. The authority citation for Part 238 is revised to read as follows:

Authority: 8 U.S.C. 1103, 1228.

6. In § 238.3 paragraph (a) is revised to read as follows:

§ 238.3 Aliens in immediate and continuous transit.

(a) *Form I–246 agreements.* A transportation line bringing aliens to the United States pursuant to § 212.1(f)(1) of this chapter shall enter into an agreement on Form I–426. Such agreement shall be negotiated directly by the Central Office and the head offices of the transportation lines.

* * * * *

7. In Part 238 a new § 238.5 is added to read as follows:

§ 238.5 Aliens entering Guam pursuant to section 14 of Pub. L. 99–396, "Omnibus Territories Act".

(a) *Form I–760 agreements.* A transportation line bringing aliens to Guam under the visa waiver provisions of § 212.1(e) of this Chapter shall enter into an agreement on Form I–760. Such agreements shall be negotiated directly by the Central Office and head offices of the transportation lines.

(b) [Reserved]

PART 245—ADJUSTMENT OF STATUS TO THAT OF PERSONS ADMITTED FOR PERMANENT RESIDENCE

8. The authority citation for Part 245 is revised to read as follows:

Authority: 8 U.S.C. 1101, 1103, 1154, 1159, 1182, 1255, 8 CFR Part 2.

9. In § 245.1(b) a new paragraph (b)(11) is added to read as follows:

§ 245.1 Eligibility.

* * * * *

(b) * * *

(11) Any alien admitted as a visitor under the visa waiver provisions of § 212.1(e) of this chapter.

* * * * *

PART 248—CHANGE OF NONIMMIGRANT CLASSIFICATION

10. The authority citation for Part 248 is revised to read as follows:

Authority: 8 U.S.C. 1101, 1103, 1184, 1258, 8 CFR Part 2.

11. In § 248.2 a new paragraph (e) is added to read as follows:

§ 248.2 Ineligible classes.

* * * * *

(e) Any alien admitted as a visitor under the visa waiver provisions of § 212.1(e) of this chapter.

PART 299—IMMIGRATION FORMS

12. The authority citation for Part 299 is revised to read as follows:

Authority: 8 U.S.C. 1101, 1103, 8 CFR Part 2.

13. § 299.1 is amended by adding the following immediately before the entry "ICAO" in numerical sequence:

§ 299.1 Prescribed forms.

Food Safety and Inspection Service

9 CFR Parts 303 and 381

[Docket No. 87–002F]

Experimentation With Procedures for Determining Intensity of Inspection Coverage in Processing Establishments; Waivers of Provisions of Regulations

AGENCY: Food Safety and Inspection Service (FSIS), USDA.

ACTION: Final rule.

SUMMARY: On March 30, 1987, the Administrator, FSIS, published an interim final rule with request for comments, thereby initiating a period of experimentation as the first step in changing the Federal inspection system in establishments conducting post-slaughter preparation of meat food products and/or post-slaughter and evisceration processing of poultry products to a "discretionary inspection" (DI) system; that is, one in which the frequency and the manner of government inspection are based on consideration relevant to effective regulation of such products and protection of the public health and welfare. Such a change is called for by 1986 amendments to the Federal Meat Inspection Act (FMIA) and is authorized by the Poultry Products Inspection Act (PPIA). The object of the experimentation is to determine whether and, if so, to what extent the intensity of Federal inspection of meat food and poultry products exceeds that which FSIS should consider or deem necessary under these statutes. During the period of experimentation, the frequency of government inspection at some official establishments is being reduced. To the extent that this or other conditions and methods of inspection coverage are identified as conflicting with current provisions of the regulations, such provisions are to be waived for the period of experimentation.

FSIS has reviewed the information, views, and arguments submitted during the comment period and is now publishing a final rule. Except for a clarification in wording, the provisions of this final rule do not differ from those of the iterim rule.

FSIS now anticipates publication of a proposal to amend the Federal meat and the poultry products inspection regulations to include the new and revised provisions needed for full implementation of a DI system in the near future. The provisions for experimentation set forth herein will be rescinded upon completion of that rulemaking, unless the experimentation period has been terminated earlier.

EFFECTIVE DATE: December 18, 1987.

FOR FURTHER INFORMATION CONTACT: Judith A. Segal, Director, Policy and Planning Staff, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC 20250, (202) 447–6525.

SUPPLEMENTARY INFORMATION:

Executive Order 12291 and Effect on Small Entities

The Administrator, FSIS, has determined that this final rule is not a major rule under Executive Order 12291. It is not likely to result in an annual effect on the economy of $100 million or more; a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets. The Administrator also has determined that this action will not have a significant economic impact on a substantial number of small entities, in accordance with the requirements of the Regulatory Flexibility Act (Pub. L. 96–354, 5 U.S.C. 601 *et seq.*).

The basis for these determinations includes the fact that waiver of certain provisions of the regulations and other aspects of this experimentation affect only a limited number of processing establishments subject to inspection under the FMIA and/or the PPIA for a limited period. Any economic benefits which might indirectly result from inclusion in pilot testing (e.g., reduction in payments for inspection program employees working overtime) are relatively small and affect only a portion of the establishments in which pilot tests are conducted, and selecting all establishments within a designated site that are found to satisfy the establishment performance criteria is further reducing the opportunity for any adverse effect on competition. Both the number of establishments selected and the length of time during which they are included in a pilot test of DI procedures is not being extended beyond that which is needed to test the program variables under consideration in establishments with different characteristics. FSIS selected only 14 establishments initially and plans to select not more than about 200 in all, or approximately 3 percent of the federally inspected establishments that will be subject to the fully implemented DI system. Moreover, the Agency is conducting pilot testing in most establishments for only 3 to 6 months, with termination of the experimentation period expected by the end of the spring of 1988. As particular pilot tests are ended, the Agency returns to pre-experimentation conditions and methods of inspection coverage until full implementation of the DI system; at that time, all establishments (including those previously selected for pilot testing) will be evaluated.

Background

The Secretary of Agriculture's duties include implementation of the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601 *et seq.*) and the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451 *et seq.*) to prevent the preparation or processing and distribution of meat, meat food products, and poultry products which are adulterated or misbranded or not properly marked, labeled, and packaged (21 U.S.C. 453 (g) and (h), 457, 458, 601 (m) and (n), 607, and 610). Responsibility for exercising the functions of the Secretary contained in the FMIA and PPIA has been delegated to the Administrator, FSIS (7 CFR 2.17(g) and 2.55(a)(2)). Among those functions are administration of the inspection requirements for meat food and poultry products and sanitation practices in establishments preparing or processing such products for commerce or otherwise subject to inspection under the FMIA or PPIA (21 U.S.C. 455, 456, 605, 606, and 608) and the issuance of rules and regulations executing provisions of these Acts (21 U.S.C. 463(b) and 621).

Late last year the Congress of the United States amended the inspection requirements for meat food products in section 6 of the FMIA (21 U.S.C. 606). Pursuant to the Processed Products Inspection Improvement Act of 1986, Title IV of the Futures Trading Act of 1986 (FTA) (Pub. L. 99–641), rather than requiring the Secretary to cause inspectors appointed for that purpose to make "an examination and inspection of all meat food products prepared for commerce in any slaughtering, meat-canning, salting, packing, rendering, or similar establishment," such examination and inspection is to be:

> conducted with such frequency and in such manner as the Secretary considers necessary, as provided in rules and regulations issued by the Secretary, taking into account such factors as the Secretary considers to be appropriate. . . [FTA, section 403(a)].

Three such factors are specified in the statute: the nature and frequency of processing operations at an establishment, the adequacy and reliability of the processing controls and sanitary procedures at an establishment, and the history of compliance with inspection requirements in effect under the FMIA by the operator of an establishment or anyone responsibly connected with the business (i.e., any partner, officer, director, holder, or owner of 10 per centum or more of its voting stock or employee in a managerial or executive capacity) that operates that establishment.

By so amending the FMIA, Congress authorized the Department, for a 6-year period,* to base the frequency with which and the manner in which meat food products are examined and inspected by program employees on considerations relevant to the effective regulation of meat food products and the protection of the public health and welfare. The legislation also reflects Congressional recognition that full implementation of a new system of government inspection of post-slaughter processing operations will take time: Title IV and the amendments made thereby became effective on the date of enactment (November 10, 1986), except that sections 6, 9, and 21 of the FMIA (21 U.S.C. 606, 609, and 621), as in effect immediately before that date, "apply with respect to establishments until the Secretary . . . first issues rules and regulations to implement the amendments made by section 403(a)" (FTA, section 408). This rulemaking has initiated implementation of those amendments; however, it is only the first step in a process intended to assure an orderly transition to the "discretionary inspection" (DI) system mandated by the recent amendments to the FMIA.

*Not later than 6 years after the date of enactment, Congress is to evaluate the operation and effects of the amendments made by section 403 of the FTA for the purpose of determining whether to extend or modify the operation of such amendments and enact such legislation as may be necessary to efficiently and effectively carry out the FMIA. (FTA section 407).

VOL 52 ISS 243 DEC 18 1987 UMI

This rulemaking also has initiated changes that will result in the institution of a DI system for operations processing products from poultry carcasses that have passed post mortem inspection. The PPIA authorizes the Department to vary the frequency and the manner of government inspection in establishments conducting post-slaughter and evisceration processing of poultry products based on effective regulation and public protection considerations. In particular, section 6(b) (21 U.S.C. 455(b)) requires the Secretary to cause government inspectors to make "post mortem inspection of the carcass of each bird processed, and at any time such quarantine, segregation and reinspection as he deems necessary of poultry and poultry products capable of use as human food in each official establishment processing such poultry or poultry products for commerce or otherwise subject to inspection. . ."

The Administrator of FSIS now believes that the frequency and manner of reinspection by program employees of poultry products made from poultry previously slaughtered and eviscerated and found to be not adulterated that is "deem[ed] necessary" should be varied, taking into account the same factors as those considered appropriate under the amended FMIA. To date, however, the rules and regulations and other aspects of inspection coverage have been basically comparable to those prescribed pursuant to the narrower pre-amendment authority in the FMIA. Therefore, exercising the authority to implement a DI system of inspection presents orderly transition concerns under the PPIA as well.

The Department supported the 1986 amendments to the FMIA, as well as administering the PPIA to institute the same approach to the inspection of comparable processing operations, because it believes that the efficiency and effectiveness of the meat and poultry inspection program in utilizing available resources to maximize the level of compliance with regulatory requirements, and thus achievement of the purposes of the FMIA and PPIA (see 21 U.S.C. 451 and 602 and FTA, section 402), can be improved by adjusting the frequency and the manner of government inspection. However, before modifying the inspection system as a whole and fully implementing a DI system, rules regarding the frequency and the manner of government inspection should be tested in order to assess their adequacy and appropriateness and thereby protect the integrity and effectiveness of the inspection program.

In particular, the Administrator of FSIS concluded that procedures for determining whether and, if so, to what extent the intensity of inspection coverage in some processing establishments exceeds that which should be considered or deemed necessary under the FMIA, as amended (21 U.S.C. 606), or the PPIA (21 U.S.C. 455) and for designing the conditions and methods of inspection coverage in such establishments should be tested in a small-scale, experimental setting in order to obtain sufficient information on which to base final amendments to varous portions of the Federal meat inspection and the poultry products inspection regulations. Therefore, the first rules and regulations issued in implementing the amendments made by section 403(a) of the FTA to section 6 of the FMIA (21 U.S.C. 606) and instituting a comparable DI system under the PPIA consisted of provisions for conducting pilot tests of such DI system in establishments subject to inspection under the FMIA (9 CFR 303.2) or the PPIA (9 CFR 381.3(c)–(e)).

The Administrator also concluded that the Federal meat inspection regulations should address the waiver for limited periods of provisions of those regulations to provide for situations in which alternative courses of action are appropriate and do not conflict with either the purposes or the provisions of the statute. In particular, the Administrator determined that, despite potential or actual conflicts with provisions of the regulations, such alternative courses of action should be pursued in administering the FMIA in order to permit (1) appropriate and necessary action in the event of a public health emergency and (2) experimentation so that new procedures, equipment, and/or processing techniques may be tested to facilitate definite improvements. In both of these classes of cases, the waiver decision reflects a judgment that certain provisions of the regulations as applied in specific situations should be temporarily suspended in order to achieve the purposes of the FMIA and that the alternative course of action pursued during such a limited period is not inconsistent with FMIA provisions.

The inclusion of such a rule in the Federal meat inspection regulations (9 CFR 303.1(g)) specified Agency policy for carrying out its statutory responsibilities and conducting the inspection program. The poultry products inspection regulations already included such a rule (9 CFR 381.3(b)). However, the emergency situations provided for in the poultry products inspection regulations were limited to those that are "national" in scope. Since such waivers also may better enable FSIS to take appropriate and necessary action in response to an emergency in a smaller geographic area and the focus of concern here is assuring adequate public health protection, the Administrator determined that the words "public health" should be substituted for "national" in § 381.3(b) of the regulations (9 CFR 381.3(b)).

Nineteen submissions (17 written comments and 2 oral presentations) were received during the 30 days following publication of the interim final rule. (Two additional persons subsequently submitted comments that include views already expressed by others referred to herein.) Comments were submitted by 9 individuals, 3 of whom further identified themselves (1 as a concerned citizen who formerly worked in a plant that manufactured processed meat products, 1 as a consumer, and 1 as a USDA food inspector who has worked in packing plants). Comments also were submitted on behalf of food inspectors by their union representative and by a United States Senator, a State department of agriculture, and 7 industry members (1 processing company, 4 trade associations of meat packers, processors, and/or purveyors, and 2 trade associations of food processing companies).

Comments from individuals, the food inspectors union, and the Senator expressed opposition to the interim final rule, to changing the inspection system, and/or to a DI system. Comments from the State department of agriculture and industry members expressed support for the discretionary inspection concept and/or for implementation of a DI system; 7 of these commenters addressed the interim final rule, and 5 of them expressed views or concerns about features of the anticipated DI system or the implementing regulations.

FSIS wishes to point out that the March 30 notice requested comments concerning the interim final rule and stated that interested members of the public will have an opportunity to comment on the design of the DI system and specific proposed regulatory changes when the Agency proposes the regulations needed for full implementation of a DI system (52 FR 10028). Nevertheless, a number of commenters addressed issues involved in changing to a DI system, including the types of regulatory provisions and Agency decisionmaking believed to be

appropriate for full implementation of a DI system, rather than or in addition to the interim final rule. FSIS has reviewed all of the comments submitted, but its consideration of those that go beyond the question at hand—whether any changes should be made to the interim final rule (52 FR 10028)—has been limited. As indicated in the March 30 notice, FSIS is conducting pilot testing in order to obtain additional information before proposing final amendments to the Federal meat and the poultry products inspection regulations and to provide a meaningful opportunity to the public to participate in a rulemaking to consider the new and revised provisions needed for full implementation of a DI system (52 FR 10030, 10031). FSIS has not yet reached conclusions on issues such as whether or not various criteria for evaluating the performance of establishments should be further refined or supplemented before proposing their application to all establishments conducting post-slaughter preparation of meat food products and/or post-slaughter and evisceration processing of poultry products.

Of the commenters expressing opposition, only 3 addressed the interim final rule, and they also are against changing to a DI system. Two of these commenters contended that FSIS is proposing to lower the standards of inspection and will do so on a permanent basis, not just temporarily, and one of them feels the proposal to experiment with reducing the frequency of inspection of meat and poultry products will jeopardize the products' wholesomeness. Both basically view the inspection laws as addressing "Dollars versus public safety" concerns that have not changed. The third opposes suspension of the regulations because consumers will think that products bearing the inspection legend have been inspected when they have been only monitored. This commenter contended that the inspection program for poultry has become a disaster and DI will lead to the same in processing if not worse, questioned how food inspectors can insure that processing plants are using inspected meats and poultry products when they no longer get daily inspection, and called for a change of direction at the Washington level to make an effective inspection program the first priority.

Other commenters opposing changes in the system of government inspection expressed similar views and concerns. They believe that plants will not comply with sanitation or product requirements if inspectors are not present or the frequency of government inspection is reduced, that most plants cannot be trusted to take responsibility for some of their own inspection since the companies' objective is making a profit, that industry is going to be permitted to regulate itself, that FSIS is not or will not be adequately protecting consumers, and/or that an increase in foodborne illnesses may or will result from implementation of DI, with 1 predicting that DI will result in an annual economic effect of over $100 million due to increased food poisoning-related medical bills. In criticizing current FSIS enforcement and the 1986 law amending the FMIA or in questioning cutting back on inspection activities and asking that the DI system be reevaluated, two of these commenters cited figures on salmonella in poultry and annual rates of foodborne illness and deaths. One of them also referred to an assurance, given to him and another Senator by the Administrator, that passage of the bill to amend the FMIA would not result in involuntary reassignments of meat inspectors and requested information on inspector employment and steps intended to be taken under the DI system to ensure full and adequate inspection of all meat and poultry. In addition, 1 commenter took the position that DI should not interfere with inspector overtime: inspectors working over 8 hours should be compensated and plants working over 8 hours a shift should be charged.

Of the commenters favoring DI, 6 expressed support for FSIS experimentation under the interim final rule. FSIS's action was supported as a first step approach to implement a DI system, an initiative to test the procedures and protocol for implementing provisions of the 1986 law amending the FMIA, moving forward in a timely manner on the issue, or utilizing a trial period to gain some practical experience in DI so that final regulations will offer maximum protection of the food supply at a minimum burden to industry. One commenter stated general support for the interim final rule and another fully supported the procedures outlined therein, believing this to be a logical first step and information-gathering process in line with implementation of a DI program. Five of these commenters, all trade associations, indicated interest in assisting or working with FSIS during implementation of a DI system. One of them also commended FSIS for the recent finalization of comprehensive canning regulations, which it believed will serve as a very strong foundation in building a DI program for this industry segment, and encouraged the inclusion of canning establishment coverage in the current experimentation program. Another recommended including several State inspected processing operations in the pilot study and soliciting State officials' cooperation and support to make the pilot program more meaningful because of the anticipated ramifications and impact on inspection frequency determinations for such operations.

Commenters indicated that they favor DI in order to modernize the inspection program, because the processor bears the burden of complying with the Department's rules and regulations, or as permitting the utilization of inspection resources where they are most needed, more efficient and cost-decreasing usage of available inspection personnel nationwide, or Agency and industry realization of production efficiencies from sources such as expanded operating hours and a lessened need to incur overtime inspection costs. One commenter believes a DI program is feasible and cost effective for canning and freezing operations because processing operations and product safety requirements are the same whether or not products contain meat or poultry ingredients. Another believes that by reducing overtime costs a DI program should make small meat packers more cost competitive in the marketplace, thereby enabling them to modernize and improve product quality.

Aspects or provisions of the interim final rule were critiqued by 4 of the commenters favoring DI. As regards evaluation of the performance of establishments (9 CFR 303.2 (b)(1) and (c)(1) and 381.3 (d)(1) and (e)(1)), 1 commenter feels that for a corporation with multiple domestic processing establishments, the evaluation concerning compliance information and competency of those conducting the operation should be applied to the total corporation rather than to individual plant sites, and that such a change would be in direct cooperation with this company's approach to centralized Quality Assurance. This commenter also expressed the view that a company's ability to respond to and its manner of correcting noncompliance situations are more critical in evaluating an establishment's performance than the 10-year record of noncompliance criterion. Another commenter took the position that the Department seems to be placing undue emphasis on compliance history elements that may be outdated and may not necessarily portray a proper picture of existing conditions (which is what the Department should primarily evaluate)

VOL 52 ISS 243 DEC 18 1987 UMI

because management changes, application of tighter controls, or correction of improper FSIS inspection procedures erroneously pointing to noncompliance could negate the validity of past records. This commenter believes that decisions concerning the frequency, type, and intensity of inspection should be based primarily on the adequacy of processing controls in the establishment to assure production of safe, wholesome, and properly labeled products and that the application of proper controls demonstrates management commitment to assure regulatory compliance.

In addition, 2 commenters characterized criteria for evaluating an establishment's performance, particularly the management competence factor and the substantial and recent noncompliance criterion (9 CFR 303.2 (b)(1)(ii) and (c)(1)(i) and 381.3 (d)(1)(ii) and (e)(1)(i)), as subjective. One of them suggested that more objective criteria, including the health risk of the operation, be used in determining "eligibility" for DI and contended that the plant's processing controls should be the most important factor in such a determination and that the adequacy of such controls should outweigh the more subjective compliance and management attitudes factors. The other requested that FSIS develop an objective profile of its intended "disqualifiers" and consider whether an official warning letter for a minor or technical FMIA violation constitutes such documented noncompliance. One commenter also noted that their initial evaluations seem to indicate the "screening process" is more complex than necessary and cautioned the Department to avoid creating an overly restrictive, cumbersome, bureaucratic maze.

As regards determinations involving the characteristics of establishments (9 CFR 303.2 (b)(2) and (c)(2)(i) and 381.3 (d)(2) and (e)(2)(i)), 1 commenter took issue with FSIS Directive 1030.2, which ranks pizza assembly as "medium" complexity when meat components are bought from sources outside the plant. This commenter feels that such a classification is unjustified, and at odds with a 1983 staff report, and suggested that pizza assembly establishments be reclassified as "simple" processing because their handling of meat is limited to slicing already inspected meat and placing it on the product and this is analogous to operations FSIS classifies as "simple".

The submissions from 3 of these commenters and 2 others favoring DI also included views and concerns about full implementation of a DI system by the Department, some of which are similar to comments on the interim final rule. To 1 commenter, a crucial concern is that decisions be made in an objective manner and be based on plant performance criteria that evolve from considering critical public health risks, uninfluenced by unrelated matters. A second hopes and expects that the final DI regulation will be more detailed than the interim final rule and is especially interested in the type of inspection to be conducted under the DI system (e.g., the types and frequency of tests and the composition of inspection teams). One commenter foresees the likelihood that initial implementing rules will require modification, urges the Department to conduct another rulemaking before full implementation, and views industry input as necessary to assure adequate program testing and review. According to this commenter, demonstrated controls are in place in plants with approved total quality control systems and other plants should be required to demonstrate their in-house control programs to the Department, with an on-site assessment, in order to be considered for "periodic inspection". According to this commenter, demonstration of processing control should be limited to items directly related to product safety, adulteration, and misbranding. Another commenter hopes that FSIS will not make total quality programs a prerequisite for a lesser degree of inspectional presence because this would result in the possibility of other plants continually incurring overtime inspection costs, despite a compliance history warranting a lesser degree of physical inspector presence, which would tend to put the smaller packer at a disadvantage.

As regards establishment evaluations, one commenter favors addressing the nature and frequency of inspection as a function of processing controls, taking the position that such controls should be adequate to meet the complexity, volume, and size of the operations. According to this commenter, plant initiated actions to correct deficiencies are part of any praoperly designed control program and isolated observations of noncompliance may not adequately describe overall conditions; the Department should clearly identify the specific criteria necessary to disqualify a plant for periodic inspection and verifiable noncompliance instances should be carefully documentd before a plant is considered "ineligible". Another commenter took the position that those establishments considered and "rejected" for DI by the Agency should be provided with a notice, since rejection may have adverse economic and/or competitive consequences, and requested that the regulations include a notice which specifies the issues on which the firm did not meet the qualifying criteria and provides an opportunity for appeal.

FSIS's consideration of the comments received indicates that the scope and purpose of the experimentation period and the anticipated changes in the Federal inspection system are not clear to some members of the public. First, the only establishments affected by this rule are ones in which meat food products and/or poultry products are made from livestock previously slaughtered and/or poultry previously slaughtered and eviscerated in official establishments (9 CFR 303.2(a) and 381.3(c)). When fully implemented, the DI system will apply to all establishments preparing or processing such products, but not to livestock slaughter or poultry slaughter and evisceration operations in packing and other official establishments. The system of ante- and post-mortem inspection is not being changed (see 21 U.S.C. 455 and 603–605).

Second, issues that concern a number of commenters have already been considered by Congress during its deliberations on the 1986 amendments to the FMIA. Those deliberations resulted in amendments to the inspection requirements for meat food products and a recognition of the Department's authority under the PPIA to institute a comparable system for poultry products processed beyond slaughter and evisceration. Congress concluded (FTA, section 402), and FSIS agrees, that the 1986 amendments further effective government regulation of processed products and protection of the health and welfare of consumers (21 U.S.C. 602).

Third, the primary change called for under the anticipated system of inspection is the exercise of greater discretion by the Department in utilizing inspection program resources (21 U.S.C. 455(b) and 606(a)(2)). The responsibility of regulated industry members to prepare or process products only in compliance with statutory requirements and not to do business in adulterated or misbranded products or products required to be inspected unless they have been inspected and passed (21 U.S.C. 458(a) and 610) is unchanged. The standards for determining if product is adulterated or misbranded (21 U.S.C. 453((g) and (h) and 601 (m) and (n)), including the requirement that products bear an inspection legend (21 U.S.C. 453(h)(12) and 601(n)(12)), also are unchanged.

Thus, the fundamental task for FSIS in implementing a DI system is to decide how best to manage available program resources to maximize compliance with sanitation and product requirements under the FMIA or the PPIA in federally inspected establishments preparing meat food products and/or processing poultry products beyond slaughter and evisceration. To date, FSIS has focused on the procedures to be used by the Agency in determining the frequency and manner of government inspection under a DI system, particularly whether and, if so, to what extent the intensity of inspection coverage exceeds that which FSIS should consider or deem necessary. Inherent in such determinations is the exercise of judgment by FSIS. The factors appropriate for consideration in a DI system, including those specified by Congress (21 U.S.C. 602(a)(2)), are not precise measures to be applied in a rote manner. The FMIA and PPIA commit determinations about the frequency and manner of government inspection of meat food products and reinspection of poultry products to the Department's discretion.

The criteria specified in the interim final rule for use during the period of experimentation indicate the types of decisions that the Agency must make under a DI system. Among other things, the provisions call for establishment-by-establishment evaluations of performance and characteristics (9 CFR 303.2(b) and 381.3(d)) because Congress has directed that the situations in particular establishments preparing meat food products be taken into account (21 U.S.C. 602(a)(2)) and because FSIS believes that the conditions and methods of its inspection coverage should reflect the particular regulatory situation at an establishment. Similarly, while FSIS believes that the procedures used in an establishment to control the production process, environment, and resulting product are an important component of the performance evaluation (9 CFR 303.2(b)(1)(iii) and 381.3(d)(1)(iii)), their adequacy and reliability depend in part on the competence of establishment management (9 CFR 303.2(b)(1)(ii) and 381.3(d)(1)(ii)). Additionally, compliance history (9 CFR 303.2(b)(1)(i) and 381.3(d)(1)(i)) is a factor that should be considered in making a predictive judgment about the probability of future noncompliance (9 CFR 303.2(c)(1) and 381.3(e)(1)). (See 21 U.S.C. 606(a)(2) (B) and (C).) Moreover, the criteria in these provisions denote the Agency's intention to consider corrective actions and other responses to establishment deficiencies and noncompliance with applicable regulatory requirements (including, but not limited to, those involving critical public health risks) by taking into account the demonstrated ability and commitment of management (9 CFR 303.2(b)(1)(ii) (B) and (C) and 381.3(d)(1)(ii) (B) and (C)) and both the nature and frequency of any documented instances of noncompliance (9 CFR 303.2(c)(1)(i) and 381.3(e)(1)(i)).

Of the establishments initially selected for pilot testing, one prepares canned products. As testing proceeds, FSIS anticipates that additional establishments with canning operations will be identified for review and, if found by the Agency to satisfy its selection criteria, included in pilot tests. While institution of a DI system of Federal inspection may well have ramifications for State inspection programs, this period of experimentation is being conducted pursuant to the Federal meat and the poultry products inspection regulations to initiate implementation of amendments to the FMIA and to exercise existing authority under the PPIA. Therefore, only federally inspected establishments have been or will be identified for review.

During the period of experimentation, FSIS is using the assessment of establishment performance in selecting establishments for inclusion in pilot tests, and a focus of that testing is reducing the frequency of inspection by meat and poultry inspection program employees. However, as indicated above, when fully implemented, the DI system will apply to all establishments preparing meat food products and/or processing poultry products beyond slaughter and evisceration. At that time, FSIS will, in accordance with criteria developed after further rulemaking, evaluate all such establishments in order to make determinations about the frequency and the manner of government inspection. Those criteria will not be used to specify classes of establishments. (I.e., FSIS will not be "reject[ing]" establishments or classifying them as "ineligible".) Instead, the objective will be to determine the conditions and methods of inspection coverage that are appropriate in the circumstances presented, and at a given establishment, such conditions and methods might include various modifications of previous inspection coverage.

As information is obtained from pilot testing and existing regulations are reviewed, FSIS is considering the range of regulatory issues presented by full implementation of a DI system. These issues include concerns of some commenters, such as compliance with the requirement that products be prepared or processed only from livestock previously slaughtered and/or poultry previously slaughtered and eviscerated in official establishments and the appropriate categorization of processing operations by complexity. FSIS has concluded, however, that except for the clarification in wording discussed below, the provisions of the interim final rule should not be changed. The Agency encourages these commenters and other interested members of the public to participate in the upcoming rulemaking on the new and revised provisions needed for full implementation of DI system.

Provisions of the Final Rule

The provisions in this final rule include the factors that appear appropriate for consideration in assessing the performance of an establishment to determine whether the intensity of inspection coverage can be reduced while continuing to assure effective regulation of products and protection of the public health and welfare (9 CFR 303.2(b)(1) and 381.3(d)(1)), as well as the factors that appear appropriate for consideration in assessing the characteristics of an establishment on which to base the level of Federal inspection and other conditions and methods of government inspection during such experimentation (9 CFR 303.2(b)(2) and 381.3(d)(2)). For purposes of both meat food product and poultry product inspection, criteria are specified to take into account the factors included in section 6(a)(2) of the amended FMIA (21 U.S.C. 606(a)(2); section 403(a) of the FTA): Nature and frequency of processing operations (9 CFR 303.2(b)(2) and 381.3(d)(2)), adequacy and reliability of processing controls and sanitary procedures (9 CFR 303.2(b)(1) (ii) and (iii) and 381.3(d)(1) (ii) and (iii)), and history of compliance with inspection requirements (9 CFR 303.2(b)(1)(i) and 381.3(d)(1)(i)).

FSIS is using the information being obtained during the experimentation period to decide whether the criteria set forth in these provisions should be further refined or supplemented before their application to all establishments conducting post-slaughter preparation of meat food products and/or post-slaughter and evisceration processing of poultry products is proposed as part of the upcoming rulemaking on a proposal to amend the Federal meat inspection regulations and the poultry products inspection regulations to include the new and revised provisions needed for full implementation of a DI system. FSIS

VOL 52 ISS 243 DEC 18 1987 UMI

currently anticipates completion of that rulemaking by the end of the spring of 1988. The final rule so amending the regulations also will rescind the provisions for experimentation with DI procedures set forth herein, unless such experimentation period has been terminated earlier.

FSIS is selecting establishments for inclusion in a pilot test from those the Administrator identifies for review (9 CFR 303.2(a) and 381.3(c)). The Agency expects that the number of establishments selected for pilot tests may increase from the initial group of 14 to as many as 200 as groups of establishments in new, limited geographical sites are phased in over the course of the experimentation period. Such sites are being designated on the basis of their suitability for generating information to satisfy evaluation needs. The length of time during which establishments are included in a pilot test is being varied depending on the testing involved and is not expected to exceed 3 to 6 months in most establishments.

An establishment so identified may be selected for inclusion in the pilot testing of procedures for reducing the intensity of inspection coverage if, and only if, evaluation of the performance of the establishment (1) reveals, in records compiled no earlier than 10 years before, no documented instances of substantial and recent noncompliance with applicable regulatory requirements and (2) evidences the competence and control procedures needed to assure and monitor compliance with applicable regulatory requirements (9 CFR 303.2(c)(1) and 381.3(e)(1)). The "substantial and recent" criterion is intended to assure that in assessing compliance history (9 CFR 303.2(b)(1)(i) and 381.3(d)(1)(i)), both the nature and frequency of noncompliance with process, environment, and/or product requirements are taken into account for an appropriate length of time. Thus, noncompliance is regarded as substantial when, for example, it involves the preparation of adulterated product that could pose a serious public health threat if distributed to consumers or recurring failures that could be considered indicative of a lack of regard for the public health or welfare; and, within the 10-year time limit on record documentation, the more substantial the violation, the longer it is to be regarded as sufficiently recent for consideration. The second performance evaluation criterion reflects the assessment of both management's knowledge of appropriate manufacturing practices and applicable regulatory requirements, demonstrated ability to apply that knowledge in a timely and consistent manner, and commitment to correcting deficiencies noted by inspection program employees and otherwise assuring compliance with applicable regulatory requirements (9 CFR 303.2(b)(1)(ii) and 381.3(d)(1)(ii)) and the procedures used to control the production process, environment, and resulting product in order to assure and monitor compliance with requirements of the FMIA or PPIA and rules and regulations promulgated thereunder (9 CFR 303.2(b)(1)(iii) and 381.3(d)(1)(iii)). The objective is to include an establishment in pilot testing only if there are adequate indications that the probability of future noncompliance at such establishment is low.

In any establishment included in such a pilot test, during experimentation the conditions and methods of inspection coverage of operations other than the slaughter of livestock or the slaughter and evisceration of poultry, including the frequency of government inspection, are being determined by the inspection program based on (1) an evaluation of the characteristics of the particular establishment, (2) the significance of potential health consequences of noncompliance, and (3) the availability of meat and poultry inspection program employees (referred to as "Program" and "Inspection Service" employees in the Federal meat inspection and the poultry products inspection regulations, respectively) (9 CFR 303.2(c)(2)(i) and 381.3(e)(2)(i)). Drawing upon its experience in regulating a broad range of establishments with differing characteristics and allocating inspection program resources, FSIS developed tentative guidelines for use in making these determinations during pilot testing. Thus, for example, in assessing processing operation complexity (9 CFR 303.2(b)(2)(i) and 381.3(d)(2)(i)), FSIS is categorizing operations as involving product preparation or processing that is "simple", "medium", or "complex" by applying Directive 1030.2 (Documentation of Processing and Combination Assignments, 4/22/85, which is available for public inspection and copying in the Policy Office). FSIS also is utilizing a three category approach in assessing certain other establishment characteristics (9 CFR 303.2(b)(2) (iii), (iv), and (vi) and 381.3(d)(2) (iii), (iv), and (vi)): production volume (highest total product volume during any quarter within the preceding year as less than 60,000; 60,000 to 1,000,000; or more than 1,000,000 pounds), establishment size (less than 12,000; 12,000 to 80,000; or more than 80,000 square feet), and the scope of any livestock slaughter or poultry slaughter and evisceration operations (none, part time, or full time) also being conducted (but to which the DI system will not apply) at an establishment which makes meat food products and/or makes poultry products that are processed further (i.e., a "combination" establishment).

The Federal meat inspection regulations (9 CFR Chapter III, Subchapter A) and the poultry products inspection regulations (9 CFR Part 381) will continue to apply to establishments in which FSIS is pilot testing except to the extent that the frequency of Federal inspection or other conditions and methods of inspection coverage determined to be appropriate for the period of experimentation are identified as conflicting with provisions of the regulations (9 CFR 303.2(c)(2)(ii) and 381.3(e)(2)(ii)). To that extent, the Administrator will waive such provisions for the period of experimentation, in accordance with §§ 303.1(g) and 381.3(b) of the regulations (9 CFR 303.1(g) and 381.3(b)), which set forth Agency policy as to when the temporary suspension of provisions of the regulations comports with its responsibilities in administering the FMIA and the PPIA. Consistent with that policy, any such waivers permit the testing of new procedures that are expected to facilitate definite improvements and do not conflict with statutory purposes or provisions.

Finally, FSIS is repeating the words "frequency of" before the second reference to "Federal inspection" in §§ 303.2(c)(2)(i) and 381.3(e)(2)(i) of the regulations (9 CFR 303.2(c)(2)(i) and 381.3(e)(2)(i)), consistent with the opening phrase of these provisions. FSIS has concluded that this minor clarification should be made to avoid an inadvertent and potentially confusing shorthand.

As already discussed, this final rule has been in effect for several months on an interim basis. The Agency has determined that it should continue in effect, with the minor change in wording now included for clarification. Therefore, the action taken today is effective upon publication.

List of Subjects

9 CFR Part 303

Meat inspection.

9 CFR Part 381

Poultry products inspection.

On the basis of the foregoing, the Federal meat inspection regulations (Part 303) and the poultry products inspection regulations (Part 381) are amended as follows:

PART 303—[AMENDED]

1. The authority citation for Part 303 is added to read as follows and the authority citation following § 303.1 is removed:

Authority: 34 Stat. 1260, 79 Stat. 903, as amended, 81 Stat. 584, 84 Stat. 91, 438 (21 U.S.C. 71 *et seq.*, 601 *et seq.*, Pub. L. 99–641, Title IV, 100 Stat. 3556, 3567–72, 33 U.S.C. 466–466k); Pub. L. 96–511; 94 Stat. 2812 (44 U.S.C. 3501 *et seq.*).

2. Section 303.1(g) is revised to read as follows:

§ 303.1 Exemptions.

* * * * *

(g) The Administrator may in specific classes of cases waive for limited periods any provisions of the regulations in this subchapter in order to permit appropriate and necessary action in the event of a public health emergency or to permit experimentation so that new procedures, equipment, and/or processing techniques may be tested to facilitate definite improvements: *Provided*, That such waivers of the provisions of such regulations are not in conflict with the purposes or provisions of the Act.

3. Part 303 is further amended by adding a new § 303.2 to read as follows:

§ 303.2 Experimentation: Intensity of inspection coverage.

(a) Pursuant to the Processed Products Inspection Improvement Act of 1986, Title IV of the Futures Trading Act of 1986 (Pub. L. 99–641), in establishments preparing products at which inspection under the Act and regulations is required, the frequency with which and the manner in which meat food products made from livestock previously slaughtered in official establishments are examined and inspected by Program employees is to be based on considerations relevant to effective regulation of meat food products and protection of the health and welfare of consumers. In order to test procedures for use in making such determinations and, in particular, for determining whether and, is so, to what extent the intensity of inspection coverage exceeds that which should be considered necessary pursuant to section 6 of the Act, as amended by section 403(a) of the Futures Trading Act of 1986, the Administrator is initiating experimentation of a new system of inspection for reviewing the performance of establishments and for designing the supervision and other conditions and methods of inspection coverage. For the period of such experimentation, the Administrator shall identify establishments for review, and the frequency and the manner of inspection by Program employees shall be determined on the basis of the results of those reviews and be otherwise in accordance with this section.

(b) The determinations referred to in paragraph (a) of this section shall be made by the program and shall reflect evaluations of the performance and the characteristics and such establishments.

(1) In assessing the performance of an establishment, the following factors are appropriate for consideration:

(i) The history of compliance with applicable regulatory requirements by the person conducting operations at such establishment or by anyone responsibly connected with the business conducting operations at such establishment, as "responsibly connected" is defined in section 401(g) of the Act,

(ii) the competence of the person conducting operations at such establishment, as indicated by:

(A) Knowledge of appropriate manufacturing practices and applicable regulatory requirements,

(B) Demonstrated ability to apply such knowlege in a timely and consistent manner, and

(C) Commitment to correcting deficiencies noted by Program employees and otherwise assuring compliance with applicable regulatory requirements, and

(iii) The procedures used in such establishment to control the production process, environment, and resulting product in order to assure and monitor compliance with the requirements of the Act and the rules and regulations promulgated thereunder.

(2) In assessing the characteristics of an establishment, the following factors are appropriate for consideration:

(i) The complexity of the processing operation(s) conducted at such establishment,

(ii) The frequency with which each such operation is conducted at such establishment,

(iii) The volume of product resulting from each such operation at such establishment,

(iv) Whether and to what extent slaughter operations also are conducted at such establishment,

(v) What, if any, food products not regulated under this Act or the Poultry Products Inspection Act also are prepared at such establishment, and

(vi) The size of such establishment.

(c)(1) For the period of experimentation described in paragraph (a) of this section, the frequency of inspection by Program employees of operations other than slaughter may be reduced in an establishment in which the procedures referred to therein are being tested if and only if the evaluation of the performance of such establishment described in paragraph (b)(1) indicates that there are:

(i) No instances, documented in records compiled no earlier than 10 years before, of substantial and recent noncompliance with applicable regulatory requirements (taking into account both the nature and frequency of any such noncompliance), and

(ii) The competence and control procedures needed to assure and monitor compliance with applicable regulatory requirements.

(2) (i) The frequency of Federal inspection and other conditions and methods of inspection coverage in any establishment in which the frequency of Federal inspection is reduced shall be based on:

(A) The evaluation of the characteristics of such establishment described in paragraph (b)(2) of this section,[1]

(B) The significance of potential public health consequences of noncompliance, and

(C) The availability of Program employees.

(ii) To the extent that such frequency of inspection or other conditions and methods of inspection coverage are identified as conflicting with provisions of the regulations in this subchapter, the Administrator will waive such provisions for the period of experimentation, in accordance with § 303.1(g) of this subchapter.

PART 381—[AMENDED]

4. The authority citation for Part 381 continues to read as follows:

Authority: 71 Stat. 441, 82 Stat. 791, as amended, 21 U.S.C. 451 *et seq.*; 76 Stat. 663 (7 U.S.C. 450 *et seq.*), unless otherwise noted.

5. Section 381.3(b) is amended by removing the word "national" and inserting, in its place, the words "public health".

6. Section 381.3 is further amended by adding new paragraphs (c) through (e) to read as follows:

[1] These evaluations will be based upon guidelines developed by FSIS and the complexity categorization in FSIS Directive 1030.2 (Documentation of Processing and Combination Assignments, 4/22/85). The guidelines and Directive will be available for public inspection and copying in the Policy Office, Room 3168, South Agriculture Building, 14th Street and Independence Avenue, SW., Washington, DC.

VOL 52 ISS 243 DEC 18 1987 UMI

§ 381.3 Administration.

* * * * *

(c) Pursuant to section 6 of the Act, the Administrator believes that, in establishments processing poultry products at which inspection under the Act and regulations is required, the frequency with which and the manner in which poultry products made from poultry previously slaughtered and eviscerated in official establishments are reinspected by Inspection Service employees should be based on considerations relevant to effective regulation of poultry products and protection of the health and welfare of consumers. In order to test procedures for use in making such determinations and, in particular, for determining whether and, if so, to what extent the intensity of inspection coverage exceeds that which should be deemed necessary pursuant to section 6 of the Act, the Administrator is initiating experimentation of a new system of inspection for reviewing the performance of establishments and for designing the supervision and other conditions and methods of inspection coverage. For the period of such experimentation, the Administrator shall identify establishments for review, and the frequency and the manner of inspection by Inspection Service employees shall be determined on the basis of the results of those reviews and be otherwise in accordance with this section.

(d) The determinations referred to in paragraph (c) of this section shall be made by the Inspection Service and shall reflect evaluations of the performance and the characteristics of such establishments.

(1) In assessing the performance of an establishment, the following factors are appropriate for consideration:

(i) The history of compliance with applicable regulatory requirements by the person operating such establishment or by anyone responsibly connected with the business operating such establishment, as "responsibly connected" is defined in section 18(a) of the Act,

(ii) The competence of the person operating such establishment, as indicated by:

(A) Knowledge of appropriate manufacturing practices and applicable regulatory requirements,

(B) Demonstrated ability to apply such knowledge in a timely and consistent manner, and

(C) Commitment to correcting deficiencies noted by Inspection Service employees and otherwise assuring compliance with applicable regulatory requirements, and

(iii) The procedures used in such establishment to control the production process, environment, and resulting product in order to assure and monitor compliance with the requirements of the Act and the rules and regulations promulgated thereunder.

(2) In assessing the characteristics of an establishment, the following factors are appropriate for consideration:

(i) The complexity of the processing operation(s) conducted at such establishment,

(ii) The frequency with which each such operation is conducted at such establishment,

(iii) The volume of product resulting from each such operation at such establishment,

(iv) Whether and to what extent slaughter and evisceration operations also are conducted at such establishment,

(v) What, if any, food products not regulated under this Act or the Federal Meat Inspection Act also are processed at such establishment, and

(vi) The size of such establishment.

(e)(1) For the period of experimentation described in paragraph (c) of this section, the frequency of inspection by Inspection Service employees of operations other than slaughter and evisceration may be reduced in an establishment in which the procedures referred to therein are being tested if and only if the evaluation of the performance of such establishment described in paragraph (d)(1) indicates that there are:

(i) No instances, documented in records compiled no earlier than 10 years before, of substantial and recent noncompliance with applicable regulatory requirements (taking into account both the nature and frequency of any such noncompliance), and

(ii) The competence and control procedures needed to assure and monitor compliance with applicable regulatory requirements.

(2)(i) The frequency of Federal inspection and other conditions and methods of inspection coverage in any establishment in which the frequency of Federal inspection is reduced shall be based on:

(A) The evaluation of the characteristics of such establishment described in paragraph (d)(2) of this section,[1]

(B) The significance of potential public health consequences of noncompliance, and

(C) The availability of Inspection Service employees.

(ii) To the extent that frequency of inspection or other conditions and methods of inspection coverage are identified as conflicting with provisions of the regulations in this part, the Administrator will waive such provisions for the period of experimentation, in accordance with paragraph (b) of this section.

Done at Washington, DC, on December 14, 1987.

Lester M. Crawford,

Administrator, Food Safety and Inspection Service.

[1] These evaluations will be based upon guidelines developed by FSIS and the complexity categorization in FSIS Directive 1030.2 (Documentation of Processing and Combination Assignments, 4/22/85). The guidelines and Directive will be available for public inspection and copying in the Policy Office, Room 3168, South Agriculture Building, 14th Street and Independence Avenue, SW., Washington, DC.

NUCLEAR REGULATORY COMMISSION

10 CFR Parts 30, 40 and 70

Domestic Licensing of Byproduct, Source, and Special Nuclear Material; Revision of List of Non-Agreement States in Region III

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Nuclear Regulatory Commission (NRC) is amending its regulations pertaining to non-Agreement States in Region III to reflect the removal of Illinois and Iowa from its list of non-Agreement States because they have become Agreement States. The amendments are being made to inform affected licensees and members of the public of the change in status of these two States.

EFFECTIVE DATE: December 18, 1987.

FOR FURTHER INFORMATION CONTACT: Donnie H. Grimsley, Director, Division of Rules and Records, Office of Administration and Resources Management, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone: 301-492-7211.

SUPPLEMENTARY INFORMATION: In January 1986, Iowa became an Agreement State and in July 1987, Illinois became the NRC's most recent Agreement State. Inadvertently overlooked when the two States became Agreement States were several places in the NRC's regulations that continued to refer to Illinois and Iowa as non-Agreement States in NRC's Region III. These amendments correct this oversight.

Because these amendments deal solely with the status of Agreement and non-Agreement States, the notice and comment provisions of the Administrative Procedure Act do not apply under 5 U.S.C. 553(b)(A). These amendments are effective upon publication in the **Federal Register**. Good cause exists to dispense with the usual 30-day delay in the effective date, because the amendments are of a minor and administrative nature, dealing with the change in the status of these two States.

Environmental Impact: Categorical Exclusion

The NRC has determined that this final rule is the type of action described in categorical exclusion 10 CFR 51.22(c)(2). Therefore, neither an environmental impact statement nor an environmental assessment has been prepared for this final rule.

Paperwork Reduction Act Statement

This final rule contains no information collection requirements and therefore is not subject to the requirements of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 et seq.).

List of Subjects

10 CFR Part 30

Byproduct material, Governmental contracts, Intergovernmental relations, Isotopes, Nuclear materials, Penalty, Radiation protection, Reporting and recordkeeping requirements.

10 CFR Part 40

Government contracts, Hazardous materials—transportation, Nuclear materials, Penalty, Reporting and recordkeeping requirements, Source material, Uranium.

10 CFR Part 70

Hazardous materials—transportation, Material control and accounting, Nuclear materials, Packaging and containers, Penalty, Radiation protection, Reporting and recordkeeping requirements, Scientific equipment, Security measures, Special nuclear materials.

For the reasons set out in the preamble and under the authority of the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and 5 U.S.C. 553, the NRC is adopting the following amendments to 10 CFR Parts 30, 40, and 70.

PART 30—RULES OF GENERAL APPLICABILITY TO DOMESTIC LICENSING OF BYPRODUCT MATERIAL

1. The authority citation for Part 30 continues to read as follows:

Authority: Sec. 161, 68 Stat. 948, as amended (42 U.S.C. 2201); sec. 201, 88 Stat. 1242, as amended (42 U.S.C. 5841).

2. In § 30.6, paragraph (b)(2)(iii) is revised to read as follows:

§ 30.6 Communications.

* * * * *

(b) * * *

(2) * * *

(iii) *Region III.* The regional licensing program involves all Federal facilities in the region and non-Federal licensees in the following Region III non-Agreement States: Indiana, Michigan, Minnesota, Missouri, Ohio, and Wisconsin. All inquiries, communications, and applications for a new license or an amendment or renewal of an existing license specified in paragraph (b)(1) of this section must be sent to: U.S. Nuclear Regulatory Commission, Region III, Material Licensing Section, 799 Roosevelt Road, Glen Ellyn, Illinois 60137.

* * * * *

PART 40—DOMESTIC LICENSING OF SOURCE MATERIAL

3. The authority citation for Part 40 continues to read as follows:

Authority: Sec. 161, 68 Stat. 948, as amended (42 U.S.C. 2201); sec. 201, 88 Stat. 1242, as amended (42 U.S.C. 5841).

4. In § 40.5, paragraph (b)(2)(iii) is revised to read as follows:

§ 40.5 Communications.

* * * * *

(b) * * *

(2) * * *

(iii) *Region III.* The regional licensing program involves all Federal facilities in the region and non-Federal licensees in the following Region III non-Agreement States: Indiana, Michigan, Minnesota, Missouri, Ohio, and Wisconsin. All inquiries, communications, and applications for a new license or an amendment or renewal of an existing license specified in paragraph (b)(1) of this section must be sent to: U.S. Nuclear Regulatory Commission, Region III, Material Licensing Section, 799 Roosevelt Road, Glen Ellyn, Illinois 60137.

* * * * *

PART 70—DOMESTIC LICENSING OF SPECIAL NUCLEAR MATERIAL

5. The authority citation for Part 70 continues to read as follows:

Authority: Sec. 161, 68 Stat. 948, as amended (42 U.S.C. 2201); sec. 201, 88 Stat. 1242, as amended (42 U.S.C. 5841).

6. In § 70.5, paragraph (b)(2)(iii) is revised to read as follows:

§ 70.5 Communications.

* * * * *

(b) * * *

(2) * * *

(iii) *Region III.* The regional licensing program involves all Federal facilities in the region and non-Federal licensees in the following Region III non-Agreement States: Indiana, Michigan, Minnesota, Missouri, Ohio, and Wisconsin. All inquiries, communications, and applications for a new license or an amendment or renewal of an existing license specified in paragraph (b)(1) of this section must be sent to: U.S. Nuclear Regulatory Commission, Region III, Material Licensing Section, 799 Roosevelt Road, Glen Ellyn, Illinois 60137.

* * * * *

Dated at Bethesda, Maryland, this 8th day of December 1987.

For the Nuclear Regulatory Commission.

James M. Taylor,

Acting Executive Director for Operations.

BILLING CODE 7590-01-M

FARM CREDIT ADMINISTRATION

12 CFR Part 611

Organization; Director Compensation; Correction

AGENCY: Farm Credit Administration.

ACTION: Final rule; correction.

SUMMARY: The Farm Credit Administration (FCA) is correcting a typographical error in the authority citation for the final rule relating to the compensation of members of Farm Credit System district boards. The final rule implements Farm Credit Administration Order No. 866 and § 5.5 of the Farm Credit Act of 1971, as amended, 12 U.S.C. 2226, as the statute authorizes the FCA to approve the compensation paid to district directors for undertaking certain functions or activities. The final rule appeared in the **Federal Register** on September 25, 1987 (52 FR 36012).

FOR FURTHER INFORMATION CONTACT: Joanne P. Ongman, Attorney, Office of

General Counsel, Farm Credit Administration, 1501 Farm Credit Drive, McLean, Virginia 22102–5090, (703) 883–4020, TDD (703) 883–4444.

PART 611—[CORRECTED]

A technical correction is made to amendatory instruction No. 1 (52 FR 36013, September 25, 1987) to reflect the correct authority citation for Part 611. The corrected amendatory instruction reads as follows:

1. The authority citation for Part 611 continues to read as follows:

Authority: 12 U.S.C. 2031, 2091, 2182, 2183, 2216–2216k, 2243, 2244, 2250, 2252.

Dated: December 15, 1987.

BILLING CODE 6705–01–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 520

Animal Drugs, Feeds, and Related Products; Oxytetracycline Hydrochloride Soluble Powder

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of a supplemental new animal drug application (NADA) filed by I. D. Russell Co. Laboratories. The NADA provides for the safe and effective use of oxytetracycline hydrochloride soluble powder in the drinking water of turkeys. The conditions of use are amended to reflect that they were found to be effective as a result of the National Academy of Sciences/National Research Council (NAS/NRC) evaluation of oxytetracycline.

EFFECTIVE DATE: December 18, 1987.

FOR FURTHER INFORMATION CONTACT: Charles E. Haines, Center for Veterinary Medicine (HFV–133), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–3410.

SUPPLEMENTARY INFORMATION: I. D. Russell Co. Laboratories, 2463 Harrison, Box 411268, Kansas City, MO 64141, has filed a supplement to NADA 130–435 to provide for the use of oxytetracycline hydrochloride soluble powder in the drinking water of turkeys. The drug is for the control of infectious synovitis caused by: (1) *Mycoplasma synoviae* susceptible to oxytetracycline, (2) the control of hexamitiasis caused by *Hexamita meleagridis* susceptible to oxytetracycline, and (3) in growing turkeys, the control of complicating bacterial organisms associated with bluecomb (transmissible enteritis, coronaviral enteritis) susceptible to oxytetracycline. The supplemental NADA complies with the NAS/NRC evaluation of oxytetracycline hydrochloride soluble powder, which was concurred by FDA (35 FR 7089; May 5, 1970). The suplemental NADA is approved and the regulations are amended in 21 CFR 520.1660d by revising paragraph (e) to reflect the approval and to state those conditions of use which were classified as effective by NAS/NRC.

In accordance with the freedom of information provisions of Part 20 (21 CFR Part 20) and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

The agency has carefully considered the potential environmental effects of this action and has concluded that the action will not have a significant impact on the human environment and that an environmental impact statement is not required. The agency's finding of no significant impact and the evidence supporting that finding, contained in an environmental assessment, may be seen in the Dockets Management Branch (address above) between 9 a.m. and 4 p.m., Monday through Friday. This action was considered under FDA's final rule implementing the National Environmental Policy Act (21 CFR Part 25).

List of Subjects in 21 CFR Part 520

Animal drugs.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Center for Veterinary Medicine, Part 520 is amended as follows:

PART 520—ORAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

1. The authority citation for 21 CFR Part 520 continues to read as follows:

Authority: Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360 (i)); 21 CFR 5.10 and 5.83.

2. Section 520.1660d is amended by revising paragraph (e) to read as follows:

§ 520.1660d Oxytetracycline hydrochloride soluble powder.

* * * * *

(e) *Conditions of use.* (1) It is used in drinking water as follows:

(i) *Chickens*—(A)(*1*) *Amount per gallon.* 200 to 400 milligrams.

(*2*) *Indications for use.* Control of infectious synovitis caused by *Mycoplasma synoviae* susceptible to oxytetracycline.

(*3*) *Limitations.* Prepare a fresh solution daily. Administer 7 to 14 days. Not to be used for more than 14 consecutive days. Use as sole source of drinking water. Do not use in birds producing eggs for human consumption.

(B)(*1*) *Amount per gallon.* 400 to 800 milligrams.

(*2*) *Indications for use.* Control of chronic respiratory disease (CRD) and air sac infections caused by *Mycoplasma gallisepticum* and *E. coli* susceptible to oxytetracycline; control of fowl cholera caused by *Pasteurella multocida* susceptible to oxytetracycline.

(*3*) *Limitations.* Prepare a fresh solution daily. Administer 7 to 14 days. Not to be used for more than 14 consecutive days. Use as sole source of drinking water. Do not use in birds producing eggs for human consumption.

(ii) *Turkeys*—(A)(*1*) *Amount per gallon.* 200 to 400 milligrams.

(*2*) *Indications for use.* Control of hexamitiasis caused by *Hexamita meleagridis* susceptible to oxytetracycline.

(*3*) *Limitations.* Prepare a fresh solution daily. Administer 7 to 14 days. Not to be used for more than 14 consecutive days. Use as sole source of drinking water. Do not use in birds producing eggs for human consumption. Withdraw 5 days prior to slaughter.

(B)(*1*) *Amount per gallon.* 400 milligrams.

(*2*) *Indications for use.* Control of infectious synovitis caused by *Mycoplasma synoviae* susceptible to oxytetracycline.

(*3*) *Limitations.* Prepare a fresh solution daily. Administer 7 to 14 days. Not to be used for more than 14 consecutive days. Use as sole source of drinking water. Do not use in birds producing eggs for human consumption. Withdraw 5 days prior to slaughter.

(C)(*1*) *Amount.* 25 milligrams per pound of body weight.

(*2*) *Indications for use.* Growing turkeys. Control of complicating bacterial organisms associated with bluecomb (transmissible enteritis, coronaviral enteritis) susceptible to oxytetracycline.

(*3*) *Limitations.* Prepare a fresh solution daily. Administer 7 to 14 days. Not to be used for more than 14 consecutive days. Use as sole source of drinking water. Do not use in birds producing eggs for human consumption. Withdraw 5 days prior to slaughter.

(2) [Reserved]

Dated: December 9, 1987.

Gerald B. Guest,

Director, Center for Veterinary Medicine.

[FR Doc. 87–29037 Filed 12–17–87; 8:45 am]

BILLING CODE 4160–01–M

21 CFR Part 558

New Animal Drugs for Use in Animal Feeds; Lasalocid and Oxytetracycline.

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of a new animal drug application (NADA) filed by Hoffmann-La Roche, Inc., providing for safe and effective use of a Type C cattle feed manufactured from separately approved lasalocid sodium and oxytetracycline (monoalkyl trimethyl ammonium salt) Type A articles. The feed is used for improved feed efficiency, increased rate of weight gain, and reduction of incidence and severity of liver abscesses in beef cattle fed in confinement for slaughter.

EFFECTIVE DATE: December 18, 1987.

FOR FURTHER INFORMATION CONTACT: Jack C. Taylor, Center for Veterinary Medicine (HFV–126), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–5247.

SUPPLEMENTARY INFORMATION: Hoffmann-La Roche, Inc., Nutley, NJ 07110, filed NADA 140–579 providing for use of lasalocid sodium to 10 to 30 grams per ton or 25 to 30 grams per ton in combination with oxytetracycline at 7.5 grams per ton in Type C cattle feeds. Currently approved 15, 20, 33.1, or 50 percent lasalocid Type A articles are combined with 10- or 50-gram-per-pound oxytetracycline(monoalkyl trimethyl ammonium salt) Type A articles to make a Type C cattle feed used for improved feed efficiency, increased rate of weight gain, and reduction of incidence and severity of liver abscesses in beef cattle fed in confinement for slaughter. The NADA is approved and § 558.311(e)(1) is amended to reflect the approval. The basis for approval is discussed in the freedom of information summary.

In accordance with the freedom of information provisions of Part 20 (21 CFR Part 20) and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

The agency has determined under 21 CFR 25.24(d)(1)(ii) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

List of Subjects in 21 CFR Part 558

Animal drugs, Animal feeds.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Center for Veterinary Medicine, Part 558 is amended as follows:

PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

1. The authority citation for 21 CFR Part 558 continues to read as follows:

Authority: Sec. 512, 82 Stat. 343–351 (21 U.S.C. 360b); 21 CFR 5.10 and 5.83.

2. Section 558.311 is amended by adding to paragraph (e)(1) in the table a second entry in item (vi) and a second entry in item (vii), to read as follows:

§ 558.311 Lasalocid.

* * * * *

(e) * * *

(1) * * *

Lasalocid sodium activity in grams per ton	Combination in grams per ton	Indications for use	Limitations	Sponsor
* * *	* * *	* * *	* * *	* * *
(vi)	Oxytetracycline 7.5	Cattle: for improved feed efficiency and reduction of incidence and severity of liver abscesses.	In complete feeds, for beef cattle fed in confinement for slaughter, feed continuously at 100 to 360 mg/head/day lasalocid and 75 mg/head/day oxytetracycline. As monoalkyl (C_8-C_{18}) trimethyl ammonium oxytetracycline.	000004
(vii)	Oxytetracycline 7.5	Cattle: for improved feed efficiency, increased rate of weight gain, and reduction of incidence and severity of liver abscesses.	In complete feeds, for beef cattle fed in confinement for slaughter, feed continuously at 250 to 360 mg/head/day lasalocid and 75 mg/head/day oxytetracycline As monoalkyl (C_8-C_{18}) trimethyl ammonium oxytetracycline.	000004
* * *	* * *	* * *	* * *	* * *

BILLING CODE 4160-01-M

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

27 CFR Part 47

[T.D. ATF-265]

Importation of Articles on United States Munitions Import List

AGENCY: Bureau of Alcohol, Tobacco and Firearms (ATF), Treasury.

ACTION: Final rule [Treasury decision].

SUMMARY: This final rule amends regulations in 27 CFR Part 47 to allow the importation of United States (U.S.) manufactured firearm parts into the United States without providing certification and documentation that the parts were not furnished to foreign governments under any foreign assistance or sales program of the United States.

The principal purpose of this change is to conform the definition to the U.S. Munitions Import List which covered firearms as well as all component parts for firearms.

EFFECTIVE DATE: December 18, 1987.

FOR FURTHER INFORMATION CONTACT: Carmen L. Alston, Bureau of Alcohol, Tobacco and Firearms, Telephone No. (202) 566-7151.

SUPPLEMENTARY INFORMATION:

Background

The Arms Export Control Act (22 U.S.C. 2778(b)(1)) provides that regulations shall be issued to prohibit the return of U.S. manufactured firearms furnished to foreign governments by the United States under the Act or any other foreign assistance or sales program of the United States.

On April 21, 1985, ATF published a final rule (50 FR 14380 (1985)) implementing section 233 of the Trade and Tariff Act of 1984 which amended the Gun Control Act of 1968. The Trade and Tariff Act added a new subsection (e) to 18 U.S.C. 925 allowing federally licensed importers to import certain surplus military firearms, either foreign or U.S. manufactured, classified as curios or relics. In order to implement the addition to the law, ATF required that all importers provide additional documentary evidence, under penalties of perjury, certifying that U.S. manufactured firearms classified as curios or relics had not been furnished to foreign governments under any foreign assistance or sales program of the United States.

Additionally, on October 18, 1985 (50 FR 42157 (1980)), ATF published a final rule revising the definition of the term "Firearms" in 27 CFR Part 47 which implements the importation provisions of the Arms Export Control Act. The principal purpose of this change is to conform the definition to the U.S. Munitions Import List which covered firearms as well as all component parts for firearms. However, this amendment also had the effect of precluding the importation of component parts for firearms of U.S. manufacture prohibited from importation by section 2778(b)(1).

ATF recognized that this amendment posed a needless burden on firearms importers and manufacturers by requiring the additional documentary evidence on U.S. manufactured firearm parts being returned to the United States. In addition, ATF received a petition from the Springfield Armory in Geneseo, Illinois, requesting ATF to exclude component parts of firearms from the additional documentary requirement by removing firearm parts from § 47.57.

Accordingly, this final rule defines "military firearms and ammunition" in 27 CFR 47.57 to exclude component parts for such firearms and ammunition.

Because component parts for firearms and ammunition will continue to be covered by the U.S. Munitions Import List, ATF will continue to control the importation of firearm parts by requiring the submission of an ATF Form 6 Part I (5330.3A), Application and Permit for Importation of Firearms, Ammunition and Implements of War.

Furthermore, applications by licensed importers to import frames or receivers alone of surplus military curio or relic firearms, whether of U.S. or foreign manufacture, will not be approved under 18 U.S.C. 925(e). Surplus military firearms are not classified as curios or relics unless they are assembled in their original military configuration and applications to import such firearms will continue not to be approved.

Administrative Procedure Act

Under § 47.54, the functions conferred under section 38 of the Arms Export Control Act of 1976 are excluded from the operation of Chapter 5 (Administrative Procedure) of Title 5, United States Code, with respect to Rule Making and Adjudicating. Such functions are concerned with "a military or foreign affairs function of the United States." Accordingly, this regulation may be adopted without prior publication of a notice of proposed rulemaking or opportunity for hearing.

Regulatory Flexibility Act

Because a notice of proposed rulemaking is not required for this final rule under 5 U.S.C. 553(b), the provisions of the Regulatory Flexibility Act (Pub. L. 96-354, 94 Stat. 1165, 5 U.S.C. 601 et seq.) relating to the preparation of a regulatory flexibility analysis are not applicable to this final rule.

Executive Order 12291

This document is not subject to Executive Order 12291 of February 17, 1981 (46 FR 13193 (1981)) because it concerns a military or foreign affairs function of the United States.

Paperwork Reduction Act

The information collection requirements contained in this final rule have been approved by the Office of Management and Budget pursuant to 3507 of the Paperwork Reduction Act of 1980 (OMB Control No. 1512-0017).

Drafting Information

The principal author of this final rule is Teri H. Byers, Tax Compliance Branch, Bureau of Alcohol, Tobacco and Firearms, (202) 566-7602.

List of Subjects in 27 CFR Part 47

Administrative practice and procedure, Arms control, Arms and munitions, Authority delegations, Customs duties and inspection, Imports, Penalties, Reporting and recordkeeping requirements.

Authority and Issuance

PART 47—[AMENDED]

Paragraph 1. The authority citation for Part 47 continues to read as follows:

Authority: 22 U.S.C. 2778.

§ 47.57 [Amended]

Par. 2. Section 47.57 is amended by adding a new paragraph (d) and an OMB Control number to read as follows:

§ 47.57 U.S. military firearms or ammunition.

* * * * *

(d) For the purpose of this section, the term "military firearms and ammunition" includes all firearms and ammunition furnished to foreign governments under a foreign assistance or sales program of the United States as set forth in paragraph (a) of this section. The term does not include component parts of firearms and ammunition.

(Approved by the Office of Management and Budget under OMB Control No. 1512-0017)

Signed: November 18, 1987.

W.T. Drake,

Acting Director.

Approved: December 3, 1987.

Francis A. Keating, II,

Assistant Secretary (Enforcement).

BILLING CODE 4810-31-M

OFFICE OF INDEPENDENT COUNSEL

28 CFR Ch. VII

Production or Disclosure of Material or Information of the Office of Independent Counsel

AGENCY: Office of Independent Counsel.

ACTION: Final rule.

SUMMARY: On October 29, 1987, the Office of Independent Counsel issued a proposed regulation to amend Title 28 of the Code of Federal Regulations by adding Chapter VII, consisting of Part 700, Subpart A (Protection of Privacy and Access to Individual Records Under the Privacy Act of 1974) and Subpart B (Exemption of the Office of Independent Counsel's Systems of Records Under the Privacy Act.) Subpart A relates to individual access to records pursuant to the Privacy Act and the obligations of the Office of Independent Counsel to assure the security, accuracy and completeness of the records. Subpart B exempts the Office of Independent Counsel's systems of records entitled "General Files System of the Office of Independent Counsel (OIC/001)" and "Freedom of Information Act/Privacy Act Files (OIC/002)." The records contained in these systems relate to official investigations and to internal policy decisions. The exemption is necessary to prevent delay or interference with the Office's ongoing criminal investigation and to protect that investigation. It is also necessary to protect the privacy of third parties and the identities of confidential sources involved in the investigation. The exemption will help the Office's investigation to proceed more expeditiously and effectively.

EFFECTIVE DATE: December 18, 1987.

ADDRESS: Office of Independent Counsel, Suite 701 West, 555 Thirteenth Street, NW., Washington, DC 20004.

FOR FURTHER INFORMATION CONTACT: Pamela Krems, 202-383-8989.

SUPPLEMENTARY INFORMATION: The Office of Independent Counsel operates pursuant to two distinct and separate sources of authority. On December 4, 1986, Attorney General Edwin Meese III filed and application for appointment of an Independent Counsel with the Division for the Purpose of Appointing Independent Counsels of the United States Court of Appeals for the District of Columbia Circuit. On December 19, 1986, the Special Division of the Court of of Appeals filed an order appointing Lawrence E. Walsh as Independent Counsel in the Iran/Contra matter. Order Appointing Independent Counsel, *In re Oliver L. North, et al.*, Div. No. 86-6 (Dec. 19, 1986).

On March 5, 1987, Attorney General Meese issued a regulation that created an "Office of Independent Counsel: Iran/Contra" and provided that office with the same jurisdiction and powers that it already possessed under the Ethics in Government Act, 28 U.S.C. 591-598, and the December 19, 1986 court order appointing Independent Counsel Walsh. 52 FR 7270 (Mar. 10, 1987), 9241 (Mar. 23, 1987) (to be codified at 28 CFR Parts 600 and 601. The "Office of Independent Counsel" and the "Office of Independent Counsel: Iran/Contra" are in actuality one and the same office. This proposed regulation is issued by Independent Counsel under both grants of authority.

The proposed regulation was published on November 4, 1987 (52 FR 42314) and the public was invited to comment on it. No public comments were received. The final regulation is identical to the proposed regulation.

This order relates primarily to individuals rather than to small business entities. However, as required by the Regulatory Flexibility Act, 5 U.S.C. 601-612, the Office hereby states that this regulation will not have a significant economic impact on a substantial number of small business entities.

List of Subjects in 28 CFR Part 700

Privacy.

Dated: December 14, 1987.

Lawrence E. Walsh,

Independent Counsel.

For the reasons set forth in the preamble, and pursuant to the authority vested in me by the Ethics in Government Act, 28 U.S.C. 591-598, the December 19, 1986 Court order, and the authority delegated to me by the Attorney General pursuant to the Attorney General's regulation issued on March 5, 1987, 52 FR 7270 (Mar. 10, 1987), 9241 (Mar. 23, 1987), and 5 U.S.C. 552a, Title 28 of the Code of Federal Regulations is amended by adding Chapter VII—Office of Independent Counsel, consisting of Part 700, to read as follows:

CHAPTER VII—OFFICE OF INDEPENDENT COUNSEL

PART 700—PRODUCTION OR DISCLOSURE OF MATERIAL OR INFORMATION OF THE OFFICE OF INDEPENDENT COUNSEL

Subpart A—Protection of Privacy and Access to Individual Records Under the Privacy Act of 1974

Sec.
700.10 General provisions.
700.11 Request for access to records.
700.12 Responses to requests for access to records.
700.13 Form and content of Office responses.
700.14 Classified information.
700.15 Records in exempt systems of records.
700.16 Access to records.
700.17 Fees for access to records.
700.18 Appeals from denials of access.
700.19 Preservation of records.
700.20 Requests for correction of records.
700.21 Records not subject to correction.
700.22 Request for accounting of record disclosures.
700.23 Notice of subpoenas and emergency disclosures.
700.24 Security of systems of records.
700.25 Use and collection of social security numbers.
700.26 Employee standards of conduct.
700.27 Other rights and services.

Subpart B—Exemption of the Office of Independent Counsel's Systems of Records—Limited Access

700.31 Exemption of the Office of Independent Counsel's Systems of Records—Limited Access

Authority Citation: 5 U.S.C. 552a.

Subpart A—Protection of Privacy and Access to Individual Records Under the Privacy Act of 1974

§ 700.10 General provisions.

(a) *Purpose and scope.* The subpart contains the regulations of the Office of Independent Counsel implementing the Privacy Act of 1974, 5 U.S.C. 552a. The regulations apply to all records that are contained in systems of records maintained by the Office of Independent Counsel and that are retrieved by an individual's name or personal identifier. These regulations set forth the procedures by which an individual may seek access under the Privacy Act to records pertaining to him, may request correction of such records, or may seek an accounting of disclosures of such records by the office.

(b) *Transfer of law-enforcement records.* The head of the Office, or his designee, is authorized to make written requests under 5 U.S.C. 552a(b)(7) for transfer of records maintained by other agencies that are necessary to carry out

VOL
52
ISS
243
DE
18
1987
UMI

an authorized law-enforcement activity of the Office.

(c) *Definitions.* As used in this subpart, the following terms shall have the following meanings:

(1) "Agency" has the meaning given in 5 U.S.C. 551(1) and 5 U.S.C. 552a(a)(1).

(2) "Record" has the same meaning given in 5 U.S.C. 552(a)(4).

(3) "Request for access" means a request made pursuant to 5 U.S.C. 552a(d)(1).

(4) "Request for correction" means a request made pursuant to 5 U.S.C. 552a(d)(2).

(5) "Request for an accounting" means a request made pursuant to 5 U.S.C. 552a(c)(3).

(6) "Requester" means an individual who makes either a request for access, a request for correction, or a request for an accounting.

(7) "System of records" means a group of any group of any records under the control of the Office from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to that individual.

§ 700.11 Request for access to records.

(a) *Procedure for making requests for access to records.* An individual may request access to a record about him by appearing in person or by writing the Office. A requester in need of guidance in defining his request may write to the FOIA/PA Officer, Office of Independent Counsel, Suite 701 West, 555 Thirteenth Street, NW, Washington, DC. 20004. Both the envelope and the request itself should be marked: "Privacy Act Request."

(b) *Description of records sought.* A request for access to records must describe the records sought in sufficient detail to enable Office personnel to locate the system of records containing the record with a reasonable amount of effort. Whenever possible, a request for access should describe the nature of the records sought, the date of the record or the period in which the record was compiled, and the name or identifying number of the system of records in which the requester believes the record is kept.

(c) *Agreement to pay fees.* The filing of a request for access to a record under this subpart shall be deemed to constitute an agreement to pay all applicable fees charged under § 700.17 up to $25.00. The Office shall confirm this agreement in its letter of acknowledgment to the requesters. When filing a request, a requester may specifiy a willingness to pay a greater amount, if applicable.

(d) *Verification of identity.* Any individual who submits a request for access to records must verify his identity in one of the following ways, unless the notice published in the **Federal Register** describing the relevant system of records provides otherwise.

(1) Any requester making a request in writing must state in his request his full name, current address, and date and place of birth. In addition, a requester must provide with his request an example of his signature, which shall be notarized. In order to facilitate the identification and location of the requested records, a requester may also, at his option, include in his request his Social Security number.

(2) Any requester submitting a request in person may provide to the Office a form of Official photographic identification, such as a passport or an identification badge. If a requester is unable to produce a form of photographic identification, he may provide to the Office two or more acceptable forms of identification (such as a driver's license or credit card) bearing his name and address.

(e) *Verification of guardianship.* The parent or guardian of a minor (or the guardian of a person judicially determined to be incompetent) who submits a request for access to the records of the minor or incompetent must establish:

(1) His own identity and the identity of the subject of the record, as required in paragraph (d) of this section,

(2) That he is the parent or guardian of the subject of the record, which may be proved by providing a copy of the subject's birth certificate showing parentage or by providing a court order establishing the guardianship, and

(3) That he seeks to act on behalf of the subject of the record.

§ 700.12 Responses to requests for access to records.

(a) *Authority to grant or deny requests.* The head of the Office, or his designee, is authorized to grant or deny any request for access to a record.

(b) *Initial action by the Office.* When the Office receives a request for access to a record in its possession, the Office shall promptly determine whether another Government agency is better able to determine whether the record is exempt, to any extent, from access. If the Office determines that it is the agency best able to determine whether the record is exempt, to any extent, from access, then the Office shall respond to the request. If the Office determines that it is not the agency best able to determine whether the record is exempt from access, the Office shall respond to the request, after consulting with the agency best able to determine whether the record is exempt from access. Under ordinary circumstances, the agency that generated or originated a requested record shall be presumed to be the agency best able to determine whether the record is exempt from access. However, nothing in this section shall prohibit the agency that generated or originated a requested record from consulting with the Office, if the agency that generated or originated the requested record determines that the Office has an interest in the requested record or the information contained therein.

(c) *Law-enforcement information.* Whenever a request for access is made for a record containing information that relates to an investigation of a possible violation of criminal law or to a criminal law-enforcement proceeding and that was generated or originated by another agency, the Office shall consult with that other agency, as appropriate.

(d) *Classified information.* Whenever a request for access is made for a record containing information that has been classified, or that may be eligible for classification, by another agency under the provision of Executive Order 12356 or any other Executive order concerning the classification of records, the Office shall refer the responsibilities for responding to the request to the agency that classified the information or should consider the information for classification. Whenever a record contains information that has been derivatively classified by the Office because it contains information classified by another agency, the Office shall refer the responsibility for responding to the request to the agency that classified the underlying information; however, such referral shall extend only to the information classified by the other agency.

(e) *Agreements regarding consultations.* No provision of this section shall preclude formal or informal agreements between the Office and another agency, to eliminate the need for consultations concerning requests or classes of requests.

(f) *Date for determining responsive records.* In determining records responsive to a request for access, the Office ordinarily will include only those records within the Office's possession and control as of the date of its receipt of the request.

§ 700.13 Form and content of Office responses.

(a) *Form of notice granting request for access.* After the Office has made a determination to grant a request for access in whole or in part, the Office shall so notify the requester in writing. The notice shall describe the manner in which access to the record will be granted and shall inform the requester of any fees to be charged in accordance with § 700.17.

(b) *Form of notice denying request for access.* When the Office denies a request for access in whole or in part it shall so notify the requester in writing. The notice shall be signed by the head of the Office, or his designee, and shall include:

(1) The name and title or position of the person responsible for the denial;

(2) A brief statement of the reason or reasons for the denial, including the Privacy Act exemption or exemptions that the Office has relied upon in denying the request and a brief explanation of the manner in which the exemption or exemptions apply to each record withheld; and

(3) A statement that the denial may be appealed under § 700.18(a) and a description of the requirements of that subsection.

(c) *Record cannot be located or has been destroyed.* If a requested record cannot be located from the information supplied, or is known or believed to have been destroyed or otherwise disposed of, the Office shall so notify the requester in writing.

(d) *Medical records.* When an individual requests medical records pertaining to himself that are not otherwise exempt from individual access, the Office may advise the individual that the records will be provided only to a physician, designated by the individual, who requests the records and establishes his identity in writing. The designated physician shall determine which records should be provided to the individual and which records should not be disclosed to the individual because of possible harm to the individual or another person.

§ 700.14 Classified information.

In processing a request for access to a record containing information that is classified or classifiable under Executive Order 12356 or any other Executive order concerning the classification of records, the Office shall review the information to determine whether it warrants classification. Information that does not warrant classification shall not be withheld from a requester on the basis of 5 U.S.C. 552a(k)(1). The Office shall, upon receipt of any appeal involving classified or classifiable information, take appropriate action to ensure compliance with the provisions of Executive Order 12356.

§ 700.15 Records in exempt systems of records.

(a) *Law-enforcement records exempted under subsections (j)(2) and (k)(2).* Before denying a request by an individual for access to a law-enforcement record that has been exempted from access pursuant to 5 U.S.C. 552a(k)(2), the Office must review the requested record to determine whether information in the record has been used or is being used to deny the individual any right, privilege, or benefit for which he would otherwise be eligible or to which he would otherwise be entitled under federal law. If so, the Office shall notify the requester of the existence of the record and disclose such information to the requester, except to the extent that the information would identify a confidential source. In cases when disclosure of information in a law-enforcement record could reasonably be expected to identify a confidential source, the record shall not be disclosed to the requester unless the Office is able to delete from such information all material that would identify the confidential source.

(b) *Employee background investigations.* When a requester requests access to a record pertaining to a background investigation and the record has been exempted from access pursuant to 5 U.S.C. 552a(k)(5), the record shall not be disclosed to the requester unless the Office is able to delete from such record all information that would identify a confidential source.

§ 700.16 Access to records.

(a) *Manner of access.* The Office, once it has made a determination to grant a request for access, shall grant the requester access to the requested record by—

(1) Providing the requester with a copy of the record or

(2) Making the record available for inspection by the requester at a reasonable time and place.

The Office shall in either case charge the requester applicable fees in accordance with the provisions of § 700.17. If the Office provides access to a record by making the record available for inspection by the requester, the manner of such inspection shall not unreasonably disrupt the operations of the Office.

(b) *Accompanying person.* A requester appearing in person to review his records may be accompanied by another individual of his own choosing. Both the requester and the accompanying person shall be required to sign a form stating that the Office of Independent Counsel is authorized to disclose the record in the presence of both individuals.

§ 700.17 Fees for access to records.

(a) *When charged.* The Office shall charge fees pursuant to 5 U.S.C. 552a(f)(5) for the copying of records to afford access to individuals unless the Office, in its discretion, waives or reduces the fees for good cause shown. The Office shall charge fees only at the rate of $0.10 per page. For materials other than paper copies, the Office may charge the direct costs of reproduction, but only if the requester has been notified of such costs before they are incurred. Fees shall not be charged when they would amount, in the aggregate, for one request or for a series of related requests, to less than $3.00. However, the Office may, in its discretion, increase the amount of this minimum fee.

(b) *Notice of estimated fees in excess of $25.* When the Office determines or estimates that the fees to be charged under this section may amount to more than $25, the Office shall notify the requester as soon as practicable of the actual or estimated amount of the fee, unless the requester has indicated in advance his willingness to pay a fee as high as that anticipated. (If only a portion of the fee can be estimated readily, the Office shall advise the requester that the estimated fee may be only a portion of the total fee.) When the estimated fee exceeds $25 and the Office has so notified the requester, the Office will be deemed not to have received the request for access to records until the requester has agreed to pay the anticipated fee. A notice to a requester pursuant to this paragraph shall offer him the opportunity to confer with Office personnel with the object of reformulating his request to meet his needs at a lower cost.

(c) *Form of payment.* Requesters must pay fees by check or money order made payable to the Treasury of the United States.

(d) *Advance deposits.* (1) When the estimated fee chargeable under this section exceeds $25, the Office may require a requester to make an advance deposit of 25 percent of the estimated fee or an advance payment of $25, whichever is greater.

(2) When a requester has previously failed to pay a fee charged under this part, the requester must pay the Office the full amount owed and make an advance deposit of the full amount of any estimated fee before the Office shall

VOL 52 ISS 243 DEC 18 1987 UMI

be required to process a new or pending request for access from that requester.

§ 700.18 Appeals from denials of access.

(a) *Appeals to Independent Counsel.* When the Office denies in whole or part a request for access to records, the requester may appeal the denial to Independent Counsel within 30 days of his receipt of the notice denying his request. An appeal to Independent Counsel shall be made in writing, addressed to the Office of Independent Counsel, Suite 701 West, 555 Thirteenth Street, NW., Washington, DC 20004. Both the envelope and the letter of appeal itself must be clearly marked: "Privacy Act Appeal."

(b) *Action on appeals.* Unless Independent Counsel otherwise directs, he or his designee shall act on all appeals under this section, except that: A denial of a request for access by Independent Counsel, or his designee, shall constitute the final action of the Office on that request.

(c) *Form of action on appeal.* The disposition of an appeal shall be in writing. A decision affirming in whole or in part the denial of a request for access shall include a brief statement of the reason or reasons for the affirmance, including each Privacy Act exemption relied upon and its relation to each record withheld, and a statement that judicial review of the denial is available in the United States District Court for the judicial district in which the requester resides or has his principal place of business, the judicial district in which the requested records are located, or the District of Columbia. If the denial of a request for access is reversed on appeal, the requester shall be so notified and the request shall be processed promptly in accordance with the decision on appeal.

§ 700.19 Preservation of records.

The Office shall preserve all correspondence relating to the requests it receives under this subpart, and all records processed pursuant to such requests, until such time as the destruction of such correspondence and records is authorized pursuant to Title 44 of the United States Code. Under no circumstances shall records be destroyed while they are the subject of a pending request for access, appeal, or lawsuit under the Act.

§ 700.20 Requests for correction of records.

(a) *How made.* Unless a record is exempted from correction and amendment, an individual may submit a request for correction of a record pertaining to him. A request for correction must be made in writing. The request must identify the particular record in question, state the correction sought, and set forth the justification for the correction. Both the envelope and the request for correction itself must be clearly marked: "Privacy Act Correction Request."

(b) *Initial determination.* Within 10 working days of receiving a request for correction, the Office shall notify the requester whether his request will be granted or denied, in whole or in part. If the Office grants the request for correction in whole or in part, it shall advise the requester of his right to obtain a copy of the corrected record, in releasable form, upon request. If the Office denies the request for correction in whole or in part, it shall notify the requester in writing of the denial. The notice of denial shall state the reason or reasons for the denial and advise the requester of his right to appeal.

(c) *Appeals.* When a request for correction is denied in whole or in part, the requester may appeal the denial to Independent Counsel within 30 days of his receipt of the notice denying his request. An appeal to Independent Counsel shall be made in writing, shall set forth the specific item of information sought to be corrected, and shall include any documentation said to justify the correction. An appeal shall be addressed to the Office of Independent Counsel, Suite 701 West, 555 Thirteenth Street, NW., Washington, DC 20004. Both the envelope and the letter of appeal itself must be clearly marked: "Privacy Act Correction Appeal."

(d) *Determination on appeal.* Independent Counsel, or his designee, shall decide all appeals from denials or requests to correct records. All such appeals shall be decided within 30 working days of receipt of the appeal, unless there is good cause to extend this period. If the denial of a request is affirmed on appeal, the requester shall be so notified in writing and advised of—

(1) The reason or reasons the denial has been affirmed,

(2) The requester's right to file a Statement of Disagreement, as provided in paragraph (e) of this section, and

(3) The requester's right to obtain judicial review of the denial in the United States District Court for the judicial district in which the requester resides or has his principal place of business, the judicial district in which the record is located, or the District of Columbia.

If the denial is reversed on appeal, the requester shall be so notified and the request for correction shall be remanded to the Office for processing in accordance with the decision on appeal.

(e) *Statements of disagreement.* A requester whose appeal under this section is denied shall have the right to file a Statement of Disagreement with the Office of Independent Counsel, Suite 701 West, 555 Thirteenth Street, NW., Washington, DC 20004, within 30 days of receiving notice of denial of his appeal. Statements of disagreement may not exceed one typed page per fact disputed. Statements exceeding this limit shall be returned to the requester for condensation. Upon receipt of a statement of disagreement under this section, Independent Counsel, or his designee, shall have the statement included in the system of records in which the disputed record is maintained and shall have the disputed record marked so as to indicate—

(1) That a statement of disagreement has been filed, and

(2) Where in the system of records the statement of disagreement may be found.

(f) *Notices of correction or disagreement.* Within 30 working days of the correction of a record, the Office shall advise all agencies to which it previously disclosed the record that the record has been corrected. Whenever an individual has filed a statement of disagreement, the Office shall append a copy of the statement to the disputed record whenever the record is disclosed. The Office may also append to the disputed record any written statement it has made giving the Office's reasons for denying the request to correct the record.

§ 700.21 Records not subject to correction.

The following records are not subject to correction or amendment as provided in § 700.20:

(a) Transcripts of testimony given under oath or written statements made under oath;

(b) Transcripts of grand jury proceedings, judicial proceedings, or quasi-judicial proceedings that constitute the official record of such proceedings;

(c) Presentence records that are the property of the courts, but may be maintained by the Office in a system of records; and

(d) Records duly exempted from correction pursuant to 5 U.S.C. 552a(j) or 552a(k) by notice published in the **Federal Register.**

§ 700.22 Request for accounting of record disclosures.

(a) An individual may request the Office to provide him with an accounting of those other agencies to which the Office has disclosed the record, and the date, nature, and purpose of each disclosure. A request for an accounting must be made in writing and must identify the particular record for which the accounting is requested. The request also must be addressed to the Office and both the envelope and the request itself must clearly be marked: "Privacy Act Accounting Request."

(b) The Office shall not be required to provide an accounting to an individual to the extent that the accounting relates to—

(1) Records for which no accounting must be kept pursuant to 5 U.S.C. 552a(c)(1),

(2) Disclosures of records to law-enforcement agencies for lawful law-enforcement activities, pursuant to written requests from such law-enforcement agencies specifying records sought and the law-enforcement activities for which the records are sought, under 5 U.S.C. 552a (c)(3) and (b)(7), or

(3) Records for which an accounting need not be disclosed pursuant to 5 U.S.C. 552a (j) or (k).

(c) A denial of a request for an accounting may be appealed to Independent Counsel in the same manner as a denial of a request for access, with both the envelope and the letter of appeal itself clearly marked: "Privacy Act Accounting Appeal."

§ 700.23 Notice of subpoenas and emergency disclosures.

(a) *Subpoenas.* When records pertaining to an individual are subpoenaed by a grand jury, court, or quasi-judicial authority, the official served with the subpoena shall be responsible for ensuring that written notice of its service is forwarded to the individual. Notice shall be provided within 10 working days of the service of the subpoena or, in the case of a grand jury subpoena, within 10 working days of its becoming a matter of public record. Notice shall be mailed to the last known address of the individual and shall contain the following information: The date the subpoena is returnable, the court or quasi-judicial authority to which it is returnable, the name and number of the case of proceeding, and the nature of the records sought. Notice of the service of a subpoena is not required if the system of records has been exempted from the notice requirement of 5 U.S.C. 552a(e)(8), pursuant to 5 U.S.C. 552a(j), by a Notice of Exemption published in the **Federal Register.**

(b) *Emergency disclosures.* If the record of an individual has been disclosed to any person under compelling circumstances affecting the health or safety of any person, as described in 5 U.S.C. 552a(b)(8), the individual to whom the record pertains shall be notified of the disclosure at his last known address within 10 working days. The notice of such disclosure shall be in writing and shall state the nature of the information disclosed, the person or agency to whom it was disclosed, the date of disclosure, and the compelling circumstances justifying the disclosure. The officer who made or authorized the disclosure shall be responsible for providing such notification.

§ 700.24 Security of systems of records.

(a) The Office Administrator or Security Officer shall be responsible for issuing regulations governing the security of systems of records. To the extent that such regulations govern the security of automated systems of records, the regulations shall be consistent with the guidelines developed by the National Bureau of Standards.

(b) The Office shall establish administrative and physical controls to prevent unauthorized access to its systems of records, to prevent the unauthorized disclosure of records, and to prevent the unauthorized disclosure of records, and to prevent the physical damage or destruction of records. The stringency of such controls shall reflect the sensitivity of the records the controls protect. At a minimum, however, the Office's administrative and physical controls shall ensure that—

(1) Records are protected from public view,

(2) The area in which records are kept is supervised during business hours to prevent unauthorized persons from having access to the records, and

(3) Records are inaccessible to unauthorized persons outside of business hours.

(c) The Office shall establish rules restricting access to records to only those individuals within the Office who must have access to such records in order to perform their duties. The Office also shall adopt procedures to prevent the accidental disclosure of records or the accidental granting of access to records.

§ 700.25 Use and collection of social security numbers.

(a) Each system manager of a system of records that utilizes Social Security numbers as a method of identification without statutory authorization, or authorization by regulation adopted prior to January 1, 1975, shall take steps to revise the system to avoid future collection and use of the Social Security numbers.

(b) The Office shall take such measures as are necessary to ensure that employees authorized to collect information from individuals are advised that individuals may not be required to furnish Social Security numbers without statutory or regulatory authorization and that individuals who are requested to provide Social Security numbers voluntarily must be advised that furnishing the number is not required and that no penalty or denial of benefits will flow from the refusal to provide it.

§ 700.26 Employee standards of conduct.

(a) The Office shall inform its employees of the provisions of the Privacy Act, including the Act's civil liability and criminal penalty provisions. The Office also shall notify its employees that they have a duty to—

(1) Protect the security of records,

(2) Assure the accuracy, relevance, timeliness, and completeness of records,

(3) Avoid the unauthorized disclosure, either verbal or written, of records, and

(4) Ensure that the Office maintains no system of records without public notice.

(b) Except to the extent that the Privacy Act permits such activities, an employee of the Office of Independent Counsel shall:

(1) Not collect information of a personal nature from individuals unless the employee is authorized to collect such information to perform a function or discharge a responsibility of the Office;

(2) Collect from individuals only that information that is necessary to the performance of the functions or to the discharge of the responsibilities of the Office;

(3) Collect information about an individual directly from that individual, whenever practicable;

(4) Inform each individual from whom information is collected of—

(i) The legal authority that authorizes the Office to collect such information,

(ii) The principal purposes for which the Office intends to use the information,

(iii) The routine uses the Office may make of the information, and

(iv) The effects upon the individual of not furnishing the information;

(5) Maintain all records that are used by the agency in making any determination about any individual with

VOL 52 ISS 243 DEC 18 1987 UMI

such accuracy, relevance, timeliness, and completeness as to assure fairness to the individual in the determination;

(6) Except as to disclosures to an agency or pursuant to 5 U.S.C. 552a(b)(2), make reasonable efforts, prior to disseminating any record about an individual, to assure that such records are accurate, relevant, timely, and complete;

(7) Maintain no record concerning an individual's religious or political beliefs or activities, or his membership in associations or organizations, unless—

(i) The individual has volunteered such information for his own benefit,

(ii) A statute expressly authorizes the Office to collect, maintain, use or disseminate the information, or

(iii) The individual's beliefs, activities, or membership are pertinent to and within the scope of an authorized law-enforcement or correctional activity;

(8) Notify the head of the Office of the existence or development of any system of records that has not been disclosed to the public;

(9) When required by the Act, maintain an accounting in the prescribed form of all disclosures of records by the Office to agencies or individuals whether verbally or in writing;

(10) Disclose no record to anyone, except within the Office, for any use, unless authorized by the Act;

(11) Maintain and use records with care to prevent the inadvertent disclosure of a record to anyone; and

(12) Notify the head of the Office of any record that contains information that the Act or the foregoing provisions of this paragraph do not permit the Office to maintain.

(c) Not less than once a year, the head of each Office shall review the systems of records maintained by that Office to ensure that the Office is in compliance with the provisions of the Privacy Act.

§ 700.27 Other rights and services.

Nothing in this subpart shall be construed to entitle any person, as of right, to any service or to the disclosure of any record to which such person is not entitled under 5 U.S.C. 552a.

Subpart B—Exemption of the Office of Independent Counsel's Systems of Records Under the Privacy Act

§ 700.31 Exemption of the Office of Independent Counsel's Systems of Records—Limited Access.

(a) The following system of records is exempt from 5 U.S.C. 552a(c) (3) and (4); (d); (e)(1), (2) and (3); (e)(4) (G), (H) and (I); (e) (5) and (8); (f); and (g):

(1) General Files System of the Office of Independent Counsel (OIC/001). These exemptions apply only to the extent that information in the system is subject to exemption pursuant to 5 U.S.C. 552a (j)(2), (k)(1), (k)(2), and (k)(5).

(b) Exemptions from the particular subsections are justified for the following reasons:

(1) From subsection (c)(3) because making available to a record subject the accounting of disclosures from records concerning him/her would reveal investigative interest on the part of the Office of Independent Counsel as well as the recipient agency. This would permit record subjects to impede the investigation, e.g., destroy evidence, intimidate potential witnesses, or flee the area to avoid inquiries or apprehension by law-enforcement personnel. Moreover, the release of the accounting of disclosures made under subsection (b) of the Act, including those disclosures permitted under the routine uses published for these systems would permit the subject of an investigation of an actual or potential criminal, civil or regulatory violation to determine whether he is the subject of an investigation or to obtain valuable information concerning the nature of the investigation, material compiled during the investigation, and the identity of witnesses and informants. Disclosure of the accounting would, therefore, present a serious impediment to law enforcement. In addition, disclosure of the accounting would amount to notice to the individual of the existence of a record; such notice requirement under subsection (f)(1) of the Act is specifically exempted for this system of records.

(2) From subsection (c)(4) because an exemption is being claimed under subsection (d) of the Act. This system is exempt from the access provisions of subsection (d) pursuant to subsections (j) and (k) of the Privacy Act. Subsection (c)(4), therefore, is inapplicable to this system of records.

(3) From subsection (d) because the records contained in this system relate to official federal investigations. Individual access to these records contained in this system would inform the subject of an investigation of an actual or potential criminal, civil, or regulatory violation, of the existence of that investigation, of the nature and scope of the information and evidence obtained as to his activities, of the identities of witnesses and informants, or would provide information that could enable the subject to avoid detection or apprehension. These factors would present a serious impediment to effective law enforcement because they could prevent the successful completion of the investigation, reveal confidential informants, endanger the physical safety of witnesses or informants, and lead to the improper influencing of witnesses, the destruction of evidence, or the fabrication of testimony. Individual access also could constitute an unwarranted invasion of the personal privacy of third parties who are involved in an investigation. Amendment of the records would interfere with ongoing criminal-law enforcement proceedings and impose an impossible administrative burden.

(4) From subsections (e) (1) and (5) because, in the course of criminal or other law-enforcement investigation, cases and matters, the Office of Independent Counsel may occasionally obtain information concerning actual or potential violations of law that are not strictly within its authority or jurisdiction, or may compile information, the accuracy of which is unclear or which is not strictly relevant or necessary to a specific investigation. In the interests of effective law enforcement, it is appropriate and necessary to retain all information that may aid in establishing patterns of criminal activity. Moreover, it would impede the specific investigative process if it were necessary to ensure the relevance, accuracy, timeliness and completeness of all information obtained. In particular, this would restrict the ability of trained investigators, intelligence analysts, and government attorneys to exercise their judgment in reporting on information and investigations.

(5) From subsection (e)(2) because, in a criminal or other law-enforcement investigation, the requirement that information be collected to the greatest extent possible from the subject individual would present a serious impediment to law enforcement. In such circumstances, the subject of the investigation or prosecution would be informed of the existence of the investigation and would therefore be able to avoid detection, apprehension, or legal obligations or duties, as well as to influence witnesses improperly, to destroy evidence, or to fabricate testimony.

(6) From subsection (e)(3) because compliance with the requirements of this subsection during the course of an investigation could impede the information-gathering process, thus hampering the investigation. Furthermore, such requirements could compromise the existence of a confidential investigation or reveal the identity of witnesses or confidential informants.

(7) From subsections (e)(4) (C) and (H) because this system is exempt from the individual-access provisions of subsection (d) pursuant to subsections (j) and (k) of the Privacy Act.

(8) From subsection (e)(4)(I) because the categories of sources of records in this system have been published in the **Federal Register** in broad generic terms in the belief that this is all that subsection (e)(4)(I) of the Act requires. In the event, however, that this subsection should be interpreted to require more detail as to the identity of sources of the records in these systems, exemption from this provision is necessary in order to protect the confidentiality of the sources of criminal and other law-enforcement information. Such exemption is further necessary to protect the privacy and physical safety of witnesses and informants.

(9) From subsection (e)(8) because the individual-notice requirements of subsection (e)(8) could present a serious impediment to law enforcement through interference with the Office of Independent Counsel's ability to issue subpoenas and the disclosure of its investigative techniques and procedures.

(10) From subsection (f) because this system is exempt from the individual-access provisions of subsection (d) pursuant to subsections (j) and (k) of the Privacy Act. Furthermore, such notice to an individual would be detrimental to the successful conduct and/or completion of an investigation or prosecution pending or future.

(11) From subsection (g) because this system is exempt from the individual-access and amendment provisions of subsection (d) and the provisions of subsection (f) pursuant to subsections (j) and (k) of the Privacy Act.

(c) The following system of records is exempt from 5 U.S.C. 552a(c) (3) and (4), (d), (e) (1), (2) and (3), (e)(4), (G), (H) and (I); (e) (5) and (8); (f) and (g):

(1) Freedom of Information Act/ Privacy Act Files (OIC/002). These exemptions apply to the extent that information in this system is subject to exemption pursuant ot 5 U.S.C. 552a(j)(2), (k)(1), (k)(2,) and (k)(5).

(d) Because this system contains Office of Independent Counsel criminal law-enforcement investigatory records, exemptions from the particular subsections are justified for the following reasons:

(1) From subsection (c)(3) because the release of the disclosure accounting would permit the subject(s) of criminal investigations under investigation or in litigation to obtain valuable information concerning the nature of that investigation, matter or case and present a serious impediment to law-enforcement activities.

(2) From subsection (c)(4) because an exemption is being claimed for subsection (d) of the Act, rendering this subsection inapplicable to the extent that this system of records is exempted from subsection (d).

(3) From subsection (d) because access to the records contained in this system would inform the subject of criminal investigation or case of the existence of such, and provide the subject with information that might enable him to avoid detection, apprehension or legal obligations, and present a serious impediment to law enforcement and other civil remedies. Amendment of the records would interfere with ongoing criminal law-enforement proceedings and impose an impossible administrative burden.

(4) From subsection (e)(1) because in the courses of criminal investigations, matters or cases, the Office of Independent Counsel often obtains information concerning the violation of laws other than those relating to an active case, matter, or investigation. In the interests of effective law enforcement and criminal litigation, it is necessary that the Office of Independent Counsel retain this information since it can aid in establishing patterns of activity and provide valuable leads for future cases that may be brought within the Office of Independent Counsel.

(5) From subsection (e)(2) because collecting information to the greatest extent possible from the subject individual of a criminal investigation or prosecution would present a serious impediment to law enforcement. In such circumstances, the subject of the investigation would be placed on notice of the existence of the investigation and would therefore be able to avoid detection, apprehension, or legal obligations and duties.

(6) From subsection (e)(3) because providing individuals supplying information with a form stating the requirements of subsection (e)(3) would constitute a serious impediment to law enforcement. In those circumstances, it could compromise the existence of a confidential investigation, reveal the identity of confidential sources of information, and endanger the life and physical safety of confidential informants.

(7) From subsection (e)(4) (G), (H) and (I) because this system of records is exempt from the individual-access and amendment provisions of subsection (d) and the rules provisions of subsection (f).

(8) From subsection (e)(5) because, in the collection of information for law-enforcement purposes, it is impossible to determine in advance what information is accurate, relevant, timely, and complete. With the passage of time, seemingly irrelevant or untimely information may acquire new significance as further investigation brings new details to light and the accuracy of such information can only be determined in a court of law. The restrictions of subsection (e)(5) would inhibit the ability of trained investigators and intelligence analysts to exercise their judgment in reporting on investigations and impede the development of intelligence necessary for effective law enforcement.

(9) From subsection (e)(8) because the individual-notice requirements of subsection (e)(8) could present a serious impediment to law enforcement, i.e., this could interfere with the Office of Independent Counsel's ability to issue subpoenas and could reveal investigative techniques and procedures.

(10) From subsection (f) because this system has been exempted from the individual-access and amendment provisions of subsection (d).

(11) From subsection (g) because the records in this system are generally compiled for law-enforcement purposes and are exempt from the individual-access and amendment provisions of subsections (d) and (f), this rendering subsection (g) inapplicable.

BILLING CODE 2210-01-M

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

29 CFR Part 1952

[Docket No. T-022]

South Carolina State Plan; Final Approval Determination

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Final State Plan Approval.

SUMMARY: This document amends Subpart C of 29 CFR Part 1952 to reflect the Assistant Secretary's decision granting final approval to the South Carolina State plan. As a result of this affirmative determination under section 18(e) of the Occupational Safety and Health Act of 1970, Federal OSHA standards and enforcement authority no longer apply to occupational safety and health issues covered by the South Carolina plan, and authority for Federal concurrent jurisdiction is relinquished.

Federal enforcement jurisdiction is retained over private sector maritime and employment on military bases. Federal jurisdiction remains in effect with respect to Federal Government employers and employees.

EFFECTIVE DATE: December 15, 1987.

FOR FURTHER INFORMATION CONTACT: James Foster, Director, Office of Information and Consumer Affairs, Occupational Safety and Health Administration, U.S. Department of Labor, Room N-3637, 200 Constitution Avenue, NW., Washington, DC 20210. Telephone (202) 523-8148.

SUPPLEMENTARY INFORMATION:

Introduction

Section 18 of the Occupational Safety and Health Act of 1970 (the "Act") provides that States which desire to assume responsibility for the development and enforcement of occupational safety and health standards may do so by submitting, and obtaining Federal approval of, a State plan. Procedures for State plan submission and approval are set forth in regulations at 29 CFR Part 1902. If the Assistant Secretary, applying the criteria set forth in section 18(c) of the Act and 29 CFR Parts 1902.3 and 1902.4, finds that the plan provides or will provide for State standards and enforcement which are "at least as effective" as Federal standards and enforcement, initial approval is granted.

A State may commence operations under its plan after this determination is made, but the Assistant Secretary retains discretionary Federal enforcement authority during the initial approval period as provided by section 18(e) of the Act. A State plan may receive initial approval even though, upon submission, it does not fully meet the criteria set forth in 29 CFR 1902.3 and 1902.4 if it includes satisfactory assurances by the State that it will take the necessary "developmental steps" to meet the criteria within a 3-year period. 29 CFR 1902.2(b). The Assistant Secretary publishes a notice of "certification of completion of developmental steps" when all of a State's developmental commitments have been satisfactorily met. 29 CFR 1902.34.

When a State plan that has been granted initial approval is developed sufficiently to warrant a suspension of concurrent Federal enforcement activity, it becomes eligible to enter into an "operational status agreement" with OSHA. 29 CFR 1954.3(f). A State must have enacted its enabling legislation, promulgated State standards, achieved an adequate level of qualified personnel, and established a system for review of contested enforcement actions. Under these voluntary agreements, concurrent Federal enforcement will not be initiated with regard to Federal occupational safety and health standards in those issues covered by the State plan, where the State program is providing an acceptable level of protection.

Following the initial approval of a complete plan, or the certification of a developmental plan, the Assistant Secretary must monitor and evaluate actual operations under the plan for a period of at least one year to determine, on the basis of actual operations under the plan, whether the criteria set forth in section 18(c) of the Act and 29 CFR 1902.3, 1902.4 and 1902.37 are being applied. An affirmative determination under section 18(e) of the Act (usually referred to as "final approval" of the State plan) results in the relinquishment of authority for Federal concurrent jurisdiction in the State with respect to occupational safety and health issues covered by the plan. 29 U.S.C. 667(e). To enable OSHA to evaluate State performance in relation to the foregoing criteria, State participation in OSHA's computerized Integrated Management Information System is required.

An additional requirement for final approval consideration is that a State must meet the compliance staffing levels, or benchmarks, for safety and health compliance officers established by OSHA for that State. This requirement stems from a 1978 Court Order by the U.S. District Court for the District of Columbia (*AFL-CIO* v. *Marshall*, C.A. No. 74-406), pursuant to a U.S. Court of Appeals decision, that directed the Assistant Secretary to calculate for each State plan state the number of enforcement personnel needed to assure a "fully effective" enforcement program.

History of the South Carolina Plan and Its Compliance Staffing Benchmarks

South Carolina Plan

On May 8, 1972, South Carolina submitted an occupational safety and health plan in accordance with section 18(b) of the Act and 29 CFR Part 1902, Subpart C. On May 24, 1972, a notice was published in the **Federal Register** (37 FR 10535) concerning submission of the plan, announcing that initial Federal approval was at issue and offering interested persons an opportunity to submit data, views and arguments concerning the plan. Because of the wide interest anticipated in the first State plan proposals, notice was also given that an informal public hearing on the plan would be held on July 10, 1972, in Columbia, South Carolina.

In response to comments on South Carolina's initial submission notice and testimony received at the informal hearing, the State submitted modifications to the plan on September 13, 1972. Notice of receipt of the modifications and an invitation for public comments on the plan as modified, as well as an opportunity to request an informal hearing, was published in the **Federal Register** on September 28, 1972 (37 FR 20289). Comments on the amended plan were received from the American Federation of Labor-Congress of Industrial Organizations (AFL-CIO). In response to these comments as well as OSHA's review of the plan modifications, South Carolina made additional changes in its plan. Since there were no objections which were outstanding on the plan, as amended, no further public hearing was held.

On December 6, 1972, the Assistant Secretary published a notice granting initial approval of the South Carolina plan as a developmental plan under section 18(b) of the Act (37 FR 25932). The plan provides for a program patterned in most respects after that of the Federal Occupational Safety and Health Administration.

The South Carolina State plan covers all occupational safety and health issues except private sector maritime employment, and employment on military bases. The South Carolina Department of Labor is designated as having responsibility for administering the plan throughout the State. The day-to-day administration of the plan is directed by the South Carolina Division of Occupational Safety and Health.

The plan provides for the initial adoption by South Carolina of all Federal occupational safety and health standards, contained in 29 CFR Parts 1910, 1926, and 1928, and for the adoption of future Federal standards after public hearings. The plan requires employers to furnish employment and a place of employment which is free from recognized hazards that are causing or are likely to cause death or serious physical harm, and to comply with all occupational safety and health standards promulgated by the agency. Employees are likewise required to comply with all standards and regulations applicable to their conduct. The plan contains provisions similar to Federal procedures governing emergency temporary standards; imminent danger proceedings; coverage under the general duty clause; variances; safeguards to protect trade secrets; protection of employees against discrimination for exercising their rights under the plan; and employer and employee rights to participate in inspection and review proceedings. Appeals of citations, penalties and abatement periods are heard by the South Carolina Occupational Health and Safety Review Board. Decisions of the Review Board may be appealed to the Court of Common Pleas.

The notice of initial approval noted a few distinctions between the Federal and South Carolina Programs. The State plan does not cover safety and health in private sector maritime employment or employment on military bases.

The Assistant Secretary's initial approval of the South Carolina developmental plan, a general description of the plan, a schedule of required developmental steps and a provision for discretionary concurrent Federal enforcement during the period of initial approval were codified in the Code of Federal Regulations (29 CFR Part 1952, Subpart C; 37 FR 25932 (December 6, 1972)).

In accordance with the State's developmental schedule, all major structural components of the plan were put in place and appropriate documentation submitted for OSHA approval during the three-year period ending December 31, 1975. These "developmental steps" included: amendments to the South Carolina Occupational Safety and Health Act; promulgation of State occupational safety and health standards and program regulations; and establishment of a public employee program. In completing these developmental steps, the State developed and submitted for Federal approval all components of its enforcement program including, among other things, legislative amendments, management information system, merit staffing system, regulations for inspections, citations and proposed penalties, recordkeeping and reporting regulations, and a safety and health poster for private and public employees.

These submissions were carefully reviewed by OSHA; after opportunity for public comment and modification of State submissions, where appropriate, the major plan elements were approved by the Assistant Secretary as meeting the criteria of section 18 of the Act and 29 CFR 1902.3 and 1902.4. The South Carolina subpart of 29 CFR Part 1952 was amended to reflect each of these approval determinations (see 29 CFR 1952.94).

On May 9, 1975, OSHA entered into an operational status agreement with the State of South Carolina. A **Federal Register** notice was published on June 26, 1975 (40 FR 27024), announcing the signing of the agreement. (The agreement was subsequently amended, 49 FR 30173, July 27, 1984.) Under the terms of that agreement, OSHA voluntarily suspended the application of concurrent Federal enforcement authority with regard to Federal occupational safety and health standards in all issues covered by the South Carolina plan.

On August 3, 1976, in accordance with procedures at 29 CFR 1902.34 and 1902.35, the Assistant Secretary certified that South Carolina had satisfactorily completed all developmental steps (41 FR 32424). In certifying the plan, the Assistant Secretary found the structural features of the program—the statue, standards, regulations, and written procedures for administering the plan—to be at least as effective as corresponding Federal provisions. Certification does not entail findings or conclusions by OSHA concerning adequacy of actual plan performance. As has already been noted, OSHA regulations provide that certification initiates a period of evaluation and monitoring of State activity to determine, in accordance with section 18(e) of the Act, whether the statutory and regulatory criteria for State plans are being applied in actual operations under the plan and whether final approval should be granted.

On January 31, 1978 OSHA published notice in the **Federal Register** (43 FR 4073) requesting public comment on a petition requesting withdrawal of OSHA approval of the South Carolina plan. The petition was submitted by the President of the Carolina Brown Lung Association. A second petition was subsequently filed by the national American Federation of Labor-Congress of Industrial Organizations (AFL-CIO). On April 21, 1978 notice was published in the **Federal Register** (43 FR 17003) requesting public comments on the AFL-CIO petition to withdraw approval of the South Carolina State Plan and providing an additional time period for public comment on the Carolina Brown Lung Association petition, which was requested by the South Carolina General Assembly's Textile Studies Subcommittee. Both petitions alleged specific performance deficiencies in enforcement of the cotton dust standard and prosecution of contested cotton dust cases and in such other areas as hazard recognition, review procedures, inspection scheduling, health referrals, and response to major Federal Program changes. In addition, the Carolina Brown Lung Association petition alleged deficiencies in employee training and education, and the AFL-CIO petition alleged legislative and regulatory deficiencies.

OSHA's investigation of all allegations contained in the petitions revealed that charges of legislative and regulatory deficiencies were unfounded. Although the South Carolina Act does not mirror the Federal Act, the South Carolina Plan, along with its implementing regulations, provide coverage and employee rights comparable to that of the Federal Act. In addition, OSHA's investigation revealed that where performance deficiencies existed, they had been corrected or considerable improvement had been demonstrated by South Carolina, especially since the filing of the petitions. Based on the findings of OSHA's investigation, a **Federal Register** notice (44 FR 13013) was published on March 9, 1979, which denied both petitions to withdraw approval of the South Carolina State Plan.

South Carolina Benchmarks

In 1978, the Assistant Secretary was directed by the U.S. District Court for the District of Columbia (*AFL-CIO* v. *Marshall*, C.A. No. 74-406), pursuant to a U.S. Court of Appeals decision, to calculate for each State plan State the number of enforcement personnel (compliance staffing benchmarks) needed to assure a "fully effective" enforcement program. In 1980, OSHA submitted a Report to the Court containing the benchmarks and requiring South Carolina to allocate 39 safety compliance officers and 60 industrial hygienists to conduct inspections under the plan.

In September 1984 the South Carolina State designee in conjunction with OSHA completed a review of the components and requirements of the 1980 compliance staffing benchmarks established for South Carolina. Pursuant to an initiative begun in August 1983 by the State plan designees as a group with OSHA, and in accord with the formulas and general principles established by that group for individual State revision of the benchmarks, South Carolina reassessed the staffing necessary for a "fully effective" occupational safety and health program in the State. This reassessment resulted in a proposal to OSHA contained in comprehensive documents of revised staffing benchmarks of 17 safety and 12 health compliance officers. After the opportunity for public comment and service on the AFL-CIO, the Assistant Secretary approved these revised staffing requirements on January 17, 1986 (51 FR 2481).

VOL 52 ISS 243 DEC 18 1987 UMI

VOL 52 ISS 243 DEC 18 1987 UMI

History of the Present Proceedings

Procedures for final approval of State plans are set forth at 29 CFR Part 1902, Subpart D. On September 25, 1987, OSHA published notice (52 FR 36048) of the eligibility of the South Carolina State plan for determination under section 18(e) of the Act as to whether final approval of the plan should be granted. The determination of eligibility was based on monitoring of State operations for at least one year following certification, State participation in the Federal-State Integrated Management Information System, and staffing which meets the revised State staffing benchmarks.

The September 25 **Federal Register** notice set forth a general description of the South Carolina plan and summarized the results of Federal OSHA monitoring of State operations during the period from December 1, 1985 through January 31, 1987. In addition to the information set forth in the notice itself, OSHA submitted, as part of the record in this rulemaking proceeding, extensive and detailed exhibits documenting the plan, including copies of the State legislation, administrative regulations and procedural manuals under which South Carolina operates its plan, and copies of all previous **Federal Register** notices regarding the plan.

A copy of the December 1985–January 1987 Evaluation Report of the South Carolina plan ("18(e) Evaluation Report"), which was extensively summarized in the September 25 proposal and which provided the principal factual basis for the proposed 18(e) determination, was included in the record. Copies of all OSHA evaluation reports on the plan since its certification as having completed all developmental steps were made part of the record.

To assist and encourage public participation in the 18(e) determination, copies of the complete record were maintained in the OSHA Docket Office in Washington, DC, in the OSHA Region IV Office in Atlanta, Georgia, and the South Carolina Department of Labor in Columbia. Summaries of the September 25 proposal, with an invitation for public comments were published in South Carolina on October 2, 1987.

The September 25 proposal invited interested persons to submit, by October 30 written comments and views regarding the South Carolina plan, and whether final approval should be granted.

An opportunity to request an informal public hearing also was provided. One hundred and twenty-seven (127) comments were received in response to this notice. No requests for an informal hearing were received.

Summary and Evaluation of Comments Received

During this proposed rulemaking OSHA has encouraged interested members of the public to provide information and views regarding operations under the South Carolina plan, to supplement the information already gathered during OSHA monitoring and evaluation of plan administration.

In response to the September 25 **Federal Register** notice, OSHA received comments from 109 private employers, 12 State and local government entities, 1 consulting firm (2 comments), 2 safety associations, 1 attorney on behalf of one of the above-referenced safety associations, and 1 university.

All of the one-hundred and twenty-seven (127) comments expressed support for final approval on the grounds of State competence, responsiveness, and specific knowledge of local conditions. Several of these comments indicated that the State has established an outstanding safety and health program without adversarial relations with local industries, and that a climate of working together has gone far to stop costly accidents and to protect workers in South Carolina. Comments further express preference for State enforcement rather than Federal, because State inspectors are better able to deal with State-specific concerns. The comments also praise the State's effectiveness in reducing workplace injuries and illnesses, and praise the competency of South Carolina officials.

One initial comment (which was later updated) received from the consulting firm found fault with the State's response to asbestos hazards. The updated letter recommended final approval of the plan and indicated that the previous comments were only constructive suggestions for improvement of the South Carolina program.

Edgar L. McGowan, Commissioner of the South Carolina Department of Labor, responded to the initial comment made by the consulting firm regarding South Carolina's performance in the area of protection of workers and the public in asbestos removal. The response indicated that during fiscal years 1985, 1986 and 1987 (ending June 30) the State inspected 68 asbestos removal sites. The response also indicated that the State cooperates closely with the Department of Health and Environmental Control (DHEC), which has the responsibility of training removers, receiving notification of contracts, and inspecting the sites to assure public protection.

Findings and Conclusions

As required by 29 CFR 1902.41, in considering the granting of final approval to a State plan, OSHA has carefully and thoroughly reviewed all information available to it on the actual operation of the South Carolina State plan. This information has included all previous evaluation findings since certification of completion of the State plan's developmental steps, especially data for the period of December 1, 1985 through January 31, 1987 and information presented in written submissions. Findings and conclusions in each of the areas of performance are as follows:

(1) *Standards.* Section 18(c)(2) of the Act requires State plans to provide for occupational safety and health standards which are at least as effective as Federal standards. Such standards where not identical to the Federal must be promulgated through a procedure allowing for consideration of all pertinent factual information and participation of all interested persons (29 CFR 1902.4(b)(2)(iii)); must, where dealing with toxic materials or harmful physical agents, assure employee protection throughout his or her working life (29 CFR 1902.4(b)(2)(i)); must provide for furnishing employees appropriate information regarding hazards in the workplace through labels, posting, medical examinations, etc. (29 CFR 1902.4(b)(2)(vi)); must require suitable protective equipment, technological control, monitoring, etc. (29 CFR 1902.4(b)(2)((vii)); and where applicable to a product must be required by compelling local conditions and not pose an undue burden on interstate commerce (29 CFR 1902.3(c)(2)).

As documented in the approved South Carolina State plan and OSHA's evaluation findings made a part of the record in this 18(e) determination proceeding, and as discussed in the September 25 notice, the South Carolina plan provides for the adoption of standards and amendments thereto which are in most cases identical to Federal standards. The State's law and regulations, previously approved by OSHA and made a part of the record in this proceeding include provisions addressing all of the structural requirements for State standards set out in 29 CFR Part 1902.

In order to qualify for final State plan approval, a State program must be found to have adhered to its approved procedures (29 CFR 1902.37(b)(2)); to have timely adopted identical or at least as effective standards, including emergency temporary standards and standards amendments (29 CFR 1902.37(b)(3)); to have interpreted its standards in a manner consistent with Federal interpretations and thus to demonstrate that in actual operation State standards are at least as effective as the Federal (29 CFR 1902.37(b)(4)); and to correct any deficiencies resulting from administrative or judicial challenge of State standards (29 CFR 1902.37(b)(5)).

As noted in the "18(e) Evaluation Report" and summarized in the September 25, 1987 **Federal Register** notice, South Carolina has generally adopted standards in a timely manner which are identical to Federal standards.

When a State adopts Federal standards, the State's interpretation and application of such standards must ensure consistency with Federal interpretation and application. South Carolina has generally adopted standards interpretations, which are at least as effective as the Federal. OSHA's monitoring has found that the State's application of its standards is comparable to Federal standards application. No challenges to standards have occurred in South Carolina.

Therefore, in accordance with section 18(c)(2) of the Act and the pertinent provisions of 29 CFR 1902.3, 1902.4 and 1902.37, OSHA finds the South Carolina program in actual operation to provide for standards adoption, correction when found deficient, interpretation and application, in a manner at least as effective as the Federal program.

(2) *Variances.* A State plan is expected to have the authority and procedures for the granting of variances comparable to those in the Federal program (29 CFR 1902.4(b)(2)(iv)). The South Carolina State plan contains such provisions in both law and regulations which have been previously approved by OSHA. In order to qualify for final State plan approval permanent variances granted must assure employment equally as safe and healthful as would be provided by compliance with the standard (29 CFR 1902.37(b)(6)); temporary variances granted must assure compliance as early as possible and provide appropriate interim employee protection (29 CFR 1902.37(b)(7)). As noted in the 18(e) Evaluation Report and the September 25 notice, four permanent variances were granted during the reporting period.

Action on these requests was in accordance with the State's procedures and the granted variances provided protection equivalent to that provided under the standard. No temporary variances were requested during the evaluation period.

Accordingly, OSHA finds that the South Carolina program effectively grants variances from its occupational safety and health standards.

(3) *Enforcement.* Section 18(c)(2) of the Act and 29 CFR 1902.3(d)(1) require a State program to provide a program for enforcement of State standards which is and will continue to be at least as effective in providing safe and healthful employment and places of employment as the Federal program. The State must require employer and employee compliance with all applicable standards, rules and orders (29 CFR 1902.3(d)(2)) and must have the legal authority for standards enforcement including compulsory process (29 CFR 1902.4(c)(2)).

The South Carolina Occupational Safety and Health Act and implementing regulations previously approved by OSHA, establish employer and employee compliance responsibility and contain legal authority for standards enforcement in terms substantially identical to those in the Federal Act. In order to be qualified for final approval, the State must have adhered to all approved procedures adopted to ensure an at least as effective compliance program (29 CFR 1902.37(b)(2)). The "18(e) Evaluation Report" data show no lack of adherence to such procedures.

(a) *Inspections.* A plan must provide for inspection of covered workplaces, including in response to complaints, where there are reasonable grounds to believe a hazard exists (29 CFR 1902.4(c)(2)(i)). As noted in the September 25, 1987 **Federal Register** notice South Carolina recently adopted a procedure similar to OSHA's for handling non-formal complaints by a letter to the employer. Data contained in the 18(e) Evaluation Report indicate the State responded to 34.8% of safety complaints and 20.2% of health complaints with an inspection. Complaints responded to by letter was comparable to OSHA. (Evaluation Report, pages 41 and 42).

In order to qualify for final approval, the State program, as implemented, must allocate sufficient resources toward high-hazard workplaces while providing adequate attention to other covered workplaces (29 CFR 1902.37(b)(8)). Data contained in the 18(e) Evaluation Report indicate that 100% of both State programmed safety and programmed health inspections were conducted in high-hazard industries. (Evaluation report, page 38).

(b) *Employee notice and participation in inspections.* In conducting inspections the State plan must provide an opportunity for employees and their representatives to point out possible violations through such means as employee accompaniment or interviews with employees (29 CFR 1902.4(c)(2)(ii)). The State's procedures require compliance officers to provide this opportunity. During the evaluation period, 95.4% of initial inspections included either employee representatives on the walkaround or interviews with employees. OSHA has concluded that employee representation is properly provided in State inspections. (Evaluation Report, pages 47 and 48).

In addition, the State plan must provide that employees be informed of their protections and obligations under the Act by such means as the posting of notices, (29 CFR 1902.4(c)(2)(iv)) and provide that employees have access to information on their exposure to regulated agents and access to records of the monitoring of their exposure to such agents (29 CFR 1902.4(c)(vi)).

To inform employees and employers of their protections and obligations, South Carolina requires that a poster, which was previously approved by OSHA (41 FR 9547) be displayed in all covered workplaces. Requirements for the posting of the poster and other notices such as citations, contests, hearings and variance applications, are set forth in the previously approved State law and regulations which are substantially identical to Federal requirements. Information on employee exposure to regulated agents and access to medical and monitoring records is provided through State standards, including the Access to Employee Exposure and Medical Records standard and the Hazard Communication standard. Both of these standards were amended to make the definition of the "Designated Representative" identical to OSHA's. Federal OSHA's evaluation concluded that the State's performance is satisfactory.

(c) *Nondiscrimination.* A State is expected to provide appropriate protection to employees against discharge or discrimination for exercising their rights under the State's program including provision for employer sanctions and employee confidentiality (29 CFR 1902.4(c)(2)(v)). The South Carolina Act and regulations provide for discrimination protection equivalent to that provided by Federal OSHA. The State investigated 21 discrimination complaints during the evaluation period. Of the investigated complaints, (5) 23.8% were found to have merit and (4) 80.0% of the meritorious cases were settled or litigated. One case

is still pending. This compared very favorably with Federal experience. (Evaluation Report pp. 64–65.)

(d) *Restraint of imminent danger; protection of trade secrets.* A State plan is required to provide for the prompt restraint of imminent danger situations, (29 CFR 1902.4(c)(2)(vii) and to provide adequate safeguards for the protection of trade secrets (29 CFR 1902.4(c)(2)(viii)). The State has provisions concerning imminent danger and protection of trade secrets in its law, regulations and field operations manual which are similar to the Federal. The 18(e) Evaluation Report indicates that there were no imminent danger situations identified. (Evaluation Report, p. 53.) There were no Complaints About State Program Administration (CASPA's) filed concerning the protection of trade secrets during the reporting period. (Evaluation Report, p. 71.)

(e) *Right of entry; advance notice.* A State program is expected to have authority for right of entry to inspect and compulsory process to enforce such right equivalent to the Federal program (section 18(c)(3) of the Act and 29 CFR 1902.3(e)). Likewise, a State is expected to prohibit advance notice of inspection, allowing exception thereto no broader than the Federal program (29 CFR 1902.3(f)). The South Carolina Occupational Safety and Health Act authorizes the Commissioner to enter and inspect all covered workplaces in terms substantially identical to those in the Federal Act. In addition, South Carolina law allows the Commissioner to apply for a warrant from the State courts to permit entry into such establishments that have refused entry for the purpose of inspection or investigation. The South Carolina law likewise prohibits advance notice, and implementing procedures for exceptions to this prohibition are substantially identical to the Federal.

In order to be found qualified for final approval, a State is expected to take action to enforce its right of entry when denied (29 CFR 1902.37(b)(9)) and to adhere to its advance notice procedures. South Carolina had 15 denials of entry during this evaluation period, was successful in obtaining warrants for 11 of them, and gained entry voluntarily for the other 4. The 18(e) Evaluation Report indicates that 17 instances of advance notice procedures were used and in all cases the State's use of its procedures were proper.

(f) *Citations, penalties, and abatement.* A State plan is expected to have authority and procedures for promptly notifying employers and employees of violations identified during inspections, for the proposal of effective first-instance sanctions against employers found in violation of standards and for prompt employer notification of such penalties (29 CFR 1902.4(c)(2) (x) and (xi)). The South Carolina plan through its law, regulations and field operations manual, which have all been previously approved by OSHA, has established a system similar to the Federal for prompt issuance of citations to employers delineating violations and establishing reasonable abatement periods requiring posting of such citations for employee information and proposing penalties.

In order to be qualified for final approval, the State, in actual operation, must be found to conduct competent inspections in accordance with approved procedures and to obtain adequate information to support resulting citations (29 CFR 1902.37(b)(10)), to issue citations, proposed penalties and failure-to-abate notifications in a timely manner (29 CFR 1902.37(b)(11)), to proposed penalties for first instance violations that are at least as effective as those under the Federal program (29 CFR 1902.37(b)(12)), and to ensure abatement of hazards including issuance of failure-to-abate notices and appropriate penalties (29 CFR 1902.37(b)(13)).

Procedures for the South Carolina Occupational Safety and Health Compliance Program are set out in the South Carolina Field Operations Manual, which is patterned after the Federal manual, and thus the State follows inspection procedures, including documentation procedures, which are similar to the Federal. The evaluation report notes overall adherence by South Carolina to these procedures. South Carolina cites an average of 3.0 violations per programmed safety inspection with citations and 2.3 violations per programmed health inspection with citations; and 20.5% of safety and 21.2% of health violations cited as serious by the State was comparable to Federal performance during the evaluation period. (Evaluation Report, p. 51.)

South Carolina's lapse time from last day of inspection to issuance of citation averaged 12.8 days for safety and 11.3 days for health, both of which compare favorably with Federal performance during the period. (Evaluation Report, p. 68).

South Carolina's procedures for calculation of penalties are similar to Federal OSHA. However, there are some differences between the two programs, for example, the minimum penalty that can be proposed, number of penalty levels, multi-instance penalty, etc. The evaluation report indicates that the average proposed penalties for serious violations were $292 for safety and $400 for health. (Evaluation Report, pp. 56–58).

South Carolina conducts a lower percent of follow-up inspections to assure abatement of cited violations (1.8% of not-in-compliance inspections) than does Federal OSHA. In the past the State required a follow-up inspection on all cited violations except other-than-serious. However, the State reduced the number of follow-up inspections because over the past two years the State issued only one or two failure-to-abate notices. State abatement periods averaged 8.2 days for serious safety and 17.6 days for serious health violations. (Evaluation Report, pp. 54–55.)

(g) *Contested cases.* In order to be considered for initial approval and certification, a State plan must have authority and procedures for employer contest of citations, penalties and abatement requirements at full administrative or judicial hearings. Employees must also have the right to contest abatement periods and the opportunity to participate as parties in all proceedings resulting from an employer's contest (29 CFR 1902.4(c)(2)(xii)). South Carolina's procedures for employer contest of citations, penalties and abatement requirements and for ensuring employees rights are contained in the law, regulations and field operations manual made a part of the record in this proceeding and are similar to the Federal procedures which the exception of the expanded employee right to contest terms and conditions of citations as well as abatement dates. Appeals of citations, penalties and abatement periods are heard by the South Carolina's Occupational Health and Safety Review Board and may be further appealed to the Court of Common Pleas.

During the evaluation period, 6.9% of safety inspections with citation, and 12.2% of health inspections with citation, resulted in contests. This level is higher than the precentage of contests federally. The report indicates that the higher rate of contested cases is attributed to fewer settlements reached at the pre-contest level and concludes that the State's performance in this area is as effective as Federal OSHA. (Evaluation Report, pp. 60 and 63.)

To qualify for final approval, the State must seek review of any adverse adjudications and take action to correct any enforcement program deficiencies resulting from adverse administrative or judicial determinations (29 CFR 1902.37(b)(14)). The State had no adverse decisions which would require review or corrective action. Accordingly, OSHA finds that the South Carolina plan effectively reviews contested cases.

(h) *Enforcement conclusion.* In summary, the Assistant Secretary finds that enforcement operations provided under the South Carolina plan are competently planned and conducted, and are overall at least as effective as Federal OSHA enforcement.

(4) *Public employee program.* Section 18(c)(6) of the Act requires that a State which has an approved plan must maintain an effective and comprehensive occupational safety and health program applicable to all employees of public agencies of the State and its political subdivisions, which program must be as effective as the standards contained in an approved plan. 29 CFR 1902.3(j) requires that a State's program for public employees be as effective as the State's program for private employees covered by the plan.

South Carolina's plan provides a program in the public sector which is very similar to that in the private sector, except that no penalties are proposed for other-than-serious violations. Additionally, employers in the public sector may be given a two-thirds credit on proposed penalties for serious violations if they certify that the funds saved will be utilized to correct the violations, provide safety and health training to employees, or improve other elements of their safety and health programs.

During the evaluation period, South Carolina conducted 70 public sector inspections, citing 122 violations of which 17.2% were classified as serious. The proportion of inspections dedicated to the public sector (3% of total inspections during the evaluation period) was appropriate to the needs of public employees. (Evaluation Report, pp. 23 and 26.)

Injury and illness rates for State and local government employment are lower than in the private sector (1985: all case rate—5.8; lost workday case rate—2.7.). The State and local government lost workday case rate did not change from 2.7 in 1984, while the private sector rate had a slight increase from 2.7 to 2.8.

Because South Carolina's performance in the public sector compares very favorably to that in the private sector, OSHA concludes that the South Carolina program meets the criterion in 29 CFR 1902.3(j).

(5) *Staffing and resources.* Section 18(c)(4) of the Act requires State plans to provide the qualified personnel necessary for the enforcement of standards. In accordance with 29 CFR 1902.37(b)(1), one factor which OSHA must consider in evaluating a plan for final approval is whether the State has a sufficient number of adequately trained and competent personnel to discharge its responsibilities under the plan.

The South Carolina plan provides for 17 safety compliance officers and 12 industrial hygienists as set forth in the South Carolina FY 1987 grant. This staffing level meets the approved, revised, fully effective benchmarks for South Carolina for safety and health staffing, as discussed elsewhere in this notice.

The State provides a comprehensive training program for new compliance personnel and refresher and specialized training for experienced staff, which includes attendance at the OSHA Training Institute and in-house and field training exercises.

As noted in the **Federal Register** notice announcing certification of the completion of developmental steps for South Carolina (41 FR 32424) all personnel under the plan meet civil service requirements under the State merit system, which was found to be in substantial conformity with the Standards for a Merit System of Personnel Administration by the U.S. Office of Personnel Management.

Because South Carolina has allocated sufficient enforcement staff to meet the revised benchmarks for that State, and personnel are trained and competent, the requirements for final approval set forth in 29 CFR 1902.37(b)(1), and in the 1978 Court Order in *AFL–CIO* v. *Marshall, supra,* are being met by the South Carolina plan.

Section 18(c)(5) of the Act requires that the State devote adequate funds to administration and enforcement of its standards. The South Carolina plan was funded at $2,606,014 in FY 1987. (Fifty percent of the funds were provided by Federal OSHA and 50% were provided by the State.)

As noted in the 18(e) Evaluation Report, South Carolina's funding is judged sufficient in absolute terms; moreover, the State allocates its resources to the various aspects of the program in a manner similar to OSHA. On this basis, OSHA finds that South Carolina has provided sufficient funding for the various activities carried out under the plan.

(6) *Records and reports.* State plans must assure that employers in the State submit reports to the Secretary in the same manner as if the plan were not in effect (section 18(c)(7) of the Act and 29 CFR 1902.3(k)). The plan must also provide assurances that the designated agency will make such reports to the Secretary in such form and containing such information as he may from time to time require (section 18(c)(8) of the Act and 29 CFR 1902.3(1)).

South Carolina's employer recordkeeping requirements are equivalent to those of Federal OSHA, and the State participates in the BLS Annual Survey of Occupational Illnesses and Injuries. As noted elsewhere in this notice, the State participates and has assured its continuing participation with OSHA in the Integrated Management Information System as a means of providing reports on its activities to OSHA.

For the foregoing reasons, OSHA finds that South Carolina has met the requirements of sections 18(c) (7) and (8) of the Act on employer and State reports to the Secretary.

(7) *Voluntary compliance program.* A State plan is required to undertake programs to encourage voluntary compliance by employers by such means as conducting training and consultation with employers and employees (29 CFR 1902.4(c)(2)(xiii)).

South Carolina does not differentiate between employers and employees when conducting training sessions in the public sector. In the public sector, 5,754 public sector employers and employees participated in 128 training sessions.

For the private sector, 1,375 employers participated in 62 training sessions, while 13,254 employees participated in 598 training sessions.

South Carolina has established a Voluntary Protection Program (VPP) identical to the Federal program. The program recognizes exemplary safety and health programs as a means of expanding worker protection. Establishments which meet the program criteria will be removed from the general schedule inspection list for one year from the date of the establishment's approval. There is currently one establishment particiating on this program.

In the private sector, South Carolina provides on-site consultative services to employers under a cooperative agreement with OSHA made pursuant to section 7(c)(1) of the Act and 29 CFR Part 1908. On-site consultation for the public sector is provided under the South Carolina plan.

Accordingly, OSHA finds that South Carolina has established and is administering an effective voluntary compliance program.

(8) *Injury and illness statistics.* As a factor in its 18(e) determination, OSHA must consider the Bureau of Labor Statistics Annual Occupational Safety and Health Survey and other available Federal and State measurements of

VOL 52 ISS 243 DEC 18 1987 UMI

program impact on worker safety and health (29 CFR 1902.37(b)(15)). The 1984 and 1985 Bureau of Labor Statistics injury and illness rates for South Carolina (private sector all case rate for 1984 was 6.9% and for 1985 was 7.1%; lost workday case rate for 1984 was 2.7 and for 1985 was 2.8%) were lower than rates in the States where Federal OSHA provides enforcement coverage. In 1985, the all case incidence rates and the lost workday case rates for the private sector, manufacturing and construction experienced a mix of increases and decreases in South Carolina, the rates of increase were within the acceptable range established under OSHA's State Plan Activities Measures and the absolute rates in each case for 1985 were lower than corresponding rates in Federal States. In addition, the percent change in lost workday cases for the State's five most hazardous industries were all within the acceptable range when compared to the change in rates under Federal jurisdiction.

OSHA finds that the trends in injury and illness statistics in South Carolina compared favorably with those in States with Federal enforcement.

Decision

OSHA has carefully reviewed the record developed during the above described proceedings, including all comments received thereon. The present **Federal Register** document sets forth the findings and conclusions resulting from this review.

In light of all the facts presented on the record, the Assistant Secretary has determined that the South Carolina State plan for occupational safety and health, which has been monitored for at least one year subsequent to certification, is in actual operation at least as effective as the Federal program and meets the statutory criteria for State plans in section 18(e) of the Act and implementing regulations at 29 CFR Part 1902. Therefore, the South Carolina State plan is hereby granted final approval under section 18(e) of the Act and implementing regulations at 29 CFR Part 1902, effective December 15, 1987.

Under this 18(e) determination, South Carolina will be expected to maintain a State program which will continue to be at least as effective as operations under the Federal program in providing employee safety and health at covered workplaces. This requirement includes submitting all required reports to the Assistant Secretary as well as submitting plan supplements documenting State-initiated program changes, changes required in response to adverse evaluation findings, and responses to mandatory Federal program changes. In addition, South Carolina must continue to allocate sufficient safety and health enforcement staff to meet the benchmarks for State staffing established by the Department of Labor, or any revision to those benchmarks.

Effect of Decision

The determination that the criteria set forth in section 18(c) of the Act and 29 CFR Part 1902 are being applied in actual operations under the South Carolina plan terminates OSHA authority for Federal enforcement of its standards in South Carolina, in accordance with section 18(e) of the Act, in those issues covered under the State plan. Section 18(e) provides that upon making this determination "the provisions of sections 5(a)(2), 8 (except for the purpose carrying out subsection (f) of this section), 9, 10, 13, and 17, shall not apply with respect to any occupational safety or health issues covered under the plan, but the Secretary may retain jurisdiction under the above provisions in any proceeding commenced under section 9 or 10 before the date of determination."

Accordingly, Federal authority to issue citations for violation of OSHA standards (sections 5(a)(2) and 9); to conduct inspections (except those necessary to conduct evaluations of the plan under section 18(f), and other inspections, investigations or proceedings necessary to carry out Federal responsibilities which are not specifically preempted by section (18)(e)) (section 8); to conduct enforcement proceedings in contested cases (section 10); to institute proceedings to correct imminent dangers (section 13); and to propose civil penalties or initiate criminal proceedings for violations of the Federal Act (section 17) is relinquished as of the effective date of this determination.

Federal authority under provisions of the Act not listed in section 18(e) is unaffected by this determination. Thus, for example, the Assistant Secretary retains his authority under section 11(c) of the Act with regard to complaints alleging discrimination against employees because of the exercise of any right afforded to the employee by the Act although such complaints may be initially referred to the State for investigation. Any proceeding initiated by OSHA under sections 9 and 10 of the Act prior to the date of this final determination would remain under Federal jurisdiction. The Assistant Secretary also retains his authority under section 6 of the Act to promulgate, modify or revoke occupational safety and health standards which address the working conditions of all employees, including those in States which have received an affirmative 18(e) determination. In the event that a State's 18(e) status is subsequently withdrawn and Federal authority reinstated, all Federal standards, including any standards promulgated or modified during the 18(e) period, would be Federally enforceable in the State.

In accordance with section 18(e), this determination relinquishes Federal OSHA authority only with regard to occupational safety and health issues covered by the South Carolina plan, and OSHA retains full authority over issues which are not subject to State enforcement under the plan. Thus, for example, Federal OSHA retains its authority to enforce all provisions of the Act, and all Federal standards, rules or orders which relate to safety or health in private sector maritime employment and employment on military bases. In addition Federal OSHA may subsequently initiate the exercise of jurisdiction over any issue (hazard, industry, geographical area, operation or facility) for which the State is unable to provide effective coverage for reasons not related to the required performance or structure of the State plan.

As provided by section 18(f) of the Act, the Assistant Secretary will continue to evaluate the manner in which the State is carrying out its plan. Section 18(f) and regulations at 29 CFR Part 1955 provide procedures for the withdrawal of Federal approval should the Assistant Secretary find that the State has subsequently failed to comply with any provision or assurance contained in the plan. Additionaly, the Assistant Secretary is required to initiate proceedings to revoke an 18(e) determination and reinstate concurrent Federal authority under procedures set forth in 29 CFR 1902.47, *et seq.*, if his evaluations show that the State has substantially failed to maintain a program which is at least as effective as operations under the Federal program, or if the State does not submit program change supplements to the Assistant Secretary as required by 29 CFR Part 1953.

Explanation of Changes to 29 CFR Part 1952

29 CFR Part 1952 contains, for each State having an approved plan, a subpart generally describing the plan and setting forth the Federal approval status of the plan. 29 CFR 1902.43(a)(3) requires that notices of affirmative 18(e) determinations be accompained by changes to Part 1952 reflecting the final approval decision. This notice makes changes to Subpart C of Part 1952 to reflect the final approval of the South Carolina plan.

The table of contents for Part 1952, Subpart C, has been revised to reflect the following changes.

Section 1952.94, Final approval determinations, which formerly was reserved, has been completed to reflect the determination granting final approval of the plan. The section contains a more accurate description of the current scope of the plan than the one contained in the initial approval decision.

Section 1952.95, Level of Federal enforcement, has been changed to reflect the State's 18(e) stauts. This replaces the former description of the relationship of State and Federal enforcement under an Operational Status Agreement which was entered into on May 9, 1975 and amended May 23, 1984. Federal concurrent enforcement authority has been relinquished as part of the present 18(e) determination for South Carolina and the Operational Status Agreement is not longer in effect. Section 1952.95 describes the issues where Federal authority has been terminated and the issues where it has been retained in accordance with the discussion of the effects of the 18(e) determination set forth earlier in the present **Federal Register** notice.

Regulatory Flexibility Act

OSHA certifies pursuant to the Regulatory Act of 1980 (5 U.S.C. 601, *et seq.*) that this rulemaking will not have a significant economic impact on a substantial number of small entities. Final approval will not place small employers in South Carolina under any new or different requirements nor would any additional burden be placed upon the State government beyond the responsibilities already assumed as part of the approved plan. Certification to this effect was previously forwarded to the Chief Counsel for Advoacy, Small Business Administration.

List of Subjects in 29 CFR Part 1952

Intergovernmental relations, Law enforcement, Occupational safety and health.

(Sec. 18, 84 Stat. 1608 (29 U.S.C. 667); 29 CFR Part 1902 (Sec. 18, 84 Stat. 1608 (29 U.S.C. 667); 29 CFR Part 1902, Secretary of Labor's Order No. 9–83 (48 FR 35736))

Signed at Washington, DC, this 15th day of December 1987.

John A. Pendergrass,

Assistant Secretary.

PART 1952—[AMENDED]

Accordingly, Subpart C of 29 CFR Part 1952 is hereby amended as follows:

1. The authority citation for Part 1952 continues to read:

Authority: Secs. 8, 18, Occupational Safety and Health Act 1970 (29 U.S.C. 657, 667); Secretary of Labor's Order No. 12–71 (36 FR 8754), 8–76 (41 FR 25059), or 9–83 (48 FR 35736), as applicable.

2. Section 1952.94 is added and 1952.95 is revised to read as follows:

§ 1952.94 Final approval determination.

(a) In accordance with section 18(e) of the Act and procedures in 29 CFR Part 1902, and after determination that the State met the "fully effective" compliance staffing benchmarks as revised in 1984 in response to a Court Order in *AFL–CIO* v. *Marshall* (CA 74–406), and was satisfactorily providing reports to OSHA through participation in the Federal-State Integrated Management Information System, the Assistant Secretary evaluated actual operations under the South Carolina State plan for a period of at least one year following certification of completion of developmental steps (41 FR 32424). Based on the 18(e) Evaluation Report for the period of December 1, 1985 through January 31, 1987, and after opportunity for public comment, the Assistant Secretary determined that in operation the State of South Carolina's occupational safety and health program is at least as effective as the Federal program in providing safe and healthful employment and places of employment and meets the criteria for final State plan approval in section 18(e) of the Act and implementing regulations at 29 CFR Part 1902. Accordingly, the South Carolina plan was granted final approval and concurrent Federal enforcement authority was relinquished under section 18(e) of the Act effective December 15, 1987.

(b) The plan which has received final approval covers all activities of employers and places of employment in South Carolina except for private sector maritime, and military bases.

(c) South Carolina is required to maintain a State program which is at least as effective as operations under the Federal program; to submit plan supplements in accordance with 29 CFR Part 1953; to allocate sufficient safety and health enforcement staff to meet the benchmarks for State staffing established by the U.S. Department of Labor, or any revisions to those benchmarks; and, to furnish such reports in such form as the Assistant Secretary may from time to time require.

§ 1952.95 Level of Federal enforcement.

(a) As a result of the Assistant Secretary's determination granting final approval to the South Carolina plan under section 18(e) of the Act, effective December 15, 1987, occupational safety and health standards which have been promulgated under section 6 of the Act do not apply with respect to issues covered under the South Carolina plan. This determination also relinquishes concurrent Federal OSHA authority to issue citations for violations of such standards under sections 5(a)(2) and 9 of the Act; to conduct inspections and investigations under section 8 (except those necessary to conduct evaluation of the plan under section 18(f) and other inspections, investigations, or proceedings necessary to carry out Federal responsibilities not specifically preempted by section 18(e)); to conduct enforcement proceedings in contested cases under section 10; to institute proceedings to correct imminent dangers under section 13; and to propose civil penalties or initiate criminal proceedings for violations of the Federal Act under section 17. The Assistant Secretary retains jurisdiction under the above provisions in any proceeding commenced under sections 9 or 10 before the effective date of the 18(e) determination.

(b)(1) In accordance with section 18(e), final approval relinquishes Federal OSHA authority only with regard to occuaptional safety and health issues covered by the South Carolina plan. OSHA retains full authority over issues which are not subject to State enforcement under the plan. Thus, Federal OSHA retains its authority relative to safety and health in private sector maritime activities and will continue to enforce all provisions of the Act, rules or orders, and all Federal standards, current or future, specifically directed to maritime employment (29 CFR Part 1915, shipyard employment; Part 1917, marine terminals; Part 1918, longshoring; Part 1919, gear certification) as well as provisions of general industry standards (29 CFR Part 1910) appropriate to hazards found in these employments, and employment on military bases. Federal jurisdiction is also retained with respect to Federal government employers and employees.

VOL 52 ISS 243 DEC 18 1987 UMI

(2) In addition, any hazard, industry, geographical area, operation or facility over which the State is unable to effectively exercise jurisdiction for reasons not related to the required performance or structure of the plan shall be deemed to be an issue not covered by plan which has received final approval, and shall be subject to Federal enforcement. Where enforcement jurisdiction is shared between Federal and State authorities for a particular area, project, or facility, in the interest of administrative practicability Federal jurisdiction may be assumed over the entire project or facility. In either of the two aforementioned circumstances, Federal enforcement may be exercised immediately upon agreement between Federal OSHA and the State designated agency.

(c) Federal authority under provisions of the Act not listed in section 18(e) is unaffected by final approval of the plan. Thus, for example, the Assistant Secretary retains his authority under section 11(c) of the Act with regard to complaints alleging discrimination against employees because of the exercise of any right afforded to the employee by the Act, although such complaints may be referred to the State for investigation. The Assistant Secretary also retains his authority under section 6 of the Act to promulgate, modify or revoke occupational safety and health standards which address the working conditions of all employees, including those in States which have received an affirmative 18(e) determination, although such standards may not be federally applied. In the event that the State's 18(e) status is subsequently withdrawn and Federal authority reinstated, all Federal standards, including any standards promulgated or modified during the 18(e) period, would be federally enforceable in that State.

(d) As required by section 18(f) of the Act, OSHA will continue to monitor the operations of the South Carolina State program to assure that the provisions of the State plan are substantially complied with and that the program remains at least as effective as the Federal program. Failure by the State to comply with its obligations may result in the revocation of the final determination under section 18(e), resumption of Federal enforcement, and/or proceedings for withdrawal of plan approval.

BILLING CODE 4510-26-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Care Financing Administration

42 CFR Parts 401, 405 and 408

[BERC-402-FC]

Medicare Program; Supplementary Medical Insurance Premiums

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Final rule with comment period.

SUMMARY: These rules amend the Medicare regulations that deal with supplementary medical insurance (SMI) premiums.

These changes are necessary to conform our rules to changes made in the Medicare laws since the rules were last published.

The purpose is to ensure that those who must apply our rules are not misled or confused by content that fails to reflect statutory changes and modified policy.

DATES: These regulations are effective January 19, 1988.

Consideration will be given to comments received or postmarked no later that March 17, 1988.

ADDRESS: Address comments in writing to: Administrator, Health Care Financing Administration, Department of Health and Human Services, Attention: BERC-402-FC, P.O. Box 26676, Baltimore, Maryland 21207.

In commenting, please refer to file code BERC-402-FC. If you prefer, you may deliver your comments to Room 309-G, Hubert H. Humphrey Building, 200 Independence Ave., SW., Washington, DC, or to Room 132, East High Rise Building, 6325 Security Boulevard, Baltimore, Maryland 21207.

Comments will be available for public inspection as they are received, beginning approximately three weeks from today, in Room 309-G of the Department's offices at 200 Independence Ave., SW., Washington, DC 20201, on Monday through Friday of each week from 8:30 a.m. to 5:00 p.m. (202-245-7890).

FOR FURTHER INFORMATION CONTACT: Denis Garrison, (301) 594-9435.

SUPPLEMENTARY INFORMATION:

I. Purpose and Scope

These amendments conform HCFA regulations on SMI premiums (Part 405, Subpart I) to statutory changes enacted since Subpart I was last published. Because most of Subpart I was last published in 1968, it also needed updating to reflect administrative and procedural changes. For example, group payments must now be sent to the HCFA Premium Collection Center, instead of to the SSA Payment Center. As part of our ongoing project to assign a separate part to each major aspect of the Medicare program, we redesignated the premium provisions under a new Part 408. When the existing rules contained confusing language or incorrect cross-references, we also revised to clarify and correct.

II. Background

The SMI program is the voluntary Medicare Part B program that pays all or part of the costs for physicians' services, outpatient services, home health services, services furnished by rural health clinics, ambulatory surgical centers, and comprehensive outpatient rehabilitation facilities, and certain other medical and health services not covered by hospital insurance (Medicare Part A).

The SMI program is available to individuals who are entitled to hospital insurance and to U.S. residents who have attained age 65 and are citizens or are aliens lawfully admitted for permanent residence who have resided in the United States for five consecutive years. This program requires enrollment and payment of monthly premiums.

III. Changes in the Law and the Rules

The principal statutory and policy changes and the conforming changes to the regulations are discussed below.

A. Effect of Late Enrollment and Reenrollment

1. Statutory provisions

Before enactment of section 945 of Pub. L. 98-499, an individual could not enroll more than twice, and there was an annual general enrollment period that lasted from January 1 to March 31 of each calendar year. Section 945 amended sections 1837, 1838, 1839 of the Act to remove the two-enrollment limitation and establish an unlimited general enrollment period that began when the individual's initial enrollment period ended. (The initial enrollment period is a 7-month period beginning 3 months before the month the individual first meets the eligibility requirements for Medicare and ending with the third month after that first month of eligibility).

Section 945 was effective April 1, 1981. Section 2151 of Pub. L. 97-35 further amended sections 1837-1839 of the Act to eliminate continuous open enrollment, (that is, to restore the annual 3-month enrollment period) effective October 1, 1981, but retained the

provision allowing an unlimited number of reenrollments. Since the law requires that the monthly premium be increased for individuals who enroll after expiration of their initial enrollment periods and for those who reenroll, the enrollment provisions of sections 945 and 2151 also affected the way the premium increase would be determined.

2. Conforming Changes

The effect of these changes in the law is reflected in §§ 408.24 through 408.26 of the regulations.

B. Determination and Promulgation of Premium Amounts

1. Statutory Provisions

Section 124 of Pub. L. 97-248, as amended by section 606 of Pub. L. 98-21 (the Social Security Amendments of 1983) amended section 1839(a) of the Act to change the method of determining premiums for 1984 and 1985:

- Beginning with 1984, the SMI premium must be calculated on the basis of 50 percent of the actuarial rate for the aged (roughly 25 percent of program costs).
- Beginning with 1983, the promulgation date is September instead of December and the new premium is effective in January rather than July (to correspond to the date for cost-of-living increases in social security benefits).

Section 2302 of Pub. L. 98-369 further amended section 1839 of the Act to require that the SMI premium continue to be based on 50 percent of the actuarial rate for two more years—1986 and 1987, and included a hold-harmless provision, applicable during these two years, to ensure that the increase in the standard monthly premium will not result in a decrease in social security cash benefits in certain circumstances. The hold-harmless provision was not applied in 1986 since there was no increase in the standard monthly premium for that year. Section 9313 of Pub. L. 99-272 extends the section 2302 provisions for one more year, through 1988.

Section 2338(a) of Pub. L. 98-369 provided that, in determining the premium for late enrollment in SMI, the months during which an employer group health plan was primary payer for individuals age 65 to 69 be excluded.

Section 9001(c) of Pub. L. 99-509 provided technical clarification of the hold-harmless provision noted above. That clarification affects the procedural instructions but does not require any change in the regulations.

Section 9201 (a) and (c) of Pub. L. 99-272 amended sections 1837 and 1862 of the Act to remove the age-70 upper limit so that the employer group health plan is primary to Medicare for individuals age 65 or older, as long as they are covered under the employer plan on the basis of current employment.

Section 9219(a) of that same law amended section 1839 of the Act to provide that, in determining the premium for late enrollment in SMI (or in hospital insurance for individuals who must pay premiums for that program), the months of coverage under an employer group health plan are to be excluded even if the employer has fewer than 20 employees and even if the individual is not entitled to, or eligible for, hospital insurance. (In neither of the two latter circumstances would the employer plan be primary to Medicare.) Since, as discussed above, the age 70 cap has been removed, these provisions apply to individuals age 65 or older.

Section 9319(c) of Pub. L. 99-509 provides that, for disabled Medicare beneficiaries, months of employer group health plan coverage be excluded in determining the premium for late enrollment. The disabled beneficiary must be covered under a large employer group health plan as an employee, employer, individual associated with the employer in a business relationship, or family member of any of the foregoing. This provision is effective for months of coverage under a large employer plan from January 1987 through December 1991, and affects premiums due for any month from January 1987 onward. (A "large" employer group health plan is a plan that covers employees of at least one employer that had 100 or more employees on the majority of business days during the preceding calendar year.)

2. Conforming Changes

The rules on special enrollment periods for the aged and disabled are set forth in a new § 405.216. The other amendments discussed above are reflected in §§ 405.216, 408.20 and 408.24 of the new Part 408.

C. Collection of Premiums That Exceed Social Security Cash Benefits

1. Statutory Provisions

Under previous law, there was a minimum Social Security primary insurance amount of $122. Section 2201 of Pub. L. 97-35 amended section 215 of the Act to eliminate that minimum for beneficiaries who first become eligible after October 1981, and for all other beneficiaries beginning March 1982. Section 2 of Pub. L. 97-123 restored the minimum benefits for all individuals who first became eligible before January 1, 1982 (and for some individuals who become eligible in 1982-1991).

This means that, for an individual who becomes eligible on or after January 1, 1982 and whose benefits are based on very low earnings, the monthly benefit may be less than the monthly SMI premium. The billing procedures used in this situation are the same procedures used in the past when other situations resulted in monthly benefits that were less than the amount of the premium. The monthly benefit serves to pay part of the premium and the insured individual is required to pay the difference through direct remittance.

2. Conforming Changes

The above described billing procedures are set forth in § 408.63 and conforming language appears in §§ 408.6, 408.8, and 408.43.

IV. Regulatory Impact Statement

Executive Order 12291 (E.O. 12291) requires us to prepare and publish a regulatory impact analysis for any regulations that are likely to meet criteria for a "major rule". A major rule is one that would result in:

(1) An annual effect on the economy of $100 million or more;

(2) A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or any geographical regions; or

(3) Significant adverse effects on competition, employment, investment, productivity, innovation or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

In addition, consistent with the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 through 612), we prepare and publish a regulatory flexibility analysis for regulations unless the Secretary certifies that the regulations will not have a significant impact on a substantial number of small entities.

These regulations are technical and conforming changes necessary to implement certain statutory provisions. In themselves, they will have no effects requiring an analysis under E.O. 12291. Further, the Secretary certifies that these regulations will not have a significant economic impact on a substantial number of small entities. Therefore, neither a regulatory impact analysis nor a regulatory flexibility analysis has been prepared.

V. Paperwork Reduction Act

These regulations impose no additional reporting or recordkeeping provisions requiring OMB clearance.

VI. Waiver of Notice of Proposed Rulemaking

These amendments make no substantive changes other than those that are discussed in this preamble and are required to conform our rules to changes in the law, or to reflect current practice and procedures.

With respect to the law, they conform to other regulations that implement those changes, or if other regulations have not been issued, merely reflect the language of the law without further interpretation or elaboration. With respect to administrative practice and procedures, they include nothing that is not already set forth in general instructions issued by HCFA.

We therefore find that notice and opportunity for public comment before final rules is unnecessary. However, we recognize that the process of redesignating and clarifying the rules carries the risk of unintentional alteration. For that reason, we will consider comments received within 60 days after publication of these rules. Although we cannot acknowledge individual comments, if we revise these rules, we will discuss all timely comments in the preamble to the revised rules.

405.960(b)	408.52.
405.962	408.110.
405.964	408.112.

42 CFR Chapter IV is amended as set forth below:

A. Part 405, Subpart B is amended as follows:

PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

Subpart B—Supplementary Medical Insurance Benefits; Enrollment, Coverage, Exclusions, and Payment

1. The authority citation for Subpart B continues to read as follows:

Authority: Secs. 1102, 1836, 1837, 1838, and 1871 of the Social Security Act (42 U.S.C. 1302, 1395a, 1395p, 1395q, and 1395hh).

2. A new § 405.216 is added and the table of contents is amended to reflect the addition.

§ 405.216 Special enrollment periods related to coverage under an employer group health plan.

(a) *General rules.* Special enrollment periods (SEPs) are 7-month periods available to individuals who meet the general requirements of this paragraph (a), and the special conditions set forth in paragraph (b) or (c) of this section, as appropriate.

(1) They are eligible to enroll in SMI on the basis of age or disability, but not on the basis of end-stage renal disease.

(2) When first eligible to enroll in SMI (4th month of their initial enrollment period),

(i) They were covered under an employer group health plan; or

(ii) They enrolled in SMI during their initial enrollment period.

(3) Except as provided in paragraph (a)(4) of this section, they maintained coverage under either an employer group health plan or SMI for all months after the initial enrollment period.

(4) *Exception:* If an individual failed to enroll during any SEP because employer group health plan coverage was restored before the end of that SEP, that failure to enroll in SMI is not considered a break in coverage that would preclude another SEP now or in the future.

(b) *Specific rules: Individual age 65 or over.* Individuals entitled on the basis of age must meet the following conditions:

(1) They have been covered, on the basis of current employment, under an employer group health plan as defined in section 162(i)(3) of the Internal Revenue Code of 1954; and

(2) They are no longer covered under such a plan on the basis of current employment.

(c) *Specific rules: Disabled individual.* Individuals entitled on the basis of disability (but not on the basis of end-stage renal disease), must meet the following conditions:

(1) They have been covered under a large employer group health plan that meets the definition in § 5000(b) of the Internal Revenue Code of 1954;

(2) They had this coverage as an employee, employer, individual associated with the employer in a business relationship, or as a family member of one of the foregoing; and

(3) They no longer have the coverage described in this paragraph (c).

(d) *Beginning of special enrollment period: Individual age 65 or over.* For an aged individual—

(1) Before May 1986, the SEP began with whichever of the following resulted in earlier SMI entitlement:

(i) The first day of the third month before the month in which the individual attained age 70, if employer group health plan coverage continued to age 70.

(ii) The first day of the first month in which the individual was no longer enrolled in an employer plan on the basis of current employment.

(2) In and after May 1986, the SEP begins on the first day of the first month in which the individual is no longer enrolled in an employer plan on the basis of current employment.

(e) *Beginning of special enrollment period: Disabled individual.* For a disabled individual under age 65, the SEP begins with the first day of the first month after December 1986 in which the individual is no longer covered under an employer plan as described in paragraph (c) of this section. Because the provisions applicable to disabled individuals expire on December 31, 1991, the last SEP available under those provisions will begin with January 1992.

(f) *Beginning of special enrollment period: Partial coverage month.* When employer plan coverage ends before the end of a month, the following rules apply—

(1) If the individual enrolls in SMI before the end of the partial coverage month, the SEP begins with that month.

(2) If the individual does not enroll in SMI before the end of the partial coverage month, the SEP begins with the following month.

(g) *Beginning of Entitlement*—(1) *Enrollment or reenrollment before May 1986.* (i) If an individual enrolled during the 3 months before attainment of age 70, entitlement began with the month of attainment of age 70; and

(ii) If an individual enrolled during the month of attainment of age 70, or during any of the 3 following months, entitlement began with the month after the month of enrollment.

(2) *Enrollment or reenrollment in and after May 1986.* (i) If an individual enrolls during the first month of nonenrollment in an employer group health plan, which is the first month of the SEP, entitlement begins with the first day of that month.

(ii) If an individual enrolls during the last 6 months of the SEP, entitlement begins with the month after the month of enrollment.

3. Subpart I, consisting of §§ 405.901 to 405.964, is redesignated and revised as a new Part 408.

B. The sections removed from Subpart I of Part 405 are redesignated as a new Part 408 and revised to read as follows:

PART 408—PREMIUMS FOR SUPPLEMENTARY MEDICAL INSURANCE

Subpart A—General Provisions

Sec.
- 408.1 Statutory basis.
- 408.2 Scope and purpose.
- 408.3 Definitions.
- 408.4 Payment obligations.
- 408.6 Methods and priorities for payment.
- 408.8 Grace period and termination date.
- 408.10 Claim for monthly benefits pending concurrently with request for SMI enrollment.

Subpart B—Amount of Monthly Premium

- 408.20 Standard monthly premium.
- 408.22 Increased premiums for late enrollment and for reenrollment.
- 408.24 Individual who enrolled or reenrolled before April 1, 1981 or after September 30, 1981.
- 408.25 Individual who enrolled or reenrolled between April 1 and September 30, 1981.
- 408.26 Examples.
- 408.27 Rounding the monthly premium.

Subpart C—Deduction from Monthly Benefits

- 408.40 Deduction from monthly benefits: Basic rules.
- 408.42 Deduction from railroad retirement benefits.
- 408.43 Deduction from social security benefits.
- 408.44 Deduction from civil service annuities.
- 408.45 Deduction from age 72 special payments.
- 408.46 Effect of suspension of social security benefits.
- 408.47 Overdue premiums for months in a closed taxable year.
- 408.50 When premiums are considered paid.
- 408.52 Change from direct remittance to deduction.
- 408.53 Change from partial direct remittance to full deduction.

Subpart D—Direct Remittance; Individual Payment

- 408.60 Direct remittance: Basic rules.
- 408.62 Initial and subsequent billings.
- 408.63 Billing procedures when monthly benefits are less than monthly premiums.
- 408.65 Payment options.
- 408.68 When premiums are considered paid.
- 408.70 Change from quarterly to monthly payments.
- 408.71 Change from deduction or State payment to direct remittance.

Subpart E—Direct Remittance: Group Payment

- 408.80 Basic rules.
- 408.82 Conditions for group billing.
- 408.84 Billing and payment procedures.
- 408.86 Responsibilities under group billing arrangement.
- 408.88 Refund of group payments.
- 408.90 Termination of group billing arrangement.
- 408.92 Change from group payment to deduction or individual payment.

Subpart F—Termination and Reinstatement of Coverage

- 408.100 Termination of coverage for nonpayment of premiums.
- 408.102 Reconsideration of termination.
- 408.104 Reinstatement procedures.

Subpart G—Collection of Unpaid Premiums; Refund of Excess Premiums After the Death of the Enrollee

- 408.110 Collection of unpaid premiums.
- 408.112 Refund of excess premiums after the enrollee dies.

Authority: Secs. 1102, 1810, 1837–1840, 1843, 1871 and 1881(d) of the Social Security Act (42 U.S.C. 1302, 1395i–2, 1395p, 1395q, 1395r, 1395s, 1395v, 1395hh, and 1395rr(d)), and the Federal Claims Collection Act (31 U.S.C. 3711).

Subpart A—General Provisions

§ 408.1 Statutory basis.

(a) This part implements certain provisions of sections 1837 through 1840 and 1881(d) of the Social Security Act (the Act) and conforms to other

regulations that implement section 1843 of the Act. Section 1838(b) requires regulations to establish when an individual's coverage ends because of nonpayment of premiums. It also specifies that those regulations may provide a grace period for payment of overdue premiums without loss of coverage. Section 1839 sets forth the specific procedures for determining the amount of the monthly premium and section 1840 establishes the rules for payment of premiums. Section 1843 provides that a State may enter into a buy-in agreement to secure SMI coverage for certain individuals by enrolling them in the SMI program and paying the premiums on their behalf. Section 1881(d) provides entitlement to Medicare benefits related to the donation of a kidney without payment of premiums, deductibles, or coinsurance.

(b) The Federal Claims Collection Act (31 U.S.C. 3711), as implemented by 4 CFR Parts 101–105, provides the basic authority for recovery of debts owed the United States Government and specifies the conditions for the suspension or termination of collection action. Departmental regulations at 45 CFR Part 430, updated by a final rule published on January 5, 1987 (52 FR 260) set forth procedures for the exercise of the Department's authority to collect and dispose of debts and we intended to complement rules applicable to particular programs. HCFA rules are set forth at 42 CFR Part 401, Subpart F.

§ 408.2 Scope and purpose.

(a) This part sets forth the policies and procedures for determining the amount of monthly supplementary medical insurance (SMI) premiums, for the payment, collection, or refund of premiums, for termination of coverage because of nonpayment of premiums, and for reinstatement of coverage if certain conditions are met. It conforms to Subpart B of Part 405 of this chapter, which sets forth the requirements for State buy-in agreements. These policies are intended to protect enrollee coverage to the maximum degree compatible with maintaining the integrity of the SMI program.

(b) Policies that apply to premiums required from certain individuals in order to become entitled to Medicare Part A hospital insurance benefits, are set forth in Part 406 of this chapter.

§ 408.3 Definitions.

As used in this part, unless the context indicates otherwise—

Enrollee means an individual who is enrolled in the SMI program under Medicare Part B.

Taxable year means the 12-month period (calendar or fiscal year) for which the individual files his or her income tax return.

§ 408.4 Payment obligations.

(a) *Month for which payment is due.* (1) A payment is due for each month, beginning with the first month of SMI coverage and continuing through the month of death or, if earlier, the month in which coverage terminates.

(2) A premium is due for the month of death, if SMI coverage is still in effect, even though the individual dies on the first day of the month.

(b) *Overdue premiums.* (1) Overdue premiums constitute an obligation enforceable against the enrollee or the enrollee's state.

(2) Overdue premiums are collected—

(i) By deduction from social security or railroad retirement benefits or Federal civil service annuities;

(ii) Directly from the enrollee or the enrollee's estate; or

(iii) By offset against any SMI payments payable to the enrollee or the enrollee's estate.

(3) Interest is not charged on overdue premiums, except under a State buy-in agreement, as provided in § 408.6(c)(4).

(c) *Premiums not required for certain kidney donors.* (1) No premiums are required for SMI benefits related to the donation of a kidney if the donor is not an enrollee.

(2) A kidney donor who is an enrollee is not relieved of the obligation for premiums.

§ 408.6 Methods and priorities for payment.

(a) *Methods of payment.*—(1) *General rules.* Premiums are paid by one of the following four methods:

(i) Payment by a State under a buy-in agreement.

(ii) Deduction from monthly railroad retirement of social security cash benefits or Federal civil service annuities.

(iii) Direct remittance on an individual basis, by or on behalf of the enrollee.

(iv) Direct remittance on a group basis, by an employer, union, lodge or other organization, or by an entity of State or local government.

(2) *Special situations.* (1) If the monthly social security benefit or age 72 special benefit is less than the monthly premium, the benefit is withheld and the enrollee is required to pay the balance through direct remittance. (This situation may arise if the individual first becomes eligible for social security benefits after December 31, 1981, and is, therefore, not eligible for the fixed minimum, or receives age 72 special benefits that are reduced because the individual receives a Government pension.)

(ii) If the monthly railroad retirement benefit or civil service annuity payment is less than the premium, the monthly payment is not withheld and the enrollee is required to pay the total premium by direct remittance.

(b) *Priorities for payment.* (1) If an enrollee is enrolled under a State buy-in agreement—

(i) SMI premiums may not be deducted from monthly cash benefits or annuities; and

(ii) The enrollee may not be required to pay by direct remittance.

(2) If an enrollee is not covered under a State buy-in agreement, but is receiving a monthly benefit or an annuity specified in paragraph (a)(1)(ii) of this section—

(i) The premiums are deducted from that benefit or annuity; or

(ii) If the monthly benefit or payment is less than the monthly premium, the rules of paragraph (a)(2) of this section apply.

(3) If an enrollee is neither covered under a State buy-in agreement, nor receiving monthly benefits or annuity payments, the premiums must be paid totally by direct remittance.

(c) *Payment by a State under a buy-in agreement.* (1) A buy-in agreement is an agreement under which a State, through enrollment and payment of SMI premiums, secures SMI benefits for individuals who are eligible for that program and also eligible for certain other cash or medical benefits. (Policies on enrollment under State buy-in agreements are contained in Subpart B of Part 405 of this chapter.)

(2) The State pays the premiums for each month for which an individual is covered under the agreement.

(3) If an individual's coverage under a State buy-in agreement terminates, his coverage continues on an individual enrollment basis. The premiums are then deducted from benefits, as set forth in Subpart C of this part, or paid by direct remittance in accordance with Subpart D or Subpart E of this part.

(4) Policy on collection of premiums from buy-in States is set forth in a **Federal Register** notice published on September 30, 1985 at 50 FR 39784.

§ 408.8 Grace period and termination date.

(a) *Grace period.* (1) For all initial premium payments (monthly or quarterly), and subsequent monthly payments, the grace period ends with the last day of the third month after the billing month.

(2) For subsequent quarterly payments, the grace period ends with the last day of each 3-month period for which the enrollee is billed.

(3) For payments that are required because of suspension of monthly benefits, the grace period ends the last day of the fourth month after the end of the enrollee's taxable year.

(4) For payments required because the monthly benefit is less than the monthly premium, the grace period ends on April 30 of the year following the calendar year for which the premiums are due.

(b) *Extension of grace period: Last day is nonwork day.* If the last day of the grace period is a Saturday, Sunday, legal holiday, or a day that, by statute or executive order, is a nonwork day for Federal employees, the grace period is extended to the next succeeding work day.

(c) *Termination date.* The end of the grace period is the termination date for SMI coverage if overdue premiums have not been paid by that date in accordance with § 408.68.

(d) *Extension of grace period for good cause.* (1) HCFA may reinstate entitlement, without interruption of coverage, if the individual shows good cause for failure to pay within the initial grace period, and pays all overdue premiums within three calendar months after the termination date.

(2) Good cause will be found if the individual establishes, by a credible statement, that failure to pay premiums within the initial grace period was due to conditions over which he or she had no control, or which he or she could not reasonably have been expected to foresee.

§ 408.10 Claim for monthly benefits pending concurrently with request for SMI enrollment.

(a) If it is clear that an individual who applies for social security or railroad retirement benefits and for SMI will be entitled to monthly benefits, the application for monthly benefits is processed simultaneously with the request for SMI enrollment.

(1) If monthly benefits are paid, the SMI premiums are deducted from those benefits.

(2) If monthly benefits are suspended (for instance, because the individual's earnings exceed the maximum allowed by law), the enrollee is billed for direct remittance.

(b) If it is clear that an individual will be entitled to SMI, but there is substantial question as to eligibility for monthly benefits, the request for SMI enrollment is processed separately.

(1) When SMI enrollment is approved, the enrollee is billed for direct remittance.

(2) When the application for monthly benefits is adjudicated, the following rules apply:

(i) If monthly benefits are paid, the SMI premiums are deducted from those benefits, with appropriate adjustments for any premiums already paid by direct remittance.

(ii) If the application for monthly benefits is approved but the benefits are suspended, the grace period is as set forth in § 408.8(a)(3).

(iii) If the application for monthly benefits is denied, the grace period is as set forth in § 408.8(a)(1).

Subpart B—Amount of Monthly Premiums

§ 408.20 Standard monthly premium.

(a) *Basic provisions.* (1) The law established a monthly premium of $3 for the initial period of the program. It also set forth criteria and procedures for the Secretary to follow each December, beginning with December 1968, to determine and promulgate the standard monthly premium for the 12-month period beginning with July of the following year.

(2) The law was amended in 1983 to require that the Secretary promulgate the standard monthly premium in September of that year, and each year thereafter, to be effective for the 12 months beginning with the following January.

(3) The standard monthly premium applies to individuals who enroll during their initial enrollment periods. In other situations, that premium may be increased or decreased as specified in this subpart.

(b) *Criteria and procedures for the period from July 1976 through December 1983, and for periods after December 1988.* (1) For periods from July 1976 through December 1983, the Secretary determined and promulgated as the standard monthly premium (for disabled as well as aged enrollees) the lower of the following:

(i) The actuarial rate for the aged.

(ii) The monthly premium promulgated the previous December for the year beginning July 1, increased by a percentage that is the same as the latest cost-of-living increase in old age insurance benefits that occurred before the current promulgation. (Because of the change in the effective dates of the premium amount (under paragraph (a)(2) of this section), there was no increase in the standard monthly premium for the period July 1983 through December 1983.)

(2) For periods after December 1988, the Secretary will determine the standard monthly premium in the manner specified in paragraph (b)(1) of this section, but promulgate it in September, for the following calendar year.

(c) *Premiums for calendar years 1984 through 1988.* For calendar years 1984 through 1988, the standard monthly premium for all enrollees—

(1) Is equal to 50 percent of the actuarial rate for enrollees age 65 or over, that is, is calculated on the basis of 25 percent of program costs without regard to any cost-of-living increase in old age insurance benefits; and

(2) Is promulgated in the preceding September.

(d) *Special provisions for calendar years 1987 and 1988*—(1) *Limitation on increase of standard premium.* If there is no cost-of-living increase in old age insurance benefits or disability insurance benefits effective for December 1986, or December 1987, the standard monthly premium for the succeeding year is not increased.

(2) *Nonstandard premiums for certain cases.* (i) A nonstandard premium may be established in individual cases if the following conditions are met:

(A) The individual is entitled to old age or disability benefits for the months of November and December, and actually receives the coresponding benefit checks in December and January.

(B) There is a cost-of-living increase in old age or disability benefits but, wholly or partly because of an increase in the standard monthly premium, the beneficiary would receive a lower cash benefit in January than he or she received in December.[1] (To the extent that a benefit reduction is the result of any factor other than the premium increase, the nonstandard premium provision does not apply.)

(ii) The nonstandard premium is the greater of the following:

(A) The premium paid for December.

(B) The standard premium promulgated for January, reduced as necessary to compensate for the fact that the cost of living increase was less than the increase in the standard premium.

(iii) A nonstandard premium established under paragraph (d)(2)(ii) of this section continues in effect for the rest of the calendar year even if later

[1] Cost-of-living increases are effective in December, and premium increases are effective in January. However, since premiums for each month are collected in the preceding month, both increases affect the amount of the check for December, which is mailed in January.

VOL 52 ISS 243 DEC 18 1987 UMI

there are retroactive adjustments in benefit payments. (The only thing that could affect the nonstandard premium is a determination that the individual had not established, or had lost, entitlement to monthly benefits for November or December.)

(iv) A nonstandard premium is subject to increase for late enrollment or reenrollment as required under other sections of this subpart. The increase is based on the amount of the standard premium and added to the nonstandard premium.

§ 408.23 Increased premiums for late enrollment and for reenrollment.

For an individual who enrolls after expiration of his or her initial enrollment period or reenrolls after termination of a coverage period, the standard monthly premium determined under § 408.20 is increased by ten percent for each full twelve months in the periods specified in §§ 408.24 and 408.25.

§ 408.24 Individuals who enrolled or reenrolled before April 1, 1981 or after September 30, 1981.

(a) *Enrollment.* For an individual who first enrolled before April 1, 1981 or after September 30, 1981, the period *includes* the number of months elapsed between the close of the individual's initial enrollment period and the close of the enrollment period in which he or she first enrolled, and *excludes* the following:

(1) The three months of January through March 1968, if the individual first enrolled before April 1968.

(2) Any months before January 1973 during which the individual was precluded from enrolling or reenrolling by the 3-year limitation on enrollment or reenrollment that was in effect before October 30, 1972.

(3) Any months in or before a period of coverage under a State buy-in agreement.

(4) For an individual under age 65, any month before his or her current continuous period of entitlement to hospital insurance.

(5) For an individual age 65 or older, any month before the month he or she attained age 65.

(6) For premiums due for months beginning with September 1984 and ending with May 1986, the following:

(i) Any months after December 1982 during which the individual was—

(A) Age 65 to 69;

(B) Entitled to hospital insurance (Medicare Part A); and

(C) Covered under an employer group health plan by reason of current employment in accordance with § 405.340 of this chapter.

(ii) Any months of SMI coverage for which the individual enrolled during a special enrollment period as provided in section 9319(c) of Pub. L. 99–509 and § 405.216 of this chapter.

(7) For premiums due for months beginning with June 1986, the following:

(i) Any months after December 1982 during which the individual was:

(A) Age 65 or over; and

(B) Covered, by reason of current employment, under an employer group health plan that meets the definition of § 162(i)(3) of the Internal Revenue Code of 1954.

(ii) Any months of SMI coverage for which the individual enrolled during a special enrollment period as provided in section 9319(c) of Pub. L. 99–509 and § 405.216 of this chapter.

(8) For premiums due for months beginning with January 1987, the following:

(i) Any months after December 1986 and before January 1992 during which the individual was:

(A) A disabled Medicare beneficiary under age 65;

(B) Not eligible for Medicare on the basis of end stage renal disease, under § 406.13 of this chapter; and

(C) Covered, as an employee, employer, individual associated in a business relationship with an employer, or family member of any of the foregoing, under an employer group health plan meeting the definition in § 5000(b) of the Internal Revenue Code of 1954.

(ii) Any months of SMI coverage for which the individual enrolled during a special enrollment period as provided in section 9319(c) of Pub. L. 99–509 and § 405.216 of this chapter.

(b) *Reenrollment.* For an individual who reenrolled before April 1, 1981 or after September 30, 1981, the period:

(1) *Includes* the following: (i) The number of months elapsed between the close of the individual's initial enrollment period and the close of the enrollment period in which he or she first enrolled; plus

(ii) The number of months elapsed between the individual's initial period of coverage and the close of the enrollment period in which he or she reenrolled; plus

(iii) The number of months elapsed between each subsequent period of coverage and the close of the enrollment period in which he or she reenrolled.

(2) *Excludes* the following:

(i) The periods specified in paragraphs (a)(1) through (a)(8) of this section; and

(ii) Any month before April 1981 during which the individual was precluded from reenrolling by the two-enrollment limitation in effect before that date.

§ 408.25 Individual who enrolled or reenrolled between April 1 and September 30, 1981.

(a) *Basic rules.* Except as specified in paragraph (b) of this section, the rules set forth in § 408.24 apply to an individual who enrolled or reenrolled between April 1 and September 30, 1981.

(b) *Exception.* For an individual who enrolled or reenrolled between April 1 and September 30, 1981, the months to be counted ran through the month in which he or she reenrolled. (During those 6 months, continuous open enrollment was in effect and there was no 3-month "general enrollment period".)

§ 408.26 Examples.

Example 1. Mr. J, who became age 65 and otherwise eligible for enrollment in November 1965, first enrolls in March 1968. The months to be included in determining the amount of the increase in Mr. J's premiums begin with June 1966 (the first month after the close of his initial enrollment period and extend through December 1967 (the period January through March of 1968 is excluded in determining the total months) for a total of 19 months. Since there is only one full 12-month period in 19 months, Mr. J's premiums will be 10 percent greater than if he had enrolled in his initial enrollment period.

Example 2. Mr. V, who enrolled in December 1965, voluntarily terminates his enrollment effective midnight December 31, 1967. He enrolls for a second time in January 1969. The months to be included in determining the amount of the increase in Mr. V's premiums are January 1968 through March 1969, a total of 15 months. Since this totals one full 12-month period. Mr. V's monthly premium, will be increased by 10 percent.

Example 3. Ms. N becomes age 65 in July 1965 and first enrolls in December 1967. She pays premiums increased by 10 percent above the regular rate, beginning July 1968, the first month of her SMI coverage. Ms. N fails to pay the premiums for the calendar quarter ending June 30, 1970, and her coverage is terminated on that date, the end of her grace period. Ms. N enrolls for a second time in January 1971. The months to be included in determining the amount of the increase in Ms. N's premiums are June 1968 through December 1967, a total of 19 months, and July 1970 through March 1971, a total of 9 months, for a grand total of 28 months. Since this totals two full 12-month periods, Ms. N's monthly premium will be increased by 20 percent.

Example 4. Mr. X attained age 65 in August 1966 and enrolled during his initial enrollment period. His coverage was terminated effective June 30, 1968, for nonpayment of premiums. He reenrolls in March 1973. For purposes of computing any applicable premium increase, he will not be charged any months between March 1971 (the end of the last general enrollment period during which he was eligible to reenroll under the law in effect before October 30, 1972) and January 1973. Therefore, he will be charged 36 months (July 1968–March 1971 plus January 1973–March 1973) and his premiums for his second period of coverage will be increased 30 percent.

Example 5. Ms. C, who attained age 65 in August 1973, had two periods of supplementary medical insurance coverage, both of which were terminated because of nonpayment of premiums: August 1973 through April 1975 and July 1977 through August 1978. She reenrolls in July 1981. The months to be included in determining the amount of premium increase are May 1975 through March 1977 (23 months) and April 1981 through July 1981 (4 months) for a total of 27 months. The 31 months from September 1978 through March 1981 may not be counted because Ms. C was prevented from reenrolling by the two-enrollment limitation in effect before April 1, 1981. For Ms. C, the standard monthly premium would be increased by 20 percent.

§ 408.27 Rounding the monthly premium.

Any monthly premium that is not multiple of 10 cents is rounded to the nearest multiple of 10 cents, and any odd mulitple of 5 cents is rounded to the next higher multiple of 10 cents.

Subpart C—Deduction from Monthly Benefits

§ 408.40 Deduction from monthly benefits: Basic rules.

(a) *Deduction from monthly benefits.* (1) Enrollees who are receiving monthly benefits do not have the option of paying by direct remittance to avoid deduction.

(2) If the enrollee is entitled to more than one type of monthly benefit, the order of priority for deduction is as follow:

(i) Railraod retirement benefits.

(ii) Social security benefits.

(iii) Civil service annuities.

(b) *Deduction from initial or reinstated benefits.* When an enrollee receives a monthly benefit check after an initial award or after a period of suspension, that check is, if administratively feasible, reduced or increased to deduct unpaid premiums or refund premiums paid in advance by direct remittance.

(c) *Ongoing deductions.* The premium for each month is deducted from the cash benefit for the preceding month, e.g., the premium for March is deducted from the benefit for February, which is paid at the beginning of March.

§ 408.42 Deduction from railroad retirement benefits.

(a) *Responsibility for deductions.* If an enrollee is entitled to railroad retirement benefits, his or her SMI premiums are deducted from those benefits by the Railroad Retirement Board (RRB) even though he or she is also entitled to social security benefits or a civil service annuity, or both.

(b) *Action when benefits are suspended.* If the railroad retirement benefits are suspended, the RRB sends premium notices requesting direct remittance, to be made in accordance with the rules set forth in Subpart D of this part.

§ 408.43 Deduction from social security benefits.

SSA, acting as HCFA's agent, deducts the premiums from the monthly social security benefits if the enrollee is not entitled to railroad retirement benefits. (If the benefit is less than the monthly premium, the benefit is withheld and the enrollee is required to pay the balance through direct remittance.)

§ 408.44 Deduction from civil service annuities.

(a) *Responsibility for deductions.* If an enrollee is not entitled to railroad retirement benefits or social security benefits, and is receiving a civil service annuity, the premiums are deducted from that annuity by the Office of Personnel Management (OPM) on the basis of a notice from SSA indicating that the annuitant is entitled to SMI.

(b) *Deduction of spouse's premiums.* If the annuitant's spouse is also enrolled for SMI and is not entitled to a civil service annuity or to social security or railroad retirement benefits, and the annuitant gives written consent, OPM also deducts the spouse's premium from the annuitant's monthly check.

(c) *Withdrawal of annuitant's consent.* (1) If an annuitant wishes to withdraw consent for deduction of the spouse's premium, he or she must send written notice of withdrawal to OPM.

(2) The withdrawal notice is effective with the third month after the month in which it is received, or with the month specified in the notice, whichever is later.

§ 408.45 Deduction from age 72 special payments.

(a) *Deduction of premiums.* SMI premiums are deducted from age 72 special payments made under section 228 of the Act or the payments are withheld under procedures that correspond to the rules set forth in §§ 408.40 and 408.43.

(b) *Collection of premiums while age 72 special payments are suspended.* If the age 72 special payments are suspended, HCFA or its agent notifies the enrollee to pay premiums by direct remittance, in accordance with the rules set forth in § 408.60.

(c) *Grace period.* The grace period ends with the last day of the third month after the billing month.

(d) *Resumption of age 72 special payments.* (1) If age 72 special payments are resumed before the end of the grace period and all premium arrears can be deducted from those special payments, SMI coverage continues and the enrollee need not pay by direct remittance.

(2) Subsequent special payments are reduced by the amount of the premium for as long as the enrollee receives special payments.

§ 408.46 Effect of suspension of social security benefits.

(a) *Benefit payments to be resumed during the taxable year.* (1) If social security benefit payments are scheduled to be resumed during the enrollee's current taxable year, the enrollee is not billed.

(2) The enrollee may, if he or she wishes, pay the premiums during suspension of benefits.

(b) *Benefit payments not to be resumed during the enrollee's current taxable year.* (1) If social security benefits are suspended for a period that will not permit collection of all premiums due from monthly benefits payable in the enrollee's current taxable year, HCFA or its agents bill the enrollee and require direct remittance in accordance with Subpart D of this part.

(2) The first billing is for whatever premiums are necessary to place the enrollee in a quarterly cycle.

(3) Thereafter, the billing is on a quarterly basis. (Quarters for different enrollees are staggered throughout the year.)

(4) The enrollee has the option of paying premiums for more than one quarter at the same time.

§ 408.47 Overdue premiums for months in a closed taxable year.

(a) *Reasons for overdue premiums.* An enrollee may have overdue

VOL 52 ISS 243 DEC 18 1987 UMI

VOL
52
ISS
243
DE
18
1987
UMI

premiums for a closed taxable year for either of the following reasons:

(1) The monthly social security benefits were suspended.

(2) The request for SMI enrollment was adjudicated with coverage retroactive to the enrollee's previous taxable year.

(b) *Payment of overdue premiums for a closed taxable year.* (1) If the premiums are overdue because of suspension of social security benefits—

(i) The enrollee is billed at the end of his or her taxable year; and

(ii) The grace period ends with the last day of the fourth month after the close of the enrollee's taxable year.

(2) If the premiums are overdue because SMI enrollment was adjudicated with retroactive coverage and cannot be collected from past due or current monthly benefits—

(i) The enrollee is billed immediately after adjudication; and

(ii) The grace period ends with the last day of the third month after the billing month.

(3) The bill indicates that, unless the arrears are paid by the last day of the grace period, coverage will end on that day.

(c) *Example.* Mr. H became entitled to supplementary medical insurance effective July 1980. He was entitled to monthly benefits, but reported work and earnings which precluded payment of those monthly benefits. Although billed, he paid no premium by direct remittance. Mr. H's taxable year ends May 31 because he reports his earnings for fiscal years ending on that date. Early in May 1981, Mr. H is notified of his unpaid premiums ($105.60) for the fiscal year ending May 31, 1981, and advised that those premiums are overdue and should be paid promptly. Without good cause, Mr. H fails to pay by September 30, 1981, despite the May notice advising him that the termination date is September 30. Mr. H's supplementary medical insurance coverage is terminated effective midnight September 30, 1981.

§ 408.50 When premiums are considered paid.

(a) *Actual deduction.* A premium is considered paid if it is actually deducted from a monthly benefit check. Therefore—

(1) The premium is "paid" even if SSA later finds that the benefit was paid in error; but

(2) A finding that a monthly benefit was erroneously withheld does not constitute payment of the premium for that month. Since there was no payment, there was no deduction. The enrollee is billed and continuance of coverage depends on payment of premiums before the end of the grace period or extended grace period.

(b) *Payment within the grace period.* Overdue premiums are considered paid within the grace period in the following situations:

(1) *Benefits are resumed during the grace period.* (i) Monthly cash benefit payments are payable for the last month of the initial grace period or for earlier months on the basis of a notice filed by the enrollee before the initial grace period ends; and

(ii) Those payments are sufficient to permit deduction of all overdue premiums.

(2) *Annual accounting report or other report submitted during the grace period shows a benefit is due.* (i) Before the end of the grace period, the enrollee submits a report clearly showing that monthly cash benefits, previously withheld, are payable for one or more months of a closed taxable year; and

(ii) Those benefits are sufficient to permit deduction of the full amount of the overdue premiums.

(3) Premium arrears are paid by direct remittance. The enrollee makes a direct remittance payment of all overdue premiums before the end of the grace period.

(c) *Examples.* (1) Mr. C, who became entitled to SMI in July 1978, was entitled to monthly social security benefits of $300. His premium rate was $8.20. He was paid $291.80 for each month from July to December 1978. In 1979, SSA determined that Mr. C's work and earnings in *1978* precluded any benefit payments for that year. Mr. C would not be found to owe any premiums for July through December 1978. He would, of course, have to refund the full $300 a month overpayment to SSA.

(2) (i) Ms. M also become entitled in July 1978. On the basis of Ms. M's report of work and earnings, her monthly benefits for July through December 1978 were withheld and SMI premiums could not be deducted. She was billed but made no premium payments during 1978. In January 1979, Ms. M is notified of the overdue premiums for her closed taxable year and of the fact that her SMI coverage will terminate April 30, 1979 unless the overdue premiums are paid by then. Ms. M's monthly benefits continue suspended and she fails to pay the premiums. Consequently, her SMI coverage is terminated as of April 30, 1979. In March 1980, Ms. M submits an annual report that she did not work in December 1978. A benefit for that month is paid subsequently.

(ii) If Ms. M had submitted the report of the benefit due before the end of the grace period (April 30, 1979), it would have permitted deduction of all her overdue premiums and continuation of SMI coverage. Because the report was not submitted before April 30, 1979, Ms. M's coverage cannot be reinstated.

§ 408.52 Change from direct remittance to deduction.

If a direct remittance enrollee becomes entitled to monthly benefits—

(a) The SMI premiums are deducted from those benefits; and

(b) The enrollee is notified of the deduction and of any adjustment of the initial benefit check that is required to collect overdue premiums or refund premiums paid in advance.

§ 408.53 Change from partial direct remittance to full deduction.

If a benefit that was less than the premium (and therefore required direct remittance of the difference) is increased to an amount equal to, or greater than, the premium—

(a) The full premium is paid from the benefit; and

(b) Any amounts the enrollee had paid toward premiums not yet due are refunded.

Subpart D—Direct Remittance: Individual Payment

§ 408.60 Direct remittance: Basic rules.

(a) Premiums not deducted from monthly benefits under Subpart C of this part or paid by a State buy-in agreement must be paid by direct remittance to HCFA or its agents, by or on behalf of the enrollee.

(b) Quarterly payment is preferred as more cost-effective, but monthly payment is accepted if the enrollee is unwilling or unable to make quarterly payments or is also paying hospital insurance premiums, which must be paid every month.

(c) HCFA, directly or through its agents, sends quarterly or monthly premium bills and includes an addressed return envelope with the bill.

(d) The individual must—

(1) Send a check or money order that is drawn payable to "HCFA Medicare Insurance" and show the enrollee's name and claim number as it appears on the Medicare card; and

(2) Return the bill with the check or money order in the preaddressed envelope.

§ 408.62 Initial and subsequent billings.

(a) *Monthly billing.* (1) The first premium bill is for the period from the first month of coverage (or the first month of change from deduction or State buy-in payment) through the end of the first month after the month of billing.

(2) Subsequent billings are for periods of one month.

(b) *Quarterly billing.* (1) The first premium bill is for the period from the first month of coverage (or of change from deduction or State buy-in payment) through the third month after the month of billing.

(2) Subsequent billings are for periods of three months.

§ 408.63 Billing procedures when monthly benefits are less than monthly premiums.

If monthly benefits are less than monthly premiums, the following procedures apply:

(a) *Notice of amount due.* At the beginning of SMI entitlement, and at the beginning of each succeeding calendar year, SSA—

(1) Notifies the enrollee of the amount of benefits payable for the rest of the year and the total premiums due for those same months; and

(2) Bills the enrollee for the difference.

(b) *Notice of amount overdue.* At the beginning of each succeeding calendar year, SSA—

(1) Notifies the enrollee of any amounts overdue for premiums for the preceding calendar year; and

(2) Indicates that if the amount still overdue on April 30 is equal to or greater than the premium for 3 months, SMI coverage will terminate on that date.

§ 408.65 Payment options.

(a) The enrollee is not asked to pay premiums at the time of enrollment but is instructed to pay them upon receipt of a premium bill from HCFA or its agents.

(b) However, if the enrollee wishes, he or she may pay from one to 12 months or from one to four quarters at the time of enrollment.

§ 408.68 When premiums are considered paid.

(a) *Payment by check.* The premium is considered paid if the check is paid by the bank the first or second time it is presented for payment.

(b) *Payment within the grace period.* (1) A premium is considered paid within the grace period if it is delivered personally, or mailed on or before the last day of that period.

(2) A premium payment is considered to have been mailed 7 days before it is received by HCFA.

§ 408.70 Change from quarterly to monthly payments.

If an enrollee requests change from quarterly to monthly payment—

(a) If the enrollee is paid up under the quarterly cycle, the first monthly bill is for one month.

(b) If the enrollee is not paid up under the quarter system, the first bill includes all premiums due.

§ 408.71 Change from deduction or State payment to direct remittance.

(a) *Basis for change.* An SMI enrollee is required to pay by direct remittance in any of the following circumstances:

(1) The enrollee's entitlement to social security or railroad retirement benefits ends for any reason other than death.

(2) The premiums can no longer be deducted from the civil service annuity of the enrollee or the enrollee's spouse.

(3) The enrollee no longer qualifies for coverage under a State buy-in agreement, and is not entitled to social security or railroad retirement monthly benefits.

(b) *Billing.* When any of the events specified in paragraph (a) of this section occurs (or as soon thereafter as possible), HCFA or its agents bill the enrollee for direct remittance, in accordance with this subpart.

Subpart E—Direct Remittance: Group Payment

§ 408.80 Basic rules.

(a) *Sources of group payment.* An employer, a lodge, union, or other organization may pay SMI premiums on behalf of one or more enrollees.

(b) *Informal arrangement.* Enrollees may turn over their premium notices to their employer, union, lodge, or other organization and that organization may send a single payment (with the premium notices attached so that the payments can readily be identified with the appropriate enrollees) to the HCFA Premium Collection Center. Prompt payment is essential since SMI coverage terminates if premiums are not paid by the end of the grace period.

(c) *Group billing arrangement.* HCFA may send a single notice for the premiums due from a group of enrollees if the following conditions are met:

(1) The group payer—

(i) Uses funds other than the enrollees' to pay all or a substantial part of the premiums; or

(ii) Deducts the premiums from periodic payments it makes to the enrollees in the group.

(2) The enrollee's rights are protected and enrollees are not required to pay the costs of having their premiums paid on a group basis.

§ 408.82 Conditions for group billing.

HCFA agrees to a group billing arrangement only if the following conditions are met:

(a) Conditions the group payer must meet. The group payer submits a written request for group billing—

(1) Showing that all or part of the payments are made from the payer's funds or from funds due the enrollees and in the payer's possession; and

(2) Agreeing not to charge the enrollees for the service of paying the premiums or for the administrative costs such as recordkeeping and postage.

(b) *Enrollees eligible for group payment.* (1) Group payment may be made only on behalf of individuals who are already enrolled and are being billed for direct remittance.

(2) Group payment may not be made for enrollees whose premiums are being deducted from monthly benefits in accordance with Subpart C of this part or being paid by the State under a buy-in agreement.

(c) *Protection of enrollee's rights.* The use of group billing must not jeopardize the enrollees' right—

(1) To confidentiality of personal information;

(2) To terminate enrollment;

(3) To resume individual payment of premiums if he or she wishes; and

(4) To receive notice of any action that affects the SMI benefits.

(d) *Authorization by the enrollee.* (1) To ensure maximum feasible protection of the rights specified in paragraph (c) of this section, each enrollee must give written authorization as specified in § 408.84(a)(2).

(2) A group payer that is not an entity of State or local government must submit all enrollee authorizations to HCFA.

(3) A group payer that is an entity of State or local government may retain the authorizations and certify to HCFA that it has on file an authorization for each enrollee included in the group.

(4) It is on the basis of the enrollee's authorization that HCFA sends the group payer information about each enrollee, as necessary to carry out the group payment function.

(e) *Size of group.* The number of enrollees must be at least 20, which is the minimum size sufficient to make group billing efficient. (Smaller groups may use the informal procedure described in § 408.80(b).)

§ 408.84 Billing and payment procedures.

(a) *Initial premium notice.* (1) HCFA or its agent always sends the initial premium notice to the enrollee.

(2) An enrollee who wishes to have the premiums paid on a group basis must give the notice to the group payer, along with written authorization for sending subsequent notices to the group payer and for release of the information required for the group payment process.

(b) *Monthly billings.* Group premiums are billed on a monthly basis. However, the group payer may pay up to 12 months in advance.

(c) Group payers must make their payments within 30 days after billing, to avoid infringing on the 90-day grace period during which the premiums may be paid by the enrollee if he or she is dropped from the group.

(d) *Effect of group payment.* Payment by a group payer is considered payment by the enrollee.

§ 408.86 Responsibilities under group billing arrangement.

(a) *Enrollee responsibilities.* (1) The enrollee is still responsible for premium payments; the group payer simply acts as his agent. If the agent fails to pay, or identifies the payment incorrectly, SSA notifies both the agent and the enrollee that the enrollee's account is delinquent. If an enrollee fails to take action on that notice, entitlement is terminated for nonpayment of premiums.

(2) The enrollee must promptly notify both SSA and the group payer of any change of address.

(b) *Group payer's responsibilities.* The group payer must—

(1) Make premium payments promptly upon receipt of notices;

(2) Promptly notify both HCFA and the enrollee when it drops an enrollee from the group;

(3) Make payments in a way that facilitates efficient and economical processing; and

(4) Maintain the confidentiality of the personal information obtained from HCFA for the group payment process.

(c) *HCFA responsibilities.* HCFA—

(1) Sends the bill to the group payer upon authorization from the enrollee;

(2) Notifies both the payer and the enrollee if the payer fails to make timely payments; and

(3) Refunds excess premiums in accordance with § 408.88.

§ 408.88 Refund of group payments.

(a) *Basis for refund.* Group payments are refunded only in the following circumstances:

(1) The premium was for a month after the month in which the enrollee's SMI coverage terminated or the enrollee died.

(2) The premium was for a month after the month in which the group payer gave notice (before the 26th day of that month) that the enrollee was no longer eligible for group payment and was being dropped from the group.

(b) *Example.* F is the wife of J who is a retiree of Corporation X. That corporation pays premiums on behalf of all of its retirees and their dependents. F obtains a divorce from J on October 20 and thus disqualifies herself for further premium payments by the corporation. The corporation gives notice on November 10 that a refund is due because F has been dropped from the list of persons for whom it has agreed to pay premiums. The premium paid for December would be refunded to the group payer.

(c) *To whom refund is made.* (1) HCFA ordinarily refunds to the group payer the premiums specified in paragraph (a) of this section.

(2) However, if HCFA has information that clearly shows those premiums were paid from the enrollee's funds, it sends the refund to the enrollee.

§ 408.90 Termination of group billing arrangement.

(a) A group billing arrangement may be terminated either by the group payer or by HCFA upon 30 days' notice.

(b) HCFA may terminate the arrangement if it finds that the group payer is not acting in the best interest of the enrollees or that, for any other reason, the arrangement has proved inconvenient for HCFA.

§ 408.92 Change from group payment to deduction or individual payment.

(a) *Enrollee excluded from group payment arrangement because of entitlement to monthly benefits.* (1) When an enrollee becomes entitled to monthly benefits from which premiums can be deducted as specified in Subpart C of this part. HCFA notifies the group payer to discontinue payment for that enrollee.

(2) In order to maintain confidentiality, HCFA does not explain to the group payer the reason for excluding the enrollee from the group payment arrangement.

(3) the enrollee's premiums are thereafter deducted from the monthly benefits, in accordance with Subpart C of this part.

(b) *Enrollee no longer eligible for the group.* (1) When an enrollee is no longer eligible to be included in the group (for instance because he or she is no longer employed by the group payer or has terminated union or lodge membership), the group payer must promptly notify HCFA and the enrollee.

(2) HCFA or its agents resume sending individual bills to the enrollee, for direct remittance subject to the grace period and termination dates specified in § 408.8.

Subpart F—Termination and Reinstatement of Coverage

§ 408.100 Termination of coverage for nonpayment of premiums.

(a) *Effective date of termination.* Termination is effective on the last day of the grace period. The determination is not made until 15 days after that day to allow for processing of remittances mailed late in the grace period, as provided in § 408.68.

(b) *Notice of termination.* (1) SSA sends the enrollee notice of termination between 15 and 30 days after the end of the grace period and includes information regarding the enrollee's right of appeal.

(2) HCFA notifies any intermediary or carrier that had previously been informed that the enrollee had met the SMI deductible for the year in which the termination is effective.

§ 408.102 Reconsideration of termination.

(a) *Basic rules.* Coverage may be reinstated without interruption of benefits if the following conditions are met:

(1) the enrollee appeals the termination by the end of the month following the month in which SSA sent the notice of termination.

(2) The enrollee alleges and it is found that the enrollee did not receive timely and adequate notice that the premiums were overdue.

(3) The enrollee pays, within 30 days after SSA's subsequent request for payment, all premiums due through the month in which he or she appealed the termination.

(b) *Basis for reinstating coverage.* coverage may be reinstated if the evidence establishes one of the following:

(1) The enrollee acted diligently to pay the premiums or to request relief upon receiving a premium notice very late in the grace period or shortly after its end. and the delayed notice was not the enrollee's fault. (For example, if the billing notice was misaddressed or lost in the mail, it would not be the enrollee's fault; if the enrollee had moved and not notified SSA of the new address, he or she would be responsible for the delay.)

(2) On the basis of information given by SSA, the enrollee could reasonably have believed that the premiums were being paid by deduction from benefits or by some other means. (An example would be a notice indicating that premiums would be paid by a State Medicaid agency or a group payer or would be deducted from the spouse's civil service annuity.)

(c) *No basis for reinstating coverage.* Coverage may not be reinstated if the enrollee—

(1) Received timely and adequate notice but failed to pay within the grace period, for example because of insufficient income or resources; or

(2) Appealed the termination more than one month after the month in which SSA sent the termination notice.

§ 408.104 Reinstatement procedures.

(a) *Request for payment.* If the conditions of § 408.102(a) (1) and (2) are met, SSA sends written notice requesting the enrollee to pay, within 30 days, all premiums due through the month in which the enrollee appealed the termination.

(b) *Reinstatement of coverage.* If SSA receives the requested payment within 30 days, it sets aside the termination and reinstates the enrollee's coverage without interruption.

Subpart G—Collection of Unpaid Premiums; Refund of Excess Premiums After the Death of the Enrollee

§ 408.110 Collection of unpaid premiums.

(a) *Basis and scope.*—(1) *Basis.* Under the Federal Claims Collection Act of 1966 (31 U.S.C. 3711), HCFA is required to collect any debts due it but is authorized to suspend or terminate collection action on debts of less than $20,000 when certain conditions are met. (See 4 CFR, Parts 101–105 for general rules implementing the Federal Claims Collection Act.) As indicated in § 408.4, unpaid premiums are debts owed the Federal Government by the enrollee or the enrollee's estate.

(2) *Scope.* This section sets forth the methods of collection used by HCFA and the circumstances under which HCFA terminates or renews collection action. The regulations in this section apply to hospital insurance premiums as well as SMI premiums.

(b) *Collection of unpaid premiums.* Generally, HCFA will attempt to collect unpaid premiums by one of the following methods:

(1) By billing enrollees who pay the premiums directly to HCFA or to a designated agent in accordance with § 408.60.

(2) By deduction from any benefits payable to the enrollee or the estate of a deceased enrollee under Title II or XVIII of the Social Security Act, the Railroad Retirement Act or any act administered by the Office of Personnel Management in accordance with § 408.4(b) and Subpart C of this part (Deduction from Monthly Benefits); or

(3) By billing the estate of a deceased enrollee.

(c) *Termination of collection action.* HCFA terminates collection action on unpaid premiums under either of the following circumstances, if the cost of collection exceeds the amount of overdue premiums:

(1) The individual is not entitled to benefits under the Acts listed in paragraph (b)(2) of this section, is not currently enrolled for SMI or premium hospital insurance, and demonstrates, to HCFA's satisfaction, that he or she is unable to pay the debt within a reasonable time.

(2) The individual has been dead more than 27 months (the maximum time allowed for claiming SMI benefits), and the legal representative of his or her estate demonstrates, to HCFA's satisfaction, that the estate is unable to pay the debt within a reasonable time.

(d) *Renewal of collection efforts.* HCFA renews collection efforts in either of the following circumstances, if the cost of collection does not exceed the amount of the overdue premiums:

(1) The individual enrolls again for premium hospital insurance or SMI. (Payment of overdue premiums is not a prerequisite for reenrollment.)

(2) The individual becomes entitled or reentitled to social security or railroad retirement benefits or a Federal civil service annuity.

§ 408.112 Refund of excess premiums after the enrollee dies.

If HCFA has received premiums for months after the enrollee's death, HCFA refunds those premiums as follows:

(a) To the person or persons who paid the premiums or, if the premiums were paid by the enrollee, to the representative of the enrollee's estate, if any.

(b) If refund cannot be made under paragraph (a) of this section, HCFA refunds the premiums to the enrollee's survivors in the following order of priority:

(1) The surviving spouse, if he or she was either living in the same household with the deceased at the time of death, or was, for the month of death, entitled to monthly social security or railroad retirement benefits on the basis of the same earnings record as the decreased beneficiary;

(2) The child or children who were, for the month of death, entitled to monthly social security or railroad retirement benefits on the basis of the same earnings record as the deceased (and, if there is more than one child, in equal parts to each child);

(3) The parent or parents who were, for the month of death, entitled to monthly social security or railroad retirement benefits on the basis of the same earnings record as the deceased (and, if there is more than one parent, in equal parts to each parent);

(4) The surviving spouse who was not living in the same household with the deceased at the time of death and was not, for the month of death, entitled to monthly social security or railroad retirement benefits on the basis of the same earnings record as the deceased beneficiary;

(5) The child or children who were not entitled to monthly social security or railroad retirement benefits on the basis of the same earnings record as the deceased (and, if there is more than one child, in equal parts to each child);

(6) The parent or parents who were not entitled to monthly social security or railroad retirement benefits on the basis of the same earnings record as the deceased (and, if there is more than one parent, in equal parts to each parent).

If none of the listed relatives survives, no refund can be made.

C. Technical amendments.

§ 401.601 [Amended]

1. In § 401.601(d)(2)(iv), reference to "§ 405.962" is changed to "§ 408.110".

§ 405.212 [Amended]

2. In § 405.212(e), "(see § 405.902)" is changed to "under Subpart B of Part 408 of this chapter,".

§ 405.223 [Amended]

3. In § 405.223(b), "Subpart I of this part." is changed to "Part 408 of this chapter.".

§ 405.226 [Amended]

4. In § 405.226, the phrase "Subpart I of this part," is changed to "Part 408 of this chapter.".

§ 405.705 [Amended]

5. In § 405.705(d), "405.962" is changed to "408.110".

BILLING CODE 4120-01-M

VOL 52 ISS 243 DEC 18 1987 UMI

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

43 CFR Part 3560

[AA-650-08-4133-02-2410; Circular No. 2507]

Hardrock Minerals; Final Action To Correct Latent Ambiguity

AGENCY: Bureau of Land Management, Interior.

ACTION: Final action to correct latent ambiguity.

SUMMARY: The Bureau of Land Management has become aware of the existence of a latent ambiguity in the renewal terms applicable to a limited number of hardrock leases issued by the Bureau after October 9, 1964, on Lease Form 4–1100 (dated September 1962). In an effort to resolve the problems caused by this ambiguity, the Bureau will offer to give the holders of the affected hardrock leases an opportunity to elect to obtain a one-time renewal of the lease term identical to that of the term granted in the original lease, 20 years, with all subsequent renewals to be for a term of ten years, the requirement in the existing hardrock leasing regulations. This one-time renewal will be in lieu of the renewal for a term of 10 years applicable to other hardrock leases (43 CFR 3561.3).

EFFECTIVE DATE: January 19, 1988.

ADDRESS: Any inquiries or suggestions should be sent to: Director (650), Bureau of Land Management, Room 3610, Main Interior Bldg., 1800 C Street, NW., Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: Mary Linda Ponticelli, (202) 343–3258.

SUPPLEMENTARY INFORMATION: A proposed action to correct the latent ambiguity in a small number of hardrock leases was published in the **Federal Register** on August 21, 1987 (52 FR 31643), with a 30-day comment period. One comment was received and it expressed support for the action.

For hardrock leases issued prior to October 9, 1964, the then current regulations provided for a lease term of 5 or 10 years with a right to renew the lease "for successive periods of like duration." (43 CFR 200.37(f)). The language providing for renewal "for successive periods of like duration" was included in Lease Form 4–1100 (dated September 1962). In 1963, 43 CFR 200.37(f) was rewritten and renumbered as 43 CFR 3221.4(f). In October 1964, 43 CFR 3221.4(f) was amended to provide for an initial lease term not to exceed 20 years for hardrock leases, with renewals to be for a term not to exceed 10 years.

An ambiguity arose when the Bureau of Land Management issued approximately 7 hardrock leases after the effective date of the October 1964 amendment to 43 CFR 3221.4(f) using Lease Form 4–1100 (dated September 1962), which Form continued to use for renewal purposes the language "for successive periods of like duration in accordance with regulation 43 CFR 200.37(f)." This language appeared to grant a lessee the right to renew a lease for a period of 20 years, the initial term of hardrock leases granted after the October 1964 revision of the hardrock leasing regulations. Later versions of Lease Form 4–1100 corrected the language relating to the renewal term to bring it into compliance with the provisions of 43 CFR 3221.4(f), as amended, making it clear that the renewal of a hardrock lease could be for a term not to exceed 10 years. Currently, the renewal limitation on hardrock leases is contained in 43 CFR 3561.3.

When this final action becomes effective, the holders of the seven or so leases that are affected by this ambiguity will be given the opportunity to request that their leases be renewed once for a period of 20 years, rather than the 10 years required by 43 CFR 3561.3 of the existing regulations, with all subsequent renewals to be for the term required by the existing regulations. Therefore, the holders of these seven or so hardrock leases should, if they desire an initial renewal term of 20 years, file a request with the appropriate State Office of the Bureau of Land Management, citing this Action document and requesting a renewal of their hardrock lease for a 20-year term.

The principal author of this final action document is Mary Linda Ponticelli, Division of Solid Mineral Leasing, Bureau of Land Management, assisted by the staff of the Division of Legislation and Regulatory Management, Bureau of Land Management, and the staff of the Office of the Solicitor, Department of the Interior.

The Department of the Interior has determined that this document is not a major rule under Executive Order 12291 and that it will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.).

This action document will directly affect only approximately seven hardrock leases. The effect of the action will be equally applicable to all of the affected leases, regardless of the size of the entity holding them.

There are no information collection requirements contained in this Action document requiring the approval of the Office of Management and Budget under 44 U.S.C. 3507.

List of Subjects 43 CFR Part 3560

Government contracts, Mineral royalties, Public lands—mineral resources, Surety bonds.

This final action is carried out under the authority of Mineral Leasing Act of 1920, as amended and supplemented (30 U.S.C. 181 et seq.), including the Act of February 7, 1927 (30 U.S.C. 281–287); the Mineral Leasing Act for Acquired Lands of 1947, as amended (30 U.S.C. 351–359); section 402 of Reorganization Plan No. 3 of 1946 (5 U.S.C. Appendix) as it relates to the Act of March 4, 1917 (16 U.S.C. 520); Title II of the National Industrial Recovery Act of June 16, 1933 (40 U.S.C. 401, 403(a) and 406); the 1935 Emergency Relief Appropriations Act of April 8, 1935 (48 Stat. 115, 118); section 55 of Title I of the Act of August 24, 1935 (49 Stat. 750, 781); the Act of July 22, 1937 (50 Stat. 522, 525, 530), as amended by the Act of July 28, 1942 (7 U.S.C. 1011(c), 1018) and section 3 of the Act of June 28, 1952 (66 Stat. 285); section 3 of the Act of September 1, 1949 (30 U.S.C. 192c); the Act of June 30, 1950 (16 U.S.C. 508(b)); the Act of June 8, 1926 (30 U.S.C. 291–293); the Act of March 3, 1933 (47 Stat. 1487), as amended by the Act of June 5, 1936 (49 Stat. 1482) and the Act of June 29, 1936 (49 Stat. 2026); section 10 of the Act of August 4, 1939 (43 U.S.C. 387) as it relates to the Act of October 8, 1964 (16 U.S.C. 460n et seq.); the Act of November 8, 1965 (16 U.S.C. 460q et seq.); the Act of October 1, 1968 (16 U.S.C. 90c et seq.); the Act of October 17, 1972 (16 U.S.C. 460dd et seq); section 6 of the Act of November 8, 1965 (16 U.S.C. 460q et seq.) as it relates to section 3 of the Act of September 1, 1949 (30 U.S.C. 192(c)); sections 403, 404, and 1312 of the Alaska National Interest Lands Conservation Act (16 U.S.C. 460mm–4) as it relates to section 10 of the Act of August 4, 1939, as amended (43 U.S.C. 387); the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.); and the Independent Offices Appropriation Act (31 U.S.C. 9701).

J. Steven Griles,

Assistant Secretary of the Interior.

Proposed Rules

Federal Register

Vol. 52, No. 243

Friday, December 18, 1987

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

SECURITIES AND EXCHANGE COMMISSION

17 CFR Part 240

[Release No. 34–25192; File No. S7–25–87]

Multiple Trading of Options

AGENCY: Securities and Exchange Commission.

ACTION: Rescheduling of date of public hearing; extension of time for comment and for requests to appear at the hearing; and request for additional comment.

SUMMARY: The Securities and Exchange Commission ("Commission") announced today that the public hearing on multiple trading of options, previously scheduled to take place on November 23, 1987 has been rescheduled for February 11, 1988. The Commission is extending until January 25, 1988, the date by which those interested in testifying at the public hearing should notify the Commission; until February 1, 1988, the date by which written testimony is due; and until February 11, 1988, the date for the submission of all other comments. Finally, the Commission is seeking additional comment on certain issues related to the proceeding.

DATES: The public hearing will be held on February 11, 1988, at 9:30 a.m. Requests to appear at the public hearing should be received by January 25, 1988. Those scheduled to appear at the hearing must submit an original and ten copies of their written statements by February 1, 1988. All other written comments must be received by February 29, 1988, and must be submitted in triplicate.

ADDRESSES: The public hearing will be held in Room 1C30 at the Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Those wishing to appear at the hearing should contact Holly H. Smith, Esq., (202) 272–2406, Special Counsel, Division of Market Regulation, Mail Stop 5–1, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549, and should send copies of their written testimony to her. All other written comments should refer to File No. S7–25–87 and be addressed to Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Copies of all written submissions and the transcript of the public hearing will be available at the Commission's Public Reference Room, at the above address, in File No. S7–25–87.

FOR FURTHER INFORMATION CONTACT: Holly H. Smith, Esq., (202) 272–2406, Special Counsel, Division of Market Regulation, Securities and Exchange Commission, Mail Stop 5–1, 450 Fifth Street NW., Washington, DC 20549.

SUPPLEMENTARY INFORMATION: On June 18, 1987, the Commission issued a release commencing a proceeding on the multiple trading of options to consider whether to: (1) Adopt a policy permitting the multiple trading of options on exchange-listed stocks; and/or (2) amend the rules of the options exchanges to remove restrictions on the multiple trading of options.[1] A public hearing in connection with the proceeding was scheduled to take place on November 23, 1987.[2] On November 13, 1987, however, the Commission issued an order postponing the hearing until February 1988 in order that interested parties would have additional time to develop their testimony and prepare written comments.[3] The Commission has now set February 11, 1988 as the hearing date.

Request for Additional Comment: By letter, dated October 16, 1987, eight members of the U.S. House of Representatives Committee on Energy and Commerce requested that the Commission consider a variety of issues in connection with its proceeding on the multiple trading of options.[4] In particular, the House Letter requests that the Commission consider: (1) The impact of multiple trading on the regional exchanges; (2) the costs of establishing duplicative trading facilitics in various markets; and (3) the competitive cost of diverting the resources of the U.S. securities exchanges into inter-exchange competition and away from meeting competition from foreign markets. The Commission requests that commentators specifically address these and other issues raised in the House Letter.

By the Commission.

Dated: December 14, 1987.

Jonathan G. Katz,

Secretary.

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 935

Ohio; Proposed Regulatory Program Amendment; Performance Bonds

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSMRE), Interior.

ACTION: Proposed rule.

SUMMARY: OSMRE is announcing receipt of a proposed amendment package submitted by Ohio as a modification to the State's permanent regulatory program (hereinafter referred to as the Ohio program) under the Surface Mining control and Reclamation Act of 1977 (SMCRA).

The amendments submitted consist of proposed changes to make discretionary, rather than mandatory, the denial of a permit by the Chief of the Ohio Department of Natural Resources, Division of Reclamation (the Chief) if the applicant has ever forfeited a coal or surface mining bond or security; to

See also Securities Exchange Act Release No. 24931 (September 21, 1987), 52 FR 36045, in which the Commission requested comment on a letter from Senator Alan Cranston, *et al.*, U.S. Senate, Committee on Banking, Housing, and Urban Affairs, to David S. Ruder, Chairman, Commission, dated August 19, 1987 ("Senate Letter"). The Senate Letter has also been placed in File No. S7–25–87 in the Commission's Public Reference Room.

VOL 52 ISS 243 DEC 18 1987 UMI

create a coal mining performance bond fund; to enable the Chief to execute reclamation performance bonds as a surety for coal mine operators under the performance bond fund; and to allow a Phase II bond release to be made for all or part of the area affected under a permit.

This notice sets forth the times and locations that the Ohio program proposed amendments will be available for public inspection, the comment period during which interested persons may submit written comments on the proposed amendments, and the procedures that will be followed for the public hearing, if one is requested.

DATES: Written comments must be received on or before 4:00 p.m. January 19, 1988; if requested, a public hearing on the proposed amendment is scheduled for 1:00 p.m. on January 12, 1988; and requests to present oral testimony at the hearing must be received on or before 4:00 p.m. January 4, 1988.

ADDRESSES: Written comments and requests to testify at the hearing should be directed to Ms. Nina Rose Hatfield, Director, Columbus Field Office, Office of Surface Mining Reclamation and Enforcement, Room 202, 2242 South Hamilton Road, Columbus, OH 43232; Telephone (614) 866–0578. If a hearing is requested, it will be held at the same address.

Copies of the Ohio program, the amendment, a listing of any scheduled public meeting, and all written comments received in response to this notice will be available for public review at the following locations, during normal business hours Monday through Friday, excluding holidays:

Office of Surface Mining Reclamation and Enforcement, Room 5131, 1100 L Street, NW., Washington, DC 20240.

Office of Surface Mining Reclamation and Enforcement, Eastern Field Operations, Ten Parkway Center, Pittsburgh, PA 15220.

Office of Surface Mining Reclamation and Enforcement, Columbus Field Office, 2242 South Hamilton Road, Columbus, OH 43232.

Ohio Division of Reclamation, Fountain Square, Building B–3, Columbus, OH 43224.

Each requester may receive, free of charge, one single copy of the proposed amendment by contacting the OSMRE Columbus Field Office.

FOR FURTHER INFORMATION CONTACT: Ms. Nina Rose Hatfield (Director), (614) 866–0578.

SUPPLEMENTARY INFORMATION:

I. Background on the Ohio Program

On August 16, 1982, the Ohio program was made effective by the conditional approval of the Secretary of the Interior. Information pertinent to the general background, revision, modifications, and amendements to the Ohio program submission, as well as the Secretary's findings, the disposition of comments, and a detailed explanation of the conditions of approval of the Ohio program can be found in the August 10, 1982 **Federal Register** (47 FR 34688). Subsequent actions concerning the conditions of approval and program amendments are identified at 30 CFR 935.11, 935.12, 935.15, and 935.16.

II. Discussion of the Proposed Amendments

By letter dated November 16, 1987 (Administration Record No. OH–0994), the Ohio Department of Natural Resources, Division of Reclamation (ODNR) submitted proposed amendments to the Ohio program at Ohio Revised Code (ORC) section 1513.07, 1513.08, and 1513.16; a new ORC section 1513.081; and a new corresponding rule at Ohio Administrative Code (OAC) section 1501:13-7-09. The proposed changes are briefly summarized below:

The proposed amendment would modify ORC section 1513.07(E)(5) to delete the mandatory denial of a permit by the Chief if the applicant, any partner of the applicant, or any principal officer or shareholder if the applicant is a corporation, has ever failed to comply with ORC Chapter 1513 or has ever forfeited a coal or surface mining bond or security.

ORC section 1513.07(E)(6) would be modified to give the Chief discretionary authority to deny a permit for the reasons deleted from ORC 1513.07(E)(5). Clarification would also be provided of what interests constitute ownership or control of a business entity.

ORC section 1513.08(B) would be modified to allow an operator to obtain a performance bond from the newly created coal mining performance bond fund if authorized by the Chief.

A new section ORC 1513.081 would be created which establishes the coal mining performance bond fund from which the Chief may execute nontransferable surety bonds for coal mining operations not subject to any existing cessation orders. The fund would be supported by a one-time, nonrefundable permium of one thousand dollars paid by the operator for each performance bond and by a tonnage fee of fifty cents per ton of coal mined from the area covered by the bond. Upon release of the bond, operators would receive a refund of the fifty-cent coal tonnage fees paid by the operator for the bonded permit less twelve percent. In the event of bond forefeiture, the Chief may transfer up to two thousand five hunderd dollars per acre from the coal mining performance bond fund to the reclamation forefeiture fund created by ORC section 1513.18(A). Provisions are also included in ORC section 1513.081 for the monthly payment of tonnage fees by the operator and for the issuance of cessation orders by the Chief for nonpayment of fees.

ORC section 1513.16(F)(3)(b) would be modified to allow the Chief to grant a release of performance bonds for all or part of the area affected under a permit.

A new OAC section 1501:13–7–09 would be created reiterating the changes of ORC sections 1513.07(E)(5) and (E)(6), 1513.08(B), 1513.081, and 1513.16(F)(3)(b). OAC section 1501:13–7–09 would also additionally describe permitted areas eligible for bonding, procedures for submission of performance bond applications, criteria for denial of bond applications by the Chief, payment of monthly tonnage fees, replacement of bonds by an operator, and release of bonds by the Chief.

The full text of the proposed program amendments submitted by Ohio is available for public inspection at the addresses listed above. The Director now seeks public comment on whether the proposed amendments are no less effective than the Federal regulations. If approved, the amendments will become part of the Ohio program.

III. Public Comment Procedures

In accordance with the provisions of 30 CFR 732.17, OSMRE is now seeking comment on whether the amendments proposed by ODNR satisfy the requirements of 30 CFR 732.15 for approval of State program amendments. If the amendments are deemed adequate, they will become part of the Ohio program.

Written Comments

Written comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanation in support of the commenter's recommendations. Comments received after the time indicated under **"DATES"** or at locations other than the Columbus Field Office will not necessarily be considered in the final rulemaking or included in the Administrative Record.

Public Hearing

Persons wishing to comment at the public hearing should contact the person listed under **"FOR FURTHER INFORMATION CONTACT"** by the close of business on January 4, 1988. If no one requests an opportunity to comment at a public hearing, the hearing will not be held.

Filing of a written statement at the time of the hearing is requested as it will greatly assist the transcriber. Submission of written statements in advance of the hearing will allow OSMRE officials to prepare adequate responses and appropriate questions.

The public hearing will continue on the specified date until all persons scheduled to comment have been heard. Persons in the audience who have not been scheduled to comment and who wish to do so will be heard following those scheduled. The hearing will end after all persons scheduled to comment and persons present in the audience who wish to comment have been heard.

If only one person requests an opportunity to comment at a hearing, a public meeting, rather than a public hearing, may be held. A summary of the meeting will be included in the Administrative Record.

Public Meeting

Persons wishing to meet with OSMRE representatives to discuss the proposed amendment may request a meeting at the Columbus Field Office by contacting the person listed under **"FOR FURTHER INFORMATION CONTACT."** All such meetings will be open to the public and, if possible, notices of meetings will be posted in advance in the Administrative Record. A written summary of each public meeting will be made a part of the Administrative Record.

IV. Procedural Determinations

1. *Compliance with the National Environmental Policy Act:* The Secretary has determined that, pursuant to section 702(d) of SMCRA, 30 U.S.C. 1292(d), no environmental impact statement need be prepared on this rulemaking.

2. *Executive Order No. 12291 and the Regulatory Flexibility Act:* On August 28, 1981, the Office of Management and Budget (OMB) granted OSMRE an exemption from sections 3, 4, 7, and 8 of Executive Order 12291 for actions directly related to approval or conditional approval of State regulatory programs. Therefore, for this action OSMRE is exempt from requirement to prepare a Regulatory Impact Analysis, and regulatory review by OMB is not required.

The Department of the Interior has determined that this rule would not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This rule would not impose any new requirements; rather, it would ensure that existing requirements established by SMCRA and the Federal rules would be met by the State.

3. *Paperwork Reduction Act:* This rule does not contain information collection requirements which require approval by OMB under 44 U.S.C. 3507.

List of Subjects in 30 CFR Part 935:

Coal mining, Intergovernmental relations, Surface mining, Underground mining.

Date: December 7, 1987.

Carl C. Close,

Assistant Director, Eastern Field Operations.

BILLING CODE 4310–05–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Care Financing Administration

42 CFR Parts 409, 410, 416, 421, 441, and 489

[BERC-245-P]

Miscellaneous Medicare and Medicaid Amendments

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Proposed rule.

SUMMARY: This proposal would amend regulations pertaining to the following matters:

1. Listing of Medicare Part A deductible and coinsurance amounts.
2. Limits on amounts of antigens covered under Medicare Part B.
3. Requirement for certain equipment in ambulatory surgical centers (ASCs).
4. Agreements with intermediaries and carriers and coordination with PROs.
5. Federal financial participation in State expenditures for skilled nursing facility services furnished to individuals under age 21.
6. Bases for denying a provider agreement.

The amendments are necessary to implement a change in the Medicare law, to reflect the revision of the Bankruptcy Code, to correct an unintentional omission, and to simplify or update other regulations.

DATE: To ensure consideration, comments must be mailed or delivered to one of the addresses specified below and must be received by 5 p.m. on February 16, 1988.

ADDRESSES: Mail comments to the following address: Health Care Financing Administration, Department of Health and Human Services, Attention: P.O. Box 26676, Baltimore, Maryland 21207.

If you prefer, you may deliver your comments to one of the following addresses:

Room 309–G, Hubert H. Humphrey Building, 200 Independence Ave. SW., Washington, DC, or

Room 132, East High Rise Building, 6325 Security Boulevard, Baltimore, Maryland.

In commenting, please refer to file code BERC–245–P. Comments will be available for public inspection as they are received, beginning approximately three weeks from today, in Room 309–G of the Department's offices at 200 Independence Ave., SW., Washington, DC, on Monday through Friday of each week from 8:30 a.m. to 5:00 p.m. (phone: 202–245–7890).

FOR FURTHER INFORMATION CONTACT:

Stanley Katz, (301) 594–8561, for changes that pertain to ASCs.

Luisa V. Iglesias, (202) 245–0383, for all other changes.

SUPPLEMENTARY INFORMATION: The specific amendments and the reasons for proposing them are discussed below:

A. Amounts of Hospital Insurance Deductible and Coinsurance

1. Current Regulations

Current rules pertaining to Medicare Part A deductibles and coinsurance include tables showing the amunts from the beginning of the program through 1983. Deductible and coinsurance amounts are determined each year in accordance with formulas prescribed by the Medicare statute. The amounts for each calendar year are published in the **Federal Register** no later than October 1 of the preceding year. We have determined that updating the rules to reflect each change is unnecessary because the following practices ensure that all concerned are promptly informed:

- Many newspapers and most publications aimed at retired persons pick up the information and reprint it.
- With the OASDI check mailed December 3 or January 3, SSA includes a stuffer prepared by HCFA.
- "Direct deposit" beneficiaries whose checks are mailed directly to their banks or other financial institutions are notified separately.
- Bills for premiums have the information printed on the bills, and beneficiaries whose SMI premiums are paid by third parties (employer, lodge, etc.) are also separately notified.

VOL 52 ISS 243 DEC 18 1987 UMI

• The information goes to the Railroad Retirement Board so they can notify their beneficiaries.

2. Proposed Changes

We would revise §§ 409.82, 409.83, and 409.85 to remove the tables and clarify that the amounts are published in the Federal Register for each calendar year no later than October 1 of the preceding year.

B. Limits on Amounts of Antigens

1. Current Regulations

Current regulations do not provide for antigens as a separate service because, before enactment of section 1861(s)(2)(G) of the Medicare statute, antigens were covered only as "incident to" a physician's services.

2. Legislative Change

Section 938 of Pub. L. 98–499 amended the definition of medical and other health services to include an antigen administered by a qualified person other than the physician who prepares the antigen "subject to quantity limitations prescribed in regulations by the Secretary".

3. Amendment to the Regulations

We would amend Part 410 of the Medicare rules to add a § 410.64 to set forth the conditions under which Medicare Part B pays for antigens. On the basis of consultation with allergists, we propose to limit the amount to be prepared at one time, for administration by a qualified person other than the physician who prepares the antigen, to the amount sufficient for a period of not more than 12 weeks. The purpose of this limitation is to ensure that the antigens retain their potency and effectiveness. We realize that there is some risk by allowing the antigens to be administered by someone other than the physician who prepares them.

We specifically request suggestions as to how this risk can be minimized.

C. Conditions for Coverage of Ambulatory Surgical Center (ASC) Services

1. Current Regulations

Under § 416.44(c), the ASC must have available in the operating room emergency equipment, including a thoracotomy set (for cutting through the rib cage into the chest cavity).

2. Proposed Changes

We propose to revise § 416.44(c) to remove the requirement for thoracotomy set because—

• Thoracotomy sets are used to permit open heart massage, which is no longer the preferred method for resuscitation of patients with heart disease.

• It is unlikely that it would be needed in connection with the surgical procedures performed in ASCs.

• Use of this equipment by medical personnel inexperienced in handling it could be risky.

We would, however, include emergency medical equipment in the list of items that the ASC must make available if the medical staff requests it. This means that a throacotomy set would be required if the medical staff considered it necessary.

D. Intermediary Agreements, Carrier Contracts, and Coordination with PROs

1. Current Regulations

Current Medicare Rules (§§ 421.100, 421.200, and 421.204)—

• Specify certain functions that must be included in the agreement or contract; and

• Provide that either party must give 90-day notice if it intends not to renew a carrier contract at the end of its term.

The first provision might appear to preclude other functions; the second has proved to be more stringent than necessary.

2. Proposed Changes

We would amend §§ 421.100 and 421.200 to make clear the following:

1. HCFA's agreement with an intermediary or contract with a carrier may require the intermediary or carrier to perform functions in addition to those listed in the rules.

2. The PRO performs reconsiderations of its determinations.

3. The intermediary or carrier takes appropriate action on PRO determinations, as well as those for which the intermediary or carrier itself made a determination because the PRO had not assumed review responsibility.

We would also—

• Revise § 421.204 to remove the requirement for 90-day notice of intent not to renew a carrier contract and require instead that notice be "in accordance with the provisions of the contract"; and

• Add a parallel provision (§ 421.111) applicable to intermediary agreements.

E. Federal Financial Participation (FFP) in State Expenditures for Skilled Nursing Facility Services Furnished to Individuals under 21

1. Current Regulations

Section 441.11 of the Medicaid rules provides that FFP in State payments for individuals in a facility may continue for up to 30 days after the Medicaid agency terminates or does not renew the facility's provider agreement if—

• The individual was admitted to the facility before the effective date of termination or expiration of the provider agreement; and

• The agency makes reasonable efforts to transfer the individual to another facility or to alternate care.

Through an oversight, SNF care for individuals under 21 was not included the list of services subject to the 30-day continuation.

2. Proposed Change

We would amend § 441.11(c) to add SNF care for individuals under 21.

F. Bases for Denial of Provider Agreements

1. Current Regulations

Section 489.12(a)(3) of the Medicare rules provides that HCFA may refuse to enter into or renew a provider agreement with a provider or potential provider that has been adjudged bankrupt or insolvent.

2. Inconsistency With Bankruptcy Code

Section 525 of the Revised Bankruptcy Code (11 U.S.C. 525) prohibits a "government unit" from denying a "license, permit, charter, franchise or other similar grant to" [a person] solely because the person has been a debtor under that title or a bankrupt under the Bankruptcy Act. The purpose of the prohibition is to ensure that the intent of the Code (i.e., to afford the bankrupt individual or entity the opportunity for a "fresh start") is not frustrated.

3. Change in the Regulations

Since the current provision of § 489.12(a)(3) conflicts with section 525 of the revised bankruptcy code (it specifies that "bankruptcy" or "insolvency" is of itself a basis for denial of a provider agreement), we would revise it to specify that an agreement may be denied if the entity is unable to assure compliance with the requirements of the Medicare statute (title XVIII of the Act).

Regulatory Impact Statement

Executive Order 12291

Executive Order 12291 requires us to prepare and publish an initial regulatory impact analysis for any proposed rule that is likely to have an annual impact of $100 million or more on the economy, cause a major increase in costs or prices, or meet other threshholds specified in section 1(b) of the Order. The Secretary has determined that these proposals will have little, if any, impact

and that a regulatory impact analysis is not required.

Regulatory Flexibility Act

Consistent with the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 through 612), we prepare and publish an initial regulatory flexibility analysis for any proposed rule unless the Secretary certifies that the rule would not have a significant economic impact on a substantial number of small entities. For purposes of the RFA, we consider all providers and suppliers of services to be small entities. As indicated above, these proposals are expected to have very slight if any economic impact on any group.

Therefore, we have determined, and the Secretary certifies, that this proposed rule would not have a significant economic impact on a substantial number of small entities, and that an initial regulatory flexibility analysis is not required.

Response to Comments

Because of the many comments we receive in response to proposed rules, we cannot acknowledge or reply to them individually. However, we will consider all timely comments and discuss them in the preamble to the final regulations.

List of Subjects

Health facilities, Medicare.

42 CFR Part 410

Medical and other services, Medicare.

42 CFR Part 416

Health facilities, Health professions, Medicare, Reporting and recordkeeping requirements.

42 CFR Part 421

Administrative practice and procedure, Health facilities, Health professions, Medicare, Reporting and recordkeeping requirements.

42 CFR Part 441

Family planning, Grant programs-health, Infants and children, Medicaid, Penalties, Prescription drugs, Reporting and recordkeeping requirements.

42 CFR Part 489

Health facilities, Medicare.

42 CFR Chapter IV would be amended as set forth below:

A. Part 409 is amended as follows:

PART 409—MEDICARE BENEFITS, LIMITATIONS, AND EXCLUSIONS

1. The authority citation continues to read as follows:

Authority: Secs. 1102 and 1871 of the Social Security Act (42 U.S.C. 1302 and 1395hh) unless otherwise noted.

2. Section 409.82 is amended by revising paragraphs (b) and (c) to remove the tables and clarify applicability of deductible amounts, to read as follows:

§ 409.82 Inpatient hospital deductible.

* * * * *

(b) Specific deductible amounts. The specific deductible amounts for each calendar year are published in the Federal Register no later than October 1 of the preceding year.

(c) *Exception to published amounts.* If the total hospital charge is less than the deductible amount applicable for the calendar year in which the services were furnished, the deductible is the amount of the charge.

3. Section 409.83 is amended by revising paragraphs (b) and (c) to remove the tables and clarify applicability of the co-insurance amounts, to read as follows:

§ 409.83 Inpatient hospital coinsurance.

* * * * *

(b) *Specific coinsurance amounts.* The specific coinsurance amounts for each calendar year are published in the Federal Register no later than October 1 of the preceding year.

(c) *Exceptions to published amounts.* (1) If the actual charge to the patient for the 61st through the 90th day of inpatient hospital services is less than the coinsurance amount applicable for the calendar year in which the services were furnished, the coinsurance amount is the actual charge per day.

(2) If the actual charge to the patient for the 91st through the 150th day (lifetime reserve days) is less than the coinsurance amount applicable for the calendar year in which the services were furnished, the beneficiary is deemed to have elected not to use the days because he or she would not benefit from using them.

4. Section 409.85 is amended by revising paragraphs (b) and (c) to remove the tables and clarify applicability of the SNF coinsurance amounts, to read as follows:

§ 409.85 Skilled nursing facility (SNF) care coinsurance

* * * * *

(b) *Specific coinsurance amounts.* The specific SNF coinsurance amounts for each calendar year are published in the Federal Register no later than October 1 of the preceding year.

(c) *Exception to published amounts.* If the actual charge to the patient is less than the coinsurance amount applicable for the calendar year in which the services were furnished, the coinsurance amount is the actual charge per day.

B. Part 410 is amended as follows:

PART 410—SUPPLEMENTARY MEDICAL INSURANCE (SMI) BENEFITS

1. The authority citation continues to read as follows:

Authority: Secs. 1102, 1832, 1833, 1835, 1861(r), (s), and (cc), 1871, and 1881 of the Social Security Act (42 U.S.C. 1302, 1395(k), 1395l, 1395n, 1375x(r), (s), and (cc), 1395hh, and 1395rr).

2. A new § 410.64 is added, and the table of contents is amended to reflect this change.

§ 410.64 Antigens: Scope and conditions.

Medicare Part B pays for—

(a) Antigens that are furnished as services incident to a physician's professional services; or

(b) A supply of anitgens sufficient for not more than 12 weeks, prepared by a doctor of medicine or osteopathy and administered by or under the supervision of—

(1) The physician who prepared the antigen; or

(2) Another physician.

C. Part 416 is amended as set forth below:

PART 416—AMBULATORY SURGICAL SERVICES

1. The authority citation continues to read as follows:

Authority: Secs. 1102, 1832(a)(2), 1833, 1863, and 1864 of the Social Security Act (42 U.S.C. 1302, 1395k(a)(2), 1395l, 1395z, and 1395aa).

2. Section 416.44 is amended by revising paragraph (c) to remove the requirements for thoracotomy set and add "medical equipment" to the list of items that the ASC must make available if the medical staff requests it, to read as follows:

§ 416.44 Condition for coverage—environment.

* * * * *

(c) *Standard: Emergency equipment.* Emergency equipment available to the operating rooms must include at least the following:

(1) Emergency call system.

(2) Oxygen.

(3) Mechanical ventilatory assistance equipment including airways, manual breathing bag, and ventilator.

(4) Cardiac defibrillator.

(5) Cardiac monitoring equipment.

(6) Tracheostomy set.

(7) Laryngoscopes and endotracheal tubes.

VOL 52 ISS 243 DEC 18 1987 UMI

(8) Suction equipment.

(9) Emergency medical equipment, and supplies specified by the medical staff.

* * * * *

D. Part 421 is amended as set forth below:

PART 421—INTERMEDIARIES AND CARRIERS

1. The authority citation continues to read as follows:

Authority: Secs. 1102, 1815, 1816, 1833, 1842, 1861(u), 1871, 1874, and 1875 of the Social Security Act (42 U.S.C. 1302, 1395g, 1395h, 1395l, 1395u, 1395x(u), 1395hh, 1395kk, and 1395ll), and 42 U.S.C. 1395b–1.

2. Section 421.100 is amended by revising the introductory text and paragraphs (a) and (f) to read as follows:

§ 421.100 Intermediary functions.

An agreement between HCFA and an intermediary specifies the functions to be performed by the intermediary, which must include, but are not necessarily limited to, the following:

(a) *Coverage.* (1) The intermediary assures that it makes payments only for services that are:

(i) Furnished to Medicare beneficiaries;

(ii) Covered under Medicare; and

(iii) In accordance with PRO determinations when they are services for which the PRO has assumed review responsibility under its contract with HCFA.

(2) The intermediary takes appropriate action to reject or adjust the claim if—

(i) The intermediary or the PRO determines that the services furnished or proposed to be furnished were not reasonable, not medically necessary, or not furnished in the most appropriate setting; or

(ii) The intermediary determines that the claim does not properly reflect the kind and amount of services furnished.

* * * * *

(f) *Reconsideration of determinctions.* The intermediary must establish and maintain procedures approved by HCFA for the reconsideration of its determinations to deny payments to an individual or to the provider that furnished services to the individual. The PRO performs reconsideration of cases in which it made a determination subject to reconsideration.

3. A new § 421.111 is added to read as follows:

§ 421.111 Provision for automatic renewal of agreements.

Agreements under this subpart may contain an automatic renewal provision, continuing the agreements from term to term unless either party gives notice, within timeframes specified in the agreement, of its intention not to renew the agreement.

4. Section 421.200 is amended by revising the introductory text and paragraph (a) to read as follows:

§ 421.200 Carrier functions.

A contract between HCFA and a carrier specifies the functions to be performed by the carrier, which must include, but are not necessarily limited to, the following:

(a) *Coverage.* (1) The carrier assures that payment is made ony for services that are:

(i) Furnished to Medicare beneficiaries;

(ii) Covered under Medicare; and

(iii) In accordance with PRO determinations when they are services for which the PRO has assumed review responsibility under its contract with HCFA.

(2) The carrier takes appropriate action to reject or adjust the claim if—

(i) The carrier or the PRO determines that the services furnished or proposed to be furnished were not reasonable, not medically necessary, or not furnished in the most appropriate setting;

(ii) The carrier determines that the claim does not properly reflect the kind and amount of services furnished.

* * * * *

5. Section 421.204 is revised to remove the requirement for a 90-day notice of intent not to renew a carrier contract, and require instead that notice be in accordance with the contract, to read as follows:

§ 421.204 Provision for automatic renewal of contracts.

Contracts under this subpart may contain an automatic renewal provision, continuing the contract from term to term unless either party gives notice, within timeframes specified in the contract, of its intention not to renew the contract.

E. Part 441 is amended as set forth below:

PART 441—SERVICES: REQUIREMENTS AND LIMITS APPLICABLE TO SPECIFIC SERVICES

1. The authority citation continues to read as follows:

Authority: Sec. 1102 of the Social Security Act (42 U.S.C. 1302) unless otherwise noted.

2. In § 441.11 the term "subchapter" is changed to "chapter" wherever it appears; the introductory text of paragraph (c) is reprinted, and a new paragraph (c)(8) is added, to read as follows:

§ 441.11 Continuation of FFP for institutional services.

* * * * *

(c) *Services for which FFP may be continued.* FFP may be continued for any of the following services, as defined in Subpart A of Part 440 of this chapter:

* * * * *

(8) Skilled nursing facility services for individuals under 21.

F. Part 489 is amended as set forth below:

PART 489—PROVIDER AGREEMENTS UNDER MEDICARE

1. The authority citation continues to read as follows:

Authority: Secs. 1102, 1861, 1864, 1866, and 1871 of the Social Security Act (42 U.S.C. 1302, 1395x, 1395aa, 1395cc, and 1395hh).

§ 489.12 [Amended]

2. Section 489.12 is amended by revising paragraph (a)(3) and revising paragraph (b), to read as follows:

() *Bases for denial.** * *

(3) The provider or prospective provider is unable to give satisfactory assurances of compliance with the requirements of title XVIII of the Act.

(b) [Reserved]

(Catalog of Federal Domestic Assistance Program No. 13.714, Medical Assistance Program; No. 13.773, Medicare—Hospital Insurance, and No. 13.774, Medicare—Supplementary Medical Insurance)

Dated: June 12, 1987.

Willam L. Roper,

Administrator, Health Care Financing Administration.

Approved: July 8, 1987.

Otis R. Bowne,

Secretary.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 87–543, RM–5617]

Radio Broadcasting Services; Arizona City, AZ

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document requests comments on a petition by The Alpha Group, licensee of Station KXMK(FM) (Channel 292A), Arizona City, Arizona, seeking the substitution of Channel 293A for Channel 292A and modification of its license accordingly.

DATES: Comments must be filed on or before February 1, 1988, and reply comments on or before February 16, 1988.

ADDRESSES: Federal Communications Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner and its consultant, as follows: John Saathoff, Station KXMK(FM), P.O. Box 2587, Arizona City, AZ 85223 (on behalf of petitioner) and C.R. Crisler, Double Eagle Broadcast Services Co., P.O. Box 6324, Fort Smith, AR 72906 (consultant).

FOR FURTHER INFORMATION CONTACT: Nancy Joyner, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Notice of Proposed Rule Making, MM Docket No. 87–543, adopted November 25, 1987, and released December 14, 1987. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 230), 1919 M Street NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, International Transcription Service, (202) 857–3800, 2100 M Street NW., Suite 140, Washington, DC 20037.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1231 for rules governing permissible *ex parte* contact.

For information regarding proper filing procedures for comments, See 47 CFR 1.415 and 1.420.

[MM Docket No. 87–538, RM–5872]

Radio Broadcasting Services; Searles Valley, CA

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document requests comments on a petition by Debra D. Carrigan seeking the deletion of Channel 283A at Searles Valley, CA on the basis of its lack of community status. In addition, Federal Aviation Administration imposed constraints may render the Class A channel incapable of providing a 70 dBu signal.

DATES: Comments must be filed on or before February 1, 1988, and reply comments on or before February 16, 1988.

ADDRESS: Federal Communications Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner's counsel, as follows: Jerrold Miller, Esq., Miller & Fields, P.C., P.O. Box 33003, Washington, DC 20033.

FOR FURTHER INFORMATION CONTACT: Nancy Joyner, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Notice of Proposed Rule Making, MM Docket No. 87–538, adopted November 1, 1987, and released December 11, 1987. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, International Transcription Service, (202) 857–3800, 2100 M Street NW., Suite 140, Washington, DC 20037.

[MM Docket No. 87–537, RM–6039]

Television Broadcasting Services; Kingston and Oneonta, NY

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document requests comments on a petition by Mohawk-Hudson Council on Educational Television, Inc., proposing the deletion of noncommercial educational Channel No. 42 from Oneonta, New York, and its reallocation to Kingston, New York. Channel No. 42 can be allocated to Kingston in compliance with the Commission's minimum distance separation requirements with a site restriction of 15.3 kilometers (9.5 miles) northwest to avoid a short-spacing to Station WGBY-TV, Channel 57, Springfield, Massachusetts, and to Channel 42which is proposed for allocation to Philadelphia for land mobile use in Gen. Docket 85–172, 50 FR 25587, June 20, 1987. Canadian concurrence in the allocation at Kingston is required since the community is located within 250 miles of the U.S.-Canadian border.

DATES: Comments must be filed on or before February 1, 1988, and reply comments on or before February 16, 1988.

ADDRESS: Federal Communications Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner, or its counsel or consultant, as follows: Robert A. Woods, Malcolm G. Stevenson, Schwartz, Woods & Miller, Suite 208, The Palladium, 1325–18th Street, NW., Washington, DC 20036 (Counsel to petitioner).

DEPARTMENT OF AGRICULTURE

National Forest System Law Enforcement Advisory Council; Intent To Establish

AGENCY: Office of the Secretary, USDA.

ACTION: Notice; intent to establish advisory committee.

SUMMARY: The Office of the Secretary hereby gives notice of his intent to establish a National Forest System Law Enforcement Advisory Council. The public may send written comments on establishment of the Council and/or to nominate persons to the Council.

DATE: Comments must be received by January 4, 1988.

ADDRESSES: Send written comments to F. Dale Robertson, Chief (5300), Forest Service, USDA, P.O. Box 96090, Washington, DC 20090-6090.

The public may inspect comments received on this proposal in the office of the Director, Fiscal & Public Safety Staff, Room 701 RPE, Rosslyn Plaza East, Arlington, Virginia, between the hours of 8:30 a.m. and 4:30 p.m.

FOR FURTHER INFORMATION CONTACT: Cecil L. Wilson, Law Enforcement Branch, Fiscal & Public Safety Staff, Forest Service, USDA, P.O. Box 96090, Washington, DC 20090-6090, (703/235-8484).

SUPPLEMENTARY INFORMATION: In the last 2 decades, law enforcement has become an increasingly important aspect of management of the National Forest System as increases in criminal activity within the Forests have mirrored growth in criminal activity in the rest of the society. The recent enactment of the National Forest Drug Control Act of 1986 (16 U.S.C. 559b-f) is evidence of the growing need for increased law enforcement activities in the management of the National Forest System. Accordingly, the Secretary has determined that it is necessary and in the public interest to establish a National Forest System Law Enforcement Advisory Council to assist the Secretary in the protection of the public who use National Forest System lands and their property, employees, forest resources, and Federal property.

The Council will consist of 9-13 members who shall serve 2-year terms. The chairperson shall be the Deputy Chief for Administration of the Forest Service with a non-Federal member serving as the vice-chairperson. The Director of the Forest Service Fiscal and Public Safety Staff shall serve as Secretary. The other members will be appointed by the Secretary of Agriculture. The Council members shall be selected to reflect a spectrum of natural resource and law enforcement interests, expertise, and experience. Members may be chosen from National Forest user groups, industry, academia, State and local governments, professional and natural resources-oriented organizations, labor organizations, urban and rural interests, consumer groups, and the public at large.

The Council's purpose is to advise the Secretary on development and administration of law enforcement within the Forest Service. Specific areas in which the Council will advise are:

(1) Enforcement of Federal laws and regulations relating to the National Forest System;

(2) Cooperation with State and local law enforcement agencies in the enforcement of all States and local laws on lands within the boundaries of the National Forest System;

(3) Aid to States in all ways that are practical in the enforcement of the law of the States concerning livestock, the prevention and extinguishing of forest fires, and the protection of fish and wildlife;

(4) Aid to other Federal agencies in the performance of their duties as they relate to the National Forest System; and

(5) Eradication, prevention, detection, and investigation of controlled substances on National Forest System lands.

In conducting its business, the Council shall seek the views and advice of a variety of public interest groups, Government, organizations, and concerned individuals.

All meetings will be open to the public except when a determination is made in writing by the Secretary that any or all portions of a meeting should be closed in accordance with 5 U.S.C. 552b(c).

Persons wishing to comment on the Council's purpose, responsibility, and composition or to nominate individuals for membership should reply to this notice in writing to the Chief of the Forest Service at the address and by the date indicated.

John F. Franke, Jr.,

Assistant Secretary for Administration.

Date: December 15, 1987.

BILLING CODE 3410-11-M

Office of the Secretary

Policy for Ground Water Quality

AGENCY: Office of the Secretary, USDA.

ACTION: Notice.

SUMMARY: The Department of Agriculture has adopted a formal policy for ground water quality protection and enhancement. This policy provides general guidance to the agencies in the Department for helping to protect water users and the natural environment from exposure to harmful amounts of substances in ground water, especially in rural areas and communities, and to enhance ground water quality where appropriate. The USDA supports the prudent use and careful management of soil, crop, and livestock nutrients as well as manufactured agricultural chemicals to prevent unacceptable contamination of ground water in agriculture and silviculture. Emphasis is given to programs and practices that encourage prudent management actions that can minimize or obviate the need for imposing statutory or regulatory restrictions on the use of chemicals that are essential for economical, efficient, and sustainable agricultural production. The full text of the policy statement is provided below.

FOR FURTHER INFORMATION CONTACT: Mr. Ronald B. Buckhalt, Director of Public Liaison, U.S. Department of Agriculture, Room 241-E, Washington, DC 20250, (202) 447-2798.

USDA Policy for Ground Water Quality

Purpose

This statement documents and sets forth the policy of the United States Department of Agriculture (USDA) to

VOL 52 ISS 243 DEC 18 1987 UMI

protect and enhance ground water quality.

Background

Ground water quality is important to all Americans, and it is the intent of the Department of Agriculture to assure that its programs and activities reflect that importance. There exists evidence that the quality of ground water may be affected by contamination from many sources, including some occurring naturally and some induced by agricultural and silvicultural practices. The Nation's farmers, ranchers, and foresters have need to prudently use agricultural chemicals to provide the food and fiber necessary for improving the quality of life of all mankind, and to meet the needs of a growing population and an expanding economy.

This ground water policy statement is issued to improve the management, coordination, and effectiveness of USDA assistance to farmers, ranchers, foresters, State and local government agencies, and other water users in rural areas.

USDA General Policy for Ground Water Quality

With the need to continue the prudent and sustained use of the Nation's renewable natural resources, it is the policy of USDA to help protect water users and the natural environment from exposure to harmful substances in ground water, especially in rural areas, and to enhance ground water quality where appropriate.

Accordingly, USDA will:

a. Support the purdent use and careful management of nutrients and other agricultural chemicals in agriculture and silviculture with the objective of avoiding future ground water contamination. Where ground water quality enhancement is needed, foster alternative crop management systems, improvements in the management of nutrients and crops, and reductions in the use of chemicals as appropriate.

b. Advocate and foster programs, activities, and practices that can prevent the harmful contamination of ground water from agricultural, silvicultural, and other rural sources to minimize, or make unnecessary, regulatory restrictions on the use of chemicals essential to agricultural production.

USDA Policy for Research, Information-Education and Technology Transfer

a. Continue to conduct and support research, monitoring, assessment, and evaluation of: (1) Factors affecting the movement of nutrients and agricultural chemicals in soils, (2) effectiveness of efforts to protect ground water quality, (3) procedures to predict the effects of changes in chemical management, (4) effects of agricultural and silvicultural practices on chemical movement in ground water, (5) economic benefits of agricultural chemical uses, (6) economic effects of various strategies to reduce ground water contamination, and (7) relative hazards to animal and human health of substances in soil and ground water.

b. Provide both nationwide and site-specific information, education, and technical assistance to private landowners to encourage them to use agricultural and silvicultural practices, including non-chemical methods of pest control, that can minimize the risks of ground water contamination levels that are harmful to public health and the environment.

c. Provide information and education to people and communities in rural areas about methods to maintain safe wells; to avoid local contamination by pathogens, agricultural chemicals, other nutrients, and other substances; to obtain tests of ground water quality; and to treat their water to remove natural and artificial contaminants where needed.

USDA Policy for Cooperation and Coordination

a. Strive to assure that Departmental policies and programs are implemented in a manner that encourages agricultural and silvicultural practices that avoid harmful levels of contamination in ground water.

b. Coordinate with state agencies, other federal agencies, manufacturers, and others to help ensure that they adequately consider the needs of agricultural and silvicultural lands users to use nutrients and pesticides correctly to maintain productivity of soil, plant, and animal resources. Coordinate with and encourage agencies, manufacturers and others to help agricultural and silvicultural land users, through technology transfer, to demonstrate how they may avoid or minimize adverse affects on ground water quality.

Peter C. Myers,

Acting Secretary.

December 14, 1987.

[FR Doc. 87-29026 Filed 12-17-87; 8:45 am]

BILLING CODE 3410-01-M

Determination of Quota Period and Import Quotas for Sugar

AGENCY: Office of the Secretary, USDA.

ACTION: Notice.

SUMMARY: This notice establishes a sugar import quota period of January 1, 1988 through December 31, 1988 and an import quota of 708,280 short tons, raw value, for such period.

EFFECTIVE DATE: January 1, 1988.

FOR FURTHER INFORMATION CONTACT: John Nuttall, Foreign Agricultural Service, Department of Agriculture, Washington, DC 20250, Telephone: (202) 447-2916.

SUPPLEMENTARY INFORMATION: Presidential Proclamation No. 4941 of May 5, 1982, amended Headnote 3 of Subpart A, Part 10, Schedule 1 of the Tariff Schedules of the United States (TSUS) to establish a system of import quotas for foreign sugar coming into the United States. Under the terms of Headnote 3, the Secretary of Agriculture established an annual sugar import quota period of October 1–September 30 beginning October 1, 1982. (47 FR 34812.)

Presidential Proclamation No. 4941 also permits the Secretary of Agriculture, after consultations with the U.S. Trade Representative and the Department of State, to establish quota periods for other than quarterly periods, if he determines that such periods are appropriate to give due consideration in the United States sugar market to the interests of domestic producers and materially affected contracting parties to the General Agreement on Tariffs and Trade. This notice announces the Secretary of Agriculture's determinations, after the appropriate consultations, that the sugar import quota period shall begin on January 1, 1988 and terminate on December 31, 1988 and that the import quota for such period shall be 708,280 short tons, raw value.

Notice

Notice is hereby given that, in accordance with the requirements of Headnote 3, Subpart A, Part 10, Schedule 1 of the TSUS, I have determined that up to 708,280 short tons, raw value, of sugar described in items 155.20 and 155.30 of the TSUS may be entered or withdrawn from warehouse for consumption during the period January 1, 1988 through December 31, 1988. Of the 708,280 short tons, raw value, 2,000 short tons, raw value, are reserved for specialty sugars from countries listed in paragraph (c)(ii) of Headnote 3 and 6,280 short tons, raw value, are reserved as a quota adjustment amount allocated in accordance with paragraph (c)(iii) of Headnote 3.

I have also determined that this quota amount (708,280 short tons, raw value) and quota period give due consideration to the interests in the United States sugar market of domestic producers and materially affected contracting parties to the General Agreement on Tariffs and Trade.

In conformity with the above, paragraph (a)(i) of Headnote 3, Subpart A, Part 10, Schedule 1 of the TSUS is modified to read as follows:

3. (a)(i) The total amount of sugars, sirups and molasses described in items 155.20 and 155.30, the products of all foreign countries entered, or withdrawn from warehouse for consumption, during the period January 1, 1988 through December 31, 1988 shall not exceed in the aggregate 708,280 short tons, raw value. Of this amount, the total amount permitted to be imported for purposes of paragraph (c)(i) of this headnote (the total base quota amount) shall be 700,000 short tons, raw value; 2,000 short tons, raw value, may only be used for the importation of "specialty sugars," as defined by the United States Trade Representative in accordance with paragraph (c)(ii) of this headnote; and the remaining 6,280 short tons, raw value, may only be imported for the purposes specified in paragraph (c)(iii) of this headnote (the quota adjustment amount).

Signed at Washington, DC, on December 15, 1987.

Richard E. Lyng,

Secretary of Agriculture.

BILLING CODE 3410-10-M

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket No. 42-87]

Foreign-Trade Zone 89, Las Vegas, NV: Application for Expansion

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Nevada Development Authority (NDA), grantee of Foreign-Trade Zone 89, requesting authority to expand the zone to include four additional sites totalling 903 acres in the Las Vegas area, within the Las Vegas Customs port of entry. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR Part 400). It was formally filed on December 11, 1987.

The Las Vegas zone was approved in November 1983, and comprises four sites (53 acres) in Las Vegas and Clark County, Nevada. The requested expansion would involve four additional sites, totalling 903 acres, in the Las Vegas area: (a) Hughes Airport Center (292 acres), bounded by Paradise Road, White Drive, Chaparral Road, Pilot Road and Gilespie Road, (b) Whitney Mesa Business Center (38 acres), Sunset Road and Ramrod Street, (c) North Las Vegas Business Center (37 acres), Craig Road and North 5th Street, and (d) AMPAC Development Company Business Park (536 acres), Gibson Road.

The additional sites are being requested to provide a broader range of facilities for prospective zone users. The Board will consider whether the number of separate sites being requested is needed to serve the public interest.

In accordance with the Board's regulations, an examiners committee has been appointed to investigate the application and report to the Board. The committee consists of: Joseph Lowry (Chairman), Foreign-Trade Zones Staff, U.S. Department of Commerce, Washington, DC 20230; John Heinrich, District Director, U.S. Customs Service, Pacific Region, 300 South Ferry Street, Terminal Island, San Pedro, California 90731; and Colonel Tadahiko Ono, District Engineer, U.S. Army Engineer District Los Angeles, P.O. Box 2711, Los Angeles, California 90053–2325.

Comments concerning the proposed expansion are invited in writing from interested parties. They should be addressed to the Board's Executive Secretary at the address below and postmarked on or before February 1, 1988.

A copy of the application is available for public inspection at each of the following locations:

Office of the Port Director, U.S. Customs Service, International Arrivals Building, P.O. Box 11049, Las Vegas, Nevada 89111;

Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, 14th and Pennsylvania Avenue NW., Room 1529, Washington, DC 20230.

Dated: December 14, 1987.

John J. Da Ponte, Jr.,

Executive Secretary.

International Trade Administration

Catholic University of America et al.; Consolidated Decision on Applications for Duty-Free Entry of ICP-MS

This is a decision consolidated pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897; 15 CFR Part 301). Related records can be viewed between 8:30 a.m. and 5:00 p.m. in Room 1523, U.S. Department of Commerce, 14th and Constitution Avenue NW., Washington, DC.

Docket Number: 87–298. *Applicant:* The Catholic University of America.
Intended Use: See notice at 52 FR 42028.

Docket Number: 87–302. *Applicant:* University of California-LLNL.
Intended Use: See notice at 52 FR 42029.

Docket Number: 87–304. *Applicant:* University of California-LLNL.
Intended Use: See notice at 52 FR 42029.

Instrument: Inductively Coupled Plasma Mass Spectrometer, Model Plasma Quad.

Manufacturer: VG Isotopes, Ltd., United Kingdom.

Comments: None received.

Decision: Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as each is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides simultaneous qualitative and semi-qualitative data for major, minor and trace constituents and abundance sensitivity of at least 10–5 for both high and low mass.

The capability of each of the foreign instruments described above is pertinent to each applicant's intended purpose. We know of no domestic instrument or apparatus of equivalent scientific value for the intended use of each instrument.

Frank W. Creel,

Director, Statutory Import Programs Staff.

BILLING CODE 3510-DS-M

Pennsylvania State University; Consolidated Decision on Applications for Duty-Free Entry of Electro Optical Extensometers

This is a decision consolidated pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897; 15 CFR Part 301). Related records can be viewed between 8:30 a.m. and 5:00 p.m. in Room 1523, U.S. Department of Commerce, 14th and Constitution Avenue NW., Washington, DC.

Docket Number: 87–083.
Intended use: See notice at 52 FR 4164.

Docket Number: 87–244.
Intended use: See notice at 52 FR 30841.

Applicant: The Pennsylvania State University.

Instrument: Optical Extensometers.

Manufacturer: Zimmer, OHG, West Germany.

Advice Submitted By: National Bureau of Standards, November 4, 1987.

Comments: None received.

Decision: Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as each is intended to be used, is being manufactured in the United States.

Reasons: The foreign instruments provide a resolution of 0.16 μm at 10 Hz and measurement of specimens at temperatures up to 1600°C.

The National Bureau of Standards advises in its memorandum that (1) the capability of each of the foreign instruments described above is pertinent to each applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value for the intended use of each instrument.

We know of no other instrument or apparatus being manufactured in the United States which is of equivalent scientific value to any of the foreign instruments.

Frank W. Creel,

Director, Statutory Import Programs Staff.

Research Foundation of the State University of New York; Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897; 15 CFR Part 301). Related records can be viewed between 8:30 a.m. and 5:00 p.m. in Room 1523, U.S. Department of Commerce, 14th and Constitution Avenue NW., Washington, DC.

Docket Number: 87–303. *Applicant:* The Research Foundation of the State University of New York, P.O. Box 9, Albany, NY 12201–0009. *Instrument:* X–Y–Z and Rotation Stage for NRD Press. *Manufacture:* NRD Corporation, Japan. *Intended Use:* See notice at 52 FR 42029, November 2, 1987.

Comments: None received.

Decision: Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States.

Reasons: This is a compatible accessory for an instrument previously imported for the use of the applicant. The instrument and accessory were made by the same manufacturer.

We know of no domestic accessory which can be readily adapted to the instrument.

Frank W. Creel,

Director, Statutory Import Programs Staff.

National Bureau of Standards

Visiting Committee; Meeting

Pursuant to the Federal Advisory Committee Act, 5 U.S.C. App., notice is hereby given that the National Bureau of Standards' Visiting Committee will meet Tuesday, January 26, 1988, from 8:30 a.m. to 4:30 p.m., and Wednesday, January 27, 1988, from 8:30 a.m. to 10:00 a.m., in Lecture Room A, Administration Building, National Bureau of Standards, Gaithersburg, Maryland; from 2:00 p.m. to 3:00 p.m. in Room 5854, Department of Commerce, Washington DC.

The NBS Visiting Committee is composed of five members prominent in the fields of science and technology and appointed by the Secretary of Commerce.

The purpose of the meeting is to consider the implications of the legislation presently under consideration by Congress.

The public is invited to attend, and the Chairman will entertain comments or questions at an appropriate time during the meeting. Any person wishing to attend the meeting should inform Peggy Webb, Office of the Director, National Bureau of Standards, Gaithersburg, MD 20899, telephone 301–975–2411.

BILLING CODE 3510-13-M

National Conference on Weights and Measures; Interim Meetings

AGENCY: National Bureau of Standards, Commerce.

ACTION: Notice meeting.

SUMMARY: Notice is hereby given that the Interim Meetings of the National Conference on Weights and Measures will be held January 11 through January 15, 1988, at the National Bureau of Standards, Gaithersburg, Maryland. The meeting is open to the public.

The National Conference on Weights and Measures is an organization of weights and measures enforcement officials of the States, counties, and cities of the United States, and private sector representatives. The interim meetings of the Conference, as well as the annual meeting to be held next July (a notice will be published in the **Federal Register** prior to such meeting), brings together enforcement officials, other government officials, and representatives of business, industry, trade associations, and consumer organization to discuss subjects that relate to the field of weights and measures technology and administration.

Pursuant to section 2(5) of its Organic Act (15 U.S.C. 272(5)), the National Bureau of Standards acts as a sponsor of the National Conference on Weights and Measures in order to promote uniformity among the States in the complex of laws, regulations, methods, and testing equipment that comprises regulatory control by the States of commercial weighing and measuring.

DATE: The meeting will be held January 11–15, 1988.

Location of Meeting: The National Bureau of Standards, Gaithersburg, Maryland.

FOR FURTHER INFORMATION CONTACT: Albert D. Tholen, Executive Secretary, National Conference on Weights and Measures, P.O. Box 3137, Gaithersburg, Maryland 20878; telephone: (301) 975–4009.

Ernest Ambler,

Director.

Date: December 11, 1987.

National Oceanic and Atmospheric Administration

Permits; Foreign fishing

This document publishes for public review a summary of applications received by the Secretary of State requesting permits for foreign vessels to fish in the exclusive economic zone under the Magnuson Fishery Conservation and Management Act (Magnuson Act, 16 U.S.C. 1801 *et seq.*).

Send comments on applications to:

Fees and Permits Branch (F/TS21), National Marine Fisheries Service, Department of Commerce, Washington, DC 20235.

or, send comments to the Fishery Management Council(s) which review the application(s), as specified below:

Douglas G. Marshall, Executive Director, New England Fishery Management Council, 5 Broadway (Route 1), Saugus, MA 01906, 617/231–0422.

John C. Bryson, Executive Director, Mid-Atlantic Fishery Management Council, Federal Building, Room 2115, 320 South New Street, Dover, DE 19901, 302/674–2331.

Robert K. Mahood, Executive Director, South Atlantic Fishery Management Council, Southpark Building, Suite 306, 1 Southpark Circle, Charleston, SC 29407, 803/571–4366.

Omar Munoz-Roure, Executive Director, Caribbean Fishery Management Council, Banco De Ponce Building, Suite 1108, Hato Rey, PR 00918, 809/753–4926.

Wayne E. Swingle, Executive Director, Gulf of Mexico Fishery Management Council, Lincoln Center, Suite 881, 5401 West Kennedy Blvd., Tampa, FL 33609, 813/228–2815.

Lawrence D. Six, Executive Director, Pacific Fishery Management Council, Metro Building, Suite 420, 2000 S.W. First Avenue, Portland, OR 97201, 503/221–6352.

Jim H. Branson, Executive Director, North Pacific Fishery Management Council, P.O. Box 103136, Anchorage, AK 99510, 907/274–4563.

Kitty M. Simonds, Executive Director, Western Pacific Fishery Management Council, 1164 Bishop Street, Room 1405, Honolulu, HI 96813, 808/523–1368.

For further information contact John D. Kelly or Shirley Whitted (Fees and Permits Branch, 202–673–5319).

The Magnuson Act requires the Secretary of State to publish a notice of receipt of all applications for such permits summarizing the contents of the applications in the **Federal Register**. The National Marine Fisheries Service, under the authority granted in a memorandum of understanding with the Department of State effective November 29, 1983, issues the notice on behalf of the Secretary of State.

Individual vessel applications for fishing in 1988 have been received from the Governments shown below.

Dated: December 14, 1987.

Carmen J. Blondin,

Special Associate for Trade, National Marine Fisheries Service.

Fishery codes and designation of Regional Fishery Management Councils which review applications for individual fisheries are as follows:

Code	Fishery	Regional fishery management councils
ABS	Atlantic Billfishes and Sharks.	New England, Mid Atlantic, South Atlantic, Gulf of Mexico, Caribbean.
BSA	Bering Sea and Aleutian Islands Groundfish.	North Pacific.
GOA	Gulf of Alaska	North Pacific.
NWA	Northwest Atlantic Ocean.	New England, Mid-Atlantic.
SNA	Snails (Bering Sea)	North Pacific.
WOC	Pacific Groundfish (Washington, Oregon and California).	Pacific.
PBS	Pacific Billfishes and Sharks.	Western Pacific.

Activity codes which specify categories of fishing operations applied for are as follows:

Activity code	Fishing operations
1	Catching, processing and other support.
2	Processing and other support only.
3	Other support only.
*	Vessel(s) in support of U.S. vessels Joint Venture).
**	Cargo transport vessels with fish finding equipment on board will receive an activity code 2 to enable them to perform both scouting as well as support activities

Joint Venture

BILLING CODE 3510-22-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Announcement of Negotiated Settlement on Import Restraint Limit for Certain Cotton Textile Products Produced or Manufactured in Thailand

December 15, 1987.

The Chairman of the Committee for the Implementation of Textile Agreements (CITA), under the authority contained in E.O. 11651 of March 3, 1972, as amended, has issued the directive published below to the Commissioner of Customs to be effective on December 21, 1987. For further information contact Ross Arnold, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377-4212. For information on the quota status of these limits, please refer to the Quota Status Reports which are posted on the bulletin boards of each Customs port or call (202) 343-6581. For information on embargoes and quota re-openings, please call (202) 377-3715.

Summary

In the letter published below, the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to increase the import restraint limit for cotton textile products in Category 369-L, produced or manufactured in Thailand and exported during the extended restraint period which began on August 19, 1987 and extends through December 31, 1987.

Background

A CITA directive dated September 15, 1987 (52 FR 35302) established an import restraint limit for cotton textile products in Category 369-L, produced or manufactured in Thailand and exported during the ninety-day period which began on August 19, 1987 and extended through November 16, 1987.

During consultations held November 11-13, 1987 between the Governments of the United States and Thailand, under the terms of the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of July 27 and August 8, 1983, as amended and extended, agreement was reached to extend the restraint period and increase the limit for Category 369-L for the period August 19, 1987 through December 31, 1987. The United States Government will continue to control imports of Category 369-L at the agreed level.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175), May 3, 1983 (48 FR 19924), December 14, 1983, (48 FR 55607), December 30, 1983 (48 FR 57584), April 4, 1984 (49 FR 13397), June 28, 1984 (49 FR 26622), July 16, 1984 (49 FR 28754), November 9, 1984 (49 FR 44782), July 14, 1986 (51 FR 25386), July 29, 1986 (51 FR 27068) and in Statistical Headnote 5, Schedule 3 of the Tarriff Schedules of the United States Annotated (1987).

Adoption by the United States of the Harmonized Commodity Code (HCC) may result in some changes in the categorization of textile products covered by this notice. Notice of any necessary adjustments to the limits affected by adoption of the HCC will be published in the **Federal Register**.

The letter to the Commissioner of Customs and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

James H. Babb,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

December 15, 1987.

Comissioner of Customs,
Department of the Treasury, Washington, DC [illegible]

Dear Mr. Commissioner: This directive amends, but does not cancel, the directive issued to you on September 15, 1987 by the Chairman, Committee for the Implementation of Textile Agreements, concerning imports into the United States of certain cotton textile products, produced or manufactured in Thailand and exported during the ninety-day period which began on August 19, 1987 and extended through November 16, 1987.

Effective on December 21, 1987, the directive of September 15, 1987 is amended to extend the import restraint period for Category 369-L [1] for the period August 19, 1987 through December 31, 1987 at an increased level of 510,000 pounds.[2]

Textile products in Category 369-L which have been released from the custody of the U.S. Customs Service under the provisions of 19 U.S.C. 1448(b) or 1484(a)(1)(A) prior to the effective date of this directive shall not be denied entry under this directive.

Import charges made to the ninety-day restraint period are to be retained. Additional charges will be made as data become available.

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

James H. Babb,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-DR-M

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

Procurement List 1988; Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Additions to Procurement List.

SUMMARY: This action adds to Procurement List 1988 services to be provided by workshops for the blind and other severely handicapped.

EFFECTIVE DATE: January 19, 1988.

[1] In Category 369-L, only TSUSA numbers 706.3210, 706.3650 and 706.4111.

[2] The restraint limit has not been adjusted to account for imports exported after August 18, 1987.

VOL 52 ISS 243 DE 18 1987 UMI

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 5, Suite 1107, 1755 Jefferson Davis Highway, Arlington, Virginia 22202–3509.

FOR FURTHER INFORMATION CONTACT: C.W. Fletcher, (703) 557–1145.

SUPPLEMENTARY INFORMATION: On October 9, 1987, the Committee for Purchase from the Blind and Other Severely Handicapped published notice (52 FR 37819) of additions to Procurement List 1988, December 10, 1987 (52 FR 46926).

Additions

After consideration of the relevant matter presented, the Committee has determined that the services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46–48c, 85 Stat. 77 and 41 CFR 51–2.6.

I certify that the following actions will not have a significant impact on a substantial number of small entities. The major factors considered were:

a. The action will not result in any additional reporting, recordkeeping or other compliance requirements.

b. The action will not have a serious economic impact on any contractors for the services listed.

c. The action will result in authorizing small entities to provide the services procured by the Government.

Accordingly, the following services are hereby added to Procurement List 1988.

Laundry Service

Acoma/Canoncito/Laguna PHS Indian Hospital, Acomita, New Mexico

Laundry Service

Zuni PHS Indian Hospital, Zuni, New Mexico

C.W. Fletcher,

Executive Director.

BILLING CODE 6820-33-M

Procurement List 1988; Proposed Addition and Deletions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed Addition to and Deletions from Procurement List.

SUMMARY: The Committee has received proposals to add to and delete from Procurement List 1988 a commodity to be produced and services to be provided by workshops for the blind or other severely handicapped.

Comments Must be Received on or Before: January 18, 1988.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 5, Suite 1107, 1755 Jefferson Davis Highway, Arlington, Virginia 22202–3509.

FOR FURTHER INFORMATION CONTACT: C.W. Fletcher, (703) 557–1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2), 85 Stat. 77 and 41 CFR 51–2.6. Its purpose is to provide interested persons an opportunity to submit comments on the possible impact of the proposed actions.

Addition

If the Committee approves the proposed addition, all entities of the Federal Government will be required to procure the service listed below from workshops for the blind or other severely handicapped.

It is proposed to add the following service to Procurement List 1988, December 10, 1987 (52 FR 46926):

Janitorial/Custodial, Federal Supply Service Depot, 4100 W. 76th Street, Chicago, Illinois.

Deletions

It is proposed to delete the following commodity and services from Procurement List 1988, December 10, 1987 (52 FR 46926):

Commodity

Tube, Mailing and Filing, 8110–00–412–4410

Service

Pallet Repair, Naval Supply Center, Cheatham Annex, Williamsburg, Virginia.

C.W. Fletcher,

Executive Director.

BILLING CODE 6820-33-M

COMMODITY FUTURES TRADING COMMISSION

MidAmerica Commodity Exchange Proposed Futures Contract

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice of availability of the terms and conditions of proposed commodity futures contract.

SUMMARY: The MidAmerica Commodity Exchange, Inc. ("MCE") has applied for designation as a contract market in futures on Long-Term U.S. Treasury notes. The Director of the Division of Economic Analysis of the Commodity Futures Trading Commission ("Commission"), acting pursuant to the authority delegated by Commission Regulation 140.96, has determined that publication of the proposal for comment is in the public interest, will assist the Commission in considering the views of interested persons, and is consistent with the purposes of the Commodity Exchange Act.

DATE: Comments must be received on or before February 16, 1988.

ADDRESS: Interested persons should submit their views and comments to Jean A. Webb, Secretary, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, DC 20581. Reference should be made to the MCE Long-Term Treasury note futures contract.

FOR FURTHER INFORMATION CONTACT: Naomi Jaffe, Division of Economic Analysis, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, DC 20581, (202) 254–7227.

SUPPLEMENTARY INFORMATION: Copies of the terms and conditions of the proposed futures contract will be available for inspection at the Office of the Secretariat, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, DC 20581. Copies of the terms and condition can be obtained through the Office of the Secretariat by mail at the above address or by phone at (202) 254–6314.

Other materials submitted by the MCE in support of the application for contract market designation may be available upon request pursuant to the Freedom of Information Act (5 U.S.C. 552) and the Commission's regulations thereunder (17 CFR Part 145 (1987)), except to the extent they are entitled to confidential treatment as set forth in 17 CFR 145.5 and 145.9. Requests for copies of such materials should be made to the FOI, Privacy and Sunshine Acts Compliance Staff of the Office of the Secretariat at the Commission's headquarters in accordance with 17 CFR 145.7 and 145.8.

Any person interested in submitting written data, views or arguments on the terms and conditions of the proposed futures contract, or with respect to other materials submitted by the MCE in support of the application, should send such comments to Jean A. Webb, Secretary, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, DC 20581, by the specified date.

Issued in Washington, DC on December 14, 1987.

Paula A. Tosini,

Director, Division of Economic Analysis.

BILLING CODE 6351-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. ER87–680–000 et al.]

Central Illinois Light Co. et al.; Electric Rate and Corporate Regulation Filings

December 14, 1987.

Take notice that the following filings have been made with the Commission:

1. Central Illinois Light Company

[Docket No. ER87–680–000]

Take notice that on December 8, 1987, Central Illinois Light Company (CILCO) tendered for filing an amendment to it's original filing of this Docket with regard to Section 35.27 of the Commission's Regulations. The original filing was made to revise CILCO's Wholesale Rate MW–4, applicable to the Village of Riverton, Illinois, to reflect changes in CILCO's tax structure due to the Tax Reform Act of 1986. CILCO made this filing in voluntary compliance with the Federal Energy Regulatory Commission (FERC) Order No. 475.

Comment date: December 28, 1987, in accordance with Standard Paragraph E at the end of this notice.

2. Duke Power Company

[Docket Nos. EL87–11–002, EL87–18–002, EL87–20–003]

Take notice that on December 7, 1987, Duke Power Company tendered for filing pursuant to Commission Order dated August 3, 1987 a compliance report setting forth a summary of refunds and their computation. Duke Power Company states that it made the required refunds on November 23, 1987.

Comment date: December 28, 1987, in accordance with Standard Paragraph E at the end of this notice.

3. Ogden Martin Systems of Fairfax, Inc.

[Docket No. ER87–76–000]

Take notice that on December 4, 1987, Ogden Martin Systems of Fairfax, Inc. (Ogden Fairfax) tendered for filing with the Federal Energy Regulatory Commission an amendment to its initial rate schedule and supporting documentation previously filed on October 16, 1987. The amendment provides documentation that Ogden Fairfax's initial rate for the sale of capacity and corresponding energy to Virginia Electric and Power Company (Virginia Power) will be equal to or less than Virginia Power's avoided cost over the term of the agreement.

Comment date: December 28, 1987, in accordance with Standard Paragraph E at the end of this document.

4. Utah Power & Light Company

[Docket No. ER88–130–000]

Take notice that on December 7, 1987, Utah Power & Light Company (UP&L) tendered for filing a Notice of Cancellation for the Resale Electric Service Agreement with CP National Corporation for the purchase of wholesale power and energy. UP&L requests that the Resale Electric Service Agreement cancellation be made effective as of January 1, 1987, which is the date UP&L last supplied power under such agreement.

UP&L requests that the Commission's notice requirements in 18 CFR 35.3 be waived, as provided for in 18 CFR Section 35.11, in order to allow the cancellation to be made effective on the date requested and on the date transactions last occurred under the Agreement.

Comment date: December 28, 1987, in accordance with Standard Paragraph E at the end of this notice.

5. Virginia Electric and Power Company

[Docket No. ER88–131–000]

Take notice that on December 9, 1987, Virginia Electric and Power Company (Company) tendered for filing Rate Schedule TS–M, Transmission Service for Municipal Electric Systems. The Company requests an effective date sixty days from the date of filing. Pursuant to the rate schedule, the Company will provide Firm Transmission and Non-Firm Transmission over the Company's transmission and distribution facilities for Customers as those terms are defined in the rate schedule.

Copies of the filing have been served on each of the Company's wholesale municipal customers in Virginia, Virginia Municipal Electric Association Number One and the Virginia State Corporation Commission.

Comment date: December 28, 1987, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraph

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Acting Secretary.

[FR Doc. 87–29084 Filed 12–17–87; 8:45am]

BILLING CODE 6717-01-M

[Docket Nos. CP88–104–000 et al.]

Tennessee Gas Pipeline Co. et al.; Natural Gas Certificate Filings

December 15, 1987.

Take notice that the following filings have been made with the Commission:

1. Tennessee Gas Pipeline Company, a Division of Tenneco Inc.

[Docket No. CP88–104–000]

Take notice that on December 3, 1987, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), P.O. Box 2511, Houston, Texas 77252, filed in Docket No. CP88–104–000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to provide a transportation service for CNG Trading Company (CNG), a marketer, under the certificate issued in Docket No. CP87–115–000 on June 18, 1987, pursuant to section 7(c) of the Natural Gas Act, all as more fully set forth in the application that is on file with the Commission and open to public inspection.

Tennessee states that pursuant to a transportation agreement dated October 13, 1987, as amended November 20, 1987, it proposes to transport natural gas on an interruptible basis for CNG from points of receipt listed in Exhibit "A" of the agreement to delivery points also listed in Exhibit "A", which transportation service involves interconnections between Tennessee and various transporters.

Tennessee further states that the maximum daily and annual quantities would be 650,000 dekatherms and 5,475,000 dekatherms, respectively. Tennessee advises that service under § 284.223(a) commenced October 26, 1987, as reported in Docket No. ST88–729 (filed November 20, 1987).

Comment date: January 29, 1988, in accordance with Standard Paragraph G at the end of this notice.

2. Transcontinental Gas Pipe Line Corporation

[Docket No. CP88–76–000]

Take notice that on November 13, 1987, Transcontinental Gas Pipe Line

Corporation (Applicant), P.O. Box 1396, Houston, Texas 77251, filed in Docket No. CP88-76-000 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon in place and by removal 1.41 miles of offshore pipeline, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to abandon 1.41 miles of 8-inch pipeline and appurtenant facilities extending from the South Pelto Block 10 "A" platform (SP 10A) to the South Pelto Block 11 "F" platform (SP 11F), offshore Louisiana. Applicant states that the facilities were installed pursuant to budget-type authorization in Docket No. CP76-55, to permit new gas purchased by Applicant at SP 10A to flow to SP 11F for measurement and further transportation to shore. It is stated that the producer-operator of the platforms constructed a line between SP 10A and the adjacent "B" platform in that block (SP 10B), and the gas production from SP 10A was diverted from its original SP 11F route to the new line to SP 10B, for measurement with SP 10B gas and transportation to shore.

Applicant avers that the new routing and handling is more efficient than the old, and eliminates the need for the line to SP 11F proposed to be abandoned. Applicant indicates that at the request of the producer-operator, the pipeline would be removed from the SP 10A and SP 11F platforms, but otherwise would be abandoned in place.

Comment date: January 5, 1988, in accordance with Standard Paragraph F at the end of this notice.

3. Northern Natural Gas Company, Division of Enron Corp.

[Docket No. CP88-112-000]

Take notice that on December 4, 1987, Northern Natural Gas Company Division of Enron Corp., (Northern), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP88-112-000, an application pursuant to section 7(b) of the Natural Gas Act for permission to abandon and remove two 3,100 horsepower (hp) compressor units and related facilities located in Calcasieu Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Northern states that due to its reduced production and acquisitions in the gulf coast, two 3,100 hp compressor units and associated facilities are no longer needed at the Starks Compressor Station. Pursuant to a gas exchange agreement dated September 12, 1980, Northern indicates that it delivered a portion of its gulf coast production to Transcontinental Gas Pipe Line Corporation (Transco) for redelivery to Texas Eastern Transmission Corporation at Northern's Starks Compressor Station. Because of the reduced production in the gulf coast area, Northern states that it now delivers this production to Transco at the Johnson's Bayou Plant, and these circumstances make it unnecessary for Northern's gulf coast production to be delivered to the Starks Compressor Station. Northern further States that Northern and Transco entered into a transportation agreement whereby Transco will deliver this production directly to Houstion Pipe Line Company near Bammel, Texas, negating the need for deliveries at the Starks Compressor Station.

Northern further states that it has suspended operation of the Starks Compressor Station and anticipates no further operation of the facilities to be required. Northern also states that it proposes to utilize said compressors elsewhere on Northern's system or sell them to potential buyers.

Comment date: January 5, 1988, in accordance with Standard Paragraph F at the end of this notice.

4. Associated Natural Gas Company a division of Arkansas Western Gas Company and Associated Natural Gas Company

[Docket No. CP87-101-000]

Take notice that on December 1, 1987, Associated Natural Gas Company, a division of Arkansas Western Gas Company (ANG Division), P.O. Box 1288, Fayetteville, Arkansas 72702-1288, and Associated Natural Gas Company (Associated), 405 West Park Street, Blytheville, Arkansas 71215 (Applicants), filed in Docket No. CP87-101-000 a joint application, pursuant to sections 7(b), 7(c) and 7(f) of the Natural Gas Act (NGA), for authorization to permit Associated to abandon certain natural gas facilities, for a certificate of public convenience and necessity authorizing the ANG division to acquire by merger and to operate those same facilities, for a Section 7(f) service area determination covering a portion of the Associated facilities to be acquired, for an Order No. 63 blanket certificate, and for a declaratory order, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically the Applicants have requested a certificate of public convenience and necessity authorizing the ANG Division to acquire by merger and operate the facilities of Associated which are subject to the Commission's jurisdiction. It is stated that Associated would be merged into Arkansas Western Gas Company (AWG), a natural gas public utility which serves approximately 78,000 local distribution customers in northwest Arkansas. The Applicants assert that, upon the merger, the acquired Associated facilities would be maintained and operated through the ANG Division, which would be an operating division of AWG. It is asserted that the sales and services currently provided by Associated would continue without interruption or change upon the proposed merger.

Applicants state that the jurisdictional facilities to be acquired by the ANG Division include approximately 263 miles of natural gas transmission facilities located in the States of Missouri and Arkansas, and a 55,000 barrel liquified natural gas plant located near Blytheville, Arkansas. Additionally, because it is indicated that Associated would cease to exist upon the merger, the Applicants have further requested that Associated be authorized to abandon those same jurisdictional facilities. It is further stated that the total cost to AWG for the acquisition is $31,294,600, of which $4,470,605 represents an amount for Associated's jurisdictional facilities.

In conjunction with the requested certificate and abandonment authorization, the ANG Division has also requested the Commission for a service area determination under section 7(f) of the NGA covering the above jurisdictional facilities to be acquired from Associated, and within which the ANG Division may extend or enlarge such facilities without further authorization from the Commission.

The Applicants have further requested that the Commission issue a declaratory order confirming that neither the proposed acquisition and operation of Associated's facilities, nor the issuance of the Certificate to the ANG Division, will alter or affect the status of Associated's existing non-jurisdictional facilities which would also be acquired by the ANG Division, or of the existing non-jurisdictional facilities of AWG.

The Applicants further assert that, upon the merger, AWG intends to deliver natural gas through its existing intrastate facilities to interstate pipelines for subsequent redelivery to the ANG Division for use as system supply. The Applicants request a declaratory order confirming that AWG's deliveries of gas would not be deemed to be either the interstate sale for resale or transportation of natural gas, and that AWG would not be required to obtain any authorization from the Commission under the NGA or the Natural Gas Policy Act (NGPA) to engage in such deliveries.

Finally, the Applicants state that it is their understanding that AWG would, upon the completion of the merger and acquisition of Associated, become a local distribution company for the purposes of the NGPA and the Order No. 63 blanket certificate regulations under § 284.224 of the Commission's Regulations 18 CFR 284.224. Accordingly, it is requested that AWG be issued, pursuant to § 284.222, a blanket certificate authorizing AWG to engage in the interstate transportation, sale, and assignment of natural gas to third-parties through its intrastate facilities to the same extent and in the same manner intrastate pipelines are authorized to engage in such activities under NGPA sections 311 and 312.

Comment date: January 5, 1988, in accordance with Standard Paragraph F at the end of this notice.

Standard Paragraph

F. Any person desiring to be heard or make any protest with reference to said filing should on or before the comment date file with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Lois D. Cashell,

Acting Secretary.

[FR Doc. 87-29085 Filed 12-17-87; 8:45 am]

BILLING CODE 6717-01-M

[Docket Nos. QF88-117-000 et al.]

Archer-Daniels-Midland Company et al.; Small Power Production and Cogeneration Facilities; Qualifying Status; Certificate Applications, etc.

December 15, 1987.

Comment date: Thirty days from publication in the **Federal Register**, in accordance with Standard Paragraph E at the end of this notice.

Take notice that the following filings have been made with the Commission.

1. Archer-Daniels-Midland Company

[Docket No. QF88-117-000]

On November 30, 1987, Archer-Daniels-Midland Company (Applicant), of 4666 Faries Parkway, Decatur, Illinois 62526, submitted for filing an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The topping-cycle cogeneration facility will be located in Decatur, Illinois. The facility will consist of 5 boilers and 4 steam turbine generating units. Steam produced by the facility will be used for process. The net electric power production capacity of the facility will be 100 MW. The primary energy source will be coal. Installation of the facility began in August, 1985.

2. Northeast Cogen, Inc.

[Docket No. QF88-111-000]

On November 24, 1987, Northeast Cogen, Inc. (Applicant), of 130 W. Main Street, Ft. Wayne, Indiana 46802, submitted for filing an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The topping-cycle cogeneration facility will be located in Solvay, New York. The facility will consist of two combustion turbine generating units. Steam produced by the facility will be sold to a manufacturing company or companies. The net electric power production capacity of the facility will be 40 MW. The primary energy source will be natural gas. Installation of the facility is scheduled to begin in the spring of 1988.

3. San Gorgonio Farms, Inc.

[Docket No. QF85-234-001]

On November 16, 1987, San Gorgonio Farms, Inc. (Applicant), of 21515 Hawthorne Boulevard, Suite 1059, Torrance, California 90503, submitted for filing an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The small power production facility is located on Whitewater Hill, North Palm Springs, California. The facility presently consists of two hundred two wind turbines with a combined electric generating capacity of 31 NW. Applicant proposes the addition of diesel generation to the facility to firm-up existing wind turbine capacity.

Standard Paragraph:

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party

must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Acting Secretary.

[FR Doc. 87-29062 Filed 12-17-87; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP87-479-000, Docket No. CP85-437-000, Docket No. CP85-552-000]

Wyoming-California Pipeline Co., Mojave Pipeline Co., and Kern River Gas Transmission Co; Application To Supply Natural Gas for Enhanced Oil Recovery in California, Intent To Supplement Environmental Impact Statement and Request for Comments on Its Scope

December 14, 1987.

Introduction

An application for the construction and operation of a natural gas pipeline has been filed with the Federal Energy Regulatory Commission (FERC) by Wyoming-California Pipeline Company (WyCal), pursuant to section 7(c) of the Natural Gas Act and 18 CFR 157, Subpart E. The pipeline would transport natural gas from various sources outside of California to the Bakersfield, California area for use in enhanced oil recovery (EOR) and related cogeneration projects. Producers of crude oil in the San Joaquin Valley would use the natural gas as boiler fuel to create steam which would be injected into the oil fields to produce crude oil not recoverable by primary recovery methods. Some of the steam would also be used to generate electricity. The producers currently use crude oil and a limited amount of natural gas for steam generation; the WyCal project would allow substitution of natural gas for the crude oil now used, and may allow entry in the market of producers which presently cannot get authority to burn oil due to air pollution restrictions.

WyCal would transport natural gas purchased by the producers. WyCal would not own the gas transported through the pipeline.

Background

Two other applications have been filed with the Commission to serve the EOR market. Specifically, in Docket No. CP85-552-000, Kern River Gas Transmission Company has proposed to build an 837 mile pipeline. In Docket No. CP85-437-000, Mojave Pipeline Company has proposed to build a 389 mile pipeline. Notice of the Commission's intent to prepare a draft environmental impact statement for these proposals was published in the **Federal Register** (50 FR 34,174).

WyCal proposes to follow essentially the same route as Kern River has proposed, to Las Vegas, Nevada, and then connect to the route proposed by Mojave via a connection identified as the East Las Vegas route, identified in the staff's final environmental impact statement (FEIS) to be released this week. The proposed WyCal pipeline deviates from the Kern River proposal at the northern end of the project for approximately 52 miles. Since the proposed WyCal project is basically the same as the Kern River and the Mojave project, a significant amount of work has already been completed as to the environmental impact caused by the construction and operation of the pipeline. The supplement issued to this notice will only address those areas of the WyCal project which deviate from the East Las Vegas route, and the Mojave and Kern River proposals.

Notice of Intent

Notice is hereby given that the staff of the FERC has determined that approval of this project would be a major Federal action significantly affecting the quality of the human environment. Therefore, pursuant to § 2.82(b) of the Commission's Rules of Practice and Procedure (18 CFR 2.82(b)), a supplement to the FEIS to be issued in Docket Nos. CP85-437-000 and CP85-552-000 will be prepared.

The Proposed WyCal Pipeline

The map attached hereto shows the location of the proposed WyCal pipeline and compressor stations. The total project is approximately 1,006.8 miles long, and will affect approximately 6,102 acres of Federal, state, private, and Indian lands during operation. The project would cross sixteen counties in four states, extending between Lincoln County, Wyoming, and the Bakersfield, California area.

The WyCal proposal would require the construction of four compressor stations. Facilities and equipment at the compressor stations would include compressors and a building to house them, buildings for storage, instrumentation and control, a communications tower, gas coolers, water supply, wastewater system, and electrical supply.

WyCal proposes to use a 100-foot-wide construction right-of-way (ROW) disturbing approximately 12,204 acres of land during construction. The compressor stations for the project would require approximately an additional 10 acres each. In addition to the facilities discussed above, several staging areas, of approximately 12 acres each, will be used for construction, and storage.

A permanent ROW of approximately 50 feet would be maintained. Except at aboveground facilities, access roads, and where the ROW crosses formerly wooded areas, the ROW could be used as it was before construction as long as structures were not built.

Construction of the WyCal Pipeline Project would be within or near:

Uinta National Forest (UT)
Manti-La Sal National Forest (UT)
Fishlake National Forest (UT)
Dixie National Forest (UT)
Moapa River Indian Reservation (NV)
Jean Off-Road-Vehicle Recreation Area (NV)
Sunrise Mountain Natural Area (NV)
Rainbow Gardens Natural Area (NV)
Fort Mohave Indian Reservation (AR)
Havasu National Wildlife Refuge (AR)
Edwards Air Force Base (CA)
California Desert Conservation Area (CA)
Pacific Crest National Scenic Trail (CA)
Elk Hills Naval Petroleum Reserve (CA)

Cooperating Agencies

The federal agencies that were asked to cooperate in the production of the Mojave and Kern River EIS will likewise be contacted in this case.

Any request agencies desiring cooperating agency status should send a request describing how they would like to be involved to: Lois Cashell, Acting Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426.

The request should reference Docket No. CP87-479-000 and should be received by January 14, 1988. Additional information about this project, including maps of limited areas of the proposed routes, and FERC's involvement in the EIS/EIR may be obtained from Mr. Robert K. Arvedlund, Environmental Analysis Branch, OPPR, at the address on this page or by telephone: (202) 357-9091. Mr. Arvedlund should be sent a copy of any request for cooperating agency status.

Cooperating agencies are encouraged to participate in the scoping process and to provide information to the FERC. Cooperating agencies are also welcome to suggest format and content modifications to facilitate ultimate adoption of the EIS; however the FERC will decide what modifications will be adopted in light of production constraints.

Comment and Scoping Procedure

A copy of this notice has been distributed to Federal, state, and local agencies, public interest groups, and parties to the FERC proceedings. Interested readers of this notice are encouraged to comment on anticipated environmental concerns associated with the project. Comments will be used by the FERC to identify the issues which require in-depth environmental analysis.

Comments (on the scope of the supplement to the FEIS) should also be addressed to the Secretary, Federal Energy Regulatory Commission. Recommendations that the EIS address specific issues should be supported with a detailed explanation of the need to consider such issues. Written comments should be submitted by January 14, 1988, and reference to Docket No. CP87-479-000. Mr. Arvedlund should also be sent a copy of the scoping comments.

Mailing Lists

Organizations and individuals receiving this Federal notice of intent to prepare a suplement to the FEIS have been selected to ensure public awareness of these projects and public involvement in the review process under NEPA. The supplement to the FEIS will be sent automatically to addresseees on the Federal Energy Regulatory Commission's official service list for the Mojave, Kern River, and WyCal projects, and to the appropriate Federal agencies, and state clearinghouses in states where each project is located.

Lois Cashell,

Acting Secretary.

[FR Doc. 87-29080 Filed 12-17-87; 8:45 am]

BILLING CODE 6717-01-M

Office of Hearings and Appeals

Implementation of Special Refund Procedures

AGENCY: Office of Hearings and Appeals, DOE.

ACTION: Notice of implementation of special refund procedures.

SUMMARY: The Office of Hearings and Appeals of the Department of Energy announces the procedures for disbursement of $206,764.89 (plus accrued interest) obtained as a result of a Consent Order which the DOE entered into with Eastern Oil Company of Tampa, Florida (Case No. KEF-0085). The fund will be available to certain identified wholesale customers and unidentified retail customers of Eastern motor gasoline, diesel fuel, and kerosene.

DATE AND ADDRESS: Applications for Refund of a portion of the consent order fund must be filed within 90 days of publication of this notice in the **Federal Register** and should be addressed to: The Eastern Oil Company Proceeding, Office of Hearings and Appeals, Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585. All applications should conspicuously display a reference to Case No. KEF-0085.

FOR FURTHER INFORMATION CONTACT: Richard W. Dugan, Associate Director, Office of Hearings and Appeals, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 586-2860.

SUPPLEMENTARY INFORMATION: In accordance with § 205.282(c) of the procedural regulations of the Department of Energy, 10 CFR 205.282(c), notice is hereby given of the issuance of the Decision and Order set out below. The Decision and Order relates to a Consent Order entered into by Eastern Oil Company of Tampa, Florida. The Consent Order settled possible pricing violations with respect to the firm's sales of motor gasoline, diesel fuel, and kerosene to certain identified wholesale customers and unidentified retail customers during the November 1, 1973 through October 31, 1974 consent order period.

The Office of Hearings and Appeals previously issued a Proposed Decision and Order which tentatively established a two-stage refund procedure and solicited comments from interested parties concerning the proper disposition of the consent order fund. The Proposed Decision and Order discussing the distribution of the consent order funds was issued on April 21, 1987. 52 FR 15311 (April 28, 1987).

As the Decision and Order indicates, Applications for Refunds from the consent order fund may now be filed. Applications will be accepted provided they are postmarked no later than 90 days after publication of this Decision and Order in the **Federal Register.**

Applications will be accepted from the identified wholesale customers and unidentified retail customers who purchased motor gasoline, diesel fuel, and kerosene from Eastern during the period November 1, 1973 through October 31, 1974. The specified information required in an Application for Refund is set forth in the Decision and Order. The Decision and Order also addresses the distribution of any funds remaining after the processing of first-stage claims is completed.

Dated: December 14, 1987.

George B. Breznay,

Director, Office of Hearings and Appeals.

Decision and Order

December 14, 1987.

Name of Firm: Eastern Oil Company.

Date of Filing: December 3, 1986.

Case Number: KEF-0085.

Under the procedural regulations of the Department of Energy (DOE), the Economic Regulatory Administration (ERA) of the DOE may request the Office of Hearings and Appeals (OHA) to formulate and implement special procedures to make refunds in order to remedy the effects of alleged violations of the DOE regulations. *See* 10 CFR Part 205, Subpart V. In accordance with the provisions of Subpart V, on December 3, 1986, the ERA filed a Petition for the Implementation of Special Refund Procedures in connection with a Consent Order which the DOE entered into with Eastern Oil Company (Eastern).

I. Background

Eastern is a "reseller-retailer" of petroleum products as that term was defined in 10 CFR 212.31. Eastern sells motor gasoline, diesel fuel, and kerosene in the states of Florida, Kentucky, and Tennessee. An ERA audit of the firm's records revealed possible violations of the Mandatory Petroleum Price Regulations at 10 CFR Part 212, Subpart F. As a result, on November 17, 1977, the ERA issued a Remedial Order in which it found that Eastern had overcharged its retail and wholesale customers in sales of motor gasoline, diesel fuel and kerosene during the period November 1, 1973 thorugh October 31, 1974. Subsequently, on February 5, 1986, Eastern entered into a Consent Order with the DOE in order to settle its disputes with the DOE concerning the transactions covered by the Remedial Order.[1] The Consent Order states that Eastern does not admit that it committed any violations.

Eastern has remitted to the DOE a total of $206,764.89 to settle alleged overcharges during the period November 1, 1973 through October 31, 1974 (the consent order period). This amount consists of: (i) $115,383 for alleged overcharges (plus interest through December 31, 1985) in sales to retail customers of diesel fuel and kerosene and certain identified wholesale customers of motor gasoline, diesel fuel,

[1] Eastern appeal of the November 17, 1977 Remedial Order was denied in large part, but the case was remanded to the ERA for reconsideration of specified issues and recalculation of the violation amount. *See Eastern Oil Co.*, 3 DOE § 80.108 (1979). The ERA issued a Revised Remedial Order, which was again appealed by Eastern. The appeal was denied, with certain modifications regarding the disposition of the refunds. *See Eastern Oil Co.*, 9 DOE § 80.129 (1982). On July 22, 1985, the ERA issued an Order for Disposition of Refunds (Disposition Order), which was appealed to OHA by Eastern. The Appeal was settled by the Consent Order.

and kerosene: [2] (ii) $85,000 for alleged overcharges (plus interest through December 31, 1985) in retail sales of motor gasoline; and (iii) $6,381.89 in interest on the firm's installment payments of the consent order amounts.[3]

On April 21, 1987, the OHA issued a Proposed Decision and Order (PDO) setting forth a tentative plan for the distribution of the Eastern consent order funds. 52 FR 15371 (April 28, 1987). We stated in the PDO that the basic purpose of a special refund proceeding is to make restitution for injuries that were suffered as a result of alleged or adjudicated violations of the DOE regulations. In order to effect restitution in this proceeding, we proposed to establish a claims procedure whereby applications for refund would be accepted from customers who can demonstrate that they were injured as a result of Eastern's alleged overcharges during the consent order period.

In establishing the procedures proposed in the PDO, we relied on information in the Revised Remedial Order issued to Eastern. An exhibit to that Order identifies the wholesale customers allegedly overcharged by Eastern and lists the total alleged overcharge amounts in retail sales of motor gasoline, diesel fuel, and kerosene. Based on this information, we found in the PDO that the identified wholesale customers and the unidentified retail customers are most likely the parties who were adversely affected by Eastern's alleged overcharges, and accordingly, we proposed that they be the parties eligible for refunds in this proceeding.

In the PDO we also proposed to adopt a number of presumptions concerning injury. These presumptions excuse certain categories of refund applicants that purchased Eastern products from making a detailed demonstration of injury, thus simplifying the refund process for these applicants. For example, we tentatively found that end-users (ultimate consumers) whose businesses are unrelated to the petroleum industry would not be required to provide a detailed demonstration that they were injured by Eastern's alleged overcharges. Additionally, we proposed a small-claims presumption regarding resellers of Eastern products (including retailers and refiners). Under such a presumption, a claimant seeking total refunds of $5,000 or less (excluding interest) is not required to submit any evidence of injury, beyond establishing the volume of Eastern products it purchased during the settlement period. Resellers seeking over $5,000 and spot purchasers would be required to provide a more detailed injury showing.

In order to give notice to all potentially affected parties, a copy of the PDO was published in the Federal Register and comments regarding the proposed refund procedures were solicited. We received comments concerning our proposed procedures from Eastern and from United Petroleum (United), one of the wholesale customers identified in the Revised Remedial Order. These comments will be addressed below in our discussion of the final procedures to be adopted for this proceeding.

II. Jurisdiction and authority

The procedural regulations of the DOE set forth general guidelines which may be used by OHA in formulating and implementing a plan of distribution for funds received as a result of enforcement proceedings. 10 CFR Part 205, Subpart V. The DOE policy is to use the Subpart V process to distribute such funds. For a more detailed discussion of Subpart V and the authority of OHA to fashion procedures to distribute refunds, *see Office of Enforcement*, 8 DOE ¶82,597 (1981) (*Vickers*). As we stated in the PDO, we have reviewed the record in the present case and have determined that a Subpart V proceeding is an appropriate mechanism for distributing the consent order fund. We will therefore grant the ERA's petition and assume jurisdiction over the Eastern consent order fund.

III. Refund Procedures

A. Refund Claimants

The consent order fund will be distributed to Eastern customers who were adversely affected by the firm's alleged overcharges. As we indicated in the PDO, Exhibit B to the Revised Remedial Order issued to Eastern and the amounts by which they were allegedly overcharged. This exhibit also lists the total overcharge amounts in retail sales of motor gasoline, diesel fuel, and kerosene. Five of the identified customers, who are listed in the Appendix to this Decision and Order, and the unidentified retail customers of Eastern motor gasoline, diesel fuel, and kerosene are most likely to be the parties who were adversely affected by any Eastern overcharges during the consent order period.[4]

In its comments regarding the Proposed procedures, Eastern contends that one of the identified customers, United, is not entitled to a refund. In support of this contention, Eastern asserts that it has previously proven that United was not overcharged. *See* May 7, 1987 letter from J. Danforth Browne, Esq., Eastern's counsel, to Richard W. Dugan, Associate Director of the Office of Hearings and Appeals. Eastern's argument is unpersuasive. All issues regarding the merits of the Eastern enforcement proceeding were resolved as a result of the Consent Order entered into between Eastern and the DOE. We do not intend to reopen that proceeding.[5] Among the issues before us in this special refund proceeding are: (i) How to allocate the consent order fund, and (ii) whether applicants suffered economic injury. We will not adopt Eastern's suggestion that we should now find that United is not eligible for a refund in this proceeding. Instead, we will establish a claims procedure in which we will accept refund applications from United and the other customers indicated above.

B. Showing of Injury

In order to be eligible for a refund, an applicant must establish that it was injured as a result of Eastern's alleged overcharges. To demonstrate injury, a reseller claimant must provide evidence that it would have maintained its prices for the covered products purchased from Eastern at the same level had the overcharges not occurred. Accordingly, a reseller claimant should show that at the time of its purchases from Eastern, market conditions would not permit it to increase its prices to pass through the additional costs associated with the overcharges.[6] *See Office of Enforcement*, 10 DOE ¶85,056 (1983); *see also Office of Enforcement*, 10 DOE ¶85,029 (1982). In addition, the reseller must show that it maintained a "bank" of unrecovered increased product costs in order to demonstrate that it did not subsequently recover these costs by increasing its prices.[7] The maintenance of a bank will not, however, automatically establish injury. *See Tenneco Oil Co./Chevron U.S.A.*, 10 DOE ¶85,014 (1982).

The comments filed by United relate to the required showing of injury. United protests that the burden of proof for resellers claiming refunds over the proposed $5,000 small claims threshold will be unduly burdensome and time consuming and will discourage refund claimants from applying. *See* June 12, 1987 letter from Catherine Zoller of United Petroleum to Diane Wasch, OHA Staff Analyst. United also states that it no longer retains the necessary cost "bank" information to make the injury showing and contends that since it was identified as a overcharged customer it should not be required to submit further proof of injury.

United has misunderstood the purpose of the injury showing. Although United is eligible for a potential refund of $75,824 based upon the findings in the Eastern enforcement proceeding, the question remains whether or not United passed through any or all of the alleged overcharges to its customers. If it did pass through the alleged overcharges, it did not suffer economic injury as a result of Eastern's pricing practices. In that case, it would not be eligible for a refund. *See* 10 CFR 205.280 ("This Subpart establishes special procedures pursuant to which refunds may be made to injured persons * * *"). The burden of proof lies with the company to prove injury. *See Inland U.S.A., Inc./UCO Oil Co.*, 13 DOE ¶85,288 (1985), *reconsideration denied*, 13 DOE ¶85,394 (1986).

United's argument that it no longer has information regarding its banks of unrecouped costs provides no basis for changing the injury showing required in this proceeding.[8] If United disposed of its records, that action was prematurely taken. The firm has been provided notice at all stages of the Eastern enforcement proceeding and this refund proceeding. The firm was therefore certainly aware of the ongoing proceedings involving Eastern's alleged overcharges and should have maintained the records necessary to defend its interests. Moreover, until an amendment to the recordkeeping regulations on February 5, 1985, United, like all firms in the petroleum industry, was required to maintain records regarding its pricing of petroleum products during the period of controls. *See* 50 FR 4957 (February 5, 1987) (preamble to amendment to 10 CFR 201.1 eliminating recordkeeping for most firms). The preamble to the February 5 amendment put firms on notice that they might wish to retain voluntarily their records in order to support Subpart V claims. We therefore reject United's argument that it should not be required to make a showing of injury.

1. The Small Claims Presumption

As proposed in the PDO, we will establish a small claims presumption of injury for applicants requesting refunds of $5,00 or less. The principal purpose of the small claims presumption is to permit claimants to participate in the refund process without incurring inordinate expenses, and to enable OHA to consider the refund applications in the most efficient way possible in view of the limited resources available. *See McCarty Oil Co.*, 13 DOE ¶ 85,012 at 88,035 (1985). Making a detailed showing of injury may be too complicated and burdensome for resellers who purchased relatively small amounts of covered products from Eastern. For example, such firms may have limited accounting and data-retrieval capabilities and may therefore be unable to produce the records necessary to prove that they did not pass on the overcharges to their own customers. The cost to the applicant and to the government of compiling and analyzing information sufficient to make a detailed showing of injury should also not exceed the amount of the refund to be gained. We thus shall adopt a small claims presumption in this proceeding. *See, e.g., Aztex Energy Co.*, 12 DOE ¶85,116 (1984); *Marion Corp.*, 12 DOE ¶85,014 at 88,031–88,032 (1984). Any reseller applicant claiming a refund of $5,000 or less, based upon the potential refund amounts set forth in the Appendix to this Decision and Order need not make a detailed showing of injury in order to be eligible to receive a refund. These applicants need only document their purchases from Eastern.[9]

2. Spot Purchasers

We further adopt our proposal that resellers that made spot purchases from Eastern are ineligile to receive a refund, even a refund below the threshold level, unless they can make a showing that rebuts the presumption that they were not injured. Spot purchasers tend to have considerable discretion as to where and when to make purchases and would therefore not have made spot purchases unless they were able to pass through the full amount of the alleged overcharges to their own customers. *See Vickers*, 8 DOE at 85,369–97. Accordingly, any reseller claimant who was a spot purchaser must submit evidence to rebut the spot purchaser presumption and establish the extent to which it was injured as a result of its spot purchases.

3. End-Users

In the PDO, we made a tentative finding that end-users and ultimate consumers of Eastern covered products whose businesses are unrelated to the petroleum industry were injured by the overcharges addressed in this proceding. Unlike regulated firms in the petroleum industry, members of this group generally were not subject to price controls during the time covered by the Consent Order, and thus were not required to keep records which justified selling price increases by reference to cost increases. For these reasons, an analysis of the impact of the overcharges on the final price of non-petroleum goods and services would be beyond the scope of a special refund proceeding. *See Office of Enforcement*, 10 DOE ¶ 85,072 (1983): *see also Texas Oil & Gas Corp.*, 12 DOE ¶ 85,069 (1984), and cases cited therein. We have received no comments objecting to this finding. We will therefore adopt our proposal that end-users of petroleum products purchased from Eastern need only document their purchases from the

---

[2] In the Consent Order, Eastern agreed to pay $150,598, the total amount of the alleged overcharges (plus interest) in sales to these categories of customers, minus any payments already made by Eastern to any of the identified customers. The firm was given credit by the ERA for two payments totalling $35,215 which it made prior to the execution of the Consent Order to two of seven identified customers, Martin Oil Company and Unoco Oil Company. These customers have signed releases attesting that their claims against Eastern under the terms of the Disposition Order (*see* n.1, *supra*) have been satisfied in full and waiving any further claim to a refund. The firm has therefore remitted $115,383 ($150,598 minus $35,215) to the DOE to compensate for the alleged overcharges to five wholesale customers and its retail customers of diesel fuel and kerosene.

[3] We have proportionally increased the principal amounts allocated to the various customer groups to reflect the installment interest. The amounts allocated to the customer groups are:

Identified customers: $101,026.66
Retail diesel sales: $11,228.43
Retail kerosene sales: $6,803.52
Retail motor gasoline sales: $87,708.26

[4] The two identified Eastern customers who have already received direct payments from the firm (Martin Oil Co. and Unoco Oil Co.) will not be eligible to receive refunds in this proceeding. *See* n.2. They are therefore not listed in the appendix.

[5] We note, however, that in its initial Appeal of the 1977 Remedial Order, Eastern provided no evidence to substantiate its claim that United was not overcharged, and, accordingly, we rejected this contention. *Eastern Oil Co.*, 3 DOE ¶80,108 at 80,540–80,541 (1979).

[6] Generally, this showing is made by use of the "competitive disadvantage" methodology. Under this methodology, the prices paid by the applicant to the consent order firm during each month of the consent order period are compared with average market prices as reported in *Platt's Oil Price Handbook and Oilmanac*. *See Tenneco Oil Co./Mid-Continent Systems, Inc.*, 10 DOE ¶ 85,009 (1982).

[7] Retailer and reseller applicants will be required to submit bank information in connection with sales made from the first month in which they purchased Eastern products through July 14, 1979 and April 30, 1980, respectively, the dates on which the banking requirement for retailers and most resellers terminated. 44 FR 42541 (July 19, 1979); 45 FR 29546 (May 2, 1980).

[8] In accordance with our previously stated position regarding firms that do not have contemporaneous cost bank data, we will permit United to reconstruct or approximate its cost banks using profit margin data. *See, e.g., Husky Oil Co.*, 13 DOE ¶ 85,045 at 88,113–114 (1985); *Union Texas Petroleum Corp./Arrow Enterprises, Inc.*, 15 DOE ¶85,087 (1986).

[9] United and any other reseller whose calcuiated refund (excluding interest) exceeds the threshold amount may elect to apply for a refund of $5,000 without being required to make a detailed demonstration of injury.

firm to make a sufficient showing that they were injured by the alleged overcharges.

C. Calculation of Refund Amounts

As we stated in the PDO, the use of the information in the Revised Remedial Order and the Disposition Order will result in refunds which most closely correspond to the injuries which the Eastern customers probably experienced. Specifically, we note that (i) the ERA audit of Eastern was thorough and relatively narrow in scope; (ii) the Consent Order is limited to the same time period and the same products as the audit; and (iii) the Consent Order states that it is intended to resolve the disputes concerning Eastern's compliance with the remedial provisions of the Revised Remedial Order, as modified by the Disposition Order.

We thus proposed that the allocable share of the consent order fund for each of the five identified Eastern customers who succesfully meets the specified injury requirements be equal to the amount by which it was allegedly overcharged, plus the interest on this amount through December 31, 1985, and a propostional amount of the installment interest. With the exception of Eastern's comments concerning United, which we have rejected in Part IIIA, *supra*, we have received no adverse comments on this proposed allocation on the consent order funds. Hence we will adopt it. The maximum potential refund for each identified customer is listed in the Appendix to this Decision. In addition, interest which has accrued on the money in the escrow account will be added to the refund of each successful applicant in proportion to the size of its refund.

We will also adopt a volumetric refund methodology to allocate the funds attributable to Eastern's alleged overcharges in its retail motor gasoline, diesel fuel, and kerosene sales.[10] In this case, there will be a separate volumetric refund amount for each of the three products. We have chosen to use three separate volumetric amounts because the overcharge amounts listed in the Revised Remedial Order, when considered in conjunction with Eastern sales volume data, lead us to the conclusion that the per gallon amount of overcharges for the three products varies widely. We thus shall utilize three different volumetric refund amounts in order to distribute the refund monies in a manner which more closely approximates the claimants' actual injury. *See, e.g., E.B. Lynn Oil Co.*, 14 DOE ¶ 85,228 (1986); *Blex Oil, Inc.*, 13 DOE ¶ 85,019 (1985).

We have determined the volumetric refund factors by dividing the three product pools by the estimated total volume of the relevant product sold by Eastern to its retail customers during the consent order period. This results in per gallon refund amounts of $0.0039974 for motor gasoline, $0.03337951 for diesel fuel, and $0.0139813 for kerosene.[11] A successful claimant's refund will be based on the number of gallons of the product(s) it purchased from Eastern during the consent order period multiplied by the applicable volumetric refund amount(s). In addition, the interest which has accrued on the money in escrow will be added to each successful applicant's refund in proportion to the size of its refund.

As in prior cases, only claims for at least $15 will be processed. We have found through our experience in prior refund cases that the cost of processing claims in which refunds are sought for amounts less than $15 outweighs the benefits of restitution in those situations. *See, e.g., Uban Oil Co.*, 9 DOE ¶ 82,541 at 85,225 (1982). *See also* 10 CFR 205.286(b).

D. Application for Refund Procedures

We have determined that the procedures described in the PDO are the most equitable and efficacious means of distributing the Eastern consent order fund. Accordingly, we will now accept Applications for Refund from eligible customers who purchased petroleum products from Eastern during the period November 1, 1973 through October 31, 1974. There is no official application form. Applications for Refund should be written or typed on business letterhead or personal stationery. The following information should be included in all Applications for Refund:

The consent order firm's name (Eastern Oil Company) and case number (KEF–0085) and the applicant's name and address should be prominently displayed on the first page.

The name, position title, and telephone number of a person who may be contacted by us for additional information concerning the application.

The manner in which the applicant used Eastern's petroleum products, i.e., whether it was a reseller, retailer, or end-user.

The volume of Eastern motor gasoline, diesel fuel, or kerosene that the applicant purchased in each month of the period of time for which it is claiming it was injured by the alleged overcharges. If the product was not purchased directly from Eastern, the claimant must include a statement setting forth the reasons for believing the product originated from the firm.

A statement of whether the applicant was in any way affiliated with Eastern. If so, the applicant should state the nature of the affiliation.

A statement of whether there has been any change in ownership of the entity that purchased petroleum products from Eastern since the end of the consent order period. If so, the name and address of the current (or former) owner should be provided.

A statement of whether the applicant is or has been involved as a party in any DOE or private Section 210 enforcement actions. If these actions have been terminated, the applicant should furnish a copy of any final order issued in the matter. If the action is ongoing, the applicant should describe the action and its current status. The applicant is under a continuing obligation to keep the OHA informed of any change in status during the pendency of its Application for Refund. *See* 10 CFR 205.9(d).

The following signed statement:

I swear (or affirm) that the information submitted is true and accurate to the best of my knowledge and belief.

In addition, United and any other reseller or retailer applicant who wishes to claim a refund in excess of $5,000 must also:

(i) State whether it maintained banks of unrecouped product cost increases and furnish the OHA with monthly bank calculations from the beginning of the consent order period until the end of the banking regulations (July 14, 1979 for retailers; April 30, 1980 for most resellers); and

(ii) Submit evidence to establish that it did not pass through the alleged overcharge to its customers. For example, a firm may submit weighted average monthly purchase prices for each product purchased from Eastern for each month of the consent order period and compare those prices with average prices in the firm's market area for each of those months. (In the absence of an accurate market survey provided by the applicant, the OHA will use the market price information contained in *Platt's Oil Price Handbook and Oilmanac.*)

All Applications should be sent to: Office of Hearings and Appeals, Department of Energy, 1000 Independence Ave. SW., Washington, DC 20585. The applications must be filed in duplicate and must be received within 90 days from the date of publication of this Decision and Order in the **Federal Register**. A copy of each application will be available for public inspection in the Public Reference Room of the Office of Hearings and Appeals, Forrestal Building, Room 1E–234, 1000 Independence Avenue, SW., Washington, DC 20585. Any applicant that believes that its application contains confidential information must so indicate on the first page of its Application and submit two additional copies of its Applications from which the material alleged to be confidential has been deleted together with a statement specifying why the information is alleged to be privileged or confidential.

E. Distribution of Funds Remaining after First Stage

Any funds that remain after all first stage claims have been decided will be distributed in accordance with the provisions of the Petroleum Overcharge Distribution and Restitution Act of 1986 (PODRA), Pub. L. 99–509, Title III. *See* Fed. Energy Guidelines ¶ 11,702 et seq. PODRA requires that the Secretary of Energy determine annually the amount of oil overcharge funds that will not be required to refund monies to injured parties in Subpart V proceedings and make those funds available to state governments for use in four energy conservation programs. PODRA sections 3003(c) and (d). The Secretary has delegated these responsibilities to the OHA, and any funds in the Eastern consent order escrow account that the OHA determines will not be needed to effect direct restitution to injured Eastern customers will be distributed in accordance with the provisions of PODRA.

It Is Therefore Ordered That:

(1) Applications for Refund from the funds remitted to the Department of Energy by Eastern Oil Company pursuant to the Consent Order executed on February 6, 1986, may now be filed.

(2) All applications must be filed no later than 90 days after publication of this Decision and Order in the **Federal Register**.

George G. Breznay,

Director, Office of Hearings and Appeals.

Date: December 14, 1987.

Appendix.—Eastern Oil Company, Case No. KEF–0085

I. Identified customers	Potential refund
Northside Propane Gas Co.	$3,846.12
Robert South	$12,960.97
United Petroleum, Inc.	$70,804.83
Anthony Llanes	$5,441.48

Appendix.—Eastern Oil Company, Case No. KEF–0085—Continued

I. Identified customers	Potential refund
Highway Transport Co.	$3,048.85

II. Unidentified customers	Volumetric refund amount
Diesel Retail Customers	$0.03337951
Kerosene Retail Customers	$0.0139813
Gasoline Retail Customers	$0.0039974

[FR Doc. 87–29120 Filed 12–17–87; 8:45 am]

BILLING CODE 6450–01–M

[10] We recognize that the impact on an individual purchaser could have been greater than the applicable volumetric refund amount, and we will allow any purchaser to file a refund application based on a claim that it suffered a disproportionate share of the alleged overcharges. *See, e.g., Amtel, Inc.*, 12 DOE ¶ 85,073 at 88, 233–34 (1984); *Sid Richardson Carbon and Gasoline Co. and Richardson Products Co./Siouxland Propane Co.*, 12 DOE ¶ 85,064 at 88,164 (1984).

[11] These figures differ from the volumetric refund factors proposed in the PDO as a result of a recalculation of the total volume of each product sold.

ENVIRONMENTAL PROTECTION AGENCY

[ER-FRL-3303-9]

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared November 30, 1987 through December 4, 1987 pursuant to the Environmental Review Process (ERP), under section 309 of the Clean Air Act and section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 382–5075/76. An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in **Federal Register** dated April 24, 1987 (52 FR 13749).

Draft EISs

ERP No. D–AFS–D02003–VA, Rating EC2, South Coeburn Field, Natural Gas Pipeline and Road Construction and Drilling Development, Approval, Clinch Ranger District, Jefferson National Forest, Wise and Scott Counties, VA. **SUMMARY:** EPA's review identified deficiencies in stream and riparian definitions, wetland identification, sediment service and controls, groundwater impacts, and the alternatives and analysis section.

ERP No. D–BOP–D81015–PA, Rating EC2, Schuylkill Federal Correctional Institution Complex, Construction and Operation, Schuylkill County, PA. **SUMMARY:** EPA expressed concern with the requested additional information on waste disposal, public utilities service, and other support services for the proposed facility.

ERP No. D–FHW–B40066–00, Rating EO2, US 7 in Bennington, VT Improvements, US 7 to US 7/VT–67A Interchange; VT–9 in Bennington, VT and NY–7 in Hoosick, NY Improvements, VT–9 or NY–7 to US 7-VT–67A Interchange or VT–9 east of Bennington Village, Funding, Bennington County, VT and Rensselaer County, NY. **SUMMARY:** An onsite inspection by EPA will be required to determine if wetland impacts in the build corridors are avoidable and/or significant. Once the least environmentally damaging alternative is identified, unavoidable impacts to special aquatic sites must be mitigated on at least a 1:1 value basis. EPA recommends that a closed drainage system be installed through the Bennington Aquifer Protection Area should alternative 5 or 5A be selected, that current de-icing practices be reevaluated, and that alternative de-icing measures be considered. EPA also requests that additional air quality analysis be conducted for full disclosure of air quality impacts. Finally, EPA requests a meeting with FHWA and Vermont's Agency of Transportation to discuss EPA's comments.

ERP No. D–FHW–E40709–00, Rating LO, US 27/Central Bridge and Approach Roads Replacement, Newport, NY to Cincinnati, OH, Ohio River, Funding and 404 Permit, Campbell County, KY and Hamilton County, OH. **SUMMARY:** ERP No. D–FHW–F40294–OH, Rating EC2, Trotwood Connector Construction, OH–49 to US 35 and Turner Road Extension, Turner Road/Wolf Road Intersection to the Trotwood Connector, Funding and 404 Permit, Montgomery County, OH. **SUMMARY:** EPA noted concern with potential project impacts on air quality and adverse noise levels within the community. In addition, clarification of the rationale for selecting the preferred alignment alternatives was requested in the final EIS.

ERP No. D–FRC–K05050–CA, Rating LO, EL Portal Hydroelectric Project, Construction, Operation and Maintenance, License, Merced River, Maripose County, CA. **SUMMARY:** EPA expressed support for the no action alternative recommended by FERC staff, particularly in light of the Merced River Wild and Scenic River Act which prohibits hydropower developments on the river segment where the El Portal project is proposed.

Final EISs

ERP No. F–AFS–J65137–MT, Gallatin National Forest, Land and Resource Management Plan, Implementation, Madison, Carbon, Gallatin, Park, Meagher, and Sweet Grass Counties, MT. **SUMMARY:** The document does not provide sufficient information on its monitoring program to address EPA's concerns regarding timely detection and remediation of adverse environmental

VOL 52 ISS 243 DE 18 1987 UMI

BEST COPY AVAILABLE

impacts. EPA has requested the guidance documents indicated in the final Forest Plan be provided to assist in our determination of the monitoring program's adequacy.

ERP No. F-AFS-J65139-MT, Deerlodge National Forest, Land and Resource Management Plan, Implementation, Silver Bow, Powell, Deerlodge, Madison, Jefferson and Granite Counties, MT. **SUMMARY:** The document partially addressed EPA's comments on the draft EIS. EPA is concerned that the extent and frequency of the present monitoring plan is insufficient to detect and remedy adverse impacts on a timely basis. EPA would like to participate in review of the guidance documents for this monitoring plan and the application of the environmental impact analysis process to specific projects.

ERP No. F-CDB-K36093-CA, Adoption-Telegraph Canyon Creek Flood Control Project, Community Development Block Grant Funds, City of Chula Vista, San Diego County, CA. **SUMMARY:** EPA stated that it would not object to HUD's release of funds for the project provided that the conditions previously agreed upon by the COE and FWS in the 1983 final EIS remain a part of the project.

ERP No. F-COE-E6157-TN, Mill Creek Basin Flood Damage Reduction Plan, Mill and Sevenmile Creeks, Dry Dam Construction, Implementation, Davidson and Williamson Counties, TN. **SUMMARY:** EPA does not anticipate significant adverse environmental consequences form the proposed action.

ERP No. F-COE-35038-OH, Ashtabula Harbor, Dredging and Confinement of Polluted Sediments, Implementation, Ashtabula County, OH. **SUMMARY:** We concur with the COE and the plan for the dredging and disposal of Ashtabula Harbor sediments. We commend the COE on its carefully conceived plan which, if implemented with appropriate operational modifications, will result in tangible environmental benefits to the Ashtabula River, and, in turn, to Lake Erie.

ERP No. F-COE-G35016-LA, Lake Pontchartrain and Lake Maurepas Clam Shell Dredging, 10-year Permit Renewal, Section 10 and 404 Permit, Livingston, Jefferson and St. Charles Parishes, LA. **SUMMARY:** EPA has no objections to the proposed action with appropriate mitigation. Such mitigation should be included in any permits issued for this project.

ERP No. F-COE-G35017-LA, Atchafalaya, East Cote Blanche and Four League Bays, Oyster Shell Dredging Operation, Section 10 and 404 Permit, Iberia, St. Mary, Terrebonne and Vermilion Parishes, LA. **SUMMARY:** EPA has no objections to the proposed action with appropriate mitigation. Mitigation stipulations, including compensatory mitigation, should be considered in permit stipulations.

ERP No. F-COE-G36139-TX, El Paso Southeast Area Local Flood Control Plan, Implementation, 404 Permit, City of El Paso, El Paso County, TX. **SUMMARY:** The document adequately responded to EPA comments issued on the draft EIS and has no objections to the project as proposed.

ERP No. F-DOE-E00005-SC, Savannah River Plant Alternative Cooling Water Systems for C- and K-Reactors and D-Area Powerhouse, Construction and Operation, Implementation, Aiken, Barnwell and Allendale Counties, SC. **SUMMARY:** EPA concludes that DOE has not demonstrated a reasonable assurance that the DOE preferred once—through cooling tower system will assure the "protection and propagation of a balanced indigenous population of shellfish, fish and wildlife" as required for a section 316(a) variance to the South Carolina Water Quality Standards. The recirculating alternative, which is both clearly permittable and environmentally preferrable, should therefore be selected by DOE in the ROD for implementation.

ERP No. F-FHW-B40064-ME, Sears Island Marine Dry Cargo Terminal and Access Road Construction, Funding, Section 404 and 10 Permits, Waldo County, ME. **SUMMARY:** EPA has raised environmental objections to this project under NEPA and now recommends that the section 404 permit and federal grants be denied for the Sears Island proposal. This decision is based on EPA's position that the substantial adverse environmental impacts that the project would cause are both avoidable and unnecessary in light of the availability of a practicable, less environmentally damaging alternative at Mack Point.

ERP No. F-FHW-G40036-TX, Beltway 8 Section VI Circumferential Freeway Construction, US 59 South to I-45 South, Funding, City of Houston, Harris County, TX. **SUMMARY:** EPA finds the document satisfactorily responds to those areas of concern within EPA's jurisdiction and expertise and has no objection to the proposed action.

ERP No. F-FHW-L40157-AK, Eagle River Loop Road Connection to Hiland Drive/Glenn Highway Interchange, Funding, 404 Permit, Anchorage, AK. **SUMMARY:** EPA continues to have environmental concerns regarding residential noise impacts and secondary growth effects.

ERP No. F-MMS-A02221-00, 1988 Central, Western and Eastern Gulf of Mexico, Outer Continental Shelf (OCS) Oil/Gas Sales Nos. 113, 115, and 116, Lease Offerings, TX, AL, FL, LA and MS. **SUMMARY:** EPA expressed its continuing objection to unrestricted leasing in the Gulf planning areas and urged the MMS to adopt leasing stipulations to protect topographic highs and live bottoms. EPA also noted that such stipulation had been proposed for sale #113, the first of the three 1988 Gulf sales that will occur.

ERP No. F-SFW-L64034-AK, Selawik National Wildlife Refuge Comprehensive Conservation Plan, Wilderness Review and Wild River Plan, Implementation, Kotzebue Sound, AK. **SUMMARY:** Monitoring activities have been identified as necessary to ensure that selection of the preferred alternative does not result in adverse impacts. EPA's concern is that such activities may not occur without the additional funding that has also been identified as necessary. EPA has suggested that implementation of activities which require monitoring be delayed until funding can also be assured.

ERP No. F-SFW-L64035-AK, Nowitna National Wildlife Refuge Comprehensive Conservation Plan, Wilderness Review and Wild River Plan, Implementation, Yukon River Valley, AK. **SUMMARY:** Monitoring activities have been identified as necessary to ensure that selection of the preferred alternative does not result in adverse impacts. EPA's concern is that such activities may not occur without the additional funding that has also been identified as necessary. EPA suggested that implementation of activities which require monitoring be delayed until funding can also be assured.

Dated: December 15, 1987.

William D. Dickerson,

Deputy Director, Office of Federal Activities.

Biotechnology Science Advisory Committee; Open Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of open meeting.

SUMMARY: There will be a 1-day meeting of the Biotechnology Science Advisory Committee. The meeting will be open to the public. The Committee will be informed of and discuss issues associated with rulemaking for biotechnology within the Offices of Toxic Substances and Pesticide Programs. The Committee will also discuss confidentiality issues and be informed of recent produce reviews.

DATE: The meeting will be held on Tuesday, January 5, 1988, starting at 10 a.m. and ending at approximately 5 p.m.

ADDRESS: The meeting will be held at: The Crystal City Marriott Hotel, 1999 Jefferson Davis Highway, Arlington, VA.

FOR FURTHER INFORMATION CONTACT: Environmental Protection Agency, The TSCA Assistance Office, Office of Pesticides and Toxic Substances (TS-799), 401 M Street SW., Washington, DC 20460, (202-554-1404).

SUPPLEMENTARY INFORMATION: Attendance by the public will be limited to available space. The TSCA Assistance Office will provide summaries of the meeting at a later date.

Dated: December 15, 1987.

Victor J. Kimm,

Assistant Administrator for Pesticides and Toxic Substances.

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collection Requirements Submitted to Office of Management and Budget for Review

December 10, 1987.

The Federal Communications Commission has submitted the following information collection requirements to the Office of Management and Budget for review and clearance under the Paperwork Reduction Act (44 U.S.C. 3501 et seq.).

Copies of the submissions may be purchased from the Commission's copy contractor, Interior Transcription Service, (202) 857-3800, 2100 M Street NW., Suite 140, Washington, DC 20037. For further information on these submissions contact Terry Johnson, Federal Communications Commission, (202) 634-1535. Persons wishing to comment on these information collections should contact J. Timothy Sprehe, Office of Management and Budget, Room 3235 NEOB, Washington, DC 20503, (202) 395-4814.

OMB Number: 3060-0171
Title: Section 73.1125, Station main studio location
Action: Extension
Respondents: Businesses (including small businesses)
Frequency of Response: On occasion
Estimated Annual Burden: 36 Responses; 18 Hours
Needs and Uses: A licensee of an AM, FM, or TV broadcast station is required to notify the Commission when the station's main studio is relocated. This information informs the Commission of a change in mailing address and is used to ensure that the station is located within the principal community contour.

OMB Number: 3060-0176
Title: Section 73.1510, Experimental Authorizations
Action: Extension
Respondents: Businesses (including small businesses)
Frequency of Response: On occasion
Estimated Annual Burden: 30 Responses; 60 Hours
Needs and Uses: A licensee of an AM, FM, or TV broadcast station seeking an experimental authorization must file an informal application with the Commission describing the nature and purpose of experimentation. The information is used by Commission staff to ensure that the experimentation will not cause interference to another station.

OMB Number: 3060-0157
Title: Section 73.99, Presunrise service authorization (PSRA) and postsunset service authorization (PSSA)
Action: Extension
Respondents: Businesses (including small businesses)
Frequency of Response: On occasion
Estimated Annual Burden: 150 Responses; 38 Hours
Needs and Uses: A licensee of an AM radio broadcast station desiring to use a presunrise or postsunset service authorization must submit a letter of intent to the Commission. The letter is used by Commission staff to maintain complete technical information about the station and to ensure that interference is not caused to other stations.

OMB Number: 3060-0178
Title: Section 73.1560, Operating power and mode tolerances
Action: Extension

Respondents: Businesses (including small businesses)
Frequency of Response: On occasion
Estimated Annual Burden: 1,189 Responses; 1,189 Hours
Needs and Uses: Licensees of AM, FM, or TV broadcast stations must file a notification with the Commission when operating at reduced power for more than 10 consecutive days and upon restoration of normal operations. If normal operations cannot be restored within 30 days, licensees must file a written request for additional time. This information is used by the Commission to maintain complete and accurate technical information about station operations.

OMB Number: 3060–0207
Title: Section 73.961, Tests of the Emergency Broadcast System
Action: Extension
Respondents: Businesses (including small businesses)
Frequency of Response: Recordkeeping requirement
Estimated Annual Burden: 11,000 Recordkeepers; 13,750 Hours
Needs and Uses: This information is needed to maintain accurate records and documentation of broadcast station compliance with Commission rules, locate Emergency Broadcast System equipment failures, and to enhance and encourage station participation in the national, state, and local Emergency Broadcast System.

Federal Communications Commission.
William Tricarico,
Secretary.

Comment Dates Extended on Remand of Average Schedule Revisions

December 4, 1987.

On December 4, 1987, the Chief, Common Carrier Bureau extended [1] the comment and reply filing dates on the National Exchange Carrier Association's [NECA] September 17, 1985 proposed average schedule revisions, the data filed by NECA on September 15, 1987, and the record that was before the United States Court of Appeals for the District of Columbia Circuit in *City of Brookings et al. v. Federal Communications Commission.*[2] The original notice was published in the **Federal Register** November 12, 1987 (52 FR 43399).

As a consequence of the availability of additional information to the public, and the need to afford additional time for the analysis of that data, initial comments may be filed on or before January 5, 1988, and reply comments may be filed on or before February 3, 1988.

Persons wishing to file comments or reply comments should file five copies with the Secretary of the Federal Communications Commission (Room 222); two copies with the Policy and Program Planning Division, Common Carrier Bureau (Room 544); and one copy with the International Transcription Service (Room 245). [3] All comments and replies should be captioned: "In the Common Carrier Matter of: *City of Brookings* Remand Proceeding."

For further information, contact Kent Nilsson at (202)–632–6363.

Subject: Commission approval of National Exchange Carrier Association proposed revisions to the average schedules pursuant to 47 CFR 69.606(a).

Federal Communications Commission.
William J. Tricarico,
Secretary.

Applications for Consolidated Hearing; Hartke Communications Corp. et al.

1. The Commission has before it the following mutually exclusive applications for a new TV station:

Applicant	City/State	File No.	MM Docket No.
A. Hartke Communications Corp.	Key West, Florida.	BPCT–870212KJ.	87–546
B. Conch Republic Television, Inc.	Key West, Florida.	BPCT–870331LV.	
C. Penny Drucker.	Key West, Florida.	BPCT–870331IW.	

2. Purusant to section 309(e) of the Communications Act of 1934, as amended, the above applications have been designated for hearing in a consolidated proceeding upon the issues whose headings are set forth below. The text of each of these issues has been standardized and is set forth in its entirety under the corresponding headings at 51 FR 19347, May 29, 1986. The letter shown before each applicant's name, above, is used below to signify whether the issue in question applies to that particular applicant.

Issue Heading and Applicant(s)

Air Hazard, A
Comparative, A, B, C
Ultimate, A, B, C

3. If there is any non-standardized issue(s) in this proceeding, the full text of the issue and the applicant(s) to which it applies are set forth in an Appendix to this Notice. A copy of the complete HDO in this proceeding is available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 230), 1919 M Street, NW., Washington, DC. The complete text may also be purchased from the Commission's duplicating contractor, International Transcription Services, Inc., 2100 M Street, NW., Washington, DC 20037 (Telephone No. (202) 857–3800.

FEDERAL MARITIME COMMISSION

[Docket No. 87–29]

Lake Charles Stevedores, Inc. v. Lake Charles Harbor and Terminal District; Filing of Complaint and Assignment

Notice is given that a complaint filed by Lake Charles Stevedores, Inc. ("Stevedores") against the Lake Charles Harbor and Terminal District ("District") was served December 14, 1987. Stevedores alleges that District has violated sections 10(b)(11), 10(b)(12) and 10(d), Shipping Act of 1984, 46 U.S.C. app. 1709(b)(11), (b)(12), and (10)(d), through the allocation of work by District in connection with (1) the unloading of United States Department of Agriculture export cargo from railcars or trucks for temporary storage at warehouses at the Port of Lake Charles and (2) the furnishing of stevedoring services at District's Bulk Terminal No. 1.

This proceeding has been assigned to Administrative Law Judge Joseph N. Ingolia ("Presiding Officer"). Hearing in this matter, if any is held, shall commence within the time limitations prescribed in 46 CFR 502.61. The hearing shall include oral testimony and cross-examination in the discretion of the Presiding Officer only upon proper showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statements, affidavits, depositions, or other documents or that the nature of the matter in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record. Pursuant to the further terms of 46 CFR 502.61, the initial decision of the Presiding Officer in this proceeding shall be issued by December 14, 1988, and the final decision of the Commission shall be issued by April 14, 1989.

Joseph C. Polking,
Secretary.

FEDERAL MEDIATION AND CONCILIATION SERVICE

President's Advisory Committee on Mediation and Conciliation; Meeting

Pursuant to section 10 of the Federal Advisory Committee Act (Pub. 92–463, as amended) notice is hereby given that a meeting of the President's Advisory Committee on Mediation and Conciliation will be held on Wednesday, January 6, 1988 from 10:30 a.m. to 5:00 p.m. in the ninth floor Ching Room of the Federal Mediation and Conciliation Service, 2100 K Street, NW., Washington, DC 20427.

The purpose of the meeting is to consider the Committee's Report to the President, and to the Director of the Federal Mediation and Conciliation Service, and to formulate positions and recommendations to be presented in the Report. As this involves the discussion of views concerning existing or proposed legislation, and possible impact on collective bargaining positions, the meeting will be closed pursuant to 5 USC 552b(c)(9)(B).

Further information regarding this meeting may be obtained from Mr. Dennis R. Minshall, Executive Director, President's Advisory Committee on Mediation and Conciliation, Federal Mediation and Conciliation Service, 2100 K Street, NW., Washington, DC 20427, or call (202) 653–5290. Dated: January 14, 1988.

Kay McMurray,
Director, Federal Mediation and Conciliation Service.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Agency Forms Submitted to Office of Management and Budget for Clearance

Each Friday the Department of Health and Human Services (HHS) publishes a list of information collection packages it has submitted to the Office of Management and Budget (OMB) for clearance in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). The following are those packages submitted to OMB since the last list was published on December 4, 1987.

Social Security Administration

(Call Reports Clearance Officer on 301–965–41149 for copies of package)

1. Annual Report of Earnings—0960–0057—These forms are used by the Social Security Administration to obtain earnings information from beneficiaries so that the proper amount of benefits can be paid. The respondents are individuals or households. Respondents: Individuals or households. Number of Respondents: 1,500,000; Frequency of Response: Occasionally; Estimated Annual Burden: 250,000 hours.

OMB Desk Officer: Elana Norden.

Health Care Financing Administration

(Call Reports Clearance Officer on 301–594–1238 for copies of package)

1. Medicare Questionnaire—Beneficiary Incentives to Participate in Alternative Health Plans (AHPs)—NEW—This data collection will be used to study Medicare beneficiaries preferences among AHPs. This will allow HCFA to predict the effect of new capitation policies on the numbers of beneficiaries joining AHPs. Respondents: 2,200; Frequency of Response: One-time; Estimated Annual Burden: 1,100 hours.

2. Preclearance-Development of Outcome-Based Quality Measures for Home Health Services—NEW—The purpose of this project is to develop and test improved measures of quality of Medicare home health services based on patient outcomes. Respondents: Individuals or households. Number of Respondents: 1; Frequency of Response: One-time; Estimated Annual Burden: 1 hour.

OMB Desk Officer: Allison Herron.

VOL 52 ISS 243 DEC 18 1987 UMI

Office of Human Development Services

(Call Reports Clearance Officer on 202-472-4415 for copies of package)

1. Revised Head Start Program Information Report—0980-0017—Head Start programs use this report to collect data in order to ascertain the status of the delivery of service to children and their families. Respondents: State or local governments, Non-profit institutions, Small businesses or organizations. Number of Respondents: 1,920; Frequency of Response: One-time; Estimated Annual Burden: 6,720 hours.

2. Quarterly Estimate of Expenditures for Foster Care and Adoption Assistance—0980-0130—To determine the State's funding needs for the following three programs: (1) Non-voluntary Foster Care, (2) Voluntary Foster Care, and (3) Adoption Assistance. Respondents: State or local governments. Number of Respondents: 51; Frequency of Response: Quarterly; Estimated Annual Burden: 2,244 hours.

3. Quarterly Statement of Expenditures for Foster Care and Adoption Assistance—0980-0131—To determine the States actual expenditures for each of the following program activities: (1) Non-voluntary Foster Care, (2) Voluntary Foster Care, and (3) Adoption Assistance. Respondents: State or local governments. Number of Respondents: 51; Frequency of Response: Quarterly; Estimated Annual Burden: 3,264 hours.

OMB Desk Officer: Shannah Koss-McCallum.

Family Support Administration

(Call Reports Clearance Officer on 202-245-0652 for copies of package)

1. OCSE-Local-2 Statistical Form—NEW—This information will be used to monitor the improved collection performance of State and local child support agencies in accordance with the mandates of PL 98-378. States are required to submit quarterly statistics for 150 counties and/or localities operating child support programs. Respondents: State or local governments. Number of Respondents: 51; Frequency of Response: Quarterly; Estimated Annual Burden: 204 hours.

OMB Desk Officer: Elana Norden.

Public Health Services

(Call Reports Clearance Officer on 202-245-2100 for copies of package)

Food and Drug Administration

1. Medical Device Reporting—0910-0201—This regulation requires a manufacturer or importer of medical devices to report to FDA whenever they possess information suggesting a device has caused or contributed to a death or serious injury, or has malfunctioned and likely to cause or contribute to a death or serious injury. Importers are required to establish and maintain files or reports and records of this information. Respondents: Businesses or other for-profit, Small businesses or organizations. Number of Respondents: 691; Frequency of Response: Occasionally; Estimated Annual Burden: 70,260 hours.

Alcohol, Drug Abuse and Mental Health Administration

1. Seroprevalence of HIV Infection Among IV Drug Users in Selected Cities—New—This study is designed to establish an ongoing monitoring system to estimate the extent of HIV infection among intravenous drug users in selected cities and to provide information on the demographic and behavioral variables of this population. The study will provide prevalence rates and trends in support of Federal planning and research into the problem of AIDS among IV drug users. Respondents: Individuals or households. Number of Respondents: 6,000; Frequency of Response: One-time; Estimated Annual Burden: 6,000 hours.

Office of the Assistant Secretary for Health

1. Assessment of the Development and Implementation of State AIDS Contact Notification Programs—New—Indidivudals who test positive for HIV antibody are encouraged to notify their sexual and needle sharing partners of their infected status and to encourage them to seek testing. States have taken different approaches to implement contact notification, which has been used traditionally in the prevention of venereal disease. An analyses of several of these approaches will be conducted to assist policymakers in making recommendations. Respondents: State or local governments. Number of Respondents: 50; Frequency of Response: Single-time; Estimated Annual Burden: 113 hours.

OMB Desk Officer: Shannah Koss-McCallum.

As mentioned above, copies of the information collection clearance packages can be obtained by calling the Reports Clearance Officer, on one of the following numbers:

SSA: 301-965-4149
PHS: 202-245-2100
HCFA: 301-594-1238
FSA: 202-245-0652

Written comments and recommendations for the proposed information collections should be sent directly to the appropriate OMB Desk Officer designated above at the following address: OMB Reports Management Branch, New Executive Office Building, Room 3208, Washington, DC 20503. ATTN: (name of OMB Desk Officer).

Date: December 15, 1987.

James F. Trickett,

Deputy Assistant Secretary, Administrative and Management Services.

BILLING CODE 4150-04-M

Food and Drug Administration

[Docket No. 87N-0270]

Studies for Developing Procedures to Evaluate the Safety of Bound Drug Residues; Availability of Grants (Cooperative Agreement); Request for Applications

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is amending the notice that announced the anticipated availability of approximately $300,000 for Fiscal Year 1988 for cooperative agreements to support studies for developing procedures to evaluate the safety of drug residues that are bound to tissues of food-producing animals (52 FR 39281; October 21, 1987). The notice is being amended to require that applicants submit an original application and six copies instead of two copies. This action is necessary in order to provide a complete copy with attachments to each of several reviewers, concurrently. The Office of Management and Budget has approved the six-copy requirement for this purpose.

FOR FURTHER INFORMATION CONTACT: David B. Batson, Center for Veterinary Medicine (HFV-500), Food and Drug Administration, 5600 Fishers Lane, Rm. 6-89, Rockville, MD 20857, 301-443-6510.

SUPPLEMENTARY INFORMATION: In FR Doc. 87-24434, appearing on page 39283, third column, in the **Federal Register** of Wednesday, October 21, 1987, under "VIII. SUBMISSION REQUIREMENTS," the first sentence is revised in part to read "The original and six copies of the completed Grant Application Form PHS 398 (Rev. 9/86) * * *."

Dated: December 11, 1987

John M. Taylor,

Associate Commissioner for Regulatory Affairs.

BILLING CODE 4160-01-M

[Docket No. 87N-0267]

Clinical Studies of Safety and Effectiveness of Orphan Products; Availability of Grants; Request for Applications

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is amending the notice that announced the anticipated availability of funds for Fiscal Year 1988 for awarding grants to support clinical trials on safety and effectiveness of orphan products (52 FR 39996; October 26, 1987). The notice is being amended to clarify the disposition of applications judged to be nonresponsive to the request and to require that applicants submit an original application and six copies instead of two copies. This latter action is necessary in order to provide a complete copy with attachments to each of several reviewers concurrently. The Office of Management and Budget has approved the six-copy requirement for this purpose.

FOR FURTHER INFORMATION CONTACT: Carol A. Wetmore, Office of Orphan Products Development (HF-35), Food and Drug Administration, 5600 Fishers Lane, Rm. 12A-40, Rockville, MD 20857, 301-443-4903.

SUPPLEMENTARY INFORMATION: In FR Doc. 87-24648, appearing on page 39998 in the **Federal Register** of Monday, October 26, 1987, the following revisions are made:

1. In the second column, under "VI. B. *Review Criteria,*" the second sentence is revised to read "Applications that are judged to be nonresponsive will be returned to the applicant."

2. In the third column, under "VII. SUBMISSION REQUIREMENTS," the first sentence is revised in part to read as follows "The original and six copies of the completed Grant Application Form PHS 398 (Rev. 9/86) * * *."

Dated: December 11, 1987.

John M. Taylor,

Associate Commissioner for Regulatory Affairs.

BILLING CODE 4160-01-M

Advisory Committees; Meetings

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice announces forthcoming meetings of public advisory committees of the Food and Drug Administration (FDA). This notice also summarizes the procedures for the meetings and methods by which interested persons may participate in open public hearings before FDA's advisory committees.

Meetings: The following advisory committee meetings are announced:

Fertility and Maternal Health Drugs Advisory Committee

Date, time, and place. January 14 and 15, 1988, 9 a.m., Conference Rm. G, Parklawn Bldg., 5600 Fishers Lane, Rockville, MD.

Type of meeting and contact person. Open public hearing January 14, 1988, 9 a.m. to 9:30 a.m., unless public participation does not last that long; open committee discussion, 9:30 a.m. to 5 p.m.; open public hearing, January 15, 1988, 9 a.m. to 9:30 a.m., unless public participation does not last that long; open committee discussion, 9:30 a.m. to 5 p.m.; Philip A. Corfman, Center for Drug Evaluation and Research (HFN-810), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3510.

General function of the committee. The committee reviews and evaluates available data on the safety and effectiveness of marketed and investigational prescription drugs for use in obstetrics and gynecology.

Agenda—Open public hearing. Interested persons requesting to present data, information, or views, orally or in writing, on issues pending before the committee should communicate with the committee contact person.

Open committee discussion. On January 14, 1988, the committee will discuss the potential utility of estrogen pellets for the treatment of menopausal symptoms. On January 15, 1988, the committee will discuss the risks and benefits of oral contraceptives containing more than 50 micrograms of estrogen.

Obstetrics-Gynecology Devices Panel

Date, time, and place. January 29, 1988, 9 a.m., Auditorium, Hubert H. Humphrey Bldg., 200 Independence Ave. SW., Washington, DC.

Type of meeting and contact person. Open public hearing, 9 a.m. to 12 m.; open committee discussion, 1 p.m. to 5 p.m.; Colin M. Pollard, Center for Devices and Radiological Health (HFZ-470), Food and Drug Administration, 8757 Georgia Ave., Silver Spring MD 20910, 301-427-7555.

General function of the committee. The committee reviews and evaluates available data on the safety and effectiveness of devices and makes recommendations for their regulation.

Agenda—Open public hearing. Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Those desiring to make formal presentations should notify the contact person before January 6, 1988, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time required to make their comments.

Open committee discussion. The committee will discuss the safety and effectiveness of medical devices used for in vitro fertilization.

FDA public advisory committee meeting may have as many as four separable portions: (1) An open public hearing, (2) an open committee discussion, (3) a closed presentation of data, and (4) a closed committee deliberation. Every advisory committee meeting shall have an open public hearing portion. Whether or not it also includes any of the other three portions will depend upon the specific meeting involved. There are no closed portions for the meetings announced in this notice. The dates and times reserved for the open portions of each committee meeting the listed above.

The open public hearing portion of each meeting shall be at least 1 hour long unless public participation does not last that long. It is emphasized, however, that the 1 hour time limit for an open public hearing represents a minimum rather than a maximum time for public participation, and an open public hearing may last for whatever longer period the committee chairperson determines will facilitate the committee's work.

Public hearings are subject to FDA's guideline (Subpart C of 21 CFR Part 10) concerning the policy and procedures for electronic media coverage of FDA's public administrative proceedings, including hearings before public advisory committees under 21 CFR Part 14. Under 21 CFR 10.205, representatives of the electronic media may be permitted, subject to certain limitations, to videotape, film, or otherwise record FDA's public administrative proceedings, including presentations by participants.

Meetings of advisory committees shall be conducted, insofar as is practical, in accordance with the agenda published

in this **Federal Register** notice. Changes in the agenda will be announced at the beginning of the open portion of a meeting.

Any interested person who wishes to be assured of the right to make oral presentation at the open public hearing portion of a meeting shall inform the contact person listed above, either orally or in writing, prior to the meeting. Any person attending the hearing who does not in advance of the meeting request an opportunity to speak will be allowed to make an oral presentation at the hearing's conclusion, if time permits, at the chairperson's discretion.

Persons interested in specific agenda items to be discussed in open session may ascertain from the contact person the approximate time of discussion.

Details on the agenda, questions to be addressed by the committee, and a current list of committee members are available from the contact person before and after the meeting. Transcripts of the open portion of the meeting will be available from the Freedom of Information Office (HFI–35), Food and Drug Administration, Rm. 12A–16, 5600 Fishers Lane, Rockville, MD 20857, approximately 15 working days after the meeting, at a cost of 10 cents per page. The transcript may be viewed at the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, approximatley 15 working days after the meeting, between the hours of 9 a.m. and 4 p.m., Monday through Friday. Summary minutes of the open portion of the meeting will be available from the Freedom of Information Office (address above) beginning approximately 90 days after the meeting.

This notice is issued under section 10(a) (1) and (2) of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770–776 (5 U.S.C. App. I)), and FDA's regulations (21 CFR Part 14) on advisory committees.

Dated: December 11, 1987.

John M. Taylor,

Associate Commissioner for Regulatory Affairs.

BILLING CODE 4160–01–M

Public Health Service

Announcement of Study To Provide Scientific Review of National Nutrition Monitoring System Information and Data; Correction

AGENCY: Office of the Assistant Secretary for Health, Department of Health and Human Services.

ACTION: Correction of study notice.

SUMMARY: On November 30, 1987, the Department of Health and Human Services and the United States Department of Agriculture announced in the **Federal Register** (52 FR 45504) that the Life Sciences Research Office of the Federation of American Societies for Experimental Biology is undertaking a scientific review of National Nutrition Monitoring System information and data. Two members of the ad hoc Export Panel on National Nutrition Monitoring listed in the notice were inadvertently omitted. These were Mildred Kaufman, M.S., University of North Caroline, Chapel Hill, NC, and Milton Z. Nichaman, M.D., D.Sc., University of Texas School of Public Health, Houston, TX. The other members of the committee are C. Wayne Callaway, M.D., George Washington University Medical Center, Washington, DC; Oral Capps, Jr., Ph.D., Texas A&M University, College Station, TX; Catherine Cowell, Ph.D., New York City Department of Health, New York, NY; Peter R. Dallman, M.D., University of California, San Francisco, CA; Ronald N. Forthofer, Ph.D., University of Texas School of Public Health, Houston, TX; A. Catharine Ross, Ph.D., Medical College of Pennsylvania, Philadelphia, PA; Howard G. Schutz, Ph.D., University of California, Davis, CA. On December 2, 1987, the panel elected Dr. Nichaman to serve as its chairman.

Dated: December 14, 1987.

J.M. McGinnis,

Deputy Assistant Secretary for Health (Disease Prevention and Health Promotion).

[FR Doc. 87–29094 Filed 12–17–87; 8:45 am]

BILLING CODE 4160–15–M

DEPARTMENT OF THE INTERIOR

Office of the Secretary

[AA–340–08–4333–08]

Wilderness Inventory Decisions

AGENCY: Office of the Secretary, Interior.

ACTION: Amendment of wilderness inventory decisions.

SUMMARY: This notice amends previous wilderness inventory decisions by the Bureau of Land Management with respect to areas under 5,000 acres that no longer qualify for wilderness study because of changes in the status of adjacent Federal lands. Eighteen areas containing 31,616 acres are being deleted.

EFFECTIVE DATE: January 19, 1988.

ADDRESS: Any comments received prior to the effective date will be considered. Comments should be addressed to: Keith H. Corrigall, Chief, Branch of Wilderness Resources, Bureau of Land Management, Main Interior Building Room 2661, Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: Questions about particular wilderness study areas should be directed to the appropriate Bureau of Land Management State Directors, whose addresses appear at the end of this notice (Appendix A). Questions about the nationwide aspects of the program should be directed to Keith Corrigall, Chief, Branch of Wilderness Resources, Bureau of Land Management, Main Interior Building Room 2661, Washington, DC 20240, telephone (202) 343–6064.

Amendment of Wilderness Inventory Decisions

Under the Bureau of Land Management Wilderness Inventory Handbook, issued September 27, 1978, the Department specified that a roadless area of public lands possessing wilderness characteristics could be identified as a wilderness study area despite being smaller than 5,000 acres if it was "contiguous with lands managed by another agency which have been formally determined to have wilderness or potential wilderness values * * *." More than 150 wilderness study areas were identified under this criterion.

Subsequently Congress has released from wilderness study status the roadless lands contiguous to 18 of the wilderness study areas the Department identified under the criterion. These wilderness study areas are listed in Table 1. As a consequence of that congressional action, the Department's rationale for identifying 18 wilderness study areas listed in Table 1 is no longer valid. The contiguous lands they depended upon for identification as wilderness study areas no longer satisfy the applicable criterion under the Wilderness Inventory Handbook.

Under the Wilderness Inventory Handbook, the Department also specified that a roadless area of public lands possessing wilderness characteristics could be identified as a wilderness study area despite being smaller than 5,000 acres if:

(2) The public has indicated strong support for study of a particular area of less than 5,000 acres and it is demonstrated that it is clearly and obviously of sufficient size as to make practicable its preservation and use in an unimpaired condition, and of a size suitable for wilderness management, or

(3) They are contiguous with an area of less than 5,000 acres of other Federal lands administered by an agency with authority to study and preserve wilderness lands, and the combined total is 5,000 acres or more.

None of the 18 wilderness study areas listed in Table 1 qualifies under either criterion. A review of the case files and records data shows that at the time of the wilderness inventory none of the 18 areas wae subject to strong public support.

With respect to criterion (3), although the lands contiguous to each of the wilderness study areas listed in Table 1 are administered by an agency with authority to study and preserve wilderness lands, Congress has supplanted the general authority to study the lands by declaring specifically that the contiguous lands will not be further considered for wilderness preservation. As a result, the Wilderness Inventory Handbook's criterion (3) is not applicable.

The Department has analyzed the environmental effects of the proposed action announced in this notice in an environmental assessment. The Department finds that it will have no significant impact on the environment. The environmental assessment is available for public review. Requests for review of the environmental assessment should be made to Keith Corrigall, Chief, Branch of Wilderness Resources, Bureau of Land Management, Main Interior Building Room 2661, Washington, DC 20240.

The 18 wilderness study areas listed in Table 1 have been determined to qualify no longer for wilderness study area status, and they are deleted from that status effective 30 days after publication of this action in the **Federal Register**. The areas will thereupon cease to be subject to the Bureau of Land Management's interim Management Policy for Lands Under Wilderness Review.

J. Steven Griles,

Assistant Secretary.

December 15, 1987.

TABLE 1.—DELETED WILDERNESS STUDY AREAS

Name	Number	Acreage	County	Contiguous forest service area	Released by Public Law No.
California:					
Tepusquet Peak	CA–010–007	1,024	Santa Barbara.	Miranda Pine, Tepquesquet Peak	98–425

Bureau of Land Management

[ID–030–08–4332–01]

Environmental Impact Statement; Availability; Idaho State Office, ID

AGENCY: Bureau of Land Management, Interior.

VOL 52 ISS 243 DEC 18 1987 UMI

ACTION: Notice of availability of the Lemhi and Medicine Lodge Wilderness final environmental impact statements.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared final environmental impact statements (FEIS) which assesses the environmental consequences of managing three WSAs as wilderness, non-wilderness, or partial wilderness. The alternatives assessed in the EISs incldue: (1) A "no wilderness" alternative: (2) an "all wilderness" alternative: and (3) "partial wilderness" alternative for each WSA. The names of the three WSAs considered in the EISs, their total acreage, and the proposed action for each WSA are as follows:

Lemhi EIS, FES 87-67

Eighteenmile WSA—24,922 acres: 14,796 acres are recommended as suitable for wilderness designation: 10,126 acres are recommended as nonsuitable for wilderness.

Medicine Lodge EIS, FES 87-68

Sand Mountain WSA—21,100 acres: all nonsuitable for wilderness designation.

Snake River Island WSA—770 acres: all nonsuitable for wilderness designation.

These Bureau of Land Management wilderness proposals will ultimately be forwarded by the Secretary of the Interior and President to Congress. The final decision on wilderness designation rests with Congress.

In any case, no final decision on these proposals can be made during the 30 days following the publication in the **Federal Register** of the Environmental Protection Agencies' notice of the filing of these EISs. This complies with the Council on Environmental Quality Regulations 40 CFR 1506.106(2).

SUPPLEMENTARY INFORMATION: A limited number of copies of the Lemhi FEIS may be obtained from the District Manager, Salmon District Office, Box 430, Salmon, Idaho, 83467, and copies of the Medicine Lodge FEIS from the District Manager, Idaho Falls District Office, 940 Lincoln Road, Idaho Falls, Idaho 83401. Copies are available for inspection at the following locations:

Department of the Interior, Bureau of Land Management, 18th C Streets, NW., Washington DC 20240.

Bureau of Land Management, Idaho State Office, 3380 Americana Terrace, Boise, Idaho 83706.

FOR FURTHER INFORMATION, CONTACT: George Nelson, Wilderness Program Leader, Idaho State Office, Bureau of Land Management, 3380 Americana Terrace, Boise, Idaho 83706, Telephone: (208) 334-1616.

Date: December 9, 1987.

BILLING CODE 4310-GG-M

[OR 43466; OR-080-09-4212-14: GP8-037]

Realty Action; Notice of Direct Sale Benton County, Oregon

December 11, 1987.

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of realty action.

The following described public land has been examined and determined to be suitable for transfer out of Federal ownership by direct sale under the authority of section 203 and 209 of the Federal Land Policy and Management Act of 1976, as amended (90 Stat. 2050; 43 U.S.C. 1713 and 90 Stat. 2757; 43 U.S.C. 1719), at not less than the fair market value:

Willamette Meridian, Oregon

T. 13 S., R. 5 W.,
Sec. 3, Lot 6.

Containing 0.51 acre in Benton County, Oregon.

The land has not yet been appraised. Anyone wishing to know the appraised value may inquire at the address shown below.

Upon publication of this notice in the **Federal Register**, the above-described land will be segregated from appropriation under the public land laws, including the mining laws, except the mineral leasing laws. The segregative effect of this notice of realty action shall terminate upon issuance of the patent, upon publication in the **Federal Register** of a termination of the segregation or 270 days from the date of publication, whichever occurs first.

The parcel is difficult and uneconomic to manage as a part of the public lands and is not suitable for management by another Federal department of agency. The parcel is suitable for agricultural production and has been farmed for many years inadvertently, without authorization. The sale is consistent with the Westside Management Framework Plan and the public interest will be served by offering this parcel for sale.

The parcel is being offered to the Venell Farms, Inc., using direct sale procedures authorized under 43 CFR 2711.3-3. The parcel will be sold to Venell Farms, Inc., at fair market value without competitive bidding. The land will be conveyed subject to a reservation to the United States for rights-of-way for ditches or canals under the Act of August 20, 1890 (26 Stat. 391; 43 U.S.C. 945);

Detailed information concerning the sale is available for review at the Salem District Office.

For a period of 45 days from the date of publication of this notice, interested parties may submit comments regarding the proposed sale of the land to the Alsea Area Manager, 1717 Fabry Road SE, Salem, OR 97306. Any adverse comments will be reviewed by the Salem District Manager, who may sustain, vacate, or modify this realty action. In the absence of any adverse comments, this action will become the final determination of the Department of the Interior.

John H. Mears,

Alsea Area Manager.

BILLING CODE 4410-01-M

National Cooperative Research Notification; Bell Communications Research, Inc.

Notice is hereby given that, pursuant to section 6(a) of the National Cooperative Research Act of 1984, 15 U.S.C. 4301 et seq. ("the Act"), Bell Communications Research, Inc. ("Bellcore") has filed written notifications, on behalf of Bellcore and NEC Corporation, simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties of the joint venture and (2) the nature and objectives of the joint venture. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Pursuant to section 6(b) of the Act, the identities of the parties to the joint venture, and its general areas of planned activities, are given below.

Bellcore is a Delaware corporation with its principal place of business at 290 W. Mt. Pleasant Avenue, Livingston, New Jersey 07039.

NEC is a Japanese corporation with its principal place of business at 33-1, Shiba 5-chome, Minato-Ku, Tokyo 108, Japan.

Bellcore and NEC entered into an agreement effective October 1, 1987 to collaborate on cooperative theoretical and experimental studies in high speed and coherent optical devices and systems research to better understand the applications for exchange and exchange access services of technology and equipment useful for optical transmission including broadband ISDN and to demonstrate feasibility of research concepts by experimental prototypes and experimental systems of such technologies and equipment.

Joseph H. Widmar,

Director of Operations, Antitrust Division.

BILLING CODE 4410-01-M

National Cooperative Research Notification; Corporation for Open Systems International

Notice is hereby given that, pursuant to section 6(a) of the National Cooperative Research Act of 1984, 15 U.S.C. 4301 et seq. ("the Act"), the Corporation for Open Systems International ("COS") has filed an additional written notification simultaneously with the Attorney General and the Federal Trade Commission on November 16, 1987, disclosing a change in the membership of COS. The additional written notification was filed for the purpose of extending the protections of section 4 of the Act, limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

On May 14, 1986, COS filed its original notification pursuant to section 6(a) of the Act. The Department of Justice (the "Department") published a notice in the Federal Register pursuant to section 6(b) of the Act on June 11, 1986, 51 FR 21260. COS filed additional written notifications on August 6, 1986, September 30, 1986, January 2, 1987, March 24, 1987, June 12, 1987, July 23, 1987, October 5, 1987, and October 23, 1987. The Department published notices in the Federal Register in response to these additional notifications on September 4, 1986 (51 FR 31735), October 28, 1986 (51 FR 39434), February 13, 1987 (52 FR 4671), April 24, 1987 (52 FR 13769), July 21, 1987 (52 FR 27473), October 7, 1987 (52 FR 37539), November 9, 1987 (52 FR 43138), and December 4, 1987 (52 FR 46130), respectively. COS filed an additional written notification on July 31, 1987, which was published on December 15, 1987 (52 FR 47642).

On November 2, 1987, Bell Atlantic and VANCE Systems became parties to COS; on November 10, 1987, Southwestern Bell Telephone Company became a party to COS; and on October 15, 1987, Convergent Technologies withdrew as a member of COS.

Joseph H. Widmar,

Director of Operations, Antitrust Division.

BILLING CODE 4410-01-M

DEPARTMENT OF LABOR

Employment and Training Administration

Job Corps Center Assessment Advisory Committee; Meeting

A public meeting of the Job Corps Advisory Committee will be held on Thursday and Friday, January 21 and 22, 1988, commencing at 9:00 a.m., in Room N-3437 A and B, U.S. Department of Labor, 200 Constitution Ave. NW., Washington, DC.

The purpose of the meeting is to continue discussions which were initiated in the Committee's first meeting on November 6 and 7, 1987, of recommendations to improve the Job Corps Center Assessment (capacity reduction) system.

Individuals or organizations wishing to submit written statements pertaining to Job Corps center assessment should send 20 copies to Peter E. Rell, Director, Office of Job Corps, U.S. Department of Labor, Room N-4508, Washington, DC 20210. Telephone (202) 535-0500. Papers will be accepted and included in the record of the meeting if received on or before January 15, 1988.

Roger D. Semerad,

Assistant Secretary of Labor.

Signed at Washington, DC, this 8th day of December 1987.

[FR Doc. 87-29121 Filed 12-17-87; 8:45 am]

BILLING CODE 4510-30-M

Employment Standards Administration, Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR Part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR Part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effectvie date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedeas decisions thereto, contain no expiration dates and are effective from their date of notice in the Federal Register, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., Room S-3504, Washington, DC 20210.

Withdrawn General Wage Determination Decision

This is to advise all interested parties that the Department of Labor is withdrawing, from the date of this notice, General Wage Determination No. AL87-17 dated January 2, 1987.

Agencies with construction projects pending to which this wage decision would have been applicable should request a project wage determination using form SF-308 (Part 1 (29 CFR), § 1.5). Contracts for which bids have been opened shall not be affected by this notice. Also consistent with 29 CFR 1.6(c)(2)(i)(A), the incorporation of the withdrawn decision in contract specifications, the opening of bids for which is within ten (10) days of this notice, need not be affected.

Modifications to General Wage Determination Decisions

The numbers of the decisions listed in the Government Printing Office document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts" being modified are listed by Volume, State, and page number(s). Dates of publication in the Federal Register are in parentheses following the decisions being modified.

Volume I

Listing by Location (index)—pp. xxi-xxii
Listing by Decision (index)—p. xlix

Volume II

Volume III

None.

General Wage Determination Publication

General wage determinations issued under the Davis-Bacon and related Acts, including those noted above, may be found in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts." This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries across the Country. Subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, (202) 783-3238.

When ordering subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the three separate volumes, arranged by State. Subscriptions include an annual edition (issued on or about January 1) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates will be distributed to subscribers.

Signed at Washington, DC, this 11th day of December 1987.

Alan L. Moss,

Director, Division of Wage Determinations.

NATIONAL SCIENCE FOUNDATION

Advisory Committee for Design, Manufacturing, and Computer-Integrated Engineering; Open Meeting

National Science Foundation announces the following meeting:

Name: Advisory Committee for Design, Manufacturing, and Computer-Integrated Engineering (DMCE).
Date and Time: Jan. 6–7, 1988
9:00 a.m.–5:00 p.m., Jan. 6
9:00 a.m.–3:00 p.m., Jan. 7
Place: National Science Foundation, 1800 G Street, NW., Washington, DC, Room 540.
Type of Meeting: Open.
Contact Person: Dr. Michael J. Wozny, Division Director, DMCE, Room 1108, National Science Foundation, Telephone: 202/357–7508.
Summary Minutes: Dr. Wozny.
Purpose of Meeting: To provide advice, recommendations, and counsel on major goals and policies pertaining to the Division of Design, Manufacturing, and Computer-Integrated Engineering.
Summarized Agenda: Discussions on issues, opportunities and future directions for the Division in Design, Manufacturing, and Computer-Integrated Engineering; discussion of the DMCE budget for FY 1987; discussion of budget issues with the NSF Assistant Director for Engineering, as well as other items.

M. Rebecca Winkler,
Committee Management Officer.

BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

Abnormal Occurrences for Second Quarter CY 1987; Dissemination of Information

Section 208 of the Energy Reorganization Act of 1974, as amended requires the NRC to disseminate information on abnormal occurrences (i.e., unscheduled incidents or events which the Commission determines are significant from the standpoint of public health and safety). The following incidents at NRC licensees were determined to be abnormal occurrences (AOs) using the criteria published in the **Federal Register** on February 24, 1977 (42 FR 10950). These abnormal occurrences are described below, together with the remedial actions taken. These events are also being included in NUREG–0090, Vol. 10, No. 2 ("Report to Congress on Abnormal Occurrences: April–June 1987"). This report will be available in the NRC's Public Document Room, 1717 H Street, NW., Washington, DC about three weeks after the publication date of this **Federal Register** Notice.

Nuclear Power Plants

There were no AOs at the nuclear power plants.

Other NRC Licensees

(Industrial Radiographers, Medical Institutions, Industrial Users, etc.)

AO 87–9—Diagnostic Medical Misadministration

The general AO criterion notes that an event involving a moderate or more severe impact on public health or safety can be considered an abnormal occurrence.

Date and Place—On January 21, 1987, a 66-year-old female at Halifax-South Boston Community Hospital, South Boston, Virginia, received 782 microcuries of I–131 instead of a 100-microcurie dose usually given for a thyroid scan.

Nature and Probable Consequences—The purpose of the scan was to rule out the presence of a substernal thyroid, following removal of the normal thyroid many years ago. The thyroid scan and confirming computerized axial tomography (CAT) scan demonstrated the presence of a nonfunctional substernal thyroid.

No adverse effects to the patient are expected from the reported misadministration. The dose to the whole body was estimated as 0.37 rem (assuming a 15% thyroid tissue uptake) and a thyroid tissue dose of 625 rem. Patients are often administered radioiodine following surgical or radioactive thyroid removal to check for hidden thyroid tissue.

Cause or Causes—The misadministration was caused by the nuclear medicine technician's misinterpretation of the dose calibrator value.

Actions Taken To Prevent Recurrence

Licensee—The nuclear medicine technician was instructed to verify that the dose was within the proper range for a given procedure and to check with the radiologist prior to administration.

NRC—A telephonic contact was made to the radiologist reporting this misadministration for additional information and assurance that corrective action had been taken. The incident will be reviewed during the next NRC routine inspection at the hospital.

AO 87–10—Therapeutic Medical Misadministration

The general AO criterion notes that an event involving a moderate or more severe impact on public health or safety can be considered an abnormal occurrence.

Date and Place—From April 20–22, 1987, a patient treated on the cobalt-60 teletherapy unit at St. Peter's Medical Center, New Brunswick, New Jersey, received a radiotherapy administration of 600 rads to the lumbar spine area, which was not the prescribed treatment site.

Nature and Probable Consequences—A patient, diagnosed as having breast cancer with metastasis to the bone, was undergoing treatment to the thoracic spine of 3000 rads in 15 fractionated doses of 200 rads each. She had previously undergone palliative treatment to the lumbar spine and sacral hip areas and still retained the tattoo marks for those treatment fields. The technologist mistakenly used these tattoos to position the patient for treatment, rather than the tattoos defining the thoracic spine treatment area.

During the course of treatment, the patient was treated as both an in-patient and out-patient. The misadministration occurred while the patient was an in-patient. During treatment set-up on April 20, 21 and 22, 1987, the patient's gown was only raised far enough to expose the tattoos in the previously treated lumbar spine and sacral hip areas and the technologist involved mistakenly assumed that the lumbar spine tattoos defined the currently prescribed treatment field. Had the technologist raised the gown to expose the entire back, the tattoos in the thoracic spine area would have been seen.

The technologists involved with the patient's treatment noted that the light field was larger than the tattooed field, but assumed the discrepancy was due to skin shifting and did not notify the supervising technologist, radiation oncologist, or medical physicist. When the patient returned for treatment on April 23, 1987 as an out-patient, the gown she wore opened in the back and the entire back was exposed during treatment set-ups. The technologists then realized that the patient had been erroneously treated in the lumbar spine area, rather than the prescribed thoracic spine area. They immediately notified the supervising technologist and radiation oncology physician.

The consequence of this incident was that a patient received an unprescribed dose to the lumbar spine of 600 rads. The patient's referring physician and radiotherapist concluded that the dose would have no detrimental clinical effect due to the patient's current disease state.

Cause or Causes—The causes are attributed to human errors, including failures to comply with established procedures, i.e.,

1. The technologist did not expose the patient's entire back during treatment set-up;
2. The two technologists did not perform all simulation and set-up procedures together;
3. The technologist who originally simulated, tattooed and set up the patient for the initial treatments did not realize the error in subsequent set-ups; and
4. The technologists did not follow established procedures in the event the light field does not match the patient tattoo marks, which require notifying the supervising technologist, the radiation oncologist, or the medical physicist.

Actions Taken to Prevent Recurrence

Licensee—The licensee's immediate and planned corrective actions included: A review of internal policies to evaluate possible changes to prevent further misadministrations; a training session with all technologists to review the incident and internal policies; special training sessions for the technologists involved and review of all their work; and immediate probation of the two technologists.

NRC—A senior Region I NRC inspector conducted a routine inspection of the teletherapy program and review of the misadministration on April 28, 1987. No violations of NRC regulations were associated with this incident. An NRC medical consultant is reviewing the case.

AO 87–11—Diagnostic Medical Misadministration

The general AO criterion notes that an event involving a moderate or more severe impact on public health or safety can be considered an abnormal occurrence.

Date and Place—On June 3, 1987, NRC received written notification that on May 20, 1987, a patient at the National Institutes of Health, Bethesda, Maryland, received 120 millicuries of technetium-99m pertechnetate rather than the prescribed radiopharmaceutical, 10 millicuries of gallium-67 citrate.

Nature and Probable Consequences—A patient, scheduled to be injected with 10 millicuries of gallium-67 on May 20, 1987, was administered a radiopharmaceutical on that day and asked to return on May 22 for a scan. The patient study did not show the typical gallium-67 citrate uptake and an energy spectrum obtained by the gamma camera indicated that technetium-99m had been injected, and not the prescribed gallium-67.

The radiopharmacist reviewed the usage records for May 20, 1987 and discovered a 3.3 milliliter excess of gallium-67. The only technetium-99m radiopharmaceutical which could not be accounted for was technetium-99 pertechnetate. The radiopharmacist concluded that approximately 120 millicuries of technetium-99m in 3.3 milliliters were withdrawn by mistake by the radiopharmacist and was not assayed for activity in a dose calibrator. This radiopharmaceutical was then dispensed to a physician who administered it to the patient.

The licensee informed the NRC that the Chief of the Nuclear Medicine Department, the Chief of the Radiopharmacy and the Chief of the Radiation Safety Branch were notified as soon as the midadministration was discovered. The referring physician was notified by written memorandum. The patient experienced no adverse effect from this misadministration but received the following unwarranted approximate organ doses:

Tissue	Rads
Bladder Wall	10.2
Gastrointestinal Tract:	
Stomach Wall	6.1
Upper Large Intestinal Wall	14.4
Lower Large Intestinal Wall	13.2
Red Marrow	2.0
Testes	1.1
Thyroid	15.6
Brain	1.4
Whole Body	1.3

Cause or Causes—The causes are attributed to failure on the part of the radiopharmacist to read labels on stock solutions and the failure to assay for activity before administration to the patient.

Actions Taken to Prevent Recurrence

Licensee—All radiopharmacy personnel have been retrained in the existing policies requiring that all labels be checked and all radiopharmaceuticals assayed in a dose calibrator before being dispensed.

NRC—Region I reviewed this incident during a routine inspection of the licensee on June 8–12, 1987. One apparent violation, failure to assay the dose before administration to the patient, was associated with this incident.

AO 87–12—NRC Order Issued To Remove a Hospital's Radiation Safety Officer.

One of the AO examples notes that serious deficiency in management or procedural controls in major areas can be considered an abnormal occurrence.

Date and Place—On June 15, 1987, an Order Modifying License, Effective Immediately, was issued to Milford Memorial Hospital, Milford, Delaware. The action was based on (1) the falsification of daily constancy checks of the dose calibrator by the licensee's two technologists, and (2) the falsification of records of Radiation Safety Committee (RSC) meetings by the Radiation Safety Officer (RSO) for about 15 years.

Nature and Probable Consequences—As part of an NRC inspection at Milford Hospital on December 17, 1986, an NRC inspector reviewed the records of daily constancy checks performed on the dose calibrator. The inspector observed that during a period of time in 1986, the recorded results of the constancy checks were almost always the same value. In the presence of the licensee's RSO at the time, the inspector asked one of the two licensee technologists reponsible for performing the constancy checks if these tests had been performed. She initially stated that the constancy checks had been performed daily.

However, when the technologist performed the constancy check procedure a short time later in the presence of the inspector and obtained a significantly different value than previously recorded, she admitted that she had recorded data in the past without actually performing the check. The other technologist also admitted that she had documented the results of daily constancy checks without having performed the checks. Subsequent to the inspection, the investigation determined that these records were falsified for the period May 6, 1986 through December 17, 1986.

Although the RSO at that time stated that he had performed an audit of these specific records of constancy checks on November 16, 1986, he did not recognize that the records had been falsified. Apparently, the RSO verified that records of constancy checks existed, but he did not assess the accuracy of the records.

During an inteview with investigators from the NRC Office of Investigations (OI) on May 18, 1987, the Assistant Administrator of the hospital stated that during a review of previous RSC meeting minutes, he noticed that there were minutes for a January 20, 1987

meeting that he neither attended nor was given notice of despite his previous instructions to the RSO that he or the Hospital Administrator be present at those meetings. As a result of his inquiries he had found that these RSC meetings, which were required by the license to be conducted quarterly, had not been conducted for at least the past year, but that the RSO had created a record each quarter to represent that the meetings had occurred.

The RSO subsequently admitted to OI investigators that no RSC meetings had been held since approximately 1970, but that false records had been prepared to indicate that the meetings had occurred. These false records had been presented to NRC inspectors during the various NRC inspections as evidence that the RSC meetings had occurred, as required. Specific meeting minutes of the RSC also had been provided to the NRC, in letters dated April 7, and May 14, 1982, to resolve NRC concerns regarding the licensee's application for license renewal dated February 23, 1982.

The consequence of these occurrences was a reduction in the level of safety associated with the use of licensed material by this licensee. No specific hazard was identified.

Cause or Causes—The causes of these occurrences appear to be a lack of adequate management control by the licensee and a lack of integrity on the part of individual members of the licensee's staff.

Actions Taken to Prevent Recurrence

Licensee—The licensee suspended the RSO (a physician) from his duties as RSO shortly after determining that he had falsified the records. Subsequent to the NRC Order, the licensee suspended him from all duties but later permitted him to function in accord with the restriction specified by the NRC Order. The licensee is conforming to the various provisions of the NRC Order described below.

NRC—The June 15, 1987 Order required: (1) The removal of the RSO; (2) the suspension of the RSO's authorization to independently use or supervise the use of licensed material as currently permitted by the license; (3) the performance of monthly independent audits of the licensee's radiation safety program by an independent party; and (4) a review of the Radiation Safety Program by the new RSO, correction of deficiencies identified, and certification by the licensee to the NRC that the nuclear medicine program is being operated safely and in accordance with NRC requirements.

A subsequent NRC inspection has shown that the licensee is in compliance with the Order.

AO 87-13—Significant Breakdown in Management and Procedural Controls at an Industrial Radiography Licensee

One of the AO examples notes that a major deficiency in management or procedural controls in major areas can be considered an abnormal occurrence.

Date and Place—On June 17, 1987, the NRC issued an Order Modifying License (Effective Immediately) to United States Testing Company, Inc., Unitech Services Group (USTU), San Leandro, California, which required the licensee to temporarily cease all operations until certain specified corrective actions were taken.

Nature and Probable Consequences—During an indepth special safety inspection on February 10 through June 1, 1987 of USTU in San Leandro, California, it was determined that the large radiography firm had committed numerous violations of NRC and Agreement State requirements. Based on initial findings, a Confirmatory Action letter (CAL) was sent to the licensee regarding radiation safety certification of radiographers and radiographer assistants on February 13, 1987. Upon completion of the full inspection, which covered the licensee's activities from January 1, 1985 to March 1, 1987, NRC issued the previously mentioned Order Modifying License on June 17, 1987.

At the time of the inspection, USTU was licensed by the NRC and several Agreement States to perform industrial radiography. The licensee employed approximately 200–300 radiographers, assistant radiographers and trainees, and conducted radiographic operations at 11 locations under NRC jurisdiction and 35 locations under Agreement State jurisdiction. As the result of the inspection, it was determined that the licensee was (1) allowing individuals to perform radiography after failing one or more certification examinations, (2) allowing individuals to perform radiography before all training and examinations were completed, and (3) allowing individuals with expired certifications to perform radiography. Also, three radiation overexposures and associated evaluations were not reported. In addition, numerous other radiation safety violations associated with field audits, radiation surveys, inoperable survey instruments, surveillance over high radiation areas, and proper maintenance and equipment inspections were indentified at NRC and Agreement State locations.

Deficient implementation of radiation safety requirements by this licensee resulted in the use of radiactive materials by inadequately trained personnel, thereby endangering themselves and co-workers. In fact, the NRC inspection was initiated by an incident on February 5, 1987, involving the overexposure of inadequately trained personnel (a radiographer and an assistant radiographer) at a USTU job site in Arizona, an Agreement State. This event was reported as Agreement State abnormal occurrence AS81-1 ("Breakdown in Management and Procedural Controls at an Industrial Radiography Licensee") in NUREG-0090, Vol. 10, No. 1 ("Report to Congress on Abnormal Occurrences: January-March 1987").

Cause or Causes—The root cause appears to be attributed to widespread disregard for compliance with regulatory requirements. However, the event remains under investigation by the NRC Office of Investigations, and a complete understanding of all contributing causes awaits their report.

Actions Taken To Prevent Reccurence

Licensee—As discussed further below, the licensee has taken, or is taking, appropriate actions in response to the February 13, 1987 CAL, and the June 17, 1987 NRC Order.

NRC—Initial findings of the NRC indepth special safety inspection indicated that the licensee was using radiographers that had not received required radiation safety training. The CAL issued on February 15, 1987, required a licensee official to verify in writing that assigned radiographers, by name, have received appropriate training. Subsequent inspections by the NRC and Agreement States have verified licensee conformance with the CAL.

The Order Modifying License incorporated a two-phase action plan. The licensee is required to enlist a consultant to assist in performing an assessment of program deficiencies and necessary corrective actions. In the interim, the licensee may continue operations only if very stringent on-site management controls are in place as prescribed by the Order. This includes assignment of a qualified Radiation Safety Officer (RSO) at each major project site or centralized facilities for temporary job sites, with responsibility for radiation safety program implementation and the authority to shut down any operations not in regulatory compliance.

The NRC Region V staff has reviewed the training and certification documentation of the new Radiation Safety Officers submitted in compliance with the Order. All documentation was acceptable.

A reinspection schedule has been established which will examine the actions taken by the licensee, pursuant to the Order, at selected job sites under NRC and Agreement State jurisdiction.

The consultant's action plan has been evaluated and approved with minor revisions by Region V as stipulated in the Order.

On September 25, 1987, NRC Information Notice No. 87-45 ("Recent Safety-Related Violations of NRC Requirements by Industrial Radiography Licensees") was issued to all NRC licensees authorized to possess and use sealed sources for industrial radiography to inform them of the event.

Dated in Washington, DC, this 14th day of December 1987.

For the Nuclear Regulatory Commission.

Samuel J. Chilk,

Secretary of the Commission.

[FR Doc. 87-29083 Filed 12-17-87; 8:45 am]

BILLING CODE 7590-01-M

[Docket Nos. 50-315 and 50-316]

Indiana and Michigan Power Co.; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to Facility Operating Licensees DPR-58 and DPR-74, issued to Indiana and Michigan Electric Company (the licensee), for the Donald C. Cook Nuclear Plant, Unit Nos. 1 and 2, located in Berrien County, Michigan.

Environmental Assessment

Identification of Proposed Action

The amendments would change the name of the Indiana and Michigan Electric Company in the facility Operating Licenses to correspond to the new name—Indiana and Michigan Power Company.

The amendments would respond to the licensee's application dated October 5, 1987.

The Need for the Proposed Action

The proposed amendments are needed to recognize the official name change of the licensee and to update the Facility Operating Licenses, DPR-58 and DPR-74. The change does not in any way affect or alter the licensee's assets, financial condition, corporate structure or corporate organization. It is a change in name only.

Environmental Impacts of the Proposed Action

The proposed amendments do not affect the probability or consequences of accidents nor do they otherwise affect radiological plant effluents. Therefore, the Commission concludes that there are no significant radiological environmental impacts associated with these proposed amendments.

The proposed amendments do not affect nonradiological plant effluents and have no other environmental impact. Therefore, the Commission concludes that there are no significant nonradiological environmental impacts associated with the proposed amendments.

Alternatives to the Proposed Action

Since the Commission has concluded that there are no significant environmental effects that would result from the proposed action, any alternatives with equal or greater environmental impacts need not be evaluated.

Alternative Use of Resources

These actions involve no use of resources not previously considered in the Final Environmental Statement related to operation of the D.C. Cook Nuclear Plant.

Agencies and Persons Consulted

The Commission's staff reviewed the licensee's request and did not consult other agencies or persons.

Finding of No Significant Impact

The Commission has determined not to prepare an environmental impact statement for the proposed amendments.

Based upon the foregoing environmental assessment, we conclude that the proposed action will not have a significant effect on the quality of the human environment.

For further details with respect to this action, see the application for the amendments dated October 5, 1987 which is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, DC, and at the Maude Preston Palenske Memorial Library, 500 Market Street, St. Joseph, Michigan 49085.

Dated at Bethesda, Maryland, this 3rd day of December, 1987.

For the Nuclear Regulatory Commission.

Kenneth E. Perkins,

Director Project Directorate III-3, Division of Reactor Projects—III, IV, V and Special Projects, Office of Nuclear Reactor Regulation.

[FR Doc. 87-29090 Filed 12-17-87; 8:45 am]

BILLING CODE 7590-01-M

[Docket No. 50-498 OL and 50-499 OL]

Houston Lighting and Power Co. (South Texas Project, Units 1 and 2); Issuance of Director's Decision Under 10 CFR 2.206 (DD-87-20)

Notice is hereby given that the Director, Office of Nuclear Reactor Regulation, has denied a Petition under 10 CFR 2.206 filed by Mr. Lanny Sinkin on behalf of Citizens Concerned About Nuclear Power, Inc. The petitioner asked the Nuclear Regulatory Commission (NRC) to reopen the record in the South Texas Nuclear Project licensing hearings based upon the testimony given by NRC witnesses during hearings on April 1987 before the Senate Committee on Government Affairs. The petitioner alleged that the testimony of these witnesses before this Congressional Committee sheds doubt on the credibility of NRC personnel in the South Texas Nuclear Project licensing hearings.

The petitioner's request has been denied for the reasons fully described in the "Director's Decision Under 10 CFR 2.206," issued on this date, which is available for public inspection at the Commission's Public Document Room, 1717 H. Street NW., Washington, DC 20555, and the Local Public Document Rooms for the South Texas Nuclear Project located at the Austin Public Library, 810 Guadalupe Street, Austin, Texas 78701 and at the Wharton County Junior College, J.M. Hodges Learning Center, 911 Bowling Highway, Warton, Texas 77488.

A copy of the Decision will be filed with the Secretary for the Commission's review in accordance with 10 CFR 2.206(c). As provided in this regulation, the Decision will constitute the final action of the Commission twenty-five (25) days after issuance, unless the Commission, on its own motion, institutes review of the Decision within that time period.

Dated at Bethesda, Maryland, this 13th day of December, 1987.

For the Nuclear Regulatory Commission.
Thomas E. Murley,
Director, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-M

[Docket Nos. 50-327 and 50-328]

Tennessee Valley Authority Sequoyah Nuclear Plant, Units 1 and 2; Exemption

I

The Tennessee Valley Authority (the licensee) is the holder of Facility Operating Licenses No. DPR-77 and DPR-79 which authorize operation of the Sequoyah Nuclear Plant, Units 1 and 2, respectively. These licenses provide that, among other things, the facility is subject to all rules, regulations, and orders of the Commission now or hereafter in effect.

The Sequoyah facility consists of two pressurized water reactors located at the licensee's site in Hamilton County, Tennessee.

II

General Design Criterion (GDC) 56 of Appendix A to 10 CFR Part 50 requires that each line that is connected directly to the containment atmosphere and penetrates primary reactor containment shall be provided with containment isolation valves. The combination of valves, automatic or locked closed, and the location of valves, one inside and one outside containment, are specified in GDC 56. These requirements must be met unless it can be demonstrated that the containment isolation provisions for a specific class of lines are acceptable on some other defined basis.

As part of the original design of Sequoyah Nuclear Plant Units 1 and 2, TVA relied upon certain closed systems as the outside containment isolation barrier to meet the Commission's regulations, specifically GDC-55 and 56, on some "other defined basis." The NRC staff issued NUREG-0011, dated March 1979, which documents the acceptability of TVA's compliance with the GDC; however the staff did not specifically address the acceptability of an "other defined basis" for any containment isolation configurations.

Subsequent to the development of the TMI Action Plan, NRC staff policy has been established that closed systems outside containment are not generally acceptable as an isolation barrier for lines covered by GDC 55 and 56.

As a result of an NRC staff inspection conducted at Sequoyah in March 1986, apparent discrepancies in system compliance with the containment isolation requirements were identified. These findings led to a general reassessment of the containment isolation design and the "other defined basis" assumptions made for the Sequoyah Nuclear Plant, Units 1 and 2.

Subsequent to discussions with TVA, by letter dated January 2, 1987 TVA redesignated certain existing system line isolation valves as containment isolation valves. The Commission's requirements, however, could not be met in every isolated case. In most of the cases evaluated, the explicit requirements of GDC 55 and 56 could be satisfied by valve redesignation, thereby imposing them to the associated operability, surveillance, and testing requirements. For those cases where the staff requirements could not be met, TVA has requested an exemption from the GDC.

This exemption addresses the Sequoyah Nuclear Plant, Units 1 and 2, containment isolation valves in the vacuum relief lines with respect to the valve location requirements only.

The vacuum relief penetrations at the Sequoyah Nuclear Plant, Units 1 and 2, provide a containment isolation design consisting of a single automatic isolation valve located outside containment and a spring-loaded vacuum relief check valve in series.

Both of these redundant isolation valves are located outside the primary containment. Thus, while the licensee has provided a design that complies with the requirements of GDC 56 in terms of the number valves, there is deviation from the explicit GDC requirements with regard to valve location. Therefore, by submittal dated February 3, 1987, supplemented by letter dated April 8, 1987, the licensee has requested an exemption from the requirements of GDC 56 for the isolation provisions of the containment vacuum relief lines. Specifically, the exemption is from the requirements of GDC 56 regarding valve location.

With regard to the adequacy of redundant isolation, the staff concludes that with both the spring-loaded check valves and the automatic butterfly valves cited as containment isolation valves, the design is adequate for assuring redundancy in achieving containment isolation. The basis for this conclusion is the fact that the first outer isolation valve, the automatic butterfly valve, is bolted directly to the containment penetration sleeve thereby essentially extending the containment. The penetration sleeve between primary containment and the butterfly valve has been evaluated by the licensee to demonstrate that stresses in the penetration sleeve are well below allowable values in accordance with Branch Technical Position MEB 3-1. Therefore, a break in the penetration sleeve between the first valve and the containment need not be considered. Therefore, this design essentially extends the containment to include the butterfly valves. Furthermore, it is the staff's judgment that no improvement to plant safety would be achieved by modification of the isolation design to fully comply with the GDC, and therefore is not warranted, nor necessary to achieve the underlying purpose of the rule. Therefore, the staff finds that an exemption from the requirements of GDC 56 in the case of the containment vacuum relief lines is justified.

III

Accordingly, the Commission has determined that, pursuant to 10 CFR 50.12, the exemption is authorized by law, will not present an undue risk to the public health and safety, and is consistent with the common defense and security. The Commission further determines that special circumstances as provided in 10 CFR 50.12(a)(2)(ii) are present justifying the exemption; namely, that application of the regulation in the particular circumstances is not necessary to achieve the underlying purpose of the rule in that the licensee's design provides two, redundant means of isolation, and that implementing the required modifications to meet the location requirements would not significantly enhance plant safety.

The Commission hereby grants an exemption from the requirements of GDC 56 of Appendix A to 10 CFR Part 50 to the licensee for operation of Sequoyah Nuclear Plant, Units 1 and 2, in that the vacuum relief lines can be isolated using a spring-loaded check valve in series with a butterfly valve both of which will be located outside primary containment.

Pursuant to 10 CFR 51.32, the Commission has determined that the issuance of this exemption will have no significant impact on the environment (52 FR 46866, December 10, 1987).

For further details with respect to this section, see the request for exemption dated February 3, 1987, as supplemented April 8, 1987, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, DC, and at the Chattanooga-Hamilton County Library, 1001 Broad Street, Chattanooga, Tennessee 37402.

This exemption is effective upon issuance.

Dated at Bethesda, Maryland, this 14th day of December 1987.

For the Nuclear Regulatory Commission.

Director, Office of Special Projects.
[FR Doc. 87-29088 Filed 12-17-87; 8:45 am]
BILLING CODE 7590-01-M

[Docket Nos. 50-327 and 50-328]

Tennessee Valley Authority (Sequoyah Nuclear Plant, Units 1 and 2); Exemption

I

The Tennessee Valley Authority (the licensees) is the holder of Facility Operating Licenses No. DPR-77 and DPR-79 which authorize operation of the Sequoyah Nuclear Plant, Units 1 and 2, respectively. These licenses provide that, among other things, the facility is subject to all rules, regulations and Orders of the Commission now or hereafter in effect.

The Sequoyah facility consists of two pressurized water reactors located at the licensee's site in Hamilton County, Tennessee.

II

General Design Criterion (GDC) 55 of Appendix A to 10 CFR Part 50 requires that each reactor coolant pressure boundary line penetrating the primary reactor containment be provided with containment isolation valves. The combination of valves is to be one inside and one outside containment and either automatic or locked closed. The GDC does allow for a demonstration of acceptability on some other defined basis.

As part of the original design of Sequoyah Nuclear Plant, Units 1 and 2, TVA relied upon certain closed systems as the outside containment isolation barrier to meet the Commission's regulations, specifically GDC-55 and 56, on some "other defined basis." The NRC staff issued NUREG-0011, dated March 1979, which documents the acceptability of TVA's compliance with the GDC; however, the staff did not specifically address the acceptability of an "other defined basis" for any containment isolation configurations.

Subsequent to the development of the TMI Action Plan, NRC staff policy has been established that closed systems outside containment are not generally acceptable as an isolation barrier for lines covered by GDC 55 and 56.

As a result of an NRC staff inspection conducted at Sequoyah in March 1986, apparent discrepancies in system compliance with the containment isolation requirements were identified. These findings led to a general reassessment of the containment isolation design and the "other defined basis" assumptions made for the Sequoyah Nuclear Plant, Units 1 and 2.

Subsequent to discussions with TVA, by letter dated January 2, 1987 TVA redesignated certain existing system line isolation valves as containment isolation valves. The Commission's requirements, however, could not be met in every isolated case. In most of the cases evaluated, the explicit requirements of GDC 55 or 56 could be satisfied by valve redesignation, thereby imposing them to the associated operability, surveillance, and testing requirements. For those cases where the staff requirements could not be met, TVA has requested an exemption from the GDC.

This exemption addresses the Sequoyah Nuclear Plant, Units 1 and 2, containment isolation valves in the Residual Heat Removal (RHR) System loop supply line with respect to the valve location requirements only.

The containment isolation provisions for the Sequoyah Nuclear Plant, Units 1 and 2 RHR System reactor coolant loop supply (discharge line) through penetration X-17 utilizes a check value and a motor-operated remote manual valve inside containment and a water seal and closed system outside containment. The licensee has designated this inboard remote manual valve as a containment isolation valve. This valve, therefore, is subject to appropriate operability, surveillance and testing requriements, and thereby, in combination with the inboard check valve, satisfies the redundancy requrements of GDC 55. While the designation of the motor-operated valve as a containment isolation valve is necessary, this change does not bring the isolation design into compliance with the requirements of GDC 55.

Although the licensee has provided an isolation design which satisfies the GDC in terms of redundancy of valves, it is not in compliance with the requirement of GDC 55 concerning valve location. The location of both containment isolation valves inside containment clearly does not satisfy the criteria of GDC 55 which specifies a valve inside and outside containment. Allowances for valve location are made in cases where it is impractical to locate valves on either side of the containment, e.g., in a situation where location of an isolation valve inside containment would mean it could be submerged following an accident.

Consequently, by letter dated February 3, 1987, supplemented by leter dated April 8, 1987, the licensee requested an exemption from the valve location requirement of GDC 55 for the RHR loop supply line. The licensee contends that an exemption is warranted on the basis that the isolation capability for this line was technically adequate and that further modification to the design was not cost effective.

The licensee has designed the remote manual valve in the RHR loop supply line to the loop 1 and 3 hot legs as a containment isolation valve. This line has multiple isolation provisions; a remote manual valve and two missile-protected check valves inside containment and a closed system outside containment.

The licensee has stated that in addition to the check valve and the remote manual isolation valve there are other isolation barriers that provide protection against leakage to the environment from these penetrations. First, the system outside containment is a closed system designed to seismic Category 1 standards and meets at least Safety Class 2 design requirements. Secondly, these lines are suplied by two RHR pumbs which are interconnected to provide a water seal at a pressure sufficient to preclude containment atmospheric leakage.

The NRC staff recognizes that both the water seal and the closed system outside containment are equivalent to a valve as an isolation barrier since both of these barriers can withstand a single active failure. The staff has evaluated the Sequoyah isolation design and exemption request for the RHR loop supply line and concludes that the exemption is justified on the grounds that the existing redundant isolation capability, in consideration of both the water seal and closed system outside containment, provides reasonable assurance against offsite releases and, therefore, application of GDC 55 in these particular circumstances is not necessary to achieve the purpose of the criterion.

III

Accordingly, the Commission has determined that, pursuant to 10 CFR 50.12, the exemption is authorized by law, will not present an undue risk to the public health and safety, and is consistent with the common defense and security. The Commission further determines that special circumstances, as provided in 10 CFR 50.12(a)(2)(ii), are present justifying the exemption—namely, that application of the regulation in the particular circumstances is not necessary to achieve the underlying purpose of the rule in that the licensee's design meets the underlying intent of GDC 55 which is to provide a redundant means of

VOL 52 ISS 243 DEC 18 1987 UMI

isolation. The design does this by providing a spring-loaded check valve in series with a remote manual isolation combined with a water seal and a closed system outside containment.

The Commission hereby grants an exemption from the requirements of GDC 55 of Appendix A to 10 CFR Part 50 to the licensee for operation of the Sequoyah Nuclear Plant, Units 1 and 2, in that the RHR loop supply line to the loop 1 and 3 hot legs can be isolated using two check valves and a remote manual valve all of which are located inside containment.

Pursuant to 10 CFR 51.32, the Commission has determined that the issuance of this exemption will have no significant impact on the environment (52 FR 46869, December 10, 1987).

For further details with respect to this action, see the request for exemption dated February 3, 1987, as supplemented April 8, 1987, which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, DC, and at the Chattanooga-Hamilton County Library, 1001 Broad Street, Chattanooga, Tennessee 37402.

This exemption is effective upon issuance.

Dated at Bethesda, Maryland, this 14th day of December.

For the Nuclear Regulatory Commission.

Steward D. Ebneter,

Director, Office of Special Projects.

BILLING CODE 7590-01-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-25193; File Nos. 4-218 and 57-433]

Joint Industry Plan; Filing and Summary Effectiveness of Amendments and Order Withdrawing Amendments to the Consolidated Quotation Plan and Consolidated Transaction Plan Fee Schedules

On December 7, 1987, the participants in the Consolidated Tape Association ("CTA") and Consolidated Quotation System ("CQS") submitted amendments to the Plan governing the operation of the consolidated quotation reporting system ("CQ Plan") and the Plan governing the operation of the consolidated transaction reporting system ("CTA Plan").[1]

[1] The participants originally submitted the amendments on March 31, 1987. *See* Securities Exchange Release No. 24334 (April 13, 1987), 52 FR 12997. On August 12, 1987, the participants withdrew those amendments and refiled them pursuant Rule 11Aa3-2(c)(4). *See* Securities Exchange Act Release No. 24797 (August 13, 1987), 52 FR 31108. On December 7, 1987, the participants again withdrew the amendments and resubmitted them pursuant to Rule 11Aa3-2(c)(4). *See* letter dated December 7, 1987, from Carrie E. Dwyer, Senior Vice President and General Counsel, American Stock Exchange ("Amex"), to Kathryn V. Natale, Assistant Director, Division of Market Regulation. The Commission requested that the participants resubmit the amendments to allow the Commission adequate time to review them and to review the comment letters already submitted on the proposal.

[2] "Network B" refers to the consolidated data stream of transaction and quotation data on eligible securities that are listed on the Amex or that are traded on another exchange but substantially meet the Amex listing standards.

[3] Examples of "Other Services" are services that allow customers to: (1) Obtain real-time stock market information over the telephone through an automated process involving a computer-generated voice; or (2) obtain real-time stock market information over a leased printer located in their homes or offices.

[4] *See* Securities Exchange Act Release No. 20216 (September 23, 1986), 48 FR 44299, in which the Commission approved amendments to the CTA and CQ Plans authorizing the Plan administrators (*i.e.*, the New York Stock Exchange and the Amex) to engage in market tests and pilot programs of limited scope and duration without the prior approval of the Operating Committee or, implicitly, the Commission.

[5] *See* letters dated June 5, 1987, from Paul Zurkowski, President, Information Industry Association ("IIA"); August 25, 1987, from Carrie E. Dwyer, Senior Vice President and General Counsel, Amex; September 29, 1987, for Tess Lander-Mickley, Vice President, Reuters Information Services, Inc.; and October 27, 1987, from Kenneth B. Allen, Senior Vice President, Government Relations, IIA, to Jonathan G. Katz, Secretary, SEC.

[6] It is important to note that the Commission recently considered and approved similar changes to the CTA and CQ Network A Fee Schedule. *See* Securities Exchange Act Release No. 24130 (February 20, 1987), 52 FR 6413.

Continued

I. Description of the Amendments

The amendments revise Network B[2] fees to accommodate "Other Services" (services subscribers offer costomers that differ from conventional services);[3] raise the Network B analysis programs charge; and establish a single, lower fee for receipt of Network B last sale and bid-ask data by nonprofessional subscribers. The amendments also make several conforming and technical changes.

First, the amendments incorporate into the CTA and CQ Plans new fees for Other Services that are substantially lower than other professional Network B charges. In effect, the new fees charge the broker-dealer or vendor on the basis of "device equivalency" as if the broker-dealer or vendor were serving its customers by manual interrogation of a last sale data base.

Second, the amendments reduce the monthly fees vendors pay to provide their nonprofesional customers with Network B data. Previously vendors paid $5.00 under the CTA Plan and $4.00 under the CQ Plan. The amendment provides for a single, combined monthly fee of $3.00 for CTA and CQ data.

Finally, the amendments increase the monthly Network B analysis programs charge from $50.00 to $200.00. Under the old fee schedule, use of CTA and CQ data for other categories of computer programs (for example, compilation of stock tables and operations control programs) required payment of a monthly fee of $200.00. Thus, the fee increases merely brings the fee for the analysis program classification in line with similar classifications.

The participants stated that they designed the amendments to permit wider dissemination of market data by making it less expensively available to investors. They believe that the new fees also offer greater flexibility to broker-dealers and vendors in designing new market data services. Finally, the participants stated that they believe the amendments fulfill the national market system objectives of dissemination of last sale information and thus are consistent with Section 11A of the Securities Exchange Act of 1943.

II. Summary Effectiveness of the Amendments

Rule 11Aa3-2 provides that the Securities and Exchange Commission ("Commission") may, upon publication of notice of the amendment, summarily put into effect for 120 days an amendment to a national market system plan. The Commission first must determine, however, that is necessary or appropriate in the public interest, for the protection of investors or the maintenance of fair and orderly markets, to remove impediments to, and perfect mechanisms of, a national market system or otherwise in furtherance of the purposes of the Act. The Commission believes that granting summary effectiveness for these amendments is consistent with the Act.

First, the fees for "Other Services" already had been in effect under experimental authority granted the CQS and CTA prior to their submission to the Commission for approval.[4] Further, making these fees a permanent part of the CTA and CQ Plan fee structure and reducing the non-professional fees will enable a greater number of investors to receive last sale and quotation data and should encourage innovation among broker-dealers and vendors in creating new methods of providing information to customers.

The Commission also believes that the increase in the fee subscribers pay for the program analysis classification is consistent with the Act. The Commission believes the increase corrects an apparent inequity among the charges for different computer program classifications.

The Commission received several comment letters on the proposed amendments.[5] The 120-day period will afford the Commission adequate time to carefully consider those comments. Further, while the Commission reviews the comment letters, the Plan participants will be able to apply the modified fee schedule, rather than reverting to the old schedule during this interim period.[6]

III. Request for Comment

To assist the Commission in determining whether to approve permanently the amendments, interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submission should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Copies of this submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street NW., Washington, DC 20549. Copies of such filing also will be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by January 8, 1988.

IV. Withdrawal of Amendments to the CTA and CQ Plans

As noted above, the CTA and CQ Network B Participants requested that the Commission order withdrawn the amendments to the CTA and CQ Plans submitted on August 12, 1987.

It is therefore ordered, That the above-described amendments be withdrawn.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Dated: December 14, 1987.

Jonathan G. Katz,

Secretary.

[FR Doc. 87-29115 Filed 12-17-87; 8:45 am]

BILLING CODE 8010-01-M

[Release No. 34-25194; File No. SR-MBS-87-10]

Self-Regulatory Organizations; Proposed Rule Change by MBS Clearing Corp.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on December 8, 1987, the MBS Clearing Corporation filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Attached as Exhibit A is the MBS Clearing Corporation's (MBSCC) procedures regarding the physical withdrawal of securities eligible ("Eligible Securities") for deposit in MBSCC's Depository Division. The procedures will be in effect for the period starting on November 24, 1987, and ending 60 days from the date of publication of the notice.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B) and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The proposed rule change clarifies and sets forth MBSCC's policy regarding the physical withdrawal of Eligible Securities. The policy covers Eligible Securities subject to the Public Securities Association's ("PSA") Good Delivery Guideline for securities issued by the Government National Mortgage Association ("GNMA"), as adopted on December 29, 1986, as well as those not subject to PSA's guideline. The PSA guideline was announced together with a schedule by GNMA and PSA for the conversion of GNMA securities into book-entry form.

The policy substantially limits, but does not altogether prohibit, the withdrawal of securities subject to PSA's Good Delivery Guideline. Securities not subject to the guideline may be withdrawn by MBSCC Participants and registered in the name of the Participant or the name of a customer of the Participant. Securities subject to the guideline may be withdrawn and registered in a Participant's name only if the Participant is legally required to obtain or maintain physical possession of the securities.

Participants may otherwise request physical withdrawal of securities on behalf of a customer only if the customer is legally required to obtain or maintain physical possession of the securities or the customer, to the best of the Participant's knowledge, does not intend to trade or deliver for financing purposes the withdrawn securities.

At the present time, GNMA securities with the following coupon rates have been converted to book-entry form and are subject to the PSA guideline: 5.50%–7.49%, 16.00%–17.50%, 14.00%–15.99%, and 13.00%–13.99%. On April 27, 1987, PSA and MBSCC modified the conversion schedule of GNMA securities. For additional coupons, notice will be given of coupons to be designated as specified for book-entry settlement 45 days in advance of the issuance date of new pools of coupons.

In response to concerns raised by various commentators, MBSCC has further revised the withdrawal policy to make it clear that a Participant may make a request to withdraw securities subject to the PSA Good Delivery Guideline if it is legally required to maintain, as well as obtain, physical possession of securities. The phrase "legally required to obtain or maintain physical possession" is expanded to include those legal requirements imposed by any rule or regulation of any governmental agency, self-regulatory organization as defined in the Securities Exchange Act of 1934 or designated contract market as defined in the Commodity Exchange Act. In addition, the policy has been revised to enable the Participant, or its customer, to obtain

BEST COPY AVAILABLE

securities in time to comply with such legal requirements.

Consistent with PSA's Good Delivery Guideline, the policy essentially ensures that securities subject thereto will be cleared and settled in book-entry form through a registered clearing agency. The policy is designed to reduce physical withdrawal requests for book-entry eligible securities subject to the guideline and encourage the centralized processing of mortgage-backed securities transactions. By placing reasonable restrictions on the physical withdrawal of mortgage-backed securities subject to the PSA guideline, the proposed rule change will both foster PSA's mandate for book-entry settlement of certain transactions and significantly reduce delays, unmatched transaction orders and other human errors often associated with the physical delivery and transfer of certificates.

The proposed rule change is consistent with Section 17A of the Securities Exchange Act of 1934 in that it encourages the processing and facilitation of securities clearance and settlement of mortgage-backed securities, thereby reducing current inefficient procedures and costs to issuers and investors of mortgaged-backed securities.

(B) Self-Regulatory Organization's Statement on Burden on Competition

MBSCC does not believe that any burden will be placed on competition as a result of the proposed rule change.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

While written comments have not been generally solicited, MBSCC has submitted responses to comments submitted to the Commission. In response to certain concerns raised by the Chicago Board of Trade regarding the obtaining of GNMA certificates for collateral purposes relating to Collateralized Depository Receipts, MBSCC has made revisions to the proposed rule change discussed in Item 3(a) above.

In a separate rule filing to MBSCC's Depository Division rules (SR–MBS–87–7, submitted July 24, 1987), MBSCC has responded to concerns raised by some commentators regarding the submission of claims under a GNMA or other similar guarantee on behalf of Participants. The Depository Division rules have been amended to make clear that MBSCC, in filing claims for payment under any guarantee, will be acting solely as agent for its Participants, except in certain circumstances, where MBSCC or a third-party lender have made principal and interest advances.

Representatives of PSA and GNMA have had the opportunity to review the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to section 19(b)(3) of the Securities Exchange Act of 1934 and subparagraph (e) of Securities Exchange Act Rule 19b-4. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC. Copies of such filing will also be available for inspection and copying at the principal office of the above-referenced self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by January 8, 1988.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

Dated: December 14, 1987.

Exhibit A—MBSCC Procedure for Physical Withdrawal of Despository Eligible Securities

The following is MBSCC's Procedure for physical withdrawal of securities from the MBSCC Depository. The Procedure covers securities that are *not* yet subject to PSA's Good Delivery Guideline, as adopted by PSA on December 29, 1986, *as well as those* subject to the Guideline. This Procedure limits almost in its entirety the withdrawal of securities that are subject to PSA's Good Delivery Guideline. This is consistent with PSA's and GNMA's intent to move vigorously to a book-entry settlement environment for GNMA securities.

Securities Not Yet Subject to Good Delivery Guideline

In the case of securities not yet subject to the Good Delivery Guideline, a Participant will be permitted to withdraw Securities held by the Depository upon the Participant's submission of a request on the form prescribed by MBSCC. The Participant must specify whether the securities should be registered in the name of the Participant or the name of a customer of the Participant. Assuming that the request is made within the appropriate cut-off times prescribed by MBSCC, securities will be processed within four-to-twelve hours of such request.

Securities Subject to Good Delivery Guideline

MBSCC will honor requests to withdraw securities subject to the PSA Good Delivery Guideline in a Participant's name only in the unlikely event that the Participant is legally required to obtain or maintain physical possession of securities. Other Participants may submit requests for withdrawal of securities only if they request that the securities be registered in the name of a customer who is legally required to obtain or maintain physical possession of the securities or who, to the best of the Participant's knowledge, does not intend to trade, or deliver for financing purposes, the securities withdrawn. For purposes hereof, a Participant or its customer will be deemed legally required to obtain or maintain physical possession of securities if obligated to do so under any applicable law or any rule or regulation of any governmental agency, any self-regulatory organization as defined in the Securities Exchange Act of 1934, or any designated contract market as defined in the Commodity Exchange Act (including, in the case of a self-regulatory organization or designated contract market which is a Participant in the Depository, the rules or regulations of such self-regulatory organization or designated contract market).

Assuming a request for withdrawal satisfies the foregoing guidelines and is made within the appropriate cut-off times and on forms prescribed by MBSCC, MBSCC will make the securities available (a) seven calendar days from the date of withdrawal request, or (b) on such earlier date as the Participant requesting the withdrawal certifies to MBSCC is necessary to enable the Participant or its customer to comply with any applicable legal requirement. Participants should advise their customers that payment will be required on settlement date, even though the physical security may be received sometime thereafter.

By making a request for the withdrawal of securities, a MBSCC Depository Participant represents to the Depository that the withdrawal will satisfy the foregoing guidelines. Abuse of this policy will subject the offending Participant's continued participation in the Depository to review by the MBS Clearing Corporation Board of Directors.

BILLING CODE 8010–01–M

Self-Regulatory Organizations; Applications for Unlisted Trading Privileges and of Opportunity for Hearing; Midwest Stock Exchange, Inc.

December 14, 1987.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(f) (1) (B) of the Securities Exchange Act of 1934 and Rule 12f–1 thereunder, for unlisted trading privileges in the following stocks:

Gallagher (Arthur J.) & Co., Common Stock, $1.00 Par Value (File No. 7–0866)
Johnston Industries, Inc. Common Stock, $.10 Par Value (File No. 7–0867)
Regal Beloit, Common Stock, No Par Value (File No. 7–0868)

These securities are listed and registered on one or more other national securities exchange and are reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before January 6, 1988, written data, views and arguments concerning the above-referenced applications. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, Washington, DC 20549. Following this opportunity for hearing, the Commission will approve the applications if it finds, based upon all the information available to it, that the extensions of unlisted trading privileges pursuant to such applications are consistent with the maintenance of fair and orderly markets and the protection of investors.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

DEPARTMENT OF STATE

[CM-8/1144]

Study Group 6 of the U.S. Organization for the International Radio Consultative Committee (CCIR); Meeting

The Department of State announces that Study Group 6 of the U.S. Organization for the International Radio Consultative Committee (CCIR) will meet on January 4, 1988 at the Institute for Telecommunication Sciences, 325 Broadway, Boulder, Colorado. The meeting will begin at 1:30 p.m.

Study Group 6 deals with matters relating to the propagation of radio waves in and through the ionosphere. The purpose of the meeting is to review preparations for the international meeting of Study Group 6 in the Spring of 1988.

Members of the general public may attend the meeting and join in the discussions subject to instructions of the Chairman. Admittance of public members will be limited to the seating available. Requests for further information should be directed to Mr. Richard Shrum, State Department, Washington, DC 20520; telephone (202) 647-2592.

Richard E. Shrum,

Chairman, U.S. CCIR National Committee.

Date: December 7, 1987.

Advisory Committee on Historical Diplomatic Documentation; Meeting

The Advisory Committee on Historical Diplomatic Documentation will meet on January 7, 1988, at 9:00 a.m. in Room 1105 of the Department of State.

The Advisory Committee advises the Bureau of Public Affairs, and in particular the Office of the Historian, concerning problems connected with preparation of the documentary series entitled *Foreign Relations of the United States* and other responsibilities of that Office. Of particular importance are editorial and publishing practice and questions related to declassification of official records as specified in Executive Order 12356 (April 2, 1982).

In accordance with section 10(d) of the Advisory Committee Act (Pub. L. 92-463) it has been determined that certain discussions during the meeting will necessarily involve consideration of matters recognized as not subject to public disclosure under 5 U.S.C. 552b (c)(1), and that the public interest requires that such activities be withheld from disclosure. The meeting will therefore be closed when such discussions take place from 2 p.m. to 5 p.m. on Thursday, January 7, and from 9 a.m. to 5 p.m. on Friday, January 8.

Persons wishing to attend the open portion of the meeting should come before 9:00 a.m. on January 7 to the Diplomatic Entrance of the Department of State at 22nd and C Streets NW., Washington, DC. They will be escorted to Room 1105 and at the conclusion of the open portion of the meeting back to the Diplomatic Entrance.

Questions concerning the meeting should be directed to William Z. Slany, Executive Secretary, Advisory Committee on Historical Diplomatic Documentation, Department of State, Office of the Historian, Washington, DC 20520; telephone (202) 663-1122.

December 14, 1987.

William Z. Slany,

Executive Secretary.

BILLING CODE 1410-09-M

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 1:50 p.m. on Monday, December 14, 1987, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session to consider a recommendation regarding the Corporation's assistance agreement with an insured bank.

In calling the meeting, the Board determined, on motion of Director C.C. Hope, Jr. (Appointive), seconded by Mr. Dean S. Marriott, acting in the place and stead of Director Robert L. Clarke (Comptroller of the Currency), concurred in by Chairman L. William Seidman, that Corporation business required its consideration of the matter on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matter in a meeting open to public observation; and that the matter could be considered in a closed meeting pursuant to subsections (c)(4) and (c)(9)(B) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(4) and (c)(9)(B)).

Dated: December 15, 1987.

Federal Deposit Insurance Corporation.

Margaret M. Olsen,

Deputy Executive Secretary.

SECURITIES AND EXCHANGE COMMISSION

Agency Meeting

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: [52 FR 47096 December 11, 1987].

STATUS: Closed meeting.

PLACE: 450 5th Street, NW., Washington, DC.

DATE PREVIOUSLY ANNOUNCED: Tuesday, December 8, 1987.

CHANGES IN THE MEETING: Time change/deletion/additional item.

A closed meeting scheduled for Wednesday, December 16, 1987, at 2:30 p.m., has been rescheduled for Wednesday, December 16, 1987, at 1:45 p.m.

The following item will not be considered at a closed meeting scheduled for Wednesday, December 16, 1987, at 1:45 p.m.:

Settlement of injunctive action.

The following additional item will be considered at a closed meeting scheduled for Wednesday, December 16, 1987, at 1:45 p.m.:

Status report of judicial proceeding.

Commissioner Cox, as duty officer, determined that Commission business required the above changes.

At times changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: Brent Taylor at (202) 272-2014.

Jonathan G. Katz,

Secretary.

December 14, 1987.

Price: $1.00

LIST OF PUBLIC LAWS

Last List December 17, 1987
This is a continuing list of public bills from the current session of Congress which have become Federal laws. It may be used in conjunction with "P L U S" (Public Laws Update Service) on 523–6641. The text of laws is not published in the **Federal Register** but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone 202–275–3030).

Would you like to know...

if any changes have been made to the Code of Federal Regulations or what documents have been published in the Federal Register without reading the Federal Register every day? If so, you may wish to subscribe to the *LSA (List of CFR Sections Affected)*, the *Federal Register Index*, or both.

LSA • List of CFR Sections Affected

The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. The LSA is issued monthly in cumulative form. Entries indicate the nature of the changes—such as revised, removed, or corrected.

$24.00 per year

Federal Register Index

The Index, covering the contents of the daily Federal Register, is issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references.

$22.00 per year

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Note to FR Subscribers:
FR Indexes and the LSA (List of CFR Sections Affected) are mailed automatically to regular FR subscribers.

BEST COPY AVAILABLE

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers for $340.00 per year, or $170.00 for 6 months in paper form, or $188.00 per year, or $94.00 for six months in microfiche form, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, or charge to your GPO Deposit Account or VISA or Mastercard.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 52 FR 12345.

Title 3—

The President

Executive Order 12617 of December 17, 1987

President's Advisory Committee on Mediation and Conciliation

By the authority vested in me as President by the Constitution and laws of the United States of America, including the Federal Advisory Committee Act as amended (5 U.S.C. App. 1), and in order to extend the life of the President's Advisory Committee on Mediation and Conciliation, it is hereby ordered that Section 4(b) of Executive Order No. 12462 of February 17, 1984, as amended, is further amended to read: "The Committee shall terminate 60 days after the Committee submits its report to the President and the Director of the Federal Mediation and Conciliation Service, or no later than September 30, 1988, unless sooner extended."

Ronald Reagan

Rules and Regulations

Federal Register
Vol. 52, No. 244
Monday, December 21, 1987

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

7 CFR Part 301

[Docket No. 87-159]

Imported Fire Ant Regulated Areas

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Affirmation of interim rule.

SUMMARY: We are affirming without change an interim rule that amended the list of generally infested areas under the imported fire ant quarantine and regulations by adding areas in counties in Alabama, Arkansas, Georgia, Mississippi, North Carolina, and Texas. It also quarantined the state of Oklahoma, and designated areas in three countries in Oklahoma as generally infested areas.

EFFECTIVE DATE: January 20, 1988.

FOR FURTHER INFORMATION CONTACT: Charles H. Bare, Staff Officer, Plant Protection and Survey Section, Program Planning Staff, PPQ, APHIS, USDA, Room 643, Federal Building, Hyattsville, MD 20782, 301-436-8247.

SUPPLEMENTARY INFORMATION:

Background

In an interim rule published in the Federal Register and effective September 1, 1987 (52 FR 32907-32912, Docket Number 87-077), we amended the regulations in 7 CFR 301.81 by adding Oklahoma to the list of quarantined states, designating areas in 3 counties in Oklahoma as generally infested areas, and adding to the list of generally infested areas 6 counties in Alabama, 2 counties in Arkansas, 11 counties in Georgia, 2 counties in Mississippi, 11 counties in North Carolina, and 42 counties in Texas. We also made nonsubstantive, editorial changes. Our proposal invited the submission of written comments, which were required to be postmarked or received on or before November 2, 1987.

We received one comment that did not address our interim rule. The facts presented in the interim rule still provide a basis for this rule.

Executive Order 12291 and Regulatory Flexibility Act

We are issuing this rule in conformance with Executive Order 12291, and we have determined that it is not a "major rule." Based on information compiled by the Department, we have determined that this rule will have an estimated annual effect on the economy of approximately $37,500; will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; and will not cause a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

For this action, the Office of Management and Budget has waived the review process required by Executive Order 12291.

This action affects the interstate movement of regulated articles from specified areas in Alabama, Arkansas, Georgia, Mississippi, North Carolina, Oklahoma, and Texas. Thousands of small entities move these articles interstate from the above mentioned states, and many more thousands of small entities move these articles interstate from other states.

However, based on information compiled by the Department, we have determined that approximately 896 small entities move these articles interstate from the specified areas in those states. Further, the overall economic impact from this action is estimated to be approximately $37,500.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant economic impact on a substantial number of small entities.

Executive Order 12372

This program/activity is listed in the Catalog of Federal Domestic Assistance under No. 10.025 and is subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with state and local officials. (See 7 CFR Part 3015, Subpart V.)

Paperwork Reduction Act

The interim rule contained no information collection or recordkeeping requirements under the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*).

List of Subjects in 7 CFR Part 301

Agricultural commodities, Imported fire ant, Plant diseases, Plant pests, Plants (Agriculture), Quarantine, Transportation.

PART 301—DOMESTIC QUARANTINE NOTICES

Accordingly, we are adopting as a final rule, without change, the interim rule that amended 7 CFR Part 301 and that was published at 52 FR 32907-32912 on September 1, 1987.

(Authority: 7 U.S.C. 150dd, 150ee, 150ff, 161, 162, and 164-167; 7 CFR 2.17, 2.51, and 371.2(c).

Done at Washington DC, this 15th day of December, 1987.

Donald Houston,
Administrator, Animal and Plant Health Inspection Service.

[FR Doc. 87-29163 Filed 12-18-87; 8:45 am]
BILLING CODE 3410-34-M

7 CFR Part 301

[Docket No. 87-160]

Mediterranean Fruit Fly

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Affirmation of interim rule.

SUMMARY: We are affirming without change an interim rule that quarantined an area in Los Angeles County in California because of the Mediterranean fruit fly and restricted the interstate movement of regulated articles from the quarantined area.

EFFECTIVE DATE: January 20, 1988.

FOR FURTHER INFORMATION CONTACT: Eddie Elder, Chief Operations Officer, Domestic and Emergency Operations, PPQ, APHIS, USDA, Room 661, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, 301—436–6365.

SUPPLEMENTARY INFORMATION:

Background

In an interim rule published in the **Federal Register** September 2, 1987, and effective August 27, 1987 (52 FR 33218–33224, Docket Number 87–120), we amended the "Domestic Quarantine Notices" by adding a new Subpart 301.78, Mediterranean Fruit Fly (referred to as the regulations). The regulations quarantined an area in Los Angeles County, California, and restricted the interstate movement of regulated articles from the quarantined area to prevent the spread of the Mediterranean fruit fly. Comments on the interim rule were required to be postmarked or received on or before November 2, 1987. We did not receive any comments. The facts presented in the interim rule still provide a basis for the rule.

Executive Order 12291 and Regulatory Flexibility Act

We are issuing this rule in conformance with Executive Order 12291, and we have determined that it is not a "major rule." Based on information compiled by the Department, we have determined that this rule will have an effect on the economy of less than $100 million; will not cause a major increase in costs or prices for consumers, individual industries, Federal State, or local government agencies, or geographic regions; and will not cause a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

For this action, the Office of Management and Budget has waived the review process required by Executive Order 12291.

This amendment affects the interstate movement of regulated articles from a portion of Los Angeles County, California. It appears that there is very little commercial activity that may be affected by this rule in the quarantined area. Specifically, the quarantined area is comprised of private residences and small wholesale dealers and shops. The small entities that may be affected by this regulation appear to consist of approximately 15 nurseries, 40 wholesale produce dealers (of which only 15 sell regulated articles), 75 mobile fruit vendors, five open fruit stands, and one farmers' market. Although these are small entities, they sell regulated articles primarily for local intrastate, not interstate, movement. Also, many of the retail shops and nurseries sell other items in addition to the regulated articles so that the effect, if any, of this regulation on these entities appears to be minimal. Further, the number of affected entities is small compared with the thousands of small entities that move these articles interstate from nonquarantined areas in California and other states.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act

This rule contains no information collection or recordkeeping requirements under the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*).

Executive Order 12372

This program/activity is listed in the Catalog of Federal Domestic Assistance under No. 10.025 and is subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with state and local officials. (See 7 CFR Part 3015, Subpart V.)

List of Subjects in 7 CFR Part 301

Agricultural commodities, Plant diseases, Plant pests, Plants (Agriculture), Quarantine, Transportation, Mediterranean fruit fly, Incorporation by reference.

PART 301—DOMESTIC QUARANTINE NOTICES

Accordingly, we are adopting as a final rule, without change, the interim rule that amended 7 CFR Part 301 and that was published at 52 FR 33218–33224 on September 2, 1987.

Authority: 7 U.S.C. 150dd, 150ee, 150ff, 161, 162, and 164–167; 7 CFR 2.17, 2.51, and 371.2 (c).

Done in Washington DC, this 15th day of December, 1987.

Donald Houston,

Administrator, Animal and Plant Health Inspection Service.

[FR Doc. 87–29164 Filed 12–18–87; 8:45 am]

BILLING CODE 3410–34–M

Federal Crop Insurance Corporation

7 CFR Part 422

[Doc. No. 5036S]

Potato Crop Insurance Regulations

AGENCY: Federal Crop Insurance Corporation, USDA.

ACTION: Notice of extension of sales closing date.

SUMMARY: The Federal Crop Insurance Corporation (FCIC) herewith gives notice of the extension of the sales closing date for accepting applications for potato crop insurance in New Mexico, Oklahoma, and Texas, effective for the 1988 crop year only. This action is necessary because the policy for insuring potatoes contains administrative clarification of the procedures as they relate to production history and loss adjustment. This information has recently been provided to agents leaving an insufficient amount of time for marketing purposes. Therefore, additional time for applications to be accepted is being provided accordingly. The intended effect of this notice is to advise all interested parties of the extension of the sales closing date and to comply with the provisions of the potato crop insurance regulations with respect to the Manager's authority to extend sales closing dates.

EFFECTIVE DATE: December 21, 1987.

FOR FURTHER INFORMATION CONTACT: Peter F. Cole, Secretary, Federal Crop Insurance Corporation, U.S. Department of Agriculture, Washington, DC 20250, telephone (202) 447–3325.

SUPPLEMENTARY INFORMATION: The closing date for accepting applications for potato crop insurance in New Mexico, Oklahoma, and Texas is November 30.

Because of the delay in providing agents with clarification as to production history and loss adjustment relative to the current policy provisions resulting in a foreshortened marketing period, FCIC is extending the sales closing date in all counties in New Mexico, Oklahoma, and Texas, where potato crop insurance is offered.

Under the provisions of 7 CFR 422.7(b), the sales closing date for accepting applications may be extended by placing the extended date on file in the service office and by publishing a notice in the **Federal Register** upon determination that no adverse selectivity will result from such extension. If adverse conditions develop during such period, FCIC will immediately discontinue acceptance of applications.

Notice

Accordingly, pursuant to the authority contained in 7 CFR 422.7(b), the Federal Crop Insurance Corporation herewith gives notice that the sales closing date for accepting applications for potato insurance in all counties in New Mexico, Oklahoma, and Texas, where such insurance is offered, is hereby extended through the close of business on December 24, effective for the 1988 crop year only.

Authority: Secs. 506, 516, Pub. L. 75–430, 52 Stat. 73, 77, as amended (7 U.S.C. 1506, 1516).

Done in Washington, DC, on December 8, 1987.

Edward D. Hews,

Acting Manager, Federal Crop Insurance Corporation.

[FR Doc. 87–29143 Filed 12–18–87; 8:45 am]

BILLING CODE 3410–08–M

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Part 304

Reporting Requirements on Deposits Placed by Deposit Brokers and Depository Institutions

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Final rule.

SUMMARY: The Federal Deposit Insurance Corporation ("FDIC") is changing from monthly to quarterly the frequency with which each FDIC-insured bank with combined fully insured brokered deposits and fully insured deposits placed directly by depository institutions in excess of either the bank's total capital and reserves or five percent of the bank's total deposits must report their holdings of such deposits to the FDIC. The purpose of this reporting requirement is to provide the FDIC with timely information on each FDIC-insured bank's involvement with insured brokered deposits and insured deposits of depository institutions. After collecting monthly reports for three years, the FDIC believes that it will be able to adequately monitor those banks with an extensive reliance on such insured funds from reports filed less frequently than monthly. The final monthly reports will be collected as of December 31, 1987. The first quarterly reports will be collected as of March 31, 1988.

EFFECTIVE DATE: January 20, 1988.

FOR FURTHER INFORMATION CONTACT: Robert F. Storch, Planning and Program Development Specialist, Federal Deposit Insurance Corporation, Division of Bank Supervision, 550 17th Street, NW., Washington, DC 20429, telephone (202) 898–6903.

SUPPLEMENTARY INFORMATION:

Background

In July 1984, the FDIC issued an interim final rule, effective August 6, 1984, requiring reports from each FDIC-insured bank for every month in which it held combined brokered deposits and "fully insured deposits of financial institutions" in excess of either the bank's total capital and reserves or five percent of its total deposits. 49 FR 27487 (1984). The first reports to be filed under the interim rule by banks subject to the reporting requirement were due within ten days after July 31, 1984. Upon issuing the interim rule, the FDIC provided a 60-day comment period ending September 4, 1984. The FDIC also established January 15, 1985, as the expiration date for the interim rule, intending to review the comments on the regulation and to issue a permanent rule by that date.

In December 1984, the FDIC adopted a final rule, effective January 16, 1985, concerning the reporting of deposits placed by deposit brokers and other depository institutions that differed somewhat in scope from the interim rule. 49 FR 48909 (1984). Thus, as suggested by many who offered comments on the interim rule, the final rule requires that only "fully insured" brokered deposits (and fully insured deposits placed directly by depository institutions) be subject to the monthly reporting requirement, not all brokered deposits as had been the case in the interim rule. The narrowed scope of the final rule has resulted in the gathering of information directly in line with the FDIC's concerns about deposit brokerage.

The FDIC's decision to adopt reporting requirements for deposits placed by deposit brokers and depository institutions followed the June 20, 1984, ruling by the Federal District Court for the District of Columbia that a regulation issued jointly three months earlier by the FDIC and the Federal Home Loan Bank Board to limit the insurance coverage of funds placed with an insured depository institution either by or through a deposit broker was illegal. Moreover, many depository institutions have placed funds in fully insured amounts directly with banks around the country based solely on the rate of interest paid without regard to the financial condition of these banks. Because of its concerns about the misuse of such deposits by a significant number of banks, the FDIC determined that the establishment of a periodic reporting requirement would assist the FDIC in identifying institutions which exhibit an increasing reliance on fully insured deposits placed by brokers and depository institutions and which may be developing or experiencing financial difficulties.

Change in Reporting Frequency

Both before and during the time period this reporting requirement has been in effect, the FDIC has collected certain information on brokered deposits in quarterly Reports of Condition from insured banks. However, banks have 30 days (and in some cases 45 days) after the end of a calendar quarter in which to submit their Reports of Condition. In addition, the FDIC has no other source of information on fully insured deposits placed by depository institutions. Because of the speed with which large dollar amounts of these types of funds can be gathered by a depository institution, the FDIC initially determined that it would be appropriate to monitor such activity on a monthly basis. Early identification of insured banks with a significant volume of such fully insured deposits permits the FDIC to promptly ascertain the reasons for the acquisition of and the intended usage of deposits placed by deposit brokers and depository institutions.

While the FDIC's concern about the consequences of the inappropriate use by a bank of brokered deposits has not diminished since the interim rule first established a monthly reporting system, the FDIC has assessed the value of the information gathered under this three year old reporting requirement and now believes that it can reduce the reporting frequency from monthly to quarterly and still satisfy the objective of the regulation. In this regard, once an insured bank files an initial report, the data the bank files thereafter generally has not changed significantly from month to month. Furthermore, the only source of deposit data which can routinely provide the FDIC with an indication as to whether an individual insured bank might have surpassed the threshold for reporting, the Report of Condition, is collected on a quarterly

VOL 52 ISS 244 DEC 21 1987 UMI

basis. Thus, during months other than those at the end of a calendar quarter, the FDIC cannot necessarily conclude that the absence of a report from any particular bank means that the bank is not subject to the reporting requirement.

The change from monthly to quarterly reporting will become effective January 20, 1988. Hence, the final monthly report required of an insured bank with combined fully insured brokered deposits and fully insured deposits placed directly by depository institutions in excess of either the bank's total capital and reserves or five percent of the bank's total deposits would be prepared as of December 31, 1987. The first quarterly report date as of which an insured bank would need to measure the combined amount of such deposits for purposes of determining whether it must file a report would be March 31, 1988.

Procedural Requirements

The Board of Directors finds that the solicitation of public comments on this amendment to § 304.6 of the FDIC's rules and regulations is not necessary because the amendment is minor in nature and because the FDIC solicited comments on the substance of this regulation's reporting requirement in 1984 prior to its adoption as a final rule. Because comments are not being requested on this amendment pursuant to section 553 of the Administrative Procedures Act (5 U.S.C. 553), the Regulatory Flexibility Act (5 U.S.C. 601–612) is not applicable.

The amendment reduces from monthly to quarterly the frequency of a reporting requirement that applies to all FDIC-insured banks with fully insured brokered deposits and fully insured deposits placed directly by depository institutions that exceed specified levels and does not affect or limit a bank's operations. Thus, the effect of this amendment will be to reduce the burden that this reporting requirement imposes on banks with such deposits. The reporting requirement contained in this amended rule has been reviewed by the Office of Management and Budget pursuant to section 3504(h) of the Paperwork Reduction Act (44 U.S.C. 3504(h)) and has been assigned control number 3064–0074.

The FDIC is promulgating this regulation under its authority granted in sections 7, 9, and 10(b) of the Federal Deposit Insurance Act. 12 U.S.C. 1817, 1819, and 1820(b).

List of Subjects in 12 CFR Part 304

Administrative practice and procedure, Bank deposit insurance, Banks, Banking, Foreign banks, Banking, Reporting and recordkeeping.

Accordingly, the FDIC hereby amends 12 CFR Part 304 as set forth below.

PART 304—FORMS, INSTRUCTIONS, AND REPORTS

1. The authority citation for Part 304 continues to read as follows:

Authority: 5 U.S.C. 552; 12 U.S.C. 1817, 1818, 1819, 1820.

2. Paragraph (a) of § 304.6 is revised to read as follows:

§ 304.6 Report of fully insured brokered deposits and fully insured deposits placed directly by depository institutions.

(a) *Filing.* (1) Within ten days after the end of each calendar quarter, each insured bank shall report the data described in paragraph (a)(2) of this section to the appropriate FDIC regional director—bank supervision if the total amount of the bank's fully insured brokered deposits and fully insured deposits placed directly by depository institutions as of the end of that calendar quarter was in excess of either the bank's total capital and reserves or five percent of the bank's total deposits on such date;

(2) If a report is required by paragraph (a)(1) of this section, it must be in letter form, signed by an executive officer of the bank, and contain the following bank data, as of the end of the calendar quarter in question: Total fully insured brokered deposits, total fully insured deposits placed directly by depository institutions, total assets, total loans and leases (net of unearned income), total deposits, and total capital and reserves. The report must also include the range of rates paid on fully insured brokered deposits and fully insured deposits placed directly by depository institutions received during the reporting quarter. Dollar amounts may be rounded to the nearest thousand.

* * * * *

By Order of the Board of Directors. Dated at Washington, DC, this 24th day of November, 1987.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

BILLING CODE 6714–01–M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 86–ANE–10; Amdt. 39–5725]

Airworthiness Directives; Garrett Turbine Engine Company (GTEC), TPE331–25AA, –25AB, –25DA, –25DB, –25FA, –43A, –43BL, –47A, –55B, and –61A Turboprop Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment amends an existing airworthiness directive (AD) to require a one-time inspection of the second stage turbine stator for misassembled cooling jets. It also adds another model engine and another part number stator to the applicability and retains the previous repetitive inspection requirement for severe warpage of the stator seal plate assembly on TPE331 Pre-Century series engines. This amendment is needed to prevent misassembled and warped stators from causing inteference between the second stage rotor and the second stage turbine stator seal plate assembly which may result in an uncontained failure of the second stage turbine rotor assembly.

DATES: Effective December 21, 1987.

Compliance—As indicated in the body of the AD.

Incorporation by Reference

Approved by the Director of the Federal Register as of December 21, 1987.

ADDRESSES: The applicable alert service bulletins may be obtained from: Garrett Airline Service Division, Technical Publications Department 65–70, P.O. Box 29003, Phoenix, Arizona 85072; telephone (602) 225–2969/2973. A copy of the alert service bulletins is contained in Rules Docket No. 86–ANE–10, at the Office of the Regional Counsel, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803.

FOR FURTHER INFORMATION CONTACT: Stephen Kolb, Supervisory Aerospace Engineer, Propulsion Branch, ANM–140L, Federal Aviation Administration, Northwest Mountain Region, Los Angeles Aircraft Certification Office, 4344 Donald Douglas Drive, Long Beach, California 90808; telephone (213) 514–6327.

SUPPLEMENTARY INFORMATION: This amendment amends Amendment 39–5275 (51 FR 12589; April 17, 1986), AD 86–08–06, which requires inspection of certain TPE331 engines for warpage of the second stage turbine stator seal plate assemblies. Contact between the seal plate assembly and the second stage turbine rotor assembly could result in uncontained separation of the rotor assembly. After issuing AD 86–08–06, Amendment 39–5275, the FAA has determined that an unknown number of second stage stator assemblies have been misassembled during manufacture and installed in engines with the cooling air jets facing the wrong direction.

This amended AD requires a one-time radiographic inspection to determine cooling air jet orientation, continues to require the repetitive radiographic inspections to detect warpage, and requires engine repairs as necessary. These inspections are required to prevent misassembled and warped stators from interfering with the second stage rotor. Contact between these assemblies has resulted in four reported cases of uncontained separation of the second stage turbine rotor assembly. This amendment also adds Model TPE331–61A engines and all model engines with part Number 865037–80 stators to the applicability inasmuch as the same problems may exist with these items. The –61A model was thought to be permanently out of service when Amendment 39–5275 was issued, and the Part Number 865037–80 stator is a recently introduced item.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable, and good cause exists for making this amendment effective in less than 30 days.

Conclusion

The FAA has determined that this regulation is an emergency regulation that is not considered to be major under Executive Order 12291. It is impracticable for the agency to follow the procedures of Executive Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this action involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant/major regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation or analysis is not required). A copy of it, when filed, may be obtained by contacting the person identified under the caption "**FOR FURTHER INFORMATION CONTACT**".

List of Subjects in 14 CFR Part 39

Engines, Air transportation, Aircraft, Aviation safety, Incorporation by Reference.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration (FAA) amends § 39.13 of Part 39 of the Federal Aviation Regulations (FAR) as follows:

PART 39—[AMENDED]

1. The authority citation for Part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421, and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); and 14 CFR 11.89.

§ 39.13 [Amended]

2. By amending Amendment 39–5275, Airworthiness Directive (AD) No. 86–08–06, (51 FR 12989; April 17, 1986), as follows. The AD is restated in its entirety for clarity.

Garrett Turbine Engine Company (GTEC): Applies to GTEC Model TPE331–25AA, –25DA, –25AB, –25DB, –25FA, –43A, –43BL, –47A, –55B, and –61A turboprop engines.

Compliance is required as indicated unless already accomplished. To prevent uncontained failure of the second stage turbine rotor assembly, accomplish the following:

(a) Radiographically inspect Part Number 865037–10 through –70 second stage turbine stator seal plate assemblies installed in TPE331–25AA, –25AB, –25DA, –25DB, –25FA, –43A, –43BL, –47A and –55B turboprop engines within the next 200 engine hours time in service after April 18, 1986, or prior to the next 500 engine hours time in service since the last engine overhaul, whichever comes later, and at intervals not to exceed 300 engine hours thereafter in accordance with the accomplishment instructions of Garrett Alert Service Bulletin TPE331–A72–0522, Revision 2, dated July 1, 1987, except that use of prior issues of this service bulletin are acceptable for inspections conducted before the effective date of this amendment.

(b) Radiographically inspect Part Number 865037–80 second stage turbine stator seal plate assemblies installed in TPE331–25AA, –25AB, –25DA, –25DB, –25FA, –43A, –43BL, –47A, and –55B turboprop engines and Part Number 865037–10 through –80 stator assemblies installed in TPE331–61A turboprop engines within the next 200 engine hours time in service after the effective date of this amendment, or prior to the next 500 engine hours time in service since the last engine overhaul, whichever comes later, and at intervals not to exceed 300 engine hours thereafter in accordance with the accomplishment instructions of Garrett Alert Service Bulletin TPE331–A72–0522, Revision 2, dated July 1, 1987.

(c) Radiographically inspect Part Number 865037–10 through –80 second stage turbine stator seal plate assemblies installed in TPE331–25AA, –25AB, –25DA, –25DB, –25FA, –43A, –43BL, –47A, –55B, and –61A turboprop engines within the next 200 engine hours time in service after the effective date of this amendment, to determine cooling jet orientation, in accordance with the accomplishment instructions of Garrett Alert Service Bulletin TPE331–A72–0560, dated July 1, 1987. This is a one-time requirement.

Note.—The radiographic film obtained from a previously inspected engine can be used to determine compliance with paragraph (c) of this amendment.

(d) Remove the engine from service prior to further flight if the second stage turbine stator seal plate assembly fails to meet the above service bulletin radiographic inspection standards for misassembly or warpage. Repair the engine per the accomplishment instructions of the applicable service bulletin before return to service.

Note.—GTEC has also provided instructions for accomplishing an interim rotational check of the engine in paragraph 2.A. in Garrett Alert Service Bulletin TPE331–A72–0522, dated July 1, 1987. The FAA has approved and encourages operators to perform this inspection at 25 hour intervals until the radiographic inspection is accomplished; however, the rotational check is not mandatory.

Aircraft may be ferried in accordance with the provisions of FAR's 21.197 and 21.199 to a base where the AD can be accomplished.

Upon request, an equivalent means of compliance with the requirements of this AD may be approved by the Manager, Los Angeles Aircraft Certification Office, Federal Aviation Administration, Northwest Mountain Region, 4344 Donald Douglas Drive, Long Beach, California 90808.

Upon submission of substantiating data by an owner or operator through an FAA maintenance inspector, the Manager, Los Angeles Aircraft Certification Office, may adjust the compliance time specified in this AD.

Garrett Alert Service Bulletins TPE331–A72–0522, Revision 2, dated July 1, 1987, "Engine—Turbine Section—Inspect Second Stage Stator Assembly" and TPE331–A72–0560, dated July 1, 1987, "Engine—Turbine Section—Inspect Second Stage Stator Assembly" identified and described in this document, are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Garrett Airline Service Division, Technical Publications Department 65–70, P.O. Box 29003, Phoenix, Arizona 85072; telephone (602) 225–2969/2973. These documents also may be examined at the Office of the Regional Counsel, Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Massachusetts 01803, Room 311, Rules Docket No. 86–ANE–10, between the hours of 8:00 a.m. and 4:30

VOL 52 ISS 244 DEC 21 1987 UMI

Federal holidays.

This amendment becomes effective on December 21, 1987.

This amendment amends Amendment 39-5275 (51 FR 12989; April 17, 1986), AD 86-09-05.

Issued in Burlington, Massachusetts, on September 2, 1987.

Robert E. Whittington,

Director, New England Region.

14 CFR Part 39

[Docket No. 87-ANE-32; Amdt. 39-5785]

Airworthiness Directives; Glaser-Dirks Model DG-400

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) applicable to Glaser-Dirks Model DG-400 motor gliders which requires inspection and replacement of certain engine cables and terminal connectors. The engine cables involved are the starter electrical cable and electrical bonding cables at the engine mounting area. This action was prompted by several instances of cable terminal connectors cracking due to engine vibration. The cause of this failure was found to be insufficient terminal connector strength to withstand engine vibration. This condition, if not corrected, could result in inability to obtain power in flight with the possible consequences of an uncontrolled landing.

DATES: *Effective*—December 23, 1987. *Compliance Schedule*—As prescribed in the body of the AD.

Incorporation by Reference

Approved by the Director of the Federal Register as of December 23, 1987.

ADDRESSES: The technical information and modification parts specified in this AD may be obtained from Messrs. Glaser-Dirks Flugzeugbau GmbH, Im Schollengarten 19-20, 7520 Bruchsal 4, Federal Republic of Germany; telephone 07257-1071. A copy of the technical note is contained in the Rules Docket, Office of the Regional Counsel, Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Massachusetts 01803.

FOR FURTHER INFORMATION CONTACT: Mr. Heinz Hellebrand, Brussels Aircraft Certification Office, Europe, Africa, and Administration, c/o American Embassy, 15 Rue de la Loi B-1040, Brussels, Belgium; telephone 513.38.30 Ext. 2710, or Mr. Raymond J. O'Neill, ANE-174, Federal Aviation Administration, New England Region, New York Aircraft Certification Office, 181 S. Franklin Avenue, Room 202, Valley Stream, New York 11581; telephone (516) 791-7421.

SUPPLEMENTARY INFORMATION: Glaser-Dirks had determined that damage due to cracking may occur on the engine terminal connectors of cables 18w (engine mounting frame ground), 44w (positive terminal on the starter motor) and 20w (which bridges the right hand lower rubber engine mount). This type of damage has been caused by engine vibration in several instances. The manufacturer has issued Technical Note TN 826/19, dated March 3, 1987, which requires a visual inspection of the suspect cables and a modification to reinforce certain terminal connectors and replace cable 20w with a thinner more flexible component. The applicability of these modifications varies with different work number airplanes between 4-1 through 4-178. The Luftfahrt-Bundesamt (LBA), which has responsibility and authority to maintain the continuing airworthiness of these motor gliders in the Federal Republic of Germany, has issued AD 87-109, Glaser-Dirks, on motor gliders operated under the Federal Republic of Germany registration. The FAA relies upon the certification of the LBA, combined with FAA review of pertinent documentation, in finding compliance of the design of these gliders with the applicable United States airworthiness requirements, and the airworthiness and conformity of products of this design certificated for operation in the United States.

The FAA has examined the available information related to the issuance of Glaser-Dirks Technical Note TN 826/19 and the issuance of AD 87-109 Glaser-Dirks by the LBA. Based on the foregoing, the FAA has determined that the condition addressed by Glaser-Dirks Technical Note TN 826/19 is an unsafe condition that may exist on other products of the same type design certificated for operations in the United States. Therefore, an AD is being issued to require inspection, modification, and replacement, as necessary, of cable terminal connectors and certain cable assemblies.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impractical and good cause exists for making this

Conclusion

The FAA has determined that this regulation is an emergency regulation that is not considered to be major under Executive Order 12291. It is impracticable for the agency to follow the procedures of Executive Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this action involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant/major regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation or analysis is not required). A copy of it, when filed, may be obtained by contacting the person identified under the caption "**FOR FURTHER INFORMATION CONTACT**".

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration (FAA) amends Part 39 of the Federal Aviation Regulations (FAR) as follows:

PART 39—[AMENDED]

1. The authority citation for Part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421, and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); and 14 CFR 11.89.

§ 39.13 [Amended]

2. By adding to § 39.13 the following new airworthiness directive (AD):

Glaser-Dirks Flugzeugbau GmbH: Applies to Model DG-400, work numbers 4-1 through 4-178 certificated in any category.

Compliance is required as indicated unless already accomplished. To prevent cracking of engine cable terminal connectors which could result in inability to obtain power in flight, accomplish the following:

(a) Within the next 5 hours time-in-service after the effective date of this AD, and thereafter prior to each engine start, until accomplishment of paragraph c, check the terminals of cables 44w, 18w, and 20w for any signs of wear, chafing, or cracks in accordance with the methods indicated in Procedure (1) of Glaser-Dirks, Technical Note TN 826/19, dated March 3, 1987:

(1) Procedure 1(A) applies to work numbers 4-1 to 4-105 inclusive.

Note. This check may be performed by the pilot.

(b) If any signs of wear, chafing, or cracks exist, before further flight, modify and replace in accordance with paragraph (c) of this AD.

(c) Within 90 days after the effective date of this AD, unless previously accomplished as required by paragraph (b), replace terminal connectors for cables 18w and 44w, and cable 20w, if applicable, in accordance with Procedure 2 of Glaser-Dirks Technical Note TN 826/19 and Glaser-Dirks Service Instruction 1/9/86, dated March 10, 1987:

(1) Part I of Service Instruction 1/9/86 applies to work numbers 4-1 to 4-105.

(2) Part II of Service Instruction 1/9/86 applies to work numbers 4-106 to 4-150.

(3) Part III of Service Instruction 1/9/86 applies to work numbers 4-151 to 4-178.

Motor gliders affected by this AD may be ferried in accordance with the provisions of FAR Section 21.197 and 21.199 to a base where the AD may be accomplished.

Upon request, an equivalent means of compliance with the requirements of this AD may be approved by the Manager, Brussels Aircraft Certification Office, AEU-100, Europe, Africa, and Middle East Office, Federal Aviation Administration, c/o American Embassy, 15 Rue de la Loi B-1040, Brussels, Belgium; telephone 513.38.30 ext. 2710 or the Manager, New York Aircraft Certification Office, Federal Aviation Administration, New England Region, 181 S. Franklin Avenue, Room 202, Valley Stream, New York 11581; telephone (516) 791-6880.

Upon submission of substantiating data by an owner or operator through an FAA maintenance inspector, the Manager, Brussels Aircraft Certification Office or the Manager, New York Aircraft Certification Office, may adjust the compliance time specified in this AD.

Glaser-Dirks Technical Note TN 826/19, dated March 3, 1987, and Service Instruction 1/9/86, dated March 10, 1987, identified and described in this document, are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Glaser-Dirks Flugzeugbau GmbH, Im Schollengarten 19-20, D-7520 Bruchsal 4, Federal Republic of Germany. These documents may also be examined at the Office of the Regional Counsel, Rules Docket No. 87-ANE-32, Room 311, Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Massachusetts 01803, between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except federal holidays.

This amendment becomes effective on December 23, 1987.

Monte R. Belger,

Acting Director, New England Region.

14 CFR Part 39

[Docket No. 86-ANE-39; Amdt. 39-5787]

Airworthiness Directives; TEXTRON Lycoming (formerly Avco Lycoming TEXTRON) Model LTS101 Series Turboshaft Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule, request for comments.

SUMMARY: This action publishes in the Federal Register and makes effective to all persons an amendment adopting a new airworthiness directive (AD) which combines and amends the requirements of three priority letter AD's 86-22-08, 87-10-10 RI (which amended priority letter AD 87-10-10), and 87-12-11, which were previously made effective as to all known U.S. owners and operators of TEXTRON Lycoming (formerly Avco Lycoming TEXTRON) Model LTS101 series turboshaft engines by individual priority letters. This AD requires inspections and maintenance actions to monitor and ensure the satisfactory condition of the engine lubrication system and the integrity of the Number 3 bearing in the rear bearing support housing (RBSH) and the Number 4 bearing in the engine gearbox. This AD is needed to prevent an uncontained failure of the power turbine (PT) disk which could result from failure of the Number 3 or the Number 4 bearings.

DATES: Effective on December 23, 1987, as to all persons except those persons to whom the respective provisions were made immediately effective by priority letter AD 86-22-08, issued October 30, 1986; priority letter AD 87-10-10 RI, issued June 16, 1987; and priority letter AD 87-12-11, issued June 16, 1987, which have been combined into this amendment.

Comments for inclusion in the docket must be received on or before February 23, 1988.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of December 23, 1987.

Compliance Schedule—As prescribed in the body of the AD.

ADDRESSES: The applicable service documents may be obtained from Textron Lycoming, Service Engineering Division, LTS101 Product Support, 652 Oliver Street, Williamsport, PA 17701, or may be examined in the Regional Rules Docket at the New England Region, Office of the Regional Counsel, Room 311, between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Comments on the amendment may be mailed in duplicate to:

Federal Aviation Administration, New England Region, Office of the Regional Counsel, Attention: Rules Docket No. 86-ANE-39, 12 New England Executive Park, Burlington, MA 01803

or delivered in duplicate to Room 311 at the above address.

Comments delivered must be marked: "Docket No. 86-ANE-39".

Comments may be inspected at the New England Region, Office of the Regional Counsel, Room 311, between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Robbin Goulet, Engine Certification Branch, ANE-141, Engine Certification Office, Aircraft Certification Division, Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, MA 01803; telephone (617) 273-7089.

SUPPLEMENTARY INFORMATION: On October 30, 1986, priority letter AD 86-22-08 was issued, and on June 16, 1987, priority letter AD's 87-10-10 RI and 87-12-11 were issued and were made effective immediately to all known U.S. owners and operators of TEXTRON Lycoming Model LTS101 series turboshaft engines. The priority letter AD's require inspections and maintenance actions to monitor and ensure the satisfactory condition of the engine lubrication system and the integrity of the Number 3 and Number 4 bearings. Priority letter AD action was necessary to prevent an uncontained failure of the PT disk which could result from failure of the Number 3 bearing in the RBSH or the Number 4 bearing in the engine gearbox.

There have been two uncontained PT disk failures on LTS101-750 series engines which resulted from failure of the Number 3 bearing. In one case, failure was attributed to progressive deterioration of the bearing, and in the second case, failure was attributed to insufficient lubrication. The LTS101-750 series engine Number 3 bearing assembly and lubrication system type design is similar to those in all LTS101 series model engines. There have been several additional cases of Number 3

VOL 52 ISS 244 DEC 21 1987 UMI

modes in which the PT disk was retained.

In addition, there have been two uncontained PT disk failures on LTS101–650 series engines which resulted from failure of the Number 4 bearing. The investigations aimed at identifying the cause of the Number 4 bearing failures are continuing. The LTS101–650 series Number 4 bearing and power pinion gear assembly type design is similar to those in all LTS101 series model engines. There have been several additional Number 4 bearing failure cases in which the PT disk was retained.

Two of the four uncontained disk failures were each preceded by several debris monitor cockpit indication light illuminations due to metal contamination. In one of the four cases, the light was not illuminated due to a breakage in the indication light system wiring. In another case, the light was not illuminated due to an excessive build-up of carbon on the debris monitor. The Number 4 bearing failure can result in loss of, or erratic PT speed (Np) indication, in addition to the debris monitor indication light illumination. The Np signal was lost prior to both of the uncontained failures attributed to Number 4 bearing failures. In all four cases, fragments from the failed disks damaged the other engine resulting in loss of power. In three of the four cases, fragments severed the tail rotor driveshaft resulting in loss of tail rotor control.

The requirements of priority letter AD's 86–22–08 and 87–10–10 R1, contained in this rule are being amended to change the visual inspection of the appropriate debris monitor for metal contamination from a daily requirement to a 50-hour repetitive requirement. They are also being amended to eliminate the requirement to perform a clogging inspection of the Number 2 and Number 3 bearing oil jets upon a debris monitor cockpit indication light or upon visual inspection of the appropriate debris monitor under certain conditions. The FAA has determined that based on the reliability of the debris monitor indication light system(s) which is provided by the daily functional check, a 50-hour repetitive inspection will achieve a satisfactory level of safety.

The requirement to perform a clogging inspection of the Number 2 and Number 3 bearing oil jets under the above stated conditions is being eliminated, because although it helps to determine whether the RBSH and oil feed ring will need to be cleaned of carbon when disassembled, this AD retains a priority letter inspection requirement which ensures reassembly of essentially

may have been used as an aid in determining if the bearings were subjected to insufficient lubrication; however, these conditions are noticeable upon bearing inspection during the disassembly.

The requirements of priority letter AD 86–22–08 are being amended to eliminate the daily visual inspection of the RBSH scavenge debris monitor for varnish and/or carbon. The FAA has determined that the requirements of this AD preclude a condition whereby significant varnish and/or carbon buildup would occur and prevent metal from bridging the debris monitor magnetic contacts.

The pressure ranges specified for the engine oil pump output pressure check have been changed in this AD with respect to the ranges given in priority letter AD's 87–10–10 R1 and 86–22–08. The check will have to be repeated if it was performed in accordance with the above priority letter requirements, in the absence of documentation verifying that the pump was set at a value within the applicable range given in this AD.

This AD requires: (1) Maintenance action upon illumination of the debris monitor cockpit indication light that is wired to the RBSH scavenge debris monitor and/or the airframe mounted full flow scavenge debris monitor, (2) a functional check of the full flow and RBSH, if so configured, scavenge debris monitor indication light system(s) each day of operation, (3) a 1-time oil pump pressure output check, (4) repetitive oil acidity checks under certain conditions, (5) a 1-time inspection of the front face of the Number 4 bearing cage for cracking or metal release, (6) a 50-hour repetitive visual inspection of the RBSH scavenge debris monitor, if so configured, otherwise an inspection of the full flow scavenge debris monitor for metal contamination, and (7) maintenance action following engine assembly under certain conditions, a change in engine oil type, downward adjustment of the oil pump output pressure, and/or exceedance of the appropriate engine maintenance manual limit for the clogging inspection of the Number 2 and Number 3 bearing oil jets.

Since it was found that immediate corrective action was required, notice and public procedure thereon were impracticable and contrary to public interest, and good cause existed to make the three priority letter AD's effective immediately by individual letters issued on October 30, 1986, and June 16, 1987, to all known U.S. owners and operators of certain TEXTRON Lycoming model LTS101 series turboshaft engines. These conditions still exist and the AD's published in the **Federal Register** as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make them effective as to all persons.

Although this action is in the form of a final rule which involves requirements affecting immediate flight safety and, thus, was not preceded by notice and public procedures, comments are invited on the rule. Interested persons are invited to comment on this rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket number and be submitted in duplicate to the address specified above.

All communications received on or before the closing date for comments will be considered by the Director. This rule may be amended further in light of comments received. Comments that provide a factual basis supporting the views and suggestions presented are particularly helpful in evaluating the effectiveness of the AD and determining whether additional rulemaking is needed.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the rule that might suggest a need to modify the rule. All comments submitted will be available for examination in the Rules Docket at the address given above. A report summarizing each FAA-public contact, concerned with the substance of this AD, will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. 86–ANE–39". The postcard will be date/time stamped and returned to the commenter.

The FAA has determined that this is an emergency regulation that is not considered to be major under Executive Order 12291. It is impracticable for the agency to follow the procedures of Executive Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this action involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant/major regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation or analysis is

Rules Docket.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Engines, Safety, Incorporation by Reference.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration (FAA) amends Part 39 of the Federal Aviation Regulations (FAR) as follows:

PART 39—[AMENDED]

1. The authority citation for Part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421, and 1423; 49 U.S.C. 106(g) (Revised, Pub. L. 97–449, January 12, 1983); and 14 CFR 11.89.

§ 39.13 [Amended]

2. By adding to § 39.13 the following new airworthiness directive (AD):

TEXTRON Lycoming (formerly Avco Lycoming Textron): Applies to TEXTRON Lycoming Model LTS101 series turboshaft engines.

Compliance is required as indicated, unless already accomplished.

To prevent an uncontained failure of the power turbine (PT) disk, which could result from failure of the Number 3 or Number 4 bearings, accomplish the following:

(a) Visually inspect the rear bearing support housing (RBSH) scavenge debris monitor (if installed) for metal contamination, prior to further flight, whenever the debris monitor cockpit indication light that is wired to the RBSH scavenge debris monitor is illuminated. If metal debris is evident, accomplish paragraphs (a)(1) and (a)(2) below, prior to further flight. If no metal debris is evident, and the RBSH and airframe mounted full flow scavenge debris monitors are wired in conjunction with the same cockpit indication light, proceed to paragraph (b) below; otherwise, if no metal debris is evident, the engine may be returned to service.

Notes: 1. If metal debris is found, it should be retained as an aid in accomplishing the lubrication system contamination troubleshooting requirements of paragraph (a)(2) below.

2. If metal debris is not found, illumination of the cockpit indication light may have been caused by a short in the indication system. Troubleshoot and correct the indication system in accordance with the appropriate aircraft maintenance manual instructions.

(1) Disassemble the RBSH assembly to correct the cause of metal debris contamination, and inspect the Number 2 and Number 3 bearings and associated components.

NOTE: Refer to the appropriate engine maintenance manual instructions.

(2) Accomplish the lubrication system contamination troubleshooting requirements in accordance with the procedure given in the

RBSH assembly.

(b) Visually inspect the full flow scavenge debris monitor for metal contamination, prior to further flight, whenever the debris monitor cockpit indication light that is wired to the full flow scavenge debris monitor is illuminated. If metal debris is evident, accomplish the following applicable paragraph below ((b)(1), (b)(2), or (b)(3)), prior to further flight. Otherwise, if no metal debris is evident, the engine may be returned to service.

Notes: 1. If metal debris is found, it should be retained as an aid in accomplishing the lubrication system contamination troubleshooting steps as referenced below.

2. If metal debris is not found, on the debris monitor, illumination of the cockpit indication light may have been caused by a short in the indication system. Troubleshoot in accordance with the appropriate aircraft maintenance manual instructions.

3. The gearbox chip detector, the PT speed (Np) and gas producer speed (Ng) pickups, and the RBSH scavenge debris monitor can be used to isolate the source of metal contamination. Refer to the appropriate engine maintenance manual Lubrication System Contamination Troubleshooting section and Avco Lycoming TEXTRON Customer Service Letter (CSL) 035 R–1 for additional guidance.

(1) If metal other than fuzz is found on the full flow scavenge debris monitor, disassemble the engine or affected module to determine and correct the source of metal. If only metal fuzz is found on the full flow scavenge debris monitor but the engine is not fitted with an RBSH scavenge debris monitor, disassemble the engine or affected module to determine and correct the source of metal.

Notes: 1. For the purpose of this AD, fuzz is defined as fine hair-like particles not having a discernible length, width, or diameter when visually inspected.

2. Refer to the appropriate engine maintenance manual instructions.

(2) If only metal fuzz, as defined above, is found on the full flow scavenge debris monitor, engines fitted with an RBSH scavenge debris monitor may be returned to service provided all of the following conditions are met:

(i) No other cockpit indication light illuminations have occurred within the previous 50 hours in service due to only fuzz on the full flow scavenge debris monitor.

Note: Cockpit indication light illuminations within the previous 50 hours in service need not be considered for counting purposes of this paragraph if the engine gearbox was disassembled and the Number 4 bearing was inspected subsequent to those cockpit indication light illuminations.

(ii) No metal contamination is evident on the RBSH scavenge debris monitor upon visual inspection.

(iii) The lubrication system contamination troubleshooting procedures identified in the appropriate engine maintenance manual section are accomplished.

(3) If any of the conditions in paragraph (b)(2)(i) through (b)(2)(iii) above are not met,

determine and correct the source of metal.

Note: Refer to the appropriate engine maintenance manual instructions.

(c) Check, each day of operation, the continuity of the RBSH scavenge debris monitor, if so configured, and the full flow scavenge debris monitor cockpit indication light system(s) by removing the monitor(s), shorting the magnetic contacts, and ensuring that the cockpit indication light(s) illuminates. If the light does not illuminate, correct the condition prior to further flight.

Notes: 1. Refer to the appropriate aircraft maintenance manual for corrective action.

2. FAA approved RBSH and full flow scavenge debris monitor indication light systems which permit the continuity to be checked from the aircraft cockpit, coupled with other appropriate checks, may be approved as an equivalent means of compliance to this paragraph by the Manager, Engine Certification Office, New England Region.

(d) Check the engine oil pump output pressure within 50 hours in service after receipt of priority letter AD 87–10–10 or priority letter AD 86–22–08, otherwise within 50 hours in service after the effective date of this AD, and immediately following an oil pump change and whenever oil pressure adjustment is required, as set forth below. If an engine oil pump output pressure check has been accomplished per the requirements of priority letter AD 87–10–10 R1 or priority letter AD 86–22–08 and documentation does not exist verifying that the pump was set at a value within the revised range given in the table herein, accomplish this check, as set forth below, within 50 hours in service of the effective date of this AD.

(1) Install a tee fitting in the line connecting the oil pressure transmitter to the engine oil pump, and install a direct reading wet pressure gauge (any gauge ranging from 0–125 up to 200 psig, calibrated to ± 2.0 percent at 100 psig) and an orifice of 0.025 inches in the line between the tee fitting and the wet pressure gauge.

CAUTION: Ensure that the orifice is installed in the line between the tee fitting and the wet pressure gauge and not in the oil pressure supply line to the engine.

(2) Start the engine and warm the oil to 150 degrees Fahrenheit minimum. Increase the gas producer speed (Ng) to 95 percent. Stabilize at this Ng for at least one minute.

(3) Adjust the engine oil pressure, in accordance with the table given below, by removing the lockwire from the slotted oil pressure adjustment slug on the right side of the oil pump and filter housing assembly, and turning the slug clockwise to increase pressure or counterclockwise to decrease pressure (one turn equals approximately 15 psig). If, prior to the above adjustment, the engine oil pump pressure indicated 70 psig or less for the LTS101–750 series engines, or 56 psig or less for the LTS101–600 and LTS101–650 series engines, prior to further flight, disassemble the RBSH assembly and inspect the Number 2 and Number 3 bearings and associated components.

VOL 52 ISS 244 DE 21 1987 UMI

Engine model	Specified range
LTS101-600A-2/-650B-1/-650B-1A/-550C-2/-650C-3/-650C-3A/-750B-1/-750C-1	80-100 psig
LTS101-600A-3/-750A-1/-750A-3/-750B-2	90-100 psig

Note: Refer to the appropriate engine maintenance manual instructions.

(4) Verify that the aircraft oil pressure indicator indicates in the green arc when the oil pump is properly adjusted. If, upon completion of the check, the aircraft pressure gauge does not indicate in the green arc, the aircraft indicating system must be checked and corrected.

Note: Refer to the appropriate aircraft maintenance manual instructions.

(5) Remove the wet gauge, orifice, and tee fitting, and reconnect the oil pressure transmitter.

(6) Ensure that the slotted oil pressure adjustment slug is lockwired after proper adjustment.

Note: Accomplishment of the oil pump output pressure check at new production engine acceptance testing or at engine installation by the engine or aircraft manufacturer, respectively, is considered an equivalent means of compliance with the requirement of the above paragraph for the initial check within 50 hours in service for engines with no time in service upon receipt of priority letter AD 87-10-10 or priority letter AD 88-22-08, otherwise upon the effective date of this AD.

(e) Conduct an oil acidity check in accordance with the procedure given in the appropriate engine maintenance manual, Chapter 71-00-00, as follows:

(1) Check the oil acidity within 25 hours in service after receipt of priority letter AD 87-10-10 or priority letter AD 88-22-08, otherwise within 25 hours in service after the effective date of this AD, or within 50 hours in service since the last oil change, whichever occurs later, and repeat at intervals not to exceed 25 hours in service until the oil pump filter and engine oil are changed.

(2) Thereafter, perform an initial oil acidity check within 50 hours in service after the oil pump filter and engine oil are changed, and repeat at intervals not to exceed 25 hours in service until the oil pump filter and engine oil are changed.

(3) If the oil acidity check limit, as specified in the appropriate engine maintenance manual, Chapter 71-00-00, is exceeded, prior to further flight, flush the engine lubrication system (including airframe-supplied oil cooler, tank, lines, etc.) and change the oil pump filter and engine oil.

Notes: 1. Refer to the appropriate engine maintenance manual instructions.

2. Information regarding the availability of approved acidity test kits may be obtained by contacting TEXTRON Lycoming, LT101 Product Support.

(f) Visually inspect the Number 4 power pinion gear roller bearing for cage cracks or metal release, within 25 hours in service after receipt of priority letter AD 87-12-11, otherwise within 25 hours in service after the effective date of this AD, by removing the Np indicator cover from the front of the gearbox. evident in the bearing area, prior to further flight, disassemble the gearbox to correct the condition.

(2) If no cracking or metal release is noted, reinstall the Np indicator cover.

Notes: 1. Removal and installation of the Np indicator cover should be accomplished in accordance with the appropriate engine maintenance manual and Avco Lycoming TEXTRON Maintenance Alert Notice, MA-LTS-101-72-00-0015, Revision 1, dated September 5, 1986.

2. Inspection of the Number 4 bearing at new production engine assembly by the engine manufacturer is considered an equivalent means of compliance with the above requirement for engines with no time in service upon receipt of priority letter AD 87-12-11, otherwise upon the effective date of this AD.

(g) Visually inspect the RBSH scavenge debris monitor, if so configured, otherwise inspect the full flow scavenge debris monitor within 50 hours in service after the effective date of this AD, and thereafter at intervals not to exceed 50 hours in service since last inspection, for metal contamination. If metal debris of sufficient quantity to illuminate the debris monitor cockpit indication light is evident on the respective debris monitor, prior to further flight, accomplish paragraphs (a)(1) and (a)(2) of this AD. If metal debris is found, it should be retained as an aid in accomplishing the lubrication system contamination troubleshooting steps as required by paragraph (a)(2).

Note: Individual chips, flakes, slivers, nuggets of metal, or fuzz accumulation of sufficient dimension to bridge the magnetic contacts and illuminate the debris monitor cockpit indication light, though it has not done so prior to this repetitive inspection, are also cause for rejection. Metal of insufficient quantity to illuminate the debris monitor cockpit indication light is acceptable and may be cleaned from the debris monitor upon completion of this repetitive inspection.

(h) Following assembly of an engine in which the PT module was built-up with a used RBSH and/or a used oil feed ring, conduct a post-build engine run-up and inspect the RBSH assembly in accordance with step 1.7 of Avco Lycoming TEXTRON CSL 047, dated October 10, 1986, prior to return to service. If a clogging inspection value of 2.5 psig is exceeded, clean and inspect the RBSH and oil feed ring in accordance with steps 1.1 through 1.7 of Avco Lycoming TEXTRON CSL 047, dated October 10, 1986.

Note: Accomplishment of a clogging inspection of the Number 2 and Number 3 bearing oil jets prior to RBSH disassembly, may be advantageous under certain conditions. Refer to the appropriate engine maintenance manual instructions.

(i) If the type of oil is changed, conduct a clogging inspection of the Number 2 and 3 bearing oil jets in accordance with the procedure given in the appropriate engine maintenance manual, Chapter 79-30-00 for LTS101-600A-2/-600A-3/-750A-1 engines and Chpater 72-00-00 for the remaining LTS101 engine models, not less than 5 hours and not to exceed 10 hours in service after of 5.0 psig is exceeded, accomplish paragraph (k) below.

(j) If at any time, excluding initial engine oil pump installation, the pump output presure is or was adjusted downward, prior to further flight, conduct a clogging inspection of the Number 2 and Number 3 bearing oil jets in accordance with the procedure given in the appropriate engine maintenance manual, Chapter 79-30-00 for LTS101-600A-2/-600A-3/-750A-1 engines and Chapter 72-00-00 for the remaining LTS101 engine models. If the clogging inspection limit of 5.0 psig is exceeded, accomplish paragraph (k) below.

(k) If the limit for the clogging inspection of the Number 2 and Number 3 bearing oil jets of 5.0 psig is exceeded during accomplishment of paragraph (i) or (j) above, or during accomplishment of the applicable TEXTRON Lycoming engine maintenance manual periodic clogging inspection requirement, prior to further flight, accomplish the following:

(1) Disassemble the RBSH assembly to correct the cause of clogging, and inspect the Number 2 and Number 3 bearings and associated components.

Note: Refer to the appropriate engine maintenance manual instructions.

(2) Clean and inspect the RBSH and oil feed ring in accordance with Avco Lycoming TEXTRON CSL 047, dated October 10, 1986.

Note: Any time the clogging inspection results of the Number 2 and Number 3 bearing oil jets are recorded to document compliance with paragraph (h), (i), (j), or (k) of this AD, it is recommended that the actual gauge Number 2 value be recorded in the engine logbook.

Aircraft may be ferried in accordance with the provisions of FAR 21.197 and 21.199 to a base where the AD can be accomplished.

Upon request of an owner or operator, an equivalent means of compliance with the requirements of this AD may be approved by the Manager, Engine Certification Office, Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, MA 01803.

Upon submission of substantiating data by an owner or operator, through an FAA maintenance inspector, the Manager, Engine Certification Office, New England Region, may adjust the compliance schedule specified in this AD.

Certain maintenance procedures shall be done in accordance with Avco Lycoming TEXTRON CSL 047, dated October 10, 1986. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR Part 51. Copies may be obtained from TEXTRON Lycoming, Williamsport Division, LT101 Product Support, 652 Oliver Street, Williamsport, PA 17701, or may be examined in the Regional Rules Docket at the New England Region, Office of the Regional Counsel, Room 311, between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except federal holidays, or at the Office of the Federal Register, 1100 L Street, NW., Room 8401, Washington, DC.

This amendment becomes effective December 23, 1987, as to all persons respective provisions were made immediately effective by priority letter AD 88-22-08, issued October 30, 1988; priority letter AD 87-10-10 R1, issued June 16, 1987; and priority letter AD 87-12-11, issued June 16, 1987, which have been combined into this amendment.

Issued in Burlington, Massachusetts, on November 19, 1987.

Monte R. Belger,

Acting Director, New England Region.

BILLING CODE 4910-13-M

---

14 CFR Part 71

[Airspace Docket No. 87-AGL-23]

Alteration of the Chicago Meigs Airport, IL, Control Zone

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The nature of this action is to alter the published hours for the Chicago Meigs Airport Control Zone to reflect the current effective hours which are 0600 to 2200 hours, local time, daily.

EFFECTIVE DATE: 0901 GMT, March 10, 1988.

ADDRESS: The official docket may be examined in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois.

An informal docket may also be examined during normal business hours at the Airspace, Procedures, and Automation Branch, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois.

FOR FURTHER INFORMATION CONTACT: Edward R. Heaps, Airspace, Procedures, and Automation Branch, Air Traffic Division, ACL—530, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (312) 694-7360.

SUPPLEMENTARY INFORMATION: The current published description of the Chicago Meigs Airport Control Zone lists the effective hours from 0600 to 2400 hours, local time, daily. The airport manager has advised the FAA that the actual effective hours are from 0600 to 2200 hours, local time, daily. This action reflects the change.

Aeronautical maps and charts will continue to reflect the defined areas which will enable other aircraft to circumnavigate the area in order to comply with applicable visual flight rule requirements.

This amendment to Part 71 of the Federal Aviation Regulations Regulations (14 CFR Part 71) is to alter the published effective hours of the Chicago Meigs Airport Control Zone to reflect the current effective hours which are 0600 to 2200 hours, local time, daily.

Section 71.171 of Part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6 dated January 2, 1987.

Under the circumstances presented, the FAA concludes that there is an immediate need for a regulation to alter the published hours for the Chicago Meigs Airport Control Zone.

Further, this amendment is a minor technical rule in which the public would not be particularly interested. Therefore, I find that notice or public procedure under 5 U.S.C. 553(b) is unnecessary and that good cause exists for making this amendment effective coincident with the next charting date.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Control zones, aviation safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration (FAA) proposes to amend Part 71 of the FAR (14 CFR Part 71) as follows:

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

1. The authority citation for Part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; E.O. 10854; 49 U.S.C. 106(g) (Revised, Pub. L. 97-449, January 12, 1983); 14 CFR 11.69

§ 71.171 [Amended]

2. Amend § 71.171 as follows:

Within a 3-mile radius of Meigs Airport (lat. 41°51'30"N., long. 87°36'30"W.) from 0600 to 2200 hours, local time, daily.

Issued in Des Plaines, Illinois, on December 4, 1987.

Teddy W. Burcham,

Manager, Air Traffic Division.

[FR Doc. 87-29146 Filed 12-18-87; 8:45 am]

BILLING CODE 4910-13-M

SECURITIES AND EXCHANGE COMMISSION

17 CFR Part 200

[Release Nos. 33-6744; 34-25197; 35-24525; 39-2138; IC-16173; IA-1099; File No. S7-26-87]

The Freedom of Information Reform Act of 1986

AGENCY: Securities and Exchange Commission.

ACTION: Final rule.

SUMMARY: As mandated by the Freedom of Information Reform Act of 1986 (Pub.L. 99-570), the Securities and Exchange Commission is adopting as final its interim rules to implement the recent amendments to the Freedom of Information Act, including those outlined in the Office of Management and Budget uniform fee schedule guidelines (5 U.S.C. 552(a)(4)(A)(i)). In addition, the Securities and Exchange Commission is revising 17 CFR 200.80, Appendix E, which sets forth the specific schedule of fees for all records services, and making various minor changes throughout § 200.80, and certain appendixes to conform the rules with present practices and conditions.

EFFECTIVE DATE: January 20, 1988.

FOR FURTHER INFORMATION CONTACT: John D. Heine, Office of Consumer Affairs and Information Services, at the above address or by telephone at (202) 272-7444.

SUPPLEMENTARY INFORMATION: The Freedom of Information Reform Act of 1986 (Pub.L. 99-570) ("Reform Act") amended the Freedom of Information Act ("FOIA") by modifying the terms of Exemption 7 and by supplying new provisions relating to the charging of fees for document retrieval and copying. The Reform Act specifically required the Office of Management and Budget ("OMB") to develop and issue, pursuant to notice-and-comment procedures, guidelines governing the uniform treatment of FOIA fees by all Federal agencies. Further, the Reform Act required all Federal agencies to

VOL 52 ISS 244 DEC 21 1987 UMI

notice and comment procedures, implementing fee provisions of the Act to conform to OMB guidelines. The regulations were to be effective 180 days after the effective date of the Reform Act, which was October 27, 1986.

On January 16, 1987, OMB issued for comment its "Proposed Fee Schedule and Administrative Guidelines" and issued a "Final Fee Schedule and Guidelines" on March 27, 1987. Since the Commission's regulations must conform to the OMB guidelines, it was impracticable to issue final regulations by the due date of April 25, 1987, while also providing a prior notice and comment period.

The Commission chose to follow an alternative procedure. The interim rules that the Commission adopted on June 18, 1987 to implement the Reform Act were given retroactive effectiveness as of April 25, 1987, without prior notice and comment. The amendments being made to the Commission's fee schedule were also given retroactive effectiveness as of April 25, 1987, and were subject to a notice and comment period of 30 days following publication. However, fees for services have been assessed under whichever set of rules (the agency's previous rules or the interim rules) has been more favorable to the requester. Thirty days after publication, fees will be assessed only according to the Commission's final rule. Four letters of comment were received during the comment period.

Section-by-Section Analysis of Comments

Waiver or reduction of fees 17 CFR 200.80 (e)(4).

Three commenters took issue with the Commission's proposed standard for granting a waiver of fees. The Department of Justice expressed concern that the standard lacked "substantive specificity" and enclosed a copy of a memorandum of April 2, 1987, from the Department's Office of Information and Privacy. The memorandum suggests that the language of the rules require a consideration of the substance of six factors listed by the Department: The subject matter of the request; the informative value of the records to be disclosed; the likelihood that disclosure will contribute to the general public's understanding; the significance of that understanding; the existence and magnitude of a commercial interest; and the nature of the primary interest to be served by disclosure and included its substance in the proposed language concerning fee waivers.

Commission augment the present language with a detailed definition of the statutory phrase "contribute significantly to public understanding of the operations or activities of government." The commenter quotes statements by Representatives Glenn English and Tom Kindness as a proper basis for such additional language. Information would constitute a significant contribution if it "is new; supports public oversight of agency operations, including the quality of agency activities and the effect of agency policy or regulations on public health or safety; or otherwise confirms or clarifies data on past or present operations." Cong. Rec. H. 9464 (daily ed. October 8, 1986). The revised rule was drafted to incorporate ideas about fee waiver reflected in sources other than the statute itself. Careful attention was given to the legislative history, and the language of the rule on this point embodies the essence of the remarks cited. In fact, the Commission's rule could arguably include a broader range of information than that covered by the specific language cited by the commenter.

The third commenter admits that the proposed rule conforms with the law but suggests that the Commission's rule also provide for fee waivers when requesters seek information regarding violations of law, wrongdoing by a government agency or administrative error. The rule as drafted would allow a waiver of fees for such requests provided that the other conditions for waiver were met. However, to grant fee waivers solely on the basis of the nature of material requested would clearly not be in keeping with the language of the Reform Act, which also establishes eligibility for waivers on the basis of how the information will be used.

Classification of Freedom of Information Act Requestors for Purposes of Assessing Fees 17 CFR 200.80(e)(10)(1).

The Commission received letters from three commenters dealing with this section as it defines the phrase "representatives of the news media." One commenter explicitly states that OMB's guidelines unnecessarily qualify the phrase by specifying that representatives of news media deal with "recent events and happenings." Another would have Commission regulations define "representative of the news media" solely by function as anyone publishing or disseminating information, a proposal specifically rejected by OMB in its final guidelines (see 52 FR 10015). The third commenter excludes any consideration of the intended purpose of the request or the information at issue, a suggestion also at odds with OMB guidelines.

Each of these commenters suggests explicitly or implicitly that agencies are not bound by OMB's guidelines in drafting regulations concerning this subject. However, the Reform Act requires that each agency set up a schedule of fees which shall "conform to the guidelines which shall be promulgated, pursuant to notice and receipt of public comment, by the Director of the Office of Management and Budget." The language of the interim rules is consistent with OMB's guidelines.

Aggregation of Requests 17 CFR 200.80(e)(12).

One commenter suggested that the Commission further qualify this provision of its rules to (1) emphasize a presumption that requests filed at greater than thirty day intervals are not subject to being aggregated and (2) prohibit agencies from aggregating requests for unrelated information made by the same party. While OMB's guidelines mention thirty days as a "reasonable belief" standard for aggregation, this and any other specific time period is rejected because it would unduly limit agencies attempting to prevent this abuse of the fee provisions. Therefore no time limit was included in the Commission's rule regulating this area.

With regard to the second point, the language of the rule is clear that aggregating a series of requests is allowed only when a party divides one request into a series. This language clearly meets the concern raised by the commenter.

Advance Payment 17 CFR 200.80(e)(13).

The Commission received one comment on this section. The commenter expressed concern that the Commission's formulation in this area failed to emphasize a preference against collecting fees in advance. The rule as proposed is clear that advance payment may be required only in circumstances which are clearly defined in language that closely tracks the OMB guidelines.

Final Regulatory Flexibility Analysis

The final regulatory flexibility analysis has been prepared in accordance with 5 U.S.C. 604. Please contact John D. Heine at (202) 272–7444 in order to receive a copy of the analysis.

Administrative practice and procedure, Freedom of information, Privacy, Securities.

PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

Accordingly, the interim rule amending 17 CFR Part 200 which was published at 52 FR 24145 on June 29, 1987, is adopted as a final rule without change.

By the Commission.
Dated: December 15, 1987.

Jonathan G. Katz,
Secretary.

17 CFR Part 211

[Release No. SAB 71A]

Staff Accounting Bulletin No. 71A

AGENCY: Securities and Exchange Commission.

ACTION: Publication of Staff Accounting Bulletin.

SUMMARY: Staff Accounting Bulletin No. 71 ("SAB 71"), which was released on August 12, 1987, expressed the staff's views regarding the requirements for financial statements of properties securing mortgage loans. Since the issuance of SAB 71, the staff has received inquiries about its position concerning (1) determining the adequacy of the borrower's equity in the underlying property; (2) the financial statements to be included for loan arrangements reported as investments in real estate ("investment-type arrangements") in filings under the Securities Act of 1933 ("Securities Act"), and the Securities Exchange Act of 1934 ("Exchange Act"); and (3) the application of SAB 71 to loans entered into prior to the date of its issuance. This staff accounting bulletin addresses these issues.

DATE: December 15, 1987.

FOR FURTHER INFORMATION CONTACT: Jeffrey C. Jones or John M. Riley, Office of the Chief Accountant (202/272–2130); or Howard P. Hodges, Jr., Joseph S. Aleknavage (202/272–2553), or Lester J. Shapiro (202/272–3322), Division of Corporation Finance, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549.

SUPPLEMENTARY INFORMATION: The statements in Staff Accounting Bulletins are not rules or interpretations of the Commission nor are they published as approval. They represent interpretations and practices followed by the Division of Corporation Finance and the Office of the Chief Accountant in administering the disclosure requirements of the Federal securities laws.

Jonathan G. Katz,
Secretary.
December 15, 1987.

PART 211—[AMENDED]

Accordingly, Part 211 of Title 17 of the Code of Federal Regulations is amended by adding Staff Accounting Bulletin No. 71A to the table found in Subpart B.

STAFF ACCOUNTING BULLETIN NO. 71A

The staff herein adds questions 3, 4, 5, 6, 7, and 8 to Section I of Topic 1 of the Staff Accounting Bulletin Series. The staff also herein rescinds the last two sentences of the fifth paragraph of the interpretive response in question 1 of Section I of Topic 1. Section I discusses financial statement requirements.

Topic 1: Financial Statements

* * * * *

I. Financial Statements of Properties Securing Mortgage Loans

** * * * *

Question 3: The interpretive response to question 1 indicates that the staff believes that the borrower's equity in an operating property is adequate to support accounting for the transaction as a mortgage loan when the borrower's initial investment meets the criteria in paragraph 11 of Statement of Financial Accounting Standards No. 66 ("SFAS 66") and the borrower's payments of principal and interest on the loan are adequate to maintain a continuing investment in the property which meets the criteria in paragraph 12 of SFAS 66. It is the staff's view that meeting these criteria is the only way the borrower's equity in the property is considered adequate to support accounting for the transaction as a mortgage loan?

Interpretive Response: No. It is the staff's position that the determination of whether loan accounting is appropriate for these arrangements should be made by the registrant and its independent accountants based on the facts and circumstances of the individual arrangements, using the guidance provided in the February 10, 1986 Notice to Practitioners ("Notice"). As stated in the Notice, loan accounting may not be appropriate when the lender participates in expected residual profit and has virtually the same risks as those of an owner, or joint venturer. In the Notice, the staff indicated that if the lender has virtually the same risk as an owner, or joint venturer, the essential test that needs to be addressed is whether the borrower has and is expected to continue to have a substantial amount at risk in the project.[1] The criteria described in SFAS 66 provide a "safe harbor" for determining whether the borrower has a substantial amount at risk in the form of a substantial equity investment. The borrower may have a substantial amount at risk without meeting the criteria described in SFAS 66.

Question 4: What financial statements should be included in filings made under the Securities Act regarding investment-type arrangements that individually amount to 10% or more of total assets?

Interpretive Response: In the staff's view, separate audited financial statements should be provided for any investment-type arrangement that constitutes 10% or more of the greater of (i) the amount of minimum proceeds or (ii) the total assets of the registrant, including the amount of proceeds raised, as of the date the filing is required to be made. Of course, the narrative information required by items 14 and 15 of Form S–11 should also be included with respect to these investment-type arrangements.

Question 5: What information must be provided under the Securities Act for investment-type arrangements that individually amount to less than 10%?

Interpretive Response: No specific financial information need be presented for investment-type arrangements that amount to less than 10%. However, where such arrangements aggregate more than 20%, a narrative description of the general character of the properties and arrangements should be included that gives an investor an understanding of the risks and rewards associated with these arrangements. Such information may, for example, include a description of the terms of the arrangements, participation by the registrant in expected residual profits, and property types and locations.

Question 6: What financial statements should be included in annual reports filed under the Exchange Act with respect to investment-type arrangements

[1] Regarding the composition of the borrower's investment, paragraph 9b of the Notice indicates that the borrower's investment may include the value of land or other assets contributed by the borrower, net of encumbrances. The staff emphasizes that such paragraph indicates, "" * * recently acquired property generally should be valued at no higher than cost * * *". Thus, for such recently acquired property, appraisals will not be sufficient to justify the use of a value in excess of cost.

BEST COPY AVAILABLE

that constitute 10% or more of the registrant's total assets?

Interpretive Response: In annual reports filed with the Commission, the staff has advised registrants that separate audited financial statements should be provided for each non-consolidated investment-type arrangement that is 20% or more of the registrant's total assets. While the distribution is on-going, however, the percentage may be calculated using the greater of (i) the amount of the minimum proceeds or (ii) the total assets of the registrant, including the amount of proceeds raised, as of the date the filing is required to be made. In annual reports to shareholders registrants may either include the separate audited financial statements for 20% or more non-consolidated investment-type arrangements or, if those financial statements are not included, present summarized financial information for those arrangements in the notes to the registrant's financial statements.

The staff has also indicated that separate summarized financial information (as defined in Rule 1-02.(aa) of Regulation S-X) should be provided in the footnotes to the registrant's financial statements for each non-consolidated investment-type arrangement that is 10% or more but less than 20%. Of course, registrants should also make appropriate textual disclosure with respect to material investment-type arrangements in the "business" and "property" sections of their annual reports to the Commission.[2]

Question 7: What information should be provided in annual reports filed under the Exchange Act with respect to investment-type arrangements that do not meet the 10% threshold?

Interpretive Response: The staff believes it will not be necessary to provide any financial information (full or summarized) for investment-type arrangements that do not meet the 10% threshold. However, in the staff's view, where such arrangements aggregate more than 20%, a narrative description of the general character of the properties and arrangements would be necessary. The staff believes that information should be included that would give an investor an understanding of the risks and rewards associated with these arrangements. Such information may, for example, include a description of the terms of the arrangements, participation by the registrant in expected residual profits, and property types and locations. Of course, disclosure regarding the operations of such components should be included as part of the Management's Discussion and Analysis where there is a known trend or uncertainty in the operations of such properties, either individually or in the aggregate, which would be reasonably likely to result in a material impact on the registrant's future operations, liquidity or capital resources.

Question 8: What consideration will be given by the staff to those registrants that are unable to obtain the requisite information with respect to investment-type arrangements entered into prior to SAB 71?

Interpretive Response: For transactions with unaffiliated parties closed before December 15, 1987, the staff has taken the position that the disclosures contemplated by SABs 71 and 71A should be included unless the registrant has no contactual right to such information and cannot practicably obtain such information. In that event, the filing in which the information otherwise would be included should clearly state that the information is not included because the registrant has no contractual right to the information and cannot otherwise practicably obtain the information.

For transactions with unaffiliated parties closed on or after December 15, 1987, the staff believes that the information should be included in all filings. The staff believes information with respect to any transaction with an affiliate is available to the registrant and should therefore be provided regardless of the date of the transaction.

[FR Doc. 87-29198 Filed 12-18-87; 8:45 am]

BILLING CODE 8010-01-M

[2] Registrants are reminded that in filings on Form 8-K that are triggered in connection with an acquisition of an investment-type arrangement, separate audited financial statements are required for any such arrangement that individually constitutes 10% or more.

DEPARTMENT OF THE TREASURY

Customs Service

19 CFR Part 4

[T.D. 87-150]

Customs Regulations Amendments Concerning Reporting Requirements for Small Vessels

AGENCY: Customs Service; Treasury.

ACTION: Interim rule; solicitation of comments.

SUMMARY: This document sets forth interim amendments to the Customs Regulations to implement recent legislative changes to enhance Customs enforcement of the currency reporting and controlled substances laws and assist in preventing the importation of merchandise contrary to law. The statutory changes concern reporting requirements for individuals and vessels, penalties, searches and seizures. To clarify vessel reporting requirements and to implement new vessel reporting requirements for small vessels arriving in the Miami, Florida, Customs District, operations of small vessels arriving in that area will be required to stop at one of 14 designated locations and, through a clearly marked Customs telephone, report their arrival to the U.S. to Customs before proceeding to their destination. In addition to the reporting requirements, the amendments also implement legislative provisions which provide for civil and criminal monetary penalties and for the seizure and forefeiture of conveyances used to transport unmanifested merchandise or controlled substances as well as the merchandise thereon.

This action is being taken as part of Customs continuing efforts to interdict the smuggling of controlled substances and other merchandise being introduced contrary to law into the southern Florida area and to enforce the currency reporting laws. These regulations will close a loophole in interdiction efforts concerning the significant number of small vessels arriving in that area carrying controlled substances, unreported monetary instruments, or undeclared merchandise.

DATES: Effective: December 21, 1987. Written comments must be received on or before February 19, 1988.

ADDRESS: Written comments (preferably in triplicate) may be submitted to and inspected at the Regulations Control Branch, Customs Service Headquarters, Room 2324, 1301 Constitution Avenue NW., Washington, DC 20229.

FOR FURTHER INFORMATION CONTACT: (Operational matters) Glenn Ross, Office of Passenger Enforcement and Facilitation (202-566-5607) or (Legal matters) Larry L. Burton, Carriers, Drawback and Bonds Division (202-566-5706).

SUPPLEMENTARY INFORMATION:

Background

The Anti-Drug abuse Act of 1986 (Pub. L. 99-570) (the Act), made various changes to the Tariff Act of 1930 relating to the arrival in the U.S. and the reporting to Customs of persons and transportation conveyances; penalties; search and seizure of persons and conveyances; forfeiture and disposition of articles and conveyances; the Customs Forfeiture Fund; aviation

smuggling; preclearance; and investigation matters such as records production; undercover Customs operations, informer compensation; and the exchange of information with domestic and foreign Customs and law enforcement agencies. The reporting requirements are consolidated in section 433, Tariff Act of 1930, as amended (19 U.S.C. 1433), which provides, in pertinent part, that vessels must generally report to Customs immediately upon their arrival in the U.S. and in such manner as the Secretary of the Treasury may prescribe by regulation. The Act further amended section 401(k), Tariff Act of 1930, as amended (19 U.S.C. 1401(k)), to clarify that a vessel arriving in the U.S. after visiting a hovering vessel or a point or place where it has received merchandise is deemed to be arriving from a foreign port or place and that controlled substances are generally to be considered as prohibited merchandise. The Act further amended section 594, Tariff Act of 1930, as amended (19 U.S.C. 1594), relating to the seizure and forfeiture of conveyances used for the importation of prohibited merchandise, by narrowing and clarifying the previously existing exceptions to the seizure and forfeiture provisions of that section. This document implements the arrival, reporting, and conveyance seizure and forfeiture provisions of the Act as to "small vessels", as defined. Initially, special procedures for reporting arrivals of small vessels will be limited to arrivals within the Miami, Florida, Customs District, as defined in § 101.3(b), Customs Regulations (19 CFR 101.3(b)). Operations of small vessels arriving in the U.S. in that area will be required to stop at one of 14 small vessel reporting locations before proceeding to their intended destination and, through a clearly marked Customs telephone, immediately report their arrival to Customs. The Customs officer answering the call will ask for information such as: vessel registration number, name of vessel, owner name, operator/passenger name(s), date(s) of birth, foreign ports or places visited, duration of stay, foreign acquisitions, and user fee decal number, if any. The Customs officer will then instruct the vessel operator that the vessel may proceed or that further action, which may include inspection/examination at another location, is required. The District Director of Customs at Miami will retain the authority to change the nature of reporting locations, their number, or locations. However, initially the following 14 small vessel reporting stations are being designated within the Miami, Florida, Customs District:

Vessels Entering The Southern & Western Portions of the Miami District

1. A & B Marina 700 St., Key West, Florida 33040.
2. Tavernier Creek Marina, P.O. Box 1000, Tavernier, Florida 33070.
3. Faro Blanco Marine Resort, 1996 Overseas Highway, Marathon, Florida 33050.

Vessels Entering The Northern Portion of the Miami District

1. Government Cut, Phillips 66 Marine, Watson Island, 1050 MacArthur Causeway, Miami, Florida 33132.
2. Haulover Cut, Bakers Haulover Marina; 10800 Collins Ave., Miami Beach, Florida 33154.
3. Port Everglades Cut, Lauderdale Marina, 1900 S.E. 15th St., Ft. Lauderdale, Florida 33316.
4. Hillsboro Inlet, Sands Harbor Marina/Hotel, 125 North Riverside Dr., Pompano Beach, Florida 33062.
5. The Cove Marina, 1755 S.E. 3rd Court, Deerfield Beach, Florida 33441.
6. Boynton Beach Inlet, Lake Worth Boating Center, 7848 South Federal Highway, Hypoloxo, Florida 33462.
7. Lake Worth Inlet (AKA Palm Beach), Sailfish Marina, 98 Lake Drive, Palm Beach Shores, Florida 33404.
8. Jupiter Inlet, Jupiter Marina, Route 1, Jupiter, Florida 33494.
9. St Lucie Inlet, Sailfish Marina, 3565 Southeast St., Stuart, Florida 33477.
10. Ft. Pierce Inlet, Pelican Yacht Club, 1120 Seaway Dr., Ft. Pierce, Florida 33454.
11. Sebastian Inlet, Sebastian Inlet Marina and Trading, 1580 U.S. 1, P.O. Box 1507, Sebastian, Florida 32958.

In addition to establishing procedures for reporting the arrival of small vessels in the Miami area, new § 4.2a, Customs Regulations (19 CFR 4.2a), also implements the provisions of the Act which provide for civil monetary penalties for the failure to report arrival and additional civil monetary penalties if unmanifested merchandise is found by Customs on board a non-reporting vessel. The vessel manifest penalties of section 584, Tariff Act of 1930, as amended (19 U.S.C. 1584), are made applicable if the merchandise found on board a non-reporting vessel consists of controlled substances. Criminal monetary penalties and imprisonment are provided for if the failure to report arrival is intentional and if controlled substances are found on board the non-reporting vessel. The civil penalty includes seizure and forfeiture provisions related to the vessel and the merchandise in addition to the monetary penalties.

To clarify the vessel reporting requirements applicable to all vessels, § 4.2, Customs Regulations (19 CFR 4.2), is being amended to provide that vessel reporting requirements may be supplemented by local instructions and that a Customs officer may require documents and papers deemed necessary for the inspection/examination of vessels as well as cargo and persons on board. In addition, the new § 4.2a(b), Customs Regulations (19 CFR 4.2a(b)), will provide that small vessels in the Miami District will be considered to have arrived when they come to rest within the waters of that district, whether at anchor or at a dock, in any harbor or other location.

These new regulations are part of Customs continuing efforts to combat the problem of drug smuggling by vessel and to more specifically deal with techniques developed by drug smugglers utilizing small vessels for that purpose. Customs will now have greater control over small vessel movements in the southern Florida area because these vessels will now be required to go to designated reporting locations and immediately report their arrival. Thus, smugglers will not be able to proceed to private docks and unload contraband before continuing to their intended destination and then reporting their arrival to Customs. This was possible under the previously existing law and regulations which permitted the report of arrival to be delayed for as long as 24 hours after arrival in the U.S. The remaining provisions of the Anti-Drug Abuse Act of 1986 will be the subject of other **Federal Register** documents.

Comments

Before adopting these interim regulations as a final rule, consideration will be given to any written comments (preferably in triplicate) timely submitted. Comments submitted will be available for public inspection in accordance with the Freedom of Information Act (5 U.S.C. 552), § 1.4, Treasury Department Regulations (31 CFR 1.4), and § 103.11(b), Customs Regulations (19 CFR 103.11(b)), on normal business days between the hours of 9:00 a.m. and 4:30 p.m. at the Regulations Control Branch, Customs Service Headquarters, Room 2324, 1301 Constitution Avenue, NW., Washington, DC 20229.

Inapplicability of Notice and Delayed Effective Date Requirements

Inasmuch as these amendments implement a statutory change which is

already effective and because of critical drug interdiction requirements in southern Florida, it is deemed to be in the public interest to make the regulatory changes as soon as possible. Accordingly, the normal advance notice and public procedure are unnecessary pursuant to 5 U.S.C. 553(b)(B). For the same reasons, pursuant to 5 U.S.C. 553(d)(3), a delayed effective date is not required.

Executive Order 12291

Because this document will not result in a "major rule" as defined in E.O. 12291, a regulatory impact analysis is not required.

Regulatory Flexibility Act

Because no notice of proposed rulemaking is required for interim regulations, the provisions of the Regulatory Flexiblity Act (5 U.S.C. 601 *et seq.*) do not apply.

Drafting Information

The principal author of this document was Arnold L. Sarasky, Regulations Control Branch, U.S. Customs Service. However, personnel from other offices participated in its development.

List of Subjects in 19 CFR Part 4

Amendments to the Regulations

Part 4, Customs Regulations (19 CFR Part 4), is amended as set forth below:

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

1. The general authority for Part 4 continues to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 66, 1202 (Gen. Hdnote. 11), 1624, and 46 U.S.C. 2, 3.

2. Part 4 is amended by removing footnote 3.

3. Section 4.2(a) is revised to read as follows:

§ 4.2 Reports of arrival of vessels.

(a) The report of arrival of vessels, required by section 433, Tariff Act of 1930, as amended (19 U.S.C. 1433), except as prescribed in § 4.2a of this chapter, or as supplemented in local instructions issued by the district director and made available to interested parties by posting in Customs offices, publication in a newspaper of general circulation, and other appropriate means, shall be made by any means of communication to the district director or to a Customs officer assigned to board a vessel. The Customs officer may require the production of any documents or papers deemed necessary for the proper inspection/examination of a vessel, cargo, passengers, or crew.

* * * * *

4. Part 4 is amended by adding a new § 4.2a to read as follows:

§ 4.2a Small vessel reporting of arrival, Miami District.

(a) *Scope.* This section imposes special requirements for the report of arrival from any foreign port or place by small vessels whose intended destination is at a point within the jurisdiction of the Miami, Florida, Customs District, as defined in § 101.3(b) of this chapter. The operators of small vessels will be required to immediately report their arrival in the U.S., as prescribed by § 4.2(a) of this chapter, or as supplemented in local instructions issued by the district director and made available to interested parties by posting in Customs offices, publication in a newspaper of general circulation within the Miami District, and other appropriate means, by proceeding to locations designated by the District Director of Customs, Miami, Florida, prior to proceeding to their destination. The report will be made through a clearly marked Customs telephone. After securing some information from the person reporting, the Customs officer responding to the report of arrival will instruct the vessel operator that the vessel may proceed or that further action, which may include inspection/examination at another location, is required.

(b) *Definitions.* For the purposes of this section:

(1) "*Foreign port or place*" includes a hovering vessel as defined in section 401(b), Tariff Act of 1930, as amended, 19 U.S.C. 1401(k), and any point in the Customs waters beyond the territorial sea or on the high seas at which a vessel arriving in a port or place in the U.S. has received merchandise.

(2) "*Small vessel*" includes any vessel of less than 5 net tons, and any private pleasure vessel, regardless of displacement.

(3) "*Arrival of a vessel*" occurs when a small vessel comes to rest within the waters of the Miami District, whether at anchor or at a dock, in any harbor or other location.

(c) *Vessels entering the southern and western portions of the Miami District.* The operators of vessels arriving from a foreign port of place with an intended destination at a point south of the entrance to Biscayne Bay known as Broad Creek, which is north of Key Largo between Swan Key and Board Key, or that portion of the west coast of the State of Florida within the Miami Customs District as described in § 101.3(b), of this chapter, shall immediately report their arrival by the use of special clearly marked Customs telephones provided for that purpose, at the Customs designated location in the Florida Keys nearest to their intended destination point, before proceeding to their destination point.

(d) *Vessels entering the northern portion of the Miami District.* The operators of vessels arriving from a foreign port or place with an intended destination at or north of the entrance to Biscayne Bay known as Broad Creek, which is north of Key Largo and between Swan Key and Board Key, shall immediately report their arrival by the use of special clearly marked Customs telephones provided for that purpose, at the Customs designated location nearest the point at which the Biscayne Bay may be first entered or the intracoastal waterway may be first entered through a "cut", "channel", or "inlet", before proceeding to their destination point. This provision shall apply to vessels whose intended destination is on the Florida mainland or the barrier islands east of the intracoastal waterway.

(e) *Penalties.*—(1) *Civil penalty.* The master or person in charge of any vessel who fails to report arrival as required under this section is liable for a civil penalty of $5,000 for the first violation, and $10,000 for each subsequent violation. Any vessel used in connection with any such violation is subject to seizure and forfeiture.

(2) *Criminal penalty.* In addition to the civil penalty prescribed for violation of this section, the master or person in charge of any vessel who intentionally fails to report arrival as required by this section is liable, upon conviction, for a fine of not more than $2,000 or imprisonment for 1 year, or both. If the vessel is found to have, or to have had, on board any merchandise the importation of which is prohibited, such individual is liable for an additional fine of not more than $10,000 or imprisonment for not more than 5 years, or both.

(3) *Additional civil penalty.* If any merchandise, other than sea stores, is imported or brought into the U.S. aboard a vessel which has failed to report arrival as prescribed by this section, the master or person in charge of the vessel shall be liable for a civil penalty equal to the value of the merchandise, and the merchandise may be seized and forfeited, unless properly entered by the importer or consignee. If any of the merchandise consists of a controlled substance listed in section 584, Tariff Act of 1930, as amended 19 U.S.C. 1584, the penalties prescribed in that section shall apply.

Michael H. Lane,

Acting Commissioner of Customs.

Approved: December 14, 1987.

John P. Simpson,

Acting Assistant Secretary of the Treasury.

BILLING CODE 4820-02-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Housing-Federal Housing Commissioner

24 CFR Parts 200, 203, 204, 213, 220, 221, 222, 226, 227, 235, 237, and 240

[Docket No. R-87-1357, FR-2382]

Mortgage Insurance for the Allegany Reservation of the Seneca Nation of Indians

AGENCY: Office of the Assistant Secretary for Housing-Federal Housing Commissioner, HUD.

ACTION: Interim rule.

SUMMARY: A new Section 203(q) of the National Housing Act authorizes the Secretary of HUD to insure mortgages on certain leased property in Salamanca, New York, within the Allegany Reservation of the Seneca Nation of Indians. The leases terminate in February 1991 unless renewed and the terms of renewal are uncertain. This rule explains the conditions under which the Secretary will insure mortgages on the leased property.

DATES: *Effective date:* Under section 7(o)(3) of the Department of Housing and Urban Development Act (42 U.S.C. 3535(o)(3)), no part of this interim rule can become effective until after the first period of 30 calendar days of continuous session of Congress which occurs after the date of the rule's publication. HUD will publish a notice in the Federal Register of the effective date of §§ 200.163, 203.43c, 203.43j, 203.45, 203.50, 204.1, 220.1, 221.1, 222.1, 226.1, 227.501, 235.1, 237.5, and 240.1 of this rule following expiration of the 30-session-day waiting period. No part of this rule will become effective until HUD's separate notice concerning those sections is published announcing a specific effective date. The effective date for all other sections cannot precede the effective date of the rule on the revised Temporary Mortgage Assistance Payments (TMAP) program (52 FR 6908), published on March 5, 1987, for which an effective date has not been published. An announcement of an effective date for such sections will be published in the Federal Register. HUD's best estimate of the revised TMAP program effective date is early June 1988.

Comment due date: February 19, 1988.

ADDRESS: All comments concerning this proposed rule should be addressed to the Rules Docket Clerk, Office of the General Counsel, Room 10276, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, DC 20410. Persons submitting comments should include their names, addresses, and telephone numbers and refer to the docket number and title indicated in the heading of this rule. All comments submitted will be available for public inspection in the Office of the Rules Docket Clerk at the above address during regular business hours.

FOR FURTHER INFORMATION CONTACT: John Coonts, Deputy Director, Insured Single Family Housing, Departemnt of Housing and Urban Development, Room 9266, 451 Seventh Street SW., Washington, DC 20410, telephone (202) 755-3046. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: A new section 203(q) of the National Housing Act (12 U.S.C. 1709(q)) was enacted by Pub. L. 99-601, November 5, 1986. This new provision authorizes the Secretary of HUD to insure mortgages on certain leased property within the Allegany Reservation of the Seneca Nation of Indians in the State of New York, without regard to statutory restrictions which would ordinarily prohibit mortgage insurance. A mortgage would be insured under section 203(b) of the National Housing Act as modified by section 203(q) of the Act and would be an obligation of the Special Risk Insurance Fund (SRIF) created by section 238 of the Act. (Under all SRIF programs, a periodic mortgage insurance premium is required by regulations instead of a one-time premium.)

Section 203(q) was needed before mortgage insurance could be granted because the property in question involves ground leases with terms expiring in February 1991 (with certain rights of extension). Section 201(a) of the National Housing Act requires leased property covered by an insured mortgage to be either "(1) under a lease for not less than ninety-nine years which is renewable or (2) under a lease having a period of not less than ten years to run beyond the maturity date of the mortgage * * *." The second test clearly cannot be satisfied since the leases will expire in less than ten years. The first test is partially met since the leases involved are 99-year leases. However, their renewability is subject to complicating factors which, in the absence of section 203(q), would preclude mortgage insurance at this time. The Department has interpreted the statute as requiring a lease giving the lessee an absolute right to renew on specific terms. As discussed further in the following section, the leases in question do not provide for specific terms of renewal.

Background

The property affected by Pub. L. 99-601 and this rule consists of that part of the City of Salamanca, New York which is located on the Allegany Reservation of Seneca Nation of Indians and subject to ground leases expiring in February 1991. These ground leases were given by the Seneca Nation pursuant to the Act of February 19, 1875, 18 Stat. 330, which was enacted to ratify existing leases granted by the Seneca Nation and to clarify the future authority of the Seneca Nation to lease land in the Allegany Reservation. The 1875 law provided for continuation of existing leases for five years (until February 1880) with rights of renewal for periods of up to twelve years. Prior to expiration of the first twelve-year renewal period, Congress enacted the Act of September 30, 1890, 26 Stat. 558 which amended the 1875 law to allow renewals for periods up to 99 years. The subsequent renewals of the leases were for periods of 99 years which will expire in February 1991.

The 1875 law specified the manner of renewal. The "owner or owners of improvements" on leased lands at the time a lease term expires "shall be entitled" to lease renewal on "such conditions as may be agreed upon" with the Seneca Nation, up to the maximum allowed renewal period. If the parties to the lease cannot agree on conditions of renewal, the 1875 law states that they shall each appoint a "referee" (arbitrator) to "fix and determine the terms of said lease and the amount of annual rent to be paid." If agreement is not reached the two referees shall choose a third person to act with them. The decision of a majority of the persons so chosen shall be "final and binding" upon the parties. The lease forms used by the Seneca Nation adopted this renewal provision from the 1875 law.

For approximately 18 years, the Seneca Nation has been engaged in

discussions regarding lease renewal terms with the Salamanca Indian Lease Authority, which was created in 1969 by N.Y. *Public Authorities Law* section 179 *et seq.* (McKinney 1987). There is no clear authority for the Authority to bind individual lessees to any negotiated terms of renewal. In any event, HUD understands that the discussions between the Authority and the Seneca Nation are not likely to be successful in the near future. We are not aware of direct discussions between individual lessees and the Seneca Nation regarding lease renewal. We are not aware of any appointment of arbitrators by any party. The resulting uncertainty regarding the future rent or any other terms of lease renewals, and the possibility that agreement on renewal terms might not be reached before the leases terminate, if ever, means that the property interests which lessees may hold now and in the future are too uncertain to be accepted by prudent lenders as adequate security for long-term mortgage loans.

Currently, no private lending institutions will make uninsured mortgage loans for any property in Salamanca, NY which is subject to a lease expiring in February 1991. FHA-insured or VA-guaranteed mortgages have not been available for many years.

Purpose of the Rule

This rule is intended to make mortgage insurance available on terms which will permit prudent lenders to resume lending on the basis of the current leases. The rule should relieve a lender of its concern over the uncertain and possibly short-term property interests offered as security for mortgages.

The legislative history of section 203(q) suggests that Congress did not intend to authorize insurance of mortgages secured by property on short-term ground leases without regard to the prospects for renewal. Instead, it was assumed that the leases would be renewed for a longer term so that the ultimate security would be property which a mortgagor could hold for the life of the mortgage. For example, Congressman Lundine stated during floor debate:

> This measure is revenue neutral. Further, it does not represent an unreasonable risk for FHA. The law under which these leases were ratified clearly allows for renewal of the leases; the only unresolved question is the terms of renewal. 132 Cong. Rec. H 8593 (daily ed. September 29, 1986).

HUD recognizes that it cannot obtain absolute assurance of a timely renewal of the lease and that, consequently, there is some risk that any mortgage loan insured under this rule could ultimately become an unsecured loan—if there is never a renewal or replacement lease—or that the existence of security may be in doubt during any gap between the February 1991 termination date and a later renewal or replacement lease. Several provisions of this rule are designed to increase the chances that the lease will be renewed in a timely manner or, at least, that arbitration on a new lease will be instituted if a negotiated renewal is not possible.

The Department does not believe that Congress intended the Department to disregard the special difficulties presented by long-term mortgages secured by renewable leases with an impending termination date. Instead, we interpret the law as permitting HUD to relax the normal requirements for leasehold mortgages only if HUD reasonably expects appropriate steps to be taken toward renewal of the leases for periods commensurate with the mortgage terms.

Summary of Rule Provisions

New 24 CFR 203.43j contains the basic requirements for mortgage insurance for homes on property subject to Allegany Reservation ground leases.

Paragraph (a) (Title) establishes a special title requirement to substitute for § 203.37. Title to the leasehold must be held through a lease meeting two requirements: The lease must have a termination date in February 1991, and it must provide for renewal in accordance with the renewal scheme established by the 1875 and 1890 laws. This requirement represents an interpretation of the provision in section 203(q)(1)(B) that the insured mortgage "be secured by property on land that * * * is subject to a lease entered into for a term of 99 years pursuant to" the 1875 and 1890 laws. In the opinion of HUD, Congress intended to extend the coverage of section 203(q) to all residential leases on the Allegany Reservation with February 1991 termination dates, including a group of leases executed in 1944 for the remainder of the term of 99-year leases which had been cancelled for nonpayment of rent. (For background on the cancellation, *see U.S. v. Forness*, 125 F.2d 928 (2d Cir. 1942)). The reference to "99 years" in the statute should not be read narrowly to exclude leases which, in effect, completed a 99-year term and which present the same problem as the "true" 99-year leases. Paragraph (a) specifically excludes a mortgage secured by a replacement or renewal of a lease scheduled to terminate in February 1991, or by any other right of occupancy. This effectively establishes February 1991 as the outside date for insurance under this rule.

Paragraph (b) (Provisions of mortgage) provides for additional material to be added as a rider to the approved New York mortgage form to address the special title circumstances, including authorization for the mortgagee to act for the mortgagor with regard to lease renewal, at mortgagor's expense, and special default provisions. HUD expects each mortgagor to pursue the issue of lease renewal with the Seneca Nation in a timely manner. Separate discussions could occur for each individual lease, many mortgagors/lessees could act together, or mortgagors/lessees may be represented by an entity such as the City of Salamanca or the Salamanca Indian Lease Authority. While we do not expect to draft mortgage language authorizing the mortgagee to negotiate on behalf of the mortgagor, mortgagees will be expected to keep track of a mortgagor's progress toward lease renewal. If recourse to arbitration is necessary because the lease has not been renewed by a date to be specified in the mortgage rider, and the mortgagor fails to pursue arbitration, the mortgagor will be in default under the mortgage and the mortgagee will be authorized through a power of attorney to name an arbitrator and take other steps to pursue arbitration, including seeking any needed assistance from a court. The mortgagee will also be able to foreclose based on the default.

Paragraph (c) (Secretary's agreement with mortgagor) requires a HUD-mortgagor agreement on steps to be taken toward lease renewal. At the discretion of the Secretary, other parties such as the Seneca Nation could be added. HUD would prefer to require an agreement which includes the Seneca Nation as a party, whereby the parties to each lease agree to commence arbitration. If the Seneca Nation is not agreeable to this approach, HUD expects each mortgagor to notify the Seneca Nation of the mortgagor's intent to renew the lease and to take appropriate steps to pursue arbitration if the lease has not been renewed by a date to be specified in the agreement. A power of attorney would enable HUD to pursue arbitration if necessary, including seeking any needed assistance from a court. Thus, HUD as well as the mortgagee would be legally entitled to take steps to ensure that the lease renewal rights are exercised through arbitration if negotiations do not succeed by a specified date, although HUD expects to rely on the mortgagee to take necessary action unless the mortgage has been assigned, or the leasehold conveyed, to HUD. Nothing in any of these documents would require the parties to continue arbitration if agreement on renewal terms is reached.

Paragraph (d) (Certification) requires the mortgagor to certify receipt of certain disclosures about the lease situation. The disclosure must include a discussion of the fact that a mortgagor will remain liable for the balance of the mortgage principal even if the ground lease for the mortgagor's home is not renewed. Other risks expected to be disclosed are: The lack of assurance that the Seneca Nation will be interested in lease renewal on terms agreeable to the mortgagor, the power of arbitrators to issue a binding award requiring the mortgagor to renew the lease on unacceptable terms, the possible need to commence and pay for litigation to enforce the mortgagor's right of renewal, the fact that failure by the mortgagor to pursue arbitration after a specified date will be a mortgage default, the requirement that the mortgagor must give a power of attorney to the mortgagee and HUD, and the possible serious difficulty in selling the home until the ground lease is renewed. This disclosure requirement ensures that mortgagors will not be ignorant of the special risks presented by purchasing and mortgaging a short-term renewable leasehold estate.

Paragraph (e) (Purchase by owner-occupant) excludes from coverage of the rule any mortgages from investors or occupants purchasing a second home, or mortgages for refinancing. The rule is intended only to facilitate mortgage lending to owner-occupants purchasing a principal residence, since the primary purpose of section 203(q) is to make mortgage loans available to persons who could not otherwise obtain financing for purchase of their homes. However, public comment on this question is specifically requested. Paragraph (f) (Relationship of income to housing expense) ensures that under § 203.33(a) the adequacy of the mortgagor's income would be tested against estimated future lease payments after renewal. Current rentals do not represent market value, will definitely increase substantially in any renewal lease, and should not be used in the mortgage credit analysis. Since the purpose of § 203.33(a) is to ensure that a mortgagor will be able to meet expenses, HUD expects initially to use as the estimated future rent level the highest level proposed by the Seneca Nation in negotiations until HUD has reason to conclude that a lesser rent level is a likely outcome of negotiations or arbitration.

Paragraph (g) (Suspension of insurance) provides for possible suspension of further issuance of commitments to insure mortgages under this rule. A suspension could be for the remaining life of the program (through February 1991) or for a lesser period specified by the Secretary. A suspension could be imposed prior to February 19, 1990, if the rate of 90-day delinquencies during a specified period exceeds the general rate of 90-day delinquencies for all one-to-four family properties in the State of New York. A suspension could be imposed after February 18, 1990, based on consideration of the probable costs to the Special Risk Insurance Fund of further commitments, measured by certain factors such as rate and amount of claims payments.

Section 203(q) of the National Housing Act authorizes mortgage insurance only under section 203(b) of the Act (as modified by section 203(q)). Therefore, §§ 203.43c (cooperative units) and 203.50 (rehabilitation loans) and Parts 213 (cooperative units), 220 (urban renewal), 221 (low costs and moderate income), 222 (servicemen, 226 (armed services housing for civilian employees), 227 (armed services housing for impacted areas), 235 (lower income homeownership), 237 (special mortgage insurance for low- and moderate-income families) and 240 (fee title purchase) are each amended to add the new § 203.43j to the list of Part 203 provisions which are inapplicable to such programs.

HUD has also determined that all mortgage insurance applications under this rule should be processed by HUD under the prior approval procedure rather than through the Direct Endorsement procedure. Section 200.163(a)(2) is amended to exclude section 203(q) from the list of Direct Endorsement programs. HUD also does not regard this program as appropriate for coinsurance and § 204.1 is amended to exclude this program from the coinsurance regulations. Section 203.45(g) has been amended to exclude graduated payment mortgages from this rule, since the negative amortization feature of such mortgages would increase the already greater-than-ordinary risk of mortgages insured under this rule.

The regulations which ordinarily govern the maximum amount for section 203(b) mortgages (§§ 203.18–203.18c) are also applicable to mortgages authorized by this rule. Because of the unusual title situation, however, HUD will issue special instructions regarding determination of value.

HUD has also amended Subparts B (Contract Rights and Obligations) and C (Servicing Responsibilities) of Part 203 to include provisions applicable if a default occurs prior to either negotiated renewal of the lease on a long-term basis (at least five years beyond the mortgage term) or renewal on the basis of an arbitration award (i.e., while the current lease situation persists). After renewal the ordinary provisions would apply. In this context, HUD is permitting renewal lease terms shorter than the normal requirement of ten years beyond the mortgage term to balance the need for adequate mortgage security against the Seneca Nation's preference for shorter lease terms. The changes to Subparts B and C are similar to changes made as part of the recent rules for the Hawaiian home lands mortgage insurance program under Section 247 of the National Housing Act (52 FR 8064 and 28470), published on March 6 and July 30, 1987, and the Indian reservations mortgage insurance program under Section 248 of the Act (52 FR 21866), published on June 9, 1987, which provide for assignment of mortgages in default.

HUD believes that mortgages are unlikely to express sufficient interest in the program if they must make insurance claims on a "business as usual" basis during the uncertain situation concerning the eventual terms and conditions of the leases, with the real possibility of litigation and the possibility the leases will terminate. Section 203.350 is amended by adding a new paragraph (d), which provides that HUD will accept assignment of section 203(q) mortgages in the case of a 90-day default in payment, or in the case of any 30-day default if the leasehold estate has terminated before the mortgage has been assigned or title to the leasehold conveyed to HUD. In the case of any other default, assignment is at HUD's discretion.

A mortgage which is not receiving monthly payments should be able to take action to protect its interests within a definite period of time. It may not be possible for a mortgagee to expeditiously acquire through foreclosure any valuable interest, as long as the lease renewal is uncertain, and HUD considers it reasonable to give mortgages the option of direct assignment of the mortgage. The mortgage may also be in default because of a mortgagor's failure to take actions needed to renew the lease (see § 203.43j(b)). If the mortgagor continues to make monthly payments and the mortgagee takes actions toward renewal on behalf of the mortgagor (as the mortgage will permit), there may be no need for assignment. However, at some

point the lease renewal situation may become so complex, particularly in terms of litigation, that it would not be reasonable to expect an insured lender to voluntarily expend its time and efforts (even on a reimbursable basis) to remain involved in the situation. In such a case, HUD has reserved the option of accepting assignment.

In addition to the usual requirements for mortgages to report on delinquent mortgagors to HUD, HUD will require mortgagees to report on other defaults including mortgagor failure to take actions to renew the lease.

Because of the potential for rapid changes in the situation beyond control of the mortgagor, HUD does not regard the Temporary Mortgage Assistance Payments program (52 FR 6906), published on March 5, 1987, as appropriate for section 203(q) mortgages before the leases have been renewed, and therefore assignment will be permitted but no TMAP will be provided. Nevertheless, the changes to Subparts B and C of Part 203 are interrelated to changes which will be made by the TMAP rule and for this reason the effective date of these changes and changes to certain sections in other Parts will be delayed until the TMAP rule is effective.

A new 24 CFR 203.439a contains the special provisions for filing claims on defaulted section 203(q) mortgages. Paragraph (a) provides that the special provisions of this section are applicable to mortgages on leaseholds *prior* to renewal, and not to mortgages on leaseholds *subsequent* to renewal. If and when the lease is renewed, mortgagees will then treat defaulted mortgages on Allegany Reservation ground leases as any other mortgage in regard to the forbearance assignment process, TMAP and foreclosure. Paragraph (b) provides for payment of claims whenever an assignment is accepted under the new § 203.350(d). Paragraph (c) addresses title questions by providing exceptions to the usual requirements on title quality and title evidence. It also states that the new rule on claims without conveyance of title (§ 203.366) does not apply.

A new 24 CFR 203.666 is added. This section contains the provisions for forbearance assignment relief when a defaulted mortgage on a pre-renewal lease is assigned to the Secretary. Some distinctions are made between assignments for monetary and non-monetary defaults. In both cases the mortgagee must provide information relevant for consideration of forbearance when assignment is requested. HUD retains broad discretion to forbear, which it may exercise with reference to the current lease situation as well as the individual mortgagor's situation. At a minimum, however, a mortgagor whose payment default was the grounds for assignment will receive the same consideration for forbearance as any other non-section 203(q) assignment case.

Technical amendments for filing claims and assigning defaulted mortgages on pre-renewal leaseholds have been made to §§ 203.355, 203.604(b), 203.640(a), 203.645(a) and 203.654.

Procedural Requirements

The Department is publishing this rule for effect as an interim rule that solicits public comment. With the current ground leases expiring in February 1991, we believe that time is of the essence if the special purposes of this rule are to be achieved, *i.e.*, providing for at least a limited home mortgage market in Salamanca, New York prior to renewal of the leases. We believe it to be in the public interest that the benefits provided in this rule be made available with an absolute minimum of procedural delay and that the Congress concurs in this assessment. The provisions authorizing this special mortgage insurance were extracted from omnibus housing legislation which had earlier passed the House of Representatives (when it became apparent that it was unlikely such legislation would be enacted in 1986), and passed as a separate law. In the current Congress, the House of Representatives has passed an amendment to Pub. L. 99-601 which would *require*, rather than simply authorize, the Secretary of HUD to insure these mortgages. We believe that both of these Congressional actions demonstrate a sense of urgency in the Congress that this program be quickly implemented.

This rule does not constitute a "major rule" as that term is defined in section (b) of the Executive Order on Federal Regulation issued by the President on February 17, 1981. Analysis of the rule indicates that it does not (1) have an annual effect on the economy of $100 million or more; (2) cause a major increase in cost or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; or (3) have a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States based enterprises to compete with foreign-based enterprises in domestic or export markets.

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations in 24 CFR Part 50 which implement section 102(2)(C) of the National Environmental Policy Act of 1969. The Finding of No Significant Impact is available for public inspection during regular hours in the Office of the Rules Docket Clerk, Office of the General Counsel, Room 10276, 451 Seventh Street, SW. Washington, DC 20410.

Under 5 U.S.C. 605(b) (the Regulatory Flexibility Act), the Undersigned hereby certifies that this rule does not have a significant economic impact on a substantial number of small entities. The rule only provides for a limited number of mortgages on homes in Salamanca, N.Y., to be insured during a limited period of time. It should provide new economic opportunities equally to large and small entities by enabling them to obtained mortgage loans on a financially feasible basis for the first time in recent years.

Information collection requirements contained in this rule have been submitted to the Office of Management and Budget for review under section 3504(h) of the Paperwork Reduction Act of 1980 (44 U.S.C. 3504(h)). Comments relating to information collection requirements should be submitted to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503, Attention: Desk Officer for HUD. After OMB review and approval, the public will be notified of the OMB control number assigned these requirements through a technical amendment to this rule.

This rule was listed as item 983 in the Department's Semiannual Agenda of Regulations (published at 52 FR 40358, 40380) on October 26, 1987, under Executive Order 12291 and the Regulatory Flexibility Act.

The mortgage insurance program listed in the Catalog of Federal Domestic Assistance under the following number would be covered by this rule: 14.117.

List of Subjects in 24 CFR Parts 200, 203, 204, 213, 220, 221, 222, 226, 227, 235, 237, and 240

Administrative practice and procedure, Claims, Equal employment opportunity, Fair housing, Housing standards, Loan programs: Housing and community development, Mortgage insurance, Organization and functions (Government agencies), Reporting and recordkeeping requirements, Miniminum Property Standards, Incorporation by reference, Home improvement, Solar energy, Cooperatives, Urban renewal, Rental housing, Projects, Condominiums, Low and moderate income housing, Displaced families, Single family housing, Military personnel, Government employees, Federally affected areas: Defense housing, Homeownership, Grant programs: Housing and community development, Fee title purchase.

Accordingly, 24 CFR Parts 200, 203, 204, 213, 220, 221, 222, 226, 227, 235, 237 and 240 are amended as follows:

PART 200—INTRODUCTION

1. The authority citation for Part 200 continues to read as follows:

Authority: Titles I and II, National Housing Act (12 U.S.C. 1701–1715z–16); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

2. Section 200.163(a)(2) is revised to read as follows:

§ 200.163 Direct endorsement.

(a) * * *

(2) Single family mortgages insured under any of the programs listed in paragraph (a)(1) of this section pursuant to sections 223, 225, 238(c), 244, 247, or 248 of the National Housing Act, or under section 203(b) of the Act as modified by section 203(g), are not eligible for processing under this section. The provision contained in 24 CFR 221.55 which permits a builder-mortgagor to sell a property to a displaced family on a deferred basis is not available in the Direct Endorsement program.

* * * * *

PART 203—MUTUAL MORTGAGE INSURANCE AND REHABILITATION LOANS

3. The authority citation for Part 203 continues to read as follows:

Authority: Secs. 203, and 211, National Housing Act (12 U.S.C. 1709, 1710, 1715(b)); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)). In addition, Subpart C is also issued under sec. 230, National Housing Act (12 U.S.C. 1715u).

4. Section 203.43c(a) is revised to read as follows:

§ 203.43c Eligibility of mortgages involving a dwelling unit in a cooperative housing development.

* * * * *

(a) The provisions of §§ 203.16a, 203.17, 203.18, 203.18a, 203.18b 203.23, 203.24, 203.26, 203.37, 203.38, 203.43b, 203.43h, 203.43i, 203.43j, 203.44, 203.49 and 203.50 of this part do not apply to mortgages insured under section 203(n) of the National Housing Act.

* * * * *

5. Part 203 is amended by adding a new §203.43j to read as follows:

§ 203.43j Eligibility of mortgages on Allegany Reservation of Seneca Nation of Indians.

A mortgage on a leasehold estate covering a one- to four-family residence located on the Allegany Reservation of the Seneca Nation of Indians in the State of New York is eligible for insurance if the mortgage meets the requirements of this subpart as modified by this section.

(a) *Title.* This section applies only to a mortgage which:

(1) Does not meet the requirements of § 203.37;

(2) Is on a leasehold under a lease with a termination date in February 1991, which provides for renewal in accordance with the Act of February 19, 1875 (18 Stat. 330) and the Act of September 30, 1890 (26 Stat. 558).

A mortgage may not be on a leasehold created by a lease which is executed after the effective date of this section as a renewal or replacement of a lease described in paragraph (a)(2) of this section. A mortgage may not be secured by any other right of occupancy created in lieu of a leasehold after the effective date of this section by agreement of the Seneca Nation, court order, law or any other means.

(b) *Provisions of mortgage.* The Secretary will prescribe special mortgage provisions in the form of a mortgage rider in order better to secure the mortgagee, including:

(1) Authorization for the mortgagee to exercise the option of lease renewal if the mortgagor fails to do so, and to recover from the mortgagor authorized expenses incurred to obtain lease renewal; and

(2) Making a mortgagor failure to take steps necessary for less renewal an event of default under the mortgage.

(c) *Secretary agreement with mortgagor.* The mortgagor must enter into an agreement with the Secretary and such other parties as the Secretary may require regarding actions to be taken to obtain either a renewal of the lease or a new lease.

(d) *Certification.* The borrower must certify that it has received disclosures, in a form prescribed by the Secretary, explaining the status of the lease and the consequences of nonrenewal. The disclosure shall include a discussion of the fact that a mortgagor who does not obtain a lease renewal and loses the right of occupancy will remain liable for the outstanding balance of the mortgage.

(e) *Purchase by owner-occupant.* The mortgagor must be a purchaser intending to occupy the property as a principal residence. Mortgages may not be used to refinance existing mortgages.

(f) *Relationship of income to housing expense.* For purposes of § 203.33(a), the total prospective housing expense shall include the Secretary's estimate of future lease payments during the term of the mortgage rather than lease payments in effect at the time of application.

(g) *Suspension of commitments.* The Secretary may suspend the issuance of commitments to insure mortgages under this section, for the entire period during which commitments could otherwise be issued for insurance under this section (i.e., through February 18, 1991) or for such lesser period as the Secretary may specify, by providing thirty days notice of suspension in the **Federal Register.** Regardless of its duration, a suspension to be imposed prior to February 19, 1990, will be based on a determination by the Secretary that, for mortgages insured during a specified period, the rate of monetary defaults (as measured by 90 day delinquencies) for mortgages insured under this section exceeds the rate of such monetary defaults for all insured mortgages on one- to four-family properties in the State of New York. A suspension to be imposed after February 18, 1990, will be based on a consideration by the Secretary of the probable costs to the Special Risk Insurance Fund of further commitments to insure under this section, as measured by such factors as the current and projected rate and amount of claims payments, together with other significant current and projected costs as determined by the Secretary, including a review of the actual and projected monetary default rate (as measured by 90 day delinquencies) and the actual and projected rate of lease renewal through negotiation and arbitration.

6. Section 203.45(g) is revised to read as follows:

§ 203.45 Eligibility of graduated payment mortgages.

* * * * *

(g) This section shall not apply to a mortgage that meets the requirements of §§ 203.18(c), (d), (e) or (f), 203.43, 203.43a, 203.43b, 203.43j, or 203.49.

* * * * *

7. Section 203.50(i) is revised to read as follows:

§ 203.50 Eligibility of rehabilitation loans.

* * * * *

(i) Rehabilitation loans which do not involve the insurance of advances, the refinancing of outstanding indebtedness or the purchase of the property need not be a first lien on the property but shall not be junior to any lien other than a first mortgage. The provisions of

§§ 203.15, 203.19, 203.23, 203.24, 203.28, and 203.43j shall not be applicable to such loans.

* * * * *

8. Section 203.350 is amended by redesignating the current paragraph (d) as paragraph (e) and adding a new paragraph (d) to read as follows:

§ 203.350 Assignment of defaulted mortgage.

* * * * *

(d) *Assignment of mortgages authorized by section 203(q), National Housing Act.* Notwithstanding the provisions of paragraph (a) of this section, the Secretary will, upon application by the mortgagee, agree to accept assignment of any mortgage authorized by section 203(q) of the National Housing Act (§ 203.43j of this part) if

(1) The mortgagor has been in default for more than 90 days for failure to make a monthly payment,

(2) The requirements of § 203.666 are satisfied, and

(3) The date of default occurs before the mortgagor and the lessor execute a lease renewal or a new lease with a term of not less than five years beyond the maturity date of the mortgage, or with a terms established by an arbitration award.

If the default is non-monetary, the date of default occurs prior to an action described in paragraph (d)(3) of this section, the requirements of § 203.666 are satisfied, and the mortgagor has been in default for more than 30 days, the Secretary may in his or her discretion, upon application by the mortgagee, agree to accept an assignment of the mortgage. If the leasehold estate has terminated before the mortgage has been assigned, or title to the property conveyed, to the Secretary, and the mortgage is in default for any reason for more than 30 days, the Secretary will, upon application by the mortgagee, agree to accept an assignment of the mortgage.

9. The introductory text of § 203.355 is revised to read as follows:

§ 203.355 Acquisition of property.

With respect to defaulted mortgages on property located on Indian land insured pursuant to section 248 of the National Housing Act (§ 203.43h of this part), the mortgagee shall comply with §§ 203.350(b) and 203.664 of this part. With respect to defaulted mortgages on property located on Hawaiian home lands insured pursuant to section 247 of the National Housing Act (§ 203.43i of this part), the mortgagee shall comply with §§ 203.350(c) and 203.665 of this part. With respect to defaulted mortgages on property located on the Allegany Reservation of the Seneca Nation of Indians authorized by section 203(q) of the National Housing Act (§ 203.43j of this part) the mortgagee shall comply with §§ 203.350(d) and 203.666 of this part, provided that the mortgagor and the lessor have not executed a lease renewal or a new lease either with a term of not less than five years beyond the maturity date of the mortgage, or with a term established by arbitration award. With respect to all other mortgages, including mortgages authorized by section 203(q) if the preceding sentence is inapplicable, the mortgagee shall take one of the following actions within one year from the date of default, or within any additional time as is approved by the Secretary or is authorized by §§ 203.345, 203.346, or §§ 203.650 through 203.658.

* * * * *

10. Part 203 is amended by adding a new undesignated center heading and a new § 203.439a, to read as follows:

Mortgages on Property in Allegany Reservation of Seneca Indians

§ 203.439a Mortgages on property in Allegany Reservation of Seneca Nation of Indians authorized by section 203(q) of the National Housing Act.

(a) *Applicability.* This section shall apply to mortgages authorized by section 203(q) of the National Housing Act (§ 203.43j of this part) only when the date of default occurs before the mortgagor and the lessor execute a lease renewal or a new lease either with a term of not less than five years beyond the maturity date of the mortgage, or with a term established by an arbitration award.

(b) *Claims.* In addition to other actions which the mortgagee may take pursuant to this subpart in order to receive insurance benefits, a mortgagee shall be entitled to receive such benefits when the Secretary has agreed to accept assignment of a mortgage in accordance with § 203.350(d) and the mortgagee has complied with §§ 203.351 and 203.353.

(c) *Exceptions.* Notwithstanding § 203.366, title to a leasehold estate conveyed to the Commissioner is not required to be marketable as to the term of the lease, provided that the mortgagee has taken any actions required by the Secretary to attempt to obtain a long-term renewal of the lease. Title evidence will be required in a form satisfactory to the Commissioner (see § 203.385) unless the Commissioner agrees to accept title to a leasehold estate without title evidence.

11. Paragraph (b) of § 203.604 is revised to read as follows:

§ 203.604 Contact with the mortgagor.

(a) * * *

(b) The mortgagee must have a face-to-face interview with the mortgagor, or make a reasonable effort to arrange such a meeting, before three full monthly installments due on the mortgage are unpaid. If default occurs in a repayment plan arranged other than during a personal interview, the mortgagee must have a face-to-face meeting with the mortgagor, or make a reasonable attempt to arrange such a meeting within 30 days after such default and at lease 30 days before foreclosure is commenced, or at least 30 days before assignment is requested if the mortgage is insured on Hawaiian home land pursuant to section 247 or Indian land pursuant to section 248 or if assignment is requested under § 203.350(d) for mortgages authorized by section 203(q) of the National Housing Act.

* * * * *

12. Paragraph (a) introductory text, of 203.640 is revised to read as follows:

§ 203.640 Temporary mortgage assistance payments.

(a) The Secretary may make temporary mortgage assistance payments [TMAP] to the mortgagee on behalf of a mortgagor who owns the property, except for property subject to a mortgage insured pursuant to section 247 (see § 203.665) or section 248 of the National Housing Act (see § 203.664) or a mortgage authorized by section 203(q) of the National Housing Act (see § 203.666), when the following conditions are met:

* * * * *

13. Paragraph (a) of § 203.645 is revised to read as follows:

§ 203.645 Assignment of mortgage, with forbearance.

(a) For a mortgage other than one insured pursuant to section 247 or section 248 of the National Housing Act (§ 203.43i or § 203.43h of this part) or authorized by section 203(q) of the National Housing Act (§ 203.43j of this part), the Secretary will accept an assignment and provide forbearance if the conditions of § 203.640 (a)(1) through (a)(6) except (a)(4)(ii) are met, and the Secretary determines that assignment is necessary to avoid foreclosure and TMAP would be inappropriate in the case of the mortgagor. Among other grounds, TMAP will be determined to be inappropriate if the mortgagee refuses to accept TMAP (in violation of § 203.658(b)), or if extension of the mortgage maturity (by not more than 10 years after the original maturity) would be necessary in order for the mortgagor to afford repayment, and the mortgagee is unwilling to extend the maturity date. TMAP will also be determined to be inappropriate if a mortgagor is unable to execute the documents required by the Secretary to assure repayment of a TMAP loan (§ 203.640(b)(7)), where the inability to execute the necessary documents is caused by circumstances beyond the mortgagor's control. For mortgages insured pursuant to section 247 of the National Housing Act, see §§ 203.350(c) and 203.665. For mortgages insured pursuant to section 248 of the National Housing Act, see §§ 203.350(b) and 203.664. For mortgages insured pursuant to section 203(q) of the National Housing Act, see §§ 203.350 (d) and 203.666.

* * * * *

14. Part 203 is amended by revising § 203.654 to read as follows:

§ 203.654 Final decision.

The Secretary will promptly advise the mortgagor and the mortgagee of the final decision in writing. If the Secretary determines to approve TMAP, or to accept an assignment of the mortgage and provide forbearance in accordance with § 203.645, or to provide forbearance in accordance with § 203.664, § 203.665 or § 203.666, the mortgagor will be asked to meet with the Secretary's representative to discuss the amount and term of the payments that the mortgagor will be required to make under the TMAP or forbearance agreement to be executed. If the Secretary determines not to approve TMAP, and neither to accept an assignment of the mortgage under § 203.645 nor to provide forbearance in accordance with § 203.664, § 203.665 or § 203.666, the Secretary will advise the mortgagor of the findings and the specific criteria not met by the mortgagor.

15. Part 203 is amended by adding a new undesignated center heading and a new § 203.666 to read as follows:

Assignment and Forbearance—Property in Allegany Reservation of Seneca Indians

§ 203.666 Processing defaulted mortgages on property in Allegany Reservation of Seneca Nation of Indians.

(a) *Applicability.* This section applies to mortgages authorized by section 203(q) of the National Housing Act (§ 203.43j) only if the default occurred before the mortgagor and the lessee either with a term of not less than five years beyond the maturity date of the mortgage, or with a term established by an arbitration award.

(b) *Assignment (mandatory acceptance).* Before a mortgagee requests the Secretary to accept an assignment of a mortgage under the first sentence of § 203.350(d) where the mortgagor is in monetary default, the mortgagee must submit documents showing that the requirements of § 203.604 have been met and must provide all information in its possession concerning the mortgagor's eligibility for relief as set forth in § 203.664(b)(1)(i) through (v) and (b)(2) through (b)(4). Temporary mortgage assistance payments (TMAP) shall not be available.

(c) *Assignment (discretionary acceptance).* Before a mortgagee requests the Secretary to exercise his or her discretion to accept an assignment of a mortgage under the second sentence of § 203.350(d) where the mortgagor is in non-monetary default, the mortgagee must provide all information in its possession concerning the mortgagor's eligibility for relief as set forth in § 203.664(b)(1)(iii) through (v) and (b)(2) through (b)(4). TMAP shall not be available.

(d) *Forbearance.* The Secretary may make forbearance relief on any terms and conditions which he or she in his or her discretion deems appropriate, *provided:* that if assignment is requested for a monetary default, the Secretary will, at a minimum, provide forbearance relief in accordance with §§ 203.646 through 203.649.

PART 204—COINSURANCE

16. The authority citation for Part 204 continues to read as follows:

Authority: Secs. 244 and 211, National Housing Act (12 U.S.C. 1715z-9 and 1715b); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

§ 204.1 [Amended]

17. Section 204.1 is amended by adding, to the list of excepted provisions, immediately after "203.43i Eligibility of mortgages on Hawaiian home lands insured pursuant to section 247 of the National Housing Act.", the following:

203.43j Eligibility of mortgages on Allegany Reservation of Seneca Nation of Indians.

* * * * *

PART 213—COOPERATIVE HOUSING MORTGAGE INSURANCE

18. The authority citation for Part 213 is revised to read as follows:

Authority: Secs. 211, 213, National Housing Act (12 U.S.C. 1715b, 1715e); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

§ 213.751 [Amended]

19. Section 213.751(b) is amended by adding, immediately after "203.439 Mortgages insured on Hawaiian home lands pursuant to section 247 of the National Housing Act.", the following:

203.439a Mortgages on property in Allegany Reservation of Seneca Nation of Indians authorized by section 203(q) of the National Housing Act.

* * * * *

20. Section 213.800 is revised to read as follows:

§ 213.800 Cross reference.

All of the provisions of Subpart C, Part 203 of this chapter covering mortgages insured under section 203 of the National Housing Act shall apply to mortgages insured under section 213 of the National Housing Act, except §§ 203.665 and 203.666.

PART 220—URBAN RENEWAL MORTGAGE INSURANCE AND INSURED IMPROVEMENT LOANS

21. The authority citation for Part 220 continues to read as follows:

Authority: Secs. 207, 211, 220, National Housing Act (12 U.S.C. 1713, 1715b, 1715k); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

§ 220.1 [Amended]

22. Section 220.1(a) is amended by adding to the list of excepted provisions, immediately after "203.43i Eligibility of mortgages on Hawaiian home lands insured pursuant to section 247 of the National Housing Act.", the following:

203.43j Eligibility of mortgages on Allegany Reservation of Seneca Nation of Indians.

* * * * *

§ 220.251 [Amended]

23. Section 220.251(a) is amended by adding at the end of the list of excepted provisions, the following:

203.439a Mortgages on property in Allegany Reservation of Seneca Nation of Indians authorized by section 203(q) of the National Housing Act.

24. Section 220.900 is revised to read as follows:

§ 220.900 Cross-reference.

All of the provisions of Subpart C, Part 203 of the chapter concerning the responsibilities of servicers of mortgages insured under section 203 of the National Housing Act apply to mortgages covering 1- to 11-family dwellings insured under section 220 of the National Housing Act, except §§ 203.664 through 203.666.

PART 221—LOW COST AND MODERATE INCOME MORTGAGE INSURANCE

25. The authority citation for Part 221 continues to read as follows:

Authority: Secs. 211, 221, National Housing Act (12 U.S.C. 1715b, 1715l); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

§ 221.1 [Amended]

26. Section 221.1(a) is amended by adding, to the list of excepted provisions, immediately after "§ 203.43i Eligibility of mortgages on Hawaiian home lands insured pursuant to section 247 of the National Housing Act.", the following:

203.43j Eligibility of mortgages on Allegany Reservation of Seneca Nation of Indians.

* * * * *

§ 221.251 [Amended]

27. Section 221.251(a) is amended by adding, to the end of the list of excepted provisions, the following:

203.439a Mortgages on property in Allegany Reservation of Seneca Nation of Indians authorized by section 203(q) of the National Housing Act.

28. Section 221.800 is revised to read as follows:

§ 221.800 Cross-reference.

All of the provisions of Subpart C, Part 203 of the chapter concerning the responsibilities of servicers of mortgages insured under section 203 of the National Housing Act apply to mortgages covering one- to four-family dwellings to be insured under section 221 of the National Housing Act, except §§ 203.664 through 203.666.

PART 222—SERVICEMEN'S MORTGAGE INSURANCE

29. The authority citation for Part 222 continues to read as follows:

Authority: Secs. 211, 222, National Housing Act (12 U.S.C. 1715b, 1715m); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

§ 222.1 [Amended]

30. Section 222.1(a) is amended by adding to the list of exempted provisions, immediately after "203.43i Eligibility of mortgages on Hawaiian home lands insured pursuant to section 247 of the National Housing Act.", the following:

203.43j Eligibility of mortgages on Allegany Reservation of Seneca Nation of Indians.

* * * * *

§ 222.251 [Amended]

31. Section 222.251(a) is amended by adding to the list of excepted provisions, immediately after "203.439 Mortgages on Hawaiian home lands insured pursuant to section 247 of the National Housing Act.", the following:

203.439a Mortgages on property in Allegany Reservation of Seneca Nation of Indians authorized by section 203(q) of the National Housing Act.

* * * * *

32. Section 222.400 is revised to read as follows:

§ 222.400 Cross-reference.

All of the provisions of Subpart C, Part 203 of this chapter concerning the responsibilities of servicers of mortgages insured under section 203 of the National Housing Act apply to mortgages insured under section 222 of the National Housing Act, except §§ 203.664 through 203.666.

PART 226—ARMED SERVICES HOUSING—CIVILIAN EMPLOYEES [SEC. 809]

33. The authority citation for Part 226 continues to read as follows:

Authority: Secs. 211, 807, and 809, National Housing Act (12 U.S.C. 1715b, 1748f, 1748h-1); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

§ 226.1 [Amended]

34. Section 226.1(a) is amended by adding, to the list of excepted provisions, immediately after "203.43i Eligibility of mortgages on Hawaiian home lands insured pursuant to section 247 of the National Housing Act.", the following:

203.43j Eligibility of mortgages on Allegany Reservation of Seneca Nation of Indians.

* * * * *

§ 226.251 [Amended]

35. Section 226.251(a) is amended by adding, immediately after "203.439 Mortgages on Hawaiian home lands insured pursuant to section 247 of the National Housing Act.", the following:

203.439a Mortgages on property in Allegany Reservation of Seneca Nation of Indians authorized by section 203(q) of the National Housing Act.

* * * * *

36. Section 226.300 is revised to read as follows:

§ 226.300 Cross-reference.

All of the provisions of Subpart C, Part 203 of this chapter concerning the responsibilities of servicers of mortgages insured under section 203 of the National Housing Act apply to mortgages insured under section 809 of the National Housing Act, except §§ 203.664 through 203.666.

PART 227—ARMED SERVICES HOUSING—IMPACTED AREAS [SEC. 810]

37. The authority citation for Part 227 continues to read as follows:

Authority: Secs. 211, 807, 810, National Housing Act (12 U.S.C. 1715b, 1748f, 1748h-z); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

§ 227.501 [Amended]

38. Section 227.501(b) is amended by adding, in the list of excepted provisions, immediately after "203.43i Eligibility of mortgages on Hawaiian home lands insured pursuant to section 247 of the National Housing Act.", the following:

203.43j Eligibility of mortgages on Allegany Reservation of Seneca Nation of Indians.

* * * * *

§ 227.751 [Amended]

39. Section 227.751(a) amended by adding, immediately after "203.439 Mortgages on Hawaiian home lands insured pursuant to section 247 of the National Housing Act.", the following:

203.439a Mortgages on property in Allegany Reservation of Seneca Nation of Indians authorized by section 203(q) of the National Housing Act.

40. Section 227.800 is revised to read as follows:

§ 227.800 Cross-reference.

All of the provisions of Subpart C, Part 203 of this chapter covering mortgages insured under section 203 of the National Housing Act shall apply to individual mortgages insured under section 810 of the National Housing Act, except §§ 203.664 through 203.666.

PART 235—MORTGAGE INSURANCE AND ASSISTANCE PAYMENTS FOR HOME OWNERSHIP AND PROJECT REHABILITATION

41. The authority citation for Part 235 continues to read as follows:

Authority: Secs. 211, 235, National Housing Act (12 U.S.C. 1715b, 1715z); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

§ 235.1 [Amended]

42. Section 235.1(a) is amended by adding to the list of excepted provisions, immediately after "203.43i Eligibility of mortgages on Hawaiian home lands insured pursuant to section 247 of the National Housing Act.", the following:

203.43j Eligibility of mortgages on Allegany Reservation of Seneca Nation of Indians.

* * * * *

§ 235.201 [Amended]

43. Section 235.201(a) is amended by adding to the list of excepted provisions, immediately after "203.439 Mortgages on Hawaiian home lands insured pursuant to section 247 of the National Housing Act.", the following:

203.439a Mortgages on property in Allegany Reservation of Seneca Nation of Indians authorized by section 203(q) of the National Housing Act.

* * * * *

PART 237—SPECIAL MORTGAGE INSURANCE FOR LOW AND MODERATE INCOME FAMILIES

44. The authority citation for Part 237 continues to read as follows:

Authority: Secs. 203, 211, 237, National Housing Act (12 U.S.C. 1709, 1715b, 1715z-2); sec. (d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

45. Section 237.5 is revised to read as follows:

§ 237.5 Cross-reference.

To be eligible for insurance under this subpart, a mortgage must meet all of the eligibility requirements for insurance under Part 203, Subpart A of this chapter; or under Part 220, Subpart A of this chapter; or under Part 221, Subpart A of this chapter; or under Part 234, Subpart A of this chapter, except that in addition to meeting such eligibility requirements, the mortgage must comply with the special requirements of this subpart. Mortgages and loans processed under the Direct Endorsement program set forth in § 200.163, mortgages insured on Hawaiian home lands or Indian land pursuant to section 247 or 248 of the National Housing Act or mortgages insured under section 203(b) of the Act as modified by section 203(q), are not eligible under this subpart.

PART 240—MORTGAGE INSURANCE ON LOANS FOR FEE TITLE PURCHASE

46. The authority citation for Part 240 continues to read as follows:

Authority: Secs. 211 and 240, National Housing Act (12 U.S.C. 1715b, 1715z-5); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

§ 240.1 [Amended]

47. Section 240.1 is amended by adding to the list of excepted provisions, immediately after "203.43i Eligibility of mortgages on Hawaiian home lands insured pursuant to section 247 of the National Housing Act.", the following:

203.43j Eligibility of mortgages on Allegany Reservation of Seneca Nation of Indians.

* * * * *

48. Section 240.400 is revised to read as follows:

§ 240.400 Cross-reference.

All of the provisions of Subpart C, Part 203 of this chapter covering mortgages insured under section 203 of the National Housing Act apply to loans for the purchase of the fee simple title of property which are insured under section 240 of the National Housing Act, except §§ 203.664 through 203.666.

Dated: November 17, 1987.

James E. Schoenberger,

General Deputy Assistant Secretary for Housing—Federal Housing Commissioner.

[FR Doc. 87-29092, Filed 12-18-87; 8:45 am]

BILLING CODE 4210-27-M

---

24 CFR Part 888

[Docket No. N-87-1712; FR-2377]

Section 8 Housing Assistance Payments Program; Fair Market Rent Schedules for Use in the Existing Housing Certificate Program, Loan Management and Property Disposition Programs, Moderate Rehabilitation Program and Housing Voucher Program

AGENCY: Office of the Assistant Secretary for Housing-Federal Housing Commissioner, HUD.

ACTION: Notice of fair market rents.

SUMMARY: Section 8(c)(1) of the United States Housing Act of 1937 requires the Secretary to publish Fair Market Rents periodically, but not less frequently than annually. The Department published proposed Fair Market Rents for the Section 8 Existing Housing Program on August 28, 1987 (52 FR 32672) and solicited public comment. Today's document is the first of two announcements of effective FY-1988 Fair Market Rent schedules for the Section 8 Existing Housing Certificate Program (Part 882, Subparts A and B) including space rentals by owners of manufactured homes under the Section 8 Existing Housing Certificate Program (Part 882, Subpart F); the Section 8 Moderate Rehabilitation Program (Part 882, Subparts D and E); and Section 8 existing housing assisted under Part 886, Subparts A and C (Section 8 loan management and property disposition programs). In addition, FMRs are used to determine payment standard schedules in the Housing Voucher Program.

EFFECTIVE DATE: These Fair Market Rents are effective on December 21, 1987.

FOR FURTHER INFORMATION CONTACT: Cecelia D. Livingston, Housing Voucher Division, Office of Elderly and Assisted Housing, telephone (202) 755-6477. For technical information on the development of schedules for specific areas or the method used for the rent calculations, contact Michael R. Allard, Economic and Market Analysis Division, Office of Economic Affairs, telephone (202) 755-5577. (These are not toll-free numbers.)

SUPPLEMENTARY INFORMATION:

Background

Section 8 of the United States Housing Act of 1937 (the Act) (42 U.S.C. 1437f) authorizes a housing assistance program to aid lower income families in renting decent, safe, and sanitary housing. Assistance payments are limited by Fair Market Rents (FMRs) (or payment standards based on FMRs in the Housing Voucher Program) established by HUD for different areas.

In general, the FMR for an area is the amount that would be needed to rent privately owned, decent, safe, and sanitary rental housing of a modest (nonluxury) nature with suitable amenities.

Proposed Fair Market Rents

The Department proposed fiscal year 1988 FMRs for Section 8 existing housing on August 28, 1987 (52 FR 32672). These FMRs reflect estimated rent levels as of April 1, 1988. The criteria and methodology used by HUD in developing the proposed FMRs appear at 24 CFR Part 888, Subpart A and have been in use since 1983.

The elements used by HUD in developing FMRs are: (1) The 45th percentile rent (that is, the rent below which 45 percent of the standard quality rental housing units are distributed); (2) rents based on units occupied by recent movers (households who moved within two years before the date of the survey data used in these calculations); and (3) exclusion from the data base of public housing units and recently competed housing (units built within two years of the survey dates). (See 24 CFR 888.113). The FMRs for manufactured from spaces are based on the 45th percentile rent for manufactured home spaces. (See 24 CFR 888.113(a)).

In establishing the proposed FMRs, HUD used the most accurate data available. Data used to compute the FY-1988 FMRs include the 1980 Census data, post-1980 American Housing Survey (AHS) data and reliable area

specific data submitted by public commenters in the development of the FY–1986 and FY–1987 FMRs.

This year's proposed FMRs were calculated by updating last year's final FMRs one additional year to April 1, 1988, based on the most recent CPI data available on average annual changes for rents and utilities. The FMRs have been calculated for each Primary Metropolitan Statistical Area (PMSA), Metropolitan Statistical Area (MSA), and nonmetropolitan county.

In the August 28, 1987 notice, the Department proposed EMRs with modest increases for most market areas. No increases were proposed for the following areas: Brazoria, TX PMSA; Galveston-Texas City, TX PMSA; Houston, TX PMSA; Owensboro, KY MSA, the State of Alaska, Puerto Rico and the Virgin Islands.

The year's proposed FMRs for manufactured homes spaces were calculated by updating last year's FMRs to April 1, 1988, using the most current average annual change in the CPI residential rent index (with heating costs included in the rent factored out). The FMRs for 15 nonmetroplitan counties were held at last year's levels as a result of previous definitional changes of metropolitan areas.

FMR Schedules in this Notice

In accordance with the procedures announced in the proposed notice, today's notice announces effective FMRs for all FMR areas. The proposed notice provided that the FMRs announced in today's notice would be set either at the level proposed in the August 28, 1987 notice, or at the existing fiscal year 1987 level (see 52 FR 15630 published April 29, 1987, or 52 FR 24381 published June 30, 1987). The proposed notice provided that if HUD proposed an increase to the FMR level, the FMRs would be set at the proposed level unless a comment was received that supported a lower FMR and the comment was accompanied by adequate supporting data.[1] In such a case, the existing FMR would be republished.

This procedure differs from the procedure used in fiscal year 1987. Last year, HUD published a notice of proposed FMRs followed by two announcements of final FMRs. Unlike this year's procedure, the first announcement made a proposed FMR final only if no commenter opposed the proposed FMR, or if all comments supported the proposed FMR. If any comment was submitted in opposition to a proposed FMR, HUD held the FMR at the existing level until the comment and supporting data were analyzed and the second notice was published. As discussed in the August 28, 1987 notice, HUD believes that this procedure may have "chilled" the submission of comments from parties supporting increases to FMR levels in excess of the FMRs proposed by HUD. (*I.e.*, Some potential commenters may have believed that their comment would only delay the effectiveness of HUD's *proposed* increase—without any assurance that a *greater* increase would be made.) The procedure used in today's notice eliminates this chilling effect.

The Department received 80 comments involving 82 FMR areas. All of these comments supported FMRs equal to or higher than the proposed FMRs published on August 28, 1987. All FMRs published for effect in today's notice, therefore, are at the level proposed in the August 28, 1987 publication. The FMRs are listed in two parts—Schedule B (Fair Market Rents for Existing Housing) and Schedule D (Fair Market Rents for Manufactured Home Spaces in the Section 8 Existing Housing Certificate Program).

The FMRs announced today may be revised for the 82 FMRs covered by public comments. The FMR areas that are subject to change are identified by an asterisk placed before the name of the FMR area in Schedules B and D. Following the publication of this notice, HUD will review all public comments, including those comments that did not include adequate supporting data. Based on the information contained in the comments, as supplemented by information collected from the field offices, HUD will publish a second announcement making any necessary revisions to the FMR schedules and including an analysis and to the comments.

Other Matters

A Finding of No Significant Impact with respect to the environment as required by the National Environmental Policy Act (42 U.S.C. 4321–4374) is unnecessary, since the Section 8 Existing Housing program is categorically excluded from the Department's National Environmental Policy Act procedures under 24 CFR 50.20(d).

Under 5 U.S.C. 605(b) (the Regulatory Flexibility Act), the Undersigned hereby certifies that this Notice does not have a significant economic impact on a substantial number of small entities because FMRs reflect the rents for similar quality units in the area. Therefore, FMRs do not change the rent from that which would be charged if the project were not in the Section 8 program.

This document does not constitute a "major rule" as that term is defined in section 1(b) of Executive Order 12291 on Federal Regulation issued on February 17, 1981. Analysis of the ducument indicates that it does not (1) have an annual effect on the economy of $100 million or more; (2) cause a major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; or (3) have a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Catalog of Federal Domestic Assistance program number is 14.156, Lower-Income Housing Assistance Program (Section 8).

Accordingly, the Fair Market Rent Schedules are proposed to be amended as follows:

Date: December 12, 1987.

Thomas T. Demery,

Assistant Secretary for Housing-Federal Housing Commissioner.

Section 8 Fair Market Rent Schedules for Use in The Existing Housing Certificate Program, Loan Management and Property Disposition Programs, Moderate Rehabilitation Program and Housing Voucher Program Schedules B & D—General Explanatory Notes

1. Geographic Coverage

a. FMRs for Existing Housing (Schedule B) are established for all Metropolitan Statistical Areas (MSAs), Primary Metropolitan Statistical Areas (PMSAs), nonmetropolitan counties, and county equivalents in the United States, District of Columbia, Puerto Rico, the Virgin Islands, and Guam. FMRs also are established for nonmetropolitan parts of counties in the New England States.

b. FMRs for Manufactured Home spaces in the Section 8 Certificate Program (Schedule D) are established for all MSAs, PMSAs, selected nonmetropolitan counties, and the residual nonmetropolitan portion of each State.

c. The current 338 MSAs and PMSAs are those established by the Office of Management and Budget effective October 10, 1986.

2. Arrangement of FMR Areas and Identification of Constituent Parts

a. The FMR areas in Schedules B and D are listed alphabetically by MSA–PMSA and nonmetropolitan county within each State.

b. The constituent counties (and New England towns and cities) included in each MSA and PMSA are listed immediately following the MSA–PMSA names in each State listed in Schedule B. All of the constituent parts of an MSA that are in more than one State can be identified by consulting the listings for each applicable State.

c. Two nonmetropolitan counties are listed alphabetically on each line of the nonmetropolitan county listings.

d. The New England towns and cities included in a nonmetropolitan part of a county are listed immediately following the county name.

e. The FMRs are listed by dollar amount on the first line beginning with the FMR area name.

BILLING CODE 4210-27-M

[1] The August 28, 1987 publication stated that commenters would be required to submit sufficient information (including a full description of the local data and the methodology that was used) to justify any proposed changes. We stated that such information may include local housing market studies, rental market surveys or other comprehensive rental market data showing the 45th percentile rent levels for standard quality rental housing units. This data must reflect the rent levels that exist within the entire market area (Metropolitan Statistical Area, Primary Metropolitan Statistical Area, or nonmetropolitan county); must exclude units built within the last two years of the survey; should not be drawn solely from vacant units; and should approximate the same proportion of units by structure type and date of construction that exists in the local inventory. For areas where gross rents have increased significantly as a result of taxes or the costs of fuel and utilities applicable to a major portion of the FMR areas, HUD required commenters to submit data relating to these increased costs to justify revision of the FMRs. This data must be adequately described in order to facilitate evaluation and comparison with the tax, fuel and utility costs data used in the Department's FMR calculations, and must be representative of the rental inventory. (For a complete discussion of adequate supporting data, see 52 FR at 32673).

Equal Employment Opportunity in the Federal Government; Complaints of Discrimination; Correction

AGENCY: Equal Employment Opportunity Commission.

ACTION: Final rule; correction.

SUMMARY: EEOC is correcting an error in Appendix A to 29 CFR Part 1613 which appeared in the Federal Register on October 30, 1987. (52 FR 41919).

FOR FURTHER INFORMATION CONTACT: Kathleen Oram, Office of Legal Counsel, (202) 634-6590.

SUPPLEMENTARY INFORMATION: The EEOC published a final rule adopting comprehensive changes in the investigation of discrimination complaints in the federal sector and in the appellate and enforcement procedures used by the Commission on October 30, 1987 (52 FR 41919). Appendix A to Part 1613 contained an error, which is discussed briefly below and corrected by this notice.

Clarence Thomas,

Chairman.

PART 1613—[CORRECTED]

The following correction is made in 29 CFR Part 1613, Equal Employment Opportunity in the Federal Government: Complaints of Discrimination published in the Federal Register on October 30, 1987 (52 FR 41919). On p. 41933, second column, line 42, change "(between 40 and 70)" to "(over 40)."

BILLING CODE 6570-06-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 117

[CGD5-87-007]

Drawbridge Operation Regulations; Atlantic Intracoastal Waterway, Wrightsville Beach, NC

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: At the request of the Town of Wrightsville Beach, North Carolina, the Coast Guard is changing the regulations governing the operation of the drawbridge across the AICWW, mile 283.1, at Wrightsville Beach, North Carolina. This change is being made to alleviate the tariff congestion and delays to people living and working in Wrightsville Beach that have resulted from a steady increase in vehicular traffic and bridge openings for the past three years. This action will accommodate the needs of vehicular traffic, while still providing for the reasonable needs of navigation.

EFFECTIVE DATE: These regulations become effective on January 20, 1988.

FOR FURTHER INFORMATION CONTACT: Ann B. Deaton, Bridge Administrator, telephone (804) 398-6222.

SUPPLEMENTARY INFORMATION: On April 10, 1987, the Coast Guard published proposed rules (52 FR 11695) concerning this amendment. The Commander, Fifth Coast Guard District, also published the proposal as a Public Notice dated April 10, 1987. In each notice, interested persons were given until May 27, 1987, to submit comments.

Drafting Information: The drafters of these regulations are Ann B. Deaton, Project Officer, and CDR Robert J. Reining, Project Attorney, Fifth Coast Guard District Legal Staff.

Discussion of Comments

In late 1986, the Town of Wrightsville Beach, North Carolina, requested a change in the drawbridge regulations governing operation of the bridge across the AICWW, mile 283.1, at Wrightsville Beach, North Carolina, to extend the hourly opening schedule now in effect from May through October to year-round. A proposed rule was published in the Federal Register (52 FR 11695) on April 10, 1987. As a result of the proposed rule, 30 letters were received. 27 of these favored the proposed change in regulations. One of the favorable responses was a petition signed by 40 individuals. One response supported a year-round hourly opening schedule, but requested that the hours of restriction begin at 6 a.m. or 6:30 a.m. instead of 7 a.m. Two of the responses were from boaters who opposed the hourly openings on a year-round basis because of the lack of docking facilities and anchoring space for vessels awaiting the next scheduled hourly opening.

Since the suggestion that the hourly opening schedule begin at 6 a.m. rather than 7 a.m. was the only one of its kind, and the 7 a.m. to 7 p.m. schedule is acceptable to all of the others who support the change, the proposed schedule is considered to be in the public interest. The comments of the two opponents to the proposal have been considered, and it is felt that once boaters know what the schedule is, they may plan their transits accordingly, thus avoiding any lenghty delays at the bridge.

Economic Assessment and Certification

These regulations are considered to be non-major under Executive Order 12291 on Federal Regulation and non-significant under Department of Transportation regulatory policies and procedures (44 FR 11034; February 26, 1979). The economic impact has been found to be so minimal that a full regulatory evaluation is unnecessary. This conclusion is based on the fact that the regulation will have no effect on commercial navigation, or on any industries that depend on waterborne transportation. Since the economic impact of these regulations is expected to be minimal, the Coast Guard certifies that they will not have a significant economic impact on a substantial number of small entities.

List of Subjects in 33 CFR Part 117

Bridges.

Regulations

In consideration of the foregoing, Part 117 of Title 33, Code of Federal Regulations, is amended as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

1. The authority citation for Part 117 continues to read as follows:

Authority: 33 U.S.C. 499; 49 CFR 1.46; 33 CFR 1.05-01(g).

2. Section 117.821(c) is revised to read as follows:

§ 117.821 Atlantic Intracoastal Waterway, Bogue Sound to Wrightsville Beach.

* * * * *

(c) The draw of the SR 74 bridge, mile 283.1, at Wrightsville Beach:

(1) Shall open on signal from 7 p.m. to 7 a.m.

(2) Shall open only on the hour for the passage of pleasure vessels from 7 a.m. to 7 p.m. However, if a pleasure vessel is approaching the drawbridge and cannot reach the draw exactly on the hour, the drawtender may delay the hourly opening up to 10 minutes past the hour for the passage of the approaching pleasure vessel and any other pleasure vessels that are waiting to pass.

(3) Shall open on signal for public vessels of the United States, State or local vessels used for public safety, commercial vessels, and vessels in distress.

Dated: November 19, 1987.

A.D. Breed,

Rear Admiral, U.S. Coast Guard Commander, Fifth Coast Guard District.

BILLING CODE 4910-14-M

33 CFR Part 160

[CGD 87-055]

Notifications of Arrivals, Departures, Hazardous Conditions, and Dangerous Cargoes

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: The Coast Guard is amending the advance notice of arrival and departure regulations by deleting the requirement in 33 CFR 160.209 that ships bound for ports on the Great Lakes notify the Ninth District Commander prior to entering the Snell Locks, Massena, NY. This action is necessary because the Coast Guard presently receives information on ships entering the locks at Massena, NY from the Saint Lawrence Seaway Development Corporation. This action will eliminate duplicate reporting requirements and reduce the cost and burden to the marine industry and the Coast Guard.

EFFECTIVE DATE: December 21, 1987.

ADDRESSES: Persons desiring to comment on the information collection requirements should submit their comments to: Office of Regulatory Policy, Office of Management and Budget (OMB), 726 Jackson Place, NW., Washington, DC 20503, ATTN: Desk Officer, U.S. Coast Guard.

FOR FURTHER INFORMATION CONTACT: Lieutenant Commander Joel R. Whitehead, Project Manager, Office of Marine Safety, Security, and Environmental Protection, phone (202) 267-0494.

SUPPLEMENTARY INFORMATION: The Ports and Waterways Safety Act of 1972, 33 U.S.C. 1221 *et seq.*, as amended by the Port and Tanker Safety Act of 1978, authorizes the Secretary to require vessels destined for a port or place subject to the jurisdiction of the United States to give a prearrival notice to the cognizant Captain of the Port (COTP). This prearrival notice must be given in sufficient time to permit advance vessel traffic planning and must include any information the Secretary determines necessary to control the vessel and protect the port and marine environment. Under the regulations in 33 CFR 160.207, vessels of 1600 gross tons or more must provide the COTP an advance notice 24 hours prior to arrival. The required notice provides the COTP with a list of vessels and cargoes entering and departing ports. This information enables the COTP to effectively monitor and control the movement of vessels and to deny entry to vessels because they have previously been identified as posing a threat to the safety, security or environment of U.S. ports.

This regulation deletes a duplicate reporting requirement. Vessels bound for the Great Lakes are required to notify the Commander, Ninth Coast Guard District twenty-four hours before arrival at the Snell Locks, Massena, New York. Vessels entering the Great Lakes also give the Saint Lawrence Seaway Development Corporation an advance notice prior to arrival at the Snell Locks. In turn, the Saint Lawrence Seaway Development Corporation submits a daily report of vessel arrivals to the District Commander, making a separate notice by the vessel to the District Commander unnecessary. Vessels entering the Great Lakes are still required by § 160.207 to give the cognizant COTP of each destination port at least twenty-four hours advance notice of arrival.

Deleting the regulation would eliminate duplicate recordkeeping requirements on the marine industry. The Coast Guard would also recognize a small but significant savings in both manpower and money because it will no longer be necessary to receive notices of arrival that are already collected by the Saint Lawrence Seaway Development Corporation.

In accordance with 5 U.S.C. 553 a Notice of Proposed Rulemaking was not published for this regulation. In this case, notice and public procedure are unnecessary. The existing rule requires vessels to provide an advance notice of arrival to the Commander of the Ninth Coast Guard District which duplicates the advance notice of arrival given to the Saint Lawrence Seaway Development Corporation. Since the regulation does not serve a useful purpose and promulgation of this rulemaking relieves the public of an unnecessary information reporting requirement, good cause exists for making it effective in less than 30 days from the date of publication.

Regulatory Evaluations

This regulation is considered to be non-major under Executive Order 12291 and nonsignificant under DOT regulatory policies and procedures (44 FR 11034; February 26, 1979). Since this rule reduces the information reporting requirements for the marine industry, the economic impact of this rule is so minimal that further evaluation is unnecessary. Deleting the regulation would eliminate duplicate recordkeeping requirements on the marine industry. The Coast Guard would also recognize a small but significant savings in both manpower and money because it will no longer be necessary to receive notices of arrival already collected by the Saint Lawrence Seaway Development Corporation. Since the impact of this final rule is expected to be minimal, the Coast Guard certifies that this rule will not have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act

This final rule reduces the burden on the public by deleting the information reporting requirements of 33 CFR 160.209 in compliance with the provisions of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*). Persons desiring to comment on the information collection requirements should submit their comments to OMB as indicated under "Addresses".

Environmental Impact—Categorical Exclusion

The Coast Guard has considered the environmental impact of this rulemaking and concluded that preparation of an environmental assessment or environmental impact statement is not necessary. This regulatory project has been thoroughly reviewed by the Coast Guard and has been determined to be categorically excluded from further environmental documentation as provided for in 10 CFR 51.22(c)(3). Therefore, neither an environmental impact statement nor an environmental assessment has been prepared for this final rule.

List of Subjects in 33 CFR Part 160

Notifications of arrivals, Departures, Hazardous conditions, and certain dangerous cargoes.

In consideration of the foregoing the Coast Guard is amending Part 160, Subchapter P of Chapter I, Title 33, Code of Federal Regulations, as follows:

PART 160—[AMENDED]

1. The authority citation for Part 160 is revised to read as follows:

Authority: 33 U.S.C. 1221; 49 CFR 1.46.

§ 160.209 [Removed and Reserved]

2. Section 160.209 is removed and reserved.

Dated: December 11, 1987.

J.W. Kime,

Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Safety Security and Environmental Protection.

BILLING CODE 4910-14-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[FRL 3299-4]

Approval and Promulgation of Implementation Plans; State of Kansas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is approving a request from the Kansas Department of Health and Environment which was submitted on March 29, 1986, pertaining to operating and construction permit fees. EPA reviewed these regulations and found that these rules satisfy the requirements of section 110(a)(2)(K) of the Clean Air Act, as amended. This action removes a deficiency in the Kansas SIP.

DATE: The effective date of this rulemaking is January 20, 1988.

ADDRESSES: Copies of the submittal are available for public inspection at:

Environmental Protection Agency, Region VII, 726 Minnesota Avenue, Kansas City, Kansas 66101;

Public Information Reference Unit, Environmental Protection Agency Library, 401 M Street, SW., Washington, DC 20460;

Bureau of Air Quality and Radiation Control, Kansas Department of Health and Environment, Forbes Field, Topeka, Kansas 66620.

FOR FURTHER INFORMATION CONTACT: Robert J. Chanslor at (913) 236-2893; FTS 757-2893.

SUPPLEMENTARY INFORMATION: On February 25, 1987 (52 FR 5558), EPA published a proposed rulemaking for revised Kansas regulations pertaining to fees for construction and operating permits. These regulations are K.A.R. 28-19-7, *Definitions;* K.A.R. 28-19-8, *Reporting required;* K.A.R. 28-19-9, *Time schedule for compliance;* and K.A.R. 28-19-14, *Permits required.* Also, EPA proposed approval of revisions to K.A.R. 28-19-31, *Emission limitations,* and K.A.R. 28-19-45, *Open burning prohibited.* The revisions and EPA's rationale for approval were discussed in detail in the proposed rulemaking cited above and will not be restated here. No public comments were received on the proposed rulemaking.

Action: EPA approves revisions to K.A.R. 28-19-7, *Definitions;* K.A.R. 28-19-8, *Reporting required;* K.A.R. 28-19-9, *Time schedule for compliance;* K.A.R. 28-19-14, *Permits required;* K.A.R. 28-19-31, *Emission limitations;* and K.A.R. 28-19-45, *Open burning prohibited.*

The Office of Management and Budget has exempted this rulemaking from the requirements of section 3 of Executive Order 12291.

Under section 307(b)(1) of the Clean Air Act, as amended, judicial review of this action is available only by filing a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days of today. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Air pollution control, Ozone, Sulfur oxides, Nitrogen dioxide, Lead, Particulate matter, Intergovernmental relations, Reporting and recordkeeping requirements, and Incorporation by reference.

Note.—Incorporation by reference of the SIP for the state of Kansas was approved by the Director of the Federal Register on July 1, 1982.

Date: September 11, 1987.

Lee M. Thomas,

Administrator.

PART 52—[AMENDED]

40 CFR Part 52 is amended as follows:

Subpart R—Kansas

1. The authority citation for Part 52 continues to read as follows:

Authority: 42 U.S.C. 7401-7642.

2. Section 52.870 is amended by adding paragraph (c)(19) as follows:

§ 52.870 Identification of plan.

* * * * *

(c) * * *

(19) Revised Kansas regulations pertaining to fees for permits to construct and operate were submitted by the Kansas Department of Health and Environment on March 27, 1986.

(i) Incorporation by reference.

(A) Kansas Administrative Regulations (KAR) 28-19-7, 28-19-8, 28-19-9, 28-19-14, 14(a) and 14(b), 28-19-31, 28-19-45, which became effective on May 1, 1986.

(B) Letter of March 27, 1986 to EPA from the State of Kansas Department of Health and Environment.

(C) Letter of September 15, 1987 to EPA from the State of Kansas Department of Health and Environment.

[FR Doc. 87-28099 Filed 12-18-87; 8:45 am]

BILLING CODE 6560-50-M

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

45 CFR Part 1100

Statement for the Guidance of the Public; Organization, Procedures and Availability of Information

AGENCY: National Foundation on the Arts and the Humanities.

ACTION: Final rule.

SUMMARY: The National Foundation on the Arts and the Humanities (NFAH) amends its Freedom of Information Act (FOIA) regulation to incorporate changes effected by the Freedom of Information Reform Act of 1986 and guidelines published by the Office of Management and Budget (OMB) on March 27, 1987, 52 FR 10012. This rule replaces the existing regulation at 45 CFR 1100 which was published in the **Federal Register** on April 17, 1979 in order to include the Institute of Museum Services which was added to the NFAH pursuant to Pub. L. 97-394 (December 30, 1982) and Pub. L. 98-306 (May 31, 1984).

EFFECTIVE DATE: December 21, 1987.

FOR FURTHER INFORMATION CONTACT: Ms. Tracy Joselson, National Endowment for the Humanities, 1100 Pennsylvania Avenue NW., Washington, DC 20506 or call (202) 786-0322.

SUPPLEMENTARY INFORMATION: The National Foundation on the Arts and the Humanities published a proposed rule to implement the Freedom of Information Reform Act on May 18, 1987, and invited comment. The NFAH received two letters of comment. One comment criticized the proposed rule's definition of "commercial use request" at § 1101.1(b) and stated that requests from public interest groups, labor unions, libraries, and the news media should not be treated as commercial use requests. The National Foundation on the Arts and the Humanities will carefully consider the use made of the requested information as is advised by OMB rather than the identity of the requestor. There is no basis in the statute on which to give preference to one group of requestors over another. The NFAH rejects a presumption that particular requestors fall outside of this definition.

One commenter criticized the proposed rule's definition of "educational institution" at section 1101(e), and

suggested including all entities recognized by the Internal Revenue Service as "organized and operated exclusively for * * * educational purposes, 26 U.S.C. 501(c)(3) within the definition. The NFAH believes this interpretation is too general to provide useful guidance for the imposition of fees under the Freedom of Information Act. The definition in the proposed rule adopted OMB's guidance and was adapted from the Department of Education definition in 20 U.S.C. 1681(c) which is sufficiently broad to permit assessment of fees consistent with the statutory scheme. Therefore, no change is made to the definition of "educational institutional."

One comment requested simpler and less restrictive fee waiver regulations as being more consistent with Congressional intent. Another comment urged rejection of the Department of Justice Fee Wavier Policy Guidance issued on April 12, 1987, suggesting it to be inconsistent with Congressional intent. After carefully considering these comments the final regulation adopts the fee waiver guidance issued by the Department of Justice. The NFAH will carefully review requests under the FOIA to ensure compliance with the statute. The Justice Department represents the Foundation and its member agencies in litigation arising under the FOIA and the NFAH will therefore abide by these standards. The NFAH notes too, that many of these above comments have also been addressed by the Office of Management and Budget.

This rule is not a major rule under Executive Order 12291. As required by the Regulatory Flexibility Act, it is hereby certified that this proposed rule will not have a significant impact on small business entities. This rule does not contain information collection requirements that require approval by the Office of Management and Budget pursuant to 44 U.S.C. 3551. *et.seq.*

List of Subjects in 45 CFR Part 1100

Administrative practice and procedures, Freedom of Information Act.

For the reasons set out in the preamble, 45 CFR Part 1100 is revised to read as follows:

PART 1100—STATEMENT FOR THE GUIDANCE OF THE PUBLIC—ORGANIZATION, PROCEDURE AND AVAILABILITY OF INFORMATION

Sec.
1100.1 Definitions.
1100.2 Organization.
1100.3 Availability of information to the public.
1100.4 Current index.
1100.5 Agency procedures for handling request for documents.
1100.6 Fees.
1100.7 Foundation report of actions.

Authority: 5 U.S.C. 552, as amended by Pub. L. 99–570, 100 Stat. 3207.

§ 1100.1 Definitions.

(a) "Agency" means the National Endowment for the Arts, the National Endowment for the Humanities, the Institute of Museum Services, or the Federal Council on the Arts and the Humanities.

(b) "Commercial use request" means a request by or on behalf of anyone who seeks information for a use or purpose that furthers the commercial trade or profit interests of the requestor (or the person on whose behalf the request is made.) The agency must determined the use to which a requestor will put the document. Where the agency has reasonable cause to doubt the use to which a requestor will put the records sought or the use is not clear from the request, the agency may seek additional clarification. The requestor fears the burden of demonstrating the use or purpose of the information requested.

(c) "Direct costs" mens those expenditures which an agency actually incurs in searching for and duplication documents to respond to a Freedom of Information Act (FOIA) request. In the case of commercial use requests, the term shall also include expenditures for reviewing documents.

(d) "Duplication" means the process of making a copy of a document necessary to respond to a FOIA request. Such copies may be in the form of paper, microfilm, machine readable documents, or other materials.

(e) "Educational institution" means a preschool, elementary, or secondary school, an institution of graduate or undergraduate higher education, an institution of profesional education, or an institution of vocational education, which operates a program or programs of scholarly research.

(f) "Non-commercial scientific institution" means an institution that is not operated on a "commercial use" basis as defined in paragraph (b) of this section and which is operated solely for the purposes of conducting scientific research the results of which are not intended to promote any particular product or industry.

(g) "Representative of the news media" means any person actively gathering news for an entity that is organized and operated to publish or broadcast information that is about current events or that would be of current interest to the public. Freelance journalists may be regarded as working for a news organization if they can demonstrate a sound basis for expecting publication though that organization, even though not actually employed by it.

(h) "Review" means the process of examining a document located in response to a commercial use request to determine whether any portion is permitted to be withheld. Review includes processing documents for disclosure, including all that is necessary to excise them and otherwise prepare them for release. Review does not include time spent resolving general legal or policy issues regarding the application of exemptions.

(i) "Search" means all the time that is spent looking for material that responds to a request, including page-by-page or line-by-line identification of material in documents. Searches may be done manually or by computer using exisiting programs.

§ 1100.2 Organization.

The National Foundation on the Arts and the Humanities was established by the National Foundation on the Arts and the Humanities Act of 1965, 20 U.S.C. 951 *et seq.* The Foundation is composed of the National Endowment for the Arts, the National Endowment for the Humanities, the Institute of Museum Services, and the Federal Council on the Arts and the Humanities. The Institute of Museum Services became a part of the National Foundation on the Arts and the Humanities pursuant to Pub. L. 97–394 (December 30, 1982) and Pub. L. 98–306 (May 31, 1984). Each Endowment is headed by a Chairman and has an advisory national council composed of 26 presidential appointees. The Institute of Museum Services is headed by a Director and has a National Museum Services Board composed of 15 presidential appointees. The Federal Council on the Arts and the Humanities, comprised of Executive branch officials and appointees of the legislative branch, is authorized to make agreements to indemnify against loss or damage for certain exhibitions and advise on arts and humanities matters.

§ 1100.3 Availability of information to the public.

(a) All inquiries, or requests should be addressed to the appropriate agency. Descriptive brochures of the organization, programs, and function of each agency are available upon request. Inquiries involving work of the National Endowment for the Arts should be addressed to the National Endowment for the Arts, 1100 Pennsylvania Avenue, NW., Washington, DC 20506. The telephone number of the National Endowment for the Arts is (202) 682–5400. Requests or inquiries involving the National Endowment for the Humanities should be addressed to the National Endowment for the Humanities, 1100 Pennsylvania Avenue, NW., Washington, DC 20506. The telephone number of the National Endowment for the Humanities is (202) 786–0310. Requests or inquiries involving the Institute of Museum Services should be addressed to the Institute of Museum Services, 1100 Pennsylvania Avenue, NW., Washington, DC 20506. The telephone number of the Institute of Museum Services is (202) 786–0536.

(b) The head of each agency is responsible for the effective administration of the Freedom of Information Act. The head of each agency pursuant to this responsibility hereby directs that every effort be expended to facilitate service to the public with respect to the obtaining of information and records.

(c) Requests for access to records of the National Endowment for the Arts, the National Endowment for the Humanities, or the Institute of Museum Services may be filed by mail with the General Counsel of the National Endowment for the Arts, the Deputy Chairman of the National Endowment for the Humanities, or the Public Affairs Officer of the Institute of Museum Services, as is appropriate. Requests for access to records of the Federal Council on the Arts and the Humanities should be directed to the attention of the National Endowment for the Humanities. All requests should reasonably describe the record or records sought. Requests submitted should be clearly identified as being made pursuant to the Freedom of Information Act.

§ 1100.4 Current index.

Each agency shall maintain and make available for public inspection and copying a current index providing identifying information for the public as to any matter which is issued, adopted, or promulgated and which is required to be made available pursuant to 5 U.S.C. 552(a) (1) and (2). Publication and distribution of such indices has been determined by the Foundation to be unnecessary and impracticable. The indices will be provided upon request at a cost not to exceed the direct cost of the duplication.

§ 1100.5 Agency procedures for handling requests for documents.

(a) Upon receiving a request for documents in accordance with the rules of this part, the General Counsel of the National Endowment for the Arts, Deputy Chairman of the National Endowment for the Humanities, or the Public Affairs Officer of the Institute of Museum Services, as is appropriate, shall determine whether or not the request shall be granted in whole or in part.

(1) The determination shall be made within ten (10) days (excepting Saturdays, Sundays, and legal holidays) after receipt of such request.

(2) The requestor shall be notified of the determination and the reasons that support it. When a request is denied in whole or in part, the requestor, will be notified of his or her rights to appeal the determination to the head of the agency.

(b) (1) Any party whose request for documents has been denied in whole or in part may file an appeal no later than ten (10) working days following receipt of the notification of denial. Appeals must be addressed to the Chairman, National Endowment for the Arts, Washington, DC 20506, the Chairman, National Endowment for the Humanities, Washington, DC 20506, or the Director Institute of Museum Services, Washington, DC 20506, as is appropriate.

(2) The head of the agency or his delegatee shall make a determination with respect to the appeal within twenty (20) days (excepting Saturdays, Sundays, and legal holidays) after the agency has received the appeal, except as provided in paragraph (c) of this section. If, on appeal, the denial is upheld either in whole or in part, the head of the agency shall notify the party submitting the appeal of the judicial review provisions of 5 U.S.C. 552(a)(4)(B).

(c) In unusual circumstances, the time limits prescribed to determine a request for documents with respect to initial actions or actions on appeal may be extended by written notice from the General Counsel of the National Endowment for the Arts, the Deputy Chairman of the National Endowment for the Humanities, or the Public Affairs Officer of the Institute of Museum Services as is appropriate. The notice shall describe the reason for the extension and the date on which the determination is expected to be made. No notice shall specify a date that would result in an extension of more than ten (10) days (excepting Saturdays, Sundays, and legal holidays). As is used in this paragraph, "unusual circumstances" means:

(1) The need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request;

(2) The need to search for, collect, and appropriately examine a volumious amount of separate and distinct records which are demanded in a single request; or

(3) The need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the agency having a substantial subject-matter interest in the request.

§ 1100.6 Fees.

(a) *Categories of Fees.* Fees will be charged according to the Category of the FOIA request.

(1) *Commercial use requests.* The agency will assess charges to recover the full direct cost of searching for, reviewing, and duplicating the requested document. The agency may recover the cost of searching for and reviewing records even if there is ultimately no disclosure.

(2) *Requests from educational and non-commercial scientific institutions.* The agency will charge for duplication costs. To qualify for this category the requestor must show: (1) That requested records are being sought under the auspices of a qualified institution as defined in § 1100.1 (e) or (f) of this part; (2) the records are not sought for commercial use; and (3) the records are being sought in furtherance of scholarly or scientific research of the institution.

(3) *Requests by representatives of the news media.* The agency will charge duplication costs for the requests in this category.

(4) *All other requests.* All other requests shall be charged fees which, recover the full reasonable cost for searching for and duplicating the requested records.

(b) *General fee schedule.* The agency shall use the most efficient and least costly method to comply with requests for documents made under the FOIA. The agency will charge fees to recover all allowable direct costs incurred. The agency may charge fees for searching for and reviewing requested documents even if the documents are determined to be exempt from disclosure or cannot be located. If search charges are likely to exceed $25, the agency shall notify the requestor, unless the requestor has indicated in advance the willingness to

VOL 52 ISS 244 DEC 21 1987 UMI

VOL 52 ISS 244 DEC 21 1987 UMI

pay higher fees. The following fees shall be charged in accordance with paragraph (a) of this section.

(1) *Searches*—(i) *Manual:* The fee charged will be the salary rate(s) (i.e., basic pay plus 16.1 percent) of the employee(s) conducting the search.

(ii) *Computer:* The fee charged will be the actual direct cost of providing the service including the cost of operating the central processing unit for the operating time that is directly attributed to searching for records responsive to a request and the operator/programmer salary apportionable to the search.

(2) *Review:* The fee charged will equal the salary rate(s) (basic pay plus 16.1 percent) of the employee(s) conducting the review.

(3) *Duplication:* Copies of documents photocopied on one-side of a 8½ x 11 inch sheet of paper will be provided at $.10 per page. Photocopies on two sides of a single 8½ x 11 inch sheet of paper will be provided at $.20 per page. For duplication of other materials, the charge will be the direct cost of duplication.

(c) *Restrictions on charging fees.* (1) Except for documents provided in response to a commercial use request, the first 100 pages of duplication or the first two (2) hours of search time shall be provided at no charge. For the purposes of this section, two (2) hours of search time by computer entitles the requestor to two (2) hours of computer operator salary translated into computer search costs. Computer search costs consist of operator salary plus central proceeding unit operating time costs for the duration of the search.

(2) Fees shall not be charged to any requestor, including commercial use requestors, if the cost of collecting a fee would be equal to or greater than the fee itself.

(d) *Waiver or reduction of fees.* (1) Documents shall be furnished without charge or at reduced charge if disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in the commercial interest of the requestor.

(2) The following factors shall be used to determine whether a fee will be waived or reduced:

(i) The subject of the request: Whether the subject of the requested records concerns "the operations or activities of the government";

(ii) The informative value of the information to be disclosed: Whether the disclosure is "likely to contribute" to an understanding of government operations or activities;

(iii) The contribution to an understanding of the subject by the general public likely to result from disclosure: Whether disclosure of the requested information will contribute to "public understanding";

(iv) The significance of the contribution to public understanding: Whether disclosure is likely to contribute "significantly" to public understanding of government operations or activities;

(v) The existence and magnitude of a commercial interest: Whether the requestor has a commercial interest that would be furthered by the disclosure; and if so

(vi) The primary interest in disclosure: Whether the magnitude of the identified commercial interest of the requestor is sufficiently large in comparison with the public interest in disclosure, that disclosure is "primarily in the commercial interest of the requester."

(e) *Assessment and collection of fees.* (1) Interest will accrue from the date the bill is mailed if the fee is not paid within thirty (30) days. Interest will be assessed at the rate prescribed in 31 U.S.C. 3717.

(2) If the agency reasonably believes that a requestor(s) is making multiple requests to avoid the assessment of fees, the agency may aggregate such requests and charge accordingly.

(3) The agency may request an advance payment of the fee if

(i) The allowable charges are likely to exceed $250; or

(ii) The requestor has failed previously to pay a fee in a timely fashion.

(4) When the agency requests an advance payment, the time limits prescribed in section (a)(6) of the Freedom of Information Act will begin only after the agency has received full payment.

§ 1100.7 Foundation report of actions.

On or before March 1 of each calendar year, each member agency of the National Foundation on the Arts and the Humanities shall submit a report of its activities with regard to public information requests during the preceding calendar year to the Speaker of the House of Representatives and to the President of the Senate. The report shall include:

(a) The number of determinations made by each member agency of the National Foundation on the Arts and the Humanities not to comply with requests for records made to the agency under the provisions of this part and the reasons for each such determination;

(b) The number of appeals made by persons under such provision, the result of such appeals, and the reasons for the action upon each appeal that results in the denial of information;

(c) The names and titles or positions of each person responsible for the denial of records requested under the provisions of this part and the number of instances of participation for each;

(d) The results of each proceeding conducted pursuant to 5 U.S.C. 552(a)(4)(F), as amended, including a report of the disciplinary action taken against the officer of employee who was primarily responsible for improperly withholding records or an explanation of why disciplinary action was not taken;

(e) A copy of every rule made by the Foundation implementing the provisions of the FOIA.

(f) A copy of the fee schedule and the total amount of fees collected by the agency for making records available under this section; and

(g) Such other information as indicates efforts to administer the provisions of the FOIA, as amended.

Lynne V. Cheney,

Chairman, National Endowment for the Humanities.

Date: December 14, 1987.

Francis S.M. Hodsoll,

Chairman, National Endowment for the Arts.

BILLING CODE 7537-01-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 87-131; FCC 87-356]

Radio Broadcasting Services; Unlimited-time Operation by Existing AM Daytime-Only Radio Broadcast Stations; Discontinuance of Authorization of Additional Daytime-only Stations; and Minimum Power of Class III Stations

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The FCC has amended its Rules to (1) permit unlimited-time operations for existing daytime-only AM radio broadcast stations on the AM regional channels, and on two clear channels: 940kHz and 1550 kHz; (2) discontinue the authorization of new daytime-only stations; and (3) reduce the generally applicable minimum power of Class III AM radio broadcast stations from 0.5 kW to 0.25 kW. This action is needed to relieve daytime-only stations and the listening public from the disadvantages of limitations on their hours of operation under present rules. The revised rules will make possible unlimited-time operation by qualifying daytime-only stations on the above-noted channels.

EFFECTIVE DATE: The rule amendments enter into effect December 1, 1987.

ADDRESS: Federal Communications Commission, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Vicki Assevero or Louis C. Stephens, Policy and Rules Division, Mass Media Bureau, (202) 254-3394.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's *Report and Order* in MM Docket No. 87-131, adopted November 18, 1987, and released December 1, 1987. This *Report and Order* may be consulted and will be available for copying during normal business hours in the FCC Dockets Branch (Room 230), 1919 M Street NW., Washington, DC. The complete text of this *Report and Order* may also be purchased from the Commission's copy contractor, International Transcription Services, (202) 857-3800, 2100 M St. NW., Washington, DC 20037.

Summary of Report and Order

1. Having previously opened the way for unlimited-time operation for most daytime-only AM radio broadcast stations operating on the 14 foreign clear channels, the FCC took similar action for those assigned to the regional AM channels and to 940 kHz and 1550kHz. Pursuant to the newly adopted rule amendments, the Commission has calculated and informed each qualifying daytime-only station the power, within a range of .001 kW (1 watt) to 0.5 kW, that it may use for broadcasting during nighttime hours with the antenna systems they are licensed to start using at sunrise. The authorized power was set at levels calculated to provide required interference protection to foreign and domestic stations.

2. Daytime-only stations authorized to operate during nighttime hours with power sufficient to enable them to provide a field strength of at least 141 mV/m at 1 kilometer from their transmitters will be reclassified as Class II–B stations if on 940 kHz or 1550 kHz or as Class III if on any of the 41 regional channels.

3. None of the stations permitted to operate during nighttime hours are required to provide interference protection to each other. They are, however, required to protect: (1) Foreign stations, (2) existing unlimited-time stations, and (3) new and changed unlimited-time stations for which construction permits had been issued or applications tendered no later than December 1, 1987. The reclassified stations may apply, under regular procedures, for nighttime power increases, up to the maximum generally permitted for the class of channel occupied, consistent with requisite protection against interference to other stations.

4. Stations reclassified as Class II–S or III–S are not required to provide the generally required minimum signal to their principal cities nighttime, nor are they required to meet the requirement generally applicable to stations that regularly operate during nighttime hours, that they broadcast at least 4 hours between 6 p.m. and midnight. Stations reclassified as Class II-B, II-C or III are required to meet the latter requirement, but, so long as their nighttime powers were limited to those initially authorized by the Commission, they are exempted from the minimum city signal requirement.

5. Also, the minimum power of stations on regional channels is reduced from 0.5 kW to 0.25 kW. The few Class IV stations assigned to regional channels that already, exceptionally operate at 0.25 kW without interference protection, will then be reclassified as Class III stations, thereafter entitled to protection.

6. Individual stations will be notified of the powers they may use during nighttime hours and the date when nighttime operations may start, in Orders to Show Cause why the station's license should not be modified to permit such operations.

7. Finally, the assignment of additional daytime-only AM stations on 940 kHz, 1550 kHz, and the 41 regional Am channels is discontinued.

8. With reference to the Regulatory Flexibility Act of 1980, 5 U.S.C. 603, the revised rules will have a beneficial impact on small daytime-only AM Stations that will be enabled, through more extended hours of operation, to provide enhanced services to the public, and thereby compete more effectively with existing unlimited-time AM and FM stations.

9. The Secretary of the Commission is directed to send a copy of the *Report and Order* in this proceeding to the Chief Counsel for Advocacy of the Small Business Administration in accordance with the Regulatory Flexibility Act.

10. *Paperwork Reduction Act Statement:* The rule changes have been analyzed with respect to the Paperwork Reduction Act of 1980 and found to contain no new or modified norm, information, collection and/or record keeping, labeling, disclosure, or record retention requirements; and will not increase or decrease burden hours imposed on the public.

11. Authority for the rule changes is contained in sections. 4(i), 303, and 307 of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 303, and 307.

List of Subjects in 47 CFR Part 73

Radio broadcasting.

Federal Communcations Commission.

William J. Tricarico,

Secretary.

Part 73 of Title 47 of the Code of Federal Regulations is amended as follows.

PART 73—[AMENDED]

1. The authority citation for Part 73 continues to read as follows:

Authority: 47 U.S.C. 154 and 303.

2. Section 73.21 is amended by adding a new sentence at the end of paragraphs (a)(2)(ii) introductory text and (a)(2)(iv); revising paragraph (a)(2)(v), the first sentence of paragraph (b) introductory text, and paragraph (b)(1); adding new paragraph (b)(3); and revising the Table in Note 4, to read as follows:

§ 73.21 Classes of AM broadcast channels and stations.

(a) * * *

(2) * * *

(ii) * * * A former Class III–D station operating on 940 or 1550 kHz that is authorized to operate during nighttime hours will be reclassified as Class II–B notwithstanding the fact that its authorized nighttime power is less than 0.25 kW, if its RMS field strength at 1 kilometer is 141 mV/m or higher.

* * * * *

(iv) *Class II–D Stations.* * * * No application will be accepted for new Class II–D (daytime-only) stations on 940 kHz or 1550 kHz.

(v) *Class II–S Stations.* Class II–S stations are former Class II–D stations that have been authorized to operate nighttime on the 14 channels listed in § 73.25(c) or on 940 kHz or 1550 kHz, at powers that are less than 0.25 kW and insufficient to enable their RMS field strength at 1 kilometer to attain the level of 141 mV/m or higher. (Stations on 940 kHz or 1550 kHz whose nighttime power is 0.25 kW or higher, or whose RMS at 1 kilometer is 141 mV/m or higher, shall be classified as Class II–B stations.) Class II–S stations operate without

protection from interference nighttime, but receive protection from interference during the daytime. No Class II–S station shall be authorized with nighttime power less than 0.001 kW (one watt).

* * * * *

(b) *Regional Channel.* A regional channel is one on which several stations may operate with powers set out in (1), (2), and (3) of this paragraph (b). * * *

(1) *Class III Stations.* A station designated as Class III operates on a regional channel, and is designed to render service primarily to a principal center of population and in the rural area contiguous thereto. Except as provided in paragraphs (b)(2) and (b)(3) of this section, a Class III station operates with a power not more than 5 kW, and not less than 0.25 kW unless its RMS field strength at 1 kilometer attains the level of 141 mV/m or higher.

* * * * *

(3) *Class III–S Station.* A Class III–S station is a former daytime-only station that operates on a regional channel with a nighttime power that is less than 0.25 kW and insufficient to enable its RMS field strength at 1 kilometer to attain the level of 141 mV/m or higher. Class III–S stations operate without protection from interference nighttime, but receive protection from interference during the daytime. No Class III–S station shall be authorized with a nighttime power less than 0.001 kW (one watt).

* * * * *

Note 4: * * *

INTERNATIONAL AND DOMESTIC CLASSIFICATIONS OF STATIONS AND CHANNELS

International classes of AM stations	Corresponding U.S. classes of AM stations	Classes of Channels available in U.S. for each class of station
Class A	I–A	Clear channels.
	I–B	Do.
	I–N	Do.
Class B	II	Do.
	II–A	Do.
	II–B	Do.
	II–C	Do.
	II–D	Do.
	II–S	Do.
	III	Regional channels.
	III–S	Do.
Class C	IV	Local channels.

3. Section 73.24 is amended by revising the second sentence of paragraph (j) of this section to read as follows:

§ 73.24 Broadcast facilities; showing required.

* * * * *

(j) * * * The following categories of stations need not demonstrate the ability to provide such coverage during nighttime operation: (1) Daytime-only AM stations; and (2) former daytime-only stations that were reclassified as Class II–B or II–S on 940 or 1550 kHz or as Class II–C or II–S on the 14 frequenceis listed in § 74.25(c) or as unlimited-time Class III or III–S stations on regional channels, and have not since been authorized to increase nightime power.

* * * * *

§ 73.25 [Amended]

4. Section 73.25 is amended by removing the second sentence from paragraph (c).

5. Section 73.26 is amended by revising the first sentence of paragraph (a) up to the colon, and by adding a new paragraph (c), as follows:

§ 73.26 Regional channels; Class III stations.

(a) The following frequencies are designated as regional channels and are assigned for use by Class III and Class III–S stations: * * *

* * * * *

(c) No application for new daytime-only stations will be accepted on the channels listed in paragraph (a) of this section.

6. Section 73.29 is revised to read as follows:

§ 73.29 Class IV stations on regional channels.

No license will be granted for the operations of a Class IV station on a regional channel.

7. Section 73.31 is amended by revising the table in paragraph (a) to read as follows:

§ 73.31 Rounding of nominal power specified on applications.

(a) * * *

Nominal power (kW)	Figure cited down to nearest figure (kW)
Below 0.25	0.001
0.25 to 0.99	0.01
1 to 9.9	0.1
10 to 50	1

8. Section 73.99 is amended by adding a new paragraph (l), as follows:

§ 73.99 Presunrise service authorization (PSRA) and Postsunset service authorization (PSSA).

* * * * *

(l) The authorization of unlimited-time operation by daytime-only stations that are reclassified as Class II–S or Class III–S stations will not affect their right to operate during prescribed presunrise and postsunset hours in accordance with PSRA's and PSSA's issued pursuant to this section.

9. Section 73.182 is amended by revising the second sentence of paragraph (a)(3) up to the semicolon, to read as follows:

§ 73.182 Engineering standards of allocation.

(a) * * *

(3) * * * They operate with powers not less than 0.25 kW and not more than 5 kW, and are normally protected to the 1500 uV/m goundwave contour nighttime and the 500 uV/m groundwave contour daytime; * * *

10. On the line in the table in § 73.182(s) which starts with the "III" in the first column, the text in the third colum that now reads "0.5 kW to 5 kW" is revised to read "0.25 kW to 5 kW".

11. Footnote [2] to the table in § 73.182(s) is revised to read as follows:

* * * * *

[2] For adjacent channel, see paragraph (t) of this section.

* * * * *

12. Immediately preceding the last line of the table in § 73.182(s) an entry is added as follows:

Class of station	Class of channel used	Permissible power	Signal strength contour of area protected from objectionable interference [1]		Permissible interfering signal on same channel [2]	
			Day [3]	Night	Day	Night [4]
III–S	...do...	0.25 kW to 5 kW (daytime) less than 0.25 kW nighttime.	500 uV/m	Not prescribed.	...do...	Not prescribed

[1] When a station is already limited by interference from other stations to a contour of higher values than that normally protected for its class, this contour shall be the established standard for such station with respect to interference from all other stations.
[2] For adjacent channel, see paragraph (t) of this section.
[3] Groundwave.
[4] Skywave field strength for 10 percent or more of the time.

* * * * *

13. Section 73.1740(a)(1)(i) is revised to read as follows:

§ 73.1740 Minimum operating schedule.

(a) * * *

(1) * * *

(i) Daytime-only AM stations and former daytime-only AM stations that have been reclassified as Class II–S or III–S need comply only with the minimum requirements for operation between 6 a.m. and 6 p.m., local time.

* * * * *

14. Section 73.3571 is amended by adding a new paragraph (d)(5), to read as follows:

§ 73.3571 Processing of AM broadcast station applications.

* * * * *

(d) * * *

(5) The following special procedures will be followed in authorizing Class II–D daytime-only stations on 940 and 1550 kHz, and Class III daytime-only stations on the 41 regional channels listed in § 73.26(a), to operate unlimited-time.

(i) Each eligible daytime-only station in the foregoing categories will receive an Order to Show Cause why its license should not be modified to specify operation during nighttime hours with the facilities it is licensed to start using at local sunrise, using the power stated in the Order to Show Cause, that the Commission finds is the highest nighttime level—not exceeding 0.5 kW—at which the station could operate without causing prohibited interference to other domestic or foreign stations, or to co-channel or adjacent channel stations for which pending applications were filed before December 1, 1987.

(ii) Stations accepting such modification shall be reclassified. Those authorized in such Show Cause Orders to operate during nighttime hours with a power of 0.25 kW or more, or with a power that, although less than 0.25 kW, is sufficient to enable them to attain RMS field strengths of 141 mV/m or more at 1 kilometer, shall be redesignated as Class II–B stations if they are assigned to 940 or 1550 kHz, and as unlimited-time Class III stations if they are assigned to regional channels.

(iii) Stations accepting such modification that are authorized to operate during nighttime hours at powers less than 0.25 kW, and that cannot with such powers attain RMS field strengths of 141 mV/m or more at 1 kilometer, shall be redesignated as Class II–S stations if they are assigned to 940 or 1550 kHz, and as Class III–S stations if they are assigned to regional channels.

(iv) Applications for new stations may be filed at any time on 940 and 1550 kHz and on the regional channels. Also, stations assigned to 940 or 1550 kHz, or to the regional channels, may at any time, regardless of their classifications, apply for power increases up to the maximum generally permitted. Such applications for new or changed facilities will be granted without taking into account interference caused to Class II–S or Class III–S stations, but will be required to show interference protection to other classes of stations, including stations that were previously classified as Class II–S or Class III–S, but were later reclassified as Class II–B or Class III unlimited-time stations as a result of subsequent facilities modifications that permitted power increases qualifying them to discountinue their "S" subclassification.

BILLING CODE 6712–01–M

Proposed Rules

Federal Register
Vol. 52, No. 244
Monday, December 21, 1987

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

7 CFR Part 318

[Docket No. 87-150]

Sharwil Avocados to Alaska

AGENCY: Animal and Plant Health Inspection Services, USDA.

ACTION: Proposed rule.

SUMMARY: We propose to amend the "Hawaiian Fruits and Vegetables" regulations to allow movement of Sharwil avocados, under a limited permit, from Hawaii to Alaska. Our proposal would:

a. Delete the "at least 0.5 centimeter" length requirement for attached stems.

b. Delete the current requirement that there by "no Trifly host material within 100 feet of the packing facility."

The interstate movement of avocados from Hawaii must be regulated to prevent spread of the Mediterranean fruit fly, the melon fly, and the Oriental fruit fly. It appears, however, that the Sharwil variety of avocado will not be a host to these fruit flies when harvested and handled in compliance with our proposed amendment to the "limited movement to Alaska" requirements.

DATES: Consideration will be given only to comments postmarked or received on or before January 5, 1988.

ADDRESSES: Send original and two copies of written comments to Steven B. Farbman, Assistant Director, Regulatory Coordination, APHIS, USDA, Room 728, Federal Building, 6506 Belcrest Road, Hyattsville, MD 20782. Please state that your comments refer to Docket Number 87-150. Comments received may be inspected at Room 728 of the Federal Building between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays.

FOR FURTHER INFORMATION CONTACT: Mr. L.H. Tengan, Staff Officer, Program Planning Staff, PPQ, APHIS, USDA, Room 643, Federal Building, 6506 Belcrest Road, Hyattsville, MD 20782, 301-436-8247.

SUPPLEMENTARY INFORMATION:

Background

The "Hawaiian Fruits and Vegetables" regulations (contained in 7 CFR 318.13 *et seq.*, and referred to below as the regulations), among other things, regulate the interstate movement from Hawaii of avocados in a raw or unprocessed state. Regulation is necessary to prevent spread of the Mediterranean fruit fly (*Ceratitis capitata* (Wied.)); the melon fly (*Dacus cucurbitae* (Coq.)); and the Oriental fruit fly (*Dacus dorsalia* (Heldel)). These fruit flies, commonly referred to as "Trifly," infest Hawaii, but do not occur in the other 49 states.

We proposed to certify Hawaiian Sharwil avocados for movement to Alaska after Department research [1] established that Sharwil avocados with attached stems are not hosts of Trifly for at least 24 hours after being picked from a tree (the fruit cannot have fallen to the ground). The rulemaking was finalized in a document published in the **Federal Register** (52 FR 8863-8865, Docket Number 87-003) on March 20, 1987. The new regulation not only established stringent requirements to ensure that Sharwil avocados are picked and packed in cartons impervious to Trifly within the 24-hour safe period, but also prohibited interstate movement of Sharwil avocados from Alasks to other states. (Alaska is safe from infestation because Trifly cannot survive that state's cold winters.)

Stem Size

The regulations authorize movement of Sharwil avocados only if the stem is attached. This requirement (which would not be changed by this proposal) assures that the fruit has been picked from the tree, while in a mature green stage, when the firmness of the fruit renders it unattractive and virtually impervious to Trifly. Ripe avocados have no stems because the soft fruit falls to the ground, leaving the stems attached to the branches.

[1] Documents concerning this research may be obtained from Mr. L.H. Tengan, Staff Officer, Program Planning Staff, PPQ, APHIS, USDA, Room 643, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, 301-436-8247.

The current "attached stem" provisions, in § 318.13-4g(a) and (c), require that Sharwil avocados have an attached stem at least 0.5 centimeter in length. However, the traditional Hawaiian avocado harvesting practice of flush cutting leaves an attached stem 0.5 cetimeter or less in length. If stems are not cut flush to the fruit, they will protrude and can puncture and tear other fruit during handling and packing, serioulsy reducing marketability. Since any length of attached stem is enough to ensure freedom from Trifly infestation during the initial 24 hours after a Sharwil avocado is picked, we are proposing to revise the "attached stem" requirement in the regulations to delete the requirement as to its length.

100 Foot Requirement

Current paragraph (d)(1) of § 318.13-4g requires that there be "no Trifly host material within 100 feet of the packing facility." This requirement was originally proposed to ensure that no Trifly populations would become established close enough to the packing facility to present a significant threat of the flies invading the facility and infesting Sharwil avocados before they could be packed. Experience and continuing research have revealed, however, that this "100 foot" requirement is unnecessary.

Even if an active Trifly infestation existed within 100 feet of the facility, the flies would be unable to get into the packing facility. This is because the packing facility requirements that were included in the March 20, 1987, amendment to the regulations have proven effective and enforceable:

a. Current § 318.12-4g(d)(2) requires that the packing facility be maintained free of Trifly.

b. Current § 318.13-4g(d)(1) requires that the packing facility be maintained free of all Trifly host material.

c. Current § 318.13-4g(d)(3) requires that all doors and other openings to the packing facility are maintained under conditions determined by an inspector as adequate to prevent the entry of Trifly.

Finally, additional research has been performed, clearly establishing that Triflies will not infest even the most severely damaged green Sharwil avocado during the initial 24 hours after the fruit is picked.

Additional Research

Our initial "limited movement to Alaska" proposal was based on a combination of laboratory and field studies. One in partucular involved the inspection, by Department entomologists, of the 38,241 Sharwil avocados picked during Hawaii's January-March 1985 harvesting season. The inspecions were performed within the 24-hour post-picking "safe" period, after each avocado reached the packing house. No Trifly eggs or larvae were found.

We continued this procedure through the 1986 and 1987 harvesting seasons, until the total number of harvested Sharwil avocados subjected to pre-packing inspection totaled 114,112 avocados. Particular attention was given to avocados with surface damage, including sunburn, abrasions, and other wounds and mechanical injuries. Again, no Trifly eggs or larvae were found—even when severely damaged avocados were exposed to Trifly after the fruit had been moved to a laboratory.

We believe that this research provides the last piece of evidence needed to demonstrate that the "100 foot" requirement is unnecessary and can be deleted without increasing the risk of spreading Trifly to the United States mainland.

Footnote

Current § 318.13-4g(d)(1) includes a statement in parentheses, informing readers that a list of Trifly host material will be attached to compliance agreements with packers, may be obtained from Plant Protection and Quarantine offices in Hawaii, and may be obtained by writing the Deputy Administrator in Hyattsville, Md.

Under our proposal, the substance of this statement would remain the same, but it woluld be reformatted as proposed footnote "2" to § 318.13-4g(d)(1). The purpose of this proposed change is to maintian consistency in our treatment of this type of informational statement in our Title 7 regulations.

Miscellaneous

This doucument would also make certain nonsubstantive changes in the regulations for the purposes of clarity.

Executive Order 12291 and Regulatory Flexibility Act

We are issuing this proposed rule in conformance with Executive Order 12291, and we have determined that it is not a "major rule." Based on information compiled by the Department, we have determined that this proposed rule would have an effect on the economy of less than $100 million; would not cause a major increase in costs or prices for consumers, individual industries, federal, state, or local government agencies, or geographic regions; and would not cause a significant adverse effect on competition, employment, investment, productiveiy, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

We do not believe that the two changes that we are proposing will affect the marketing of Hawaiian Sharwil avocados moved for sale in Alaska. There is no reason to believe that, because of this amendment, the number of avocados that would be moved to Alaska from Hawaii would increase or decrease.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this proposed rule would not have a significant economic impact on a substantial number of small entities.

Executive Order 12372

This program/activity is listed in the Catalog of Federal Domestic Assistance under No. 10.025 and is subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with state and local officials. (See 7 CFR Part 3015, Subpart V.)

Paperwork Reduction Act

This proposed rule contains no information collection or recordkeeping requirements under the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*).

Comment Period

Donald L. Houston, Administrator of the Animal and Plant Health Inspection Service, has determined that this rulemaking proceeding should be expedited by allowing a 15-day comment period on the proposal. Only one person has expressed an interest in exporting Sharwil avocados from Hawaii to Alaska. The harvesting period for his avocados will begin soon. To qualify for movement to Alaska, under both the current and proposed regulations, the avocados must be picked before they begin to ripen on the tree. Thus, a longer comment period could cause substantial economic losses for this person.

List of Subjects in 7 CFR Part 318

Agricultural commodities, Avocados, Fruit, Guam, Hawaii, Plant diseases, Plant pests, Plants (agriculture), Puerto Rico, Quarantine, Transportation, Virgin Islands.

Accordingly, it is proposed to amend 7 CFR Part 318 as follows:

PART 318—HAWAIIAN AND TERRITORIAL QUARANTINE NOTICES

1. The authority citation for 7CFR Part 318 would continue to read as follows:

Authority: U.S.C. 150dd, 150ee, 150ff, 151-167; 7 CFR 2.17, 2.51, and 371.2(c).

2. In § 318.13-4g, paragraph (a) would be amended by removing "which is at least 0.5 centimeter in length".

3. In § 318.13-4g, paragraph (c) would be amended by removing "at least 0.5 centimeter in length".

4. In § 318.13-4g, paragraph (d)(1) would be revised and a new footnote 2 would be added as follows:

§ 318.13-4g Administrative instructions specifying conditions for limited permits for Sharwil avocados for movement to Alaska based on certain harvesting and handling provisions.

* * * * *

(d) * * *

(1) The packing facility is maintained free of all Trifly host material,[2] other than Sharwil avocados packed in accordance with the provisions of paragraph (e) of this section.

* * * * *

§ 318.13-5 [Amended]

5. In § 318.13-5, footnote "1", and the reference to the footnote, would be redesignated as "3".

§ 318.13-13 [Amended]

6. In § 318.13-13, footnotes "2" and "3", and the references to the footnotes, would be redesignated as "4" and "5", respectively.

Done in Washington, DC, this 16th day of December 1987.

Donald Houston,

Administrator, Animal and Plant Health Inspection Service.

[FR Doc. 87-29205 Filed 12-18-87; 8:45 am]

BILLING CODE 3410-34-M

[2] A list of Trifly host material will be attached to each compliance agreement with a packer. This list may also be obtained from Plant Protection and Quarantine offices in Hawaii (listed in telephone directories) or by writing National Programs, Plant Protection and Quarantine, Animal and Plant Health Inspection Service, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782.

Federal Aviation Administration

14 CFR Part 39

[Docket No. 87-CE-29-AD]

Airworthiness Directives; SIAI-Marchetti S.p.A., Models F260, F260B, F260C, and F260D Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Extension of NPRM comment period.

SUMMARY: This action extends the comment period of the subject NPRM which proposes inspection or modification of the main wing spar of SIAI-Marchetti S.p.A., Models F260, F260B, F260C, and F260D airplanes to preclude structural failure.

DATES: Extends comment period of Docket No. 87-CE-29-AD to January 30, 1988.

FOR FURTHER INFORMATION CONTACT:

Mr. M. Dearing, Brussels Aircraft Certification Staff, AEU-100, Europe, Africa, and Middle East Office, FAA, c/o American Embassy, 1000 Brussels, Belgium; Telephone 513.38.30, extension 2710; or Mr. J. P. Dow, Sr., FAA, ACE-109, 601 East 12th Street, Kansas City, Missouri 64106; Telephone (816) 374-6932.

SUPPLEMENTARY INFORMATION: The FAA issued an NPRM on September 17, 1987, applicable to SIAI-Marchetti S.p.A., Models F260, F260B, F260C, and F260D airplanes, which was published in the **Federal Register** on October 1, 1987 (52 FR 36787). This Notice would require initial and recurrent visual or dyepenetrant inspections of the main wing spar to detect cracks, and if cracks are found, modification of the main wing spar. This action would prevent undetected crack growth in this area.

Subsequent to December 1, 1987, which was the closing date for comments on this NPRM, a telegraphic request was received from Fox 51 Ltd., the United States representative for SIAI-Marchetti S.p.A., to reopen the comment period to allow sufficient time to comment on the proposed rule. This representative stated he had also received notification from owners of the airplanes that they too desire to comment on the NPRM, but were unable to do so before the comment period closed. Accordingly, the FAA believes it is in the public interest to reopen and extend the comment period in order to allow any comments deemed necessary.

This document involves only an extension of a comment period for a proposed regulation. Therefore, I certify that this action (1) is not a "major rule" under the provisions of Executive Order 12291, (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979) and (3) will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A regulatory evaluation has not been prepared for this action as the anticipated impact is so minimal.

List of Subjects in 14 CFR Part 39

Air Transportation, Aviation safety, Aircraft, Safety.

Adoption of Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends § 39.13 of Part 39 of the FAR by revising the effective date of the comment period for Docket No. 87-CE29-AD as follows:

PART 39—[AMENDED]

1. The authority citation for Part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised, Pub. L. 97-449, January 12, 1983); and 14 CFR 11.85.

§ 39.13 [Amended]

2. By adding the following new date for comment:

Dates: Comments must be received on or before January 30, 1988.

Issued in Kansas City, Missouri on December 9, 1987.

Paul K. Bohr,

Director, Central Region.

[FR Doc. 87-29148 Filed 12-18-87; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Parts 71 and 73

[Airspace Docket No. 87-ASO-9]

Proposed Alteration of Restricted Areas, Cape Canaveral, FL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to consolidate, redesignate and simplify the restricted airspace associated with the Kennedy Space Center. The proposals would simplify charting by consolidating and reducing the total number of restricted areas from ten to five. The proposals would also change the time of designation of each area to better reflect actual use and change the published locations of the areas from "Cape Kennedy" to "Cape Canaveral" to reflect earlier congressional action. In addition, the Continental Control Area would be amended to incorporate these changes. These proposed alterations resulted from recommendations made during an FAA conducted on-site review of special use airspace associated with the Kennedy Space Center.

DATES: Comments must be received on or before February 1, 1988.

ADDRESSES: Send comments on the proposal in triplicate to: Director, FAA, Southern Region, Attention: Manager, Air Traffic Division, Docket No. 87-ASO-9, Federal Aviation Administration, P.O. Box 20636, Atlanta, GA 30320.

The official docket may be examined in the Rules Docket, weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m. The FAA Rules Docket is located in the Office of the Chief Counsel, Room 916, 800 Independence Avenue, SW., Washington, DC.

An informal docket may also be examined during normal business hours at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT: Paul Gallant, Airspace Branch (ATO-240), Airspace-Rules and Aeronautical Information Division, Air Traffic Operations Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-9253.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposals. Comments are specifically invited on the overall regulatory, aeronautical, economic and energy aspects of the proposals. Send comments on environmental and land use aspects to: Headquarters, AFSC/DEMV, Andrews AFB, MD 20334-5000 telephone: (301) 981-2663. Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 87-ASO-9." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available for examination in the Rules Docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM's

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Inquiry Center, APA-230, 800 Independence Avenue, SW., Washington, DC 20591, or by calling (202) 267-3484. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

The Proposals

The FAA is considering amendments to Parts 71 and 73 of the Federal Aviation Regulations (14 CFR Parts 71 and 73) to consolidate, redesignate and simplify the restricted areas associated with Cape Canaveral and the Kennedy Space Center, FL. The proposal would reconfigure existing Restricted Areas R-2921, R-2922, R-2923, R-2924, R-2925, R-2926, R-2927, R-2928 and R-2930. These areas are used during space shuttle launches and recoveries as well as various other missile operations at the Kennedy Space Center. The proposals would reduce the total number of restricted areas from ten to five and reduce the volume of restricted airspace associated with the existing R-2927 by raising the floor of the area 3,000 feet and moving the boundaries of the existing R-2924 and R-2925 to the north approximately one-half mile. Additional restricted airspace would be designated above and below the existing R-2921 and 2922. Restricted Areas R-2923, R-2924, R-2925 and the eastern part of R-2926 would be consolidated into two congruent restricted areas to be designated R-2932 and R-2933. R-2932 will extend from the surface to but not including 5,000 feet above mean sea level (MSL), with a time of use of "continuous." R-2933 will extend from 5,000 feet MSL to unlimited, with a time of use of "intermittent by NOTAM." R-2931 will be excluded from R-2932 and R-2933 in the same manner that it is now excluded from the current R-2924 and R-2925.

The southern boundary of the proposed areas R-2932 and R-2933 would be relocated 30 seconds of latitude north of the existing boundary of R-2924 and R-2925. This action would be taken in order to move the areas clear of private buildings located on the north side of Port Canaveral. The new boundary would be completely over Government-owned land.

Present Restricted Areas R-2921, R-2922, R-2928, part of R-2926 and additional airspace above and below the present R-2921 and R-2922 will be consolidated into a single area and designated as R-2934. R-2934 would extend from the surface to unlimited with a time of use of "intermittent by NOTAM." The same portion of airspace overlying private property which is now excluded from the existing R-2926 would also be excluded from the new area R-2934.

The existing Restricted Area R-2930, plus that part R-2927 at and above 11,000 feet MSL, and the narrow section of airspace between the south side of R-2927 and R-2930 would be consolidated into a single designated R-2935. The base of the new area, R-2935, would be 11,000 feet MSL. This new area, R-2935, would extend from 11,000 feet MSL, continuing above the present FL 180 upper limit of the existing R-2927 to unlimited. The time of use for R-2935 would be "intermittent by NOTAM."

This proposal would also correct the location listed for the above areas, including R-2931, to read Cape Canaveral, FL, vice Cape Kennedy, FL. The Continental Control Area would also be amended to reflect these changes.

These changes would simplify charting, enable more efficient use of airspace and enhance safety through aligning the areas to provide better compatibility of airspace activation consistent with the FAR Part 91.102 Space Flight Operations Area established for the Kennedy Space Center. Sections 71.151 and 73.29 of Parts 71 and 73 of the Federal Aviation Regulations were republished in Handbook 7400.6C dated January 2, 1987.

The FA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Parts 71 and 73

Aviation safety, Continental control areas, Restricted areas.

The Proposed Amendments

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend Parts 71 and 73 of the Federal Aviation Regulations (14 CFR Parts 71 and 73) as follows:

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

1. The authority citation for Part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; E.O. 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

§ 71.151 [Amended]

2. § 71.151 is amended as follows:

R-2921 Cape Kennedy, FL [Remove]

R-2922 Cape Kennedy, FL [Remove]

R-2925 Cape Kennedy, FL [Remove]

R-2926 Cape Kennedy, FL [Remove]

R-2927 Cape Kennedy, FL [Remove]

R-2928 Cape Kennedy, FL [Remove]

R-2930 Cape Kennedy, FL [Remove]

R-2931 Cape Kennedy, FL [Remove]

R-2931 Cape Canaveral, FL [New]

R-2933 Cape Canaveral, FL [New]

R-2934 Cape Canaveral, FL [New]

R-2935 Cape Canaveral, FL [New]

PART 73—SPECIAL USE AIRSPACE

3. The authority citation for Part 73 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510, 1522; E.O. 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

§ 73.29 [Amended]

4. § 73.29 is amended as follows:

R–2921 Cape Kennedy, FL [Remove]

R–2922 Cape Kennedy, FL [Remove]

R–2923 Cape Kennedy, FL [Remove]

R–2924 Cape Kennedy, FL [Remove]

R–2925 Cape Kennedy, FL [Remove]

R–2926 Cape Kennedy, FL [Remove]

R–2927 Cape Kennedy, FL [Remove]

R–2928 Cape Kennedy, FL [Remove]

R–2930 Cape Kennedy, FL [Remove]

R–2931 Cape Kennedy, FL [Amended]

In the title, by removing the words "Cape Kennedy" and substituting the words "Cape Canaveral."

BILLING CODE 4910-13-M

FEDERAL TRADE COMMISSION

16 CFR Part 13

[Docket No. 9149]

Public Comment Period; Ogilvy & Mather International, Inc.

AGENCY: Federal Trade Commission.

ACTION: Notice of period for public comment on petition to reopen and modify the order.

SUMMARY: Ogilvy Group, Inc. (formerly named Ogilvy & Mather International, Inc.), a corporate respondent in the order in Docket No. 9149, has petitioned the Federal Trade Commission to modify in certain respects a 1983 consent order against Ogilvy & Mather International, Inc., concerning the misrepresentation of drug products. This document announces the public comment period on the petition.

DATE: Deadline for filing comments in this matter is January 13, 1988.

ADDRESS: Comments should be sent to the Office of the Secretary, Federal Trade Commission, 6th Street and Pennsylvania Avenue, NW., Washington, DC 20580. Requests for copies of the request should be sent to the Public Reference Branch, Room 130.

FOR FURTHER INFORMATION CONTACT: Terrence J. Boyle, Attorney, Division of Enforcement, Bureau of Consumer Protection, Federal Trade Commission, Washington, DC 20580, (202) 326–3016.

SUPPLEMENTARY INFORMATION: The order against Ogilvy & Mather International, Inc. in Docket No. 9149 was published at 48 FR 2316 on January 19, 1983. The petitioner, Ogilvy Group, Inc., successor to Ogilvy & Mather International, is an advertising agency. The order prohibits Ogilvy & Mather International from employing any trade name for any drug which represents that such drug contains an active ingredient which it does not contain or does not contain in therapeutically significant quantities; from misrepresenting that any such drug is new or involves a new mechanical or scientific principle; from misrepresenting any test or study concerning any drug product; and certain other representations without substantiation. The petition to modify was placed on the public record on December 14, 1987.

BILLING CODE 6750-01-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Housing-Federal Housing Commissioner

24 CFR Part 236

[Docket No. R–87–1349; FR–1997]

State Agency Amendments—Prohibited Lease Terms

AGENCY: Office of the Assistant Secretary for Housing-Federal Housing Commissioner, HUD.

ACTION: Proposed rule.

SUMMARY: This proposed rule would prohibit the use of specific lease provisions in projects financed by State housing agencies. This proposal would implement a statutory provision (section 202(b) (3) of the Housing and Community Development Amendments of 1978) that requires HUD to assure that leases used in connection with certain multifamily projects with mortgages covered by HUD insurance or non-insured State-agency projects assisted under Section 236 of the National Housing Act do not contain unreasonable terms and conditions. The prohibitions contained in this rule were made applicable to other HUD housing programs by earlier rulemakings.

DATES: Comments must be received by: February 19, 1988.

ADDRESSES: Interested persons are invited to submit comments regarding this rule to the Office of General Counsel, Rules Docket Clerk, Room 10276, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410. Communications should refer to the above docket number and title. A copy of each communication submitted will be available for public inspection and copying during regular business hours at the above address.

FOR FURTHER INFORMATION CONTACT: James J. Tahash, Director, Program Planning Division, Office of Multifamily Housing Management, Department of Housing and Urban Development, Room 6182, 451 Seventh Street, SW., Washington, DC 20410. Telephone number (202) 426–3970. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Section 202(b) of the Housing and Community Development Amendments of 1978 (12 U.S.C. 1715z–1b(b)) (1978 Amendments) requires the Secretary to assure that "leases approved by the Secretary * * * do not contain unreasonable terms and conditions." (While HUD does not approve the form of lease used by non-insured State-agency projects, the State agency, which is the contract administrator on behalf of the Secretary, does approve the lease.) Section 202(b) applies to multifamily housing projects assisted under section 236 or section 221(d) (3) (BMIR) of the National Housing Act, or under section 101 of the Housing and Urban Development Act of 1965 (Rent Supplement). In addition, the provision applies to projects which were assisted under any of these programs before being acquired by the Secretary and sold subject to a Secretary-held or-insured mortgage and subject to an agreement (in effect while receiving Troubled Projects Operating Subsidy under section 201 of the 1978 Act) which provides that the low-and moderate-income character of the projects will be maintained.

The Department issued a final rule on September 23, 1983 (effective October 23, 1983) that set forth specific provisions that could not be included in a lease used in a project assisted under any of these three authorities. Additionally, the rule advised that HUD would require landlords to use the model lease, as set out in HUD Handbook 4350.3, *Occupancy Requirements of Subsidized Multifamily Housing Programs.* The Handbook requires HUD approval of any variations of the model lease; it also provides that leases containing any of the prohibited provisions will not be approved. The final rule of September 23, 1983 also explained that HUD would require landlords to use the model lease because.

> Use of [the] model lease enables the Department to discharge more efficiently its responsibility to monitor the operation of affected projects for compliance with section 202(b) (3) of the 1978 Act. However, use of the model lease does not preclude landlords from making changes thereto (not including the prohibited provisions enumerated in this rule), provided written approval for the changes is first obtained from the Department. In this regard, HUD will consider revisions proposed to bring the model lease into compliance with State or local law and with property management practices generally accepted in the project's market area. (48 FR 43310, 43312)

HUD also advised that the September 23, 1983 final rule was not being made applicable to State-assisted uninsured section 236 projects. The Department discussed at length in that rule its reasons for not extending the coverage of section 202 of the 1978 Amendments to projects financed and supervised by State agencies. See 48 FR at 43312. The principal reasons advanced by the Department for not extending coverage of section 202 to State-assisted section 236 projects were "the lack of clear congressional intent on this point" and the fact that "the Department's proposed authorization legislation submitted in both 1982 included a proposal to remove uninsured, State-assisted projects from the coverage of section 201, which would also have the effect of removing such projects from [the] coverage of section 202." *Id.* The rule concluded with the advisory, however, that "if the Department's legislative proposal is rejected by the Senate or in conference, the Department will propose an extension of this rule to cover such projects." *Id.* The Department's proposal was rejected, and today's proposed rule would make the prohibited lease terms policy applicable to State-assisted uninsured section 236 projects.

Findings and Certifications

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations at 24 CFR Part 50, which implement section 102(2)(C) of the National Environmental Policy Act of 1969. The Finding of No Significant Impact is available for public inspection during regular business hours in the Office of the Rules Docket Clerk, Office of the General Counsel, Department of Housing and Urban Development, Room 10276, 451 Seventh Street SW., Washington, DC 20410.

This rule would not constitute a "major rule" as that term is defined in section 1(d) of the Executive Order on Federal Regulations issued by the President on February 17, 1981. An analysis of the rule indicates that it would not (1) have an annual effect on the economy of $100 million or more; (2) cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local agencies, or geographic regions; or (3) have a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Under the provisions of 5 U.S.C. 605(b) (the Regulatory Flexibility Act), the undersigned certifies that this rule would not have a significant economic impact on a substantial number of small entities. The rule merely sets forth prohibited legal practices.

This rule is listed as Item No. 951 in the Department's Semiannual Agenda of Regulations published on October 26, 1987 (52 FR 40374) under Executive Order 12291 and the Regulatory Flexibility Act.

The Catalog of Federal Domestic Assistance program numbers are 14.103 and 14.149.

List of Subjects in 24 CFR Part 236

Low and moderate income housing, Mortgage insurance, Rent subsidies, Taxes, Utilities, Projects.

Accordingly, the Department would amend 24 CFR Part 236 as follows:

PART 236—MORTGAGE INSURANCE AND INTEREST REDUCTION PAYMENT FOR RENTAL PROJECTS

1. The authority citation for Part 236 would continue to read as follows:

Authority: Secs. 211 and 236, National Housing Act (12 U.S.C. 1715b, 1715z–1); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

2. In § 236.75, paragraphs (a) and (b) introductory text would be revised to read as follows:

§ 236.75 Form of lease and occupancy agreement.

(a) In the case of a HUD-insured project, a tenant or cooperative member

who is to pay less than the fair market rental shall be acquired to execute a lease or occupancy agreement, as appropriate, that must be in a form approved by the Commissioner and that does not contain any of the lease clauses prohibited under paragraph (b) of this section. In the case of a non-insured State-agency project, the lease approved by the State agency also cannot contain any of the prohibited lease clauses set forth in paragraph (b) of this section.

(b) In addition to prohibiting the inclusion of lease clauses of the nature described below in new leases or occupancy agreements covered by paragraph (a) of this section, such clauses shall be deleted from existing leases and occupancy agreements either by amendment to the leases or occupancy agreements or by execution of a new lease or occupancy agreement.

24 CFR Part 888

[Docket No. N-87-1751; FR-2423]

Section 8 Housing Assistance Payments Program; Fair Market Rents for New Construction and Substantial Rehabilitation—Detroit, MI; Special Revision

AGENCY: Office of the Assistant Secretary for Housing-Federal Housing Commissioner, HUD.

ACTION: Proposed Fair Market Rents.

SUMMARY: Section 8(c)(1) of the United States Housing Act of 1937 requires the Secretary to establish Fair Market Rents (FMRs) periodically, but not less frequently than annually. This document proposes to amend the Fiscal Year 1986 Fair Market Rent Schedule to establish new Firm Market Rents for the Detroit market area in the State of Michigan. These rents are necessary to provide fair market rents comparable to market rents for new construction in this market area.

DATES: Comment Due Date: January 20, 1988.

ADDRESSES: Interested persons are invited to submit comments to the Rules Docket Clerk, Office of General Counsel, Room 10276, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, DC 20410. Communications should refer to the above docket number and title. A copy of each communication submitted will be available for public inspection during regular business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Edward M. Winiarski, Chief Appraiser, Valuation Branch, Technical Support Division, Office of Insured Multifamily Housing Development, 451 Seventh Street SW., Washington, DC 20410-0500, telephone (202) 426-7624. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION:

Background

Section 8 of the United States Housing Act of 1937 (42 U.S.C. 1437f) (the Act) authorizes a system of housing assistance payments to aid lower income families in renting decent, safe, and sanitary housing. These programs, known collectively as the Section 8 Housing Assistance Payments Program, provide assistance payments for lower income families for a variety of housing options, including new construction and substantial rehabilitation.

Under these programs, HUD or public housing agencies (PHAs) make rental assistance payments on behalf of eligible families to owners. When families lease an eligible unit, the housing assistance payment is made and is based upon the difference between the total housing expense and the total family contribution. Initial contract rents, plus an allowance for utilities generally may not exceed area-wide Fair Market Rents (FMRs) established by the Department. FMRs are based primarily on the level of rentals paid for recently completed or newly constructed dwelling units of modest design within each market area as determined by HUD Field Office staff. In addition, for the Fair Market Rents most recently promulgated by the Department (see the August 7, 1986 **Federal Register**, 51 FR 28486), these rents reflected the Department's cost containment efforts in relation to housing assistance provided in the Section 8 New Construction and Substantial Rehabilitation Programs.

This Document

This document proposes a special revision to the entire Fiscal Year 1986 Fair Market Rent applicable to the Detroit, Michigan market area. The 1986 FMRs reflected data submitted by the Detroit Office, as well as the cost containment efforts implemented for all 1986 New Construction and Substantial Rehabilitation Rents. While the data submitted by the field office was proper, it reflected comparables all built during the 1970s because there has been no construction of modestly designed rental housing in Detroit for the past several years. (Moreover, the Detroit market area experienced an economic decline during 1983 and 1984.) HUD's procedures, which are consistent with sound appraisal practices, permit the use of such comparables, which are then adjusted for all variables, including age. Further, where comparables do not exist, HUD procedures permit the use of an interpolation technique to arrive at indicated FMRs. Although the use of interpolation and adjustments to establish rents are sound principles and techniques, the best data for "market rents" would be that from recently constructed projects, as it would necessarily reflect current conditions in the marketplace with respect to financing, vacancy rates, etc., and would provide a degree of assurance that rents so derived should be adequate to support new projects, all factors being equal.

The HUD Field Office has requested that the Department propose new rents for the Detroit market area. Careful analysis of this request and reanalysis of the 1986 FMRs for this market area indicate that the rents resulting from the application on the aforementioned techniques, when modified to reflect the Department's cost containment policies, are not adequate, even when it is clear that there has been compliance with the Department's cost containment guidelines with respect to project design. Therefore, an upward adjustment of the 1986 FMRs for this market area is needed. Accordingly, the Department is proposing a revision of the entire 1986 schedule applicable to the Detroit market area. It is intended that when this schedule is published for effect, its applicability will be the same as set forth in the preamble to the original Fiscal Year 1986 schedule, published on August 7, 1986, at 51 FR 28486.

Other Information

HUD regulations in 24 CFR Part 50, implementing section 102(2)(c) of the National Environmental Policy Act of 1969, contain categorical exclusions from their requirements for the actions, activities and programs specified in § 50.20. Since the FMRs proposed in this Notice are within the exclusion set forth in § 50.20(1), no environmental assessment is required, and no environmental finding has been prepared.

The Catalog of Federal Domestic Assistance Program number and title for the activities covered by this Notice are 14.156, Lower Income Housing Assistance Program (Section 8).

Accordingly, the following amendment to the 1986 Fair Market Rent schedule is proposed for the Detroit, Michigan market area:

SCHEDULE A.—FAIR MARKET RENTS FOR NEW CONSTRUCTION AND SUBSTANTIAL REHABILITATION

[Including Housing Finance and Development Agencies' Programs]

[Region 5—Detroit office market: Detroit]

Structure type	Number of bedrooms				
	0	1	2	3	4+
Detached			703	774	901
Semi-Detached/Row	434	470	576	673	777
Walkup	362	448	528	620	719
Elevator 2-4 STY	397	473	549		
Elevator 5+ STY	396	456	631		

Dated: December 10, 1987.

Thomas T. Demery,

Assistant Secretary for Housing-Federal Housing Commissioner.

BILLING CODE 4210-27-M

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

27 CFR Part 9

[Notice No. 650; Ref: Notice No. 639]

Wild Horse Valley Viticultural Area

AGENCY: Bureau of Alcohol, Tobacco and Firearms, Treasury.

ACTION: Reopening of comment period.

SUMMARY: This notice reopens the comment period for Notice No. 639 (52 FR 34924, September 16, 1987). Notice No. 639 proposed establishment of a viticultural area in Napa and Solano Counties to be known as Wild Horse Valley. The comment period is being reopened for thirty days as a result of a request made by Mr. Ken Volk, President of Santa Lucia Winery Inc., owner of a bonded winery located in Templeton, California. Santa Lucia Winery Inc. is concerned about the proposal since it claims it owns brand labels and advertisements with the trademark "Wild Horse." The winery is concerned about the impact the proposed Wild Horse Valley viticultural area name may have on use of their trademark. Santa Lucia Winery Inc. would like to inspect the petition and related correspondence prior to submitting a comment on the notice of proposed rulemaking.

DATE: Comments must be received on or before January 20, 1988.

ADDRESS: Comments should be addressed to: Chief, Wine and Beer Branch, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue NW., Washington, DC 20226, 202-566-7626.

SUPPLEMENTARY INFORMATION:

Background

On September 16, 1987, ATF published Notice No. 639, proposing an approximately 3,300 acre (or 5.16 square mile) viticultural area located five miles east of the City of Napa, California. The action was based on a petition received from John Newmeyer of Napa and four other interested persons. There are currently no bonded wineries in the proposed viticultural area but according to the petitioner two small wineries are planned. The comment period for the proposed Wild Horse Valley viticultural area closed on November 2, 1987.

On October 30, 1987 (2 days prior to the closing of the comment period), Santa Lucia Winery Inc. requested a 30-day extension of the comment period. Santa Lucia Winery Inc. markets a number of wines with the brand name Wild Horse and trade names Wild Horse Winery, Wild Horse Cellars and Wild Horse. They have been using the name Wild Horse on their wine labels since December 3, 1985. They would like more time to review the Wild Horse Valley petition and submit a comment because they claim they own the trademark "Wild Horse." They believe that consumers may become confused (as to the origin of wines) if both names Wild Horse Valley and Wild Horse can appear on wine labeling and advertising.

Disclosure of Comments

Written comments or suggestions may be inspected by any person at the ATF Reading Room, Office of Public Affairs and Disclosure, Room 4412, Ariel Rios Federal Building, 1200 Pennsylvania Avenue, NW., Washington, DC, during normal business hours.

Drafting Information

The principal author of this document is Edward A. Reisman, Wine and Beer Branch, Bureau of Alcohol, Tobacco and Firearms.

Authority and Issuance

This notice is issued under the authority contained in section 5 of the Federal Alcohol Administration Act, 49 Stat. 981, as amended, 27 U.S.C. 205.

Approved: December 14, 1987.

Stephen E. Higgins,

Director.

BILLING CODE 4810-31-M

DEPARTMENT OF JUSTICE

28 CFR Part 16

[AAG/A Order No. 8-87]

Exemption of Records Systems Under the Privacy Act

AGENCY: Department of Justice.

ACTION: Proposed rule.

SUMMARY: The Department of Justice proposes to exempt a Privacy Act system of records from subsections (c)(3) and (d) of the Privacy Act, 5 U.S.C. 522a. This system is the "Central Index File and Associated Records, JUSTICE/OSC-001." Records contained in this system relate to official Federal investigations and matters of law enforcement. The exemptions are needed to protect ongoing investigations, as well as the privacy of third parties and the identities of confidential sources involved in such investigations.

DATE: Submit any comments by January 20, 1988.

ADDRESS: Address all comments to J. Michael Clark, Assistant Director, General Services Staff, Justice Management Division, Department of Justice, Room 6402, 601 D Street, NW, Washington, DC 20530.

FOR FURTHER INFORMATION CONTACT: J. Michael Clark, (202) 272-6474.

SUPPLEMENTARY INFORMATION: In the notice section of today's **Federal Register**, the Department of Justice provides a description of the "Central Index File and Associated Records, JUSTICE/OSC-001.".

Pursuant to the requirements of the Regulatory Flexibility Act, 5 U.S.C. 601-612, it is hereby stated that the order will not have "a significant economic impact on a substantial number of small entities."

List of Subjects in 28 CFR Part 16

Administrative practice and procedure, Courts, Freedom of information, Privacy and Sunshine Acts.

Pursuant to the authority vested in the Attorney General by 5 U.S.C. 552a and delegated to me by Attorney General Order No. 793-78, it is proposed to amend 28 CFR Part 16 by adding § 16.78 as set forth below.

Dated: December 7, 1987.

Harry H. Flickinger,

Assistant Attorney General for Administration.

PART 16—[AMENDED]

1. The authority for Part 16 continues to read as follows:

Authority: 28 U.S.C. 509, 510; 5 U.S.C. 301, 552, 552a; 31 U.S.C. 483a unless otherwise noted:

2. It is proposed to amend 28 CFR Part 16 by adding § 16.78 to read as follows:

§ 16.78 Exemption of the Special Counsel for Immigration-Related, Unfair Employment Practices Systems.

(a) The following system of records is exempt from 5 U.S.C. 552a(c)(3) and (d).

(1) Central Index File and Associated Records, JUSTICE/OSC–001.

The exemptions apply to the extent that information in their system is subject to exemption pursuant to 5 U.S.C. 552a(k)(2).

(b) Exemptions from the particular subsections are justified for the following reasons:

(1) From subsection (c)(3) because the release of the disclosure accounting would permit the subject of an investigation to obtain valuable information concerning the nature of that investigation. This would permit record subjects to impede the investigation, e.g., destroy evidence, intimidate potential witnesses, or flee the area to avoid inquiries.

(2) From subsection (d) because access to the records contained in this system might compromise ongoing investigations, reveal confidential informants, or constitute unwarranted invasions of the personal privacy of third parties who are involved in a certain investigation.

[FR Doc. 87–29129 Filed 12–18–87; 8:45 am]

BILLING CODE 4410–01–M

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

36 CFR Parts 1202 and 1258

NARA Fee Schedule; Proposed Rulemaking

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of proposed rulemaking.

SUMMARY: This proposed rule will revise fees charged by the National Archives and Record Administration (NARA) for reproduction of records created by other Federal agencies and transferred to the custody of the Archivist of the United States, donated historical materials, and records filed with the Office of the Federal Register. This regulation also proposes to set fees for reproductions made pursuant to Privacy Act requests for NARA administrative records and to FOIA requests for accessioned records. The fees are changed to reflect the current costs of providing the reproduction services.

DATE: Comments must be received on or before January 20, 1988.

ADDRESS: Comments should be sent to Director, Program Policy and Evaluation Division, National Archives and Record Administration (NAA), Washington, DC 20408.

FOR FURTHER INFORMATION CONTACT: Adrienne C. Thomas or Nancy Allard at 202–523–3214 (FTS 523–3214).

SUPPLEMENTARY INFORMATION: In past years, the NARA reproduction fee schedule has been applicable to Privacy Act and FOIA requests for NARA administrative records as well as to routine reference requests and FOIA requests for records transferred to the custody of the Archivist of the United States. The NARA reproduction fee schedule proposed in § 1258.12 will apply only to routine reference requests for records transferred to the custody of the Archivist. To facilitate revision of reproduction fees in response to changing costs, we are proposing to issue fees for FOIA requests for records transferred to the custody of the Archivist of the United States in a new § 1258.11. Proposed changes to the FOIA fee schedule will continue to be published for public comment in a notice of proposed rulemaking.

The proposed fee schedule in § 1258.12 does not differentiate between customer or NARA selection (tabbing) of documents for electrostatic and negative microfilm copies. We have determined that the work that NARA staff must perform in preparing the records for reproduction is essentially the same whether the customer or NARA selects the documents. Therefore, we are eliminating the $0.05 per copy or frame surcharge for NARA tabbed documents.

This proposed rule also estimates in § 1202.50 a separate fee for reproductions of NARA administrative records in response to Privacy Act requests. NARA recently established a separate fee schedule for reproduction of NARA administrative records at 36 CFR 1250.40 (52 FR 29517), as required by the Freedom of Information Reform Act. As we pointed out in that rulemaking, the uniform fee provisions of the Reform Act do not apply to FOIA requests for records transferred to the custody of the Archivist of the United States because a superceding statute, 44 U.S.C. 2116(c), exists.

This rule is not a major rule for the purpose of Executive Order 12291 of February 17, 1981. As required by the Regulatory Flexibility Act, it is hereby certified that this proposed rule will not have a significant impact on small business entities.

List of Subjects

36 CFR Part 1201

Privacy Act.

36 CFR Part 1258

Archives and records.

For the reasons set forth in the preamble, NARA proposes to amend Chapter XII of Title 36 of the Code of Federal Regulations as follows:

PART 1202—REGULATIONS IMPLEMENTING THE PRIVACY ACT OF 1974

1. The authority citation for Part 1202 continues to read as follows:

Authority: 44 U.S.C. 2104(a); 5 U.S.C. 552a.

2. Section 1202.50 is revised to read as follows:

§ 1202.50 Records available at a fee.

The system manager shall provide one electrostatic copy of a record to a requester at a fee of $0.35 per page if NARA makes the copy or $0.10 per page if the requester makes the copy a NARA self-service copier.

PART 1258—FEES

3. The authority citation for Part 1258 continues to read as follows:

Authority: 44 U.S.C. 2116(c).

4. Section 1258.2 is amended by revising paragraph (a) and adding paragraph (c)(10) as follows:

§ 1258.2 Applicability.

(a) Except as otherwise provided in this section, fees for the reproduction of NARA archival records, donated historical materials, and records filed with the Office of the Federal Register are as set forth in § 1258.12.

* * * * *

(c) * * *

(10) The fees for reproductions of archival records made in response to FOIA requests are set forth in § 1258.11.

5. Section 1258.11 is added to read as follows:

§ 1258.11 Fees for reproduction of archival records in response to FOIA requests.

(a) *Electrostatic copies.*

(1) Paper to paper (up to 11 in. by 17 in.):

NARA makes the copy	$0.35
Customer makes the copy on a NARA self-service copier	0.10

(2) Oversized electrostatic copies (per foot): $2.15 (plus $0.20 per foot for vellum paper)

(3) Microfilm to paper:

	Up to 11 in. by 17 in.	18 in. by 24 in.
Work done by customer	$ .30	$ .80
NARA performs the work:		
First copy per roll	1.85	[illegible]
Next consecutive frame or duplicate	[illegible]	1.30
Next nonconsecutive frame	[illegible]	1.50

(b) *Other processes.*

Fees for other reproduction processes not listed in § 1258.11 are computed upon request.

6. Section 1258.12 is revised to read as follows:

§ 1258.12 Fee schedule.

(a) *Authentication:* $2.00

(b) *Still photography:*

(1) Copy negatives (Black & white):

4 in. by 5 in.	$4.40
8 in. by 10 in.	6.00

(2) Copy negatives (Color):

4 in. by 5 in.	$10.85
8 in. by 10 in.	23.30

(3) Slides (from an existing negative):

2 in. by 2 in. (Black & White)	$2.00
2 in. by 2 in. (Color)	2.45

(4) Aerial photographic reproductions:

10 in. by 10 in. direct duplicate negative	$6.95
10 in. by 10 in. contact print	5.50
14 in. by 14 in.	8.70
18 in. by 18 in.	9.20
20 in. by 24 in.	10.20
24 in. by 30 in.	13.25
40 in. by 41 in.	19.55

(c) *Electrostatic copying:*

(1) Paper to paper (up to 11 in. by 17 in.):

Customer makes the copy at a NARA self-service copier	$.10
NARA makes the copy	.35
(2) Oversized electrostatic copies (per foot):	$2.15
Add per foot for vellum paper	.20
(3) Red-line copies	1.15

(4) *Microfilm to paper:*

From positive:	Up to 11 in. by 17 in.	18 in. by 24 in.
Work done by customer	$.30	[illegible]
NARA performs the work:		
First copy per roll	1.85	2.35
Next consecutive frame or duplicate	[illegible]	1.30
Next nonconsecutive frame	[illegible]	1.50

(e) *Microfilm:*

	16mm Rotary	16mm Planetary	[illegible] Planetary	35mm Oversize
(1) Negative (per frame):	.28	.36	.97	.43
(2) Next generation (per foot)	[illegible]	.31	.33	[illegible]
(3) Direct duplicate: (per foot):	[illegible]	.32	[illegible]	[illegible]

(f) *Diazo microfiche duplication (per fiche):* $1.05

(g) *Technical services:*

	Regular	Overtime
Photographer (per hour)	$11.00	$16.50
Microfilm preparation (per hour)	9.50	14.25
Sound & video recordings	11.50	17.25

(h) *Preservation of records.* In order to preserve certain records which are in poor physical condition, NARA may restrict customers to a choice of photostatic or microfilm copies instead of electrostatic copies.

(i) *Unlisted processes.* Fees for reproduction processes not listed in § 1258.12 are computed upon request.

5. Section 1258.16 is revised to read as follows:

§ 1258.16 Effective date.

The fees in § 1258.12 are effective on March 1, 1988.

Dated: November 16, 1987.

Frank G. Burke,

Acting Archivist of the United States.

[FR Doc. 87–29068 Filed 12–18–87; 8:45 am]

BILLING CODE 7515–01–M

POSTAL SERVICE

39 CFR Part 111

Revision of Regulations for Penalty Business Reply Mail Accounting Fees

AGENCY: Postal Service.

ACTION: Proposed rule.

SUMMARY: The Postal Service proposes changing the current regulations regarding penalty business reply mail (BRM) to conform more closely to requirements which apply to commercial customers, and to help integrate BRM with the Official Mail Accounting System (OMAS). OMAS is an automated accounting system for official mail revenue.

DATES: The deadline for submitting comments on this proposal is on or before January 20, 1988.

ADDRESSES: Address written comments to the General Manager, Official & International Mail Accounting Division, U.S. Postal Service, Washington, DC 20260–5230. Copies of written comments received will be available for public inspection and photocopying between 9 a.m. and 4 p.m., Monday through Friday, in Room 8621, 475 L'Enfant Plaza West, SW., Washington, DC 20260.

FOR FURTHER INFORMATION CONTACT: James S. Stanford, (202) 268–3250.

SUPPLEMENTARY INFORMATION: There are three significant changes in the proposed regulations. The first change establishes two methods of paying for BRM. Under one new payment method, agencies are billed through OMAS by establishing a BRM account. Agencies pay an annual accounting fee for each post office ZIP Code where they wish to be billed for returned BRM. This method is recommended for agency locations that project an annual BRM volume of more than 1,000 pieces. Under the other new payment method, agency locations that project a volume of 1,000 pieces or less pay postage and a higher per piece fee, using penalty mail postage meters or stamps when the returned BRM is delivered.

Under current penalty mail BRM regulations, Federal agencies pay only one accounting fee for each assigned permit number, regardless of how many post offices handle their returned BRM. Also, they do not have the option of paying upon delivery. This policy was established when penalty mail BRM accounting was centralized at Postal Service Headquarters. At that time, there was no feasible alternative for Federal agencies to pay upon delivery for BRM without requiring prepayment, which is prohibited by section 3201 of Title 39, U.S. Code.

The new payment methods we propose have been made available because of the decentralization of penalty mail accounting under OMAS, and because agencies may now pay for BRM postage with penalty mail postage meters and stamps. These methods allow us to conform penalty BRM payments to the payment options and fee structure available to our commercial customers. They ensure the proper application of the BRM fee structure to penalty mail, while providing each Federal agency with the option of using the most cost-effective BRM payment method at each BRM return location.

The second proposed change is that Postal Service Headquarters, rather than local post offices, will assign penalty mail BRM permit numbers. This will

prevent agencies from having duplicate numbers, and will allow us to conform to the very successful procedures used to assign permit imprint numbers to Federal agencies. We expect that, in most cases, this new procedure will not require agencies to change their existing BRM permit numbers.

The third proposed change requires Federal agencies to apply for a BRM authorization at each post office where they wish to have BRM returned. Only one application is required, as long as the permit remains active and the information on the application form does not change. In ensures that the correct agency code (and subcode, if desired) is recorded in OMAS, and that the agency has designated its desired BRM payment option for that location.

Although exempt from the notice and comment requirements of the Administrative Procedure Act (5 U.S.C. 553(b), (c)) regarding proposed rulemaking by 39 U.S.C. 410(a), the Postal Service invites public comment on the following proposed amendments to the Domestic Mail Manual, which is incorporated by reference in the code of Federal Regulations. See 39 CFR 111.1.

List of Subjects in 39 CFR Part 111

Postal service.

PART 111—[AMENDED]

1. The authority citation in 39 CFR Part 111 continues to read as follows:

Authority: 5 U.S.C. 552(a); 39 U.S.C. 101, 401, 403, 404, 3001–3011, 3201–3219, 3403–3406, 3621, 5001.

PART 137—OFFICIAL MAIL

2. In 137.276, revise g to read as follows:

137.276 Penalty Reply Mail

* * * * *

g. Penalty Business Reply

(1) General. An agency may pay for penalty business reply mail (BRM) by setting up a BRM account or by paying for BRM upon delivery of the mail. Under a BRM account, the agency will be billed an annual accounting fee by each post office ZIP Code where its mail will be returned, the appropriate postage, and a per piece charge. Under the "payment upon delivery" option, the agency pays the appropriate postage and a per piece charge. In both cases, the agency will be billed an annual BRM permit fee for each assigned permit number. The postage, fees, and charges are the same as in 917.3.

(2) Applying for a BRM permit. An agency must apply for an authorization to use a business reply permit at each post office where its business reply mail will be returned. An agency must complete and submit to each post office a copy of Form 3614, *Application for a BRM Permit* (Exhibit 137.276g(2)), which must include the following:

(*a*) BRM permit number (only Postal Service Headquarters may assign BRM permit numbers—see 137.252 for a list of authorized BRM permit numbers.)

(*b*) Agency code.

(*c*) Agency subcode (if desired)

() Whether the agency desires to set up a BRM account.

Each agency will be assessed a BRM *permit* fee each year by the Official & International Mail Accounting Division at Postal Service Headquarters. At each post office where an agency wishes to set up a BRM account, the post office that handles the account will assess a BRM *account* fee by completing Form 3638–C, *Fee Assessment for Official Mail*, and returning the original copy to the agency. (An agency cannot pay in cash for any official mail transaction.) A contractor may submit an application on behalf of the agency if it is signed by an authorized agency representative.

(3) Formatting BRM. Penalty business reply mail envelopes must bear the address of one of the authorized agencies listed in 137.252, or one of their component units. Envelopes must be printed in the format required by 917.5, with the following exceptions:

(*a*) The address may be printed, typewritten, or handstamped directly on the mailpiece, or a printed gummed label may be affixed in the address area. The address must not be handwritten. All other preparation requirements for the address side in 917.5 must be met.

(*b*) The legend require by 917.524 must read *Postage Will Be Paid By* (name of authorized agency).

Exception: The legend must not appear on Postal Service business reply mail.

(*c*) The space for the permit holder's used described in 917.525e must include the statement, *Official Business, Penalty for Private Use $300.* Space above this statement may be used for return address, logos, distribution codes, etc.

(*d*) Exhibit 137.276g(3)(d) illustrates the penalty business reply mail format.

(4) Renewing a BRM Permit and BRM Account.

(*a*) An agency is automatically billed by Postal Service Headquarters an annual fee for each authorized BRM permit. See 917.33a.

(*b*) If an agency elects the BRM account option, it will also receive an *Annual Fee Renewal Notice* from the post office at which its BRM is delivered. An agency must indicate on the notice which permit options it wishes to renew, and return the notice to the post office by the renewal deadline. If the agency fails to renew an established BRM account, the account will be closed and postage for the BRM mail will be collected under the "payment upon delivery" option described below.

(*c*) If any agency elects the "payment upon delivery" option, no action is necessary for renewal.

(5) Paying BRM Postage and Fees.

(*a*) BRM Account Option. Each post office will record all BRM returned to it each day. It will prepare for each agency a Form 3582–A, *Postage Due Bill*, as a daily record of mail charged to the agency's BRM account, and will submit the form to the agency with its mail. Each accounting period, each post office will summarize BRM activity through the Official Mail Accounting System (OMAS). Postal Service Headquarters will distribute this information to agencies in a quarterly OMAS report.

(*b*) Payment Upon Delivery Option. Under this option, an agency must use penalty mail postage meter strips or penalty mail stamps to pay for BRM when the mail is delivered. The meter strip must be in the exact amount of the postage due, and bear the current date. Postage collected under this option will be included in the overall OMAS postage total, but will not appear under the BRM total.

An appropriate amendment to 39 CFR 111.3 to reflect these changes will be published if the proposed is adopted.

Fred Eggleston,

Assistant General Counsel, Legislative Division.

BILLING CODE 7710-12-M

Application for a BRM Permit

This permit allows the holder to distribute business reply cards, envelopes, self-mailers, cartons, and labels prepared and mailed for return without prepayment of postage under Section 917, Domestic Mail Manual (DMM). First-Class rates and the additional per piece charge for business reply mail will be paid on all pieces returned under this privilege. The permit holder must prepare mailing pieces in accordance with DMM 917, and understands that failure to conform with these requirements may be considered basis for revocation of this permit. The annual business reply permit fee and the annual accounting fee, if payment is from a BRM account, must accompany this form. If permit is not renewed by December 31, BRM will not be delivered.

Permit Holder's Name, Street Address, City & State, ZIP + 4 code

Telephone Number	Federal Agency Code - Subcode

Post Office to which application is submitted (include City & State, ZIP + 4 code):

Signature & Title of Applicant	Date

The Postmaster must complete and return bottom portion to applicant.

Permit Number	Date Issued	BRM Account yes no

You are authorized to distribute business reply cards, envelopes, self-mailers, cartons, and labels under the provisions of Domestic Mail Manual (DMM) 917. Your permit number must appear on each item and you must notify this office of any name or address change or permit cancellation. Only mail prepared in accordance with DMM 917 will be accepted as business reply mail. You must renew your permit by December 31 each year, or BRM will not be delivered.

Permit Number	BRM Permit Fee Receipt Number
BRM Account yes ☐ no ☐	BRM Account Fee Receipt Number
Date Issued	Postmaster's Signature

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[FRL-3303-7]

Approval and Promulgation of Implementation Plans; State of Oklahoma; Stack Height Regulations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This notice proposes approval of Oklahoma's Regulation 1.4.2(b) "Stack Height Limitation" which was submitted by the Governor on April 30, 1986. Regulation 1.4.2(b) is at least as stringent as the recent revisions to EPA's Stack Height Regulations, except for the inclusion of one definition.

Each State was required to review its State Implementation Plan (SIP) for consistency within nine months of final promulgation of the stack height regulations. The intended effect of this action is to formally document that Oklahoma has satisfied their obligations under section 406 of the Clean Air Act to review its SIP with respect to EPA's revised stack height regulations and to propose approval of the State's revised regulation.

DATES: Comments must be received at the Region 6 office by January 20, 1988. Public comment on this submittal is requested and will be considered before taking final action.

ADDRESSES: Written comments on this action should be addressed to Thomas Diggs of the EPA Region 6, Air Programs Branch, SIP/NSR Section (address below). Copies of the documents relevant to this action are available for public inspection during normal business hours at the following locations:

U.S. Environmental Protection Agency, Region 6, Air Programs Branch (6T-AN), 1201 Elm Street, Dallas, Texas 75270.

Oklahoma State Department of Health, Air Quality Service, 1000 Northeast 10th Street, P.O. Box 53551, Oklahoma City, Oklahoma 73152.

FOR FURTHER INFORMATION CONTACT: Gregg C. Guthrie, Air Programs Branch, EPA Region 6, 1201 Elm Street, Dallas, Texas 75270, telephone (214) 655-7214 or (FTS) 255-7214. Reference Docket File Number OK-86-1.

SUPPLEMENTARY INFORMATION: On February 8, 1982 (47 FR 5864), EPA promulgated final regulations limiting stack height credits and other dispersion techniques as required by section 123 of the Clean Air Act (the Act). These regulations were challenged in the U.S. Court of Appeals for the D.C. Circuit by the *Sierra Club v. EPA*, 719 F. 2d 436. On October 11, 1983, the court issued its decision ordering EPA to reconsider portions of the stack height regulations, reversing certain portions and upholding other portions.

On February 28, 1984, the electric power industry filed a petition for a writ of certiorari with the U.S. Supreme Court. On July 2, 1984, the Supreme Court denied the petition (104 S. Ct. 3571), and on July 18, 1984, the Court of Appeals' mandate was formally issued, implementing the court's decision and requiring EPA to promulgate revisions to the stack height regulations within six months. The promulgation deadline was ultimately extended to June 27, 1985.

Revisions to the stack height regulations were proposed on November 9, 1984 (49 FR 44878), and finalized on July 8, 1985 (50 FR 27892). The revisions redefine a number of specific terms including "excessive concentrations," "dispersion technique," "nearby," and other important concepts, and modified some of the bases for determining good engineering practice (GEP) stack height. Pursuant to section 406(d)(2) of the Act, all states were required to (1) review and revise, as necessary, their state implementation plans (SIPs) to include provisions that limit stack height credits and dispersion techniques in accordance with the revised regulations and (2) review all existing emission limitations to determine whether any of these limitations have been affected by stack height credits above GEP or any other dispersion techniques. For any limitations so affected, states were to prepare revised limitations consistent with their revised SIPs. All SIP revisions and revised emission limits were to be submitted to EPA within nine months of promulgation, as required by section 406.

Plan Review

The State of Oklahoma found its SIP needed revision to include the provisions in the revised Federal regulations. EPA received the revision on June 9, 1986, from the Oklahoma State Department of Health (OSDH). EPA reviewed the revision and developed an evaluation report.[1] This evaluation report is available for inspection by interested parties during normal business hours at the EPA Region 6 office. The State's regulation meets all of EPA's criteria for approval, with the exceptions of acceptable definitions of "Emission Limitation and Emission Standard", and "Dispersion Technique".

The States regulation 1.4 is their Permitting and New Source Review Program. Regulation 1.4.2(b) "Stack Height Limitation" is part of regulation 1.4 and therefore will apply to all new or modified sources as required in 40 CFR (old 51.18(1)) 51.164. All existing sources have been reviewed and found to be in compliance with regulation 1.4.2(b) therefore satisfying the requirements of 40 CFR (old 51.12(j)) 51.118(a).

EPA's review has found Oklahoma's regulation to be at least as stringent as the Federal regulations. Regulation 1.4.2(b) does not provide for excluding stack heights in existence before December 31, 1970 [See 40 CFR (old § 51.12(k)) 51.118(b)], and the definition of "Dispersion Technique" does not include source process parameters or stack parameters; smoke management; or woodburning and open burning episodic restrictions. Specifically, the definition of "Dispersion Technique" does not include the Federal exemptions in paragraphs (iii) and (iv) under paragraph (c) of 40 CFR (old § 51.1(jj)(2)(ii)) 51.100 (jj)(2)(ii). The definition of "Good Engineering Practice" provides only the Commissioner of the OSDH authority to require a field study or fluid modeling study to verify the GEP stack height. (EPA's definition gives the authority to EPA, the State, or the local control agency.) EPA believes that is acceptable because under the current Federal regulations, EPA has authority to require a field study or fluid modeling study to verify the GEP stack height.

The State definitions adopted in 1.4.2(b) are similar to Federal definitions. The State has not, however, included the definition of "Emission Limitation and Emission Standard" in its regulation. EPA request that the OSDH add this definition or a schedule to adopt this definition during the public comment period. The State's definition of "Dispersion Technique" does not prohibit manipulation of source process parameters and stack parameters to increase final exhaust gas plume rise. EPA notified the State of the discrepancy and the State has agreed to revise the definition in a November 6, 1987, letter.

Proposed Action

EPA is proposing approval of the SIP revision for Oklahoma Regulation 1.4.2(b) "Stack Height Limitation". EPA will not take final action until the State amends the definitions as outlined above.

[1] Evaluation Report for the Oklahoma Regulation 1.4.2(b) "Stack Height Limitation".

VOL 52 ISS 244 DEC 21 1987 UMI

Regulatory Process

Under 5 U.S.C. 605(b), I certify SIP approvals do not have a significant economic impact on a substantial number of small entities. (See 146 FR 8709).

The Office of Management and Budget has exempted this rule from the requirement of section 3 of Executive Order 12291.

Asbestos; Proposed Release of Information

AGENCY: Environmental Protection Agency (EPA).

ACTION: Release of additional information.

SUMMARY: EPA requests comment on its intention to release publicly, under the authority of section 14(a)(4) of the Toxic Substances Control Act (TSCA), 15 U.S.C. 2613(a)(4), three documents that disclose some information currently treated as Confidential Business Information (CBI) because this information is relevant to the Agency's rulemaking proceeding to ban and phase out the use of asbestos (50 FR 3738, January 29, 1986). EPA will soon place in the public rulemaking docket three major documents containing analyses necessary to support the asbestos rulemaking and developed using information currently treated by EPA as CBI. These documents are: The Asbestos Exposure Assessment, the Asbestos Modeling Study, and the Regulatory Impact Analysis. To permit effective comment on these analyses, EPA is proposing the complete release of these documents without deleting the CBI contained in them. To limit the public disclosure of CBI, the documents generally contain aggregated data rather than specific pieces of information that were claimed as CBI. Further, EPA does not intend to release the underlying CBI data used in creating these documents. This notice describes the types of information EPA proposes to release and the process for commenting on the Agency's proposal to release it. The three documents will not be placed in the public docket until after the close of the comment period on this notice. EPA will also provide notice to all affected persons at least five days prior to any disclosure of information claimed confidential.

DATES: Comments on this notice must be received by EPA on or before January 20, 1988.

ADDRESS: Submit written comments, identified by the docket control number (OPTS–62036B), in triplicate to: Document Processing Center (TS–790), Room L–100, Office of Toxic Substances, Environmental Protection Agency, 401 M St. SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Edward A. Klein, Director, TSCA Assistance Office (TS–799), Office of Toxic Substances, Environmental Protection Agency, Rm. E–543, 401 M St. SW., Washington, DC 20460, (202–554–1404).

SUPPLEMENTARY INFORMATION:

I. Background

EPA, on January 29, 1986, proposed a rule under section 6 of TSCA which would ban immediately the manufacture, import, and processing of certain asbestos products, and would phase out the remaining products over a ten-year period. This proposal outlined several options for implementing the ban and phase out and allowed five months for public comment. EPA received approximately 200 written comments. Further public input occurred in legislative and cross-examination hearings in July and October of 1986.

Some of the information upon which the proposal was based was gathered in the years 1979, 1980, and 1981. EPA has updated its information base with data collected in 1986 telephone survey and a 1986–1987 Asbestos Exposure Assessment Questionnaire, both conducted by EPA's contractor, ICF Incorporated. Using this updated information base, EPA has revised many of the analyses supporting the rulemaking proceeding. In the near future, EPA intends to place three documents which obtain the revised analyses in the public docket for comment: the Asbestos Exposure Assessment, the Asbestos Modeling Study, and the Regulatory Impact Analysis (RIA). The Asbestos Exposure Assessment analyzes the occupational exposure to asbestos and asbestos releases from manufacturing plants and commercial operations in the United States. The Asbestos Modeling Study analyzes the ambient exposure levels resulting from the release of asbestos to the atmosphere from industrial and commercial sources. The RIA contains discussions of the costs and benefits of various regulatory options; a regulatory flexibility analysis, including distribution analysis, community impact analysis, small business impacts, and international trade impacts; appendices on models and computational procedures, survey results, use and substitutes analyses, health effects and studies, the cost of converting capital equipment from asbestos-using processes, producer surplus loss determination, economic impacts data and analyses, and sensitivity analysis.

Information used in producing the revised analyses was obtained from numerous sources; some of the information is public, some claimed confidential. The CBI used in the revised analyses was derived from the sorices: The 1986 EPA telephone survey responses, the 1986–1987 Asbestos Exposure Assessment Questionnaire responses, and reports submitted under the Asbestos Reporting Requirements Rule promulgated under the authority of section 8(a) of TSCA (40 CFR 763.60, *et seq.*). The revised analyses were primarily based on information obtained through the 1986 telephone survey and the 1986–1987 Asbestos Exposure Assessment Questionnaire, because the survey and questionnaire provided more recent information than the reports under the Asbestos Reporting Requirements Rule. The form used by ICF Incorporated in conducting the 1986 telephone interview, as well as the cover letter and questionnaires from the Asbestos Exposure Assessment Questionnaire have been placed in the public docket established for the rulemaking (OPTS–62036). The public docket is located in room NE–G004, 401 M Street, Washington, DC 20460.

The Asbestos Reporting Requirements Rule, promulgated on July 30, 1982, required persons who manufactured, imported, mined, or processed asbestos before the date of the rule to report on their respective activities. The reported information included data on the quantity and use of asbestos, annual imports and exports, worker exposure, and utilization of pollution control equipment. This data base was the primary information source used for creating documents to support the proposed rule.

The revised analyses reflected in the three documents to be released for comment rely heavily on the Asbestos Reporting Requirements Rule for only two types of information: Production volumes for all product categories and exposure information for products that are no longer being maufactured in the United States. Other information from the reporting rule was only used either

in cases where no equivalent data were available from the 1986 telephone survey or questionnaire, or in cases where both old and new data were needed to determine a rate of change. For example, to determine a baseline rate of asbestos consumption, it was necessary to look at two different amounts of asbestos consumed at two different points in time.

The telephone survey and the Asbestos Exposure Assessment Questionnaire were conducted at the end of 1986 and the beginning of 1987, after the promulgation of the Occupational Safety and Health Administration's (OSHA) regulations lowering the Permissible Exposure Level for occupational exposure to asbestos (51 FR 22612, June 20, 1986). The 1986 telephone survey updated and expanded the data base provided by the Asbestos Reporting Requirements Rule. In addition to contracting the manufacturers, importers, and miners who reported to EPA under the Asbestos Reporting Requirements Rule, ICF Incorporated also contacted new entrants into the asbestos market and several manufacturers of substitute fibers and products.

The Asbestos Exposure Assessment Questionnaire sought to assess occupational exposure and air release information from mining and milling of asbestos, primary and secondary manufacturing of asbestos-containing products, and nonmanufacturing operations using both U.S. produced and imported asbestos-containing products. A significant amount of the information gathered from these questionnaires was claimed by the responding companies to be CBI.

Much of the data from the telephone survey, the Asbestos Exposure Assessment Questionnaire, and the Asbestos Reporting Requirements Rule has been treated by EPA as CBI because many persons initially requested that information they supplied be treated as CBI. EPA has not evaluated the validity of these initial CBI claims. The analyses and information derived from these data have also been treated by EPA as CBI. To produce versions of EPA's new analyses which would not disclose CBI directly or indirectly, many of the tables and numbers used to create the three revised documents would have to be deleted or obfuscated before the documents could be placed in the public docket. If EPA did this, however, EPA believes it may be virtually impossible for interested persons to comment on the Agency's analysis. The large amount of data deleted or obfuscated due to CBI considerations would impede the disclosure of the factual materials used by EPA in developing the final rule.

Accordingly, EPA intends to place the Asbestos Exposure Assessment, the Asbestos Modeling Study, and the RIA in the public docket with no tables or information deleted due to CBI considerations. This action may cause some information claimed as CBI to be disclosed. Therefore, EPA is proposing to invoke its authority under TSCA section 14(a)(4) to disclose CBI that is relevant in this TSCA rulemaking proceeding. EPA will make all reasonable efforts to limit disclosure of CBI when making these three documents public by releasing in most cases data aggregated on a product category basis, thus allowing adequate public comment, while maintaining the confidentiality of most company-specific data obtained through the reporting rule, the questionnaire, and the telephone survey.

II. Authority and Rationale for the Release of Information

Section 14(a) of TSCA generally prohibits release of CBI "obtained * * * under [TSCA]." Information "obtained" under TSCA includes all the data from the Asbestos Reporting Requirements Rule, the Asbestos Exposure Assessment Questionnarie, and the 1986 telephone survey. Section 14(a)(4), however, provides that CBI

> may be disclosed when relevant in any proceeding under this Act, except that disclosure in such a proceeding shall be made in such a manner as to preserve confidentiality to the extent practicable without impairing the proceeding.

EPA's procedural rules governing release of CBI under seciton 14(a)(4) are found at 40 CFR 2.306(i). Section 2.306(i)(2) provides that EPA may not release CBI under section 14(a)(4) until affected businesses have been informed that the Agency is considering making the information available to the public and have been afforded a reasonable opportunity to comment. After considering any timely comments, the EPA General Counsel is to determine whether the information is relevant to the subject of an identified rulemaking proceeding, and the EPA office conducting the proceeding is to determine whether the public interest would be served by making the CBI available to the public. Any affected businesses are to be given at least five days notice prior to making the information available to the public.

EPA is not at this time challenging the validity of the underlying claims that certain information is CBI. However, EPA does believe that well informed public comment on the revised analyses in the three documents would be virtually impossible without release of the information in the documents currently being treated by EPA as CBI. Pursuant to 40 CFR 2.306(i)(2), this notice provides an opportunity for affected businesses and the public to comment on the proposed disclosure of the CBI to support the asbestos ban and phase out rulemaking. It also sets forth the preliminary reasoning of the EPA General Counsel as to the relevance of the information to the asbestos rulemaking and the reasoning of the EPA Office of Toxic Substances regarding the public interest to be served by releasing the information. If EPA determines after the comment period for this notice that this information may be disclosed, EPA will notify the businesses affected by the release of information which may be CBI through a Federal Register notice at least five days before the Agency intends to place the three revised support documents in the public docket.

EPA's preliminary conclusion is that the CBI discussed in this notice and contained in the three documents is relevant to the asbestos ban and phase out rulemaking and that it is in the public interest to make the CBI available to the public to allow full and effective comment on this important and complex rulemaking.

First, the information is relevant to the asbestos ban and phase out rulemaking proceeding because it provides the basis for a determination, required under section 6(a) of TSCA, as to whether asbestos activities present an unreasonable risk of injury to human health or the environment. The Asbestos Exposure Assessment, the Asbestos Modeling Study, and the RIA also provide the technical analysis required under section 6(c)(1) of TSCA. Under this section, EPA must consider the following factors when determining whether activities involving a chemical substance or mixture present an unreasonable risk:

(1) The effects of such substance or mixture on health and the magnitude of the exposure of human beings to such substance or mixture.

(2) The effects of such substance or mixture on the environment and the magnitude of the exposure of the environment to such substance or mixture.

(3) The benefits of such substance or mixture for various uses and the availability of substitutes for such uses.

(4) The reasonably ascertainable economic consequences of the rule, after consideration of the effect on the national economy, small business,

technological innovation, the environment, and public health.

Second, it is in the public interest to release the information to ensure that interested persons can adequately comment on the Agency's revised analyses. Well documented analyses would enable the public to judge the validity of EPA's analytical methods and findings. Further, thorough documentation would facilitate informed comment that could improve the final rule for the ban and phase out of asbestos.

Third, a less complete release of information, including only ranges of data or limited classes of information, would not allow effective public comment given the complexity of the issues and the documents involved at this stage in the rulemaking. In the Federal Register of June 13, 1983, EPA announced the disclosure of aggregate statistics of CBI Asbestos Reporting Requirement Rule data. These procedures were followed in developing analyses in support of the proposed ban and phase out rule. While disclosure of broad ranges was adequate for comment on the analyses used to support the proposed rule, EPA believes that employing these procedures for the public versions of the revised analyses for the final rule would significantly hamper public comment.

The 1983 data aggregation procedures used for asbestos data provided that individual CBI components of an aggregate be afforded certain minimum levels of protection before the aggregate could be publicly disclosed. This generally means that a numerical range was disclosed instead of a specific aggregate figure. Narrower ranges generally provide less protection than broader ranges. The broad ranges that would be necessary to protect CBI for the analyses for the final rule, however, would create vagueness and generality that would hamper the public's ability to analyze the data and comment effectively. The size of the range that would be required if EPA used the 1983 procedures is dependant on the number of CBI components of the aggregate and the proportional distribution of the numbers comprising the aggregate figure. Generally, the smaller the number of companies in a particular mining, milling, or product category, the greater the range created to mask the individual components. Because many asbestos categories used in the revised analyses have few producers, the resulting ranges necessary to be protective of CBI would in some cases be quite large.

Further, because different classes of information are often interrelated, it is extremely difficult to isolate and protect any specific type of information. For example, the protection of production volumes would also require curtailing the release of the number of workers involved because companies that have asserted CBI claims have argued that in many asbestos mining, milling, or manufacturing industries there is a close correlation between the number of workers involved and the amount of product.

Fourth, the release of information claimed and currently treated as CBI is also mitigated by the fact that some of that information probably does not qualify as CBI under the standards of section 14(a) of TSCA. During the 1986 telephone survey, companies were asked whether they would like to claim the information they submitted as CBI. Some of the information obtained from the survey was available to the public, and therefore not eligible for treatment as CBI. EPA sought to clarify CBI claims and subsequently sent a letter asking companies to verify that EPA had properly recorded the facts they submitted, and to clarify what information, if any, the companies specifically claimed as CBI. Only 3.8 percent of the contracted parties specifically requested that their information continue to be treated as CBI. When revising the analyses, EPA decided to continue treating information from the survey as CBI, because the Agency was not certain that all parties who responded to the telephone survey received the letter or that those that did receive the letter understood that failure to affirm their claims that their data was CBI could result in disclosure of the submitted information.

EPA is therefore proposing to release complete versions of the Asbestos Exposure Assessment, the Asbestos Modeling Study, and the Regulatory Impact Analysis as part of the section 6 rulemaking proceeding for the ban and phase out of asbestos. Businesses which provided information through the 1982 Asbestos Reporting Requirements Rule, the 1986–1987 Asbestos Exposure Assessment Questionnaire, or the 1986 telephone survey should be aware that part of the information they submitted could be disclosed. However, EPA will preserve the confidentiality of information to the fullest extent practicable without impairing the rulemaking proceeding by releasing aggregated data on a mining, milling, or product category basis. EPA will not further protect individual components of aggregates by creating broad ranges around the aggregate figures to protect the individual values. As noted earlier, EPA has concluded that such ranges would not give persons sufficient information to comment effectively on these documents. However, most of the companies in the asbestos industry are in product categories comprised of sufficient numbers of producers to ensure that the confidentiality of information provided by individual companies in these categories would be protected through the release of aggregated data.

Available data indicates that more than half of the companies in the asbestos industry are in only four product categories: non-roof coatings, roof coatings, disc brake pads, and drum brake linings. Each of these four categories is comprised of over ten companies. The majority of companies in the asbestos industry would thus be afforded much protection through the release of information aggregated on a product category basis in these documents. While EPA is proposing to release these three documents with some CBI revealed in them, EPA is not proposing to release the underlying logs from the telephone surveys, the exposure questionnaires, or the Asbestos Reporting Requirements Rule reports, because such additional disclosure would not be necessary to allow an adequate opportunity for comment.

This section 14(a)(4) action is limited to the information released in the three documents. Should EPA decide to release information not contained within these three documents, and currently treated as CBI, the Agency would proceed separately under 40 CFR Part 2. However, once the three documents are released, EPA may use the information released in these three documents in subsequent analyses and public documents as part of the asbestos ban and phase out rulemaking without further notice.

EPA believes the proposed release of information currently treated as CBI in the Asbestos Exposure Assessment, the Asbestos Modeling Study, and the Regulatory Impact Analysis is necessary to allow effective public comment on these documents. Persons who wish to comment in opposition to this proposed released of information currently treated as CBI should specify alternatives to this release of information which would enable adequate public comment on the three documents, or they should explain how the public would be able to comment adequately on the new documents without any disclosure of the information treated as CBI.

III. Types of Information To Be Released

This unit outlines the types of information which are proposed to be released in the Asbestos Exposure Assessment, the Asbestos Modeling Study, and the Regulatory Impact Analysis, so that companies may determine whether information they provided to EPA is likely to be included in this proposed release.

Much of the analysis used in creating the support documents divided asbestos use on a product-by-product basis, with mining and milling retained as a separate category. The uses of asbestos and asbestos substitutes generally have been divided into 35 product categories.

Product Category

1. Commercial paper
2. Rollboard
3. Millboard
4. Pipeline wrap
5. Beater-Add gaskets

The analyses used in creating the Asbestos Exposure Assessment, the Asbestos Modeling Study, and the RIA were based on numerous types of information. An example of these analyses is the determination of the total costs that would be imposed on society should the rule be promulgated. The total costs incurred by a ban and phase out of asbestos use is the sum of total producer loss and total consumer loss. To determine consumer loss, EPA looked at the prices of asbestos-containing products and substitute products. Using these prices in conjunction with the Agency's projections of the unregulated level of use of asbestos-containing products, and the Agency's estimates of the market share that a substitute product would capture if asbestos were to be banned, the Agency estimated total consumer loss. To determine producer loss, EPA analyzed the cost of converting the capital equipment used in manufacturing asbestos products, and information on production volumes. Adding the producer and consumer losses together, the Agency estimated the total monetary loss that would be accrued with a ban and phase out of asbestos products.

This estimate is a fundamental part of the cost-benefit analysis for the asbestos ban and phase out rulemaking. As evidenced by this example, many types of information integral to the Agency's analyses must be cited.

EPA will protect information on individual firms as far as practicable by releasing data aggregated by mining, milling, or product category. However, in cases where there are few companies, or even a single company, in a production or use area, non-ranged numbers for that production or use area would be released. To facilitate public comment on EPA's economic and exposure modeling, the following types of information could be released on a mining, milling, or product category basis in most cases.

1. Aggregate numbers of workers and other people exposed to occupational and nonoccupational asbestos release, and the duration, magnitude, and level of this exposure.

2. Manufacturers of products containing asbestos and products containing asbestos substitutes.

3. Location of asbestos mining and manufacture (plant sites).

4. Name and specific types of asbestos substitutes (There are two main divisions of asbestos substitutes. Fibers, such as ceramic or metallic fibers, have been used as substitutes for asbestos fiber. There are also substitute products which act as functional substitutes for asbestos products. For example, polyvinylchloride pipe acts as a functional substitute for asbestos cement pipes.)

5. Aggregate amounts of asbestos and non-asbestos fiber used, consumed, mined or released.

6. Aggregate production volumes for both mining and manufacture of asbestos and asbestos substitute fiber and products.

7. Market prices of asbestos products and asbestos product substitutes. (These prices are likely available to the public, and thus may not be CBI.)

8. Aggregate numbers of miners, manufacturers, importers, and exporters in a particular product area for both asbestos and asbestos substitute fiber and products.

9. Aggregate numbers of mining, manufacturing, or processing sites for asbestos products.

10. Aggregate amounts of asbestos and asbestos substitutes imported and exported.

11. Numbers of workers subject to lay offs due to a restriction of the manufacture of asbestos products. (This may be calculated on a community basis, which in some cases may mean a single plant, rather than a product category basis.)

12. Aggregate costs of options, such as the cost of labelling, which effectively releases production volume information.

13. Costs of converting capital used to mine or manufacture asbestos or asbestos-containing products to other uses.

14. Asbestos coefficients (percent of asbestos in a product), which reflect the amount of asbestos used in manufacturing a product. (This can be directly calculated from the fifth and sixth type of information listed.)

15. Consumption/production ratios, related to imports and exports (Consumption/production ratios are the amount of asbestos or an asbestos product consumed in the United States divided by the amount of asbestos or an asbestos product produced in the United States. This can be directly calculated from the sixth and tenth type of information listed.)

42 CFR Part 433

[BQC-68-P]

Medicaid Program; Refunding of Federal Share of Overpayments Made to Medicaid Providers

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Notice of proposed rulemaking.

SUMMARY: This proposed rule would amend the Medicaid regulations to specify the requirements and procedures under which States are allowed 60 days following the date of discovery of an overpayment to a Medicaid provider to recover or attempt to recover the overpayment before the Federal share must be credited to HCFA. The Federal Government will share in any overpayments that the State documents it is unable to recover because the debts of the provider have been discharged in bankruptcy or the provider is out of business.

The proposed regulations would implement section 9512 of the Consolidated Omnibus Budget Reconciliation Act of 1985.

DATE: To be considered, comments must be mailed or delivered to the appropriate address, as provided below, and must be received by 5:00 p.m. on February 19, 1988.

ADDRESS: Address comments in writing to: Health Care Financing Administration, Department of Health and Human Services, Attention: BQC-68-P, P.O. Box 26676, Baltimore, Maryland 21207.

If you prefer, you may deliver your comments to one of the following locations:

Room 309-G, Hubert H. Humphrey Building, 200 Independence Ave., SW., Washington, DC., or

Room 132, East High Rise Building, 6325 Security Boulevard Baltimore, MD.

Please address a copy of comments on information collection requirements to: Office of Information and Regulatory Affairs, Attention: Allison Herron, Office of Management and Budget, Room 3208, New Executive Office Building, Washington, DC 20503.

In commenting, please refer to file code BQC-68-P. Comments will be available for public inspection as they are received, beginning approximately 3 weeks after publication, in Room 309-G of the Departmental offices at 200 Independence Ave., SW., Washington, DC, on Monday through Friday of each week from 8:30 a.m. to 5:00 p.m. (202-245-7890).

SUPPLEMENTARY INFORMATION:

Background

Federal grants to the States are authorized under title XIX (Medicaid) of the Social Security act (the Act) to provide financial sharing in medical assistance to certain needy individuals. Medicaid programs are financed jointly with Federal and State funds and are administered by the State. A State administers its Medicaid program in accordance with a State Medicaid plan approved by the Administrator of HCFA.

In carrying out the Medicaid program, the State Medicaid agency pays institutional providers of services (e.g., hospitals, long-term care facilities, and health maintenance organizations) and noninstitutional providers of services (e.g., clinics, laboratories, and physicians) for medical assistance furnished to eligible Medicaid recipients. HCFA pays the Federal share of expenditures for the Medicaid program to the State on a quarterly basis according to the percentages described in section 1903 and the formula described in section 1905(b) of the Act. In general, the State estimates its funding requirements prior to the start of each quarter of a fiscal year. HCFA reviews this projection and grants the State a sum to cover the Federal share of estimated allowable payments to be made by the State to providers in accordance with the State plan. This sum is referred to as Federal financial participation (FFP).

Within 30 days after the end of each quarter, each State submits an accounting report (Form HCFA-64, Quarterly Statement of Expenditures) showing its actual expenditures during the quarter that has ended. After deferring the Federal share of questioned expenditures and disallowing the Federal share of unallowable expenditures, HCFA compares allowable FFP to the amount previously advanced to the State for that quarter. Any adjusting of amounts owed HCFA or the State is reflected in a subsequent grant award.

Improper payments occur from time to time in any large claims processing system. Under Medicaid, some improper State payments during a quarter may not be detected by the Federal Government or the State until after the State has submitted its expenditure report for that quarter to HCFA. Consequently, the Federal Government unknowingly participates in overpayments made by the State agency, as these amounts are included in the expenditures reported to HCFA prior to discovery of the overpayments.

Federal laws provide for the recovery of the Federal share of Medicaid overpayments. The Federal Claims Collection Act of 1966 (FCCA), 31 U.S.C. 3711, as amended by the Debt Collection Act of 1982, requires each Federal agency to attempt to collect money owed the Federal Government from claims generated through agency activities. This requirement of the FCCA is implemented in regulations at 45 CFR Parts 30 and 101 through 105. In addition, section 1903(d)(2)(A) of the Social Security Act specifically requires that FFP for Medicaid be reduced or increased to the extent of any overpayment or underpayment that the Secretary determines was made to a State in any prior quarter. Section 1903(d)(3) of the Act provides that the Secretary must consider the pro rata Federal share of the net amount recovered during any quarter by a State to be an overpayment, to be adjusted under the provisions of section 1903(d)(2) of the Act. Under section 1903(d)(2) of the Act, HCFA adjusts FFP for the quarter in which any overpayment is reported. This offset is contingent upon a State notifying HCFA of an improper payment to a provider, or upon discovery of overpayments through HCFA, HHS, or GAO audit processes. Before enactment of the Consolidated Omnibus Budget Reconciliation Act of 1985 (discussed in detail in the next section of this document), if a State reported an overpayment or if an overpayment was discovered in a Federal review, the Federal share of the overpayment amount was subject to immediate refund by the State through the grant award process under the provisions of section 1903 of the Act.

Legislative Changes

Section 9512 of the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA), Pub. L. 99-272, enacted on April 7, 1986, amended section 1903(d) of the Social Security Act to change the refund requirements for overpayments made to Medicaid providers. Section 9512 added a section 1903(d)(2)(C) to provide that a State has 60 days from discovery of an overpayment to a person or other entity to recover or attempt to recover that overpayment before the Federal share of the overpayment must be refunded to HCFA through an adjustment in its FFP payment. Sections 1903(d)(2) (C) and (D) further provide that an adjustment to the FFP payment to the State must be made at the end of the 60-day period, whether or not the overpayment has been recovered by the State, unless the State has been unable to recover the overpayment because the overpayment is a debt that has been discharged in bankruptcy or is otherwise uncollectable from a provider. Section 9512 of COBRA is effective for all overpayments identified for quarters beginning on or after October 1, 1985.

Discussion and Provisions of the Proposed Regulations Definition of Overpayment.

For purposes of implementing section 9512 of COBRA, we propose to define an overpayment in these regulations as the amount which is paid by the State Medicaid agency to a person or other entity in excess of the amount that is proper under section 1902 of the Act and which is required to be refunded to HCFA under section 1903 of the Act. (In this document, "person or other entity" is referred to as a "provider" in accordance with the definition at 42 CFR 400.203 of the Medicaid regulations.) Some examples of situations that may constitute overpayments are: Duplicate payments; payments for noncovered services; payments to the wrong provider; and payments at incorrect rates. Situations involving excessive provider reimbursement attributable to rate-setting methods or aggregate payments that are higher than the Medicare upper payment limit also may be considered overpayments. However, determining whether an amount paid to an institutional provider under any rate-setting system is considered an overpayment that is recoverable under these proposed regulations would depend on the manner in which the State pursues recovery of the excess amounts. If an overpayment to an institutional provider for a prior year's reported costs is discovered and the State recovers that overpayment solely through a reduction in the provider's per diem rate for a subsequent year, that overpayment would not be subject to the requirements of these proposed regulations. In this case, no refund of the Federal share explicitly related to the original overpayment would be required. However, if, in addition to or instead of reducing the current per diem rate, the State chooses to recover any excess amounts previously paid by a lump sum repayment, by an installment repayment plan, or by withholding a portion of future payments to the provider, an overpayment subject to these proposed regulations would exist and the Federal share of that amount would have to be refunded according to the provisions of sections 1903(d) (2) and (3) of the Act. Therefore, we would consider excessive provider payments attributable to rate-setting systems as overpayments subject to these proposed regulations only if recovery is pursued for discrete amounts (and not if recovery is pursued by reducing future per diem rates). We propose this policy because it would not be administratively feasible for States to adjust properly for unallowable costs under the provisions of these proposed regulations where a State pursues recovery of those amounts solely through reductions in current per diem rates.

Cases involving third party liability would not be subject to these proposed regulations since, by definition, such situations do not constitute overpayments but rather represent payments that would be allowable had another payer not been legally responsible for them. In addition, the statute clearly distinguishes third party liability situations from overpayments subject to section 1903(d)(2)(C) of the Act. Section 1903(d)(2)(B) of the Act provides that a refund to the Federal Government is not due until the State has been reimbursed by the liable third party. Section 1903(d)(2)(C) requires the State to refund the Federal share of a provider overpayment following a 60-day period, whether or not recovery has been made. Likewise, probate collections from the estates of deceased Medicaid recipients would not be subject to these proposed regulations, as they represent the recovery of payments properly made from resources later determined to be available to the State.

The Conference Report accompanying COBRA refers only to overpayments made to providers (H. Rep. No. 453, 99th Cong., 1st Sess., 548 (1985)). In view of this Congressional intent and our past practice not to consider overpayments due to recipient eligibility errors to be overpayments to providers, these proposed regulations would not be applicable to eligibility-related overpayments. The Federal share of overpayments involving recipients must be refunded immediately following discovery, as required under section 1903(d)(2)(A) of the Act, if the overpayment occurs during a period for which Medicaid Quality Control (MQC) systems are not in effect. For periods during which these systems are in effect, the Federal Government recoups recipient overpayment dollars exclusively on the basis of MQC penalties and States are not required to refund these amounts in accordance with section 1903(d)(2)(A) of the Act. These proposed regulations also would not apply to overpayments involving administrative costs. Therefore, the Federal share of all overpayments involving administrative costs must be refunded immediately following discovery, as required by section 1903(d)(2)(A) of the Act.

Discovery of Overpayments

Overpayments are discovered in various ways: The State or a provider may recognize upon a routine review that a payment error has occurred or a Federal review may discover an overpayment that a State should have discovered but has not.

Section 1903(d)(C) of the Act allows a State 60 days from the date of discovery of an overpayment to recover or attempt to recover the overpayment from a provider before the State must refund the Federal share of the overpayment to HCFA. Since discovery signifies the date on which the 60-calendar day recovery period commences, it is necessary to establish rules of discovery.

In these regulations, we propose to provide that discovery of overpayments resulting from situations other than fraud or abuse occurs on the earliest of the following (1) The date on which any State Medicaid agency official or other State official first notifies a provider in writing of an overpayment, according to State policies and procedures, and specifies a dollar amount that is subject to recovery; (2) the date on which a provider initially acknowledges a specific overpaid amount to the State in writing; or (3) the date any State official or fiscal agent of the State initiates a formal action to recoup a specific overpaid amount from a provider without having first notified the provider in writing.

In our definition of discovery, we propose to specify that initiating a formal recoupment action substitutes for written notification by the State or provider indicating the existence of an overpayment. Some States or their fiscal agents maintain negative (credit) balance reports listing individual Medicaid providers and the amounts they owe the State (i.e., accounts receivable). Sometimes a State will initiate recoupment of an overpayment by reducing a future payment to a provider without having first given notice of its intent to do so, especially if the overpayment amount is small. The statutory purpose of discovery is to establish the starting date for an overpayment recovery period. Therefore, if an overpayment amount

has been entered on a negative balance report for the purpose of initiating recoupment without prior notice to the provider, the 60-day recovery period may be said to have begun with the negative balance report entry.

Discovery of overpayments resulting from fraud or abuse situations would occur on the date of the final written notice of an overpayment that the State sends to the provider specifying a dollar amount subject to recovery. We are proposing that discovery in fraud or abuse cases does not occur until final written notification to the provider in order to permit State officials adequate time to conduct the necessary investigations and to resolve the legal issues peculiar to these situations.

If a Federal review at any time reveals that a State has failed to discover an overpayment or has discovered an overpayment amount but failed to either (1) send written notice of the overpayment to the provider specifying a dollar amount subject to recovery under the applicable standard State policies and procedures, or (2) initiate a formal recoupment action against the provider without prior notice, under these proposed regulations we would deem discovery to have occurred on the date the Federal official first notifies the State of the overpayment in writing and specifies a dollar amount that is subject to recovery. This provision reflects our belief that failure of the State, for any reason, to discover an overpayment and either notify the provider in writing of the overpayment or initiate a formal action to recoup a specific overpaid amount from a provider without such notice does not relieve the State of its liability to refund the Federal share of the overpayment. The State must refund the Federal share of the overpayment at the end of the 60-day period after discovery by the Federal official, unless the State notifies HCFA that the debt has been discharged in bankruptcy or is otherwise uncollectable in accordance with section 1903(d)(2)(D) of the Act.

We are not proposing in the regulations to prescribe the details of the form that the State's notice to the provider must take if the State notifies the provider in writing rather than initiates a formal recoupment action without prior notice. Under the proposed regulations, written notification may indicate either a tentative or final overpayment amount to be recovered. This notification may or may not constitute a formal demand for repayment or mention any appeal rights. However, regardless of the form of the State's notice, under these proposed regulations written notification would occur at the point where the State documents its communication by giving the provider written notice regarding a specific dollar amount subject to recovery. Similarly, the form of the notice is not prescribed when the provider prompts discovery by initiating contact with the State agency. What is significant is that the State Medicaid agency has been notified in writing of the specific overpayment subject to recovery or the provider has acknowledged a specific overpaid amount.

We believe the changes to section 1903(d) of the Act made by section 9512 of COBRA would support interpretation of the term "discovery" to mean the date on which any State official first specifies an overpayment amount for purposes of internal review and followup. However, under this interpretation, discovery could significantly pre-date written communication of the overpayment amount to the provider or initiation of a formal recoupment action without prior notice and might not afford the State sufficient time for the overpayment to be verified and the notice to be processed within the State agency or for a negative balance report entry to be made before the 60-day period begins.

A State's partial collection of an overpayment amount from a provider during the 60-day recovery period would not extend the 60-day time limit following discovery allowed the State for seeking to recover the total outstanding balance. The outstanding balance would still be due to HCFA upon expiration of the 60-day recovery period.

Sometimes, during the 60-day recovery period, a State makes a downward or upward adjustment to the overpayment amount originally communicated between the State and the provider. If these adjustments are made in accordance with the approved State plan, Federal Medicaid law and regulations, and the appeals resolution processes specified in State administrative policies and procedures, these adjustments would be subject to specific conditions: Downward adjustments to the original overpayment amount, while reducing the total dollar amount subject to State recovery, would not change the 60-day recovery period for the outstanding balance. Upward adjustment to the original overpayment amount also would not change the 60-day period for recovery of the original amount. However, the incremental amount would be subject to its own 60-day recovery period beginning on the date of the State's written notice to the provider regarding the additional overpayment amount.

Adjustments to Federal Payment

The new section 1903(d)(2)(C) of the Act, added by section 9512 of COBRA, specifies that an adjustment in the FFP payment to the State reflecting the Federal share of the overpayment must be made at the end of the 60-day recovery period following discovery. In accordance with sections 1903(d)(2) (A) and (B) of the Act (which contain language unaffected by COBRA), States report their Medicaid expenditures quarterly (on the Form HCFA–64 Quarterly Statement of Expenditures) and FFP payments to States are adjusted through the HFCA grant award process. The HCFA–64 Quarterly Statement of Expenditures is due to HCFA 30 days after the end of each quarter. Consequently, we are proposing to require States to credit HCFA with the Federal share of overpayments on the Form HCFA–64 submitted for the quarter in which the 60-day period following discovery ends.

Requiring the credit of the Federal share of overpayments on the expenditure statement submitted for the quarter in which the 60-day period ends, rather than requiring an immediate refund, would assure consistent application of the statute and simplify the administrative process. It also may result in allowing the State more than 60 days after discovery to pursue recovery and credit HCFA with the refund. For example, if the overpayment is discovered on April 1 (the first day of the third quarter of the Federal fiscal year), the 60-day period would end May 30. However, the Form HFCA–64 for the third quarter covers the period extending to June 30. In this instance, the State would actually have 90 days after discovery before crediting HCFA with the Federal share of the overpayment. If, for example, discovery is made on May 2, the 60-day period would end on July 2 and the Federal share of the overpayment amount would not have to be reported until the submission of the expenditure statement for the fourth quarter, which ends September 30, or nearly 150 days after discovery. (Since an expenditure statement is due to HCFA 30 days after the end of each quarter, the State would, in fact, have an additional 30 days beyond the timeframes cited in the examples before actually crediting HCFA with the Federal share of the overpayment amounts.) As stated earlier, we believe this procedure is the most administratively feasible alternative which remains consistent with the requirements of the Act for submittal of quarterly expenditure statements and subsequent adjustment of the FFP payment through the grant award process.

On occasion, it may be necessary for States to submit claims for FFP to adjust the Federal share of overpayment amounts previously credited to HCFA because of downward adjustments to the original overpayment amount based on the approved State plan, Federal Medicaid law and regulations, and the resolution processes specified in State administrative policies and procedures. Under these regulations, we pepose to require States to submit these retroactive claims for FFP on the Form HCFA–64. The normal 2-year filing limit for retroactive claims would not apply to these adjustments, as downward adjustments to overpayment amounts are not retroactive claims but merely reflect the reclaiming of costs previously claimed.

For purposes of adjusting the FFP payment, the changes made to section 1903(d)(2) by section 9512 of COBRA do not require us to consider whether the State is able to recover the overpayment by the end of the 60-day period, except for uncollectable amounts discussed in the following section of this preamble. We recognize that the overpayment debt collection process followed by the State is sometimes prolonged and legally complicated. However, the plain wording of sections 1903(d)(2) (C) and (D) does not permit the Federal Government to delay adjustment to FFP by allowing the State a recovery period of more than 60 days while the State awaits the exhaustion of provider appeals or judicial review, or the execution of repayment plans. (Regulations under 45 CFR 201.66 do permit repayment of Federal funds by an installment plan in limited situations where the amount of the repayment exceeds 2½ percent of the estimated annual State share for the program. The proposed regulations in this document do not alter the provisions of § 201.66 and are compatible with that section.) In addition, as explained previously, States usually will have longer than the 60 days after discovery because of the additional 30 days allowed following the end of each quarter before the mandatory Form HCFA–64 expenditure statements are due.

It has been HCFA's longstanding position that the Federal Government's responsibility to participate financially in State Medicaid expenditures does not encompass FFP for excessive or erroneous State Medicaid expenditures. Consequently, the Federal share of overpayments must be returned to the Federal Government within the statutorily defined timeframe because the overpayments represent excessive claims for Federal reimbursement. The Medicaid statute does not contemplate that the Federal Government absorb or share in any loss resulting from payments not made in accordance with the approved State plan, except as provided under section 1903(d)(2)(D) in cases where the overpayment is a debt that cannot be collected because the provider has gone bankrupt or the debt is otherwise uncollectable.

Overpayments Involving Providers Who are Bankrupt or Out of Business

New section 1903(d)(2)(D) of the Act, added by section 9512 of COBRA, provides that a State is not required to refund the Federal share of overpayments that constitute debts that have been discharged in bankruptcy or that are otherwise uncollectable.

Under Federal law, a debtor who files a bankruptcy petition receives an automatic stay from demands from creditors as of the day he or she files the bankruptcy petition in Federal court. Therefore, the State is prevented, as of the date of filing of the bankruptcy petition, from any recovery unless the court at a later date denies the bankruptcy petition or some portion of the debt is recovered later through a court-approved discharge of bankruptcy. Because of this automatic stay and the State's inability to recover during the period between the filing of the provider's bankruptcy petition and the court's adjudication of that petition, we propose not to require States to refund the Federal share of overpayment made to a provider declaring bankruptcy as of the date the bankruptcy petition is filed with the Federal court, provided the State is also noted as a creditor on the bankruptcy petition in the amount of the Medicaid overpayment. However, States would be required to credit HCFA with the Federal share of any overpayment amounts that they recover under a court-approved discharge of bankruptcy on the first Form HCFA–64 filed after receipt of those funds. Further, States would be required to credit HCFA with the Federal share of any overpayments to a provider whose petition for bankruptcy is denied in Federal court on the later of the next Form HCFA–64 submission following the date of the court decision or the Form HCFA–64 submission for the quarter in which the 60-day period following discovery of the overpayment ends.

On the basis of the explicit wording in the Conference Committee Report on COBRA (H.R. Rep. No. 453, 99th Cong., 1st Sess., 546 (1985)), we propose to define debts as "otherwise being uncollectable" for purposes of these regulations strictly as debts of providers who are "out of business." A State would not be liable for the refund of the Federal share of an overpayment if the provider is out of business and the overpayment is not collectable under State law and administrative procedures. In asserting that a provider is out of business, the State would be required to document its efforts to locate the party and its assets. Such efforts would have to be consistent with applicable State law, policies, and procedures and would have to include pursuit of the party and its assets across State lines in an attempt to recover the overpayment if such action is permitted under applicable State law and administrative procedures. The State also would be required to provide an affidavit or certification from the appropriate State legal authority establishing that the provider is out of business and that the overpayment cannot be collected under State law and procedures and the effective date of that determination under State law. Transfer of ownership within the State would not exempt a State from the requirement to refund the Federal share of an overpayment, unless State law and procedures deem a provider who has transferred ownership to be out of business and preclude collection of the overpayment from the provider.

In situations in which a State is not liable for refunding the Federal share of an overpayment because the provider is either bankrupt or out of business, the State still would be required to notify the provider that an overpayment exists. If the provider files a bankruptcy petition or is certifiably out of business before the 60-day recovery period following discovery ends, the State would not be required to refund the Federal share of the overpayment on its subsequent Form HCFA–64 unless the court has denied the bankruptcy petition. If the 60-day recovery period ends before the provider files the bankruptcy petition or is certifiably out of business, the State would be required to credit HCFA with the Federal share of the overpayment on the next Form HCFA–64 submission. The State would be permitted to reclaim FFP for any unrecovered amount, citing section 1903(d)(2)(D) of the Act as authority, if, at a later date, the provider files for bankruptcy or goes out of business and the State has not been able to make complete recovery. Overpayments credited to HCFA could be reclaimed only if, prior to the date on which the

BEST COPY AVAILABLE

VOL 52 ISS 244 DEC 21 1987 UMI

provider files the Bankruptcy petition or the date on which the provider is declared certifiably out of business, the State vigorously pursues recovery without complete success, at least according to its standard policy as prescribed in applicable State law and administrative procedures.

Effective Date of Legislative Provisions

COBRA was enacted on April 7, 1986. Nonetheless, section 9512 specifies that the provisions for the recovery of the Federal share of overpayments apply to overpayments that are identified for quarters beginning on or after October 1, 1985. Based on the language of the Conference Committee report, we are proposing to interpret overpayments that are "identified for these quarters" to mean overpayments that "occur and are discovered" during any quarter beginning on or after October 1, 1985. The date upon which an overpayment occurs would be the date upon which a State, using its normal method of reimbursement for a particular class of provider (e.g., check, interfund transfer), makes the payment involving unallowable costs to a provider. Two time periods would be involved in implementing the overpayment recovery policy:

The Federal share of overpayments that occurred in quarters before October 1, 1985 but are discovered after October 1, 1985, and for which the Federal share has not been refunded to HCFA, would have to be credited on the Form HCFA–64 submission that is due to HCFA immediately following discovery.

The Federal share of all overpayments that occur and are discovered in quarters beginning on or after October 1, 1985 would be required to be credited to HCFA on the Form HCFA–64 for the quarter in which the 60-day period following discovery ends. For the period between October 1, 1985 (the effective date of section 9512 of COBRA) and 60 days after publication of these proposed regulations as final regulations, States have been instructed, through an issuance in section 2853 of the *State Medicaid Manual*, on this method of crediting HCFA with the Federal share of overpayments for which the 60-day recovery period has ended in accordance with section 1903(d)(2)(C) of the Social Security Act. A state may be found not liable for refund of the Federal share only if the provider is found to be bankrupt or certifiably out of business (provided that the State has pursued collection without complete success at least according to its standard policy and can document these efforts).

Change to Regulations

We propose to amend the Medicaid regulations by adding a new Subpart F to 42 CFR Part 433, State Fiscal Administration, to reflect the changes made to section 1903(d)(2) of the Act by section 9512 of COBRA. Also, we would add a provision for recordkeeping requirements in accordance with established policy and procedures for the Medicaid program under 45 CFR Part 74, Subpart D.

In summary, the new subpart would include a definition of an overpayment and specify the applicability of the requirements, when discovery of an overpayment occurs, the requirements for refunds to HCFA, the exceptions to the refund requirements for overpayments to providers who are bankrupt or are out of business, how adjustments to the FFP payment are to be made, and recordkeeping requirements.

Response to Public Comments

Because of the large volume of public comments we normally receive on notices of proposed rulemaking, we cannot acknowledge or respond to them individually. However, we will consider any public comments received by the date specified in the Date section of this document and respond to them in the final regulations document that we publish.

Regulatory Impact Analysis

Executive Order 12291

Executive Order 12291 (E.O. 12291) requires us to prepare and publish an initial regulatory impact analysis for any regulations that are likely to meet the criteria for a "major rule." A major rule is one that would result in: (1) An annual effect on the economy of $100 million or more; (2) a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or any geographic regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

These proposed regulations would conform the Medicaid regulations to the amendments to section 1903(d)(2) of the Social Security Act made by section 9512 of COBRA, which are already in effect.

We have determined that these proposed regulations are not a major rule. However, there will be minimal administrative costs to State Medicaid agencies in terms of developing a tracking system for identifying overpayments made to Medicaid providers and refunding the Federal share of those overpayments in a timely manner, in accordance with the provisions of the regulations.

Regulatory Flexibility Act

We prepare and publish an initial regulatory flexibility analysis, consistent with the Regulatory Flexibility Act of 1980 (5 U.S.C. 601 through 612) for rules unless the Secretary certifies that the rule would not have a significant economic impact on a substantial number of small entities. We have determined, and the Secretary certifies, that these proposed regulations, when published as final regulations, will not have a significant economic impact on a substantial number of small entities. These regulations will affect State agencies, which are not considered small entities, in that they are required to refund the Federal share of overpayments made to Medicaid providers. Medicaid providers will be affected indirectly by the regulations in that States will be vigorously pursuing them during the 60 days following discovery of overpayments to obtain refunds of overpaid amounts, the Federal share of which the State must refund to HCFA at the end of the 60 days. Therefore, a regulatory flexibility analysis has not been prepared.

Paperwork Reduction Act

Sections 433.316, 433.318, 433.320, and 433.322 of these proposed regulations contain information collection and recordkeeping requirements that are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1980. We have submitted the regulations to OMB. A notice will be published in the **Federal Register** when approval is obtained.

List of Subjects in 42 CFR Part 433

Administrative practice and procedure, Claims, Grant programs-health, Medicaid, Reporting and recordkeeping requirements.

PART 433—[AMENDED]

42 CFR Part 433 is amended as set forth below:

1. The authority citation for Part 433 is revised to read as follows:

Authority: Secs. 1102, 1902(a)(4), 1902(a)(18), 1902(a)(25), 1902(a)(45), 1903(a)(3), 1903(d)(2), 1903(d)(5), 1903(o), 1903(p), 1903(r), 1912, and 1917 of the Social Security Act (42 U.S.C. 1302, 1396a(a)(4), 1396a(a)(18), 1396a(a)(25), 1396a(a)(45), 1396b(a)(3), 1396b(d)(2), 1396b(d)(5), 1396b(o), 1396b(p), 1396b(r), 1396k, and 1396(p).

2. The authority statements preceding Subpart B and following §§ 433.32, 433.33, 433.34, 433.35, 433.112, and 433.116 are removed.

3. The table of contents for Part 433 is amended by adding a new Subpart F, consisting of §§ 433.300 through 433.322, to read as follows:

PART 433—STATE FISCAL ADMINISTRATION

* * * * *

Subpart F—Refunding of Federal Share of Medicaid Overpayments to Providers

Sec.
433.300 Basis.
433.302 Scope of subpart.
433.304 Definitions.
433.310 Applicability of requirements.
433.312 Basic requirements for refunds.
433.316 When discovery of overpayments occurs and its significance.
433.318 Overpayments involving providers who are bankrupt or out of business.
433.320 Procedures for refunds to HCFA.
433.322 Maintenance of records.

* * * * *

4. A new Subpart F, consisting of §§ 433.300 through 433.322, is added to read as follows:

Subpart F—Refunding of Federal Share of Medicaid Overpayments to Providers

§ 433.300 Basis.

This subpart implements—

(a) Section 1903(d)(2)(A) of the Act, which directs that quarterly Federal payments to the States under title XIX (Medicaid) of the Act are to be reduced or increased to make adjustment for prior overpayments or underpayments that the Secretary determines have been made.

(b) Section 1903(d)(2) (C) and (D) of the Act, which provides that a State has 60 days from discovery of an overpayment for Medicaid services to recover or attempt to recover the overpayment from the provider before adjustment in the Federal Medicaid payment to the State is made; and that adjustment will be made at the end of the 60 days, whether or not recovery is made, unless the State is unable to recover from a provider because the overpayment is a debt that has been discharged in bankruptcy or is otherwise uncollectable.

(c) Section 1903(d)(3) of the Act, which provides that the Secretary will consider the pro rata Federal share of the net amount recovered by a State during any quarter to be an overpayment.

§ 433.302 Scope of subpart.

This subpart sets forth the requirements and procedures under which States have 60 days following discovery of overpayments made to providers for Medicaid services to recover or attempt to recover that amount before the States must refund the Federal share of these overpayments to HCFA, with certain exceptions.

§ 433.304 Definitions.

As used in this subpart—

"Discovery" (or "discovered") means identification by any State Medicaid agency official or other State official, the Federal Government, or the provider of an overpayment, and the communication of that overpayment finding or the initiation of a formal recoupment action without notice as described in § 433.316

"Overpayment" means the amount paid by a Medicaid agency to a provider which is in excess of the amount that is allowable for services furnished under section 1902 of the Act and which is required to be refunded under section 1903 of the Act.

"Provider" (in accordance with § 400.203) means any individual or entity furnishing Medicaid services under a provider agreement with the Medicaid agency.

"Recoupment" means any formal action by the State or its fiscal agent to initiate recovery of an overpayment without advance official notice by reducing future payments to a provider.

"Third party" (in accordance with § 433.136) means any individual, entity, or program that is or may be liable to pay for all or part of the expenditures for medical assistance furnished under a State plan.

§ 433.310 Applicability of requirements.

(a) *General rule.* Except as provided in paragraphs (b) and (c) of this section, the provisions of this subpart apply to—

(1) Overpayments made to providers that are discovered by the State;

(2) Overpayments made to providers that are initially discovered by the provider and made known to the State agency; and

(3) Overpayments that are discovered throught Federal reviews.

(b) *Third party payments and probate collections.* The requirements of this subpart do not apply to—

(1) Cases involving third party liability because, in these situations, recovery is sought for a Medicaid payment that would have been made had another party not been legally responsible for payment; and

(2) Probate collections from the estates of deceased Medicaid recipients, as they represent the recovery of payments properly made from resources later determined to be available to the State.

(c) *Unallowable costs paid under rate-setting systems.* (1) Unallowable costs for a prior year paid to an institutional provider under a rate-setting system that a State recovers through an adjustment to the per diem rate for a subsequent period do not constitute overpayments that are subject to the requirements of this subpart. In such cases, no refund of the Federal share explicitly related to the original overpayment is required.

(2) Unallowable costs for a prior year paid to an institutional provider under a rate-setting system that a State seeks to recover in a lump sum, by an installment repayment plan, or through reduction of future payments to which the provider would otherwise be entitled constitute overpayments that are subject to the requirements of this subpart.

§ 433.312 Basic requirements for refunds.

(a) *Basic rules.* (1) Except as provided in paragraph (b) of this section, the Medicaid agency has 60 days from the date of discovery of an overpayment to a provider to recover or seek to recover the overpayment before the Federal share must be refunded to HCFA.

(2) The agency must refund the Federal share of overpayments at the end of the 60-day period following discovery in accordance with the requirements of this subpart, whether or not the State has recovered the overpayment from the provider.

(b) *Exception.* The agency is not required to refund the Federal share of an overpayment made to a provider when the State is unable to recover the overpayment amount because the provider has been determined bankrupt or out of business in accordance with § 433.318.

(c) *Applicability.* (1) The requirements of this subpart apply to overpayments made to Medicaid providers that occur and are discovered in any quarter that begins on or after October 1, 1985.

(2) The date upon which an overpayment occurs is the date upon which a State, using its normal method of reimbursement for a particular class of provider (e.g., check, interfund transfer), makes the payment involving unallowable costs to a provider.

§ 433.316 When discovery of overpayments occurs and its significance.

(a) *General rule.* The date on which an overpayment is discovered is the beginning date of the 60-calendar day period allowed a State to recover or seek to recover an overpayment before

a refund of the Federal share of an overpayment must be made to HCFA.

(b) *Requirements for notification.* Unless a State official or fiscal agent of the State chooses to initiate a formal recoupment action against a provider without first giving written notification of its intent, a State Medicaid agency official or other State official must notify the provider in writing of any overpayment it discovers in accordance with State agency policies and procedures and must take reasonable actions to attempt to recover the overpayment in accordance with State law and procedures.

(c) *Overpayments resulting from situations other than fraud or abuse.* An overpayment resulting from a situation other than fraud or abuse is discovered on the earliest of—

(1) The date on which any Medicaid agency official or other State official first notifies a provider in writing of an overpayment and specifies a dollar amount that is subject to recovery;

(2) The date on which a provider initially acknowledges a specific overpaid amount in writing to the Medicaid agency; or

(3) The date on which any State official or fiscal agent of the State initiates a formal action to recoup a specific overpaid amount from a provider without having first notified the provider in writing.

(d) *Overpayments resulting from fraud or abuse.* An overpayment that results from fraud or abuse is discovered on the date of the final written notice of the State's overpayment determination that a Medicaid agency official or other State official sends to the provider.

(e) *Overpayments identified through Federal reviews.* If a Federal review at any time indicates that a State has failed to identify an overpayment or a State has identified an overpayment but has failed to either

(1) Send written notice of the overpayment to the provider that specifies a dollar amount subject to recovery or

(2) Initiate a formal recoupment from the provider without having first notified the provider in writing, HCFA will consider the overpayment as discovered on the date that the Federal official first notifies the State in writing of the overpayment and specifies a dollar amount subject to recovery.

(f) *Effect of changes in overpayment amount.* Any adjustment in the amount of an overpayment during the 60-day period following discovery (made in accordance with the approved State plan, Federal law and regulations governing Medicaid, and the appeals resolution process specified in State administrative policies and procedures) has the following effect on the 60-day recovery period:

(1) A downward adjustment in the amount of an overpayment subject to recovery that occurs after discovery does not change the original 60-day recovery period for the outstanding balance.

(2) An upward adjustment in the amount of an overpayment subject to recovery that occurs during the 60-day period following discovery does not change the 60-day recovery period for the original overpayment amount. A new 60–day period begins for the incremental amount only, beginning with the date of the state's written notification to the provider regarding the upward adjustment.

(g) *Effect of partial collection by State.* A partial collection of an overpayment amount by the State from a provider during the 60-day period following discovery does not change the 60-day recovery period for the original overpayment amount due to HCFA.

§ 433.316 Overpayments involving providers who are bankrupt or out of business.

(a) *Basic rules.* (1) The agency is not required to refund the Federal share of an overpayment made to a provider as required by § 433.312(a) to the extent that the State is unable to recover the overpayment because the provider has been determined bankrupt or out of business in accordance with the provisions of this section.

(2) The agency must notify the provider that an overpayment exists in any case invoving a bankrupt or out-of-business provider and, if the debt has not been determined uncollectable, take reasonable actions to recover the overpayment during the 60-day recovery period in accordance with policies prescribed by applicable State law and administrative procedures.

(b) *Overpayment debts that the State need not refund.* Overpayments are considered debts that the State is unable to recover within the 60-day period following discovery if the following criteria are met:

(1) The provider has filed for bankruptcy, as specified in paragraph (c) of this section; or

(2) The provider has gone out of business and the State is unable to locate the provider and its assets, as specified in paragraph (d) of this section.

(c) *Bankruptcy.* The agency is not required to refund to HCFA the Federal share of an overpayment at the end of the 60-day period following discovery, if—

(1) The provider has filed for bankruptcy in Federal court at the time of discovery of the overpayment or the provider files a bankruptcy petition in Federal court before the end of the 60-day period following discovery; and

(2) The State is on record with the court as a creditor of the petitioner in the amount of the Medicaid overpayment.

(d) *Out of business.* (1) The agency is not required to refund to HCFA the Federal share of an overpayment at the end of the 60-day period following discovery if the provider is out of business on the date of discovery of the overpayment or if the provider goes out of business before the end of the 60-day period following discovery.

(2) A provider is considered to be out of business on the effective date of a determination to that effect established under State law. The agency must—

(i) Document its efforts to locate the party and its assets. These efforts must be consistent with applicable State policies and procedures; and

(ii) Make available an affidavit or certification from the appropriate State legal authority establishing that the provider is out of business and that the overpayment cannot be collected under State law and procedures and citing the effective date of that determination under State law.

(e) *Circumstances requiring refunds.* If the 60-day recovery period has expired before an overpayment is found to be uncollectable under the provisions of this section, if the State recovers an overpayment amount under a court-approved discharge of bankruptcy, or if a bankruptcy petition is denied, the agency must refund the Federal share of the overpayment in accordance with the procedures specified in § 433.320.

§ 433.320 Procedures for refunds to HCFA.

(a) *Basic requirements.* (1) The agency must refund the Federal share of overpayments that are subject to recovery to HCFA through a credit on its Quarterly Statement of Expenditures (Form HCFA–64).

(2) The Federal share of overpayments subject to recovery must be credited on the Form HCFA–64 report submitted for the quarter in which the 60-day period following discovery, established in accordance with § 433.316, ends.

(3) A credit on the Form HCFA–64 must be made whether or not the overpayment has been recovered by the State from the provider.

(b) *Reclaiming overpayment amounts previously refunded to HCFA.* If the amount of an overpayment is adjusted downward after the agency has credited HCFA with the Federal share, the agency may reclaim the amount of the downward adjustment on the Form HCFA–64. Under this provision—

(1) Downward adjustment to an overpayment amount previously credited to HCFA is allowed only if it is properly based on the approved State plan, Federal law and regulations governing Medicaid, and the appeals resolution processes specified in State administrative policies and procedures.

(2) The 2-year filing limit for retroactive claims for Medicaid expenditures does not apply. A downward adjustment is not considered a retroactive claim but rather a reclaiming of costs previously claimed.

(c) *Expiration of 60-day recovery period.* If an overpayment has not been determined uncollectable in accordance with the requirements of § 433.316 at the end of the 60-day period following discovery of the overpayment, the agency must refund the Federal share of the overpayment to HCFA in accordance with the procedures specified in paragraph (a) of this section.

(d) *Court-approved discharge of bankruptcy.* If the State recovers any portion of an overpayment under a court-approved discharge of bankruptcy, the agency must refund to HCFA the Federal share of the overpayment amount collected on the next quarterly expenditure report that is due to HCFA for the period that includes the date on which the collection occurs.

(e) *Bankruptcy petition denied.* If a provider's petition for bankruptcy is denied in Federal court, the agency must credit HCFA with the Federal share of the overpayment on the later of—

(1) The Form HCFA–64 submission due to HCFA immediately following the date of the decision of the court; or

(2) The Form HCFA–64 submission for the quarter in which the 60-day period following discovery of the overpayment ends.

(f) *Reclaim of refunds.* (1) If a provider is determined bankrupt or out of business under this section after the 60-day period following discovery of the overpayment ends and the State has not been able to make complete recovery, the agency may reclaim the amount of the Federal share of any unrecovered overpayment amount previously refunded to HCFA. HCFA allows the reclaim of a refund by the agency if the agency submits to HCFA documentation that it has made reasonable efforts to obtain recovery.

(2) If the agency reclaims a refund of the Federal share of an overpayment—

(i) In bankruptcy cases, the agency must submit to HCFA a statement of its efforts to recover the overpayment during the period before the petition for bankruptcy was filed; and

(ii) In out-of-business cases, the agency must submit to HCFA a statement of its efforts to locate the provider and its assets and to recover the overpayment during any period before the provider is found to be out of business in accordance with § 433.316.

(e) *Supporting reports.* The agency must report the following information to support each Quarterly Statement of Expenditures Form HCFA–64:

(1) Amounts of overpayments not collected during the quarter but refunded because of the expiration of the 60-day period following discovery;

(2) Upward and downward adjustments to amounts credited in previous quarters;

(3) Amounts of overpayments collected under court-approved discharges of bankruptcy;

(4) Amounts of previously reported overpayments to providers certified as bankrupt or out of business during the quarter; and

(5) Amounts of overpayments previously credited and reclaimed by the State.

§ 433.322 Maintenance of records.

The Medicaid agency must maintain a separate record of all overpayment activities for each provider in a manner that satisfies the retention and access requirements of 45 CFR Part 74, Subpart D.

BILLING CODE 4120–01–M

HARRY S. TRUMAN SCHOLARSHIP FOUNDATION

45 CFR Part 1803

Nondiscrimination on the Basis of Handicap

AGENCY: Harry S. Truman Scholarship Foundation.

ACTION: Notice of proposed rulemaking.

SUMMARY: This proposed regulation applies to programs or activities conducted by the Harry S. Truman Scholarship Foundation the provisions of section 504 of the Rehabilitation Act of 1973, as amended, 29 U.S.C. 794, which prohibits discrimination on the basis of handicap.

DATES: To be assured of consideration, comments must be in writing and must be received on or before February 19, 1988. Comments should refer to specific sections in the regulation where appropriate.

ADDRESSES: Comments should be sent to: Malcolm C. McCormack, Executive Secretary, Harry S. Truman Scholarship Foundation, 712 Jackson Place, NW., Washington, DC 20006.

Comments received will be available for public inspection in 712 Jackson Place, NW., Washington, DC 20006, from 8:30 a.m. to 5:00 p.m., Monday through Friday. Copies of this notice will be made available on tape for those with impaired vision. They may be obtained at the above address.

FOR FURTHER INFORMATION CONTACT: Malcolm C. McCormack, Executive Secretary, Harry S. Truman Scholarship Foundation, 712 Jackson Place, NW., Washington, DC 20006, (202) 395–4831 (voice) or Mr. Daniel A. Searing (202) 724–7678 (TDD).

Background: The purpose of this proposed rule is to apply to programs and activities conducted by the Harry S. Truman Scholarship Foundation ("Foundation") the provisions of section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794), as amended by the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978 (Sec. 119, Pub. L. 95–602, 92 Stat. 2982) and by the Rehabilitation Act Amendments of 1986 (Pub. L. 99–506, 100 Stat. 1810). Section 504 of the Rehabilitation Act of 1973 states that

> No otherwise qualified individual with handicaps in the United States, * * * shall, solely by reason of his handicap, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance *or under any program or activity conducted by any Executive agency or by the United States Postal Service. The head of each such agency shall promulgate such regulations as may be necessary to carry out the amendments of this section made by the Rehabilitation, Comprehensive Services, and Developmental Disabilities Act of 1978. Copies of any proposed regulation shall be submitted to appropriate authorizing committees of the Congress, and such regulation may take effect no earlier than the thirtieth day after*

the date on which such regulation is so submitted to such committees.

29 U.S.C. 794 (1978 amendment italicized).

This regulation has been reviewed by the Department of Justice. It is an adaptation of a prototype prepared by the Department of Justice under Executive Order 12250 (45 FR 72995, 3 CFR, 1980 Comp., p. 298) and distributed to Executive agencies.

The suggested prototype regulation has been modified to apply § 504 in the context of the Foundation's particular and limited activities. The Foundation is an independent Executive agency with a very limited statutory mandate. Its single function is "to award scholarships to persons who demonstrate outstanding potential for and who plan to pursue a career in public service." Pub. L. 93–642, 88 Stat. 2276, 20 U.S.C. 2001, 2005. Applicants are evaluated solely on the basis of their potential for leadership in public service and their academic performance. *See* 45 CFR 1801.21.

The Foundation has only limited contact with the public at large. All candidates for scholarships must first be nominated by their institutions of higher learning. *See* 45 CFR 1801.10. The Foundation reviews applications, schedules interviews with semifinalists before regional review panels, and awards scholarships based on its evaluations. *See* 45 CFR Part 1801.

Moreover, the Foundation has only four full-time employees and owns no offices or facilities. Its only office is a small one in space furnished by the General Services Administration and is subject to GSA's regulations. Its regional interviews are conducted in meeting rooms temporarily provided by non-federal entities.

As a result of adapting the prototype regulation to the unique posture of the Foundation, this regulation and its preamble are shorter and apply to the Foundation's programs more precisely and more meaningfully than would the prototype. This regulation has also been reviewed by the Equal Employment Opportunity Commission under Executive Order 12067 (43 FR 28967, 3 CFR, 1978 Comp., p. 206).

This regulation is not a major rule within the meaning of Executive Order No. 12291 (46 FR 13193, 3 CFR, 1981 Comp., p. 127) and, therefore, a regulatory impact analysis has not been prepared.

This regulation does not have an impact on small entities. It is not, therefore, subject to the Regulatory Flexibility Act, 5 U.S.C. 601–612.

Section-By-Section Analysis

Section 1803.1. Purpose.

Section 1803.1 states the purpose of the proposed rule.

Section 1803.2. Application.

The proposed regulation applies to all programs or activities conducted by the Foundation.

Section 1803.3. Definitions.

The definitions are self-explanatory, and are drawn mostly from the prototype regulation. Note particularly, however, the following:

The definition of "qualified individual with handicaps" adopts the existing definition of "qualified handicapped person" with respect to services in the coordination regulation for programs receiving Federal financial assistance. 28 CFR 41.32(b). Under this definition, a qualified individual with handicaps is an individual with handicaps who meets the essential eligibility requirements for participation in the program or activity. With regard to Foundation awarded scholarships, superior academic performance is one of the essential eligibility requirements. *Cf. Southeastern Community College* v. *Davis*, 442 U.S. 397 (1979).

The definition of "section 504" makes clear that, as used in this regulation, "section 504" applies only to programs or activities conducted by the Foundation and not to federally assisted programs or activities.

Section 1803.4. Self-evaluation.

The self-evaluation requirement is patterned on similar requirements in section 504 regulations for federally assisted programs.

Section 1803.5. Notice.

Section 1803.5 requires the Foundation to disseminate sufficient information to employees, applicants, participants, beneficiaries, and other interested persons to apprise them of rights and protections afforded by section 504 and this regulation. Methods of providing this information may include the publication of such information in Foundation pamphlets and other publications.

Section 1803.6. General prohibitions against discrimination.

Section 1803.6 is an adaptation of the corresponding section of the section. 504 coordination regulation applicable to programs or activities receiving Federal financial assistance. *See* 28 CFR 41.51. Paragraph (a) restates the nondiscrimination mandate of section 504. Paragraph (b) establishes the general principles for analyzing whether any particular Foundation action violates this mandate. Paragraph (c) assures that methods of administration which appear neutral on their face do not work to deny qualified individuals with handicaps an effective opportunity to participate in the Foundation's activities. Paragraph (d) requires the Foundation to the greatest feasible extent to administer its programs and activities in a setting integrated to the needs of qualified individuals with handicaps, *i.e.*, in a setting that enables individuals with handicaps to interact with nonhandicapped persons to the fullest practicable extent.

Section 1803.7. Program accessibility: existing facilities.

Paragraph (a) requires that the agency's program or activity, when viewed in its entirety, be readily accessible to and usable by qualified individuals with handicaps. It also makes clear that the agency is not required to make each of its existing facilities accessible. (§ 1803.7(a)).

The Foundation, as already noted, is a small agency that relies on the General Services Administration and others to provide its small regular offices and its occasional meeting places. Paragraph (b) requires the Foundation to request GSA to make any structural changes that the Foundation determines are necessary to ensure accessibility for individual(s) with handicaps to the Foundation programs or activities.

Paragraph (c) assures qualified individual(s) with handicaps access to programs and activities conducted in other buildings made temporarily available for Foundation use. Paragraph (d) outlines how this section will be administered.

Provisions concerning a "time period for compliance" and a "transition plan" included in other prototype section 504 regulations have been omitted as being unnecessary to the Foundation's present and contemplated programs and activities.

Section 1803.8. Program accessibility: new construction and alterations.

Section 1803.8 adopts the language of the prototype regulation concerning new construction and alterations, although the likelihood of the Foundation ever undertaking such new construction or alterations is remote.

Section 1803.9. Employment.

Section 1803.9 prohibits employment discrimination on the basis of handicap. Consistent with the decision in *Prewitt* v. *United States Postal Service*, 662 F.2d 292 (5th Cir. 1981), this section provides that the standards, requirements and procedures of section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791), as elaborated in regulations of the Equal Employment Opportunity Commission ("EEOC") at 29 CFR Part 1613, are applicable under section 504 to employment by the Foundation.

Section 1803.10. Communications.

Section 1803.10 recognizes the Foundation's commitment to assuring that interested persons, including those with impaired vision or hearing, can communicate with the Foundation and obtain information about the Foundation's programs and about their rights under this regulation. Auxiliary aids will be used in the scholarship interview process where necessary and use of a telecommunications device for deaf persons will be obtained as necessary to communicate with the Foundation's administrative office. Paragraph (b) requires the Foundation to take appropriate steps to inform individuals with handicaps of their section 504 rights under the Foundations's programs or activities. The Foundation's obligations are limited, however, by paragraph (c) of this section. *See Southeastern Community College v. Davis*, 442 U.S. 397 (1979).

Section 1803.12. Compliance procedures.

Paragraph (a) specifies that paragraphs (c) through (1) of this section establish the procedures for processing complaints other than employment complaints. Paragraph (b) provides that the Foundation will process employment complaints according to procedures established in existing regulations of the EEOC (29 CFR Part 1613) pursuant to section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791).

Paragraph (d) requires the Foundation to accept and investigate all complete complaints over which it has jurisdiction. If the agency determines that it does not have jurisdiction over a complaint, it shall promptly notify the complainant, and make reasonable efforts to refer the complaint to the appropriate government entity.

Paragraph (g) requires the Foundation to provide the complainant with the results of the investigation, along with a description of the remedy, and notice of the right to appeal, in writing.

List of Subjects in 45 CFR Part 1803

Blind, Civil rights, Deaf, Disabled, Discrimination against handicapped, Equal employment opportunity, Federal buildings and facilities, Handicapped, Nondiscrimination, Physically handicapped.

For the reasons set forth in the preamble, Chapter XXVIII of Title 45 of the Code of Federal Regulations, entitled "Harry S. Truman Scholarship Program," is proposed to be amended by adding Part 1803 as follows:

PART 1803—NONDISCRIMINATION ON THE BASIS OF HANDICAP

Sec.
1803.1 Purpose.
1803.2 Application.
1803.3 Definitions.
1803.4 Self-evaluation.
1803.5 Notice.
1803.6 General prohibitions against discrimination.
1803.7 Program accessibility: Existing facilities.
1803.8 Program accessibility: New construction and alterations.
1803.9 Employment.
1803.10 Communications.
1803.11 Compliance procedures.

Authority: 29 U.S.C. 794.

§ 1803.1 Purpose.

This part effectuates section 119 of the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978, which amended 504 of the Rehabilitation Act of 1973 to prohibit discrimination on the basis of handicap in programs or activities conducted by executive agencies.

§ 1803.2 Application.

This part applies to all programs or activities conducted by the Foundation, except for programs or activities conducted outside the United States that do not involve individual(s) with handicaps in the United States.

§ 1803.3 Definitions.

For purposes of this part, the term—

"Assistant Attorney General" means the Assistant Attorney General, Civil Rights Division, United States Department of Justice.

"Auxiliary aids" means services or devices that enable persons with impaired sensory, manual, or speaking skills to have an equal opportunity to participate in and enjoy the benefits of programs or activities conducted by the Foundation.

"Complete complaint" means a written statement containing:

(1) Date and nature of the alleged violation of section 504;

(2) The complainant's name and address; and

(3) The signature of the complainant or of someone authorized to act on his or her behalf.

Complaints filed on behalf of classes or third parties shall describe or identify, by name if possible, the alleged victims of discrimination.

"Executive Secretary" means the Executive Secretary of the Harry S. Truman Scholarship Foundation.

"Facility" means all or any portion of buildings, structures, equipment, roads, walks, parking lots, rolling stock or other conveyances, or other real or personal property.

"Foundation" means the Harry S. Truman Scholarship Foundation.

"General Counsel" means the General Counsel of the Harry S. Truman Scholarship Foundation.

"Individual with handicaps" means any person who has a physical or mental impairment that substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment.

As used in this definition, the phrase:

(1) "Physical or mental impairment" includes—

(i) Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: Neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive; digestive; genitourinary; hemic and lymphatic; skin; and endocrine; or

(ii) Any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities. The term "physical or mental impairment" includes, but is not limited to, such diseases and conditions as orthopedic, visual, speech, and hearing impairments, cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, mental retardation, emotional illness, and drug addiction and alcoholism.

(2) "Major life activities" includes functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

(3) "Has a record of such an impairment" means has a history of, or has been classified as having, a mental or physical impairment that substantially limits one or more major life activities.

(4) "Is regarded as having an impairment" means—

(i) Has a physical or mental impairment that does not substantially limit major life activities but is treated by the Foundation as constituting such a limitation;

(ii) Has a physical or mental impairment that substantially limits

major life activities only as a result of the attitudes of others toward such impairment; or

(iii) Has none of the impairments defined in paragraph (1) of this definition, but is treated by the Foundation as having such an impairment.

"Qualified individual with handicaps" means an individual with handicaps who meets the essential eligibility requirements for participation in, or receipt of benefits from, any Foundation program or activity. For purposes of employment, "qualified individual with handicaps" means "qualified handicapped person" as defined in 29 CFR 1613.702(f), which is made applicable to this part by § 1803.10.

"Section 504" means section 504 of the Rehabilitation Act of 1973, Pub. L. 93–112, 87 Stat. 394, 29 U.S.C. 794, as amended by the Rehabilitation Act Amendments of 1974, Pub. L. 93–516, 88 Stat. 1617; the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978, Pub. L. 95–602, 92 Stat. 2955; and by the Rehabilitation Act amendments of 1986, Pub. L. 99–506, 100 Stat. 1810. As used in this part, section 504 applies only to programs or activities conducted by the Foundation and not to federally assisted programs.

§ 1803.4 Self-evaluation.

(a) The Foundation shall, within one year of the effective date of this part, evaluate, with the assistance of interested persons, including individuals with handicaps or organizations representing individuals with handicaps, its current policies and practices, and the effects thereof, that do not or may not meet the requirements of this part, and, to the extent modification of any such policies and practices is required, the Foundation shall proceed to make the necessary modification.

(b) The Foundation shall, for at least three years following completion of the evaluation required under paragraph (a) of this section, maintain on file and make available for public inspection—

(1) A description of areas examined and any problems identified; and

(2) A description of any modifications made

§ 1803.5 Notice.

The Foundation shall make available to employees, applicants, participants, beneficiaries, and other interested persons such information regarding the provisions of this part and its applicability to the programs or activities conducted by the Foundation as the Executive Secretary finds necessary to apprise such persons of the protections against discrimination assured them by section 504 of this regulation.

§ 1803.6 General prohibitions against discrimination.

(a) No qualified individual with handicaps shall, on the basis of handicap, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity subject to this part.

(b) The Foundation may not, either directly or through arrangements with others, on the basis of handicap—

(1) Discriminate against a qualified individual with handicaps in the award or renewal of scholarships, through selection criteria or otherwise;

(2) Deny a qualified individual with handicaps the opportunity to participate as a member of boards or panels used to screen scholarship applicants;

(3) Deny a qualified individual with handicaps the opportunity to participate as a member of planning or advisory boards; or

(4) Otherwise subject a qualified individual with handicaps to discrimination.

(c) The Foundation may not, either directly or through arrangements with others, utilize criteria or methods of administration the purpose or effect of which would—

(1) Subject qualified individuals with handicaps to discriminate on the basis of handicap; or

(2) Defeat or substantially impair accomplishment of the objectives of a program or activity with respect to individuals with handicaps.

(d) The Foundation shall administer programs and activities in the most feasibly integrated setting appropriate to the needs of qualified individuals with handicaps.

§ 1803.7 Program accessibility: Existing facilities.

(a) The Foundation shall operate each program or activity so that the program or activity, when viewed in its entirety, is readily accessible to and usable by individuals with handicaps. This paragraph does not necessarily require the Foundation to make each of its existing facilities accessible to and usable by individuals with handicaps, but no qualified individual with handicaps shall be denied the benefit of, be excluded from participation in, or otherwise be subjected to discrimination under any of the Foundation's programs and activities because any of the Foundation's facilities are inaccessible to or unusable by individuals with handicaps.

(b) When the Foundation uses facilities leased or otherwise provided by the General Services Administration (GSA), it shall request GSA to make any structural changes that the Foundation determines are required to provide necessary accessibility for individuals with handicaps, and shall inform that agency of any complaints regarding accessibility by individuals with handicaps.

(c) The Foundation periodically uses meeting rooms or similar facilities made available by non-federal entities. In any instances in which such temporarily used facilities are not readily accessible to qualified individuals with handicaps, the Foundation shall make alternative arrangements so that such qualified individuals with handicaps can participate fully in the Foundation's activity.

(d) This section does not require the Foundation to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where Foundation personnel believe that the proposed action would fundamentally alter a program or activity or would result in undue financial and administrative burdens, the Foundation has the burden of proving that compliance with paragraph (a) of this section would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the Executive Secretary after considering all agency resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action required to comply with this section would result in such an alteration or such burdens, the Foundation shall take other action not resulting in such an alteration or such burdens, but would nevertheless ensure that, to the maximum extent possible, individuals with handicaps receive the benefits and services of the programs or activities.

§ 1803.8 Program accessibility: new construction and alterations.

Each building or part of a building that is constructed or altered by, on behalf of, or for the use of the Foundation shall be designed, constructed, or altered so as to be readily accessible to and usable by individuals with handicaps. The definitions, requirements, and standards of the Architectural Barriers Act (42 U.S.C. 4151–4157), as established in 41 CFR 101–19.600 to 101–19.607, apply to buildings covered by this section.

§ 1803.9 Employment.

No qualified individual with handicaps shall, on the basis of handicap, be subjected to discrimination in employment under any program or activity conducted by the Foundation. The definitions, requirements and procedures of section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791), as established by the Equal Employment Opportunity Commission in 29 CFR Part 1613, shall apply to employment in Federally conducted programs or activities.

§ 1803.10 Communications.

(a) The Foundation shall take appropriate steps to assure that interested persons, including persons with impaired vision or hearing, can effectively communicate with the Foundation and obtain information as to the existence and availability of the Foundation's programs and activities.

(1) The Foundation shall furnish appropriate auxiliary aids where necessary to afford an individual with handicaps an equal opportunity to participate in the scholarship interview process or other programs or activities conducted by the Foundation.

(i) In determining what type of auxiliary aid is necessary, the Foundation shall give primary consideration to the requests of the individual with handicaps.

(ii) The Foundation need not provide individually prescribed devices or other devices of a personal nature.

(2) Where the Foundation communicates with applicants and beneficiaries by telephone, a telecommunication device for deaf persons or equally effective telecommunication device shall be used.

(b) The Foundation shall take appropriate steps to provide individuals with handicaps with information regarding their section 504 rights under the Foundation's programs or activities.

(c) This section does not require the Foundation to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where Foundation personnel believe that the proposed action would fundamentally alter a program or activity or would result in undue financial and administrative burdens, the Foundation has the burden of proving that compliance with paragraphs (a) and (b) of this section would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the Executive Secretary after considering all Foundation resources available for use in the funding and operation of a conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action required to comply with this section would result in such an alteration or such burdens, the Foundation shall take other action not resulting in such an alteration or such burdens, but would nevertheless ensure that, to the maximum extent possible, individuals with handicaps receive the benefits and services of the programs or activities.

§ 1803.11 Compliance procedures.

(a) Except as provided in paragraph (b) of this section, this section applies to all allegations of discrimination on the basis of handicap in programs or activities conducted by the Foundation.

(b) The Foundation shall process complaints alleging violations of section 504 with respect to employment according to the procedures established by the Equal Employment Opportunity Commission in 29 CFR Part 1613 pursuant to section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791).

(c) Responsibility for implementation and operation of this section shall be vested in the Executive Secretary.

(d) The Foundation shall accept and investigate all complete complaints for which it has jurisdiction. All complete complaints must be filed within 180 days of the alleged act of discrimination. The Foundation may extend this time period for good cause.

(e) If the Foundation receives a complaint over which it does not have jurisdiction, it shall promptly notify the complainant and shall make reasonable efforts to refer the complaint to the appropriate government entity.

(f) The Foundation shall notify the Architectural and Transportation Barriers Compliance Board upon receipt of any complaint alleging that a building or facility that is used by the Foundation that is subject to the Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151–4157), or section 502 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 792), is not readily accessible to and usable by individuals with handicaps.

(g) The Foundation shall notify the complainant of the results of the investigation within 90 days of the receipt of a complete complaint over which it has jurisdiction. Notification must be in a letter, and must include—

(1) Findings of fact and conclusions of law;

(2) A description of a remedy for each violation discovered; and

(3) A notice of the right to appeal.

(h) Appeals of the findings of fact and conclusions of law or remedies must be filed by the complainant within 90 days of receipt from the agency of the letter required by paragraph (f) of this section. The Foundation may extend this time for good cause.

(i) Timely appeals shall be accepted and processed by the General Counsel.

(j) The Foundation shall notify the complainant of the results of the appeal within 90 days of the receipt of the request. If the Foundation determines that it needs additional information from the complainant, it shall have 90 days from the date it receives the additional information to make its determination on the appeal.

(k) The time limits cited in paragraphs (g) and (h) of this section may be extended with the permission of the Assistant Attorney General.

(l) The Foundation may delegate its authority for conducting complaint investigations to other Federal agencies, except that the authority for making the final determination may not be delegated.

Malcolm M. McCormack,
Executive Secretary.

Dated: December 1, 1987.

BILLING CODE 8155–01–M

DEPARTMENT OF THE INTERIOR

48 CFR Parts 1409, 1415 and 1452

Department of the Interior Acquisition Regulations; Formal Source Selection Procedures; Organizational Conflicts of Interest

AGENCY: Department of the Interior.

ACTION: Proposed rule.

SUMMARY: This rule would amend the Department of the Interior Acquisition Regulation to establish procedures for formal source selection. This rule would also add coverage on organizational conflicts of interest pertaining to automatic data processing systems acquisitions.

DATE: Comments must be received on or before February 19, 1988.

ADDRESS: Interested parties may obtain copies of the proposed source selection handbook referenced in this rule from the Acquisition and Assistance Division, Office of Acquisition and Property Management, Department of the

Interior, Room 5526, Washington, DC 20240. Written. comments on the proposed rule and handbook should be submitted to the above address.

FOR FURTHER INFORMATION CONTACT: Mr. William Opdyke, Chief, Acquisition and Assistance Division, Office of Acquisition and Property Management, Department of the Interior, Washington, DC 20240, telephone (202) 343–3433.

SUPPLEMENTARY INFORMATION: This proposed rule concerns internal agency procedures for source selection in certain acquisitions conducted using competitive proposals and further implements the source selection policies and procedures prescribed by Federal Acquisition Regulation Subpart (FAR) 15.6. This rule also implements FAR 9.505 regarding limitations on future contracting for ADP systems in order to resolve organizational conflicts of interest.

Primary Author

The primary author of this rule is Mr. William Opdyke, Office of Acquisition and Property Management, telephone (202) 343–3433.

Executive Order 12291, Paperwork Reduction Act, and Regulatory Flexibility Act

The Department has determined that this rule is not a major rule under Executive Order 12291 since it proposes to impose future contracting limitations only on those contractors which developed specifications for ADP systems under previous contracts.

Such action is required in order to prevent organizational conflicts of interest and to implement the requirements of FAR Subpart 9.5. The Department also certifies that this rule will not have a significant economic effect on a substantial number of small entities or other parties eligible to contract with the Department since it will only affect those contractors which agree, by entering into contracts for development of ADP system specifications, not to compete on future data systems containing such specifications without required approvals.

This rule does not contain any new information collection requirements.

List of Subjects in 48 CFR Parts 1409, 1415 and 1452

Government procurements.

For the reasons set out in the preamble, Chapter 14 of Title 48 of the Code of Federal Regulations is proposed to be amended as set forth below.

Date: November 13, 1987.

Joseph W. Gorrell,

Principal Deputy Assistant Secretary of the Interior.

PARTS 1409, 1415 AND 1452—[AMENDED]

1. The authority citation for 48 CFR Parts 1409, 1415, and 1452 continues to read as follows:

Authority: Sec. 205(c), 63 Stat. 390, 40 U.S.C. 486(c), and 5 U.S.C. 301.

2. A new Subpart 1409.5 is added to read as follows:

PART 1409—CONTRACTOR QUALIFICATIONS

* * * * *

Subpart 1409.5—Organizational Conflicts of Interest

Sec.
1409.505 General.
1409.505–2 Preparing specifications or work statements.
1409.508 Solication provision and contract clause.

Subpart 1409.5—Organizational Conflicts of Interest

1409.505 General.

1409.505–2 Preparing specifications or work statements.

(a) In accordance with the requirements of Part 306, Chapter 4 of the Department Manual (306 DM 4), it is the policy of the Department that any contractor or subcontractor which prepared and furnished specifications (including mandatory requirements or evaluated optional features as defined in Federal Information Resources Management Regulation 201–2.001) to be used by a bureau or office in a competitive acquisition for an automatic data processing system is ineligible to furnish this system, either as a contractor or subcontractor, except with the written approval of the Assistant Secretary—Policy, Budget, and Administration.

(b) Request for exceptions to the policy in paragraph (a) above shall be submitted by head of the contracting activity, through the Assistant Solicitor—Procurement and Patents, to the Director, Office or Information Resources Management for further action. Each request shall include—

(1) An analysis of the facts involving the actual or potential conflict of interest, including a complete description of the contract under which the specifications were developed and the contract under which the exception is requested;

(2) A discussion of the actions to be taken for avoiding, neutralizing, or mitigating the conflict,

(3) An analysis of benefits and detriments to the Government if the exception is approved;

(4) An analysis of benefits and detriments to the Government if the exception is not approved; and

(5) A statement regarding why approval of the exception would be in the best interests of the Government.

1409.508 Solicitation provision and contract clause.

(a) The contracting officer shall insert the clause at 1452.209–70, Limitation of Future Contracting—Automatic Data Processing, in all solicitations and contracts for preparation and delivery of specifications, including mandatory requirements and evaluated optional features, for use in acquiring automatic data processing systems.

(b) The contracting officer shall insert the clause at 1452.209–71. Organizational Conflicts of Interest—Automatic Data Processing, in all solicitations and contracts for automatic data processing systems which utilize, or are based on, specifications, (including mandatory requirements and evaluated optional features) prepared and delivered under a previous contract (to be identified in paragraph (a) of the clause).

PART 1415—CONTRACTING BY NEGOTIATION

3. Section 1415.612 is added to Subpart 1415.6 to read as follows:

1415.612 Formal source selection.

(a) Except as provided in paragraph (b) below, the procedures contained in the "Department of the Interior Source Evaluation Board Handbook" shall be used in the conduct of competitive negotiated acquisitions when:

(1) The estimated cost of the acquisition, including options, is significant in relation to the bureau's annual acquisition budget or involves a multiple year, long-term contractual relationship; and

(2) The acquisition is of a highly sensitive nature or of critical importance in fulfilling a bureau mission need and warrants the direct attention or participation of bureau senior management in the acquisition process; or

(3) Bureau procedures prescribe use for certain types of competitive negotiated acquisitions; or

(4) The head of the contracting activity determines that use is appropriate for a particular acquisition.

(b) The following acquisitions are not subject to the procedures in this section:

(1) Any acquisition using sealed bids under FAR Part 14;

(2) Any acquisition using competitive proposals under FAR Part 15 where price or cost to the Government is the sole or principal evaluation factor (i.e., the cost/price factor weight is 90 to 100 percent of the total weight); and

(3) Any acquisition for architect-engineering services under FAR Subpart 36.6.

(c) Acquisitions subject to the procedures in paragraph (a) shall be determined by the head of the contracting activity and identified in the advance procurement summary report required by Part 404, Chapter 6 of the Departmental Manual (404 DM 6). Each identified acquisition shall be accompanied by an individual contract plan when the summary report is submitted to the Director, Office of Acquisition and Property Management. When action is initiated on each such acquisition, copies of the following documents shall be promptly forwarded to the Director, Office of Acquisition and Property Management:

(1) Any redelegation of authority made pursuant to paragraph (d);

(2) Memorandum establishing the Source Evaluation Board;

(3) Source Selection Plan; and

(4) Source Selection Statement.

(d) For acquisitions conducted under this section, the Source Selection Authority shall be the head of the contracting activity. This authority may be redelegated in accordance with bureau procedures appoved by the Director, Office of Acquisition and Property Management.

(e) Copies of the handbook referenced in paragraph (a) may be obtained upon request from the Office of Acquisition and Property Management, Office of the Secretary, U.S. Department of the Interior, Washington, DC 20240.

PART 1452—SOLICITATION PROVISIONS AND CONTRACT CLAUSES

4. Sections 1452.209–70 and 1452.209–71 are added to read as follows:

1452.209–70 Limitation on Future Contracting—Automatic Data Processing.

As prescribed in 1409.508(a), insert the following clause in all solicitations and contracts for preparation and delivery of specifications, including mandatory requirements and evaluated optional features, for use in acquiring automatic data processing systems:

Limitation on Future Contracting—Automatic Data Processing—Department of the Interior (87)

(a) This contract includes requirements for the preparation and delivery of specifications, which may include mandatory requirements and evaluated optional features as defined in Federal Information Resources Management Regulation 201–2.001, for use in a future solicitation for competitively acquiring an automatic data processing (ADP) system.

(b) Pursuant to Department of the Interior Acquisition Regulation 1409.505–2, it has been determined that performance of this contract may give rise to an organizational conflict of interest if the contractor is permitted to furnish the ADP system which utilizes, or is based on, specifications prepared and furnished by this contractor under the contract. Accordingly, the attention of all prospective offerors is invited to FAR Subpart 9.5—Organizational Conflicts of Interest.

(c) The nature of the organizational conflict involves the potential for the contractor, in performing the work under this contract, to gain an unfair competitive advantage over other sources with respect to furnishing the ADP system under a future acquisition.

(d) The contractor agrees to remain ineligible as a prime contractor or subcontractor to perform the work to be described in any future solicitation(s) for an ADP system which uses, or is based on, the specifications developed under this contract.

(e) The restriction in paragraph (d) above may be waived only upon the written approval of the Assistant Secretary—Policy, Budget, and Administration. Requests for waiver shall be submitted to the contracting officer and contain sufficient information to demonstrate how the potential for conflict of interest will be avoided, neutralized or mitigated.

(f) The contractor agrees to include the provisions of this clause including this paragraph (f) in each subcontract awarded under this contract for preparation and delivery of the specifications described in paragraph (a).

(End of clause)

1452.209–71 Organizational Conflicts of Interest—Automatic Data Processing.

As prescribed in 1409.508(b), insert the following clause in all solicitations and contracts for automatic data processing systems which utilize specifications, including mandatory requirements and evaluated option features, prepared and delivered under a previous contract (to be identified):

Organizational Conflicts of Interest—Automatic Data Processing—Department of the Interior (87)

(a) The solicitation contains specifications, including mandatory requirements and evaluated optional features as defined in Federal Information Resources Management Regulation 201–2.001, which were furnished, or are based on work performed, under contract *(contract number)* with *(name of contractor and address)*.

(b) Pursuant to the requirements of FAR Subpart 9.5 and Department of the Interior Acquisition Regulation 1409.505–2, *(name of contractor)* and any of its subcontractors which furnished specifications of the type specified in paragraph (a) above in *contract number)* are ineligible to participate in this acquisition except with the written approval of the Assistant Secretary—Policy, Budget, and Administration.

(c) Requests for exception to the restrictions in paragraph (b) above shall be made in writing to the contracting officer and contain sufficient information to demonstrate how the potential for conflict of interest will be avoided, neutralized or mitigated if the contractor or subcontractor is allowed to participate.

(d) The contractor agrees that if after award it discovers an organizational conflict of interest with respect to this contract, an immediate and full disclosure shall be made in writing to the contracting officer and a request for exception under paragraph (c) above shall be included. Based upon such disclosure and request, the contracting officer may terminate the contract for convenience if such action is determined to be in the Government's best interest.

(e) In the event the contractor was aware of an organizational conflict of interest prior to award of this contract and did not request an exception under paragraph (c) above, the contracting officer may terminate this contract for default.

(f) The contractor agrees to include the provisions of this clause including this paragraph (f) in each subcontract awarded under this contract for preparation and delivery of the specifications described in paragraph (a) above.

(End of clause)

BILLING CODE 4310–RF–M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Parts 611, 672, and 675

[Docket No. 71267–7267]

Foreign Fishing; Groundfish of the Gulf of Alaska; Groundfish of the Bering Sea and Aleutian Islands Area

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Proposed rule.

SUMMARY: NOAA issues a proposed rule to implement Amendment 16 to the Fishery Management Plan (FMP) for the Groundfish of the Gulf of Alaska and Amendment 11a to the FMP for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area. Proposed regulatory changes would, if approved, (1) require catcher/processor and mothership processor vessels operating

in the Gulf of Alaska and in the Bering Sea and Aleutian Islands area to maintain aboard a transfer log and to report information weekly about groundfish production and transfers and off-loading of groundfish products; (2) respecify prohibited species for domestic and foreign fisheries of the Gulf of Alaska and three other categories of species in the Gulf of Alaska foreign fisheries; (3) remove the reserve category for some species of groundfish in the Gulf of Alaska; (4) rename target quotas (TQ) as total allowable catches (TAC) for groundfish of the Gulf of Alaska; (5) change the starting date of the public comment period for proposed annual specifications for the Gulf of Alaska; and (6) expressly authorize inseason reapportionments of domestic annual processing to joint venture processing for the Gulf of Alaska. The regulations implementing these amendments are intended to promote full accounting of groundfish catches in both management areas and to make clear the species in the Gulf of Alaska that are considered to be prohibited species. These regulatory changes are necessary to adjust to the changing nature of the Alaska groundfish fisheries that are being increasingly dominated by U.S. fishermen.

DATE: Written comments must be received on or before Saturday, January 30, 1988.

ADDRESSES: Comments should be sent to Robert W. McVey, Director, Alaska Region, National Marine fisheries Service, P.O. Box 1668, Juneau, AK 99802–1668. Copies of the amendments and their environmental assessment and regulatory impact review/initial regulatory flexibility analysis (EA/RIR/IRFA) may be obtained by contacting the North Pacific Fishery Management Council, P.O. Box 103136, Anchorage, AK 99510, 907–274–4563. Comments on the environmental assessment prepared for this action are particularly requested.

Comments on the information collection requirement of this rule should be directed to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503, Attention: Desk Officer for NOAA.

FOR FURTHER INFORMATION CONTACT: Ronald J. Berg (Fishery Biologist, NMFS), 907–586–7230.

SUPPLEMENTARY INFORMATION: Domestic and foreign groundfish fisheries in the exclusive economic zones (EEZ) of the Gulf of Alaska (GOA) and of the Bering Sea and Aleutian Islands are a (BSAI) are managed in accordance with the two FMPs, which were developed by the North Pacific Fishery Management Council (Council) under authority of the Magnuson Fishery Conservation and Management Act (Magnuson Act), and implemented by regulations appearing at 50 CFR 611.92 and 611.93 and Parts 672 and 675.

The Council invited management proposals from the general public, other agencies, and the two FMP Plan Teams, and set a deadline of December 12, 1986, for receiving proposals that would amend the FMPs for Groundfish of the Gulf of Alaska and for the Groundfish Fishery of the Bering Sea and Aleutians Islands Area.

Proposals received by the deadline were ranked by the Council's Plan Teams for the two FMPs. The Plan Teams prepared draft EA/RIR/IRFAs for the proposals for public comment as required by the National Environmental Policy Act of 1969, Executive Order 12291, and NOAA policy. The Council reviewed these documents at its March 18–20, 1987, meeting and decided to release for public comment the analyses of those proposals that the Council determined should be considered further. At its May 20–22, 1987, meeting, the Council considered public testimony and the recommendations of its Advisory Panel (AP), Scientific and Statistical Committee (SSC), and the Plan Teams.

Common to both FMPs were proposals to change current reporting requirements of catcher/processor and mothership processor vessels. Certain segments of the industry considered the changes to be too burdensome, and they opposed them. In view of this opposition, the Council decided not to take action on the changes to reporting requirements for either of the FMPs during its May 20–22, 1987, meeting. Instead, the Council appointed a subcommittee to work with NMFS to develop reporting requirements that would be acceptable to the industry, but which would also meet the needs of NMFS to account for total groundfish catches. The Council set aside the reporting requirements of Amendment 11 to the BSAI FMP, adopted the remainder, and sent that part of the amendment forward for review by the Secretary of Commerce. Therefore, the current amendment to the BSAI FMP being proposed in this action is numbered Amendment 11a. The Council also deferred further action on all parts of Amendment 16 to the GOA FMP until its September 23–25, 1987, meeting to allow the subcommittee time to complete its assignment concerning the reporting requirements and until it could review the newly reorganized text of the GOA FMP.

At its September 23–25, 1987, meeting, the Council adopted the recommendations of its subcommittee on reporting requirements and reviewed the other parts of GOA Amendment 16. On the basis of advice from the AP and the SSC, and public testimony, the Council approved for submission to the Secretary of Commerce the following parts of Amendment 16 to the GOA FMP: (1) Reorganized FMP text to make it easier to read and implement, including changing the term "target quota" to "total allowable catch"; (2) added a new definition of acceptable biological catch (ABC), (3) added a new section to the FMP on vessel safety; and (4) changed reporting requirements. The changes to reporting requirements adopted by the Council are the same as those in Amendment 11a to the BSAI FMP.

A description of and the reasons for the two management proposals that would be implemented by this proposed rule are as follows:

1. Changes in reporting requirements for catcher/processor and mothership processor vessels—regulations governing both the Gulf of Alaska and Bering Sea-Aleutians Islands Area.

Current regulations require operations of catcher/processor and mothership processor vessels to (1) notify the Regional Director of the times and positions of fishing activity when such vessels start or stop fishing activity and (2) submit to the Regional Director weekly groundfish catch and receipt reports. These regulations, which implement Amendment 14 to the GOA FMP and Amendment 10 to the BSAI FMP, are found at §§ 672.5(a)(3) and 675.5(a)(3), respectively (50 FR 43193, October 24, 1985; and 52 FR 8592, March 19, 1987).

NMFS uses the weekly catch and receipt reports during management of the groundfish fisheries as they progress during the fishing season. These reports are considered to be estimates of the amounts of groundfish caught and/or received, and are not in lieu of the requirements for submission to the Alaska Department of Fish and Game of State of Alaska fish tickets, which serve as the official confirmation report of groundfish caught and/or received. When catcher/processor and mothership processor vessels land their catches shoreside, the accuracy of catch information reported on State of Alaska fish tickets, which can be verified by observing the off-loading, shorting, and weighing of the catch at processing establishments, is used to confirm the earlier submitted weekly catch and receipt reports. In this manner, NMFS is able to guard against gross under-reporting of catch or misrepresentation of the species caught.

Catcher/processor and mothership processor vessels often transfer of off-load groundfish products at sea for direct transshipment to destinations in the United States or to foreign nations. Groundfish products may never come ashore where NMFS can verify the accuracy of the reported catch, and no system exists to verify the accuracy of either the State fish tickets or the weekly catch reports submitted by catcher/processor and mothership processor vessels. Thus, NMFS is unable to enforce effectively those regaulations, such as bycatch restrictions and quotas, that require an accurate accounting of the amounts of each groundfish species harvested. Accurate accounting by NMFS is necessary for management of the groundfish resources.

Quantities of fish being harvested and/or processed off Alaska by U.S. catcher/processor and mothership processor vessels are increasing with market demand and the growth in numbers of U.S. vessels. Groundfish catches by all U.S. vessels in 1987 reached 306,000 metric tons (mt) as compared to 144,000 mt in 1986 (excluding catches by joint venture operations). About 58 percent of the total, or 178,000 mt, was taken by catcher/processor and mothership processor vessels. In 1988, these quantities will increase markedly. More quantities of groundfish products, therefore, will be transferred or off-loaded at sea for direct transshipment to destinations, which will further reduce accurate accounting by NMFS. Therefore, NMFS has a need for operators of catcher/processor and mothership processor vessels to maintain onboard a Cargo Transfer/offloading Log, in which records of groundfish transfers or off-loadings can be kept.

NMFS also has a need to receive current reports of processed groundfish products that were transferred or off-loaded at sea. Such reports would provide an accurate baseline against which to compare amounts of product aboard vessels during boarding inspections. Thus, inspections could be conducted more efficiently, which would benefit fishermen and processors who otherwise could lose work time caused by an inefficient inspection. Current reports are also necessary to verify actual results of at-sea transfers and off-loadings of product. Otherwise, vessel operators could subsequently change the onboard transfer log for economic gain.

The Council, therefore, proposes more effectively to manage the groundfish fisheries by requiring catcher/processor and mothership processor vessels to maintain aboard a Cargo Transfer/Offloading Log and to report transferred or off-loaded products on a Product Transfer Report as follows:

A. New requirement for an onboard Cargo Transfer/Offloading Log. Operators of catcher/processor and mothership processor vessels will be required to maintain aboard their vessels a Cargo Transfer/Offloading Log. For each transfer or off-loading of any fishery product from a regulated vessel in the EEZ, outside the EEZ, within any States' territorial waters, or within the internal waters of any State, the Cargo Transfer/Offloading Log will contain the following information: (1) The time, date, and location of the transfer of off-loading; (2) the product weight and product type, by species or species group; (3) the name and permit number of the vessel receiving the product or, if to a shoreside location, the name of the location and commercial facility receiving the product; and (4) the intended port or destination of the receiving vessel if transferred to another vessel.

If either a catcher/processor or mothership processor vessel were to receive product from another vessel it must be logged in as being "received". This is necessary for at-sea inspections. If product were not logged, the vessel would appear to be under-logging its catch (i.e., product that is not accounted for in the weekly catch/receipt reports). Vessels receiving product, such as a refrigerated transport vessel, are not required to maintain the Cargo Transfer/Offloading Log unless they are also operating as a catcher/processor or mothership/processor.

B. *New requirement of reports of transferred product weight.* Operators of catcher/processor and mothership processor vessels will be required to submit a Product Transfer Report. This report will be required for any Sunday through Saturday period if a transfer were made. It must include the product weight and the number of cartons transferred or off-loaded by product type by species or species group.

Part of the recommendations made by the Council's appointed subcommittee and adopted by the Council for inclusion in Amendments 16 and 11a included a requirement for operators of catcher/processor and mothership processor vessels to report information on the number of cartons and the representative weight of a carton by product type. The subcommittee intended that NMFS should use this information to compare currently reported round weights of groundfish caught or received to build a database for future use in determining conversion rates from round weight to product weight.

Vessel operators do not weigh the raw groundfish catch prior to processing it. They determine round weight by counting product weight and converting the product weight back to round weight by use of product recovery rates determined by the vessel operator. The reporting of product weight and carton number simply identifies the operator's basis for determining round weight. The inclusion of product weight and carton numbers is largely at the request of industry representatives who wish to clarify the basis for their round weight determinations. To accurately report round weight requires vessel operators to use an accurate product recovery rate, which they have determined on a seasonal and geographic basis as opposed to any arbitrary rates that the government might set at this time. Fishermen are very familiar with the conversion methods and accounting employed in the proposed system.

Thus, these new reporting requirements will allow NMFS to acquire information on conversion factors representing many fishing seasons, product types, and fishing areas. Once the degree of variability is understood, NMFS will be better able to compare processed amounts in vessels' holds with reported catches to determine accuracy of reported catches. NMFS would better understand production aboard vessels to determine whether gross violations in reporting had occurred.

The Council believes that this information would effectively improve management of the groundfish fisheries over the long term and proposes changes in the current requirements for weelky catch reports by catcher/processor and mothership processor vessels as follows:

The presently required weekly catch report by catcher/processor and mothership processor vessels would be renamed "Weekly Catch/Receipt and Production Report". In addition to other currently required information, the proposed regulation would require information on the number of cartons and unit net weight of a carton of processed fish by species or species group.

The Council finds that the above changes in reporting requirements will

markedly increase NMFS's ability to meet its groundfish management responsibilities. The Cargo Transfer/Offloading Log would be a permanent record maintained aboard the vessel that would be completed by vessel personnel and presented to enforcement officers at sea for inspection. It contains the basic information that the vessel will normally transmit by radio or telex to its home office. Upon receipt of the radio or telex information, the home office would then use that information to prepare the weekly summary or Product Transfer Report for submission to NMFS either by telex, phone, or mail. Although the vessel operator could transmit the report directly to NMFS, in practice the vessel operator usually transmits to his home office, which then forwards a completed report to NMFS. There is no requirement to maintain the Product Transfer Report aboard the vessel, only the Cargo Transfer/Offloading Log, which is the basis for the Product Transfer Report. The Cargo Transfer/Offloading Log is a physical document that is maintained aboard the vessel for inspection at sea.

The Product Transfer Report contains detailed information that is not in the Weekly Catch/Receipt and Production Report, which only provides quantities received but not the source or time and place of receipt that may be necessary to resolve illegal logging violations. Cargo transport vessels are not required to submit weekly reports, since they are not "catcher/processor" or "mothership processor" vessels.
